A report from the Board of War; and a letter, of 15th, from Captain Paschki were read; Whereupon,³

AT A BOARD OF WAR, May 12. 1780

Present Col. Pickering, Mr. Peters, Col. Grayson

The Board beg leave to represent to Congress the case of Capt: Frederick Paschke, late of Count Pulaski's Legion.

¹ This report is in the Papers of the Continental Congress, No. 136, IV, folio 299.
² This report is in the Papers of the Continental Congress, No. 136, IV, folio 303.
³ Paschke's letter is in the Papers of the Continental Congress, No. 78, XVIII, folio 283.
Capt: Paschke is a native of Prussia, in which service he had the rank of Cornet; he was afterwards a Lieut: in the Polish service, which he left to engage in the service of the United States. He arrived here in 1776, and served ten months as a Lieut: in Col' Proctor's Regiment of Artillery; from thence he was taken into the Q'r Master General's Department, as an assistant to Col. Lutterloh, Deputy Q'r Master Gen. Upon the change in that department in 1778, he was out of Office, but almost immediately engaged in Count Pulaski's Legion as a Captain and Q'r Master, and continued therein till its dissolution. In all these employments he appears to have conducted himself as a brave, intelligent, faithful and industrious officer.

Desirous of active service, but not finding it possible to be inserted in any continental Corps in the Southern Army, he came to the northward; but here the same difficulty subsists. We have therefore advised his return home to Prussia. But having expended much money in coming hither, and supporting himself in the service, he is in real distress; the small value of his pay compelling him to lay himself under obligations to his friends, which he is anxious to discharge.

The Board thought of a year's pay and subsistence amounting to 3,000 dollars in paper and 250 dollars in specie as proper to be given Capt: Paschke, but did not insert the sums, as they have not hitherto mentioned any sums in such cases.

Capt: Paschke wishes the favour of a speedy determination, as he has the means of going to the Southward with Baron Kalb, if Congress, do not think proper to enable him to return to Europe.

We therefore beg leave to report:

Resolved, That the sum of three thousand dollars, currency of these states, and a bill of exchange for two hundred and fifty dollars in specie, be paid to Captain Paschki, late of Count Pulaski's legion, (which being dissolved, Congress have no means of employing Captain Paschki, though a deserving officer) to enable him to return to Europe: ¹

On passing the grant for a bill of exchange for 250 dollars in specie, the yeas and nays being required by Mr. [John] Fell,

Mr. [William Churchill] Houston nominated Mr. Edward Fox for the office of commissioner of the chamber of accounts.

Agreeable to order, Congress took into consideration the following resolutions relative to the New Hampshire grants, and the same being read, moved by Mr. [John Morin] Scott, viz.

"Whereas Congress in and by certain resolutions, of the 24th day of September last, did, among other things, unanimously resolve to proceed on the first day of February then next without delay, to hear and examine into the disputes and differences relative to jurisdiction between the States of New Hampshire, Massachusetts bay and New York, respectively, or such of them who should pass laws for the purpose, on the one part, and the people of a certain district of country, commonly called the New Hampshire Grants, who claim to be a separate jurisdiction on the other; and after a full and fair hearing to decide and determine the same, according to equity; and Congress did thereby pledge their faith to execute and support their decisions and determinations in the premises; and did thereby also unanimously resolve that it was the duty of the people of the district aforesaid to abstain in the meantime from exercising any power over any of the inhabitants of the said district, who profess themselves to be citizens of, or owe allegiance to any, or either of the said states; and also that in the mean time the said three states ought, in the opinion of Congress, to suspend executing their laws over any of the inhabitants of the said district, except such of them as profess allegiance to, and confess the jurisdiction of the same, respectively. And further, that Congress would consider any violations committed against the tenor, true intent and meaning of the said resolution, as a breach of
the peace of the Confederacy, which they were determined to keep and maintain. And whereas, Congress did thereby further unanimously resolve that, in their opinion, no unappropriated lands, or estates, which were, or might be adjudged forfeited or confiscated, lying in the said district, ought, until the final decision of Congress in the premises, to be granted or sold;

"And whereas, those of the people of the said district who assume to be a separate and independent State, by the style and title of the State of Vermont, and to exercise a separate jurisdiction over the said district of country, independent of the States of New Hampshire, Massachusetts Bay and New York, having due notice of the said resolutions of Congress, did in general assembly by them assumed to be held at Manchester, within the said district, on the 20th day of October last, resolve to support their right to independence at Congress and to the world, in the character of a free and independent state, and did then and there also in direct contradiction to the said resolutions of Congress, resolve to make grants of all, or any part of the unappropriated lands within their jurisdiction, that did should not interfere with any former grants.

"And whereas, altho' the said States of New Hampshire and New York, respectively, did before the said first day of February last, pass such laws, as aforesaid, and by their agent and delegate in Congress have ever since that day been and declared themselves ready to support their respective rights in the premises before Congress; and the people of the said district have by their agents refused to submit their claim of independence to the decision of Congress; and in defiance of the resolutions aforesaid, have proceeded to grant such lands as aforesaid, and others by them deemed confiscated, and in divers instances exercised civil and military authority over the persons and estates of certain inhabitants within the said
district who profess themselves to be citizens of, and to owe allegiance to the said State of New York.

"And whereas Congress for these and other reasons, convinced of the necessity of bringing the said controversy concerning the premises to a full and fair hearing, examination, decision and determination, from which they have hitherto been prevented, for want of the actual representation in Congress of a sufficient number of states not interested in the said controversy, did, on the 17th instant, order that the President write to the executives of the states of Delaware and Maryland (being the two states now actually unrepresented in Congress) to send forward immediately, and to keep up a representation in Congress, as matters of the highest importance are now before them. "Resolved, That in any future determination of the controversy in the premises by Congress concerning the property of soil within the said district by any other persons in the mode prescribed by such other parts of the said resolutions as are not herein above recited, all grants of land by the assumed government or authority of the people of the said district; and also all grants of land by the respective governments of the States of New Hampshire, Massachusetts Bay

and New York, posterior to the said resolutions of Congress of the 24th day of September last, for any lands within the said district and prior to such determination as aforesaid, ought to be deemed, esteemed, taken and adjudged to be absolutely null and void.

"Resolved, That Congress will as soon as a sufficient number of these United States uninterested in the said controversy, to be determined by Congress, shall be actually represented, take up the same as the order of the day, and will proceed without delay to hear, examine and finally decide and determine the same, and will, pursuant to their said former resolutions, execute and support such their decision and determination."

A motion was made by Mr. [William] Ellery, seconded by Mr. [Samuel] Holten, that the same be postponed.

The committee appointed to confer with the joint committees of the supreme executive council, and the general assembly of the Commonwealth of Pennsylvania, on the subjects mentioned in the extract from the minutes of the said general assembly, of the 20th instant, delivered in a report, which was read; Whereupon,

The Committee appointed to confer with the joint Committees of the Supreme Executive Council, and the General assembly of the Commonwealth of Pennsylvania on the subjects mentioned in the extract from the minutes of the said General assembly of the 20th Instant, beg leave to Report the substance of the conference as follows.

The joint Committees of the Council and assembly stated to your Committee

That since the opening of the Continental Loan offices upwards of twenty millions of Dollars have been deposited in that established in the Commonwealth of Pennsylvania, more than sixteen millions of which have been lent by the Inhabitants of the said Commonwealth.

That the principal of many of the said certificates taken out early is now become due and payable, according to the terms of the Loan, and the Holders of them are at a total uncertainty, what interest they shall receive if they continue the principal in the funds, or what value they are to be paid for the money deposited and now become due.

That great uneasiness prevails among the people from the consideration that they have no means of ascertaining the value of
their Loan office certificates in general, Congress not having fixed any rule by which it can be determined, as they have in the case of the Bills of credit.

That designing persons take advantage of these circumstances to obtain the said certificates from the ignorant and credulous at an enormous discount, and persons disaffected to the cause of America avail themselves of this occasion to alienate the minds of the people by false and injurious suggestions, that Congress mean to deprive them of their property by refusing payment, even of the equitable value of the monies they have deposited.

That the ascertainment of the terms on which the principal and Interest of the said Certificates are to be paid, will not only conciliate the minds of the people who have a right to expect such satisfaction, but will give effectual encouragement to further Loans, which may at this time greatly promote the public Service.

That the present uncertainty and fears of the people create a greater circulation of the said certificates, than would otherwise take place, many wishing to transfer them in order to avoid a dreaded loss, and others purchasing them at an unjust gainful discount on mere principles of speculation.

With respect to the notes given by the purchasers in the Departments of the Quarter Master and Commissary General they observe,

That the debts in general have been long due, and the creditors have already suffered greatly by delay of payment, and the depreciation of the currency.

That it is not only just that payment should be made, but if it be not made many persons will be unable to discharge their public Taxes, and those who are able, but unwilling, take advantage of so plausible a Justification, and create unsurmountable difficulties in the collection.

That if the said notes cannot be paid in the usual course by issues from the Continental Treasury, could they be received in the payment of Taxes, it would relieve those who must otherwise be unavoidably distressed; would facilitate the collection of Taxes, promote the public service by giving satisfaction to the people and enable Congress or the State to obtain further supplies on credit should the same be necessary.

That the Legislature are willing to provide by law, as far as it is possible such checks and restrictions as may provide against impositions and prevent the said notes circulating as a currency.
May, 1780

On the whole the joint Committees on behalf of the said Council and assembly earnestly entreat that Congress would pay immediate attention to these objects, greatly interesting to the State, as well as the public service and your Committee submit the propriety of appointing a Committee to Report the necessary resolutions for the approbation of Congress.¹

On motion of Mr. [Oliver] Ellsworth; seconded by Mr. [Samuel] Holten;

Resolved, That a committee of three be appointed, to take into consideration the outstanding debts due from the commissary and quarter master general’s departments, for which certificates have been given of the ballances due, and report further means for discharging the same.

AT A BOARD OF WAR May 25, 1780

Present Col. Pickering Mr. Peters Col Grayson.

The Board having considered the memorial of Major Eustace requesting he may be allowed the benefit of the compensation granted by Congress on the 10th April last; beg leave to observe

That there are great numbers of Officers and soldiers not now in service who have suffered with Major Eustace by the depreciation of the Continental Bills of credit, and of course would be alike entitled to a compensation. But by the resolve above referred to, the point appears to have been considered and decided, that the benefit shall be confined to those, who were then, or should thereafter be in service: and Major Eustace having before that day resigned his commission, the Board are of opinion, he cannot consistently be relieved, unless Congress should extend the benefit to all who were similarly circumstanced. The Board therefore beg leave to report the following resolve

Resolved, That the request contained in the memorial of John Skey Eustace, late a major in the army of the United States, to be allowed the benefits of the resolution of the 10 of April last, for making good to the army the deficiency of their original pay, occasioned by the depreciation of the continental bills of credit, cannot be granted.¹

The committee, to whom was referred the motion, of the 23rd, respecting lands within the bounds of the United States, delivered in their several reports.
Congress took into consideration the report on the outstanding debts; and thereupon came to the following resolutions:
Whereas it is represented that large arrears are due to the inhabitants of sundry of these states for provisions, forage, and other articles, furnished by them to the departments of the 1 commissary general of purchases, and quarter master general, for the public service, and for which they have received notes or certificates, signed by persons appointed to purchase the said articles, the payment whereof hath been delayed, to the prejudice of many of the holders, and
[Whereas it is represented that the receipt of the said notes or certificates in discharge of public taxes would greatly tend to the relief and convenience of the people, and also facilitate an early settlement of the public accounts] for which money cannot, in the present circumstances, be issued from the Treasury: therefore,
Resolved, That it be recommended to the legislatures of the respective states wherein such notes or certificates have been heretofore given, and remain unpaid, to empower the collectors of the continental taxes, due to the first of March last, to receive in payment thereof such notes or certificates, from the persons in whose names they have been given, on the following conditions:
That the persons paying in the said notes or certificates, endorse the same to the collectors, who may receive them, and also take an oath or affirmation before a magistrate, that they have been obtained for the value and the articles

therein expressed, delivered for the use of the United States, and for which no payment hath been made; which oath or affirmation shall be endorsed on each note or certificate:

That in cases where the notes or certificates held by any person, shall exceed the amount of the taxes due from such person, at the time they are paid in, the surplus be credited by the State to such person, and allowed in future taxes, under such checks and securities as the respective legislatures may think best suited to their different modes of collection; and that such surplus bear an interest of six per cent. till thus discounted.

May, 1780

The Committee appointed to confer with the Minister of France on the subject of supplies and other matters mentioned in their appointment humbly Report.

That in their first conference with the Minister he mentioned his solicitude to procure the necessary provisions for the fleet and army of his Most Christian Majesty. That he wished to render every step that he should take on this subject conformable to the designs of Congress, and conducive to the support of the combined forces. That he would therefore lay before the Com. the measures that he had already entered into and was desirous to agree upon any plan for our mutual benefit which we should think it proper to adopt.

That previous to our appointment the moments being precious he had despatched an agent to consult the Commander in Chief and Genl. Greene on the subject of supplies, and would inform us of their sentiments at his return.

That lest his purchases might interfere with those which the States should make on account of the Continent he had thought it most advisable to let the whole business pass through their hands, and had accordingly written to Gov. Trumbull for a limited supply of beef pork and mutton leaving it to his option either to be paid in bills upon France, Specie, or Continental bills of credit.

The Committee have stated this information that Congress may if they should find it necessary give them their directions before they digest any plan with the Minister of France on the return of his agent.

The Committee conceive the establishment of Posts and expresses who shall bring the earliest intelligence of the arrival of the fleet of our ally and the motions of the Enemy as so necessary to the right application of our force that they submit the following Resolution.

Resolved, that the Committee of Intelligence be directed to establish regular Posts to and from the different parts of the Sea coasts of this Continent from Charlestown to Boston in such manner as will most effectually procure information of the approach of the fleet of our ally, and the movements of the enemy in consequence thereof.

The Committee are further of opinion from the representations of the minister of France that every means should be used to add to the strength of the fleet of our Ally on their arrival, particularly by completing the Ship America, since it is highly probable that the naval force which the enemy may send to this Coast in order to frustrate the friendly endeavors of our ally in our behalf will be adapted to that
of France without taking into the calculation any additions which it may receive here. They therefore submit the following resolutions.

Resolved, That the Board of Admiralty be directed to fit for sea, with the utmost expedition, the several ships of war and frigates now in port:

That it be earnestly recommended to the respective states, within whose ports any of the said ships or frigates may be, to afford every assistance to the Board of Admiralty, on their application for artificers, labourers and materials for preparing the same for sea, and for compleating their comple- ment of men.

Resolved, That Congress will defray every necessary ex- pense which any State shall incur in consequence of the above resolution.

Resolved that the Board of Admiralty be empowered if they shall think it adviseable to dispose of the Saratoga and to apply the pro- ceeds thereof to complete the America or any of the Frigates which may by that means be shortly fitted for Sea.

And whereas it is proper to make provision for repairing (as far as our circumstances will admit) any damages which the fleets of our allies may sustain in their or after their arrival by storms or otherwise:

Resolved, That the Board of Admiralty be directed to cause as many masts, yards and spars as they shall deem necessary for the above purpose, and can conveniently be procured to be prepared and laid up for use in some ports to the eastward of Pennsylvania to be procured:

That the Board of Admiralty be also directed to settle signals with the commanding officer of any ship or ships of our ally, which may now or shall hereafter be, upon the coasts of the United States. And,

For the promoting of harmony and forwarding the common views of France and America:
May, 1780

It was farther agreed between the Minister of France and your Committee that they should suggest to Congress the propriety of adopting measures to prevent desertion from the fleet and army of our allies. In which view they humbly submit the following Resolution.

Resolved, That it be recommended to the legislatures of these United States to pass laws for the punishment of such persons as shall encourage desertions from the fleets or armies of any foreign power who shall prosecute the war in America in conjunction with these United States, and for recovering such deserters as shall endeavour to conceal themselves among the inhabitants.¹

Ordered, That so much of the report as relates to the disposal of the Saratoga be referred to the Board of Admiralty, and that the remainder be postponed.

A report from the Board of Admiralty was read, wherein they propose,

BOARD OF ADMIRALTY May 26th 1780.

The Board beg leave to Represent to Congress, that the hull of the seventy four gun ship now building at Portsmouth in New Hampshire might if money could be procured for that purpose, be completely finished the ensuing summer and in that case, if the expected fleet of our ally could furnish out the stores necessary for her equipment, she might cooperate with the said Fleet, and give it a decided superiority over the Enemy.

The Board would further represent that they have the best reason to believe, that it is the earnest wish of the Honble the Minister of France, that the hull of the said ship might be finished and such materials collected for her as may be in the power of the Board to procure, and also that our frigates may be prepared for sea with all possible expedition.

In order to accomplish these important objects, the Board beg leave to propose the following resolution.

¹ This report, in the writing of Robert R. Livingston, is in the Papers of the Continental Congress, No. 25, I, folio 197. It was transcribed in part in the Papers of the Continental Congress, Committee Book, 1780, Proceedings of the Committee appointed the 13th of April, 1780.
That the Board of Admiralty be authorised to receive three hundred hogsheads of the sugar and thirty hogsheads of the rum remaining in the hands of John Bradford, Esquire, continental agent in Boston, and to dispose of the same in such manner as they shall judge proper for compleating the hull of the 74 gun ship building at Portsmouth in New Hampshire, and collecting such materials for her equipment as can be procured, and also for finishing and equipping the Bourbon, and fitting the other frigates for sea with all possible dispatch.¹

The same being read, and for some time debated,

A motion was made by Mr. [James] Duane, seconded by Mr. [Thomas] Burke, to postpone the farther consideration thereof, and on the question for postponing, the yeas and nays being required by Mr. [William] Ellery,

That with regard to men, orders have just gone forth for every company of militia in the State to furnish two each, which will amount to about twelve hundred, and which are to join the Continental army, except so many of them as may be found necessary to oppose the Indian incursions on the frontiers of the State. The Conferees on the part of this State also urged the necessity of some effectual measures being taken to keep up the Embargo in the State of Delaware, as necessary to facilitate the supply from this State.

Your Committee beg leave to report as a further mean of facilitating extra supplies from this and other States the following Resolution:

Resolved, That the supplies which any of the states shall, upon requisition for that purpose, furnish of articles not required from them by the resolution of the 25 day of February last, or to a greater amount than is required by the said resolution, shall be credited to them in a future requisition of specific supplies from the several states, or in lieu of the like value of other articles, which such states are already called on to furnish, or, at the election of the State, shall be paid for, with interest at six per cent. as fast as money can be procured for that purpose.¹

Congress resumed the consideration of the report of the committee on sundry papers respecting the New Hampshire Grants, and thereupon came to the following resolutions:

Whereas it is represented to Congress, and by authentic evidence laid before them it appears, that the people inhabiting the district of country commonly known by the name of the New Hampshire Grants, and claiming to be an independent State, have, in contempt of notwithstanding the resolutions of Congress of the 24th September, and 2d October, proceeded as a separate government to make grants of lands and sales of estates by them declared forfeited and confiscated; and have also, in divers instances, exercised civil and military authority over the persons and effects of sundry inhabitants within the said district, who profess themselves to be citizens of and to owe allegiance to the State of New York and moreover have not submitted the decision of their claims in the manner prescribed in the said resolutions, or in any other just and equitable manner whatsoever.

Resolved, That the acts and proceedings of the people inhabiting the said district, and claiming to be an independent State as aforesaid, in contravening the good intentions of the said resolutions of the 24th September and the 2d October last, are highly unwarrantable, and utterly subversive of the peace and welfare of the United States:

That the people inhabiting the said district, and claiming to be an independent State as aforesaid, be, and they hereby are, strictly required to forbear and abstain from all acts of authority, legislative, judicial or executive civil or military, over any of the inhabitants of the said any town or district who hold themselves to be subjects of, and to owe allegiance to, any of the states claiming the jurisdiction of the said territory, in whole or in part, until the decisions and determinations in the resolutions aforementioned shall be made.
June, 1780

under pain of being considered as enemies to the liberty and safety of the United States.

And whereas the States of New Hampshire and New York have in every respect complied with the said resolutions of the 24 September and 2 October last, and by their agents and delegates in Congress have ever since the first day of February last, being the day assigned in the said resolutions declared themselves ready to proceed in supporting their respective rights to the jurisdiction of the district aforesaid, in whole or in part, according to their several claims, and in the mode prescribed in the said resolutions: and whereas Congress, by their order of the 21 March last, did postpone the consideration of the said resolutions, nine states, exclusive of those who were parties to the question, not being represented; and by their order of the 17th of May last, have directed that letters be written to the states not represented, requesting them immediately to send forward a representation;

Resolved, That Congress will as soon as nine States exclusive of those who are parties to the controversy shall be represented, proceed to determine, whether the said Territory be comprehended in whole or in part within the bounds of the United States as the Territories of the respective Committees represented in Congress stood at the time of its first institution.

That if it shall be determined to be so comprehended, the States claiming the jurisdiction thereof in the whole or in part be directed immediately to proceed and appoint Commissioners judicially to decide upon the several matters to be submitted to them agreeably to the said resolutions of 24th September and 21st October last.

And, Whereas, the State of Massachusetts hath not transmitted to Congress any law by them enacted or appointment of an agent or agents by them made, in pursuance of the recommendation contained in the said resolutions;

Resolved, That the State of Massachusetts be not precluded by any determination of the controversy between the States of New Hampshire and New York, from prosecuting against the prevailing party,
any claim which the said State may have to the jurisdiction of the said territory in whole or in part in the mode described in the said resolutions.¹

Resolved, That Congress will, as soon as nine states, exclusive of those who are parties to the controversy, shall be represented, proceed to hear and examine into and finally determine the disputes and differences relative to jurisdiction between the three States of New Hampshire, Massachusetts Bay, and New York, respectively, or such of them as shall have passed such laws as are mentioned in the said resolutions of the 24 September and 2 October last, on the one part, and the people of the district aforesaid, who claim to be a separate jurisdiction, on the other, in the mode prescribed in and by the said resolutions.

The foregoing resolutions being separately debated and passed, when the question was taken to agree to the whole, the yeas and nays being required by Mr. [Samuel] Holten,

An address from the legislature of the commonwealth of Virginia, was read:²

Ordered, That it be referred to a committee of three:

The members chosen, Mr. [James] Henry, Mr. [John] Armstrong and Mr. [Samuel] Holten.

The committee, appointed to confer with the honorable the Minister Plenipotentiary of France, brought in a report; Whereupon,

The Committee appointed to receive the communications of his Excellency the Minister of France relating to supplies for the forces of his Most Christian Majesty and on other matters beg leave to report, that in a conference had the 3rd of the present month, the Minister was pleased to make the following communications, viz.

That Mons. de Corny Commissary of the troops of his Most Christian Majesty, had orders to purchase a number of horses and to purchase or hire a number of teams in the States where they could be most conveniently procured for the use of the forces of his Most Christian Majesty that should arrive to cooperate with the forces of these United States.

That Mons de Corny had also orders to endeavor to procure in the several States where it should be found most convenient provisions for the forces above mentioned in such manner as should least interfere with the purchases of the States or agents of Congress, and as should be best adapted to support and establish the credit of the paper currency. That Mons. de Corny would apply to the Supreme Executive powers of the several States in which the purchases were to be made for their advice and aid in the matter. To obtain which the Minister wished for the approbation of Congress and that if they

should think fit letters might be written by the President to the Supreme Executive Powers of the several States requesting their advice and aid to Mons. de Corny in procuring those supplies.

That Mons de Corny had received £17,000 of the bills lately emitted by the State of Pennsylvania to employ for the purposes above mentioned and would in his negotiations avail himself of all opportunities for contributing to the utmost of his power for establishing the Currency of the public bills of credit.

That it would be necessary to give the said forces of his Most Christian Majesty the option of receiving their pay in specie, from their unacquaintedness with paper money in general and ignorance of the language in which the bills of those United States are struck, which circumstance the Minister thought proper to suggest that Congress might take any measures they should Judge necessary to prevent uneasiness arising therefrom to the troops of these United States who might receive their pay in a different manner.

That to prevent loss happening to any of the Citizens of these United States from receiving from the troops of his Most Christian Majesty any small coins they may be possessed of that shall be below the standard alloy the same will be exchanged for other coins by persons that shall receive orders therefor.

The Minister desired to be informed of the mode of Intelligence Congress would rely on to give them immediate notice of the arrival of the forces from France and for keeping up a constant communication after their arrival, and again repeated his wishes that nothing might be left unprovided for that could promise despatch to their operations and render them most extensively serviceable to these United States.

The Minister also wished to recommend to the consideration of Congress Mons. Louis Ethis de Corny provincial Commissary of the troops in the service of his Most Christian Majesty for the honor of a Brevet Commission of Lieut. Colonel, which title his office had given him in the French Service. Mons. de Corny desired not Command or pay but was ambitious to deserve a mark of honor from these United States, from which benefits might result to him hereafter.

June 5. 1780.

Upon the foregoing information your Committee beg leave to submit to the immediate Consideration of Congress the following Resolutions.
Resolved, That a brevet commission of lieutenant colonel in the army of these United States, of cavalry\(^1\) be granted to Mons' Louis Ethis de Corny [provincial commissary of the troops in the service of his Most Christian Majesty]. That Mons' de Corny be furnished with letters from the President to the supreme executive powers of the several states of New-York, Connecticut, Rhode Island, Massachusetts Bay and New Hampshire, or to such of them as Mons' de Corny shall apply for, requesting their advice and aid to him in procuring provisions and other necessaries for the forces of his most Christian Majesty expected to arrive in these United States, in such manner as will best avoid a competition of purchases for the use above mentioned and those for the use of the troops of these United States.

That his excellency the honorable the Minister of France be informed that it is the opinion of Congress that the public service will be best promoted by having the same currency made use of, as far as may be, to procure supplies for the forces of his Most Christian Majesty as for those of these United States.

That the governors of the States of Virginia and Maryland be requested immediately to engage trusty persons in those states respectively, at proper distances from each other, on the main road from Cape Henry, in Virginia, to Philadelphia, to hold themselves in readiness, should the French fleet be discovered off that cape or the adjacent coast, to forward intelligence thereof, and any despatches that may be received from them, to Congress, in the most expeditious manner.\(^2\)

That the Board of Treasury are not furnished with any general account of the Expenditures in the Quarter Master Department, and therefore cannot judge whether the sums required by the Assis's Quarter Master General on the Estimates referred for the Deputy Quarter Master General in the State of New Jersey ought to be issued as a balance or a partial payment.

They are not by their Office enabled to come at the knowledge of the objects of the military operations, the force of the Army, the dispositions, the requisite movements, the state and situation of magazines, or the situation of posts: and therefore cannot be enabled to judge whether any particular estimates of supplies which may be laid before them, is requisite for the public service, and consequently cannot merely on any such estimate report that the advances of money required for the same ought to be made. They presume that the Board who are immediately intrusted with the superintendence of the Officers, and who are empowered to obtain the materials necessary for giving due information, are alone competent to determine on the propriety of Estimates of supplies and services for which advances of public money are required: and the Board of Treasury find themselves obliged to require certificates of approbation from the Superintending Boards as the best, and indeed only competent testimony on which they can report that advances ought to be made.

That the Estimates aforesaid cannot for the reasons aforesaid be judged of, or reported upon by the Board of Treasury as services and supplies for which an advance of public money ought to be made: and as the Board of War, who are particularly charged with the superintendence of the Quarter Master General's department, and before whom the general plans, estimates and returns are pre-

sumed to be, decline to take upon themselves to declare that the supplies and services in the said estimates are proper and necessary, the Board of Treasury cannot take upon themselves to report that money ought to be advanced for the same.¹

The committee, to whom was referred the report of the Board of War, of the 6th, and a report of the Board of Treasury, of the 8th, having reported specially thereon, and the report being read:

The Committee to whom were referred a Report of the Board of War of the 6\textsuperscript{th} inst. and a Report of the Board of Treasury of 8\textsuperscript{th} Inst. having duly considered the powers of the said Boards as far as they concern the matter in Question between them beg leave to submit the following \textit{Report},

That the Board of Treasury by ordinance passed the 30\textsuperscript{th} day of July 1779 are authorized to examine into the merits of all requisitions for the advance of money for public service and to report thereon to Congress.

That the Board of War by act of Congress passed on the 17\textsuperscript{th} of Oct 1777 are among other things empowered and directed to obtain and keep exact accounts of the numbers, and disposition of the forces of the United States, to obtain and keep exact accounts of all the Artillery Arms, Ammunition, warlike stores, Clothing, Medicines and Provisions belonging to the United States: and in general to superintend the several Branches of the Military Department: and all military and other officers attending upon or connected with the Army of the United States are required and enjoined to observe the directions of the said Board in making and transmitting proper returns and such other matters as may tend to facilitate the Business of the said Board.

That by Resolutions of Congress of the 14\textsuperscript{th} of May 1777 and the 14\textsuperscript{th} of April 1778 it is especially required that the Returns of the Department of the Quarter Master General and Commissary General be transmitted and subjected to the inspection and direction of the Board of War.
That by a Resolution of Congress passed on the 10th of November 1778 a special Committee was appointed to superintend the said Departments, and empowered to take such steps relating to the same as they should think were for the public service.

That in pursuance of the said last mentioned Resolution the Committee thereby appointed undertook the superintendence of the said Departments and that all reports of the Board of Treasury for advances to the said Departments were made on estimates or recommendations of the said Committee.

That on the 25th of November 1779 Congress ordered that the Departments of the Quarter Master General and of the Commissaries General of purchases and of Issues should be for the future under the superintendancy and direction of the Board of War: and that the Committee of Congress on those departments should be discharged.

Upon these several proceedings your Committee beg leave to observe that the Board of War from the design of its institution ought to be possessed of a knowledge of the Force of the Army, the condition of the Magazines, the situations of the Posts, and of the general circumstances respecting military arrangements and operations, which in some measure enables them to judge of the necessary supplies: At the same time that that Board having the immediate superintendence and direction of the Departments of the Quarter Master General and Commissary General are vested with authority to make any further arrangements which may be requisite for facilitating the discharge of this Branch of their Part. On the other hand the Board of Treasury not having equal means of information cannot in the opinion of your Committee be so competent to decide on the merits of Requisitions for the advance of money for the said Departments. Your Committee therefore submit the following resolution—

Resolved, That the Board of War be directed to continue their attention to the estimates for advances to the departments of quarter master general and commissary general of purchases and of military stores, as far as circumstances will admit, in order to enable the Board of Treasury to decide on the merits of requisitions for such advances, and report thereon to Congress.¹

The committee, to whom were referred the letters from the committee at headquarters and papers enclosed, brought in a report, which was read; Whereupon,

Ordered, That the Board of War take the most effectual measures for forwarding immediately to the army the supplies of provisions that are procured in the states of Delaware and Maryland, and report to Congress an estimate of the money immediately necessary for that purpose.

Ordered, That a circular letter be written to each of the United States from New Hampshire to Maryland, inclusive, enforcing the circular letters from the committee at headquarters.

Congress repeat their applications to your state. They would willingly hope that their former representations have not been ineffectual and that measures are now pursuing to enable our armies to take the field, with a force superior to that of the enemy and with such ample supplies of provision as will not only maintain them in plenty but enable them if necessary on any extraordinary occasion to avail themselves of the aid of the militia. But upon these hopes they dare not rely—every moment presses.

It is necessary they should have the most explicit assurances not only that their requisitions will be complied with but that such compliance will be as immediate as their wants are urgent. The letter

which accompanies this letters from our Committee at Head Quar-
ters to you states state those wants without exaggerating them. It
mentions They mention some facts and leaves leave to your judg-
ments to supply others that it would have been dangerous improper
to commit to paper. The object of this address is only to enforce
their requests and to entreat you not to rely repose your safety upon
the spirit and vigilance of others while any means within your own
power are left untried. The present occasion calls for the united
force of America. It gives us great consolation to assure you, that
notwithstanding the difficulties, in which the supineness and false
security of too many states have we are involved us, their the resour-
ces of the states are sufficient if speedily applied to relieve us from
them. Every state in the union is bound by the strongest obliga-
tions to afford us their aid. What then, can justify any in withhold-
ing it? is the present case or convenience of the subjects to be put in
competition with the lasting happiness of millions? Do the rulers fear
at this critical period to exert their utmost authority? Can they so
far distrust the feelings and understandings of their people, as to be-
lieve that they will refuse a momentary submission to such vigorous
exertions of government as are necessary to secure them—from con-
tinued oppression and established tyranny? 1

A Common Council involves the power of direction. Let not our
measures be any longer checked or controled by the negligence or
partial views and interests of separate communities, while they profess
to be parts members of one great body—too long have the dearest
interests of America been sacrificed to present ease, too many of us
have slept in false security. Let us awake before the season for suc-
cessful exertion is passed. Judge you whether the loss of Charlestown
and the situation of your grand army does not call for every spirited
exertion effort. The objects which claim your immediate attention
are clearly pointed out in the requisitions of Congress and their Com-
mittee at Head Quarters. Let them be complied with. Enable us
to co-operate vigorously with the fleets and armies of our ally and
we may reasonably hope thro’ the blessings of Divine Providence for

AT A BOARD OF WAR, June 14, 1780

Present Col e Pickering, Mr. Peters, Col e Grayson, Gen 1 Scott.

The Board beg leave to inform Congress,

That on the 18th of August 1778, Gen 1 Weedon (by a resolution of that date) was permitted to retire, but allowed to hold his rank, and to be called into service whenever from a change of circumstances the difficulties he then laboured under should be removed; that time seems now to be arrived, and he is desirous of serving again.

We therefore beg leave to report,

Ordered, That Brigadier General Weedon be called into service, and employed in the southern department as Major General Gates shall direct.

The Board beg leave further to inform Congress, That Col e Dan 1 Morgan (who formerly commanded the rifle corps) on the 18th of July 1779, having for the reasons mentioned in his letter to Congress of that date, desired leave to resign, this board to whom that letter was referred, finding his single motive to resign was the injury he supposed to be done him in giving the command of the light infantry to another, and regretting that so valuable an officer should be lost to the service, proposed to him to accept a furlough, until the Commander in Chief should call for him, or Congress should take order thereon. To this he agreed and still remains on furlough. The Board therefore beg leave to report,

The United States of America in Congress assembled, to Francis Dana, Esquire, Greeting.

Whereas by our commission to the honourable Henry Laurens, esquire, bearing date the 30th day of October, 1779, we have constituted and appointed him the said Henry Laurens, during our pleasure, our agent for and on behalf of the United States, to negotiate a loan with any person or persons, bodies politic or corporate: And whereas the said Henry Laurens having by unavoidable accidents been hitherto prevented from proceeding on his said agency: We have by our commission bearing equal date herewith, constituted and appointed the honourable John Adams, esquire, until the said Henry Laurens, or some other person appointed in his stead shall arrive in Europe, and undertake the execution of his aforesaid commission, our agent to negotiate a loan as aforesaid.

WEDNESDAY, JUNE 21, 1780

A letter, of 20th, from C. Camp, speaker of the house of assembly;¹

And one, of the 20th, from Governor Livingston, of New Jersey, were read.²

The committee to whom was referred the note from the hon. the Minister of France, brought in a report, which was read; and thereupon,

The Committee appointed to consider and report upon the memorial of the Minister of France, and the motion made by Mr. Livingston for drawing out the military resources of the United States. Humbly submit the following Resolutions.

Resolved, That the Minister of France be informed that Congress have used every means in their power to fulfil their engagements of January last: that they have apportioned the quotas of the several states, and called upon them most earnestly to complete the same; that the surrender of Charleston, and the diversion of our force to the southern department, together with the heavy loss sustained by fatigue and desertion in a long and toilsome march, have for the present considerably weakened the main army; that Congress have endeavoured to replace these deficiencies by demanding large additional supplies of recruits and militia from the middle and eastern states, to take the field by the first of July;

¹This letter is in the Papers of the Continental Congress, No. 68, folio 557.
²This letter is in the Papers of the Continental Congress, No. 68, folio 558.
that their requests have been frequently reiterated in the strongest terms: that they have reason to believe that many of them are making great efforts to comply with their demand; and that they are not without well grounded expectations that the importance of the occasion will awaken all to the most vigorous exertions; that Congress have demanded from each State immediate information of the measures they have adopted in consequence of their requisitions; that they hope to be thereby enabled more fully to satisfy the wishes of the Minister of France, relative to the matters contained in his memorial; that they do full justice to the solicitude of the Minister of France, for the advancement of the mutual interests of his most Christian Majesty and these United States, and see with pleasure, in the warmth with which he urges measures evidently calculated for the immediate advantage of these states, the intimacy of the union between the allied powers.

And whereas Congress did, in behalf of the United States, assure his most Christian Majesty, by their act of 31st January last, that they would bring into the field twenty five thousand men, exclusive of officers, and at the same time solicit a naval force to co-operate against the common enemy; and whereas advice has been received from the Court of France, that his most Christian Majesty, in compliance with the solicitations of Congress, hath not only directed a considerable naval force to repair to North America, but hath subjoined thereto a respectable body of land forces; and whereas Congress in consequence of their engagements by their act of February last, did call on the several states to compleat their quota of troops to the establishment mentioned in the said act; which quota they have since, from the disaster at Charlestown, found it necessary to increase, and have accordingly approved the requisitions of their committee at head quarters; and whereas none of the states,
whose battalions were deficient, have yet sent on their recruits to compleat the same, nor afforded any assurances that the requisitions of Congress, and their committee, will be complied with; and whereas the execution of the above requisitions will be extremely hazardous and expensive, unless the farther demands of Congress and their committee, for provision, are punctually complied with; therefore,

Resolved, That the said states be requested explicitly, and without the least delay, to inform Congress how far they may rely upon their furnishing the several supplies of men, money and provisions called for by Congress or their committee at head quarters.

And whereas the legislatures of many of the United States are not now convened, though earnestly requested by Congress to continue their sessions, or to vest in some persons such powers as would enable them on the requisition of Congress or their committee, to draw forth the military resources of the State; and whereas Congress are not fully informed whether their magistrates are so empowered:

Resolved, That the supreme executive magistrate in each State, where the legislature is not now convened, be requested immediately to inform Congress what measures they have taken, or are empowered to take, in compliance with the above requisitions of Congress, in order that Congress, whose duty it is, may provide that effectual measures be taken that every State in the union contribute their quota to the common defence.

Resolved, That the executive magistrate of every State be requested to correspond weekly with the committee of Congress at head quarters, advising them of the measures actually taken from time to time in pursuance of the above recited requisitions of Congress and their committee.¹

¹These resolutions were also entered in the manuscript Secret (Domestic) Journal. The report, in the writing of Robert R. Livingston, is in the Papers of the Continental Congress, No. 25, I, folio 319. The resolutions were transcribed in the Committee Book, 1780, Proceedings of the Committee appointed the 13th of April, 1780, folio 7.
Congress took into consideration the report of the Committee of Foreign Affairs, to whom was referred the letter of 23d. May from P. Henry, Esq., late governor of Virginia, directed to the delegates of that State, wherein they inform "that from the said letter and other papers laid before them, as well as from the information of Mr. George Anderson, the person mentioned in the said letter, they find that Mr. Arnold Henry Dohrman, merchant of Lisbon, hath from the commencement of the present war manifested a warm and steady attachment to the cause and interests of the United States; that he hath expended large sums of money in carrying into practice schemes projected by him for assisting them with cloathing and warlike stores, as well as in supplying great numbers of American prisoners carried into the ports of the Kingdom of Portugal, with money and all other necessaries for their comfortable subsistance while there, and for their return to their own country by such routs as they preferred: that from the great wealth and influence and the favourable dispositions of the said Arnold Henry Dohrman, many benefits might be derived to these states by enabling him to be more publickly and extensively useful under the sanction of authority from Congress; that the committee are assured the said Mr. Dohrman wishes for no salary or emolument for his services, but simply a repayment of his advances, when it shall be most convenient: Whereupon,

Resolved, That Arnold Henry Dohrman, of the city of Lisbon, merchant, be appointed agent for the United States, in the kingdom of Portugal, for the transaction of such affairs of the said States as may be committed to his direction.

And whereas an intercourse and protection in the ports and harbours of the kingdom of Portugal would be of essential
advantage to the ships and subjects of these States, and
every means ought to be used to obtain such privilege:

Resolved, That the Minister Plenipotentiary of these States
at the Court of Madrid be instructed to make application in
such mode as he in his discretion may think most advisable
for ascertaining the dispositions of the Court of Portugal, and
to inform Congress whether any advantageous connection
can be formed with that power, and what privileges, if any,
can be obtained for the subjects and ships of these States.¹

Ordered, That such parts of the letter from Mr. Henry,
and of the consequent communications as respect naval and
commercial affairs, be referred to the Board of Admiralty
and to the Committee of Commerce respectively.

A letter, of this day, from the Board of War, was read,
informing, "that a number of patriotic persons have formed
a plan for the establishment of a bank, whose object is the
public service; that the directors have applied to that
Board to represent to Congress the desire of the company,

Ordered, That a committee of three be appointed for the
purpose above mentioned:

mittee on the papers relative to loan office certificates, and

poned till to morrow, and that the House meet at nine

The committee, appointed to confer with the inspectors and directors of the proposed bank brought in a report, which was read stating:

That the gentlemen appointed1 to confer with the committee, communicated to them a plan for the establishment of a bank for the sole purpose of furnishing and transporting on the credit and by the exertions of the subscribers, three millions of rations and three hundred hogsheads of rum for the use of the army.

1 From this point the entries are made by George Bond, of the Secretary's Office.
June, 1780

That the committee were in the said conference informed that subscribers stand already engaged to support the said bank to the amount of two hundred and seventy-five thousand pounds, Pennsylvania currency; and that there is no doubt but that such further sums as will be necessary to its credit and the object of its establishment will be cheerfully subscribed.

That this liberal offer at a conjuncture when the efforts of the states have not produced sufficient supplies, is equally seasonable and praiseworthy.

That as the subscribers mean not to derive to themselves the least private gain from their patriotic exertions, so it is the opinion of the committee, that they ought to be fully indemnified against any loss or expense with which it may be attended.

The committee also laid before Congress the plan of the bank, communicated to them at the said conference, which being read, Congress thereupon came to the following resolutions:

Whereas a number of the patriotic citizens of Pennsylvania, have communicated to Congress a liberal offer, on their own credit and by their own exertions, to supply and transport three millions of rations and 300 hogsheads of rum for the use of the army, and have established a bank for the sole purpose of obtaining and transporting the said supplies, with greater facility and despatch; and whereas on the one hand the associators, animated to this laudable exertion by a desire to relieve the public necessities, mean not to derive from it the least pecuniary advantage, so on the other it is just and reasonable that they should be fully reimbursed and indemnified: therefore,

Resolved, unanimously, That Congress entertain a high sense of the liberal offer of the said associators to raise and transport the before mentioned supplies for the army, and do accept the same as a distinguished proof of their patriotism.
Resolved, That the faith of the United States be, and the same hereby is pledged to the subscribers to the said bank, for their effectual reimbursement and indemnity in the premises.

Resolved, That the Board of Treasury be directed to deposit in the said bank, bills of exchange in favor of the directors thereof, on the ministers of these United States, in Europe, or any of them, and in such sums as shall be thought convenient, but not to exceed in the whole one hundred and fifty thousand pounds sterling; that the said bills are to be considered not only as a support of the credit of the said bank, but as an indemnity to the subscribers for all deficiencies of losses and expences which they may sustain on account of their said engagements, and which shall not, within six months from the date hereof, be made good to them out of the public treasury; and in case of failure, such a proportion of the said bills as shall be requisite to make good the said deficiency, shall be negotiated for that purpose by the said directors, and the residue thereof returned into the treasury.

Resolved, That upon representation made that the bank stands in need of occasional assistance, Congress will advance as much of their current money as can be spared from other services.

Resolved, That a standing committee of Congress be appointed to confer with the officers of the said bank, as occasion may require:

The members chosen, Mr. [Oliver] Ellsworth, Mr. [James] Duane, and Mr. [John Morin] Scott.¹

²This report is in the Papers of the Continental Congress, No. 136, IV, folio 363.
Resolved, That the honorable M. Weare, President of New Hampshire, be informed, that the pressing exigencies of the United States will not admit of the least deduction from the public revenue at present; that Congress cannot now liquidate the accounts of New Hampshire or any other State with the United States; but that due attention will be paid to the claims of New Hampshire whenever the circumstances of public affairs of a more serious nature will enable them to take them into consideration.¹

The committee, to whom was referred the letter from Governor Rutledge, brought in a report; whereupon Congress came to the following resolution:

Whereas it has been reported, in order to seduce the citizens of South Carolina and Georgia from their allegiance to these United States, that a treaty of peace between America and Great Britain was about to take place, in which those two States would be ceded to Great Britain:

Resolved, unanimously, That the said report is insidious and utterly void of foundation.

That this Confederacy is most sacredly pledged to support the liberty and independence of every one of its members; and, in a firm reliance on the divine blessing, will unremittingly persevere in their exertions for the establishment of the same, and also for the recovery and preservation of any and every part of these United States that has been or may hereafter be invaded or possessed by the common enemy.²

That it appears to your Committee a very considerable quantity of Merchandize belonging to the United States as also the materials for completely equipping two Frigates of 36 guns each are in the hands of Mr. Carabasse at Cape François.

That the said merchandize consists principally of cloths, linnen, blankets and other articles necessary for the Army to a considerable amount and as your Committee have not the means of bringing those
effects from Cape François having no public vessels under their direc-
tion, they therefore submit the following Resolution.

Resolved, That the Board of Admiralty be directed to order one of the continental frigates to proceed as soon as possible to Cape François, and to take on board all such public goods and stores as Mr. Carabasse may have in his hands to ship; and proceed therewith to Delaware or Chesapeake Bay.¹

The committee to whom was referred the letter from the chambers of accounts, respecting certain directions given to them by the Board of Treasury, report,

"That, by the ordinance for establishing a Board of Treas-

From this review of the ordinance the committee observe,

"That the Board of Treasury are made immediately responsible for the settlement of the public accounts, and that they are invested with a general superintending power over the chambers of accounts; that they have a right to assign reasonable hours of office to the respective chambers for the despatch of the public business which ought to be publickly notified that accountants may be informed that it is necessary to the execution of this high trust, that reasonable hours of office be assigned by the chambers, and publicly notified, that the Board of Treasury, as well as the public accountants, may know when to have recourse to them for the despatch of business; that the Board of Treasury, being expressly required to call public debtors to account, and to detect frauds, authority to direct the settlement of one account in preference to another, is necessarily implied; and it is the duty of the chambers to inform the Board of Treasury, whenever required, of their progress in the settlement of any of the public accounts."

"It is also the opinion of the committee, that the said chambers are bound to observe such general instructions, for correcting errors, removing doubts, and facilitating the settlement of the public accounts, as shall be given to them by the Board of Treasury, conforming themselves, as far as possible, to fixed and established rules for administering justice equally and impartially between accountants and the public."¹

The Board of Treasury having taken into their consideration a letter from the Board of War dated the 22nd instant with an inclosure from Charles Pettit, and another from John Cox assistant Quarter Master General, demanding one million forty five thousand dollars to make the necessary provision to enable General Washington to move his army; find themselves constrained to lay them before Congress for their consideration and to inform them, that it is utterly out of the Power of the Board to make any provision for this demand, the Treasury of the United States at this time being totally exhausted.

The Board beg leave further to represent that for some time past the Commissioners of the several Continental Loan offices in the

respective States, have received but very little money into their offices beyond what is necessary to pay off the daily demands of interest upon them—the office in Boston only excepted. That the only Resources to supply the Treasury with money to carry on the War, are in the Taxes to be gathered in by the States and in the disposal of Bills of Exchange on Spain. For the satisfaction of Congress a list of the Respective Balances due from the several States for Taxes is inclosed upon which it is unnecessary to say more than that many of the warrants, on the States heretofore granted on this fund are yet unsatisfied, and no one Treasury appears to be in a condition to supply immediately any sum. That from the sale of Bills of exchange but a small sum has been yet deposited in the Treasury. In this situation the Board know not which way to turn themselves to afford any relief to the daily pressing demands made on them from many quarters and can only look up to Congress to be enabled to provide for them.

Whereas Congress, on the eighteenth day of April last, resolved in the words following, viz. "That Congress will, as soon as may be, make such provision for discharging or continuing the loans that have been made to these United States on loan office certificates, as that the holders of them shall sustain no loss thereon by any depreciation of the bills loaned subsequent to the respective dates of the said certificates;" therefore,

Resolved, That the principal of all loans that have been made to these United States, shall finally be discharged, by paying the full current value of the bills when loaned, which payments shall be made in Spanish milled dollars, or the current exchange thereof in other money at the time of payment.

That the value of the bills when loaned, shall be ascertained for the purpose above mentioned, by computing thereon a progressive rate of depreciation, commencing with the first day of June, September, 1777, and continuing to the eighteenth day of March, 1780, in geometrical proportion to the time,
from period to period, as hereafter stated, assuming the de-
preciation at the several periods to be as follows, viz.

On the first day of September, 1777, as 1.25 of a dollar in said bills
for one Spanish milled dollar.

On the first day of March, 1778, one dollar and three
quarters of a dollar of the said bills, for one Spanish milled
dollar; on the first of September, 1778, as four of the former
for one of the latter; on the first of March, 1779, as ten of
the former for one of the latter; on the first day of Septem-
ber, 1779, as eighteen of the former for one of the latter; and
on the eighteenth day of March, 1780, as forty of the former
for one of the latter:

That the principal of all certificates that have been taken
out since the eighteenth day of March last, shall be dis-
charged at the rate of one Spanish milled dollar, or the cur-
rent exchange thereof in other money at the time of pay-
ment, for forty dollars of the said bills of credit received on
loan.

That the principal of all certificates that shall hereafter be
taken out, until the further order of Congress, be discharged
at the same rate and in the same manner as those that have
been taken out since the eighteenth day of March last.

That the interest on all loan office certificates, at the rate
of six per cent. per annum, computed on the principal
ascertained as aforesaid, shall be discharged annually, in
like manner as the principal, until the principal shall be
paid; provided nevertheless, that the same interest and
mode of payment on certificates taken out before the first
day of March, 1778, shall at the election of the holder be
continued as at present, until the principal ascertained as
aforesaid shall be ready to be discharged.

Ordered, That the Board of Treasury prepare and report
to Congress the proper tables for direction of the commis-
sioners of the continental loan offices in the several states in paying off the principal and interest of loans, agreeably to the foregoing resolutions.¹

Congress took into consideration the report of the committee on the memorial of D. Henly, on behalf of Otis and Henly; and thereupon,

JUNE 16th 1780.

The Committee to whom was referred on the 26 ult: The Memorial of David Henley on behalf of Otis & Henley, of Boston, beg leave to report the following remarks—

¹This report, in the writing of Oliver Ellsworth, is in the Papers of the Continental Congress, No. 29, folio 190.
1 That the Board of War having been directed by Congress to take measures for procuring clothing for the Army appointed Agents for that purpose in several States among whom the Memorialists were appointed for the State of Massachusetts Bay.

2 That the orders given by the Board of War to the Memorialists, as appears by the correspondence laid before the Committee, were in many cases indefinite, and always pressing, as the wants of the Army ever called for larger supplies than could be procured.

3 That during the summer of last year an estimate was required by the Board of War from the said Memorialists, ascertaining the sum of money necessary to satisfy the most material orders of Purchase which had been given, which estimate was accordingly sent amounting to about a million three hundred and thirty thousand dollars: this sum, on Account of the scantiness of their funds, the Board could not complete 'till near the end of the year.

4 That the applications of the memorialists for money being from time to time very urgent, the Board of War, about the middle of Nov. last informed them, that, from the exhausted state of the Treasury it was impossible to make large remittances: and describing their prospects as very unpromising, give a general assurance that money shall be supplied as fast as it can be obtained.

5 That the said Memorialists, in their answer to the above letter, about the beginning of Dec. following, under the impression of inability in the Board of War to compass large purchases, submit to their decision a proposed one the object of which was not supposed to exceed two hundred thousand dollars.

6 That the Board in their letter of 5 Jan. last in answer to the above, reject the proposal apparently on account of the scarcity of money, and explicitly forbid further purchases: but before this could reach Boston, the purchase mentioned in the Memorial, amounting to at least thirty thousand Pounds Sterling, was made: the terms of which, tho' favorable as to the time of payment, and for aught that appears to your Committee, in every other respect, the Board of War are unwilling to fulfil as far exceeding the drift and meaning of their orders, and farther still the ability of their funds.

7 That on the other hand the Memorialists alledge the indefinite latitude of the orders, the advantage of the purchase, their good intentions to promote the publick good, and the great detriment which they must suffer, unless their contract is assumed by the Board.
On mature consideration and the foregoing State of Facts your Committee declare their opinion—

That the orders given by the Board of War did not fully justify the Memorialists in making a purchase to so large an amount at the time when, and under the circumstances wherein, it was made.

But that the articles contracted for being necessary for the Army, and the intentions of the Memorialists in making the contract being apparently directed to promote the public interest, and moreover the terms not being unfavorable, it ought to be complied with as far as possible.

The Committee Submit the following Resolution.

Resolved, That the purchase of cloathing for the use of the army, made by Otis and Henly, of Boston, on the 13 day of January last, as agents appointed by the Board of War for that purpose, be confirmed; and that the Board of Treasury agree with David Henly on the best mode of payment, taking care that as large a portion as possible be paid in loan office certificates.

That an interest of six per cent. per annum, be allowed on such part as cannot be immediately discharged, until payment is made.¹

A report from the Board of War on the letter, of 15 May, from the general assembly of Maryland, was read.

WAR OFFICE June 29, 1780.

Present Col. Pickering, Mr. Peters, Genl. Ward.

The Board have been honored with a reference from Congress of the letters from the Senate and House of delegates of the State of Maryland, relative to the appointment of a Major General, and such a number of brigadiers, to be taken from the line of that State, as it is entitled to from its quota and number of troops.

The expediency or inexpediency of those appointments, we beg leave to submit to the determination of Congress, after stating such matters as we conceive necessary for their information.

There are at present two brigadier Generals taken from the Maryland line, viz. Smallwood and Gist: the former of whom was appointed to that rank on the 23rd of October 1776, the latter on the 9th of January 1779. The numbers of brigadiers appointed before them respectively will appear by the enclosed list N° 1. By another list (N° 2) will be seen at one view the numbers of general officers belonging to the several States, with their respective quotas of troops. At this time Maryland has seven regiments of infantry, about as strong as any in the service, besides four full companies of artillery, a part of the German Battalion, three companies remaining of Rawlings’ Regt, some scattered infantry in other Corps, and some light dragoons. Upon the whole, we think their quota is as nearly completed as that of any State in the Union. And for two years past the seven regiments of infantry with the Delaware regiment have formed a division commanded by a Major General.

1 This letter is in the Papers of the Continental Congress, No. 148, I, folio 127.
The inclosed list, N. 3, contains the names of the Maryland Colonels, with the dates of their commissions, that if Congress should judge it proper to make promotion of General Officers from that line, the persons entitled thereto, according to the dates of their commissions (should that be made the criterion) may appear.

We beg leave only to add, that we have always conceived it to be a general rule practised upon by Congress, to promote according to the circumstances of any particular State line, when an additional number of general officers was necessary, without regard to the relative rank of the officers in the line at large; and that the addition of one Major General, and one brigadier general will not, in our opinion, exceed the necessities of the service the ensuing campaign.¹

A report from the Board of Treasury was read; Whereupon,

Ordered, That on the application of Mr. [Philip] Schuyler, a delegate for the State of New York, a warrant issue on the treasurer, in favour of Mr. J[ohn] M[orin] Scott, for the use of the said Mr. [Philip] Schuyler, for ten thousand dollars; for which the said State is to be accountable.²

A motion being made by the delegates of South Carolina, stating the situation of sundry officers, late belonging to armed vessels in the service of that State, now prisoners of war and arrived in this city, that rations or subsistance be allowed them, and the expense charged to the State of South Carolina:

On motion of Mr. [Samuel] Adams, seconded by Mr. [James] Lovell,

Resolved, That Nathaniel Appleton, and Joseph Henderson, Esquires, be appointed commissioners on the part of the United States, either of them to endorse the bills that shall be emitted by the State of Massachusetts Bay, pursuant to the resolution of Congress of the 18 day of March last.

The committee, to whom was referred the report from the Board of Treasury, with the papers therein referred to, brought in a report; Whereupon,

Ordered, That warrants be drawn in favour of the treasurer of the United States, on the treasurers of the several states, from New Hampshire to Virginia, Maryland, inclusive, for their respective proportions of the ten millions dollars specially called for by the resolution, of 19 May last; and that expresses be dispatched with the same accompanied with a letter from the President of Congress to the executive powers of the said states.

That warrants be also drawn in favour of the treasurer of the United States on the treasurers of the several states above mentioned, for the remainder of their quotas of assessments due to the first of March last, inclusive, and sent by the same expresses.

That the letter to accompany those warrants be as follows: (See paper No. 1.)

¹This report is in the Papers of the Continental Congress, No. 61, folio 477.
That the Warrants requested by Charles Pettit Esq., as assistant to the Quarter Master General, in the application referred to your Committee to the amount of one million and forty five thousand dollars, be drawn on the Treasurer of the United States.¹

That on the application of Charles Pettit, assistant Q. M. G. in behalf of Major General Greene, quartermaster general, a warrant issue on the treasurer in his favour, for one million and forty five thousand dollars, for which the said quartermaster general is to be accountable, to be applied for the purposes mentioned in the letter, of 21, from the said Charles Pettit to the Board of War.

Circular letter to the States 29th June 1780.

Congress by their Resolution of the 18th of May last called on the several states from New Hampshire to Virginia inclusive to pay into the Continental treasury within thirty days from that time at all events, their respective proportions of ten millions of dollars for the special purpose of transporting stores and provisions and enabling the army to take the field. No part of which money is yet brought into the treasury; tho' the hour is now arrived when the same is earnestly called for and become essential not only to the operations of the present campaign, but the very existence of the army. Expresses are therefore ordered to those several states Virginia excepted with warrants to receive from their treasuries the monies above mentioned. And Congress cannot admit the supposition of their being detained or returning without the money; the whole of which is far inadequate to the present necessities.

The Urgent necessity of drawing into the public treasury, the ten millions of dollars mentioned in the act of the 19th of May was so fully pointed out, that Congress with great exceedingly regret are obliged to complain of the failure of this necessary supply. The conjuncture is already arrived when it is become essential not only to the operations of this campaign but to the very existence of the army, Congress therefore can no longer delay reiterating the most importunate solicitations, that the proportions of each of the states be forwarded immediately. For this purpose they have dispatched

June, 1780

a special messenger, and they trust he will not meet with disappointment.

A further sum must also be speedily had or it will be impossible for the operations to proceed. Congress have therefore drawn on those states for the remainder of their quotas to the first of March last inclusive which warrants are sent by the same express; and it is their duty to conjure the several states warrants on sight they should still be under all events transmit the contents to the last mentioned in the Continental treasury within thirty days from the date of the warrants.

It will be impossible under the embarrassment of an exhausted Treasury to prosecute the war to effect. The monthly estimates of Money heretofore made were but barely sufficient at that time. Their value has since greatly diminished and the payment even of these has been delayed long after it became due. These circumstances have already involved our affairs in much perplexity and driven to expedients which nothing but the last necessity could justify a repetition of. Permanency and arrangement in the public finances must at every hazard be introduced and supported. In this view Congress do again with the most earnest solicitude, press on the several states, the expediency of a vigorous and decisive measures for carrying into full and speedy immediate execution their resolutions of the 18th of March last. The doing which, at the same time that it places public credit on the surest basis, will in the course of the year give all the relief that could possibly result from a further emission equal to the whole that is now in circulation. These resolutions Congress are persuaded are every day better understood and that upon giving them their full effect very much depends, the final establishment of our liberties and independence. It is unnecessary that Congress should suggest to the several states the expediency of providing by loans against any deficiency they may have reason to apprehend from their taxes.

Every state is competent to raise its quota required and can best adapt the means of doing it.

Faithfulness to the sacred trust committed to their care, obliges Congress to be thus explicit and importunate in the present crisis. 10970—10—37
The blank bills for the several states will be forwarded as fast as the acts of their Assemblies providing funds for them are transmitted to Congress.¹

As it appears from the Extracts of his Exc' General Washington's letters referred to the Board, that the troops are in the greatest distress, for the want of shirts and linen overalls in particular, the Board request that Congress would authorize them to lay out twenty thousand pounds sterling of the above mentioned sum, in the immediate purchase of those necessary articles wherever they can be procured.

A report from the Board of Treasury was read; Whereupon,

TREASURY OFFICE July 3, 1780

Whereas the late necessities of the Southern Army under the command of Major General Lincoln rendered it expedient to draw bills on the President of Congress, which by a resolution of Congress of the twenty third day of March last, are ordered to be accepted by the Board of Treasury on the terms therein prescribed; and whereas several Bills under the description aforesaid are daily presented for acceptance of which no advice has been received, nor can be furnished until General Lincoln reaches his papers already sent before him to some place in New England, and whereas many inconveniences will arise from suffering the said Bills to be protested, or from delaying the payment thereof. The Board beg leave to submit the following Resolution.

Resolved, That the Board of Treasury be authorized to accept, without advice, such bills, drawn by Major General Lincoln on the President of Congress, as, in their discretion, shall be deemed proper, and may have been or hereafter

The Minister of France, having in a note dated 28th June, informed Congress that the Court of Madrid has sent to the Havana a considerable body of forces to make a diversion in that quarter; and that the governor of Havana desires that as much flour and fresh provisions, such as cattle, hogs, suet, lard and pulse, as can be spared, should be sent thither; and the Minister having intimated that three thousand barrels of flour are immediately wanted, and that he will undertake to have that quantity purchased and sent, if Congress approve the measure—the following answer was returned: ¹

The Committee to whom were referred the Memorial of the Honorable the Minister of France, requesting leave to purchase sundry articles mentioned therein on account of his Catholic Majesty's armaments in the West Indies.

Humbly Report the following Resolutions.

Resolved, That the Minister of France be informed, that though the loss of Charlestown, the numerous army the states are under the necessity of maintaining in the southern department, the ravages of the enemy, and the lightness of the late crops in the middle states, as well as the present extraordinary demand for the purposes of an effectual co-operation with the expected armament of his Most Christian Majesty, have not left these states in a situation to admit of any considerable export of provisions; yet Congress, desirous to testify their attention to the necessities of his Catholic Majesty's colonies and armaments, and as far as lies in their power to compensate for the failure of supplies of rice, which an alteration in the circumstances of the southern states has unhappily rendered it impracticable to afford, have resolved, that it be recommended to the State of Maryland to grant permission to

such agent as the Minister of France shall appoint, to purchase within that State any quantity of flour, not exceeding three thousand barrels, and to ship the same to such colonies of his Catholic Majesty in the West Indies as the Minister of France may direct. That many of the articles mentioned in the memorial of the Minister of France being such as the colonies of his Catholic Majesty furnish upon better terms than they can be procured from these states in their present situation, it is to be presumed that they will feel no inconvenience from Congress not entering at this time into any determination thereon.

Resolved, That Congress will from time to time afford such supplies to the colonies of his Catholic Majesty as their circumstances may require, and the situation of these states enable them to grant.

On motion of Mr. [James] Lovell, seconded by Mr. [Roger] Sherman,

Resolved, That the commission which was agreed to on the first day of November, 1779, for the honble Henry Laurens, as a commissioner to negotiate a treaty of amity and commerce with the States General of the United Provinces of the Low Countries, be delivered to him; and that the consideration of the instructions relative to the negotiation of the treaty be for the present deferred, and that Mr. Laurens, on his arrival in Holland, inform himself of the state of affairs in that country, and advise Congress particularly thereof, that they may be enabled to decide with more certainty upon the terms on which such treaty ought to be settled.

On motion of Mr. [James] Searle, seconded by Mr. [Thomas] McKean,

2This resolution was also entered in the manuscript Secret Journal, Foreign Affairs.

WAR OFFICE July 8, 1780

Sir,

We have received the enclosed certificate from Capt Stith relative to Capt. Baylor's desire to resign his commission. We are also informed by him and Major Jameson that the wound Capt. Baylor received in his ankle at the battle of Germantown, on the least injury happening to it, is extremely troublesome, and that this induces him to resign.

Resolved, That his resignation be accepted. ³

TREASURY OFFICE July 10, 1780

The Board of Treasury beg leave to Report,

That Michael Hillegas in behalf of sundry persons apply to this Board, for Loan Office Certificates in payment for Bills of Exchange drawn by General Lincoln, and claim, as an equitable demand, that interest shall be allowed them on the several sums so demanded from the date of their being presented for payment, either to the President of Congress or this Board—And the Resolution of Congress of 23rd March last not being clear as to interest being allowed when payment is made in Loan Office Certificates—The Board therefore submit the following Resolution:

Resolved, That the Board of Treasury be authorized to allow interest on the bills drawn by Major General Lincoln, when payment is made in loan office certificates, in the same manner as directed by the resolution of Congress of the 23 March last, where payment is to be made in current money.¹

The committee, to whom was referred the report of the Board of Treasury, of the 30th of last month, respecting an order issued to the treasurer of loans, brought in a report, which was read; Whereupon,

Resolved, That the superintending boards have an undoubted right to repeal and countermand, alter, amend and renew any order officially issued and delivered to the executive officers in their departments, respectively: but it is not expedient, nor have they a right, to recall any original order after the same is delivered at the proper office, though it should not have been executed. In cases where it is necessary to correct an order it ought to be renewed, the original still remaining in the hands of the officer to whom it was directed, as his voucher unless he should choose,

The committee, to whom were referred the letters from Governor Galvez and O. Pollock, brought in a report, which was read; Whereupon,

The Committee to whom were referred the letter of his Excellency Bernardo de Galvez of the 3rd of May last, together with the letter of Oliver Pollock of the 20th of January last with the papers enclosed have considered thereof and agreed to report—

That it appears to your Committee Captain Wm Pickles Commanding a Schooner in the service of the United States in the Month of Sept: 1779 entered the Lake Pontchartrain and Captured the British Armed Sloop West Florida, which had been in possession and command of the Lake near two years before, and after taking the Sloop landed part of his men in the district of Country on Lake Pontchartrain between the Bayou le Combe and the river Tanchipaho and obtained from the inhabitants of that district a submission in writing, acknowledging their subjection to the United States, a copy whereof (the original being in his possession) hath been transmitted to Congress by the said Oliver Pollock.

That it also appears to your Committee by the letters of the Governor of Louisiana that Capt Pickles in the Sloop West Florida by joining the force of these States under his command with that of Spain greatly facilitated the reduction of West Florida, which acknowledgement on the part of his Excellency Governor Galvez together with the submission of the inhabitants on Lake Pontchartrain may in the opinion of your Committee serve to strengthen and support the claim of the United States to the free Navigation of the river Mississippi, and to a port or ports on the said river, the Committee therefore submit the following Resolution:

Resolved, That a copy of the capitulation of the inhabitants on the Lake Pontchartrain, dated the 16 October, 1779, and copies of the letters of his Excellency Bernardo de Galvez, governor of Louisiana; the one to the President of Congress, dated 8 May, last, and the other to Oliver Pollock, dated 21 October last, be transmitted to the honble John Jay.

The committee appointed to enquire into the conduct of the quarter master, respecting transportation from Philadelphia to Trenton, brought in their several reports, which were read.

The Committee appointed to enquire into the conduct of the Quarter Master respecting the transportation of provisions and stores from Philadelphia to Trenton, report—

That they have made diligent inquiry into the business submitted to them and find there has been little attention paid to economy in the transportation of provisions and stores from Philadelphia to Trenton: That a certain James Sutter, who was intrusted to Superintend this Department by the Dr Qr Mr at Philadelphia contracted last summer with Wm Richards the owner of a schooner to be employed in this branch at £330 a month, and the last spring agreed to give him 60 dollars per Hhd, 30 d° per Tierce and 10 d° per barrel, out of which sums he was to receive a seventh part to his own use: that it is very probable the like engagements were entered into with others, and that the prices given by the Quarter Master raised the prices upon individuals: that your Committee are well assured that this business may be carried on at one third less expense, if not at one half, for an offer has been made to the Quarter Master at Philadelphia since the appointment of this Committee to transport the following articles from Christiana Bridge in the Delaware State to Trenton for the following freights to wit—30 dollars per Hhd, 15 d° per Tierce, 12 d° per barrel of beef or pork and 10 d° per barrel of Flour &c. Your Committee further report, that they are of opinion, the high freights given are to be attributed in

a great degree to several persons in the Quarter Master’s Department being owners of or concerned in the vessels employed in this service. Upon the whole, your Committee propose the following Resolve:

That no shallop or other vessel, wagon, cart, carriage, Team or horse, belonging to any person, in the Quarter Master General’s Department, be hereafter hired or employed in the public service, on pain of forfeiture of all pay to be received for the same as well as all wages or salary allowed to such person, and that he be also rendered incapable of any office or appointment under the United States.¹

A report from the Board of Treasury was read; Whereupon,²

Ordered, That on the application of William Palfrey, paymaster general, accompanied with an estimate of pay due to the army for the month of June, a warrant issue on the treasurer in his favor, for seven hundred and eighty three thousand seven hundred and thirty three dollars, to be applied in his department; and for which the said William Palfrey is to be accountable.

That on the application of George Bond, deputy secretary, a warrant issue on the treasurer in his favor, for eight thousand dollars, on account of his salary.

That on the application of John Levinus Clarkson, clerk in the Treasury office, a warrant issue on the treasurer in his favor, for six thousand dollars, on account of his salary.

The Board beg leave further to Report,

That John Holker agent for the Royal Marine of France has been supplied with provisions from the commissary general of Purchases at sundry different times for more than two years ago—that the said commissary general of purchases has very lately rendered an account, and ascertained a balance in favor of the United States, which John Holker aforesaid now offers to pay as will appear by his letter to the Board of the seventh instant, herewith transmitted for consideration.

¹ This report, in the writing of Thomas McKean, is in the Papers of the Continental Congress, No. 22, folio 159.
²The next three paragraphs were entered in the writing of George Bond, of the Secretary’s Office.
That the conditions of payment therein mentioned making no allowance for depreciation, and bringing the accounts aforesaid to a final settlement, are attended with consequences too considerable to be accepted by the Board without the further direction of Congress,¹

July, 1780

Whereas great inconveniences have arisen in consequence of the regulation of June the 28th 1779 respecting promotions in the army of the United States, and there being too much reason to apprehend that if the present mode is pursued, the whole business of arrangement will be involved in the utmost perplexity and confusion, to the great prejudice of the service, it is therefore resolved.

That the act of June the 28th 1779, giving the States the exclusive right of making promotions in their respective lines, be repealed.

That when vacancies happen in any Regt in the service of the United States, the commanding officer shall signify the same to the Commander in Chief, or the commanding officer of the Department where such regiment shall be, who shall transmit information thereof to the Board of War, with the names of the officers intitled to promotion, agreeably to the principles established by Congress to the end, that commissions may issue, provided, nevertheless that nothing herein contained shall be construed to take from the States their right of nominating for all new appointments.

Ordered, That it be taken into consideration on Monday next.

Ordered, That the memorial of William Stewart, which was read yesterday, together with his memorial, read February 17, 1779, and reported on the 18 of the same month, and the papers therein enclosed, be referred to the Board of Treasury.

Congress resumed the consideration of the report of the committee on the quartermaster’s department, and in considering that part of the report allowing the brigade forage master one ration of forage,

A motion was made by Mr. [Thomas] McKean, seconded by Mr. [John] Fell, to strike out that part, and on the question shall it stand, the yeas and nays being required by Mr. [Ezekiel] Cornell,

A note from the Board of Admiralty was read, enclosing a commission for Captain Van Dyke:

\textit{Ordered}, That it be referred back to the Board of Admiralty.

A report from the Board of War on the letter, of 4th, from General Gates, was read.

\textbf{At a Board of War, July 13, 1780}

Present Col Pickering M' Peters Col Grayson

The Board having considered the letter from Gen' Gates of the 4\textsuperscript{th} inst: referred from Congress, beg leave to observe

That the number of troops required of Virginia, as her quota of the Continental Army is sufficient to furnish commands for two Major Generals and four Brigadiers; and agreeably to the principle which seems to be established, that the troops of each State are to be commanded by General Officers of its own, at least that each State should have General Officers enough to command her own troops, it would appear that Virginia is entitled to promotion for one of her Brigadier Generals, and upon a comparative view of the number of her Gen' Officers, with those of most of the other States, Virginia has not at this time her proportion as Congress will observe by the papers referred with the report respecting the demand of Maryland for an augmentation of General Officers. If she gives another Major General to the Army, there will then be room for another Brigadier from her line, in which case, Colonel Morgan being now her eldest Colonel, as appears by the arrangement would clearly be entitled to the promotion. These observations are founded upon a supposition that Virginia will fill up her quota to the establishment—of which Congress can best judge—at present she is greatly deficient. But exclusive of every other consideration, Col. Morgan has great pretensions to promotion from personal merit. He early embarked in the present war, and uniformly distinguished himself as
an active brave and useful officer. It is now suggested by Gen' Gates' letter that he would be peculiarly serviceable in the southern army, in the command of a select corps of light Troops. Upon the whole the Board submit to Congress the propriety of complying with Gen' Gates' request, should they be of opinion that Col' Morgan should be promoted. The Board beg leave to report

That Col. Daniel Morgan be promoted to the rank of Brigadier in the army of the United States ¹

According to order,

Congress took into consideration the report of the committee on a memorial of Mr. du Simitière; and thereupon came to the following resolutions:

Whereas Pierre Eugène du Simitière, of the city of Philadelphia, hath, with great industry, and at much expense, collected materials for a literary work to be entitled, "Memoirs and observations on the origin and present state of North America," and hath solicited Congress to grant him encouragement in preparing and publishing the same; and whereas Congress are fully satisfied that a work of this nature will greatly tend to diffuse useful knowledge,

Resolved, That for the encouragement of the said Mr. du Simitière, in carrying on and compleating his said undertaking, it be, and it is hereby recommended to the several states, upon his application, to afford him such assistance as may be most beneficial to him, in rendering his said work compleat and useful.²

That the sum of two thousand dollars in continental bills or other currency equivalent, be paid yearly to the said Mr. du Simitière for three years, the better to enable him to proceed and finish the same.³

G., for one hundred and fifty thousand dollars, to be applied in the department aforesaid, by Francis Wade, Deputy Quartermaster General and for which the said Major General Greene is to be accountable.

Ordered, That on the application of Mr. B[enjamin] Huntington, a delegate for the State of Connecticut, a warrant issue on the treasurer in his favour, for four thousand dollars, for which the said State is to be accountable.

M. G. for fifteen thousand dollars, for the support of the British prisoners and their guards, at Fort Frederick, in the State of Maryland; and for which the said Major General Greene, Q. M. G. is to be accountable.¹

A report from the Board of War was read; Whereupon,

Resolved, That the Rev. Robert M'Murdie be appointed chaplain to the first Pennsylvania brigade.

The committee, to whom was referred for revision the plan for conducting the quarter master's department, having executed the business, laid before Congress the plan, as revised, which was read and agreed to as follows:

Whereas Congress, on the 25 day of February last, resolved that the several states should be called on for certain supplies of beef, flour and other articles necessary for the ensuing campaign; and that the same should be collected and deposited or delivered at the risque of the respective states, at such places, within each State respectively, as the Commander in Chief should judge most convenient; and it being necessary to provide for the safe keeping and transportation of the stores which shall be so deposited, and to make a new regulation of the quarter master's department,

Resolved, That there be one quarter master general and one assistant quarter master general, appointed by Congress, and one deputy quarter master general for the main army, and one for each separate army, to be appointed by the quarter master general:

That the quarter master general appoint one deputy for each State, if he shall judge so many to be necessary, and

the same be approved by the Board of War; the person appointed to be approved of by the supreme executive of the State in which he is to be employed:

That each deputy, whether appointed for one State or more, shall appoint as many assistants as the service may necessarily require, and the quarter master general shall approve; and a return of such appointments shall be immediately made to the Board of War by the quarter master general:

That all store-keepers, contractors, clerks, conductors, artificers and labourers, of whatever denomination, who may be found necessary for the well conducting the public business, be appointed by the deputies in their respective districts; and that they employ them in such numbers, for such time, and at such places, as the service may require, and on such conditions as they can be agreed with, which shall appear to be most for the benefit of the public: nevertheless, if they are agreed with or continue in service for any longer time than two months, the conditions are to be approved by the quarter master general:

That the duty of a deputy quarter master for a State shall be, to provide the means of transportation in such State for all public property, agreeably to the orders he may receive from the Commander in Chief, the Board of War, the quarter master general, or the officer commanding in the State; to provide such store houses either by hire, purchase or building as may be necessary for the preservation of the public property, to fix at these store houses and to appoint suitable store-keepers, properly instructed, to account, in the best manner the nature of the business will admit, agreeably to such plans as they may receive from the quarter master general may prescribe for all articles received, whether provided by the State in the State, or received from another State, taking care always to note deficiencies, and to reject

such as are deficient in quality, whether provided by the State, or in any other manner within the State; but if the parties are dissatisfied, the store-keeper, and the person or persons so tendering the goods, shall each nominate three of the most reputable freeholders in the vicinity of the place where the goods are to be delivered, the store-keeper to appoint one of the three nominated by the person or persons offering the goods, and he or they, one of those named by the store-keeper; and if the two first cannot agree, a third is to be chosen by lot out of the remaining four, as an umpire; the arbitrators to be on oath, and copies of their award to be delivered in writing to the parties, which shall be binding and conclusive and to issue the same agreeable to orders they may receive either in the line or staff for such public purposes as the service may require; to keep proper registers of all persons, teams, pack-horses, vessels and craft, employed in the department, noting the manner and conditions on which they serve, and whether the teams, pack-horses, vessels or craft, are private or public property; to execute all orders, either for purchases or other purposes, which he may receive from the Commander in Chief, the Board of War, the quarter master general, or the commanding officer in the State; appoint and to pay all officers in the different parts of the State who shall be necessary to execute the business of the department, and who have been approved as aforesaid; to give such instructions, with respect to the management of the business, as shall appear necessary to have it conducted with the greatest economy and order, and at the same time with that despatch which the service may require; to apply to the assistant quarter master general residing near Congress for such sums of money as the service may require, and to distribute the same in such proportions as will best answer the purpose; to visit all the places of business of those serving under him, as often as
his other duties will admit; and see whether they execute their duty agreeably to the instructions they receive; to inspect their accounts, books of receipts and issues, and to correct what is amiss; to collect and render his accounts of purchases of expenditures and returns of public property and persons employed in the department every two three months; and to make return to the assistant quarter master general of all issues that have been made, mentioning the articles, quantity or number of each, on whose application or order issued, and to whom delivered; to see that all stores provided in one State to be forwarded to another, be carefully inspected, that the quantity and quality is agreeable to the order given before they are sent forward; to confine all the contracts or bargains of the contractors and agents of every denomination, within the State to which they belong, to prevent one contractor interfering with another; to make such provision for wintering or recruiting public horses, as may be necessary for the convenience and support of the army: and generally to do and perform every thing necessary to promote the service.

That the duty of the assistant quarter master general shall be, to reside near Congress; to frame plans for keeping accounts in the department, and to accommodate them to the nature of the business in the best possible manner for preserving regularity; and after the quarter master general shall approve thereof, to transmit them to the deputies in the several states as a rule for their stating and keeping their accounts, to be by them communicated to all their under agents; to receive from the army and the districts, the accounts and vouchers arising therein to the first day of December, and to lay them before the chamber of accounts for settlement by the first day of January; to apply to the Board of Treasury for such sums of money as the quarter master general shall direct, and distribute the same as the several branches of
the department may require and the quarter master general may direct, to make such remarks and give such directions to the deputies in the several states as shall be found necessary for saving expence or preserving order in the business; to receive from the respective deputies, at the end of every two three months, returns of all persons employed, how, where, and on what conditions, and returns of all public property belonging to the department, and where deposited, made out in four distinct columns, one containing what has not been issued, another what is in use, the third what has been used and wants repairing, and the fourth what articles are is unfit for further service and still of some value; these returns to be made agreeable to such forms as shall be furnished by the quarter master general.

That the returns be made to the assistant quarter master general in March, June, September, and December; and that the general returns be furnished to the quarter master general as soon after as possible.

That the quarter master general appoint one commissary of forage for the main army, and so many deputies, commissaries of forage and forage masters, clerks, and labourers, as the service may require, and the Commander in Chief shall approve of; a deputy commissary of forage, and as many clerks and labourers for each separate army, as the service may require, and the commanding officer of such separate army shall approve of:

That the duty of a commissary of forage and of a deputy commissary of forage with a separate army, shall be, to provide forage and pasture in the neighbourhood of camp, by purchase or otherwise, as the case may require, and to distribute the same; to correspond with the deputy quarter masters, in the states in or near which the army may be, and make seasonable requisitions from them for such quantities of forage as the service may require, and to receive and
issue the same to the army, in such manner and proportion, as is hereafter directed.

That the wages of people employed in the forage branch, as well as the price of forage purchased, and hire of pasture as aforesaid, and all other contingent expences of the department, be directed for payment to the quarter master general's pay office; that the commissary of forage, or his deputy, certify the sums due, and that the same have been fully examined; that such orders or certificates for payment be presented to the auditor of accounts in the quarter master general's office, and pass from him to the pay office: but when, from sudden movements of the army, the certificates for pasturage or forage furnished in the vicinity thereof, signed by the commissary of forage, or his deputy, cannot be brought for payment to the quarter master general's pay office in camp, without great inconvenience to the possessors of the same, such certificates shall be paid by the deputy quarter master of the State in which the same shall have been furnished, the sums and articles furnished being inserted in words at full length; and to prevent frauds, the commissary of forage, or deputy with a separate army, shall furnish the deputy quarter master of the State, in which the army may serve, with a list of the persons employed in the forage branch, in their own hand writing, and the printed form of certificates generally made use of by them:

That the commissary of forage or deputy with a separate army, fix upon such places for receiving and issuing forage at the army, as shall best accommodate the service; and that written instructions be given to the keeper of the magazine of forage, how and to whose order to issue the same; that proper entries be made in a book, to be kept for the purpose of all receipts and issues, and that the orders be numbered and filed to agree with the entries in the book.
That the assistant forage masters, and keepers of the army magazines shall make weekly returns to the commissary of forage master general, or to the deputy with a separate army, of all forage received and issued, and of all pasturage made use of, and certificates given for the same; and that the commissary of forage master general, or deputy with a separate army, shall, at the end of every four weeks, make returns to the quarter master general, or deputy quarter master with a separate army, of all the forage received at the magazines or collected from the country, and of the issues of the same; also of all certificates for pasturage or forage which have, within that time, been given for settlement at the quarter master general’s pay office.

That forage for the waggon horses be issued on the returns of the respective conductors, countersigned by the waggon master general or his deputy; and for other horses on the orders of the officers intitled to receive forage by virtue of these regulations: and if any officer in the forage department shall issue forage in any other manner, or in larger proportions than is prescribed in these regulations, he shall be charged with and pay the full value of such extra forage, and be dismissed from the service.

That there be no deputy commissary of forage or forage master appointed, except for the main army, or a separate army; and that all forage which it may hereafter be necessary to issue at any post, be issued by the deputy quarter master of the State, his assistants or store-keepers:

That the deputy quarter master of the State shall appoint the magazines or places at which forage shall be issued, and none shall be issued at any other; nor shall any forage be issued at such post to any officer, unless he certifies upon honor, on his return, that he is not on furlough nor absent from the army on his private business:
That a ration of forage shall consist of fourteen pounds of hay and eight quarts of oats for a saddle horse, and sixteen pounds of hay and twelve quarts of oats, or other short forage equivalent, for a draught horse, per day: that in cases where either of the above articles cannot be furnished, a double quantity of the other shall be considered as a complete ration.

And whereas the great number of issuing posts established in these states have, by experience, been found very burthensome and expensive.

Resolved, That from and after the twentieth first day of July August next, no post, without troops there stationed, and in the continental service, shall be continued or established in any State at the expense of the United States, nor public provisions or forage issued thereat (the magazines before mentioned excepted), but by order of the Board of War, the Commander in Chief, or commanding officer of a separate army; and such order shall be given only in cases when, in their opinion, the obtaining provision or forage in any other way would be impracticable or attended with greater public expense and inconvenience than by such issues.

And whereas it may sometimes happen that there is a necessity to detain hired teams, the owners of which were to find their own forage and provisions, beyond the time for which such teams were engaged, and who, if their own forage and provisions are expended, must have recourse to the public magazines:

Resolved, That such teams, and their conductors and drivers, so detained and become destitute of forage and provisions, shall be supplied out of the public magazines, upon the written order of the officer by whose order they shall have been detained; and the wagon master general, or his deputy or other person, under whose direction such teams shall be employed, before he signs their discharge, shall cause
to be endorsed thereon, by the forage master and commissary, or store-keeper (as the case may be) the number of rations of forage and provisions furnished to such teams and their conductors and drivers, that the same may be deducted out of the wages due to the owners of such hired teams: that, excepting in the cases above mentioned, no provisions or forage be drawn by any person not actually serving with the army, or some detachment thereof:

That there be one waggon master general with the main army, and as many deputies, clerks, waggon masters and subconductors, as the service may require, and the Commander in Chief shall approve of; that there be a deputy for each separate army, with as many assistants, clerks, waggon masters and subconductors, as the same may require, and the commanding officer shall approve of:

That the waggon master general, and deputy with a separate army, shall keep an exact register of all persons and teams employed with the army in his department, distinguishing by proper columns the private and public property; that he keep exact registers of all pay rolls, noting the time and conditions of payment; that, in every pay roll, the name and character employment of every person be inserted at full length; and that the roll be signed by the waggon master, and countersigned by the waggon master general or deputy with a separate army, and then pass to the auditor of accounts in the office of the quarter master general’s office general, or deputy in a separate army, and from him to the respective pay office:

That the waggon master general, or deputy in a separate army, give all the orders on the horse yard for horses to equip the teams, and orders on the store for harness; and every waggon master deputy or assistant, receiving horses or harness upon such order, shall be charged with the same in his
books, and be made to account, by his weekly or monthly returns, for the horses or harness delivered to him.

That the waggon master general shall make monthly returns to the quarter master general, or oftener if required, of all persons, teams, and horses, employed in his department, noting where and with whom serving, adding a column of casualties, in which to insert the deaths, stolen or strayed horses, and also the harness that may be lost, and generally to make such regulations for the government of the waggoners as shall be best calculated to preserve public property, and to give them as a standing order to all the waggon masters, the quarter master general approving thereof: that the like duties be performed by the deputy waggon master general of a separate army:

That the quarter master general have liberty, with the approbation of the Commander in Chief, or commander of a separate army, to take such and so many officers from the line of the army, to serve in his department, as he may find necessary, and as are willing to engage in the business:

That the quarter master general establish a horse yard with the army, for the purpose of receiving and issuing all public horses; and that the person appointed deliver none from the yard but by the order of the Commander in Chief, the quarter master general, or his deputy, or the waggon master general:

The same regulations to take place with a separate army:

That an exact register be kept of the receipt and delivery of all horses, from whom received, to whom delivered, and by whose order to keep an exact register; and also of all horses that may die, be stolen, or stray from the yard, or that are ordered to be sold by the quarter master general, as unfit for farther service; and that returns of all transactions of the yard be made to the quarter master general's office
monthly, and as much oftener as the quarter master general may direct.

Whereas it is necessary that every army should be limited in the article of baggage; this regulation being essential, as well to save expense as to prevent the army from being embarrassed in its operations; and that every officer should have only such a quantity of baggage as is essential to his comfort and appearance:

Resolved, That the following proportion of waggons and bat-horses be allowed to the different ranks of officers, and no more, unless it be by order of the Commander in Chief, or commanding officer of a separate army, each of whom to be allowed for themselves so many baggage waggons and bat-horses as they may think necessary, to wit:

Whereas the business of deputy quarter masters general, serving in the different states, may vary greatly one from another; and whereas that allowance which would be ample in some states and for some persons would be totally inadequate in others as well from the difference there is in the genius of the people as from the different expense attending the duties of the office, would be inadequate in others:
Resolved, That the quarter master general be authorised to fix the pay of each deputy to conduct the business of his department in the states, according to the duties they have to perform, and the expenses they will be at in executing the same; so that the pay of no deputy exceed one hundred and thirty-four dollars per month, without provisions or forage, always having regard to the merit and services of the person appointed, and which shall be approved of by the Board of War:

That any of the said officers entitled to forage, who shall keep their horses at their own expence, when in camp, or when necessarily absent from the army on public service, shall be allowed as much daily for the forage so found as shall be certified monthly by the deputy quarter master general of the State in which the army may be, to be the net current cost of a ration of forage, the every officer claiming such payment, producing a certificate from the forage master from whom he usually draws forage, that he had not drawn forage from him during the time charged for, and certifying upon honor that he hath drawn no public forage whatever during the said time for the keeping his horse to the amount charged; on which a certificate shall pass from the commissary of forage master general, or deputy, to the quarter master general's auditor, for settlement of the same, not exceeding the current net cost of the ration as settled by the quarter master general of the district State: Provided, that no officer on furlough shall be entitled to draw forage or pay for the same, for any time he is absent beyond the term allowed him by his furlough.
And, whereas, an army cannot be subsisted, or the operations of War carried on, without an ample and certain supply of forage, which must, in a great part, be furnished in pasturage and Hay from the vicinity of the Army; Therefore,

Resolved, that it be recommended to the Legislatures of the different States in which the army may serve, to make provisions for furnishing the horses of the army, or detachments thereof, with a sufficient supply of pasturage, and with such Hay or other forage as can be spared from the Country in the vicinity of the Army, or detachments thereof; the same to be settled and paid for by the Quarter master General with the Army, or by the Deputy in the State.

That the officers of cavalry be allowed to draw forage or pay for the same, under the like regulations as other officers, for the following number of horses, provided they actually keep the same: a colonel four three; lieutenant colonel three two; major, three two; captain two; lieutenant one; cornet one; pay master, quarter master, and adjutant, exclusive of allowance as officers in the line, each one; surgeon one:

That all certificates for forage supplied to detached parties of cavalry, serving on the lines, or on marches, where public forage cannot be drawn, shall be signed by the forage master or quarter master of the regiment or corps, or by a commissioned officer, if any be with the party, if not, by a non-commissioned officer, mentioning the quantity and species of forage, the number of horses, the time for which the same was drawn; and the price shall be inserted in words, at full length, and the title of the officer and regiment or corps to which he belongs, shall be added to his name:

That every officer who shall give such certificates, shall make a return of the same to the officer commanding the regiment to which he belongs, who shall direct his forage
master, or quarter master, at the end of each month, to make a return of such certificates, to whom and where given, and to what amount, to the commissary of forage master general, or to the deputy with a separate army, and to the deputy quarter master general of the State in which such supplies shall have been obtained, which certificates shall be passed by the commissary of forage master general or deputy with a separate army, either to the quarter master general’s pay office for settlement in camp, or to the deputy quarter master general of the State for payment.

That all officers commanding detachments of cavalry shall make returns of the forage they may draw, with the number of horses, and the time for which the same was drawn, to the officer commanding the regiment or corps to which they belong, which the commanding officer shall deliver to the forage master or quarter master of the regiment or corps, who shall make returns of all the forage received and issued to the regiment or corps, at the end of each month, to the commissary of forage master general or deputy with a separate army:

That whenever forage or provision be furnished either with the army or in any of the states for the use of waggoners and teams employed in the public service and by contract to find their own provisions and forage that the same be endorsed upon their pay roll and to be deducted from the same before they are discharged from the service and it is recommended generally.

That all the teams not serving with the army be contracted with to find their own provisions and forage, if possible, and to be paid by the trip or hundred weight per mile:

That no military or staff officer shall own, or in any manner be interested in any boat, shallop, waggon, or other carriage, horse or team, employed on hire or contract, in the service of the United States, on pain of forfeiting a sum equal to that which shall have become due for the service of such boat,
shallop, waggon, or other carriage, horse or team, during the
whole time they shall have been so employed; and for a secon-
d offence such officer shall be dismissed from the service:
That the quarter master general take such measures for
providing camp equipage, and make such regulations for dis-
tributing the same, as he shall find necessary, and the Com-
mmander in Chief or the Board of War shall approve; and that
he also take measures for engaging such artificers as the
service, from time to time, may require, in addition to the
regimented artificers, and as shall be approved by the Com-
mander in Chief; and that he generally make such arrange-
ments and appointments as shall be necessary to manage the
business of the quarter master’s department, either with the
main army, a separate army, or detachment:
That the quarter master general or deputy with a separate
army, furnish such horses, for special purposes, and on par-
ticular applications, as he shall think the good of the service
may require; and whenever any doubt arises, that the mat-
ter be referred to the Commander in Chief, or the com-
manding officer of a separate army, for their instructions:
That no purchases of horses or any other articles with the
main army, or in any of the states for the use of the army, in
the quarter master general’s department, be made, unless by
order of the quarter master general, or one of his assistants
or by a deputy quarter master general with a separate army
or garrison:
That the quarter master general make returns to the Com-
mmander in Chief and Board of War, as soon as possible after
they are delivered in to him by the assistant quarter master
general, of all officers and other persons employed, and stores
belonging to the department, and that a deputy serving with
a separate army, or with a garrison, make returns quar-
terly, in the months afore-mentioned, agreeably to the direc-
tions given to a deputy of a State, which the quarter master general shall include in his general returns:

That all officers in the quarter master general's department, of whatever denomination, shall take the oaths of allegiance and the oath of office prescribed by Congress, before they enter on business:

That, with the returns before directed to be made, of the name and station of each person to be appointed in the quarter master's department, there be also at the same time certificates returned therewith, of all such having respectively taken the oaths and qualifications directed by resolution of Congress of the afore-mentioned:

That in settling the accounts of officers in the quarter master's department, to be appointed by this act of Congress, no pay or allowance whatever be granted to any person employed in that department, whose name and employment, together with a certificate of his taking the aforesaid oaths, which by the aforementioned resolutions is directed to take the same shall not be duly returned in manner above directed;

That the Board of War shall have power to suspend and dismiss all supernumerary officers that may be hereafter be employed in the quarter master general's department.

Resolved, That Major General Greene be continued in the office of quarter master general; that he be, and he is hereby directed to make the appointments and arrangements in the quarter master's department, agreeably to the foregoing resolutions, as soon as possible.

And that from and after the 20th day of August next all former resolutions for regulating the Quarter Master's department, and appointments under them, be annulled and vacated.

Provided, That nothing contained in the foregoing resolutions shall be construed to annul the resolution of the 9th
day of July, 1779, authorizing the executive authority of the respective states to correct abuses in the staff departments, or to vacate any appointment made, or that may be made by Major General Gates for the southern army, agreeably to the resolution of the 14th day of June last.

Resolved, That it be, and it is hereby recommended to the legislatures of the several states in which the army may serve, to make provision for furnishing the horses of the army, or detachments thereof, with a sufficient supply of pasturage, and with such hay or forage as can be spared from the country in the vicinity of the army or detachment thereof; the same to be settled and paid for by the quarter master general with the army, or by the deputy in the State.¹

A report of the Board of War was read, for an advance of money for the purchase of horse furniture for Baylor's and White's regiments of light dragoons:

War Office, July 14, 1780

Sir,

In consequence of the resolution of the 6th June last directing such arms and accoutrements as were wanted for Baylor's and White's Regiments of Cavalry to be sent forward. The Board immediately gave the necessary orders for carrying into execution the intentions of Congress, but Col Finnie to whom the providing a part of the accoutrements was intrusted, has informed the Board he could not comply with their requisitions unless he was furnished with a sufficient sum of money for the purpose. He was directed to procure two hundred saddles, bridles, and accoutrements complete which will cost about £135,000. The Board therefore beg leave to report

That a warrant issue in favor of the paymaster of the Board of War and Ordnance, for three hundred and sixty thousand dollars, to be applied to the purpose of procuring accoutrements for the cavalry of the Southern Army.²

Ordered, That it be referred to the Board of Treasury.

One on William Armisted, commissioner of the continental loan office for the commonwealth of Virginia, for forty six thousand nine hundred and eighty six dollars and 52/72 of a dollar; and

Resolved, That a copy of General Washington's letter, of the 10th, and the estimate of tents and other camp equipage wanted for the army, accompanying the same, be transmitted to the supreme executive powers of the states of New Hampshire, Massachusetts Bay, Rhode Island and Connecticut, and that they be requested to take such measures as they may judge will be most speedy and effectual for procuring within the said states respectively, the portions mentioned in the estimate, or as great a part thereof as may be had, especially of the most essential kinds.

Resolved, That the same assurances which were given to the subscribers to a bank 'in Pensylvania by resolutions of Congress, of June 22d last past, be, and hereby are given for the reimbursement of the expences which shall be incurred by a compliance with the foregoing resolution.\footnote{This report, in the writing of James Lovell, is in the Papers of the Continental Congress, No. 19, VI, folio 345.}
July, 1780

Congress took into consideration the report of the committee, to whom were referred the petitions of Thomas Jones, George Crothers and others, artificers in the service of the United States; and thereupon,

The Committee to whom were referred the petitions of Thos. Jones, George Crothers and others, artificers in the service of the United States.

Beg leave to Report,

That upon examining the inlistments of the said Petitioners do find the same in substance to be "during the present war, or for three years unless sooner discharged by proper authority." That the receipts given for their bounty upon such inlistments are usually in substance for "The bounty ordered by Congress to be paid to non commissioned officers and privates who inlist during the continuance of the present war." That the Resolution of Congress directing inlistments for three years as far as it respects the bounty is in the words following.

"Resolved that all non commissioned officers and soldiers who do not incline to engage their service during the continuance of the present war and shall inlist to serve three years unless sooner discharged by Congress, shall be entitled to and receive all such bounty and pay as are allowed to those who enlist during the continuance of the present war, except the one hundred acres of land, which land is to be granted to those only who inlist without such limitation of time."

Upon due consideration of the above matters your Committee are of opinion, that said Petitioners, and all others whether artificers or soldiers in the line of the Army who inlisted themselves in the manner above mentioned and have served the term of three years, ought immediately to be discharged, and cannot without manifest injustice be any longer detained in the public service, unless they have re-engaged in the same by receiving a new bounty or some other subsequent act; But inasmuch as the Petitioners and others in like circumstances are generally citizens of the State of Pennsylvania and are now serving either in their State line or corps of artificers, and were inlisted under the direction of the executive authority of that State and may at this time be considered as a part of their quota of troops—your Committee are of opinion that this business ought to be referred
to the President and executive council of the said State of Pennsylvania, who appears to be under every possible advantage to know the true state of the enlistments in question, and under every inducement to do full justice to their own Citizens, Whereupon,

Resolved, That the before mentioned petitions be transmitted to his excellency the president and supreme executive council of Pennsylvania, who are hereby fully authorized and empowered to cause to be discharged as they in their opinion may judge entitled to the same; to grant such relief as they shall judge just and reasonable to the petitioners and to all other non commissioned officers and privates in the Pennsylvania line of the army whose enlistment in their general tenor or substance are to serve during the present war, or for three years unless sooner discharged by proper authority, and who have served three years agreeable to their enlistment, of the corps of artificers in similar circumstances, who have been raised in the said State.

That said President and Council be requested to take effectual measures for completing their full quota of troops that no diminution may long continue, by discharges given pursuant to the above resolution.¹

Board of Admiralty July 18th 1780.

The Board beg leave to inform the Honorable the Congress, that in consequence of an application made to them by the Honorable Henry Laurens Esq they have ordered the Mercury Packet, belonging to the United States, to be got in readiness, to convey him to the United Provinces of the Netherlands.

As a quantity of Duck and Ship-Chandlery, which are very much wanted for the navy, and some small Duck, which may be wanted for tents for the army, may be imported in the Mercury, provided the Board are furnished with a Bill upon any one of your Commissioners for that purpose and as the profit upon such an importation would in some measure countervail the expence of about eighty thousand Dollars which will be incurred by sending the Mercury on the proposed voyage, the Board therefore request Congress to furnish them with a Bill of Exchange for £1000 Sterling, on the Honorable John Jay Esq.

The Board further beg leave to move, that a warrant may issue in their favor on the Treasury for thirty thousand Dollars, to enable them to procure sea stores for the Passage of the Honorable Henry Laurens, Esq.

It will be impossible for the Board to proceed in fitting the Confederacy, if the small sum of money they are possessed of is applied to any other purpose, and indeed unless they can be furnished very soon with a supply of cash that fine ship, which at this time might be usefully employed, must to the great grief of the Board and dishonor of these States continue to lie a useless expence at the Wharf.

Frank Lewis, By order.¹

Resolved, That a bill of exchange on the honble John Jay, for one thousand pounds sterling, be drawn by the Board of Treasury, in favour of the order of the Board of Admiralty, to enable them to purchase and import duck and ship chandlery.

Ordered, That a warrant issue on the treasurer, in favour of the Board of Admiralty, for thirty thousand dollars, to enable them to procure sea stores for the passage of the honble Henry Laurens.²

July 20th 1780

The Board beg leave to represent that the warrant reported this day for four hundred thousand dollars in favor of Charles Pettit assistant quarter Master General is designed for the Department under the particular direction of Henry Hollingsworth Deputy Quarter Master General. That they consider it their duty to submit to Congress a report of the Commissioners of Accounts on certain accounts of the aforesaid Henry Hollingsworth wherein he stands charged with forgery and other frauds and abuses in the execution of his office.

That the said Henry Hollingsworth has appealed from the aforesaid Report to this Board who have been ready to hear said appeal which however has been deferred from time to time.

That the department under his particular direction is very important and requires constant and large supplies of money which are, have been and ought to be regularly furnished—from all which considerations, the Board beg leave to report the following Resolution—

Resolved, That Henry Hollingsworth, deputy quarter master general, be and hereby is suspended, until his appeal from the report of the commissioners of accounts dated the 30th day of March last is duly heard and finally determined and that some other person be appointed to transact the business of that department in the mean time.²

Resolved, That the deposition of Robert Anderson, respecting the supposed forgery of his name to a receipt, offered as a voucher in support of the accounts of Henry Hollingsworth, be transmitted to the executive authority of the State of Maryland, in order that such proceedings may be had against the person or persons concerned therein as may

The Medical Committee, to whom was referred the letter, of 15, from General Washington, brought in a report, which was read; Whereupon,

The Medical Committee to whom was referred the letter of the Commander in Chief of July 15th beg leave to report,

That they have conversed with D. Cochran and other gentlemen of the Hospital department by whom, and the many distressing accounts the Committee almost daily receive from every quarter, it appears that the department is in want of almost every article necessary for the comfortable sustenance of the sick and wounded soldiery. They are therefore clearly of opinion that a sum of two hundred thousand dollars is immediately necessary to put the department on such a footing, that the danger the General apprehends in his letter may be avoided. They beg leave to refer to the enclosed estimate and submit the following resolution.

Order'd, That a warrant issue on the treasurer, in favour of Jonathan Potts, purveyor of the hospitals in the middle district, for two hundred thousand dollars, for the use of the hospitals in the middle district, to be applied as the Medical Committee shall direct; the said purveyor to be accountable.²

A report from the Board of Admiralty was read;
wherein they recommend "that Mr. Van Dyck be appointed
captain of marines, to act at present and receive pay as
lieutenant of marines, on board the Saratoga."

Board of Admiralty July 15th, 1780.

The Board beg leave to represent to the Honorable the Congress,
that there being a vacancy on board the Saratoga of Lieutenancy
of Marines, that ship from her size is not permitted to have a Cap-
tain and Mr. Van Dyck being strongly recommended to the Board
by General Washington to an employment in the navy, the Board
thought it proper that he should be appointed to act at present and
receive pay as Lieutenant of Marines on board the Saratoga, but as
the General hath recommended him to a Captaincy, and he appears
to merit that rank, the Board therefore wish that a Commission of
Captain of Marines in the Navy of the United States may be granted
to Abraham Van Dyck Esq".

Inclosed is Gen¹ Washington's recommendatory letter, which was
omitted when the commission for Mr. Van Dyck was transmitted to
his Excellency the President of Congress.

The Board take leave further to observe that there are but two
Captains of Marines out of Employ, excepting such as are Prisoners,
and about six Lieutenants, and where they are, or in what business
engaged is altogether uncertain, none of them are here. It would
be a great injury to the Service to have marines on board our ships
without officers to Command them, until absent officers should be
sought for and found, and when any of them should be found they
may be either employed in private, or decline further public service.²

On the question to agree to this report, the yeas and nays

On motion of Mr. [Timothy] Matlack, seconded by Mr. [Whitmill] Hill.

Ordered, That the Board of Admiralty enquire into the circumstances under which a quantity of sugars and other merchandise were imported in the frigate Confederacy, and who were the persons concerned in that transaction, and report thereon to Congress.

A report from the Board of Admiralty was read:

**Admiralty Office 21 July 1780.**

The Board beg leave to report to Congress that a warrant issue in their favor upon the Treasurer for 976,736 dollars, being the amount of the estimate, to enable them to fit the *Confederacy* for sea.

The money arising from the sales of sugar imported by the Commissary General of Purchases, and to be sold under the directions of the commercial Comm*, would furnish a considerable sum, and we could wish that it might be applied to this purpose, especially as by a Resolution of Congress, all prize money is to be applied to the use of the navy, and it is exceedingly natural, that money obtained by the navy should go to its use when wanted.
It is not proposed that the whole sum specified, if it could be supplied, should be drawn all at once, but from time to time as necessity may require.

The Board beg further to report that a warrant issue on the Treasurer in their favor for forty thousand Dollars to enable them to advance a month’s pay to the men belonging to the Saratoga, which is now ready to fall down the river.¹

Ordered, That the same be referred to the Board of Treasury.

Mr. James McCall was put in nomination by Mr. [Francis] Kinloch for a commissioner in the chambers of accounts.

On a representation made by the Delegates of Massachusetts Bay, that there is no General Officer to draw warrants on the Deputy Paymaster General in that Department and that Officers and Soldiers in that State have consequently not been paid their wages agreeably to resolutions of Congress.

Resolved that the, President with the advice of the Council of the State of Massachusetts Bay be, and hereby is authorized and empowered to draw warrants upon the Deputy Paymaster General in that Department for such sums of money as now are or shall become due to Officers and Soldiers doing duty in that State, and to those of the regiments lately under the command of Colonels Jacobs and Tyler for their service in the State of Rhode Island entitled to receive pay agreeably to resolutions of Congress.²

Sir,

The board have been applied to by Mr. Pettit, Assis't Q'r Master
Gen'l for money to pay Major Lee for horses purchased by himself for
his Corps. It appears that Major Lee has lately purchased six horses,
amounting to twenty thousand one hundred pounds, to replace in
part the number he lost last winter at Burlington, trusting to the
necessity of the case to justify him. But as the Board know of no
resolve of Congress, authorizing such purchases, they beg leave to
submit to Congress the propriety of determining upon Mr. Pettit's
application for £10,216—the balance now due to Major Lee—the differ-
ence between that sum and the amount of the purchase money, Mr.
Pettit has already paid him.

Should Congress be of opinion that the money should be furnished

vouchers to support his claim that his present situation will admit of,

A warrant issue on the treasurer in his favour, for seven thousand four hundred and eighty dollars, on account of the rum mentioned in his memorial to be furnished to Francis Coddington, deputy commissary general of purchases in Georgia, and for which sum the said William Watson is to be accountable.

Resolved, That in the absence of a general officer, the supreme executive of the State of Massachusetts Bay be, and hereby are authorised and requested, to draw warrants upon the deputy pay master general in that department for such sums of money as now are, or may be hereafter due on account of pay to officers and soldiers who have done, or are now doing duty in that State, or in the State of Rhode Island.¹

Congress took into consideration the report of the committee on the letter from Moore Furman, deputy quarter master; and thereupon,

Resolved, That a copy of the said letter from Moore Furman, be transmitted to his Excellency Governor Livingston, and to the quarter master general:

That the quarter master general be directed immediately to appoint such suitable person as shall be approved by the supreme executive authority of the State of New Jersey, to act as deputy quarter master in the said State, agreeably to the late regulation of the quarter master's department, in order that the measures therein provided for collecting forage and transporting provisions and other public stores, may be taken as soon as possible:

That, until such deputy is so appointed and approved, Moore Furman be authorised to receive from the state commissaries such quantities of forage, out of the supplies purchased for the United States, as may be necessary to enable

him to forward the transportation of public stores; and that Governor Livingston be requested to give orders to the state commissaries to deliver the same accordingly, if such order shall be necessary: and also to take the necessary steps for approving a suitable person to be appointed Deputy Quarter Master in said State as aforesaid as speedily as possible.

Congress took into consideration the report of the committee on the letter of 19 June last from Major General Greene, quarter master general; and thereupon,

The Committee to whom was referred the letter of the 19th of June last from General Greene desiring the sense of Congress on his responsibility as Q. M. General for the Expenditures of his Agents submit the following report.

They conceive it to be essential to the public interest as well as incident to the nature of all offices entrusted with money for public uses, that those who exercise them should be accountable for its due application nor can it make any substantial difference whether the advances be immediately disbursed by the principal himself to whom they are made, or by agents appointed by and amenable to him since it is always in his power and is manifestly his duty to take the precaution of sufficient securities.

That this has been the idea of Congress appears not only from the express condition on which every particular advance of money has been made to the several Departments, but from a resolution of Congress of March 2d 1778 subsequent to the appointment of General Greene "enacting that the forage masters, waggon Masters and other officers in the Department be in the appointment of the Qr M't General, who is to be responsible for their conduct." In this general responsibility no doubt can exist, that the faithful expenditure of public money is included. On the contrary it is rather to be supposed, that this branch of their duty was most immediately pointed at.

The Committee however in searching the Journals find two instances in which it appears that Congress have been disposed to qualify the strictness of this doctrine in favour of the Heads of the Depart-

ments. The first is a resolution passed April 16th, 1778 respecting the Commissary General's Department which as far as the expenditure of money is concerned is perfectly analogous to that of the Q. M. General. It is in these words, "That nothing contained in the system of the Commissary General's Department shall be construed to make the Commissary General liable for the misapplication of money for the use of his Department by any inferior officer in that Department, provided that he shall take bonds from the Deputy Commissary General and Assistant Commissary General respectively appointed by him, with not less than two good and sufficient securities in the sum of twenty thousand dollars to be by him lodged in the Treasury Office, and the said Deputy Commissaries shall be exonerated of all sums of money by them respectively paid to the Purchasing Commissaries, provided they shall take bonds from the said Purchasing Commissaries respectively with not less than two good and sufficient securities in the sum of ten thousand dollars, which bonds they shall lodge in the said Treasury Office."

The other instance is the report of a Committee on a letter from Genl Mifflin agreed to in Congress May 19th, 1778 in the words following "That they had had a conference with Major General Mifflin and the Auditor General on the subject of the said letter and having heard General Mifflin's observations on his peculiar situation as Q. M. General and his objections to being held strictly to account in cases where from the nature of the business and particular circumstances attending it, he was incapable of direct agency and the necessary Superintendence that the Committee delivered to him and to the Auditor General their opinion that the great servants of the public are generally to be accountable, that if in the course of adjusting the public accounts deficiencies shall appear Congress will in every special case determine upon the circumstances as they arise whether the party shall or shall not be discharged, that the Committee had no doubt, but such favorable allowances would be made as justice should require, but that Congress could not consistent with their duty to the United States by any general resolution hold up the maxim, that payment of money to Deputies or Assistants in a Department should discharge the principal."

From this view of the subject, the committee recommend the following resolution

10970—10—42
Resolved, That Major General Greene, quarter master general, be informed, in answer to his letter of the 19 June last, that Congress, conceiving it to be essential to the public interest, as well as incident to the nature of all offices entrusted with the disbursement of public monies, that those who exercise them should be responsible for such disbursement, whether it be made immediately by themselves or by agents appointed by and responsible to them, cannot, consistently with their duty to their constituents, by any general resolution, hold up a contrary maxim; but as they wish not to expose the faithful servants of the public to any unreasonable risques or losses, and are sensible that, in the various branches of the quarter master's department abuses and frauds may possibly happen, notwithstanding all the customary precautions, that in all such cases they will determine on the circumstances as they arise, and make such favourable allowances as justice may require.¹

A report from the Board of War was read; Whereupon,

WAR AND ORDNANCE OFFICE. July 22. 1780

Sir,

We have the honor to lay before Congress an estimate of the shot, shells, and gun powder required for the service of the present campaign, and which the intended co-operation with our allies, in the siege of New York renders indispensable. Large as it may seem, it is one third part less than the estimate sent us by Genl. Knox, and approved by the Commander in Chief, copies of whose letters on the subject are inclosed. The estimate of the Board is founded on one of Genl. Knox's of the 5th of Oct. 1779 (when Count D'Estaing was expected) for a thirty days siege, which being doubled produces the present estimate for sixty days: but as the days are now one third part longer than they were last Oct? Genl. Knox thinks one third more should be added to the estimate. It appears however to the Board that the chief operations will not now take place till the days are much shortened; so that the principles on which he grounds his first

¹This report, in the writing of James Madison, is in the Papers of the Continental Congress, No. 19, II, folio 449.
July, 1780

estimate will apply to the present one. Besides, we greatly fear that the estimate of powder will hardly be completed as it now stands; but should we happily be mistaken in this point, and the siege soon commence, the orders for shot and shells may then be increased.

To the estimate we have added the probable cost of the shot and shells yet to be procured, and the price of such powder as may be purchased in the United States, which we apprehend will be very little. The second estimate contains a list of articles not on hand, and which must be purchased as necessary appendages for the service of the mortars and cannon.

Were it possible for Congress to furnish immediately the requisite sums of money, we should have little doubt of procuring the deficient numbers of shot and shells: but the iron masters who were employed the last year in casting them, were such great sufferers by the delays and mode of payment for their work, we cannot even hope that many, if any of them, will again work for the United States without the highest moral certainty of their being paid in due time, and according to the real value of the articles they shall furnish. Some of them indeed we are informed have been rendered incapable of making the necessary preparations for putting their furnaces in blast this season, and are almost ruined. Had they been early paid the sums they finally received, even in loan office certificates, they might probably have applied them usefully: but as it was, they could procure with them neither stock nor workmen, nor negotiate them without a loss of from ten to fifteen per cent: and to this day, arrears are due to some of them. We trust Congress will excuse our being so particular on this point, because it appeared to be necessary in order to give them a just idea of the embarrassments we are now to expect in procuring shot and shells.

As we conceive it to be utterly impossible to furnish in current money the requisite sums, we beg leave to suggest as the best remedy under present circumstances, the expediency of enabling the Board to contract with the iron masters in a certain medium, which at the same time that it insures to them eventually the full payment of their debts, cannot injure the public. Such contracts we believe may be made. Yet few if any of the iron masters will be able to proceed without some current money to pay and feed their workmen; for which purposes we hope ——— hundred thousand dollars may be sufficient.
But should these stores be provided, still there will be a capital deficiency of gun powder, to procure which, no possible resource should be left untried.

These States have so often experienced the kindness and generosity of our allies, we cannot doubt of their readiness on the present emergency, to supply our wants to the utmost extent of their ability. Should their fleet here have a surplusage of gun powder, we assure ourselves it will be most cheerfully lent us; but it is to be doubted whether they have brought more than will be wanted for their own use and that of their troops in the intended joint operations. Their magazines however in the islands may be amply supplied, and from thence perhaps some aid may be drawn. The friendship of the Spanish nation may also warrant our hopes of deriving assistance from the stores of his most Catholic Majesty at the Havanna. Of the propriety and mode of applications in these cases, Congress will determine.

We need not observe, when such large quantities of stores are to be procured, and on so short notice (for the General's letter of the 4th inst: was the first official information we received of the aid of ships and troops expected from France, and of the intended operations against New York) that the immediate attention and decision of Congress on the subject of this letter, is indispensable, and in order to facilitate their determinations, we beg leave to state our own ideas of the matter in the following resolutions

Resolved, That the Board of War and Ordnance be authorized and directed to procure with all possible despatch, six hundred and fifteen tons of shot for battering cannon, and nine hundred and forty seven tons of shells of such sizes as they shall deem proper according to the requisitions made by the Commander in Chief.¹

That for this purpose, they be immediately supplied with four millions of dollars, and that they be authorized to contract for the whole quantity on the best terms possible, and agree on behalf of the United States to make payment in specie, or an equivalent in the currency of these states, at such periods as shall be mutually agreed on between the said Board and the manufacturers, with inter-

Admiralty Office
July 24th 1780.

The Board of Admiralty beg leave to represent to the Honorable the Congress that some time in the year 1778, they passed an act directing the marine Committee to revise the regulations relative to the navy and captures by sea; that afterwards upon an application of the said Committee Congress divided the business, assigning the former to the Marine Committee and the latter to the court of appeals; that both parts have been taken up but have not been pursued and completed; that it is highly necessary this matter should be resumed and finished, and both the regulations be published in one pamphlet;

so that the Commanders of the navy, privateers, and letters of Marque may be properly informed of their duty and the confusion avoided which must follow an attention to regulations adapted to circumstances very different from the present, to regulations indigested and incomplete.

The Board have resumed the branch assigned to the Marine Committee, and intend to proceed in the business as they may have leisure.

As the Commissioners of appeals consisting of Members of Congress are dissolved, The Board beg leave to propose, that a special committee be appointed, to revise the regulations relative to captures by sea and form a system suited to our present circumstances and connexions.

That upon an examination of the papers and letters referred to them, it appears that the government of the State of Pennsylvania in this critical conjuncture of our public affairs has manifested her usual zeal and activity, and that the letter from the Committee at Camp of the 13th day of July contains sentiments improper to be addressed to the supreme executive authority of any of the United States.¹

sets Bay, are convinced that it is and has long been so very ill
ducted that the benefits derived from it have been very inadequate
to the expense of supporting it. Sensible of this, the board more
than six months ago requested Col Lamb (who had been appointed
Surveyor of Ordnance) to visit that post, to examine into abuses,
and report such arrangements as the good of the service should, in
his opinion require. His report will be transmitted to Congress
herewith. The most important matter recommended by him is the
appointment of "a person capable of managing the department, who
should have the superintendence of the whole." This coincided with
and confirmed the opinion the Board had previously formed on the
same point. The board at that time endeavored to procure a fit per-
son for such superintendence, and received encouragement that a
gentleman every way qualified for the office would accept it, but
were disappointed. We are now satisfied it would be better to break
up the post entirely than continue it on its present footing. For,
such has been the negligence and mismanagement for some time past,
we cannot think it our duty to furnish any more money for the post,
while the present principals there are in office: yet without money
business must wholly cease, and the department be dissolved. An
immediate reformation of it therefore appears to be absolutely
necessary: for as the post is well situated, as many Stores are there
collected, and buildings provided for their reception, we think it
ought to be maintained, provided, abuses are reformed, useless
officers removed and proper arrangements made: and if this be done
immediately some important advantages may be derived from it
during the present campaign

We beg leave farther to observe, that in order to obtain the most
satisfactory evidence respecting the post at Springfield, we directed
M' Hodgdon Deputy Comm' Gen' of Military Stores, who is person-
ally acquainted with it and with every officer there, to lay before us
the fullest information in his power respecting it. His answer is
enclosed together with extracts from letters to him from divers
officers in the department at Springfield: all which clearly evince the
absolute necessity of reforming it, especially by removing those who
now claim to be its principal directors. We also find that there are
some improper and unnecessary officers at other posts in this depart-
ment who ought immediately to be removed. We therefore beg
leave to report,
Resolved, 1 That Ezekiel Cheever Esq' and Lieutenant Colonel David Mason, who have been employed at Springfield in the State of Massachusetts Bay, in the Department of the Comm' Gen' of Military Stores be excused from farther service at that post but that they continue to receive their pay and subsistence money respectively, until the farther order of Congress.

That the Board of War and Ordnance be authorised and directed to remove any unnecessary officers at that and any other post in the department of the Comm' Gen' of Military Stores, and to arrange the affairs of the whole department in such manner as they shall deem most conducive to the public service: reporting their proceedings to Congress.

The Board are aware that the business now reported upon is included in the commission of the committee at camp; but as they are likely to be detained there during the campaign; as the Board are well acquainted with this department, from its having ever been under their more immediate direction: and at the present time, have received as full and satisfactory information respecting it, as perhaps can ever be obtained: and as the public service is suffering greatly for want of the arrangements now proposed; we thought it our duty to wait no longer, but to ask the immediate decision of Congress thereon. 3

THURSDAY, JULY 27, 1780

A letter, of 24th, from President Rodney, of Delaware, was read. 3

Areport from the Board of Admiralty was read; Whereupon,

ADMIRALTY OFFICE, July 26th 1780.

The Board of Admiralty have received the Resolutions of Congress respecting a revision of the Regulations of the navy, and of those relative to Captures by sea.

1 The next two paragraphs are entered in the Journal in the writing of George Bond.
3 This report is in the Papers of the Continental Congress, No. 147, IV, folio 444.
3 This letter is in the Papers of the Continental Congress, No. 70, folio 757.
Protesting that they are disposed to pay due obedience to all acts of Congress and to do every thing in their power for the furtherance and promotion of the sea service, the Board crave leave to request that they may be discharged from reporting a system of regulations relative to Captures by sea, and for the following reasons, to wit.

First. The impropriety of assigning this branch of regulations to them, and

Secondly. The impossibility of their completing in convenient time a proper system.

Conceiving that there was an impropriety in committing this branch of regulations to the Marine Committee, Congress notwithstanding that Committee consisted of thirteen members, many of which were learned in the law of nations, did, agreeably to their request, assign this business to the court of appeals, as the Board have already represented to Congress.

If it was then improper, the board submit to the wisdom of Congress, whether it can be now proper when there are but two standing members of the Board of Admiralty, to commit to them the framing a system of regulations relative to Captures by sea.

The impossibility of their reporting such a system in due time, will appear from the following considerations.

Regulations for the Navy will require much time and attention. Those which have been made by Congress, must be critically reviewed, and such of them selected as are judged suitable to our present circumstances, the British regulations inspected (for the Board do not think it unlawful to be taught by an Enemy, whose naval skill and power, until the reign of the present illustrious King of France, were superior to that of any Kingdom or state on earth) such of them adopted as our constitution will admit, and the whole systematically arranged.

This business the Board have re-assumed, and it must be pursued amidst a variety of other matter, and under the embarrassments, in which for want of a system and money the Board, is deeply involved, a considerable length of time must of course have run out before the regulations of the navy can be reported. After this, as the resolutions now stand, the regulations relative to Captures are to be taken up. Congress we believe will be of opinion with us that in this way they will not be completed until the arrival of some very remote period in futurity.

10970—10—43
For these reasons, we hope Congress will discharge the Board from framing regulations relative to Captures by sea, and commit it to a special committee as was before requested.¹

Ordered, That the Board of Admiralty be discharged from reporting a system of regulations relative to captures by sea; and

That the same be referred to a committee of five:

The members chosen, Mr. [Thomas] McKean, Mr. [James] Henry, Mr. [Jared] Ingersol, Mr. [Richard] Howly and Mr. [Nicholas] Van Dyke.

Whereas it is necessary that, during the war, the states be supplied with commissions, bonds and instructions, for private armed vessels, and that the bonds given by the commanders of the said vessels be returned into the office of the secretary of the United States in Congress assembled:

Ordered, That the commissions signed by the President, and attested by the secretary of the Board of Admiralty, together with the instructions and blank bonds, be lodged in the office of the secretary of Congress, and issued from thence to the several states, on the requisition of the supreme executive powers of the said states respectively:

That the bonds executed by the commanders of the private armed vessels, to whom commissions are or may be given, be lodged in the office of the secretary of Congress:

That an account be kept in the said office of the commissions, bonds, and instructions sent to the several states, and of the bonds returned by them respectively into the said office.²

That it is expedient and necessary to refer the said William Millward to the commissioner of the continental loan office for the State of Connecticut, for the payment of the interest due on the sum mentioned in his said memorial, as the money was put into that office:

The Board beg leave further to report: That the Loan Offices are not in condition to make payments agreeably to the resolution of Congress dated the 28th day of June last, and that it is expedient that speedy provision be made for that purpose. ¹

Resolved, That Congress agree to the said report.

A memorial from Joshua Barney, lieutenant in the navy, was read. ²

Ordered, That it be referred to the Board of Admiralty.

The Board of War, to whom was referred the petition of Abel Westfall, brought in a report; Whereupon,

AT A BOARD OF WAR. July 27. 1780

Present. Col Pickering, Col Grayson, Gen! Ward

The Board having considered the petition of Abel Westfall, referred to them by Congress, are of opinion, that the vouchers, (the best the case will at this time admit of) are sufficient to establish his claim of payment for his waggon and horses, impressed into the service of the United States in 1777, by order of Gen! Smallwood, and therefore beg leave to report

Resolved, That the petition of Abel Westfall be referred to the Board of Treasury, to report a sum to be allowed him

pursuance of the resolutions of Congress, of 18 March last.

Ordered, That the said act be referred to the Board of
Treasury.

was read, with sundry papers enclosed.²

A memorial of R. Patton was read; Whereupon,³

Resolved, That until the farther order of Congress, Robert
Patton, messenger, and William Hurrie, door keeper to Con-
gress, be allowed for their services at the rate of 40 dollars
a day, continental currency, from the 20th day of April last.

Congress took into consideration the report of the Board
of War on the petition of Robert Jewell; Whereupon,

AT A BOARD OF WAR, July 5th, 1780.

The board having considered the petition of Rob’l Jewell, keeper of
the new goal praying for an addition to the salaries of himself and
his assistants, are of opinion, that they ought to be increased.

The letter from the Committee at Headquarters is in No. 38, I, folio 148, and a tran-

April, 1780, folio 38.
³ This memorial, dated July 28, 1780, is in the Papers of the Continental Congress,
No. 41, VIII, folio 126.
July, 1780

From the 20th day of June 1778 to the last day of Dec. 1779 their pay was as follows:

Robt! Jewell for himself, turnkey and occasional clerk 8 dollars a day.

Two assistants each, four dollars a day.

From the 1st of Jan. 1780 to this day there has been allowed to Robt. Jewell, 30 dollars a day. To each of his assistants 20 dollars a day. To his Turnkey 10 dollars a day, in full for their services, and subsistence.

As these sums are very inadequate to the expences of these persons, and they have suffered greatly by the depreciation of the currency between the different periods of fixing their pay, the Board beg leave to report.

Resolved, That until the further orders of Congress, there be allowed to Robert Jewell, Keeper of the new gaol in Philadelphia, sixty dollars a day.

To each of his assistants fifty dollars a day, and to his turnkey, thirty dollars a day, in the present Continental currency, in full for their services, and subsistance; and that this increased pay commence on the first day of March last.

The Board beg leave to add, that the keeper assures them his assistants will leave him unless their pay is increased, it being impossible for them to subsist, on their present stipends.¹

A report from the Board of War was read; Whereupon,

WAR OFFICE. July 28, 1780

Sir,

The board have been honored with a reference from Congress on the Case of Doct: Brown Surgeon to the Seventh Pennsylvania Regiment who prays that his pay may be granted him to enable him to return to Europe. The receipt of pay due him being a matter of course we did not think it necessary to report on the subject. But we have received an application from the Doctor desiring his pay or a considerable proportion of it in specie, or the exchange in continental currency. His pay having accrued as an officer of a regiment, he cannot be treated in any respect differently from other officers of the army, there being no motives of national policy to make his case an exception. We therefore could not consent to report a compliance with his request: tho' from his good character and the sacrifices he has made we have a private wish in his favor. We hope on this score to be excused for recommending his case to the wisdom of Congress, that he may be gratified in his request, if any mode can be discovered whereby the Doctor can receive a sum of money to enable him to prosecute his voyage to Europe without creating an embarrassing precedent. The Doctor has mentioned to us that Fifty pounds sterling would be sufficient for his purpose and if the pay due him were to be reckoned in specie, nearly double that sum would be owing to him from the public.¹

Ordered, That a warrant issue on the treasurer, in favour of Doctor Joseph Browne, surgeon of the seventh Pennsylvania regiment, for the sum of eight thousand dollars, advanced to him; and for which he is to be accountable.

A memorial of Daniel Broadhead, Junior, was read.²

Ordered, That it be referred to the Board of War to report specially.

Ordered, That it be referred to a committee of three:
The members chosen, Mr. [John] Henry, Mr. [Thomas] McKean and Mr. [Artemas] Ward.
The committee, to whom was referred the letter of May 1st, from Governor Trumbull, brought in a report; Whereupon,

Resolved, That Jeremiah Wadsworth, late commissary general, be directed to make sale of the public sugars stated in the letter of 1st May, 1780, from Governor Trumbull, to be in his hands; and report to Congress the amount thereof.²

Congress resumed the consideration of the proceedings of the general court martial on the trial of Doctor W. Shippen; and some farther progress being made,

**AT A BOARD OF WAR, July 29, 1780**

Present Col. Pickering, Mr. Peters, Col Grayson, Genl Ward

In order to keep up an adequate supply of military stores for the southern army, the board are of opinion that a magazine should be established near Richmond in Virginia, and proper persons employed to take charge of the same, and to carry on the various branches of business requisite in the department of Military Stores. With this view the board have engaged Capt. Irish of Col. Flower's regiment of artillery artificers to undertake the direction of such an establishment, in the character of Commissary of Military Stores; which appointment they will give him if Congress approve of the proposed establishment.

The board therefore beg leave to report

That the board of war and ordnance be directed to establish near Richmond in Virginia a magazine for military stores and to procure the necessary workmen for carrying on at that place the various branches of business requisite for furnishing a competent supply of military stores to the southern army.

July, 1780 681

That the person whom the said board shall appoint to be commissary of military stores for that post be allowed fifteen hundred dollars per month.

It may be proper to inform Congress that in addition to the 1500 dollars per month, Capt Irish expects to be allowed to retain his commission in the corps of artillery artificers, with its emoluments, which the board do not think unreasonable. He has served more than three years as a Captain in that regiment and thro' the insufficiency of his pay has been obliged to sell a great part of his estate for the support of himself and family; and the pay above proposed together with his pay as a Captain of Artificers will not purchase thirty dollars in coin per month. He is very capable of conducting the business which the board propose to commit to his direction, and they know not where to find a substitute as well qualified, even on higher terms.¹

report depends for support thereof upon the certificates of Jn? Taylor and William Cross, which, so far as relates to that charge are in the words following, "Aug: 16th 1779 I have also good reason to believe that the above mentioned cargo of horses were taken into public service and not returned, Jn? Taylor." "Aug: 5th 1779 I likewise am of opinion and belief that the whole or the major part of the horses of Gen' Arnold as well as the other part of her cargo of his vessel were used for the use of our army &c Wm Cross"—which certificates not founded on the knowledge of the persons granting them but merely on report and opinion and not ascertaining the number of the horses by them supposed to have been employed in the public service or received as public property do not appear to contain sufficient proof to warrant the charge; The Committee however are of opinion the charge ought not "to be considered as incidental damages and referred to such general provisions as may be made in future for losses under that description" as reported by the Board of Treasury. But that whenever General Arnold can make it appear the horses or any of them were taken for the property of the United States the whole or such of them as shall appear to have been so appropriated and paid for by the public at the rate of nine pounds lawful money each. The Committee fully concurs in every other part of the report of the Board of Treasury and submit the following resolution.

Resolved, That Congress agree to the settlement of Major General Arnold's accounts as reported by the Board of Treasury excepting that part thereof which relates to the charge of twenty five horses which is left open to future settlement whenever Gen' Arnold shall produce proof that the whole or any of them were received for and appropriated to the use of the United States.¹

The committee on the state of South Carolina and Georgia; and the committee, to whom was referred the letter, of 30 June, from Brigadier General Moultrie, delivered their respective reports.

Congress took into consideration the report of the committee on the letters of 18, 20, and 21 July, from the committee at head-quarters.

The first paragraph being read, viz.

That the subject matter of the quarter master general's letter to the said committee at camp, so far as it regards his responsibility, has been already determined by Congress; and, as the said committee knew that the quarter master general had requested the sense of Congress on so important a subject, they ought not to have interfered therein.

Resolved, That Congress agree to the same.

That with regard to the order of the Board of Treasury of the 23 of March, requiring that estimates approved of by the Board of War should accompany the applications of the Quarter Master General for monies, your Committee conceive the said order to be grounded on Resolutions of Congress, and that it is highly proper that estimates, as particular as the nature of the service will admit should always accompany such applications for the public money. that the Principals, and all others concerned in great Departments should be frequently held to account, that so the public may know in what manner and for what purposes their monies have been from time to time expended.

Ordered, That the second paragraph be re-committed.

The third paragraph being read, viz.

That, upon the representation made in the said committee's letter, of the deficiency of the State of Pennsylvania, it is incumbent on Congress, in duty to the United States, and in justice to Pennsylvania, to request the said state, through their delegates, to acquaint Congress, as precisely as possible, what supplies they have actually made for the army, in pursuance of requisitions made to them for that purpose:

Resolved, That Congress agree to the same.

Ordered, That an extract of that part of the letter of the 18th, from the committee at camp, which relates to a letter from the Board of War to General Washington, be referred to the Board of War, for their consideration:

That the letter from Jeremiah Wadsworth, to Major General Greene, Q. M. G., inclosed in the letter of the committee, be referred to the Board of War; and that the board confer with Mr. Holker on the subject, if they think it necessary:

That the memorial of Col. Hazen, with the papers inclosed, and the letter from Lewis Garanger, both which are inclosed and referred to in the letter from the committee, be referred to the consideration of the Board of War; but that the committee at camp be informed that the said memorial and letter, together with other applications made to them, and which seem to have employed their time and attention, should have been made directly to Congress, and the committee should thus have informed the applicants.

Resolved, That the resolutions of Congress whereby the Commander in Chief is restricted in his operations to
the limits of the United States, be reconsidered, and the restriction taken off.¹

A representation from the general officers of the army was read:¹

Ordered, That it be referred to a committee of six:

The members chosen, Mr. [Roger] Sherman, Mr. [Samuel] Adams, Mr. [Henry] Laurens, Mr. [Joseph] Jones, Mr. [Abraham] Clark and Mr. [Thomas] McKean.

A report from the Board of Treasury was read; Whereupon,

TREASURY OFFICE July 28, 1780

The Board having considered the memorial of William Turnbull dated July 6, 1780, and referred to them by Congress beg leave to report

That they are unacquainted with the transactions of Abraham Livingston Esq' in South Carolina, and do not know by what authority he drew bills of Exchange on the Marine Committee. That they are uninformed of the necessaries furnished the Ships of War in the Harbor of Charleston, as well as of the provisions purchased by order of the Commissary General which are mentioned in said memorial, and the accounts of which are said to be before the Board of Admiralty.

Ordered, That the memorial of William Turnbull be referred to the Board of Admiralty, and that the Board either accept or refuse the bills mentioned in the said memorial, as they may deem just and reasonable; and if the said bills, or any of them, be accepted, that the Board of Treasury be required to provide the means of payment.

Resolved, That for the payment of interest due on loan-office certificates, the sum of 456,000 dollars be prepared, under their direction, agreeably to a resolution of Congress, dated the 28th of May, 1778, in setts of exchange, on the commissioners at Paris, of the following denominations, viz.

Ordered, That on the application of Mr. [Isaac] Motte, a delegate for the State of South Carolina, a warrant issue on the treasurer in his favour, for eleven thousand dollars; for which the said State is to be accountable.¹

Whereas the present invaded situation of the States of South Carolina and Georgia, renders it expedient that the loan offices in the said states, respectively, be removed to some place of security, until such time when they may be reestablished with safety:

Resolved, That all monies, books, and papers, appertaining to the continental loan offices in the States of South Carolina and Georgia, be deposited and remain in some place of safety, as contiguous as possible to the said states, to be approved by the executive authority of such states respectively, until the said offices may be re-established in the aforesaid states, respectively, with convenience and safety:

That until such offices shall be so fixed, and public notice given thereof, and also a notification to the Board of Treasury, the treasurer of the United States be empowered to pay all interest that is or shall be due on certificates issued from either of the offices aforesaid, in the same manner that such interest is directed to be paid by the commissioners of the continental loan offices.²

The committee, to whom was re-committed their report on the letter, of 26 July, from Major General Greene, brought in another draught, which was read; and after some debate,

That notwithstanding the danger and inconvenience which may accrue from the change of the head of so important a Department at the moment of action, when the campaign is opened, the enemy in the field, our ally waiting for co-operation and our honour and safety at stake, yet the peremptory and positive manner in which General Greene refuses to act under the present arrangement principally because "his feelings are injured" leaves Congress no choice but to

accept his refusal, and as the state of the campaign requires that his place should be immediately filled,

Therefore,

Resolved, That Congress are not insensible of the gross insults thrown upon offered them by General Greene, in the abrupt manner in which he has declined to accept of the office of Q. M. G. under the new establishment, and the very exceptionable manner terms in which he has expressed himself in his letters, yet willing to suppose that a conduct so contrary to what might be expected from an officer of his rank, has originated from insinuations of ill designing men, or from intemperate passions resolutions in an unguarded moment, Congress at this time with delay to take any further notice of this transaction until time be allowed for further information from General Greene confidently supposing— that on reflection he will to see, acknowledge, and retract his error.¹

Ordered, That it be re-committed.

Ordered, That the Committee of Foreign Affairs be discharged from reporting on the letter, of 23 March, from the honorable J. Adams; and that it be referred to the committee on Mr. Adams' letter, of 24, of the same month.

FRIDAY, AUGUST 4, 1780

A letter, of July 20, from General Gates, at Hillsborough, with sundry papers enclosed, was read:²

Ordered, That it be referred to the committee on the state of South Carolina and Georgia.

A letter, of 27 July, from Governor Jefferson, in pursuance of the recommendation of the 17th June, was read, enclosing an act passed by the legislature of Virginia, in pursuance of the resolutions of 18 March last; an act for furnishing specific supplies, in pursuance of the resolutions of 25 Feb-

ruary; an act for speedily recruiting the quota of that State for the continental army; a state of the Virginia forces in the continental army; and a state of monies answered for the continent, from May 21, 1779 to July 19, 1780.¹

Ordered, That the act passed in pursuance of the resolutions of 18 March, be referred to the Board of Treasury, and that the state of the Virginia troops in the continental army be referred to the Board of War.

The committee, to whom was re-committed their report on the letter, of 26 July, from Major General Greene, brought in another report.

Also the committee on the letter, of 12 July, from John Bradford brought in a report.

The Committee on the letter from John Bradford Esq; dated Boston 12th July 1780,

Report,

That in their opinion the directions contained in the resolution of Congress of the 11 May 1778 to the Board of War at Boston "to lodge the nett proceeds of the sale of the Nostra Signora del Carmo e S' Antonio and her cargo in the public funds of these United States and to transmit an exact acco! thereof to the Committee of foreign affairs" was sufficiently explicit for indemnifying the Board, had they placed the amount of said proceeds in the Loan Office which was the only public fund of the United States in Boston from whence they were directed to transmit an exact account.

That it appears the Board were conscious the deposit ought to have been made there from Mr Bradford's information that they applied to Nathaniel Appleton Esq; Loan Officer for his opinion what "the resolve meant as it did not expressly say the Loan Office" and Mr Appleton's reply that "he thought there needed no explanation for it was evident Congress meant to have that money lodged in that office" was sufficient to remove their doubts even if there had been grounds for doubting. That the reasons assigned by the Board of War for declining to lodge the money as aforesaid because "the resolution did not expressly say the Loan Office" or "till they should write to Congress" or "unless Mr Appleton would give his private note"

¹ This letter is in the Papers of the Continental Congress, No. 71, I, folio 393.
were in the opinion of the Committee calculated for retaining the money in their own hands.

The Committee are therefore unanimously of opinion that as the Board of War engaged in the sale of the said vessel and cargo, and have charged commissions thereon, they are, according to the custom of Merchants and by every principle of justice responsible for their conduct and ought to make good the amount of the nett proceeds aforesaid according to the real value of money at the time when they received the said amount together with interest thereon to the time of repayment. And the Committee beg leave to submit to the consideration of Congress the following resolutions

Resolved, That the reasons assigned by the Board of War at Boston for declining to pay the nett proceeds of the sale of the Portuguese Snow Nos tra Signora del Carmo e Sth Antonio and cargo into the hands of Nathaniel Appleton Esq, Loan Officer in the State of Massachusetts Bay are inadmissible.

Resolved, That the said Board of War are liable and ought to make good the full value of the said nett proceeds according to the value of money at the time when they received the said nett proceeds.

Resolved, That John Bradford Esq be and he hereby is empowered and directed to demand and if necessary to take the most effectual measures for recovering from the said Board of War at Boston the amount of the aforesaid nett proceeds of the sale of the Snow and cargo above mentioned according to the value of money at the time when the Board of War received the same.

The Committee have also considered the article of commissions charged by the said Board of War, on the nett proceeds of the sales by auction or vendue of the said Snow and cargo, and on certain gold and silver which they received from on board said Snow, which are as follows—

<table>
<thead>
<tr>
<th>Commissions on £18461.13.3 the nett proceeds of William Cooper’s acco</th>

</tr>
<tr>
<td>and in bullion at 5 p cent.</td>
<td>60 13 3</td>

</tbody>
</table>

And are of opinion that in both cases the commissions are excessive but as the Committee are not acquainted with the custom of Merchants in Boston in such cases, they recommend that Mr Bradford be authorized and directed to propose to the Board of War a reference of those charges to be adjusted by the arbitration of indifferent persons and to allow such commissions as shall be awarded.
The Committee further report as their opinion that the Board of War are not obliged to pay the above mentioned sum of £18461.13.3 but only the sum which shall remain, when they shall have deducted £2291.18 charged by them as paid on account of the said Snow, in their acco: dated and signed 20th May 1779, provided the said charges after examination shall be admitted, and so much more as shall be adjusted for their commission, which will establish the final nett proceeds: this appears to the Committee to have been the true intent and meaning of the resolution of Congress of the 17th June last.

The remaining subjects of Mr Bradford’s letter respecting linen for Tent and Sod cloths the sale of sugar and a supply of money for equipping public Ships, the Committee beg leave to recommend for consideration of the proper Boards.1

Congress took into consideration the report of the committee on the letter, of 26 July, from Major General Greene; and after debate,

Ordered, That the further consideration thereof be postponed.

Ordered, That so much of Mr. J. Bradford’s letter, of 12 July, as relates to linen for tent and sod cloth and sales of sugars, be referred to the Committee of Commerce and Board of War; and that so much as relates to the sale of sugar and a supply of money for equipping public ships be referred to the Board of Admiralty.

The committee, to whom was referred the memorial of Joseph Basden, delivered in a report.

The Committee to whom was referred the memorial of Joseph Basden of the Island of Bermuda, report,

July 24, 1776 to consider them in a friendly or at least a neutral relation.

That humanity and policy more than the mutual commercial interest which is mentioned in the first proceedings above alluded to, seem to plead for a continuance of that same relation.

That the inhabitants of Bermuda encouraged by the terms of the 5th and 6th articles of the treaty of alliance between his most Christian Majesty and these United States have forborne acts of hostility against the subjects of his most Christian Majesty in like manner as against the people of these States.

That a vessel commanded by the petitioner has been taken at the Island of Turks Island by a French Frigate, and others are continually liable to the same fate, whereby the foundation of commercial intercourse between Bermuda and these States as it was regulated in Nov. 1775 will be destroyed, Wherefore, your Committee submit to Congress the following Resolution

Resolved, That the case of the Sloop Kitty commanded by Joseph Basden and captured by a French Frigate be communicated to the Honb. the Minister plenipotentiary of France, and that the Situation of the Inhabitants of Bermuda in general be recommended to his attention for such Representations as he may judge proper to make thereon to his most Christian Majesty. ¹

Resolved, That Brigadier General Moultrie be, and hereby is, authorized to appoint a suitable person to act as commissary of prisoners in Charlestown, and return the name of the person appointed to Congress for their approbation, if they shall judge proper.

On motion of Mr. [John] Armstrong, seconded by Mr. [Nathaniel] Folsom,

Resolved, unanimously, That Congress proceed to the election of a quarter master general:

Congress accordingly proceeded to the election, and the ballots being taken, Mr. Timothy Pickering was elected.

Resolved, That a committee of three be appointed to consider and report the pay and terms on which Timothy Pickering, esq. shall serve as quarter master general:

The members chosen, Mr. [Roger] Sherman, Mr. [Artemas] Ward, and Mr. [Abraham] Clark.

That the Commander in Chief (if he shall think it necessary) concert with the proper officers and ministers, such plan of operations to be undertaken by any other of his Most Christian Majesty’s forces, or by the forces of his Catholic Majesty now combined in the West Indies, or to be drawn from the province of Louisiana, or elsewhere, as may either immediately, or in their effect, facilitate or assist the proposed enterprize.

Congress took into consideration the report of the committee on the letter of the 10 July, from General Washington; Whereupon,

The Committee to whom was referred Gen¹ Washington's letter of the 18th [10th] of July last, on the subject of an exchange of prisoners with the enemy and a provision for rendering easy and comfortable the situation of those of our troops who are in captivity. And also such part of Brigadier General Moultrie's letter of 30 June as relates to the situation of the troops who are prisoners in Charles Town, beg leave to report, That they concur in opinion with Gen¹ Washington that a general exchange of officers and privates however strongly urged by motives of humanity, would at this juncture be highly impolitic, as in case of offensive operations against the enemy, the advantages that would result to them, by a reinforcement of their army for defence in consequence of a general exchange, would be vastly superior to those which these United States could possibly derive from it, by affording them a permanent augmentation, and by rendering every private they might thus gain, equal on the lowest scale of calculation, to two to be acquired by us. But this Committee are of opinion that these objections do not militate at least so forcibly, against an exchange confined to officers only; and that the

¹This report is in the Papers of the Continental Congress, No. 136, IV, folio 463.
August, 1780

idea of such an exchange is favored both by policy and humanity, and if founded on the double basis of equality of Rank and of Composition, might, with a due attention to the order of Captivity, safely be rendered as extensive in its execution as the respective numbers of prisoners of war, and the Convention officers on parole at New York (Generals Phillips and Riedesel and their families excepted) will admit.

With respect to a suitable provision for the Troops of the United States who are prisoners of war at New York and Charlestown, the Committee are of opinion, that provision should be made for the subsistence of the officers, and to enable them to procure necessary cloathing: for making good the deficiency of the short rations allowed by the enemy to the privates: for a supply of medicines and proper diet for the sick, and for cloathing the privates in such manner as to keep them from suffering. That for these purposes a resident Commissary of prisoners in each of those places ought to be appointed on the part of these United States, to be allowed of by the enemy—tho' which Commissary the Officers and privates in captivity might derive the above mentioned supplies. That the Committee are of opinion, that except in such instances wherein a supply of Provisions may be necessary, specie should be remitted to such Commissaries respectively, to be raised by the sale of public Bills of Exchange, but they are further of opinion that an estimate for such supplies should be made and reported by the Board of War, with whom all returns of the Troops as well prisoners as others are officially lodged, and to whom the furnishing such supplies, and the means of furnishing the same should be committed and that General Washington should be directed to take the necessary steps for securing.

Upon the whole the Committee beg leave to recommend to Congress the following Resolutions, to wit:

Resolved, That it is at present inexpedient to extend the exchange of prisoners with the enemy to privates, but That General Washington be and he is hereby authorized to effectuate an exchange of officers, either on the footing of equal rank, or on composition, or both, as the cases may respectively require, confining the exchange on that of composition for officers only, and having due regard to the

10970—10—46
order of captivity; such exchange to be rendered as extensive as possible in its execution, so as not only to include, on the part of the enemy, prisoners of war, but also the officers of the Convention troops, now on parole at New York. Generals Phillips and Riedesel and their respective families excepted.

Ordered, That the Board of War form and report an estimate of supplies for the subsistence and cloathing of the officers belonging to the armies of the United States, or who were taken in their service and remain prisoners of war, either at New York or Charleston, South Carolina, or elsewhere in these United States, and for making good to the privates, prisoners in those places, the deficiency of the short rations allowed to them by the enemy, and providing them with necessary cloathing; and also of the contingent charges that may be occasioned by sickness among the prisoners; and that they report the ways and means by which the above mentioned supplies may be best furnished.

Ordered, That General Washington take the necessary steps for establishing a resident commissary of prisoners at New York, and Major General Gates another in South Carolina or Georgia, to have the care of the prisoners in those places, according to the usage and custom of war. ¹

The committee on the state of South Carolina and Georgia brought in a farther report, which was taken into consideration; and thereupon,

Resolved, That the sum of balance remainder of 1,400, 200 8/9 the quota of ten millions of dollars, required of the commonwealth of Virginia by the act of Congress of the 19 May, 1780, be appropriated to the pay and subsistence of the continental army in the southern department, and that the executive of Virginia be requested to send on the same

when collected, to Major General Gates, to be applied for the purposes aforesaid, as he shall direct.

That Bills of exchange to the amount of 100,000 Dollars drawn on ——— be sent to Maryland, Virginia and N° Carolina in the following proportions, 35,000 Dollars to Maryland, 35,000 Dollars to Virginia and 30,000 Dollars to N° Carolina, to be disposed of in order to raise an immediate supply of money for the southern army.

Postponed. Congress having been informed, that many persons in Virginia and North Carolina in the southern department, from Virginia to Georgia, inclusive, have shewn a willingness to serve as volunteer horsemen, finding their own horses and accoutrements, in the southern department during the present campaign; and being also fully convinced of the necessity of having a body of horse in the field to serve in that department:

Resolved, That it be recommended to the executive of Virginia and North Carolina in the said states, respectively, to encourage and promote the raising corps of volunteer horsemen, not exceeding 500 in the whole, submitting to Major General Gates the number that shall be raised in each state, and that they be authorized to give the following assurances on behalf of Congress:

That officers and privates, so serving as volunteer horsemen in the southern department, during the present campaign, shall be intitled to the same pay and rations as officers and privates of the continental light dragoons, with an addition of one-sixth of a dollar in specie, or other money equivalent, per day, for the use of their horses; such pay, rations, and allowance, to commence from the time of their arrival at head quarters, or joining any detachment of the southern army, by order of Major General Gates; provided that such horsemen shall engage to serve during the campaign, or at least for the term of four months, after they shall join the army, or a detachment thereof, unless sooner discharged.
That, if any horses belonging to such volunteers shall be killed or unavoidably lost, while in actual service, Congress will credit the State to which the owners of such horses belonged for the value; provided, that such horses shall have been properly valued, on oath, agreeably to the laws of the said states, as in cases of horses impressed, and that the valuation do not exceed one hundred dollars in specie for one horse.¹

Ordered, That the remainder of the report be postponed.

On motion of Mr. [Timothy] Matlack, seconded by Mr. [Roger] Sherman, Ordered, That the Medical Committee report as soon as may be, the state of the military hospitals within the State of Pennsylvania, specifying particularly the number of physicians, surgeons, mates, matrons and attendants residing in Pennsylvania, and the places they are employed in, and also the number of the sick.

A letter, of 1st, from the Board of War was read:

Ordered, That it be referred to the committee on the letter, of 8 June, from the Board of War.

The Board of War, to whom was referred the memorial of W. Clajon, brought in a report; Whereupon,

AT A BOARD OF WAR, August 5. 1780

Present Col. Pickering M' Peters Col. Grayson

In the case of M' Clajon the Board beg leave to state the following facts. That on the sixteenth day of June 1775 Congress fixed the pay of the General's secretary at 66 dollars per month and that of the Secretary of a Major General acting in a separate department at thirty three dollars per month, that on the 29 of July following the pay of a major was fixed at 33½ dollars per month. That on the fifth day of June 1776, R. H. Harrison Secretary to the Commander in Chief was vested with the rank of Lieut: Colonel. That it was the common practice at those periods to determine the number of rations Staff Officers were entitled to, by the quantum of the pay respectively, which was usually the same with that of some officer in the line. That the Secretary to the Commander in Chief with the rank of Lieut: Col' is entitled to but five rations; and the pay fixed for a Major General's Secretary being originally but that of a Major, the Board are of opinion, that four rations only should be allowed him, that nevertheless as no objections have ever been made to Gen' Gates' allowance of six rations to M' Clajon, he should be considered as entitled thereto untill this time. The Board do not think it expedient that any specific sum should be allowed for putting his chaise in a condition to carry him so long a journey tho' the proposed repairs of it seem necessary for that service.

The Board therefore beg leave to report

Ordered, That the sum of 14,000 dollars be paid to William Clajon, secretary to Major General Gates, on account, to enable him to proceed to join the southern army, and for his pay and subsistance money, up to this day.

Resolved, That in future he be allowed four rations, the value of three of them to be paid him in subsistance money, agreeably to the resolution of the 18 August, 1779.¹

The Board of War, to whom was referred the memorial of Lieutenant Daniel Broadhead, brought in a report; Whereupon,

**AT A BOARD OF WAR, August 8, 1780**

Present Mr Peters Col Grayson

The Board having considered the memorial of Lieut: Daniel Broadhead are of opinion that the facts therein stated, as to his being entitled to rank as Captain are true, but from whatever cause his want of actual promotion arose, he can have no proper claim on the United States, but for his pay as Lieutenant to the time of his release from captivity, especially as another officer was appointed in his stead, as Captain, and received pay from the United States in consequence of such appointment. From the time of his applying to the State to enter again into service he is entitled to half pay as Captain agreeably to the resolution of Congress of Novem’r 24, 1778, until the date of the resolve making supernumeraries of all officers in his situation at that time he became entitled to the allowance made to supernumerary officers. As he cannot now receive the Commission of Captain the whole of his demand is matter of account and proper for the consideration of the Treasury Board who will no doubt be of opinion with the board that he should be paid the specie he expended for his support in like manner with other officers whose claims on this account have been allowed by Congress. The Board therefore beg leave to report

**Ordered, That the said report, with the memorial of Lieutenant Daniel Broadhead, be referred to the Board of Treasury.**

The Board of War, to whom was referred the letters of 20 July, from Gen. Washington and Brigadier Gen. Maxwell, report,

who continue in service until it is brought to a period: it is however consistent with the intention of Congress, as expressed in the resolution of the 10th day of April last, that officers whose resignations are accepted by Congress, after that resolve, should enjoy all the benefits accruing therefrom, as will appear by the proviso at the close of the resolution, the terms whereof clearly comprehending Brigadier General Maxwell’s case, the Board conceive no further act of Congress necessary”;

Resolved, That Congress agree to the said report.

The Board of Admiralty, to whom was referred the petition of Captain Henry Mitchell, report,

“That the vessel and cargo mentioned in the said petition, as having been seized by Captain Nicholson, of the continental frigate Deane, being libelled in the maritime court in the State of Massachusetts Bay, is in course of procedure to bring the legality of the capture to a decision, and therefore, it is the proper way in which the merits of Mr. Mitchell’s petition and cause should be determined inexpedient for Congress to interfere in the matter”.

Resolved, That Congress agree to the said report.

A letter, of 1, from Brigadier Muhlenberg, was read:

Ordered, That it be transmitted to the Board of War.

A letter, of this day, from H. Hollingsworth, was read;

The committee to whom was referred the letter from the Hon. Mr. Izard, late commissioner to the court of Tuscany, brought in a report, which was read; Whereupon,

The Committee to whom was referred the letter from the honble Mr Izard late Commissioner to the Court of Tuscany report

That Congress having determined on the 30th of Dec. 1776 to send a Commissioner to the Court of Tuscany, did on the 7th of May following elect Mr Izard to that office.

That on the 6th of October 1777 Mr Izard acknowledged the receipt of his Commission and Instructions, and promised to use his utmost endeavors to accomplish the objects of them.

That on Dec. 18th of that year, he informed Congress of his being dissuaded by the Tuscan Minister at the Court of France from proceeding to Tuscany, as from the State of politicks at that time, the Grand Duke would be greatly embarassed by such a step.

That on the 30th of the same month December the Elector of Bavaria died, which, drawing the Emperor and the King of Prussia into a dispute, the politics of Tuscany were governed by those of Vienna, so that Mr Izard could not be admitted by the Grand Duke, except to reside at Florence as a private Gentleman. Upon which Mr Izard asked for the directions of Congress, as the Independence of the States of America had been then openly acknowledged by France.

That on Jan' 28th 1779 Mr Izard wrote to Congress lamenting that it was not in his power, from the political state of the affairs of Europe to do service to the United States in the Line of his Commission, and expressing his desire to return to America which he did not think himself at Liberty to do without the permission of Congress.

That on the 4th of March following, he wrote again requesting for the same reasons as those mentioned in his former letter, the leave of Congress for his return.

Your Committee therefore propose that it be

Resolved, That Congress are convinced of the faithful endeavours of Mr. Izard to fulfil the objects of the commission to which he was appointed by them on the 7th of May,
August, 1780

1777, and approve of the reasons which determined him not to proceed to the court of Tuscany.¹

TREASURY OFFICE Aug 3rd 1780

Whereas the “ordinance for establishing a Board of Treasury, and the proper officers for managing the Finances of these United States” dated July 30th 1779 declares it to be among the duties of the Commissioners of the Board of Treasury “To see that the public accounts are regularly stated in the Auditor’s office, and all public Debtors brought to account, Frauds detected and Defaulters punished” and whereas it is of the utmost importance that these duties should be discharged with fidelity, the Board beg leave to report their proceedings on that part of these duties that respects the bringing public debtors to account in the execution thereof. ing waited perhaps too long in expectation that measures would be taken by the several accountants with the United States for a settlement of their respective accounts; unable to discover any disposition for that purpose, and having too much reason to be persuaded that there would be no settlement in due time without the exertions of the Board, they considered it necessary in the beginning of May last, to transmit the circular order No 1 to the several accountants therein mentioned, which was accompanied by the circular letter No 2, requiring their respective accounts to be produced at the Treasury Office on the first day of June ensuing—In order to induce a compliance with this just and necessary requisition the order No 3, was published in the several newspapers.

Having received the answers of the several gentlemen mentioned in No 1, they deemed it expedient to suspend the operation of No 3, and extend the period of settlement to the first day of August current, which was communicated by their circular order and letter No 4 and 5.

A letter from H. Hollingsworth, and a report of the Board of Treasury, pursuant to the order of the 8 instant, were read.¹

Treasury Office August 11th, 1780

In pursuance of a resolution of Congress of the 8th instant the Board of Treasury proceeded to inquire into the "circumstances of the supposed forgery of Robert Anderson's name to a receipt offered as a voucher in support of the account of Henry Hollingsworth."

Upon which enquiry the Board beg leave to report

That the voucher referred to, as set forth by the Commissioners of accounts in their report on Henry Hollingsworth's accounts in May last, appears by sufficient testimony to be a forged voucher.

It appears that the Honble the Board of War, did on the 31 January 1778 appoint Henry Hollingsworth and others to purchase Flour, wheat &c. for the purpose of establishing magazines.

John Stump (one of Henry Hollingsworth's clerks) declares on oath—That Henry Hollingsworth left the Head of Elk (where he resided) on the second day of February 1778 with intent as this deponent was informed, to purchase wheat, flour &c, that he, this deponent, in Henry Hollingsworth's absence, and about the 9th February 1778 received the appointment aforesaid, from the Board of War, that Henry Hollingsworth returned home on the 11th of the same month, at which time this Deponent delivered to Henry Hollingsworth the appointment aforesaid, and says it must have been the first information he could have had thereof.

That upon the return of Henry Hollingsworth on the 11th as aforesaid, he informed this Deponent of the purchase of the flour in question, and this Deponent further declares on his oath, that the flour in question was purchased by Henry Hollingsworth, on his own account, and before he received his appointment from the Board of War to purchase.

¹Pickering's letter is in The Papers of the Continental Congress, No. 192, folio 21; Steuben's is in No. 164, folio 190; Hollingsworth's is in No. 78, XII, folio 59.
August, 1780

Thomas Manuel (employed by H. Hollingsworth to assist in preparing his accounts for settlement) upon his oath declares that upon stating the accounts aforesaid he discovered that a voucher for the flour in question was wanting, that in order to "facilitate the passing of the accounts, and not knowing Mr. Anderson, did, upon Mr. Stump's writing a receipt, for the amount of Anderson's flour, affix the name of Robert Anderson to the same, and that without the knowledge of Henry Hollingsworth."

Herman Stump (Clerk to Henry Hollingsworth) upon his oath declares, that he was present at the writing of the receipt on the voucher in question, and to Robert Anderson's name being affixed thereto, by Thomas Manuel, and that Henry Hollingsworth did himself discover the forged voucher in the Chambers of Accounts at the time they were under liquidation.

The Commissioners of accounts in their report say

"That Henry Hollingsworth charges the United States with 530 barrels of flour purchased of Rob't Anderson of Chester Town, Maryland on the 6th April 1780. The account for this charge was produced with a receipt thereon to the Commissioners by Col' Hollingsworth as an authentic voucher." And that he the said Henry Hollingsworth has charged the United States with the sum of Four hundred and thirty-nine pounds ten shillings and ten pence more than he actually paid Robert Anderson for the aforesaid 530 barrels of Flour.

The Board of Treasury beg leave to close this report with the affidavit of Resolve Smith and William Geddes Commissioners in the Chambers of Accounts taken this day and filed in this Office with the other testimony in this Report mentioned.

"That William Geddes in presence of Resolve Smith, the other Commissioner of the Chamber of Accounts, and their Clerks first detected the forgery of Robert Anderson's name, to a receipt produced to them, by Henry Hollingsworth (as they verily believe) for a true and authentic voucher to his account—That the said William Geddes knowing the hand writing of Robert Anderson went immediately home and brought a receipt of the aforesaid Anderson's, which he had then in his possession, and compared the same with this voucher in presence of the other Commissioners, who were all convinced, this receipt and account was not signed by him the said Anderson: and having charged Henry Hollingsworth with the forgery in the
Office, he declared to these deponents _then_ and not before, that he knew, previous to his exhibiting this account and vouchers in the aforesaid office for settlement, that this receipt was not signed by Rob't Anderson."  

A letter, of 17 July, and one of 25 of the same month, from President Weare of New Hampshire, were read, with sundry acts enclosed:  

Ordered, That the same be referred to the Board of Treasury.

A letter, of 18 July, from Governor Nash of North Carolina, was read.  

The delegate of Rhode Island laid before Congress a letter, of 25th July, from Governor Greene of that State, giving information of the acts passed by the general assembly, in pursuance of the resolutions of 18 March last, &c.

Ordered, That it be referred to the Board of Treasury.

A letter, of this day, from the Board of War was read, enclosing an extract of a letter, of 28 July, from Governor Jefferson of Virginia.  

Ordered, That the same be referred to the Board of War to report.

A letter, of 8, from J[ohn] Mathews, one of the committee at headquarters, was read:  

Ordered, That it be referred to a committee of three:  

The members chosen, Mr. [Ezekiel] Cornell, Mr. [Timothy] Matlack and Mr. [Samuel] Adams.

Treasury Office August 19th 1780

That the warrants on the State of Rhode Island have not exceeded the quota of that State up to the 1st March last, for monies appropriated to the use of the United States, and that the most effectual expedient to supply the urgent demands for money, is for the State aforesaid to accede to the resolution of Congress of the 18th March last.²

The Treasurer of the State of New York in his letter dated the fifth instant writes that he has paid the messenger all the money he could command, being three hundred nineteen thousand, one hundred and ninety one dollars in part of one of the warrants on him. AT A BOARD OF WAR August 19th 1780

Present Mr. Peters, Col. Grayson.

In compliance with the resolve of the 7th instant the Board beg leave to represent to Congress, That there were captured at Charles town, 245 officers and 2,326 non com$^d$ officers and privates, and that there are in New York and on Long Island 270 officers and 450 non com$^d$ officers and privates. In the whole there are now in captivity according to the best information that can be procured 515 officers and 2776 non com$^d$ officers and privates.

It is to be presumed that the act of Congress of the 21st of April last, intended for the benefit of the officers confined at New York and on Long Island, will put them in a situation to require no greater provision than is necessary to be made for those lately captured. Upon this principle the board have made the following calculation, for the supplies necessary for the subsistence of all the prisoners for three months, to commence from the 12th of June, the day of the fall of Charles Town.

For the weekly board of 515 officers for 3 months at 15/ p$^r$ week .......................... 5 021 5 0
For an advance to each officer to procure clothing and other necessaries, of £35. .......................... 18 025
For a suit of clothes for every non com$^d$ officer and private 2,776 @ £10. .......................... 27 760
For the Hospital stores, and contingent expences for the sick at N Y. and on L. I. .......................... 1 000
For do at Charlestown .......................... 3 500

£55 306 5 0

10970—10—48
It is not improbable that the prisoners of Gen. Lincoln's army have diminished very considerably since their capture, but to what amount, the Board cannot judge, neither can they ascertain the numbers captivated in other places within the Southern States, since the fall of Charles town. They therefore leave it to the better information of Congress to determine, whether any deduction ought to be made on that account, from the foregoing estimate.

Congress have been pleased to direct the Board to report ways and means for raising these supplies, a business they find themselves totally inadequate to, not being acquainted with the public resources, and therefore beg leave to recommend that it be referred to the Treasury Board.

With respect to the short rations, the Board beg leave to report,

That, the resident Commissaries of prisoners in New York and at Charles Town, transmit to the Commander in Chief, and the Commanding officer of the Southern Army, respectively, monthly returns of all prisoners of war under their charge, and that provisions be sent in, under the orders of the Commander in Chief for those at New York, and of the Commanding officer of the Southern Army for those at Charles Town, from time to time, in sufficient quantities to make up the deficiency of one third of a ration a day, to each non com'd officer and private in captivity at those places.¹

Ordered, That it be referred to the Board of Treasury to report.

The Committee for Foreign Affairs laid before Congress an extract from the letter, of 26 May, from the honorable J. Jay, and on motion of the said committee:

Ordered, That it be referred to a committee of three:

On that part of Timothy Pickering's letter of the 15th instant
referred by Congress which relates to Certificates,
The Board beg leave to report,
That the power of issuing Certificates by the Quarter Master
General, or any other department may be productive of evil, but
may also, under our pressing necessities have a happy tendency by
answering the purposes of money, and if properly regulated, the
advantages apprehended in a great measure guarded against.
Wherefore the Board submit the following Resolution,
That Timothy Pickering Quarter Master General be authorised to
issue certificates for all services performed, or articles purchased in
his department under the following Regulations and restrictions to
witt:

3dly. All such certificates shall be given for specie, or other current money equivalent.

The board having considered the memorial of Major Christ. Holmer,
praying that a sum in specie, or an equivalent in current money may

opinion that there is nothing singular in the case of Major Holmer

demands from all their Officers,

Present Mr. Peters, Col. Grayson

The Board having considered the letter of the 3ª inst. from Baron
Steuben together with his proposed plan for the establishment of
the department of the Inspectorship, beg leave to recommend the
following

In Congress

Establishment of the department of the Inspectorship.

Whereas the institution of this department hath been found pro-
ductive of great utility to the armies of the United States, and expe-

rience hath shewn that it may be rendered still more useful by an extension of its powers and objects.

Therefore Resolved

That the former establishment by a resolution of the 18 of February 1779 be repealed, and that the department hereafter have the following form, powers and privileges.

There shall be an Inspector General to the armies of the United States with the rank of Major General, who, in all future appointments shall be taken from the line of Major Generals.

There shall be an Assistant Inspector General, who shall be the Adjutant General of the Main Army for the time being.

There shall be an Inspector to each division of the Army, one to the Corps of Cavalry, one to the Corps of Artillery, (one to the independent Corps, Garrisons and to the militia in service with the continental army) to be taken when circumstances will permit, from the line of Colonels and Lieutenant Colonels.

There shall be a Sub Inspector to each Brigade, who when circumstances will permit, shall be a Major in the Brigade, besides which there shall be one to the Cavalry, another to the Artillery, and another to the independent Corps, garrisons and Militia connected with the Main Army—and if thought necessary by the Inspector General, approved by Congress, the Board of War, Commander in Chief or Commander of a separate Army, one of each of these to every separate Army.

It shall be the duty of the Inspector General to frame a System of Regulations for the exercise and discipline of the Troops, in the manual evolutions and manoeuvres, for the Service of Guards and detachments, and for all Camp and Garrison duty, and to superintend the execution of these Regulations, throughout the Army, as well in the Corps of Cavalry and Artillery, as in that of Infantry, except that he is not to interfere with the interior arrangement of the Artillery,—in what is peculiar to it as a distinct Corps; but only in those general rules of duty and discipline, an uniformity in which is necessary to be observed throughout the Army.

The Assistant Inspector General shall assist in the general duties of the department, according to the orders he shall receive from the Inspector General, and in his absence shall have the chief direction of the same. He shall nevertheless continue to have the sole Charge of regulating the details of the Army, of collecting and digest-
ing the returns, of issuing the general Orders, and shall perform all the
other duties incident to his office of Adjutant General, as heretofore.

The Inspectors shall superintend the execution of the regulations
established for the Army in their respective divisions, at all times
performing the duties of Adjutant General to the same, and when
a detachment of more than one division is sent from the Army, the
Inspector oldest in office shall act as Adjutant General to the detach-
ment—as shall also be the case in a separate Army. They shall
receive their Instructions relative to the department from the Inspec-
tor General and Assistant Inspector General.

The Sub Inspectors shall keep rosters of the Battalions of their
Brigades, regulate the details, take care of the formation and march
of all Guards, detachments &c, receive the general and division orders,
communicate them to the Commandants of Brigades and Regiments,
and through the Adjutants, &c, all the officers; and in general inspect
the police of the Camp, the discipline of the Troops, and the order of
the service within the Brigade. They are to receive their orders
relative to the department from the Inspector General, Assistant
Inspector General and Inspector of the division or detachment to
which they belong.

Agreeable to a resolution of Congress of the 12th of January last
for annexing the mustering department to that of the Inspector-
ship, the Inspector General and his Assistants shall review and muser
the Troops and Militia in service, at such times and in such
manner as shall be hereafter specified, at which reviews he or they
shall inspect the number and condition of the men, their discipline
and exercise, the state of their Arms, accoutrements and camp Equipages, the rations they have drawn since the last review, rejecting such
recruits as are unfit for the service, discharging or transferring to the
invalid Corps such as by disabilities contracted in the Service, have
become unfit for it, noting all alterations which have happened since
the last review or muster, and as far as possible in what manner,
reporting them with the deficiencies, neglects and abuses to the Com-
mander in Chief or Commanding Officer of a detachment and to the
Board of War.

There shall be a review or muster once every month, and at every
muster three rolls shall be made out by the Commanding Officer of
each Troop or Company, sworn to and signed by him, in the manner
hereafter directed, one of which rolls shall be returned to him certified by the mustering officer (one shall be retained by the mustering officer) and the other shall be delivered certified by him also to the Regimental Pay Master to be affixed to the Pay Rolls.

Each Brigade shall be mustered by its Sub Inspector under the superintendency of the Inspector of the division who shall also be responsible for the exactness and fidelity of the musters.

The Sub Inspectors shall deliver an abstract of the Brigade musters regimentally digested to the Inspector of the division who shall digest them into division abstracts, in the same form, and transmit them to the Inspector General.

All detached Corps and Militia in service shall be mustered in the same forms, by the officers heretofore appointed for these purposes, according to the directions of the Inspector General, to whom they shall transmit their abstracts.

The Inspector to a separate Army, shall receive all the abstracts of that Army, deliver one copy to the Commanding Officer of the Army, and transmit another to the Inspector General.

The Inspector General shall transmit once every month, a copy of the abstracts of the musters of the whole Army, to the Commander in Chief, and another to the Board of War.

No commanding officer of a Regiment shall solely muster the regiment he commands, but another shall be appointed to do the duty, by the Inspector General, in such manner as not to interfere with the regularity of the abstracts here required.

The oldest Inspector, in a separate Army, shall exercise the same duties in that Army, respecting the musters, as the Inspector General in the whole Army according to the Instructions he receives from him, and the orders of the commanding officer of such separate Army.

All the muster rolls or inspection returns shall be made out agreeable to the forms the Inspector General shall from time to time prescribe.

The Commissary of Issues shall be obliged to deliver monthly, to the Inspector General, an abstract by Brigades of the rations actually issued, and an abstract of the rations issued to the independent and other distinct Corps, and to the Garrisons. All muster Rolls directed to be taken shall be sworn to before the Inspector and Sub
Inspector who is hereby empowered to administer the oath, and a Certificate thereof shall be given on the back of each muster Roll, the oath and Certificate to be in the words following. "I, A. B. do swear that the within muster Roll is a true state of the Company without fraud to these United States, or to any individual, according to the best of my knowledge." A B. Sworn to before me this day of 17—

Captain or Lt Commandant

The mustering officers shall be empowered and directed to require from the officers whose Troops are mustered, all papers and vouchers relative to the enlistment and muster.

As the duties of the Inspector General will be very numerous, laborious and important, he shall be allowed two Aides de Camp, in addition to the two he is entitled to as Major General, taken from the line in the same manner and on the same terms.

The Inspectors shall keep accounts with the Officers commanding Regiments of all the Arms and Accoutrements delivered their Regiments, and returned in by them, for which purpose no Arms or Accoutrements shall be delivered by the Brigade Conductor, without an order from the Inspector of the division, to whom returns for Arms and Accoutrements wanted shall be made in the form directed in the regulations for the orders and discipline of the Troops of the United States.

All the officers of the Inspectorship shall retain their rights of command and promotion, in the same manner as if they had not assumed the Office; but as the duties of this department are very extensive and demand great attention, they are to suspend the exercise of their respective Commands, except when they happen to be the superior officers in the division, brigades or regiments, to which they belong, or when they are appointed to execute any particular service, by the Commander in Chief or Commanding Officer in a separate Army. They are to be exempted from common Camp and Garrison duties, to attend more carefully to those of the Inspection, and in time of action when not in actual command are to be employed to assist in executing the Field Maneuvres directed by the Officers commanding the divisions and brigades, to which they are attached.

The Inspector General in all that relates to the Inspection shall be subject to the Orders of Congress, the Board of War, and the Com-
mander in Chief only, but the Inspectors and Sub Inspectors shall also
be subject to the officers commanding the divisions and brigades, to
which they are attached.

visit every part of the Army, and review the regiments himself,
to see that uniformity prevail throughout the Armies of the United
States.

The Inspector General shall keep Books, in which the returns
&c. passing through his office shall be registered. He shall be
charged with collecting into one or more volumes all the resolves of
Congress and regulations of the Board of War relative to the Army.

shall be allowed when circumstances will permit, a non commissioned
officer and four dragoons.

The travelling and other incidental expences necessary for the
execution of the business of the office shall be settled by the auditors
with the Army upon such principles as shall be established by the
Commander in Chief, and paid out of the Military Chest.

In consideration of the various and extensive duties of the office,
the Assistant Inspector General shall receive four hundred dollars
p' month, in addition to his pay as Adjutant General, from the first
day of February last, to the first day of August instant from which
time he shall receive in the Bills emitted in pursuance of the Act
of Congress of the 18th of March last dollars p' month addi-
tional pay.

The Inspectors shall receive from the said first day of Feby. to
the first of August three hundred dollars p' month, and from that
time in the said new Bills dollars p' month, and the Sub
Inspectors shall receive from the said first day of Feby. to the said
first day of August two hundred dollars p' month, and from that time
in the new Bills dollars p' month, in addition to the pay and
subsistence to which they are entitled by their respective ranks.

The Q' Master Gen'l shall furnish all necessary books and papers
for the Department.

Each Inspector shall be allowed when the circumstances of the Army will permit a marquee and a common tent, each Sub. Inspector a horseman's and a common tent.

All the regulations respecting the objects of this department shall be finally approved and established by Congress, but the exigency of the service requiring it, temporary ones may from time to time be introduced by the Inspector General, with the approbation of the Commander in Chief, and transmitted to the Board of War with all convenient dispatch—that being examined and reported by them to Congress, they may be rejected, altered, amended or confirmed as Congress shall deem proper.

A letter, of 23, from the Board of War was read, stating the necessity of appointing a commissary general of prisoners, and enclosing a letter, of 8, from Abraham Skinner on the subject.

Congress took into consideration the report of the committee on the memorial of the general officers, when a motion was made by Mr. Livingston, seconded by Mr. Armstrong.

That as a further encouragement to the officers of the army, and as a full compensation for the enhanced prices of commodities, it be recommended to the respective states not having made other provision, to extend half pay to them for life; and to the widows of such as die, or shall die in the service, to be continued to them during their widowhood; and in case there shall be no widow, to the orphan child or children of such officer, till such child, or if there are more than one, till the youngest child shall be of the age of fourteen years. On the question to agree to this, the yeas and nays being required by Mr. Clark.

So it passed in the negative.

Congress proceeded in the consideration of the report, and thereupon:

The Committee to whom was referred the Memorial of the General officers, upon reconsideration of the same, on the re-commitment of a paragraph of their former report, beg leave to submit to Congress the following observations and resolutions.

That when an army was first raised by the four Eastern States, on the commencement of hostilities in the Massachusetts Bay, by the British forces in April, 1775, the pay and rations of the several officers were fixed (as was then supposed) in due proportion to their different ranks and expences in the army.

That in June 1775 when Congress took the army under their direction, they made a new appointment of general officers, and fixed their pay as it now stands, leaving the pay of the other officers as fixed by the said States.

That on the 7th of October 1776, the pay of the officers of the battalions, was augmented fifty per cent; and had the pay of a general officer been augmented only at that rate, above what was fixed by the Eastern States, it would have been 66 per cent lower than it now is.

1 A marginal note says: "This struck out by general consent, 25th."
Wherefore your Committee are of opinion that the pay and subsistence of the general officers is as high as that of the other officers of the army in proportion to their station—and that the pay and subsistence of all the officers, ought to be made as good to them during the whole time of their service, as it was on the 7th of October 1776.

That the seven years half pay granted in May 1778 was in consideration of the depreciation of the currency and the enhanced prices of the necessaries of life. That the amount of the said half pay ought to be allowed to the widows and orphan children of such of the officers as die in the service and that such further provision as may be necessary for the comfortable support of such widows and orphans as may be in indigent circumstances ought to be made by the respective States to which they belong.

That it is inexpedient to augment the pay or subsistence of the officers at this time; but if the measures taken to introduce a stable currency should not prove effectual to reduce the prices of the necessaries of life to what they were in the year 1776, it can be better determined hereafter what compensation is equitable to be made them.

Whereupon the Committee submit the following resolutions:

Resolved, That the officers of the line of the army, commanding corps, when in camp, be allowed to draw so many of the rations of provisions heretofore allowed them when in camp withheld, as the Commander in Chief, or the commander of a separate army, shall judge necessary; but that no provision be issued for back rations not drawn on the days they become due:

That if it shall appear that the subsistence money, allowed to officers in lieu of the rations withheld, is not equal to the cost of the rations, the deficiency shall hereafter be made up to them: or if the monthly pay that they shall hereafter receive shall appear to be of less value compared with the prices of the necessaries of life than their pay was in the year 1776 a reasonable compensation shall be made them for the deficiency.
That the resolution of the 15 day of May, 1778, granting half-pay for seven years to the officers of the army who should continue in the service to the end of the war, be extended to the widows of those officers who have died, or shall hereafter die in the service; to commence from the time of such officer's death, and continue for the term of seven years if the widow of such officer continue so long in a state of widowhood; or if there be no widow, or in case of her death or intermarriage, the said half pay be given to the orphan children of the officer dying as aforesaid, if he shall have left any; and that it be recommended to the legislatures of the respective states to which such officers belong, to make provision for paying the same, on account of the United States, and to make provision at the expense of such State for continuing the same, to such widows, during their widowhood, whose indigent circumstances may require it, and also to make such further provision as may be necessary for orphan children in like circumstances, provided such States have not already made competent provision in the cases aforesaid, pursuant to the recommendation of Congress of the 17th of August 1779:

That the restricting clause in the resolution of the 15th of May, 1778, granting half-pay to the officers for seven years, expressed in these words, viz. "and not hold any office of profit under these states, or any of them," be and hereby is repealed.

Major General's pay and rations per month 256 dollars.
   per year 3172 specie.

   Brigadier do. per month 185 dollars.
   per year 2220 dollars.¹

The committee, appointed to ascertain and declare the privileges of members of Congress until the Confederation shall be ratified by all the states; and

The Committee appointed to ascertain and declare the privileges of Members of Congress, until the Confederation shall be ratified by all the States in the Union,

Beg leave to report as follows.

Whereas by the Confederation and perpetual Union of these States, in the fifth article it is (among other things) agreed "that freedom of speech and debate in Congress shall not be impeached or questioned in any Court or place out of Congress, and the Members of Congress shall be protected in their persons from arrests and imprisonments during the time of their going to and from and attendance on Congress, except for treason, felony and breach of the peace."

And whereas the said Confederation is not yet in all its parts ratified by the State of Maryland, and it is absolutely essential to the great trust reposed in members of Congress, that they should at all times enjoy the privileges above mentioned as well as the other privileges belonging to a legislative Body.

Resolved, And it is hereby declared,

That the Members of Congress have, and of right ought to have all the privileges and immunities expressed in the clause of the fifth article above recited.¹

The committee, to whom were referred the letter, of 8 June, from Governor Trumbull and the letter, of 21 July, from Mr. T. Burke, delivered in their respective reports.

At a Board of War, Aug. 24. 1780

The board having considered the memorial of the Justices and Field Officers in the counties of Accomack and Northampton in Virginia, requesting that the men raised in those counties as part of the Virginia quota of troops be permitted to remain therein, beg leave to inform Congress

¹ This report, in the writing of Thomas McKean, is in the Papers of the Continental Congress, No. 23, folio 69. It is indorsed by Thomson: "Read. August 24, 1781, Not to be acted upon."
That in the opinion of the Board the reasons stated in their report on a former application on this subject which was agreed to by Congress on the 24th March 1778 still prevail with this variation that the board do not know of any imported property belonging to the United States now in those counties. The property of the citizens of these States who find it convenient to make use of the great variety of Inlets and Harbors in those counties, as well as that of the Inhabitants being subject to the daily ravages of the enemy's cruisers which now infest their Coasts in unusual numbers, is constantly in a precarious and perilous situation. It is therefore submitted to Congress whether considering the circumstances before stated, and that the numbers of fencible men in those counties are not great, nor can they from their detached situation, and the numbers of disaffected which surround them, be speedily relieved in case of invasion, it would not be expedient to continue the measure formerly adopted by Congress of leaving the men raised in those counties for the Continental Army (which as we are informed do not amount to more than the complement of one company) as a permanent guard. Should Congress be of this opinion, it is conceived proper that it should be resolved

That from the peculiar situation of the Counties of Accomack and Northampton in the State of Virginia, the men raised as part of the quota of that State for the Continental Army remain in those counties until the further order of Congress or the Commander in Chief.

That it be recommended to the Executive of the State of Virginia to appoint officers for the men in proportion to their numbers out of those officers of the Virginia line, who are in that State unemployed; and that the said Executive take the necessary measures for clothing, paying, and providing for the said officers and men at the expense of the United States during their stay in the said Counties.

That a copy of the memorial of the said Justices and Field Officers be transmitted to the Governor and Council of Virginia, to the end that eventual measures may be taken by the Government of the State for the defence of the said counties, in case it should hereafter be found expedient to remove the Continental troops therefrom.¹

The Board of War, to whom was referred the report of the Board of Treasury on the letter, of 14, from Major General M'Dougall, brought in a report; Whereupon,

**Treasury Office**

*August 17th, 1780*

The Board having considered Genl M'Dougall's Letter of the 14th instant referred to them by Congress beg leave to Report,

That by a Resolution of Congress of the sixteenth of June 1775, the pay of a Major General is 166 dollars per month, That when any Major General shall act in a separate department he be allowed for his pay and expenses three hundred and thirty two dollars per month.

That on the 27th of February 1776 Congress Resolved "New York, New Jersey, Pennsylvania the lower Counties in Delaware and Maryland be put into one department under the command of one Major General and two Brigadiers General with proper staff."

That Virginia, North Carolina, South Carolina and Georgia be put into one department &c

Also by another Resolution of Congress of the 22nd of May 1777, Albany, Ticonderago, Fort Stanwix and their dependencies are considered the Northern Department,

That General M'Dougall brings his charge for a separate command in the Highlands, and it may have been the intention of Congress, that commands of that nature should come under the description in their resolution of the 16th June 1775. But as that command of General M'Dougall was in the Middle Department, where General Washington (during the period the General charges for) did actually command, and the only Resolution of Congress on which the General can found his charge of double pay, says it shall be for commanding in a Separate Department, the Board submit to Congress, whether the General's having had a separate command, in a department commanded by General Washington, shall entitle him to double pay under the resolution of the 16th June 1775.

In addition to the above state of the matter the Board of War beg leave to represent,

That Congress have not confined themselves to the Departments as established in the Resolutions before recited, but have made exceptions as they thought the particular situation of the Officer Com-
manding required. Congress will no doubt recollect these exceptions and among them their resolve of the 22d September 1777 whereby General Putnam became entitled to the allowance of a Major General in a separate department while he held the command at the Posts where General M'Dougall commanded during the time for which he claims double pay. If Congress do not recollect any circumstances in the case of General Putnam which will vary it from that of General M'Dougall, it should seem that the latter is entitled to the same allowance with the former, and if Congress should be of this opinion it is conceived by the Board, proper that it be

Resolved, That Major Gen. M'Dougall be entitled to receive the allowance of a major general in a separate department, during the time he commanded the posts in the highlands.¹

On motion of Mr. [John] Henry, seconded by Mr. [Samuel] Adams,

Resolved, That when the governors or presidents of two or more states act in the field together, he who has been longest in office shall take rank of all other governors or presidents, except the governor or president of the state in which they are; who, in his own state, notwithstanding he may be youngest in office, always takes rank.

Resolved, That whenever the governors or presidents of states act in conjunction with continental troops, they shall, for the time they so act in conjunction, have the rank of major-general in the line of the army:

Provided always, that nothing in the above resolutions shall exclude the governor of any state from a separate command over the militia of the state in which he presides, where not inconsistent with the particular views of the Commander in Chief.

Resolved, That the half pay of general officers be proportioned to their pay.

Congress took into consideration the report of the committee on the letter of the 18th, from Governor Rutledge; and thereupon,

A further Report from the Committee on Governor Rutledge's Letter of the 18th Instant

Resolved, That Congress will take the earliest Opportunity and use every means in their power to Effect the Exchange of the Lt. Governor of S. C. and other Citizens of that — taken at the surrender of Charlestown or Elsewhere and now Prisoners of War or on Parole.

Your Committee recommend that such part of the said Letter as respects the Ordering the Continental Regiment lately raised in Maryland to join the Southern Army be referred to his Excellency Gen' Washington to give such directions thereon as to him shall appear most eligible in the present conjuncture, and that the remaining part of the Letter respecting a supply of arms and ammunition for the army under Gen' Gates be referred to the Board of War, to take order.¹

Resolved, That Governor Rutledge be informed that Congress have paid, and will continue to pay, attention to all who have had the misfortune of being captivated by the enemy; and that those captivated at the surrender of Charlestown will equally share the care and attention of Congress with those captivated in any other of the United States.

Resolved, That the remaining part of Governor Rutledge's letter, respecting a supply of arms and ammunition for the army under Major General Gates, be referred to the Board of War to take order.

On motion of Mr. [Thomas] Bee, seconded by Mr. [George] Walton, Congress passed the following resolution:

Resolved, That the Board of Admiralty be and hereby are directed to retain them in the service of these United States, and engage them to remain here until the further order of Congress.

Resolved, That Friday, the 1st Sept. next, be assigned for electing a member of the Court of Appeals, in the room of the late Mr. Hosmer, deceased.

The committee to whom was referred the letter from F. Hopkinson, treasurer of loans, delivered in a report.

The Committee to whom was referred the letter from the Treasurer of Loans respecting the Board of Treasury, &c. beg leave to report.

That the indisposition of Mr Foreman one of the Commissioners of the Treasury delayed the Committee for some time from proceeding in the business to them submitted; but that on the 7th Inst. due notice was given to the Commissioners of the Treasury, who had received a copy of the letter from the Treasurer of loans three weeks before, that the Committee would meet in the Committee room of Congress in the State House on the Thursday following at nine o'clock in the morning on that business; that the commissioners, altho' they received a second notice from your Committee after they had met avoided attending upon them, whereupon they proceeded ex parte (as they informed the Commissioners they would do in case they did not attend) and heard the Treasurer of loans, the Commissioners of the Chambers of Accounts the Auditor General, the Treasurer, and Paymaster General; and thereupon they find, that there is great uneasiness in that Department and that the public business is likely to suffer great prejudice therefrom which is chiefly to be attributed to the following Causes, viz.

That the Board of Treasury have prohibited all access to them between the hours of nine and twelve in the forenoon, even by the officers in the Department, with whom they transact the most trivial affairs in writing only, not suffering the Commissioners of the Chambers to speak to them. That some time ago, when the treasurer of loans came upon public business to the door of the room, where the Treasury board sits between the hours nine and twelve, Mr Foreman shut the door in his face, and has also treated him with unmerited indignity on other occasions.
That the orders issued by the Board have been often incorrect, and sometimes unintelligible and impracticable to be executed, and that in particular one standing order to the Treasurer not to pay money on the Warrants of Congress without the special direction of the Board, is a dangerous usurpation of power, opens a door to partialities and resentments and has a tendency to destroy the honor and credit of the United States.

That the behavior in office of Messrs. Foreman and Gibson two of the Commissioners of the Treasury and of Mr. Lee Secretary of the Board, to the Executive officers in that Department, and also to others who have frequent business to transact with the Board is very reprehensible, extremely disgusting, and has destroyed all friendly Communications of councils and harmony in the execution of public affairs. That your Committee observe great inconveniences have arisen from the mode of appointing the Clerks of the Chamber of accounts

Whereupon your Committee propose the following Resolutions viz.

Resolved,

That Gentlemen be put in nomination as Commissioners of the Treasury in the room of Ezekiel Foreman and John Gibson Esqrs. on ——— next, and that two be elected on the day after.

That a Secretary to the Board of Treasury be nominated and elected at the same times in the stead of Mr. Charles Lee.

That the Commissioners of the respective chambers of accounts have the appointment, removal and direction of their own clerks.¹

The Board having considered the letter from the Board of War to the President of Congress dated the 18th instant and referred to them—Beg leave to Report,

That every Resolution of Congress relative to the bringing money into the Treasury, hath been strictly attended to, and so far as in the power of the Board carried into effect. The results of those various efforts have been duly reported to Congress. The Board think it their duty to report explicitly, that there is no money in the Treasury,

and unpaid warrants out, to the amount of three Millions of Dollars, and that no warrant hath yet issued in favour of the Board of War, for the four Million of Dollars granted to that Board for the purposes expressed in the Resolution of Congress of the 25th of July last,

That the Resolution of Congress of the 29th of June last directing warrants for balances, puts it out of the power of the Board, to report any warrants on the States for any part of their quotas unpaid up to the 1st of March last,

Whereupon they submit the following Resolution:

Resolved, That the Board of Treasury be and hereby are authorised and directed to report warrants on the respective states, to compleat their several balances due to the United States, up to the first day of March last; which sum so drawn for and received shall be credited on their respective warrants drawn, agreeably to a resolution of the 29th of June last.¹

Congress took into consideration the report of the committee appointed to devise ways and means for preventing the farther issue of certificates, and for carrying into effect the resolutions of the 18 March last, &c. and thereupon came to the following resolutions:

Whereas a large and immediate supply of money is necessary for carrying on the operations of the war, and for the payment of debts due for supplies heretofore furnished, and for the payment of interest on loan office certificates:

Resolved, That it be earnestly recommended to the several states, to take the most speedy and effectual measures in their power, for drawing in their respective quotas of the continental bills of credit, to be destroyed, either by a tax to be collected immediately, or by exchanging for them new bills, to be emitted pursuant to the act of the 18th of March last, at a rate not less than forty of the former for one of the latter; so that the whole of the said new bills may be issued:

and whereas a further supply of money will be necessary for the purposes aforesaid, and a tax payable in the new bills aforesaid will make

a universal demand for them and so have a good tendency to introduce them into circulation in full credit.

That it be recommended to the several states to raise by taxes, payable in the bills emitted pursuant to the act aforesaid, or in specie, their respective quotas of three millions of dollars, agreeable to the apportionment of the 7th of October, 1779, and pay the same into the treasury of the United States as soon as possible; the payment to be fully completed by the last day of December next, each state to be allowed interest for the same, from the time it is paid, to be hereafter adjusted, according to a resolution of the 6th of October, 1779:

That Major General Greene, late quarter master general, and Jeremiah Wadsworth, late comissary general of purchases, and the present comissary general of purchases, respectively, render an account to the Board of Treasury of the amount of the monies due from them, on certificates or otherwise, on public account, specifying the sum due in each state, in order that warrants may issue in their favour on the treasurers of such states, for payment of the same, out of the monies to be collected for the United States, as aforesaid, which warrants being paid, shall be accepted by the treasurer, toward such state’s quota of the monies to be raised as aforesaid; and it is further recommended to such states to provide that the certificates of the said quarter master and commissaries, and those who purchased under them, be received in payment of the said taxes, to the amount of such warrants, under like proper regulations as is provided by the resolution of the 26th of May last for preventing frauds.

And, Whereas, it is very important to the Interest of these United States, that the credit of the new currency be supported equal to specie, and there can be no reasonable doubt but that its credit may be preserved, considering the Tener of the bills, the Funds on which they are issued, and the other provisions made or recommended for
that purpose, if the quantity in circulation is not increased beyond the sum limited by the resolution of the 18th of March last:

Resolved, That it be recommended to the several states not to issue bills of credit for a currency, on any consideration whatever, to a greater amount than their respective quotas of the sum to be issued by the resolution of the 18th of March last to be in circulation at any one time, and such of the states as may have lately issued Bills on their own credit previous to their receiving their quotas of the bills prepared agreeable to the resolution aforesaid are requested to consider the Bills so emitted as part of their said quota.

[And to prevent the possibility of any depreciation in the bills to be emitted agreeably to the act of the 18 March aforesaid, that it be most earnestly recommended to the several states not to issue bills of credit for a currency on any consideration whatever to a greater amount than their respective quotas of the new bills stated in the act aforesaid to be in circulation at any one time, and that it be recommended to such states as have lately issued bills of credit immediately to call in and redeem the same by giving in exchange for them the bills emitted agreeably to the resolution aforesaid and referred to such states respectively;

and that the bills of credit emitted by any of the states since the first day of January last, and redeemable in specie at par, be considered as part of the proportion of the money reserved by the said act of the 18 of March, to the use of the state.]

Congress took into consideration the report of the committee on the letters, of the 8th June, from Governor Trumbull, and of the 21 July last, from Mr. T[homas] Burke; and thereupon,

Resolved, That, all and singular, the creditors of these United States, for supplies furnished the army, or the transportation thereof, shall be entitled to receive the just value

of the sums due to them respectively, in the bills of credit
emitted pursuant to the act of the 18 of March last, the
value of the sums due to be ascertained according to the
current value of continental bills of credit compared with
specie at the time the money became due, at the place where
the supplies were furnished; provided the same do not
exceed the prices fixed for such supplies, by the act of 25
of February last, or a proportionate value for services done,
and articles furnished, not mentioned in the said act; but
if the nominal sum, in continental currency, contracted for,
when reduced to specie value as aforesaid, shall exceed the
fixed prices aforesaid, the creditor shall be entitled to receive
the amount of the supplies furnished or services done, at the
said fixed or proportionate prices, in the new bills aforesaid,
or the nominal sum contracted for in continental bills of
credit, and no more, at his election:
That the accounts being duly examined and adjusted by
the rule aforesaid, by commissioners that may be appointed
agreeably to the resolution of the 12 of June last, to settle
the accounts of officers of the staff departments in the several
states, or by the officer who made the contract, or by whom
the payment is to be made, the same shall be paid, or a
certificate given, for the sum justly due, certifying that the
same hath been duly examined and adjusted, agreeably to
the directions aforesaid; and if paid in the new bills, the
interest on the said bills shall be computed to the date of
such certificate:
That all debts due to the United States for monies received
for their use, or otherwise, within any of these states, shall
be paid according to the just value of the money when it
was received, or became due, to be ascertained as aforesaid.

That Congress approve of the engagements of Mr. Burke men-
tioned in his letter of the 21st. July last that all persons in North Caro-

September, 1780

Present Mr. Peters Col Grayson

The Board having considered the reference from Congress on the subject of Lieut: Beaulieu's memorials, and the said memorials—are of opinion that he is not entitled to his travelling expenses from South Carolina to Philadelphia, under any regulation of Congress, as he was not on public business. But it appears to the Board that Lieut: Beaulieu is in very distressed circumstances, and a stranger in the country, labouring under misfortunes which have befallen him in its service. He is a prisoner on parole, and cannot return to France. The Board therefore submit to Congress whether a sum of money should not be advanced to him, if the precedent would not be attended with disagreeable consequences. If Congress be of this opinion they will please to resolve;

Ordered, That the sum of five thousand dollars be paid to Lieutenant Beaulieu, to reimburse his expenses while under the cure of the wounds he received in the service of these states, and to defray the charges of travelling from South Carolina to Philadelphia, to which place he was under the necessity of coming for assistance which he could not obtain elsewhere.¹

The Board of War, to whom was referred the memorial of Colonel Durkee, report as their opinion, "That as Colonel Durkee holds a commission of colonel in the service of the United States, and is intitled to all the emoluments thereof, it is not necessary or practicable to make any farther provision for him at this time, though the Board are satisfied he is a meritorious officer: That with respect to his application to be allowed a clerk, the Board are of opinion that it is inexpedient to comply therewith."²

A motion was made by Mr. [Ezekiel] Cornell, seconded by Mr. [John] Fell, for discontinuing the post at Carlisle.

Ordered, That it be referred to the Board of War.

Congress took into consideration the report of the committee to whom were referred the instructions of the general assembly of Maryland to their delegates in Congress, respecting the articles of confederation, and the declaration therein referred to, the act of the legislature of New York on the same subject, and the remonstrance of the general assembly of Virginia; which report was agreed to, and is in the words following:

"That having duly considered the several matters to them submitted, they conceive it unnecessary to examine into the merits or the policy of the instructions or declaration of the general assembly of Maryland, or of the remonstrance of the general assembly of Virginia, as they involve questions, a discussion of which was declined on mature consideration, when the articles of confederation were debated; nor, in the opinion of the committee, can such questions be now revived with any prospect of conciliation; that it appears more advisable to press upon those states which can remove the embarrassment respecting the western country, a liberal surrender of a portion of their territorial claims, since they cannot be preserved entire without endangering the stability of the general confederacy; to remind them how indispensibly necessary it is to establish the federal union on a fixed and permanent basis, and on principles acceptable to all its respective members; how essential to public credit and confidence, to the support of our army, to the vigour of our councils and success of our measures, to our tranquillity at home, and our reputation abroad, to our present safety and our future prosperity, to our very existence as a free, sovereign and independent people; that they are fully persuaded the wisdom and magnanimity of the patriotic legislators of these states will on an occasion of such vast magnitude, prompt them to prefer the general security to local attachment, and the permanency of the confederacy to an un-
wieldy extent of their respective limits, of the respective legislatures will lead them to a full and impartial consideration of a subject so interesting to the United States, and so necessary to the happy establishment of the federal union; that they are confirmed in these expectations by a review of the beforementioned act of the legislature of New York, submitted to their consideration; that this act is expressly calculated to accelerate the federal alliance, by removing, as far as it depends on that State, the impediment arising from the western country, and for that purpose to yield up a portion of territorial claim for the general benefit; an example which in the opinion of your committee deserves applause, and will produce imitation;" Whereupon,

Resolved, That copies of the several papers referred to the committee be transmitted, with a copy of the report, to the legislatures of Virginia, North Carolina, and Georgia the several states, and that it be earnestly recommended to those states, who have claims to the western country, to pass such laws, and give their delegates in Congress such powers as may effectually remove the only obstacle to a final ratification of the articles of confederation; and that the legislature of Maryland be earnestly requested to authorize their delegates in Congress to subscribe the said articles; and that a copy of the aforementioned remonstrance from the assembly of Virginia and act of the legislature of New York, together with a copy of this report, be transmitted to the said legislature of Maryland.¹

A report from the Board of War was read; Whereupon,

Resolved, That the resignation of Captain Alexander Lawson Smith, of the regiment formerly Rawlinc, be accepted.²

A motion was made by Mr. [Joseph] Jones, seconded by Mr. [James] Madison, respecting the lands that may be ceded in pursuance of the foregoing report and resolve.

That in case the recommendation of Congress to the States of Virginia, North Carolina and Georgia to cede to the United States a portion of their unappropriated Western Territory shall be complied with in such manner as to be approved of by Congress, the Territory so ceded shall be laid out in separate and distinct States at such time and in such manner as Congress shall hereafter direct, so as that no state be less than one hundred or more than one hundred and fifty miles square or as near thereto as circumstances will admit, and that upon such cession being approved of and accepted by Congress the United States will guaranty the remaining Territory to the said States respectively.

That such of the said States as have been at expence in subduing any of the British Posts within the Territory proposed to be ceded and in maintaining Garrisons and supporting civil government therein since the reduction of such Posts shall be reimbursed by the Continent the amount of such expence.

That all the Lands to be ceded to the United States and not appropriated or disposed of in bounties to the American Army, shall be considered as a common fund for the use and benefit of such of the United States as have become or shall become members of the confederation according to their usual proportions or quotas of general charge and expenditure, and shall be applied and disposed of for that purpose and no other whatsoever, and therefore all purchases and deeds from any Indian or Indians, or any Indian Nation or Nations for any Lands within any part of such ceded Territory, which have been or shall be made for the use of any private person or persons whatsoever, shall be deemed and taken as absolutely void.¹
