## PREFACE.

---

It is apparent that the vital and overshadowing issue of the Presidential campaign of 1896 is to be the well-defined issue growing out of the opposition to, and the advocacy of, the free and unlimited coinage by the Government of silver at the ratio of 16 to 1, independently of the action of other nations. The people, by the interest manifested in it, had made this the issue before any party had acted upon it by promulgating a platform. The issue has come to stay until settled at the polls in November next. It is urged by the advocates of the free, unlimited and independent coinage of silver that unfriendly legislation by Congress against silver, concurring with legislation favorable to gold, has caused the destruction of the parity between the two metals, and that the restoration of the coinage of silver on equal terms with gold will eventually, if not immediately, restore the parity. Is it true or untrue that the legislation of Congress has been either unfriendly towards silver or favorable to gold? If it has drifted in either direction, then to what length has it been permitted to go in that direction? These are questions which the people have evinced a determination to investigate, each voter for himself. To aid this investigation and furnish, in convenient form, a book of reference for public men addressing the people during the campaign, this volume is published, which contains all the laws enacted by Congress relating to gold and silver coinage and certificates from the beginning of the Government down to the present time.

In the arrangement of the matter contained in the book, it was thought expedient to divide the book into three parts; the first part treating of the laws relating to United States coins, the second part treating of the laws relating to foreign coins and the third part treating of the laws relating to gold and silver certificates. The laws

contained in each part are published in chronological order, beginning with the earliest laws enacted and bringing them down to date in the order of time in which they were passed by Congress. By this division of the book into three parts and publication of the laws in the order of time in which they became laws, it was intended to group together all the laws on each branch of the general subject—a method of publication which, it was believed, had such obvious advantages that it would meet with the ready approbation of the reader. Wherever portions only of laws, containing a certain section or sections by number, have been published, it can be relied on that the portions of the particular law omitted either referred to other matters than gold or silver coinage or, if relating to such coinage, then that it involved such unimportant details as to be of no interest to the reader. Most frequently, the omitted portions of such laws pertained to other subjects than gold or silver coinage. Trusting that this volume, which contains no comment or criticism upon any law published, may be of assistance to the people who are seeking the truth as to the laws enacted on the subject of gold and silver coinage and as to how those laws bear on the issue of this campaign, the book is respectfully submitted by the publishers.

The treasurer shall receive from the chief coiner all the coins which shall have been struck, and shall pay or deliver them to the persons respectively to whom the same ought to be paid or delivered; he shall moreover receive and safely keep all monies which shall be for the use, maintenance and support of the Mint, and shall disburse the same upon warrants signed by the Director.

And be it further enacted, That the accounts of the officers and persons employed in and about the said Mint and for services performed in relation thereto, and all other accounts concerning the business and administration thereof, shall be adjusted and settled in the Treasury Department of the United States, and a quarter-yearly account of the receipts and disbursements of the said Mint shall be rendered at the said Treasury for settlement according to such forms and regulations as shall have been prescribed by that Department; and that once in each year a report of the transactions of the said Mint, accompanied by an abstract of the settlements which shall have been from time to time made, duly certified by the Comptroller of the Treasury, shall be laid before Congress for their information.

Sec. 8. And be it further enacted, That in addition to the authority vested in the President of the United States by a resolution of the last session, touching the engaging of artists and the procuring of apparatus for the said Mint, the President be authorized, and he is hereby authorized to cause to be provided and put in proper condition such buildings, and in such manner as shall ap-

pear to him requisite for the purpose of carrying on the business of the said Mint; and that as well the expenses which shall have been incurred pursuant to the said resolution as those which may be incurred in providing and preparing the said buildings, and all other expenses which may hereafter accrue for the maintenance and support of the said Mint, and in carrying on the business thereof, over and above the sums which may be received by reason of the rate per centum for coinage hereinafter mentioned, shall be defrayed from the Treasury of the United States, out of any monies which from time to time shall be therein, not otherwise appropriated.

Sec. 9. And be it further enacted, That there shall be from time to time struck and coined at the said Mint, coins of gold, silver and copper, of the following denominations, values and descriptions, viz.: Eagles—each to be of the value of ten dollars or units, and to contain two hundred and forty-seven grains and four-eighths of a grain of pure, or two hundred and seventy grains of standard gold. Half Eagles—each to be of the value of five dollars, and to contain one hundred and twenty-three grains and six-eighths of a grain of pure, or one hundred and thirty-five grains of standard gold. Quarter Eagles—each to be of the value of two dollars and a half dollar, and to contain sixty-one grains and seven-eighths of a grain of pure, or sixty-seven grains and four-eighths of a grain of standard gold. Dollars or units—each to be of the value of a Spanish milled dollar as the same is now current, and to contain three hundred and seventy-one grains and four sixteenth parts of a grain of pure, or four hundred and sixteen grains of standard silver. Half-Dollars—each to be of half the value of the dollar or unit, and to contain one hundred and eighty-five grains and ten sixteenth parts of a grain of pure, or two hundred and eight grains of standard silver. Quarter-Dollars—each to be of one-fourth the value of the dollar or unit, and to contain ninety-two grains and thirteen sixteenth parts of a grain of pure, or one hundred and four grains of standard silver. Dimes—each to be of the value of one-tenth of a dollar or unit, and to contain thirty-seven grains and two sixteenth parts of a grain of pure, or forty-one grains and three fifth parts of a grain of standard silver. Half-

Cents—each to be of the value of the one-hundredth part of a dollar, and to contain eleven penny-weights of copper. Half-Cents—each to be of the value of half a cent, and to contain five penny-weights and half a penny-weight of copper.

Sec. 10. And be it further enacted, That, upon the said coins respectively, there shall be the following devices and legends, namely: Upon one side of each of the said coins there shall be an impression emblematic of liberty, with an inscription of the word Liberty, and the year of the coinage; and upon the reverse of each of the gold and silver coins there shall be the figure or representation of an eagle, with this inscription, "United States of America" and upon the reverse of each of the copper coins, there shall be an inscription which shall express the denomination of the piece, namely, cent or half-cent, as the case may require.

Sec. 11. And be it further enacted, That the proportional value of gold to silver in all coins which shall by law be current as money within the United States, shall be as fifteen to one, according to quantity in weight, of pure gold or pure silver; that is to say, every fifteen pounds weight of pure silver shall be of equal value in all payments, with one pound weight of pure gold, and so in proportion as to any greater or less quantities of the respective metals.

Sec. 12. And be it further enacted, That the standard for all gold coins of the United States shall be eleven parts fine to one part alloy; and accordingly that eleven parts in twelve of the entire weight of each of the said coins shall consist of pure gold, and the remaining one-twelfth part of alloy; and the said alloy shall be composed of silver and copper, in such proportions not exceeding one-half silver as shall be found convenient; to be regulated by the Director of the Mint, for the time being, with the approbation of the President of the United States, until further provision shall be made by law. And to the end that the necessary information may be had in order to the making of such further provision, it shall be

the duty of the Director of the Mint, at the expiration of a year after commencing the operations of the said Mint, to report to Congress the practice thereof during the said year, touching the composition of the alloy of the said gold coins, the reasons for such practice, and the experiments and observations which shall have been made concerning the effects of different proportions of silver and copper in the said alloy.

Sec. 13. And be it further enacted, That the standard for all silver coins of the United States shall be one thousand four hundred and eighty-five parts fine to one hundred and seventy-nine parts alloy; and accordingly that one thousand four hundred and eighty-five parts in one thousand six hundred and sixty-four parts of the entire weight of each of the said coins shall consist of pure silver, and the remaining one hundred and seventy-nine parts of alloy; which alloy shall be wholly of copper.

Sec. 14. And be it further enacted, That it shall be lawful for any person or persons to bring to the said Mint gold and silver bullion, in order to their being coined; and that the bullion so brought shall be there assayed and coined as speedily as may be after the receipt thereof, and that free of expense to the person or persons by whom the same shall have been brought. And as soon as the said bullion shall have been coined, the person or persons by whom the same shall have been delivered, shall upon demand receive in lieu thereof coins of the same species of bullion which shall have been so delivered, weight for weight, of the pure gold or pure silver therein contained: Provided nevertheless, That it shall be at the mutual option of the party or parties bringing such bullion, and of the Director of the said Mint, to make an immediate exchange of coins for standard bullion, with a deduction of one-half per cent. from the weight of the pure gold, or pure silver contained in the said bullion, as an indemnification to the Mint for the time which will necessarily be required for coining the said bullion, and for the advance which shall have been so made in coins. And it shall be the duty of the Secretary of the Treasury to furnish the said Mint from time to time whenever the state of the Treasury will admit thereof,

with such sums as may be necessary for effecting the said exchanges, to be replaced as speedily as may be out of the coins which shall have been made of the bullion for which the monies so furnished shall have been exchanged; and the said deduction of one-half per cent. shall constitute a fund towards defraying the expenses of the said Mint.

Sec. 15. And be it further enacted, That the bullion which shall be brought as aforesaid to the Mint to be coined, shall be coined, and the equivalent thereof in coins rendered, if demanded, in the order in which the said bullion shall have been brought or delivered, giving priority according to priority of delivery only, and without preference to any person or persons; and if any preference shall be given contrary to the direction aforesaid, the officer by whom such undue preference shall be given, shall in each case forfeit and pay one thousand dollars, to be recovered with costs of suit. And to the end that it may be known if such preference shall at any time be given, the assayer or officer to whom the said bullion shall be delivered to be coined shall give to the person or persons bringing the same a memorandum in writing under his hand, denoting the weight, fineness and value thereof, together with the day and order of its delivery into the Mint.

Sec. 16. And be it further enacted, That all the gold and silver coins which shall have been struck at, and issued from the said Mint, shall be a lawful tender in all payments whatsoever, those of full weight according to the respective values herein before declared, and those of less than full weight at values proportional to their respective weights.

Sec. 17. And be it further enacted, That it shall be the duty of the respective officers of the said Mint, carefully and faithfully to use their best endeavors that all the gold and silver coins which shall be struck at the said Mint shall be, as nearly as may be, conformable to the several standards and weights aforesaid, and that the copper whereof the cents and half-cents aforesaid may be composed, shall be of good quality.

Sec. 18. And the better to secure a due conformity of the said gold and silver coins to their respective stand-

ards, Be it further enacted, That from every separate mass of standard gold or silver, which shall be made into coins at the said Mint, there shall be taken, set apart by the Treasurer and reserved in his custody a certain number of pieces, not less than three, and that once in every year the pieces so set apart and reserved, shall be assayed under the inspection of the Chief Justice of the United States, the Secretary and Comptroller of the Treasury, the Secretary for the Department of State, and the Attorney General of the United States, (who are hereby required to attend for that purpose at the said Mint, on the last Monday in July in each year,) or under the inspection of any three of them, in such manner as they or a majority of them shall direct, and in the presence of the Director, assayer and chief coiner of the said Mint; and if it shall be found that the gold and silver so assayed, shall not be inferior to their respective standards hereinbefore declared, more than one part in one hundred and forty-four parts, the officer or officers of the said Mint whom it may concern shall be held excusable; but if any greater inferiority shall appear, it shall be certified to the President of the United States, and the said officer or officers shall be deemed disqualified to hold their respective offices.

Sec. 19. And be it further enacted, That if any of the gold or silver coins which shall be struck or coined at the said Mint shall be debased or made worse as to the proportion of fine gold or fine silver therein contained, or shall be of less weight or value than the same ought to be pursuant to the directions of this act, through the default or with the connivance of any of the officers or persons who shall be employed at the said Mint, for the purpose of profit or gain, or otherwise with a fraudulent intent, and if any of the said officers or persons shall embezzle any of the metals which shall at any time be committed to their charge for the purpose of being coined, or any of the coins which shall be struck or coined at the said Mint, every such officer or persons who shall commit any or either of the said offences, shall be deemed guilty of felony, and shall suffer death.

Sec. 20. And be it further enacted, That the money of account of the United States shall be expressed in

dollars or units, dismes or tenths, cents or hundredths, and milles or thousandths, a disme being the tenth part of a dollar, a cent the hundredth part of a dollar, a mille the thousandth part of a dollar, and that all accounts in the public offices and all proceedings in the courts of the United States shall be kept and had in conformity to this regulation.

And be it further enacted, That, when silver bullion, brought to the Mint for coinage, is found to require the operation of the test, the expense of the materials employed in the process, together with a reasonable allowance for the wastage necessarily arising therefrom, to be determined by the melter and refiner of the Mint, with the approbation of the Director, shall be retained from such deposit, and accounted for by the treasurer of the Mint to the Treasury of the United States.

Sec. 5. And be it further enacted, That, when silver bullion, brought to the Mint for coinage, shall be found to contain a proportion of gold, the separation thereof shall be effected at the expense of the party interested therein; Provided, nevertheless, That, when the proportion of gold is such that it cannot be separated advantageously, it shall be lawful, with the consent of the owner, or, in his absence, at the discretion of the Director, to coin the same as an ordinary deposit of silver.

Sec. 6. And be it further enacted, That the Director of the Mint may employ the requisite number of clerks, at a compensation not exceeding in the whole the sum of seventeen hundred dollars, and such number of workmen and assistants as the business of the Mint shall, from time to time, require.

Sec. 7. And be it further enacted, That it shall be lawful for the Director of the Mint to receive, and cause to be assayed, bullion not intended for coinage, and to cause certificates to be given of the fineness thereof by such officer as he shall designate for that purpose, at such rates of charge, to be paid by the owner of said bullion, and under such regulations, as the said Director may, from time to time, establish.

Sec. 3. And be it further enacted, That the Director

shall appoint, with the approbation of the President, assistants to the assayer, melter and refiner, chief coiner, and engraver, and clerks for the Director and treasurer, whenever, on representation made by the Director to the President, it shall be the opinion of the President that such assistants or clerks are necessary. And it shall be the duty of the assistants to aid their principals in the execution of their respective offices, and of the clerks to perform such duties as shall be prescribed for them by the Director.

Sec. 4. And be it further enacted, That whenever any officer of the Mint shall be temporarily absent, on account of sickness, or any other sufficient cause, it shall be lawful for the Director, with the assent of said officer, to appoint some person attached to the Mint, to act in the place of such officer during his absence, and that the Director shall employ such workmen and servants in the Mint as he shall from time [to time] find necessary.

Sec. 5. And be it further enacted, That every officer, assistant, and clerk of the Mint, shall, before he enters upon the execution of his office, take an oath or affirmation before some judge of the United States, or judge of the superior court or any court of record of any State, faithfully and diligently to perform the duties thereof.

Sec. 6. And be it further enacted, That the following officers of the Mint, before entering upon the execution of their respective offices, shall become bound to the United States, with one or more sureties, to the satisfaction of the Secretary of the Treasury, in the sums hereinafter mentioned, with condition for the faithful and diligent performance of the duties of their offices, viz: The treasurer in the sum of ten thousand dollars; the assayer in the sum of five thousand dollars; the melter and refiner in the sum of ten thousand dollars; the chief coiner in the sum of ten thousand dollars. And that similar bonds may also be required of the assistants and clerks, in such sums as the Director shall determine, with the approbation of the Secretary of the Treasury.

Sec. 7. And be it further enacted, That there shall be allowed to the officers of the Mint the following salaries per annum: To the Director, for his services, including traveling expenses incurred in visiting the different

branches, and all other charges whatever, three thousand five hundred dollars; to the treasurer, assayer, melter and refiner, chief coiner, and engraver, each, two thousand dollars; to the assistants and clerks, such annual salaries shall be allowed as the Director may determine, with the approbation of the President: Provided, That an assistant shall not receive more than fifteen hundred dollars; and that a clerk shall not receive more than twelve hundred dollars; to the workmen and servants shall be allowed such wages, to be determined by the Director, as may be customary and reasonable, according to their respective stations and occupations; and that the salaries provided for in this section shall be payable in quarterly instalments.

Sec. 8. And be it further enacted, That the standard for both gold and silver coins of the United States shall hereafter be such, that of one thousand parts by weight, nine hundred shall be of pure metal, and one hundred of alloy; and the alloy of the silver coins shall be of copper; and the alloy of the gold coins shall be of copper and silver, provided that the silver do not exceed one-half of the whole alloy.

Sec. 9. And be it further enacted, That of the silver coins, the dollar shall be of the weight of four hundred and twelve and one-half grains; the half dollar of the weight of two hundred and six and one-fourth grains; the quarter dollar of the weight of one hundred and three and one-eighth grains; the dime, or tenth part of a dollar, of the weight of forty-one and a quarter grains; and the half dime or twentieth part of a dollar, of the weight of twenty grains, and five-eighths of a grain. And that dollars, half dollars, and quarter dollars, dimes, and half dimes, shall be legal tenders of payment according to their nominal value, for any sums whatever.

Sec. 10. And be it further enacted, That of the gold coins, the weight of the eagle shall be two hundred and fifty-eight grains; that of the half eagle one hundred and twenty-nine grains; and that of the quarter eagle sixty-four and one-half grains. And that for all sums whatever, the eagle shall be a legal tender of payment for ten dollars; the half eagle for five dollars; and the quarter eagle for two and a half dollars.

Sec. 11. And be it further enacted, That the silver coins heretofore issued at the Mint of the United States, and the gold coins issued since the thirty-first day of July, one thousand eight hundred and thirty-four, shall continue to be legal tenders of payment for their nominal values, on the same terms as if they were of the coinage provided for by this act.

Sec. 12. And be it further enacted, That of the copper coins, the weight of the cent shall be one hundred and sixty-eight grains, and the weight of the half-cent eighty-four grains. And the cent shall be considered of the value of one hundredth part of a dollar, and the half-cent of the value of one two-hundredth part of a dollar.

Sec. 13. And be it further enacted, That upon the coins struck at the Mint there shall be the following devices and legends: upon one side of each of said coins there shall be an impression emblematic of liberty, with an inscription of the word Liberty, and the year of the coinage; and upon the reverse of each of the gold and silver coins, there shall be the figure or representation of an eagle, with the inscription United States of America, and a designation of the value of the coin; but on the reverse of the dime and half dime, cent and half cent, the figure of the eagle shall be omitted.

Sec. 14. And be it further enacted, That gold and silver bullion brought to the Mint for coinage, shall be received and coined, by the proper officers, for the benefit of the depositor: Provided, That it shall be lawful to refuse, at the Mint, any deposit of less value than one hundred dollars, and any bullion so base as to be unsuitable for the operations of the Mint; And provided also, that when gold and silver are combined, if either of these metals be in such small proportion that it cannot be separated advantageously, no allowance shall be made to the depositor for the value of such metal.

Sec. 15. And be it further enacted, That when bullion is brought to the Mint for coinage, it shall be weighed by the treasurer, in the presence of the depositor, when practicable, and a receipt given which shall state the description and weight of the bullion: Provided, That when the bullion is in such a state as to require melting before its value can be ascertained, the weight after melting shall

be considered as the true weight of the bullion deposited.

Sec. 16. And be it further enacted, That from every parcel of bullion deposited for coinage, the treasurer shall deliver to the assayer a sufficient portion for the purpose of being assayed; but all such bullion remaining from the operations of the assay shall be returned to the treasurer by the assayer.

Sec. 17. And be it further enacted, That the assayer shall report to the treasurer the quality or standard of the bullion assayed by him; and he shall also communicate to the treasurer such information as will enable him to estimate the amount of the charges hereinafter provided for, to be made to the depositor, for the expenses of converting the bullion into standard metal fit for coinage.

Sec. 18. And be it further enacted, That the only subjects of charge by the Mint to the depositor shall be the following: For refining when the bullion is below standard; for toughening when metals are contained in it which render it unfit for coinage; for copper used for alloy when the bullion is above standard; for silver introduced into the alloy of gold; and for separating the gold and silver when these metals exist together in the bullion: and that the rate of these charges shall be fixed, from time to time, by the Director, with the concurrence of the Secretary of the Treasury, so as not to exceed, in their judgment, the actual expense to the Mint of the materials and labor employed in each of the cases aforementioned; and that the amount received from these charges shall be accounted for, and appropriated for defraying the contingent expenses of the Mint.

Sec. 19. And be it further enacted, That from the report of the assayer, and the weight of the bullion, the treasurer shall estimate the whole value of each deposite, and also the amount of the charges or deductions if any; of all which he shall give a detailed memorandum to the depositor; and he shall also give, at the same time, under his hand, a certificate of the net amount of the deposite, to be paid in coins of the same species of bullion as that deposited.

Sec. 20. And be it further enacted, That parcels of bullion shall be, from time to time, transferred by the treasurer to the melter and refiner; that a careful record of

these transfers, noting the weight and character of the bullion, shall be kept; and that the bullion thus placed in the hands of the melter and refiner shall be subjected to the several processes which may be necessary to form it into ingots of the legal standard, and of a quality suitable for coinage.

Sec. 21. And be it further enacted, That the ingots thus prepared shall be assayed by the assayer, and if they prove to be within the limits allowed for deviation from the standard, they shall be transferred by the melter and refiner to the treasurer, accompanied by the assayer's certificate of their fineness; and that a careful record of the transfer shall be kept by the treasurer.

Sec. 22. And be it further enacted, That no ingots of gold shall be used for coinage of which the quality differs more than two thousandths from the legal standard; and that no ingots of silver shall be used for coinage of which the quality differs more than three thousandths from the legal standard.

Sec. 23. And be it further enacted, That in the treasurer's account with the melter and refiner, the melter and refiner shall be debited with the standard weight of all the bullion placed in his hands, that is to say, with the weight of metal of legal standard fineness which it will make; and that he shall be credited by the standard weight of all the ingots delivered by him to the treasurer; and that once at least in every year, at such time as the Director shall appoint, the melter and refiner shall deliver up to the treasurer all the bullion in his possession, in order that his accounts may be settled up to that time; and, in this settlement, he shall be entitled to a credit for the difference between the whole amount of bullion delivered to him, and received from him, since the last settlement, as an allowance for necessary waste: Provided, That this allowance shall not exceed two thousandths of the whole amount of gold and silver bullion, respectively, that had been delivered to him by the treasurer.

Sec. 24. And be it further enacted, That the treasurer shall, from time to time, deliver over to the chief coiner, ingots for the purpose of coinage; that he shall keep a careful record of these transfers, noting the

weight and description of the ingots; and that the ingots thus placed in the hands of the chief coiner shall be passed through the several processes necessary to make from them coins, in all respects conformable to law.

Sec. 25. And be it further enacted, That in adjusting the weights of the coins, the following deviations from the standard weight shall not be exceeded in any of the single pieces: In the dollar and half dollar, one grain and a half; in the quarter dollar, one grain; in the dime and half dime, half a grain; in the gold coins, one-quarter of a grain; in the copper coins, one grain in the pennyweight; and that in weighing a large number of pieces together, when delivered from the chief coiner to the treasurer, and from the treasurer to the depositors, the deviations from the standard weight shall not exceed the following limits: Four pennyweights in one thousand dollars; three pennyweights in one thousand half dollars; two pennyweights in one thousand quarter dollars; one pennyweight in one thousand dimes; one pennyweight in one thousand half dimes; two pennyweights in one thousand eagles; one and a half pennyweight in one thousand half eagles; one pennyweight in one thousand quarter eagles.

Sec. 26. And be it further enacted, That the chief coiner shall, from time to time, as the coins are prepared, deliver them over to the treasurer, who shall keep a careful record of their kind, number, and weight; and that, in receiving the coins, it shall be the duty of the treasurer to see whether the coins of that delivery are within the legal limits of the standard weight; and if his trials for this purpose shall not prove satisfactory, he shall cause all the coins of this delivery to be weighed separately, and such as are not of legal weight shall be delivered to the melter and refiner, as standard bullion, to be again formed into ingots and recoined.

Sec. 27. And be it further enacted, That at every delivery of coins made by the chief coiner to the treasurer, it shall be the duty of the treasurer, in the presence of the assayer, to take indiscriminately, a certain number of pieces of each variety for the annual trial of coins, (the number being prescribed by the Director,) which shall be carefully labelled, and deposited in a chest appropriated

for the purpose, kept under the joint care of the treasurer and assayer, and so secured that neither can have access to its contents without the presence of the other.

Sec. 28. And be it further enacted, That the chief coiner shall, from time to time, deliver to the treasurer the clippings and other portions of bullion remaining after the process of coining, and that the treasurer shall keep a careful record of their amount.

Sec. 29. And be it further enacted, That in the treasurer's account with the chief coiner, the chief coiner shall be debited with the amount in weight of standard metal of all the bullion placed in his hands, and credited with the amount, also by weight, of all the coins, clippings, and other bullion delivered by him to the treasurer; and that once at least in every year, at such time as the Director shall appoint, the chief coiner shall deliver to the treasurer all the coins and bullion in his possession, so that his accounts may be settled up at that time; and, in this settlement, he shall be entitled to a credit for the difference between the whole amount of the ingots delivered to him, and of the coins and bullion received from him, since the last settlement, as an allowance for necessary waste: Provided, That this allowance shall not exceed two thousandths of the whole amount of the silver, or one and one-half thousandth of the whole amount of the gold, that had been delivered to him by the treasurer.

Sec. 30. And be it further enacted, That when the coins which are the equivalent to any deposite of bullion are ready for delivery, they shall be paid over to the depositor, or his order, by the treasurer, on a warrant from the Director; and the payment shall be made, if demanded, in the order in which the bullion shall have been brought to the Mint, giving priority according to priority of deposite only; and that in the denominations of coin delivered, the treasurer shall comply with the wishes of the depositor, unless when impracticable or inconvenient to do so; in which case, the denominations of coin shall be designated by the Director.

Sec. 31. And be it further enacted, That for the purpose of enabling the Mint to make returns to depositors with as little delay as possible, it shall be the duty of the

Secretary of the Treasury to keep in the said Mint, when the state of the Treasury will admit thereof, a deposite of such amount of public money, or of bullion procured for the purpose, as he shall judge convenient and necessary, not exceeding one million of dollars, out of which those who bring bullion to the Mint may be paid the value thereof, as soon as practicable, after this value has been ascertained; that the bullion so deposited shall become the property of the United States; that no discount or interest shall be charged on moneys so advanced; and that the Secretary of the Treasury may at any time withdraw the said deposite, or any part thereof, or may, at his discretion, allow the coins formed at the Mint to be given for their equivalent in other money.

Sec. 32. And be it further enacted, That to secure a due conformity in the gold and silver coins to their respective standards and weights, an annual trial shall be made of the pieces reserved for this purpose at the Mint and its branches, before the judge of the district court of the United States, for the eastern district of Pennsylvania, the attorney of the United States, for the eastern district of Pennsylvania, and the collector of the port of Philadelphia, and such other persons as the President shall, from time to time, designate for that purpose, who shall meet as commissioners, for the performance of this duty, on the second Monday in February, annually, and may continue their meetings by adjournment, if necessary; and if a majority of the commissioners shall fail to attend at any time appointed for their meeting, then the Director of the Mint shall call a meeting of the commissioners at such other time as he may deem convenient; and that before these commissioners, or a majority of them, and in the presence of the officers of the Mint, such examination shall be made of the reserved pieces as shall be judged sufficient; and if it shall appear that these pieces do not differ from the standard fineness and weight by a greater quantity than is allowed by law, the trial shall be considered and reported as satisfactory; but if any greater deviation from the legal standard or weight shall appear, this fact shall be certified to the President of the United States, and if, on a view of the circumstances of the case, he shall so decide,

the officer or officers implicated in the error shall be thenceforward disqualified from holding their respective offices.

Sec. 33. And be it further enacted, That copper bullion shall be purchased for the Mint, from time to time, by the treasurer, under instructions from the Director; that the cost shall be paid from the fund hereinafter provided for; and that the copper bullion shall be of good quality, and in form of planchets fit for passing at once into the hands of the chief coiner.

Sec. 34. And be it further enacted, That the copper planchets shall be delivered, from time to time, by the treasurer to the chief coiner, to be by him coined; and all such copper shall be returned to the treasurer, by the chief coiner, weight for weight, without allowance for waste.

Sec. 35. And be it further enacted, That it shall be the duty of the treasurer of the Mint to deliver the copper coins, in exchange for their legal equivalent in other money, to any persons who shall apply for them: Provided, That the sum asked for be not less than a certain amount, to be determined by the Director, and that it be not so great as, in his judgment, to interfere with the capacity of the Mint to supply other applicants.

Sec. 36. And be it further enacted, That the copper coins may, at the discretion of the Director, be delivered in any of the principal cities and towns of the United States, at the cost of the Mint for transportation.

Sec. 37. And be it further enacted, That the money received by the treasurer in exchange for copper coins shall form a fund in his hands, which shall be used to purchase copper planchets, and to pay the expense of transportation of copper coins; and that if there be a surplus, the same shall be appropriated to defray the contingent expenses of the Mint.

Sec. 38. And be it further enacted, That all acts or parts of acts heretofore passed, relating to the Mint and coins of the United States, which are inconsistent with the provisions of this act, be, and the same are hereby repealed.

Approved, January 18, 1837.

The chief officer of the said Bureau shall be denominated the Director of the Mint, and shall be under the general direction of the Secretary of the Treasury. He shall be appointed by the President, by and with the advice and consent of the Senate, and shall hold his office for the term of five years, unless sooner removed by the President, upon reasons to be communicated by him to the Senate.

Sec. 2. That the Director of the Mint shall have the general supervision of all mints and assay-offices, and shall make an annual report to the Secretary of the Treasury of their operations, at the close of each fiscal year, and from time to time such additional reports, setting forth the operations and condition of such institutions, as the Secretary of the Treasury shall require, and

Sec. 4. That the superintendent of each mint shall have the control thereof, the superintendence of the officers and persons employed therein, and the supervision of the business thereof, subject to the approval of the Director of the Mint, to whom he shall make reports at such times and according to such forms as the Director of the Mint may prescribe, which shall exhibit in detail, and under appropriate heads, the deposits of bullion, the amount of gold, silver, and minor coinage, and the amount of unparted, standard, and refined bars issued, and such other statistics and information as may be required. The superintendent of each mint shall also receive and safely keep, until legally withdrawn, all moneys or bullion which shall be for the use or the expenses of the mint. He shall receive all bullion brought to the mint for assay or coinage; shall be the keeper of all bullion or coin in the mint, except while the same is legally in the hands of other officers; and shall deliver all coins struck at the mint to the persons to whom they shall be legally payable. From the report of the assayer and the weight of the bullion, he shall compute the value of each deposit, and also the amount of the charges or deductions, if any, of all which he shall give a detailed memorandum to the depositor; and he shall also give at the same time, under his hand, a certificate of the net amount of the deposit, to be paid in coins or bars of the same species of bullion as that deposited, the correctness of which certificate shall be verified by the assayer, who shall countersign the same; and in all cases of transfer of coin or bullion, he shall give and receive vouchers, stating the amount and character of such coin or bullion. He shall keep and render, quarter-yearly, to the Director of the Mint, for the purpose of adjustment, according to

such forms as may be prescribed by the Secretary of the Treasury, regular and faithful accounts of his transactions with the other officers of the mint and the depositors; and shall also render to him a monthly statement of the ordinary expenses of the mint or assay-office under his charge. He shall also appoint all assistants, clerks, (one of whom shall be designated "chief clerk"), and workmen employed under his superintendence; but no person shall be appointed to employment in the offices of the assayer, melter and refiner, coiner, or engraver, except on the recommendation and nomination in writing of those officers, respectively; and he shall forthwith report to the Director of the Mint the names of all persons appointed by him, the duties to be performed, the rate of compensation, the appropriation from which compensation is to be made, and the grounds of the appointment; and if the Director of the Mint shall disapprove the same, the appointment shall be vacated.

He shall keep a careful record of all transactions with the superintendent, noting the weight and character of the bullion; and shall be responsible for all bullion delivered to him until the same is returned to the superintendent and the proper vouchers obtained.

Sec. 7. That the coiner shall execute all the operations which are necessary in order to form coins, conformable in all respects to the law, from the standard gold and silver ingots, and alloys for minor coinage, legally delivered to him for that purpose; and shall be responsible for all bullion delivered to him, until the same is re-

turned to the superintendent and the proper vouchers obtained.

That the engraver shall prepare from the original dies already authorized all the working-dies required for use in the coinage of the several mints, and, when new coins or devices are authorized, shall, if required by the Director of the Mint, prepare the devices, models, molds, and matrices, or original dies, for the same; but the Director of the Mint shall nevertheless have power, with the approval of the Secretary of the Treasury, to engage temporarily for this purpose the services of one or more artists distinguished in their respective departments of art, who shall be paid for such service from the contingent appropriation for the mint at Philadelphia.

Sec. 9. That whenever any officer of a mint or assay-office shall be temporarily absent, on account of sickness or any other cause, it shall be lawful for the superintendent, with the consent of said officer, to appoint some person attached to the mint to act in the place of such officer during his absence; but all such appointments shall be forthwith reported to the Director of the Mint for his approval; and in all cases whatsoever the principal shall be responsible for the acts of his representative. In case of the temporary absence of the superintendent, the chief clerk shall act in his place; and in case of the temporary absence of the Director of the Mint, the Secretary of the Treasury may designate some one to act in his place.

Sec. 10. That every officer, assistant, and clerk of the Mint shall, before he enters upon the execution of his office, take an oath or affirmation before some judge of the United States, or judge of the superior court, or of some court of record of any State, faithfully and diligently to perform the duties thereof, in addition to other official oaths prescribed by law; which oaths, duly certified, shall be transmitted to the Secretary of the Treasury; and the superintendent of each mint may require such oath or affirmation from any of the employes of the mint.

Similar bonds may be required of the assistants and clerks, in such sums as the superintendent shall determine, with the approbation of the Director of the Mint; but the same shall not be construed to relieve the superintendent or other officers from liability to the United States for acts, omissions, or negligence of their subordinates or employees: Provided, That the Secretary of the Treasury may, at his discretion, increase the bonds of the superintendent.

Sec. 12.—That there shall be allowed to the Director of the Mint an annual salary of four thousand five hundred dollars, and actual necessary traveling expenses in visiting the different mints and assay-offices, for which vouchers shall be rendered; to the superintendents of the mints at Philadelphia and San Francisco, each four thousand five hundred dollars; to the assayers, melters and refiners, and coiners of said mints, each three thousand dollars; to the engraver of the mint at Philadelphia, three thousand dollars; to the superintendent of the mint at Carson City, three thousand dollars; and to the assayer, to the melter and refiner, and to the coiner of the mint at Carson City, each two thousand five hundred dollars; to the assistants and clerks such annual salary shall be allowed as the Director of the Mint may determine, with the approbation of the Secretary of the Treasury; and to the workmen shall be allowed such wages, to be determined by the superintendents, as may be customary and reasonable according to their respective stations and occupations, and approved by the Director of the Mint; and the salaries provided for in this section, and the wages of the workmen permanently engaged, shall be payable in monthly installments.

Sec. 16. That the minor coins of the United States shall be a five-cent piece, a three-cent piece, and a one-cent piece, and the alloy for the five and three-cent pieces shall be of copper and nickel, to be composed of three-fourths copper and one-fourth nickel, and the alloy of the one-cent piece shall be ninety-five per centum of copper and five per centum of tin and zinc, in such proportions as shall be determined by the Director of the Mint. The weight of the piece of five cents shall be seventy-seven and sixteen-hundredths grains, troy; of the three-cent piece, thirty grains; and of the one-cent piece, forty-eight grains; which coins shall be a legal tender, at their nominal value, for any amount not exceeding twenty-five cents in any one payment.

Sec. 17. That no coins, either of gold, silver, or minor coinage, shall hereafter be issued from the mint other than those of the denominations, standards, and weights herein set forth.

Sec. 18. That upon the coins of the United States there shall be the following devices and legends: Upon one side there shall be an impression emblematic of liberty, with an inscription of the word "Liberty" and the year of the coinage, and upon the reverse shall be the figure or representation of an eagle, with the inscriptions "United States of America" and "E Pluribus Unum," and a designation of the value of the coin; but on the gold dollar and three-dollar piece, the dime, five, three, and one cent piece the figure of the eagle shall be omitted; and on the reverse of the silver trade-dollar the weight and the fineness of the coin shall be inscribed; and the Director of the Mint, with the approval of the Secretary of the Treasury, may cause the motto "In God we trust" to be inscribed upon such coins as shall admit of such motto; and any one of the foregoing inscriptions may be on the rim of the gold and silver coins.

Sec. 19. That at the option of the owner, gold or silver may be cast into bars of fine metal, or of standard fineness, or unparted, as he may prefer, with a stamp upon the same designating the weight and fineness, and with such devices impressed thereon as may be deemed expedient to prevent

fraudulent imitation, and no such bars shall be issued of a less weight than five ounces.

Sec. 20. That any owner of gold bullion may deposit the same at any mint, to be formed into coin or bars for his benefit; but it shall be lawful to refuse any deposit of less value than one hundred dollars, or any bullion so base as to be unsuitable for the operations of the mint; and when gold and silver are combined, if either metal be in such small proportion that it cannot be separated advantageously, no allowance shall be made to the depositor for its value.

Sec. 21. That any owner of silver bullion may deposit the same at any mint, to be formed into bars, or into dollars of the weight of four hundred and twenty grains, troy, designated in this act as trade-dollars, and no deposit of silver for other coinage shall be received; but silver bullion contained in gold deposits, and separated therefrom, may be paid for in silver coin, at such valuation as may be, from time to time, established by the Director of the Mint.

Sec. 22. That when bullion is deposited in any of the mints, it shall be weighed by the superintendent, and, when practicable, in the presence of the depositor, to whom a receipt shall be given, which shall state the description and weight of the bullion; but when the bullion is in such a state as to require melting, or the removal of base metals, before its value can be ascertained, the weight, after such operation, shall be considered as the true weight of the bullion deposited. The fitness of the bullion to be received shall be determined by the assayer, and the mode of melting by the melter and refiner.

Sec. 23. That from every parcel of bullion deposited for coinage or bars, the superintendent shall deliver to the assayer a sufficient portion for the purpose of being assayed, but all such bullion remaining from the operations of the assay shall be returned to the superintendent by the assayer.

Sec. 24. That the assayer shall report to the superintendent the quality or fineness of the bullion assayed by him, and such information as will enable him to compute the amount of the charges hereinafter provided for, to be made to the depositor.

Sec. 25. That the charge for converting standard gold

bullion into coin shall be one-fifth of one per centum; and the charges for converting standard silver into trade dollars, for melting and refining when bullion is below standard, for toughening when metals are contained in it which render it unfit for coinage, for copper used for alloy when the bullion is above standard, for separating the gold and silver when these metals exist together in the bullion, and for the preparation of bars, shall be fixed, from time to time, by the Director, with the concurrence of the Secretary of the Treasury, so as to equal but not exceed, in their judgment, the actual average cost to each mint and assay-office of the material, labor, wastage, and use of machinery employed in each of the cases aforementioned.

Sec. 26. That the assayer shall verify all calculations made by the superintendent of the value of deposits, and, if satisfied of the correctness thereof, shall countersign the certificate required to be given by the superintendent to the depositor.

Sec. 27. That in order to procure bullion for the silver coinage authorized by this act, the superintendents, with the approval of the Director of the Mint, as to price, terms, and quantity, shall purchase such bullion with the bullion fund. The gain arising from the coinage of such silver bullion into coin of a nominal value exceeding the cost thereof shall be credited to a special fund denominated the silver-profit fund. This fund shall be charged with the wastage incurred in the silver coinage, and with the expense of distributing said coins as hereinafter provided. The balance to the credit of this fund shall be from time to time, and at least twice a year, paid into the Treasury of the United States.

Sec. 28. That silver coins other than the trade-dollar shall be paid out at the several mints, and at the assay-office in New York City, in exchange for gold coins at par in sums not less than one hundred dollars; and it shall be lawful, also, to transmit parcels of the same, from time to time, to the assistant treasurers, depositaries, and other officers of the United States, under general regulations proposed by the Director of the Mint, and approved by the Secretary of the Treasury; but nothing herein contained shall prevent the payment of silver coins, at their nominal value, for silver parted from gold, as provided in this act,

or for change less than one dollar in settlement for gold deposits: Provided, That for two years after the passage of this act, silver coins shall be paid at the mint in Philadelphia and the assay-office in New York City for silver bullion purchased for coinage, under such regulations as may be prescribed by the Director of the Mint, and approved by the Secretary of the Treasury.

Sec. 29. That for the purchase of metal for the minor coinage authorized by this act, a sum not exceeding fifty thousand dollars in lawful money of the United States shall be transferred by the Secretary of the Treasury to the credit of the superintendent of the mint at Philadelphia, at which establishment only, until otherwise provided by law, such coinage shall be carried on. The superintendent, with the approval of the Director of the Mint as to price, terms, and quantity, shall purchase the metal required for such coinage by public advertisement, and the lowest and best bid shall be accepted, the fineness of the metals to be determined on the Mint assay. The gain arising from the coinage of such metals into coin of a nominal value, exceeding the cost thereof, shall be credited to the special fund denominated the minor-coinage profit fund; and this fund shall be charged with the wastage incurred in such coinage, and with the cost of distributing said coins as hereinafter provided. The balance remaining to the credit of this fund, and any balance of profits accrued from minor coinage under former acts, shall be, from time to time, and at least twice a year, covered into the Treasury of the United States.

Sec. 30. That the minor coins authorized by this act may, at the discretion of the Director of the Mint, be delivered in any of the principal cities and towns of the United States, at the cost of the Mint, for transportation, and shall be exchangeable at par at the mint in Philadelphia, at the discretion of the superintendent, for any other coins of copper, bronze, or copper-nickel heretofore authorized by law; and it shall be lawful for the Treasurer and the several assistant treasurers and depositaries of the United States to redeem, in lawful money, under such rules as may be prescribed by the Secretary of the Treasury, all copper, bronze, and copper-nickel coins authorized by law when presented in sums of not less than twenty

dollars; and whenever, under this authority, these coins are presented for redemption in such quantity as to show the amount outstanding to be redundant, the Secretary of the Treasury is authorized and required to direct that such coinage shall cease until otherwise ordered by him.

Sec. 31. That parcels of bullion shall be, from time to time, transferred by the superintendent to the melter and refiner; a careful record of these transfers, noting the weight and character of the bullion, shall be kept, and vouchers shall be taken for the delivery of the same, duly receipted by the melter and refiner, and the bullion thus placed in the hands of the melter and refiner shall be subjected to the several processes which may be necessary to form it into ingots of the legal standard, and of a quality suitable for coinage.

Sec. 32. That the ingots so prepared shall be assayed; and if they prove to be within the limits allowed for deviation from the standard, the assayer shall certify the fact to the superintendent, who shall thereupon receipt for the same, and transfer them to the coiner.

Sec. 33. That no ingots shall be used for coinage which differ from the legal standard more than the following proportions, namely: In gold ingots, one-thousandth; in silver ingots, three-thousandths, in minor-coinage alloys, twenty-five thousandths, in the proportion of nickel.

Sec. 34. That the melter and refiner shall prepare all bars required for the payment of deposits; but the fineness thereof shall be ascertained and stamped thereon by the assayer; and the melter and refiner shall deliver such bars to the superintendent, who shall receipt for the same.

Sec. 35. That the superintendent shall, from time to time, deliver to the coiner ingots for the purpose of coinage; a careful record of these transfers, noting the weight and character of the bullion, shall be kept, and vouchers shall be taken for the delivery of the same, duly receipted by the coiner; and the ingots thus placed in the hands of the coiner shall be subjected to the several processes necessary to make them coins in all respects conformable to law.

Sec. 36. That in adjusting the weights of the gold coins, the following deviations shall not be exceeded in

any single piece: In the double-eagle and the eagle, one-half of a grain; in the half-eagle, the three-dollar piece, the quarter-eagle, and the one-dollar piece, one-fourth of a grain. And in weighing a number of pieces together, when delivered by the coiner to the superintendent, and by the superintendent to the depositor, the deviation from the standard weight shall not exceed one-hundredth of an ounce in five thousand dollars in double-eagles, eagles, half-eagles, or quarter-eagles, in one thousand three-dollar pieces, and in one thousand one-dollar pieces.

Sec. 37. That in adjusting the weight of the silver coins the following deviations shall not be exceeded in any single piece: In the dollar, the half and quarter dollar, and in the dime, one and one-half grains; and in weighing large numbers of pieces together, when delivered by the coiner to the superintendent, and by the superintendent to the depositor, the deviations from the standard weight shall not exceed two-hundredths of an ounce in one thousand dollars, half-dollars, or quarter-dollars, and one-hundredth of an ounce in one thousand dimes.

Sec. 38. That in adjusting the weight of the minor coins provided by this act, there shall be no greater deviation allowed than three grains for the five-cent piece and two grains for the three and one cent pieces.

Sec. 39. That the coiner shall, from time to time, as coins are prepared, deliver them to the superintendent, who shall receipt for the same, and who shall keep a careful record of their kind, number, and actual weight; and in receiving coins it shall be the duty of the superintendent to ascertain by the trial of a number of single pieces separately, whether the coins of that delivery are within the legal limits of the standard weight; and if his trials for this purpose shall not prove satisfactory, he shall cause all the coins of such delivery to be weighed separately, and such as are not of legal weight shall be defaced and delivered to the melter and refiner as standard bullion, to be again formed into ingots and recoined; or the whole delivery may, if more convenient, be remelted.

Sec. 40. That at every delivery of coins made by the coiner to a superintendent, it shall be the duty of such

superintendent, in the presence of the assayer, to take indiscriminately a certain number of pieces of each variety for the annual trial of coins, the number for gold coins being not less than one piece for each one thousand pieces or any fractional part of one thousand pieces delivered; and for silver coins one piece for each two thousand pieces or any fractional part of two thousand pieces delivered. The pieces so taken shall be carefully sealed up in an envelope, properly labeled, stating the date of the delivery, the number and denomination of the pieces inclosed, and the amount of the delivery from which they were taken. These sealed parcels containing the reserved pieces shall be deposited in a pyx, designated for the purpose at each mint, which shall be kept under the joint care of the superintendent and assayer, and be so secured that neither can have access to its contents without the presence of the other, and the reserved pieces in their sealed envelopes from the coinage of each mint shall be transmitted quarterly to the mint at Philadelphia. A record shall also be kept at the same time of the number and denomination of the pieces so taken for the annual trial of coins, and of the number and denomination of the pieces represented by them and so delivered, a copy of which record shall be transmitted quarterly to the Director of the Mint. Other pieces may, at any time, be taken for such tests as the Director of the Mint shall prescribe.

Sec. 41. That the coiner shall, from time to time, deliver to the superintendent the clippings and other portions of bullion remaining after the process of coining; and the superintendent shall receipt for the same and keep a careful record of their weight and character.

Sec. 42. That the superintendent shall debit the coiner with the amount in weight of standard metal of all the bullion placed in his hands, and credit him with the amount in weight of all the coins, clippings, and other bullion returned by him to the superintendent. Once at least in every year, and at such time as the Director of the Mint shall appoint, there shall be an accurate and full settlement of the accounts of the coiner, and the melter and refiner, at which time the said officers shall deliver up to the superintendent all the coins, clippings, and

other bullion in their possession respectively, accompanied by statements of all the bullion delivered to them since the last annual settlement, and all the bullion returned by them during the same period, including the amount returned for the purpose of settlement.

Sec. 43. That when all the coins, clippings, and other bullion have been delivered to the superintendent, it shall be his duty to examine the accounts and statements rendered by the coiner and the melter and refiner, and the difference between the amount charged and credited to each officer shall be allowed as necessary wastage, if the superintendent shall be satisfied that there has been a bona-fide waste of the precious metals, and if the amount shall not exceed, in the case of the melter and refiner, one thousandth of the whole amount of gold, and one and one-half thousandth of the whole amount of silver delivered to him since the last annual settlement, and in the case of the coiner, one thousandth of the whole amount of silver, and one-half thousandth of the whole amount of gold that has been delivered to him by the superintendent; and all copper used in the alloy of gold and silver bullion shall be separately charged to the melter and refiner, and accounted for by him.

Sec. 44. That it shall also be the duty of the superintendent to forward a correct statement of his balance-sheet, at the close of such settlement, to the Director of the Mint, who shall compare the total amount of gold and silver bullion and coin on hand with the total liabilities of the mint. At the same time a statement of the ordinary-expense account, and the moneys therein, shall also be made by the superintendent.

Sec. 45. That when the coins or bars which are the equivalent to any deposit of bullion are ready for delivery, they shall be paid to the depositor, or his order, by the superintendent; and the payments shall be made, if demanded, in the order in which the bullion shall have been brought to the mint; but in cases where there is delay in manipulating a refractory deposit, or for any other unavoidable cause, the payment of subsequent deposits, the value of which is known, shall not be delayed thereby; and in the denominations of coin delivered, the superintendent

shall comply with the wishes of the depositor, except when impracticable or inconvenient to do so.

Sec. 46. That unparted bullion may be exchanged at any of the mints for fine bars, on such terms and conditions as may be prescribed by the Director of the Mint, with the approval of the Secretary of the Treasury; and the fineness, weight, and value of the bullion received and given in exchange shall in all cases be determined by the mint assay. The charge to the depositor for refining or parting shall not exceed that allowed and deducted for the same operation in the exchange of unrefined for refined bullion.

Sec. 47. That for the purpose of enabling the mints and the assay-office in New York to make returns to depositors with as little delay as possible, it shall be the duty of the Secretary of the Treasury to keep in the said mints and assay-office, when the state of the Treasury will admit thereof, such an amount of public money, or bullion procured for the purpose, as he shall judge convenient and necessary, out of which those who bring bullion to the said mints and assay-office may be paid the value thereof, in coin or bars, as soon as practicable after the value has been ascertained; and on payment thereof being made, the bullion so deposited shall become the property of the United States; but the Secretary of the Treasury may at any time withdraw the fund, or any portion thereof.

Sec. 48. That to secure a due conformity in the gold and silver coins to their respective standards of fineness and weight, the judge of the district court of the United States for the eastern district of Pennsylvania, the Comptroller of the Currency, the assayer of the assay-office at New York, and such other persons as the President shall, from time to time, designate, shall meet as assay-commissioners, at the mint in Philadelphia, to examine and test, in the presence of the Director of the Mint, the fineness and weight of the coins reserved by the several mints for this purpose, on the second Wednesday in February, annually, and may continue their meetings by adjournment, if necessary; if a majority of the commissioners shall fail to attend at any time appointed for their meeting, the Director of the Mint shall call a meeting of

the commissioners at such other time as he may deem convenient; and if it shall appear by such examination and test that these coins do not differ from the standard fineness and weight by a greater quantity than is allowed by law, the trial shall be considered and reported as satisfactory; but if any greater deviation from the legal standard or weight shall appear, this fact shall be certified to the President of the United States; and if, on a view of the circumstances of the case, he shall so decide, the officer or officers implicated in the error shall be thenceforward disqualified from holding their respective offices.

Sec. 49. That for the purpose of securing a due conformity in weight of the coins of the United States to the provisions of this act, the brass troy-pound weight procured by the minister of the United States at London, in the year eighteen hundred and twenty-seven, for the use of the Mint, and now in the custody of the mint at Philadelphia, shall be the standard troy pound of the Mint of the United States, conformably to which the coinage thereof shall be regulated.

Sec. 50. That it shall be the duty of the Director of the Mint to procure for each mint and assay-office, to be kept safely thereat, a series of standard weights corresponding to the aforesaid troy pound, consisting of a one-pound weight and the requisite subdivisions and multiples thereof, from the hundredth part of a grain to twenty-five pounds; and the troy weights ordinarily employed in the transactions of such mints and assay-offices shall be regulated according to the above standards at least once in every year, under the inspection of the superintendent and assayer; and the accuracy of those used at the mint at Philadelphia shall be tested annually in the presence of the assay-commissioners, at the time of the annual examination and test of coins.

Sec. 51. That the obverse working-dies at each mint shall, at the end of each calendar year, be defaced and destroyed by the coiner in the presence of the superintendent and assayer

Sec. 52. That dies of a national character may be executed by the engraver, and national and other medals struck by the coiner of the mint at Philadelphia, under

such regulations as the superintendent, with the approval of the Director of the Mint, may prescribe: Provided, That such work shall not interfere with the regular coinage operations and that no private medal dies shall be prepared at said mint, or the machinery or apparatus thereof be used for that purpose.

Sec. 53. That the moneys arising from all charges and deductions on and from gold and silver bullion and the manufacture of medals, and from all other sources, except as hereinbefore provided, shall, from time to time, be covered into the Treasury of the United States, and no part of such deductions or medal charges, or profit on silver or minor coinage, shall be expended in salaries or wages; but all expenditures of the mints and assay-offices, not herein otherwise provided for, shall be paid from appropriations made by law on estimates furnished by the Secretary of the Treasury.

Sec. 54. That the officers of the United States assay-office at New York shall be a superintendent, an assayer, and a melter and refiner, who shall be appointed by the President, by and with the advice and consent of the Senate. The business of said assay-office shall be in all respects similar to that of the mints, except that bars only, and not coin, shall be manufactured therein; and no metals shall be purchased for minor coinage. All bullion intended by the depositor to be converted into coins of the United States, and silver bullion purchased for coinage, when assayed, parted, and refined, and its net value certified, shall be transferred to the mint at Philadelphia, under such direction as shall be made by the Secretary of the Treasury, at the expense of the contingent fund of the Mint, and shall be there coined, and the proceeds returned to the assay-office. And the Secretary of the Treasury is hereby authorized to make the necessary arrangements for the adjustment of the accounts upon such transfers between the respective offices.

Sec. 55. That the duties of the superintendent, assayer, and melter and refiner of said office shall correspond to those of superintendents, assayers, and melters and refiners of mints; and all parts of this act relating to mints and their officers, the duties and responsibilities of such officers, and others employed therein, the oath to be

taken, and the bonds and sureties to be given by them, (as far as the same may be applicable,) shall extend to the assay-office at New York, and to its officers, assistants, clerks, workmen, and others employed therein.

Sec. 56. That there shall be allowed to the officers of the assay-office at New York City the following salaries per annum: to the superintendent four thousand five hundred dollars; to the assayer, and to the melter and refiner, each, three thousand dollars; and the salaries of assistants and clerks, and wages to workmen, and their manner of appointment, shall be determined and regulated as herein directed in regard to mints.

Sec. 57. That the business at the branch mint at Denver, while conducted as an assay-office, and of the assay-office at Boise City, Idaho, and all other assay-offices hereafter to be established, shall be confined to the receipt of gold and silver bullion, for melting and assaying, to be returned to depositors of the same, in bars, with the weight and fineness stamped thereon; and the officers of assay-offices, when their services are necessary, shall consist of an assayer, who shall have charge thereof, and a melter, to be appointed by the President, by and with the advice and consent of the Senate; and the assayer may employ as many clerks, workmen, and laborers, under the direction of the Director of the Mint, as may be provided for by law. The salaries of said officers shall not exceed the sum of two thousand five hundred dollars to the assayer and melter, one thousand eight hundred dollars each to the clerks, and the workmen and laborers shall receive such wages as are customary according to their respective stations and occupations.

Sec. 58. That each officer and clerk to be appointed at such assay-offices, before entering upon the execution of his office, shall take an oath or affirmation before some judge of the United States, or of the Supreme Court, as prescribed by the act of July second, eighteen hundred and sixty-two and each become bound to the United States of America, with one or more sureties, to the satisfaction of the Director of the Mint or of one of the judges of the supreme court of the State or Territory in which the same may be located and of the Secretary of the Treasury, conditioned for the faithful performance of the

duties of their offices; and the said assayers shall discharge the duties of disbursing agents for the payment of the expenses of their respective assay-offices.

Sec. 59. That the general direction of the business of assay-offices of the United States shall be under the control and regulation of the Director of the Mint, subject to the approbation of the Secretary of the Treasury; and for that purpose it shall be the duty of the said Director to prescribe such regulations and to require such returns periodically and occasionally, and to establish such charges for melting, parting, assaying, and stamping bullion as shall appear to him to be necessary for the purpose of carrying into effect the intention of this act.

Sec. 60. That all the provisions of this act for the regulation of the mints of the United States, and for the government of the officers and persons employed therein, and for the punishment of all offenses connected with the mints or coinage of the United States, shall be, and they are hereby declared to be, in full force in relation to the assay-offices, as far as the same may be applicable thereto.

Sec. 61. That if any person or persons shall falsely make, forge, or counterfeit, or cause or procure to be falsely made, forged, or counterfeited, or willingly aid or assist in falsely making, forging, or counterfeiting, any coin or bars in resemblance or similitude of the gold or silver coins or bars, which have been, or hereafter may be, coined or stamped at the mints and assay-offices of the United States, or in resemblance or similitude of any foreign gold or silver coin which by law is, or hereafter may be made, current in the United States, or are in actual use and circulation as money within the United States, or shall pass, utter, publish, or sell, or attempt to pass, utter, publish, or sell, or bring into the United States from any foreign place, or have in his possession, any such false, forged, or counterfeited coin or bars, knowing the same to be false, forged, or counterfeited, every person so offending shall be deemed guilty of felony, and shall, on conviction thereof, be punished by fine not exceeding five thousand dollars, and by imprisonment and confinement at hard labor not exceeding ten years, according to the aggravation of the offense.

Sec. 62. That if any person or persons shall falsely

make, forge, or counterfeit, or cause or procure to be falsely made, forged, or counterfeited, or willingly aid or assist in falsely making, forging, or counterfeiting, any coin in the resemblance or similitude of any of the minor coinage which has been, or hereafter may be, coined at the mints of the United States; or shall pass, utter, publish, or sell, or bring into the United States from any foreign place, or have in his possession, any such false, forged, or counterfeited coin, with intent to defraud any body politic or corporation, or any person or persons whatsoever, every person so offending shall be deemed guilty of felony, and shall, on conviction thereof, be punished by fine not exceeding one thousand dollars and by imprisonment and confinement at hard labor not exceeding three years.

Sec. 63. That if any person shall fraudulently, by any art, way, or means whatsoever, deface, mutilate, impair, diminish, falsify, scale, or lighten the gold or silver coins which have been, or which shall hereafter be, coined at the mints of the United States, or any foreign gold or silver coins which are by law made current, or are in actual use and circulation as money within the United States, every person so offending shall be deemed guilty of a high misdemeanor, and shall be imprisoned not exceeding two years, and fined not exceeding two thousand dollars.

Sec. 64. That if any of the gold or silver coins which shall be struck or coined at any of the mints of the United States shall be debased, or made worse as to the proportion of fine gold or fine silver therein contained; or shall be of less weight or value than the same ought to be, pursuant to the several acts relative thereto; or if any of the weights used at any of the mints or assay-offices of the United States shall be defaced, increased, or diminished through the fault or connivance of any of the officers or persons who shall be employed at the said mints or assay-offices, with a fraudulent intent; and if any of the said officers or persons shall embezzle any of the metals which shall at any time be committed to their charge for the purpose of being coined, or any of the coins which shall be struck or coined at the said mints, or any medals, coins, or other moneys of said mints or assay-offices at any time committed to their charge, or of which they may

have assumed the charge, every such officer or person who shall commit any or either of the said offenses shall be deemed guilty of felony, and shall be imprisoned at hard labor for a term not less than one year nor more than ten years, and shall be fined in a sum not exceeding ten thousand dollars.

Sec. 65. That this act shall take effect on the first day of April, eighteen hundred and seventy-three, when the offices of the treasurer of the mints in Philadelphia, San Francisco, and New Orleans shall be vacated, and the assistant treasurer at New York shall cease to perform the duties of treasurer of the assay-office. The other officers and employes of the mints and assay-offices now appointed shall continue to hold their respective offices, they having first given the necessary bonds, until further appointments may be required, the Director of the Mint at Philadelphia being styled and acting as superintendent thereof. The duties of the treasurers shall devolve as herein provided upon the superintendents, and said treasurers shall act only as assistant treasurers of the United States: Provided, That the salaries heretofore paid to the treasurers of the mints at Philadelphia, San Francisco, and New Orleans, acting as assistant treasurers, shall hereafter be paid to them as "assistant treasurers of the United States," and that the salary of the assistant treasurer at New York shall not be diminished by the vacation of his office as treasurer of the assay-office.

Sec. 66. That the different mints and assay-offices authorized by this act shall be known as "the mint of the United States at Philadelphia," "the mint of the United States at San Francisco," "the mint of the United States at Carson," "the mint of the United States at Denver," "the United States assay-office at New York," and "the United States assay-office at Boise City, Idaho," "the United States assay-office at Charlotte, North Carolina," and all unexpended appropriations heretofore authorized by law for the use of the mint of the United States at Philadelphia, the branch-mint of the United States in California, the branch-mint of the United States at Denver, the United States assay-office in New York, the United States assay-office at Charlotte, North Carolina, and the United States assay-office at Boise City, Idaho, are hereby author-

ized to be transferred for the account and use of the institutions established and located respectively at the places designated by this act.

Sec. 67. That this act shall be known as the "Coinage act of eighteen hundred and seventy-three;" and all other acts and parts of acts pertaining to the mints, assay-offices, and coinage of the United States inconsistent with the provisions of this act are hereby repealed: Provided, That this act shall not be construed to affect any act done, right accrued, or penalty incurred, under former acts, but every such right is hereby saved; and all suits and prosecutions for acts already done in violation of any former act or acts of Congress relating to the subjects embraced in this act may be begun or proceeded with in like manner as if this act had not been passed; and all penal clauses and provisions in existing laws relating to the subjects embraced in this act shall be deemed applicable thereto: And provided further, That so much of the first section of "An act making appropriations for sundry civil expenses of the Government for the year ending June thirty, eighteen hundred and seventy-one, and for other purposes," approved July fifteen, eighteen hundred and seventy, as provides that until after the completion and occupation of the branch-mint building in San Francisco, it shall be lawful to exchange, at any mint or branch-mint of the United States, unrefined or unparted bullion, whenever, in the opinion of the Secretary of the Treasury, it can be done with advantage to the Government, is hereby repealed.

Approved, February 12, 1873.

### ACT OF JANUARY 14, 1875.

#### *AN ACT TO PROVIDE FOR THE RESUMPTION OF SPECIE PAYMENTS.*

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury is hereby authorized and required, as rapidly as practicable, to cause to be coined, at the mints of the United States, silver coins of the denominations of ten, twenty-five, and fifty cents, of standard value, and to issue them in redemption of an

equal number and amount of fractional currency of similar denominations, or, at his discretion, he may issue such silver coins through the mints, the sub-treasuries, public depositories and post-offices of the United States; and, upon such issue, he is hereby authorized and required to redeem an equal amount of such fractional currency, until the whole amount of such fractional currency outstanding shall be redeemed.

Sec. 2. That so much of section three thousand five hundred and twenty-four of the Revised Statutes of the United States as provides for a charge of one-fifth of one per centum for converting standard gold bullion into coin is hereby repealed; and hereafter no charge shall be made for that service. [For R. S. 3524. See Appendix.]

Sec 3. That section five thousand one hundred and seventy-seven of the Revised Statutes, limiting the aggregate amount of circulating notes of national banking associations be, and is hereby, repealed; and each existing banking association may increase its circulating notes in accordance with existing law without respect to said aggregate limit; and new banking associations may be organized in accordance with existing law without respect to said aggregate limit; and the provisions of law for the withdrawal and redistribution of national bank currency among the several States and Territories are hereby repealed. *Containing Sections of Revised Statutes referred to  
in this book.*

Sec. 254. The Secretary of the Treasury is authorized to receive deposits of gold coin and bullion with the Treasurer or any assistant treasurer of the United States, in sums not less than twenty dollars, and to issue certificates therefor, in denominations of not less than twenty dollars, each, corresponding with the denominations of the United States notes. The coin and bullion deposited for or representing the certificates of deposit shall be retained in the Treasury for the payment of the same on demand. And certificates representing coin in the Treasury may be issued in payment of interest on the public debt, which certificates, together with those issued for coin and bullion deposited, shall not at any time exceed twenty per centum beyond the amount of coin and bullion in the Treasury; and the certificates for coin and bullion in the Treasury shall be received at par in payment for duties on imports. [See Act of June 19, 1878.]

Sec. 3510. The engraver shall prepare from the original dies already authorized all the working-dies required for use in the coinage of the several mints, and, when new coins or devices are authorized, shall, if required by the Director of the Mint, prepare the devices, models, molds, and matrices, or original dies, for the same; but the Director of the Mint shall nevertheless have power, with the approval of the Secretary of the Treasury, to engage temporarily for this purpose the services of one or more artists, distinguished in their respective departments of art, who shall be paid for such service from the contingent appropriation for the Mint at Philadelphia. [See Act of September 26, 1890.]

Sec. 3524. The charge for converting standard gold

bullion into coin shall be one-fifth of one per centum. The charges for converting standard silver into trade-dollars for melting and refining when bullion is below standard, for toughening when metals are contained in it which render it unfit for coinage, for copper used for alloy when the bullion is above standard, for separating the gold and silver when these metals exist together in the bullion, and for the preparation of bars, shall be fixed, from time to time, by the Director, with the concurrence of the Secretary of the Treasury, so as to equal but not exceed, in their judgment, the actual average cost to each mint and assay-office of the material, labor, wastage, and use of machinery employed in each of the cases aforementioned. [See Act of January 14, 1875, Sec. 2.]

Sec. 3545. For the purpose of enabling the mints and the assay-office in New York to make returns to depositors with as little delay as possible, it shall be the duty of the Secretary of the Treasury to keep in such mints and assay-office, when the state of the Treasury will admit thereof, such an amount of public money, or bullion procured for the purpose, as he shall judge convenient and necessary, out of which those who bring bullion to the said mints and assay-office may be paid the value thereof, in coin or bars, as soon as practicable after the value has been ascertained. On payment thereof being made, the bullion so deposited shall become the property of the United States. The Secretary of the Treasury may, however, at any time withdraw the fund, or any portion thereof. [See Act of June 19, 1878.]

Sec. 5177. The aggregate amount of circulating notes issued under the act of February twenty-five, eighteen hundred and sixty-three, and under the act of June three, eighteen hundred and sixty-four, and under section one of the act of July twelve, eighteen hundred and seventy, and under this title, shall not exceed three hundred and fifty-four millions of dollars. [See Act of January 14, 1875, Sec. 3.]

Sec. 5207. No association shall hereafter offer or receive United States notes or national-bank notes as security or as collateral security for any loan of money, or for a consideration agree to withhold the same from use, or offer or receive the custody or promise of custody of

such notes as security, or as collateral security, or consideration for any loan of money. Any association offending against the provisions of this section shall be deemed guilty of a misdemeanor, and shall be fined not more than one thousand dollars and a further sum equal to one-third of the money so loaned. The officer or officers of any association who shall make any such loan shall be liable for a further sum equal to one-quarter of the money loaned; and any fine or penalty incurred by a violation of this section shall be recoverable for the benefit of the party bringing such suit. [See Act of July 12, 1882, Sec. 12.]

Sec. 5457. Every person who falsely makes, forges, or counterfeits, or causes, or procures to be falsely made, forged, or counterfeited, or willingly aids, or assists in falsely making, forging, or counterfeiting any coin or bars in resemblance or similitude of the gold or silver coins or bars which have been, or hereafter may be, coined or stamped at the mints and assay-offices of the United States, or in resemblance or similitude of any foreign gold or silver coin which by law is, or hereafter may be made, current in the United States, or are in actual use and circulation as money within the United States, or who passes, utters, publishes or sells, or attempts to pass, utter, publish, or sell, or bring into the United States from any foreign place, or has in his possession, any such false, forged, or counterfeited coin or bars, knowing the same to be false, forged, or counterfeited, shall be punished by a fine of not more than five thousand dollars, and by imprisonment at hard labor not more than ten years. [See Act of January 16, 1877.]
