by motor vehicle subject to part II of this Act, under agreements
between such freight forwarders and common carriers (which agree-
ments may be required by the Commission to be subject to its approval,
disapproval, or modification), in such manner as will be in furtherance
of the national transportation policy declared in this Act: *Provided,*
That in the case of line haul transportation between concentration
points and break-bulk points in truckload lots, such terms and condi-
tions shall not permit payment to common carriers by motor vehicle
of compensation which is lower than would be received under rates
or charges established under part II of this Act, except to the extent
that such lower compensation is found by the Commission to be
justified by reason of the conditions under which the services
and instrumentalities of common carriers by motor vehicle are utilized
by freight forwarders and the character of the services performed
by common carriers by motor vehicle and by freight forwarders.

(2) The Commission, when it has prescribed such terms and condi-
tions, shall by order specify a reasonable time after which subsection
(b) of this section shall no longer be effective; and the order or orders
issued under this paragraph may, if the Commission deems it to be
in furtherance of the national transportation policy declared in this
Act, provide for the termination of the effectiveness of such subsection
(b) at different times in different territories or sections.

(3) The Commission is authorized, upon complaint or upon its
own initiative without complaint, to investigate and determine whether,
in order to carry out the purposes of paragraph (1) of this subsection,
any terms and conditions prescribed thereunder should be modified
or rescinded or whether additional terms and conditions should be pre-
scribed thereunder, and, after such investigation, the Commission
shall by order modify or rescind any such terms and conditions, or
prescribe additional terms and conditions, to the extent it finds such
action necessary or appropriate to carry out the purposes of such
paragraph.

(4) No order shall be entered under this subsection except after
interested parties have been afforded reasonable opportunity for
hearing.

(b) Subject to the authority of the Commission to terminate by
order the effectiveness of this subsection, as provided in subsection (a)
(2), nothing in this part or in part II of this Act shall be construed
to make it unlawful for freight forwarders subject to this part and
common carriers by motor vehicle subject to part II of this Act to
operate under joint rates or charges. The provisions of part II of
this Act shall apply with respect to such joint rates or charges and
the divisions thereof, and with respect to the parties thereto, as though
such joint rates or charges had been established under the provisions
of such part II, and the provisions of this part shall not apply with
respect thereto: *Provided, however,* That—

(1) Joint rates or charges and concurrences contained in tariffs
heretofore filed with the Commission shall become effective, without
notice, as of the date of enactment of this part, unless the parties
thereof file notice with the Commission, within thirty days after the
date of enactment of this part, canceling such joint rates or charges
and concurrences;

(2) Joint rates or charges and concurrences, contained in tariffs
heretofore offered for filing with the Commission, but rejected by the
Commission, shall become effective, without notice, as of the date of
enactment of this part, if filed with the Commission within thirty days
after the date of enactment of this part;

(3) Joint rates or charges and concurrences, under which freight
forwarders and common carriers by motor vehicle subject to part II

of this Act were actually operating on July 1, 1941, may become effective, without notice, as of the date of enactment of this part, if tariffs covering such joint rates or charges and concurrences are filed with the Commission within thirty days after the date of enactment of this part;

“(4) No new or additional joint rate or charge may be established under authority of this subsection for service from any point of origin to any point of destination with respect to any particular commodity or class of traffic unless at least one rate or charge for service from such point of origin to such point of destination with respect to such commodity or class of traffic, established by an individual freight forwarder or by a freight forwarder jointly with a common carrier by motor vehicle, is already lawfully in effect; but for purposes of this paragraph the making of a change in a joint rate or charge which has been established, or which has become effective pursuant to this subsection, shall not be deemed to constitute the establishment of a new or additional joint rate or charge;

“(5) Any joint rate or charge or concurrence established, or which becomes effective pursuant to this subsection, may at any time be canceled or withdrawn in accordance with the provisions of part II of this Act;

“(6) The filing of tariffs under paragraph (2) or (3) of this subsection may be in accordance with the requirements with respect to the form and manner of filing tariffs in effect under part II of this Act prior to December 31, 1936;

“(7) For the purpose of computing the period of thirty days prescribed in paragraph (1), (2), or (3) of this subsection, the date of mailing by registered mail shall be deemed the date of filing; and

“(8) As used in this subsection the term ‘rates or charges’ includes classifications, rules, and regulations with respect thereto.”

[Public Law 305]

To authorize the President to retire certain officers and enlisted men of the Navy, Marine Corps, and Coast Guard, and for other purposes.

Whereas the wars in which the United States has been engaged are now in the process of being brought to a successful close with the probability that the services of a number of officers of the Navy and Marine Corps, particularly some of those in the higher ranks, cannot be utilized; Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Navy shall, whenever he deems it advisable, appoint boards of officers to consider and recommend for retirement officers of the line and staff corps of the Regular Navy serving in the ranks of rear admiral and commodore and officers of the Regular Marine Corps serving in the ranks of major general and brigadier general.

SEC. 2. (a) The boards to consider and recommend for retirement officers of the Navy serving in the ranks of rear admiral and commodore shall consist of not less than five officers of the Regular Navy serving in ranks above that of rear admiral except that officers of the staff corps of the rank of rear admiral may be appointed as members of any board appointed for the consideration and recommendation of officers of the staff corps for retirement.

(b) The boards to consider and recommend for retirement officers of the Marine Corps serving in the rank of major general shall consist, so far as practicable, of three line officers of the Regular Marine Corps serving in ranks above that of major general. If there be an insufficient number of such officers available, the deficiency shall be supplied by the appointment to the board of officers of the line of the Regular Navy serving in ranks above that of rear admiral.

(c) The boards to consider and recommend for retirement officers of the Marine Corps serving in the rank of brigadier general shall consist, so far as practicable, of five line officers of the Regular Marine Corps serving in ranks above that of brigadier general. If there be an insufficient number of such officers available, the deficiency shall be supplied by the appointment to the board of officers of the line of the Regular Navy serving in the rank of rear admiral or above.
SEC. 3. The Secretary of the Navy is authorized to convene boards of officers of the Regular Navy and Marine Corps to consider and recommend for retirement officers of the Regular Navy and Marine Corps serving in the ranks of captain and below in the Navy, and colonel and below in the Marine Corps, within such categories or groups of such officers as shall be specified in the precepts convening such boards. The members of such boards shall be senior in permanent rank to the permanent rank of any officer under consideration.

SEC. 4. The recommendations of each board convened pursuant to this Act shall be submitted by the Secretary of the Navy with his recommendations to the President for approval or disapproval, in whole or in part.

SEC. 5. Each officer recommended for retirement pursuant to this Act shall, if such recommendation be approved by the President, be placed on the retired list on the first day of such month as may be set by the Secretary of the Navy but not later than the first day of the seventh month after the date of approval by the President.

SEC. 6. When any officer of the Regular Navy or the Regular Marine Corps or the Reserve Components thereof has completed more than twenty years of active service in the Navy, Marine Corps, or Coast Guard, or the Reserve Components thereof, including active duty for training, at least ten years of which shall have been active commissioned service, he may at any time thereafter, upon his own application, in the discretion of the President, be placed upon the retired list on the first day of such month as the President may designate.

SEC. 7. In any case where, as determined by the Secretary of the Navy, any such officer has not performed satisfactory duty in the highest rank held by him while on active duty, he shall be placed on the retired list with the next lower rank in which he has served but not lower than his permanent rank. Officers retired pursuant to the foregoing sections of this Act shall receive retired pay at the rate of 21/2 per centum of the active-duty pay with longevity credit of the rank with which retired, multiplied by the number of years of service for which entitled to credit in the computation of their pay while on active duty, not to exceed a total of 75 per centum of said active-duty pay: Provided, That a fractional year of six months or more shall be considered a full year in computing the number of years service by which the rate of 21/2 per centum is multiplied: Provided further, That officers whose computation of pay on the active list is not based upon years of service shall receive as retired pay 75 per centum of their active duty pay.

(b) Nothing within this section shall prevent any officer from being placed on the retired list with the highest rank and with the highest retired pay to which he might be entitled under other provisions of law.

(c) The highest rank in which an officer served on or prior to June 30, 1946, or if a prisoner of war at any time during World War II, the highest rank to which an officer was temporarily appointed pursuant to the provisions of the Act approved July 24, 1941 (55 Stat. 608), is the highest rank in which the officer may be retired and upon which his retired pay may be based pursuant to this section, unless under provisions of law other than those contained within this section he is entitled to a higher rank on the retired list or to a higher retired pay, or unless at the time of retirement he is serving in a higher permanent grade or rank.
Sec. 10. (a) Personnel appointed or advanced under the authority of this Act may be continued in their temporary status during such period as the President may determine, but not longer than six months after the termination of war or national emergency or, in the case of reserve and retired personnel, not longer than the period herein specified or the date of release from active duty whichever is the earlier and in no case longer than six months after the termination of war or national emergency. Upon the termination of their temporary status such personnel on the active list of the Regular Navy and Marine Corps shall assume their permanent status and those of the retired list and of the respective Reserve Components, including the Fleet Reserve and Fleet Marine Corps Reserve, shall have, when returned to an inactive status, the highest grade and rank in which, as determined by the Secretary of the Navy, they served satisfactorily under a temporary appointment, unless entitled to the same or higher grade and rank pursuant to section 8 of this Act, as now or hereafter amended.

(b) (1) Personnel of the retired list returned to an inactive status with higher rank pursuant to subsection (a) shall receive retired pay computed at the rate prescribed by law and applicable in each individual case but based upon such higher rank.

(2) Personnel of the active list of the Regular Navy and Marine Corps and personnel of the Fleet Reserve and Fleet Marine Corps Reserve appointed or advanced under the authority of this Act shall, when subsequently retired, if not otherwise entitled to the same or higher grade and rank or retired pay, be advanced to the highest grade and rank in which, as determined by the Secretary of the Navy, they served satisfactorily under temporary appointments, and shall receive retired pay computed at the rate prescribed by law and applicable in each individual case but based upon such higher rank.

(c) Personnel of the classes described above who have been retired or released from active duty prior to the date of this amendment shall be entitled to the benefits of this section from the date of retirement or release from active duty, as the case may be.

(d) Personnel accorded higher rank pursuant to this section shall, if subsequently assigned active duty, be recalled to active duty in the grades, ranks or ratings, with which they were retired or returned to an inactive status unless under other provisions of law they are entitled to higher grades, ranks, or ratings.

(e) The highest rank in which an officer served on or prior to June 30, 1946, or if a prisoner of war at any time during World War II the highest rank to which an officer was temporarily appointed pursuant to the provisions of this Act, is the highest rank in which the officer may be retired and upon which his retired pay may be based pursuant to this section, unless under provisions of law other than those contained within this section he is entitled to a higher rank on the retired list or to a higher retired pay, or unless at the time of retirement he is serving in a higher permanent grade or rank.

(b) Nothing contained in this section shall be construed as altering or amending any provision of section 7 of the Act approved June 30, 1942 (56 Stat. 485).

Sec. 9. When any officer of the Regular Navy or Marine Corps serving in a rank below that of fleet admiral has attained the age of sixty-two years, he shall be placed upon the retired list by the President with the highest rank, permanent or temporary, held by
him while on active duty and with retired pay at the rate of 2½ per centum of the active-duty pay with longevity credit of the rank with which retired, multiplied by the number of years of service for which entitled to credit in the computation of his pay while on active duty, not to exceed a total of 75 per centum of said active-duty pay:

Provided, That a fractional year of six months or more shall be considered a full year in computing the number of years of service by which the rate of 2½ per centum is multiplied:

Provided further, That an officer whose computation of pay on the active list is not based upon years of service shall receive as retired pay 75 per centum of his active duty pay:

Provided, however, That the President may, in his discretion, defer placing any such officer on the retired list for the length of time he deems advisable but not later than the date upon which such officer attains the age of sixty-four years, except that not more than ten officers whose retirement is so deferred shall be on the active list at any one time:

And provided further, That no officer of the Navy or Marine Corps shall be placed upon the retired list pursuant to this section until the first day of the sixth month following the date of approval of this Act or until the date upon which he would be retired for age pursuant to law existing prior to the date of approval of this Act, whichever may be the earlier.

Sec. 10. The provisions of this Act, except as may be necessary to adapt the same thereto, shall apply to personnel of the Coast Guard in relationship to the Coast Guard in the same manner and to the same extent as they apply to personnel of the Navy in relationship to the Navy:

Provided, That wherever authority is given to the Secretary of the Navy, similar authority shall be deemed given to the Secretary of the Treasury to be exercised with respect to the Coast Guard at such time or times as the Coast Guard shall be operating under the Treasury Department:

Provided further, That the boards to consider and recommend for retirement officers of the Coast Guard serving in the ranks of rear admiral and commodore shall be composed of senior Coast Guard officers if available or otherwise as the Secretary shall determine.

Sec. 11. The following Acts and parts of Acts are hereby repealed:

(a) Section 13 and subsection (e) of section 15 of the Act of June 23, 1938 (52 Stat. 951 and 952).

(b) Section 1444 of the Revised Statutes of the United States as amended by that portion of the Act of August 29, 1916 (39 Stat. 579), reading: “except as herein otherwise provided, hereafter the age for retirement of all officers of the Navy shall be sixty-four years instead of sixty-two years as now prescribed by law”; section 2 of the Act of January 28, 1929 (ch. 109, 45 Stat. 1142); and section 6 of the Act of June 30, 1942 (56 Stat. 465).

(c) Subsection 12 (e) of the Act of June 23, 1938 (52 Stat. 950).

AN ACT

To provide for the sale of surplus war-built vessels, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the “Merchant Ship Sales Act of 1946”.

DECLARATION OF POLICY

SEC. 2. (a) It is necessary for the national security and development and maintenance of the domestic and the export and import foreign commerce of the United States that the United States have an efficient and adequate American-owned merchant marine (1) sufficient to carry its domestic water-borne commerce and a substantial portion of its water-borne export and import foreign commerce and to provide shipping service on all routes essential for maintaining the flow of such domestic and foreign water-borne commerce at all times; (2) capable of serving as a naval and military auxiliary in time of war or national emergency; (3) owned and operated under the United States flag by citizens of the United States; (4) composed of the best-equipped, safest, and most suitable types of vessels, constructed in the United States and manned with a trained and efficient citizen personnel; and (5) supplemented by efficient American-owned facilities for shipbuilding and ship repair, marine insurance, and other auxiliary services.

(b) It is hereby declared to be the policy of this Act to foster the development and encourage the maintenance of such a merchant marine.

DEFINITIONS

Sec. 3. As used in this Act the term—
(a) “Commission” means the United States Maritime Commission.
(b) “War-built vessel” means an oceangoing vessel of one thousand five hundred gross tons or more, owned by the United States and suitable for commercial use—
(1) which was constructed or contracted for by or for the account of the United States during the period, beginning January 1, 1941, and ending with September 2, 1945; or
(2) which, having been constructed during the period beginning September 3, 1939, and ending with September 2, 1943, was acquired by the United States during such period.
(c) “Prewar domestic cost”, as applied to any type of vessel, means the amount determined by the Commission, and published by the Commission in the Federal Register, to be the amount for which a standard vessel of such type could have been constructed (without its national defense features) in the United States under normal conditions relating to labor, materials, and other elements of cost, obtaining on or about January 1, 1941. In no case shall the prewar domestic cost of any type of vessel be considered to be greater than 80 per centum of the domestic war cost of vessels of the same type.
(d) “Statutory sales price”, as applied to a particular vessel, means, in the case of a dry-cargo vessel, an amount equal to 50 per centum of the prewar domestic cost of that type of vessel, and in the case of a tanker, such term means an amount equal to 87 1/2 per centum of the prewar domestic cost of a tanker of that type, such amount in each case being adjusted as follows:
(1) If the Commission is of the opinion that the vessel is not in class, there shall be subtracted the amount estimated by the Commission as the cost of putting the vessel in class.
(2) If the Commission is of the opinion that the vessel lacks
desirable features which are incorporated in the standard vessel used for the purpose of determining prewar domestic cost, and that the statutory sales price (unadjusted) would be lower if the standard vessel had also lacked such features, there shall be subtracted the amount estimated by the Commission as the amount of such resulting difference in statutory sales price.

(3) If the Commission is of the opinion that the vessel contains desirable features which are not incorporated in the standard vessel used for the purpose of determining prewar domestic cost, and that the statutory sales price (unadjusted) would be higher if the standard vessel had also contained such features, there shall be added the amount estimated by the Commission as the amount of such resulting difference in statutory sales price.

(4) There shall be subtracted, as representing normal depreciation, an amount computed by applying to the statutory sales price (determined without regard to this paragraph) the rate of 5 per centum per annum for the period beginning with the date of the original delivery of the vessel by its builder and ending with the date of sale or charter to the applicant in question, and there shall also be subtracted an amount computed by applying to the statutory sales price (determined without regard to this paragraph) such rate not in excess of 3 per centum per annum in the case of a vessel other than a tanker, and not in excess of 4 per centum per annum in the case of a tanker, for such period or periods of war service as the Commission determines will make reasonable allowance for excessive wear and tear by reason of war service which cannot be or has not been otherwise compensated for under this subsection.

No adjustment, except in respect of passenger vessels constructed before January 1, 1941, shall be made under this Act which will result in a statutory sales price which (1) in the case of dry-cargo vessels (except Liberty type vessels) will be less than 35 per centum of the domestic war cost of vessels of the same type, (2) in the case of any Liberty type vessel will be less than 311/2 per centum of the domestic war cost of vessels of such type, or (3) in the case of a tanker will be less than 50 per centum of the domestic war cost of tankers of the same type. For the purposes of this Act, except section 5, all Liberty vessels shall be considered to be vessels of one and the same type.

(e) "Domestic war cost" as applied to any type of vessel means the average construction cost (without national defense features) as determined by the Commission, of vessels of such type delivered during the calendar year 1944, except in case of any type of vessel the principal deliveries of which were made after the calendar year 1944, there shall be used in lieu of such year 1944 such period of not less than six consecutive calendar months as the Commission shall find to be most representative of war production costs of such type.

(f) "Cessation of hostilities" means the date proclaimed by the President as the date of the cessation of hostilities in the present war, or the date so specified in a concurrent resolution of the two Houses of the Congress, whichever is the earlier.

(g) "Citizen of the United States" includes a corporation, partnership, or association only if it is a citizen of the United States within the meaning of section 2 of the Shipping Act of 1916, as amended. The term "affiliated interest" as used in sections 9 and 10 of this Act includes any person affiliated or associated with a citizen applicant for benefits under this Act who the Commission, pursuant to rules and regulations prescribed hereunder, determines should be so included in order to carry out the policy and purposes of this Act.
SALES OF WAR-BUILT VESSELS TO CITIZENS

Sec. 4. (a) Any citizen of the United States may make application to the Commission to purchase a war-built vessel, under the jurisdiction and control of the Commission, at the statutory sales price. If the Commission determines that the applicant possesses the ability, experience, financial resources, and other qualifications, necessary to enable him to operate and maintain the vessel under normal competitive conditions, and that such sale will aid in carrying out the policies of this Act, the Commission shall sell such vessel to the applicant at the statutory sales price.

(b) At the time of sale, the purchaser shall pay to the Commission at least 25 per centum of the statutory sales price. The balance of the statutory sales price shall be payable in not more than twenty equal annual installments, with interest on the portion of the statutory sales price remaining unpaid, at the rate of 3½ per centum per annum, or shall be payable under such other amortization provisions which permit the purchaser to accelerate payment of the unpaid balance as the Commission deems satisfactory. The obligation of the purchaser with respect to payment of such unpaid balance with interest shall be secured by a preferred mortgage on the vessel sold.

(c) The contract of sale, and the mortgage given to secure the payment of the unpaid balance of the purchase price, shall not restrict the lawful or proper use or operation of the vessel.

CHARTER OF WAR-BUILT VESSELS TO CITIZENS

Sec. 5. (a) Any citizen of the United States and, until July 4, 1946, any citizen of the Commonwealth of the Philippines, may make application to the Commission to charter a war-built dry-cargo vessel, under the jurisdiction and control of the Commission, for bare-boat use. The Commission may, in its discretion, either reject or approve the application, but shall not so approve unless in its opinion the chartering of such vessel to the applicant would be consistent with the policies of this Act. No vessel shall be chartered under this section until sixty days after publication of the applicable prewar domestic cost in the Federal Register under subsection 3 (c) of this Act.

(b) The charter hire for any vessel chartered under the provisions of this section shall be fixed by the Commission at such rate as the Commission determines to be consistent with the policies of this Act, but, except upon the affirmative vote of not less than four members of the Commission, such rate shall not be less than 15 per centum per annum of the statutory sales price (computed as of the date of charter). Except in the case of vessels having passenger accommodations for not less than eighty passengers, rates of charter hire fixed by the Commission on any war-built vessel which differ from the rate specified in this subsection shall not be less than the prevailing world market charter rates for similar vessels for similar use as determined by the Commission.

(c) The provisions of sections 708, 709, 710, 712, and 713, of the Merchant Marine Act, 1936, as amended, shall be applicable to charters made under this section.

SALE OF WAR-BUILT VESSELS TO PERSONS NOT CITIZENS OF THE UNITED STATES

Sec. 6. (a) Any person not a citizen of the United States may make application to the Commission to purchase a war-built vessel (other than a P-2 type or other passenger type and other than a
Application by citizen of Philippines.

Liberty type collier or tanker), under the jurisdiction and control of
the Commission. If the Commission determines—

1) that the applicant has the financial resources, ability, and
experience necessary to enable him to fulfill all obligations with
respect to payment of any deferred portion of the purchase price,
and that sale of the vessel to him would not be inconsistent with
any policy of the United States in permitting foreign sales under
section 9 of the Shipping Act, 1916, as amended; and

2) after consultation with the Secretary of the Navy, that such
vessel is not necessary to the defense of the United States; and

3) that such vessel is not necessary to the promotion and main-
tenance of an American merchant marine described in section 2;
and

4) that for a reasonable period of time, which in the case of
tankers and "C" type vessels shall not end before ninety days
after publication of the applicable prewar domestic cost in the
Federal Register under subsection 3 (c) of this Act, such vessel
has been available for sale at the statutory sales price to citizens
of the United States, or for charter under section 5 to citizens of
the United States, and that no responsible offer has been made by
a citizen of the United States to purchase or charter such vessel;
then the Commission is authorized to approve the application and sell
such vessel to the applicant at not less than the statutory sales price.
In case of application submitted by a citizen of the Commonwealth
of the Philippines, paragraph (4) of this subsection shall not apply.
Notwithstanding paragraph (4) of this subsection, not to exceed ten
"C" type vessels, except C-3's, may be sold to noncitizens at any time
after such date of publication at not less than the statutory sales price.

(b) Notwithstanding any other provision of law, no war-built vessel
shall be sold to any person not a citizen of the United States, except in
accordance with subsection (a), or upon terms or conditions more
favorable than those at which such war-built vessel is offered to a citizen
of the United States, but where the vessel so sold is being transferred
to foreign register and flag, the mortgage securing the unpaid balance
of the purchase price and interest thereon shall contain provisions
according to such mortgage the priorities over other liens and encum-
brances accorded such mortgages on merchant vessels under the laws
of such registry and flag.

ORDER OF PREFERENCES

SEC. 7. (a) In exercising its powers under this Act and under other
provisions of law with respect to the sale and charter of war-built
vessels, the Commission shall give preference to citizen applicants over
citizen applicants, and as between citizen applicants to purchase
and citizen applicants to charter, shall, so far as practicable and consist-
ent with the policies of this Act, give preference to citizen applicants
to purchase. In determining the order of preference between citizen
applicants to purchase or between citizen applicants to charter, the
Commission shall consider, among other relevant factors, the extent
to which losses and requisitions of the applicant's prewar tonnage
have been overcome and shall in all cases, in the sale and charter of a
war-built vessel, give preference in such sale or charter, as the case
may be, to the former owner of such vessel, or to the person for whom
the vessel was constructed but to whom delivery thereof was prevented
by the United States. In determining the order of preference between
citizen applicants to purchase, the Commission shall give prefer-
ence to citizens of the Commonwealth of the Philippines, and in deter-
imining the order of preference between other noncitizen applicants to
purchase shall consider the extent to which losses in prewar tonnage
EXCHANGE OF VESSELS

SEC. 8. (a) The Commission is authorized to acquire, in exchange for an allowance of a credit on the purchase of any war-built vessel under section 4 or any vessel acquired through exchange under subsection (d) of this section—

1. Any vessel owned by a citizen of the United States, other than a vessel purchased under this Act; or
2. Any vessel owned by a foreign corporation, if—
   A. the vessel was constructed in the United States, and has, after December 7, 1941, been chartered to, or otherwise taken for use by, the United States; and
   B. the controlling interest in such corporation is, at the time of acquisition of such vessel hereunder, owned by a citizen or citizens of the United States, and has been so owned for a period of at least three years immediately prior to such acquisition; and
   C. such corporation agrees that the war-built vessel purchased with the use of such credit shall be owned by such citizen or citizens and shall be documented under the laws of the United States.

Such allowance shall not be applied upon the cash payment required under section 4. A war-built vessel shall be deemed a "new vessel" for the purpose of section 511 of the Merchant Marine Act, 1936, as amended, and section 510 (e) of such Act shall be applicable with respect to vessels exchanged under this section to the same extent as applicable to obsolete vessels exchanged under section 510 of such Act.

(b) (1) If, prior to December 31, 1946, the owner of a vessel eligible for exchange under subsection (a) makes a firm offer binding for at least ninety days, to transfer the vessel to the Commission in exchange for an allowance of credit provided in subsection (a), the amount of such allowance shall be the fair and reasonable value of the vessel as determined by the Commission under this section. In making such determination the Commission shall consider: (A) The value of the vessel determined in accordance with the standards of valuation established pursuant to Executive Order 9887 (S. P. R. 14105) as of the date of such offer, (B) any liability of the United States for repair and restoration of the vessel, (C) the utility value of the vessel, (D) the effect of this Act upon the market value of such vessel, and (E) the public interest in promoting exchanges of vessels as a means of rehabilitating and modernizing the American merchant marine. In no event shall the amount of such allowance, in case of dry cargo vessels and tankers, exceed (A) (1) if the vessel or vessels tendered in exchange are of equal or greater dead-weight tonnage than the war-built vessel or vessels being acquired, 33 1/3 centum of the statutory sales price (unadjusted) of the war-built vessel or vessels, or (2) if the vessel or vessels tendered in exchange are of lesser dead-weight tonnage than the war-built vessel or vessels, such proportionate part of 33 1/3 centum of the statutory sales price (unadjusted) of such war-built vessel or vessels as the dead-weight tonnage of such
vessel or vessels tendered in exchange bear to the dead-weight tonnage of such war-built vessel or vessels, or (B) the liability of the United States in connection with the repair or restoration of such vessel under any charter to which the United States is a party, whichever is higher. In the case of passenger vessels tendered in exchange, the amount of the allowance shall not exceed the percentages of statutory sales price computed under (A) (1) and (2) above by gross tons instead of dead-weight tons, or such liability for the repair or restoration of such passenger vessel, whichever is the higher. In any case where the vessel tendered in exchange was acquired from the United States, the exchange allowance under this section shall not exceed the price paid the United States therefor plus the depreciated cost of any improvements thereon. In the case of any vessel tendered in exchange which has been restored to condition by the United States for the purpose of redelivering such vessel to its owner in compliance with the charter of such vessel with the United States, or where, for such restoration a cash allowance has been made to the owner, there shall be deducted from the amount of the allowance of credit for such vessel determined by the Commission under this section, an amount equal to the liability of the United States for such restoration or such cash allowance made to the owner.

(2) If, after such offer is made, and prior to its acceptance, or prior to the acquisition of the vessel, by the Commission, the vessel is lost by reason of causes for which the United States is responsible, then in lieu of paying the owner any amount on account of such loss, the offer shall, for the purposes of subsection (a) and this subsection, be considered as having been accepted and the vessel as having been acquired by the Commission under subsection (a) immediately prior to such loss.

(c) The Commission is also authorized to make available any war-built vessel for transfer in complete or partial settlement of any claim against the United States (1) for just compensation upon requisition for title of any vessel, or (2) for indemnity for the loss of any vessel which was acquired for use by the United States, but only to the extent such vessel is available for sale to the claimant.

(d) In the case of any vessel constructed in the United States after January 1, 1937, which has been taken by the United States for use in any manner, the Commission, if in its opinion the transfer would aid in carrying out the policies of this Act, is authorized to transfer to the owner of such vessel another vessel which is deemed by the Commission to be of comparable type with adjustments for depreciation and difference in design or speed, and to the extent applicable, adjustments with respect to the retained vessel as provided for in section 9, and such other adjustments and terms and conditions, including transfer of mortgage obligations in favor of the United States binding upon the old vessel, as the Commission may prescribe.

ADJUSTMENT FOR PRIOR SALES TO CITIZENS

Sec. 9. (a) A citizen of the United States who on the date of the enactment of this Act—

(1) owns a vessel which he purchased from the Commission prior to such date, and which was delivered by its builder after December 31, 1940; or

(2) is party to a contract with the Commission to purchase from the Commission a vessel, which has not yet been delivered to him; or

(3) owns a vessel on account of which a construction-differential subsidy was paid, or agreed to be paid, by the Commission
under section 504 of the Merchant Marine Act, 1936, as amended, and which was delivered by its builder after December 31, 1940; or

(4) is party to a contract with a shipbuilder for the construction for him of a vessel, which has not yet been delivered to him, and on account of which a construction-differential subsidy was agreed, prior to such date, to be paid by the Commission under section 504 of the Merchant Marine Act, 1936, as amended;

shall, except as hereinafter provided, be entitled to an adjustment in the price of such vessel under this section if he makes application therefor, in such form and manner as the Commission may prescribe, within sixty days after the date of publication of the applicable prewar domestic costs in the Federal Register under section 3(c) of this Act. No adjustment shall be made under this section in respect of any vessel the contract for the construction of which was made after September 2, 1945, under the provisions of title V (including section 504) or title VII of the Merchant Marine Act, 1936, as amended.

(b) Such adjustment shall be made, as hereinafter provided, by treating the vessel as if it were being sold to the applicant on the date of the enactment of this Act, and not before that time. The amount of such adjustment shall be determined as follows:

(1) The Commission shall credit the applicant with the excess of the cash payments made upon the original purchase price of the vessel over 25 per centum of the statutory sales price of the vessel as of such date of enactment. If such payment was less than 25 per centum of the statutory sales price of the vessel, the applicant shall pay the difference to the Commission.

(2) The applicant's indebtedness under any mortgage to the United States with respect to the vessel shall be adjusted.

(3) The adjusted mortgage indebtedness shall be in an amount equal to the excess of the statutory sales price of the vessel as of the date of the enactment of this Act over the sum of the cash payment retained by the United States under paragraph (1) plus the readjusted trade-in allowance (determined under paragraph (7)) with respect to any vessel exchanged by the applicant on the original purchase. The adjusted mortgage indebtedness shall be payable in equal annual installments thereafter during the remaining life of such mortgage with interest on the portion of the statutory sales price remaining unpaid at the rate of 31/2 per centum per annum.

(4) The Commission shall credit the applicant with the excess, if any, of the sum of the cash payments made by the applicant upon the original purchase price of the vessel plus the readjusted trade-in allowance (determined under paragraph (7)) over the statutory sales price of the vessel as of the date of the enactment of this Act to the extent not credited under paragraph (1).

(5) The Commission shall also credit the applicant with an amount equal to interest at the rate of 31/2 per centum per annum (for the period beginning with the date of the original delivery of the vessel to the applicant and ending with the date of the enactment of this Act) on the excess of the original purchase price of the vessel over the amount of any allowance allowed by the Commission on the exchange of any vessel on such purchase; the amount of such credit first being reduced by any interest on the original mortgage indebtedness accrued up to such date of enactment and unpaid. Interest so accrued and unpaid shall be canceled.

(6) The applicant shall credit the Commission with all amounts paid by the United States to him as charter hire for use of the
vessel (exclusive of service, if any, required under the terms of the charter) under any charter party made prior to the date of the enactment of this Act, and any charter hire for such use accrued up to such date of enactment and unpaid shall be canceled; and the Commission shall credit the applicant with the amount that would have been paid by the United States to the applicant as charter hire for bare-boat use of vessels exchanged by the applicant on the original purchase (for the period beginning with date on which the vessels so exchanged were delivered to the Commission and ending with the date of the enactment of this Act).

(7) The allowance made to the applicant on any vessel exchanged by him on the original purchase shall be readjusted so as to limit such allowance to the amount provided for under section 8.

(8) There shall be subtracted from the sum of the credits in favor of the Commission under the foregoing provisions of this subsection the amount of any overpayments of Federal taxes by the applicant resulting from the application of subsection (c)(1), and there shall be subtracted from the sum of the credits in favor of the applicant under the foregoing provisions of this subsection the amount of any deficiencies in Federal taxes of the applicant resulting from the application of subsection (c)(1). If, after making such subtractions, the sum of the credits in favor of the applicant exceeds the sum of the credits in favor of the Commission, such excess shall be paid by the applicant to the Commission. If, after making such subtractions, the sum of the credits in favor of the Commission exceeds the sum of the credits in favor of the applicant, such excess shall be paid by the applicant to the Commission. Upon such payment by the Commission or the applicant, such overpayments shall be treated as having been refunded and such deficiencies as having been paid.

For the purposes of this subsection, the purchase price of a vessel on account of which a construction-differential subsidy was paid or agreed to be paid under section 504 of the Merchant Marine Act, 1936, as amended, shall be the net cost of the vessel to the owner.

(c) An adjustment shall be made under this section only if the applicant enters into an agreement with the Commission binding upon the citizen applicant and any affiliated interest to the effect that—

(1) depreciation and amortization allowed or allowable with respect to the vessel up to the date of the enactment of this Act for Federal tax purposes shall be treated as not having been allowable; amounts credited to the Commission under subsection (b)(6) shall be treated for Federal tax purposes as not having been received or accrued as income; amounts credited to the applicant under subsection (b)(5) and (6) shall be treated for Federal tax purposes as having been received and accrued as income in the taxable year in which falls the date of the enactment of this Act;

(2) the liability of the United States for use (exclusive of service, if any, required under the terms of the charter) of the vessel on or after the date of the enactment of this Act under any charter party shall not exceed 15 per centum per annum of the statutory sales price of the vessel as of such date of enactment; and the liability of the United States under any such charter party for loss of the vessel shall be determined on the basis of the statutory sales price as of the date of the enactment of this Act, depreciated to the date of loss at the rate of 5 per centum per annum; and

(3) in the event the United States, prior to the termination of the existing national emergency declared by the President on
May 27, 1941, uses such vessel pursuant to a taking, or pursuant to a bare-boat charter made, on or after the date of the enactment of this Act, the compensation to be paid to the purchaser, his receivers, and trustees, shall in no event be greater than 15 per centum per annum of the statutory sales price as of such date.

(d) Section 506 of the Merchant Marine Act, 1936, as amended, shall not apply with respect to (1) any vessel which is eligible for an adjustment under this section, or (2) any vessel described in clause (1), (2), (3), or (4) of subsection (a) of this section, the contract for the construction of which is made after September 2, 1945, and prior to the date of enactment of this Act.

LIMITATION ON ELIGIBILITY FOR BENEFITS OF ACT

SEC. 10. No person shall be eligible to purchase or charter a war-built vessel under this Act, or to receive an adjustment under section 9, unless such person makes an agreement with the Commission binding upon such person and any affiliated interest to the effect that the liability of the United States under any charter party or taking for use, made or effected prior to the date of the enactment of this Act, for the loss, on or after such date of enactment and prior to September 3, 1947, of any vessel owned by such person and under charter to the United States (excluding a vessel with respect to which an adjustment is made under section 9) shall be limited to an amount equal to just compensation as of the date of said loss, determined pursuant to existing law, or such amount as may be mutually agreed upon subsequent to the date of the enactment of this Act as just compensation under the provisions of existing law.

NATIONAL DEFENSE RESERVE FLEET

SEC. 11. (a) The Commission shall place in a national defense reserve (1) such vessels owned by it as, after consultation with the Secretary of War and the Secretary of the Navy, it deems should be retained for the national defense, and (2) all vessels owned by it on December 31, 1947, for the sale of which a contract has not been made by that time, except those determined by the Commission to be of insufficient value for commercial and national defense purposes to warrant their maintenance and preservation, and except those vessels, the contracts for the construction of which are made after September 2, 1945, under the provisions of the Merchant Marine Act, 1936, as amended. A vessel under charter on December 31, 1947, shall not be placed in the reserve until the termination of such charter. Unless otherwise provided for by law, all vessels placed in such reserve shall be preserved and maintained by the Commission for the purpose of national defense. A vessel placed in such reserve shall in no case be used for commercial operation, except that any such vessel may be used during any period in which vessels may be requisitioned under section 902 of the Merchant Marine Act, 1936, as amended.

(b) Any war-built vessel may be made available by the Commission to any State maintaining a marine school or nautical branch in accordance with the Act of July 29, 1941 (Public Law 191, Seventy-seventh Congress; 55 Stat. 607).

GENERAL PROVISIONS

the United States shall be prohibited from engaging in the coastwise
trade of the United States while owned by or chartered to such citizen
or citizen successors in interest merely because it was under foreign
registry on or after May 27, 1941, and prior to its sale or charter
under this Act to such citizen, if it is otherwise entitled under the
laws of the United States to engage in such trade.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That in order to remove any apprehension on the part of Naval Reserve officers regarding their opportunities for advancement in event of their transfer to the Regular Navy, it is hereby declared to be the policy of the Congress that in all matters relating to commissioned officers in the Regular Navy there shall be no discrimination whatsoever against officers because of the source from which they entered the Regular Navy, and that no preference shall be given officers by reason of the fact that they entered the Regular Navy from any particular source; and, among other things, that all commissioned officers in the Regular Navy, regardless of the source from which they entered the Regular Navy, shall receive the same treatment with respect to opportunities for (1) promotion or advancement to all grades in the Navy, (2) holding any positions or assignments in the Navy including proportionate representation on selection boards, and (3) attending the Naval War College, postgraduate schools, or other schools, or otherwise receiving advanced or technical training.

(b) Each officer (other than officers appointed or reappointed pursuant to subsection (c)) whose commission is so revoked shall thereupon be discharged from the naval service without advanced pay or allowances.

(c) Each officer above the grade of commissioned warrant officer whose commission is so revoked and who (1) at the time of his appointment under subsection (a) of section 2 held permanent status as a commissioned warrant officer may be reappointed by the President to such permanent status without examination, with the lineal position and other rights and benefits to which he would have been entitled had his service subsequent to reappointment under such subsection (a) been rendered in such permanent status, or (2) at the time of his appointment under subsection (a) of section 2 held permanent status as a warrant or petty officer, may be appointed by the President without examination to permanent commissioned warrant or warrant grade with the same lineal position and other rights and benefits which he would have had or normally would have attained in due course had he not been appointed pursuant to subsection (a) of section 2.

[CHAPTER 142]

AN ACT

To facilitate voting by members of the armed forces and certain others absent from the place of their residence, and to amend Public Law 712, Seventy-seventh Congress, as amended.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Public Law 712, Seventy-seventh Congress, as amended, is amended by striking out titles II, III, and IV, and inserting in lieu thereof the following:

"TITLE II

"RECOMMENDATIONS TO THE STATES

"SEC. 201. The Congress hereby expresses itself as favoring, and recommends to the several States the immediate enactment of, appropriate legislation to enable each person absent from the place of his residence and serving in the armed forces of the United States or in the merchant marine of the United States, or who is a civilian outside the United States officially attached to and serving with the armed forces of the United States, who is eligible to vote in any election district or precinct, to vote by absentee ballot in any primary, special, or general election held in his election district or precinct; and in order to afford ample opportunity for such persons to vote for Federal, State, and local officials and to utilize the absentee balloting procedures of the various States to the greatest extent possible, the following provisions are enacted.

"SEC. 202. (a) It is recommended that the several States, in order to avoid expense, duplication of effort, and loss of time, shall accept, as applications for absentee ballots under such States' absentee balloting laws, as applications for registration under such States' election laws, and as sources of information to implement State absentee balloting laws, the form of post card (when duly executed by a person to whom this title is applicable) provided pursuant to section 209 (a) of this title, as amended, or pursuant to section 203 of this title prior to its amendment.

"(b) It is recommended that the several States waive registration of the persons to whom this title is applicable who, by reason of their service, have been deprived of an opportunity to register.

"(c) It is recommended that the States make provision for persons eligible to register and qualified to vote, who have been honorably discharged from the armed forces too late to register at the time
when, and at the place where, registration is required, to vote at the
election next ensuing after their discharge.

"Sec. 203. (a) It is recommended that the secretary of state of
each of the several States, upon receipt of any such post-card applica-
tion, promptly forward it to the proper county, city, or other election
official or officials in order that the request for an absentee ballot may
be acted upon as expeditiously as possible.

"(b) It is recommended that the several States cooperate, to the
end that county, city, or other election officials be authorized and
instructed, upon receipt of an application made upon such a post
card, to mail promptly to the voter making the application, if legally
permissible under the laws of the State, a suitable absentee ballot,
including therewith a self-addressed envelope for the use of the voter
in returning the ballot and any instructions to govern the use of such
ballot and envelope.

"Sec. 204. (a) It is recommended, so that the envelope in which
the ballot is sent to a person to whom this title is applicable, and
the envelope supplied for the return of the ballot, may be identified
by the Post Office Department and other authorities as carrying an
election ballot, that there be printed across the face of such
envelope two parallel horizontal red bars, each one-quarter inch wide,
extending from one side of the envelope to the other side, with an
intervening space of one-quarter inch, the top bar to be one and
one-quarter inches from the top of the envelope, and with the words
'Official Election Balloting Material—Via Air Mail', or similar
language as prescribed in State law, between the bars; that there
be printed in the upper right corner of each such envelope, in a box,
the words 'Free of U. S. Postage, Including Air Mail'; and that all
printing on the face of each such envelope be in red. It is also
recommended that there be printed in red in the upper left corner
of each State ballot envelope an appropriate inscription or blanks
for return address of sender (State or local election officials, or
voter, as the case may be).

"(b) It is recommended, in order to minimize the possibility of
physical adhesion of State balloting material, that the gummed flap
of the State envelope supplied for the return of the ballot be sepa-
rated by a wax paper or other appropriate protective insert from the
remaining balloting material, and, because such inserts may not prove
completely effective, that there also be included in State voting
instructions a procedure to be followed by absentee voters in instances
of such adhesion of the balloting material, such as a notation of the
facts on the back of any such envelope, duly signed by the voter and
witnessing officer.

"(c) It is recommended, in order to minimize action necessary
to be taken by the voter and to assure legible and proper address,
that each envelope supplied for the return of a State absentee ballot
be preaddressed by State or local election officials insofar as possible.

"(d) It is recommended that the several States, in order to save
postage and to assist in the air transport of absentee voting material
being sent to persons to whom this title is applicable, reduce in size
and weight of paper, as much as possible, envelopes, ballots, and
instructions for voting procedure so that such State balloting unit
will not exceed in weight the total of one ounce and in dimension
four and one-eighth inches by nine and one-half inches.

"Sec. 205. (a) It is recommended that, in the case of States in
which no provision is made, either on the envelope or separately, for
sending with the absentee ballots a printed form to be used by a
voter for the purpose of establishing his legal right to vote, approv-
priate action be taken to have printed and enclosed with absentee ballots mailed in response to applications received on the post cards hereinbefore referred to, a form for the signature and oath or affirmation of the voter; and it is suggested that a form substantially as follows would be appropriate for such purpose:

"OATH OF ELECTOR FOR VOTING IN THE ____________________________ ELECTION TO BE HELD ON ______________, 19__

"I do hereby swear (or affirm) that—
"(1) I am a citizen of the United States;
"(2) The date of my birth was ______________________;
"(3) For ______ years preceding this election my home (not military) residence has been ____________________________;

"(Street and number or rural route) ____________________________
"(City, town, or village) ____________________________
"(County) ____________________________

"(State)

"(4) I am serving (check appropriate blank)—
"(a) in the armed forces of the United States ___________ ( );
"(b) in the merchant marine of the United States ______ ( );
"(c) as a civilian outside the United States officially attached to and serving with the armed forces of the United States ____________________________ ( ); and

"(5) I have not voted and do not intend to vote in this election at any address other than the above; and that I have not received or offered, have not paid, offered, or promised to pay, contributed, offered, or promised to contribute to another, to be paid or used, any money or other valuable thing as a compensation or reward for the giving of a vote at this election, and have not made any promise to influence the giving or withholding of any such vote.

"Voter must write his usual signature here and oath must be administered and attested.

"Subscribed and sworn to before me this ___________ day of __________, 19__

"Commissioned or warrant officer, noncommissioned officer not below the rank of sergeant, or petty officer, or other person authorized to administer and attest this oath, shall write his name here.

"Officer or other person signing above shall print his rank, rating, or title clearly here.

"(b) It is recommended, with respect to oaths required by State law in connection with applying for and voting by State absentee ballot by persons to whom this title is applicable, that the States authorize such oaths to be administered and attested by any commissioned or warrant officer, noncommissioned officer not below the rank of sergeant, or petty officer, in the armed forces of the United States or any member of the merchant marine of the United States designated for this purpose by the Administrator of the War Shipping Administration.

"Sec. 206. (a) It is recommended that there be included in State voting instructions for persons to whom this title is applicable an express instruction, if legally permissible under the laws of the State, to the effect that the absentee voter, in marking his ballot, may use pencil, pen, crayon, or any other suitable method for indicating his
intention, and that States, the existing laws of which would be violated by compliance with such an instruction, cause necessary changes to be made in their election laws.

"(b) It is recommended that State voting instructions be expressed in simple terms and not by use of words of the statute alone.

"Sec. 207. It is recommended that, in States where the absentee ballot will not be available for mailing to persons to whom this title is applicable at least forty-five days prior to any primary, general, or special election, such States cause to be made such changes in the election laws of their States as will lengthen such time.

"Sec. 208. It is recommended that each secretary of state furnish by registered mail to the Secretary of War, the Secretary of the Navy, the Secretary of the Treasury, and the Administrator of the War Shipping Administration, at least ninety days in advance, information as to primary, special, and general elections within the State at which persons to whom this title is applicable may vote by absentee ballot. The information furnished by the secretaries of state should contain substantially the following:

(a) In order to afford an opportunity for persons to whom this title is applicable to vote for Federal, State, and local officials and to utilize State absentee balloting procedures to the greatest extent possible, the Secretary of War, the Secretary of the Navy, the Secretary of the Treasury, and the Administrator of the War Shipping Administration, as may be appropriate, shall cause to be printed an adequate number of post cards for use in accordance with the provisions of this title and shall, wherever practicable and compatible with military or merchant-marine operations, cause such
post cards to be made available to each person absent from the place of his residence and serving in the armed forces of the United States or in the merchant marine of the United States, or who is a civilian outside the United States officially attached to and serving with the armed forces of the United States, for use for any general election at which electors for President and Vice President or Senators and Representatives in Congress are to be voted for, such cards to be made available outside of the United States not later than August 15 prior to the election, and within the United States not later than September 15 prior to the election. JOINT RESOLUTION

April 26, 1946

Whereas there are to be held at Princeton, New Jersey, and at other places, during the academic year beginning September 22, 1946, and ending June 16, 1947, ceremonies, convocations, and conferences commemorating the two-hundredth anniversary of the founding of Princeton University; and

Whereas such ceremonies, convocations, and conferences will be devoted to applying, in consultation with scholars throughout the world, our common skills, knowledge, and wisdom to the reconsideration of the fundamental obligations of higher learning to human society, with a view to contributing to the advancement of the comity of all nations and to the building of a free and peaceful world; and

Whereas, Nassau Hall, for two centuries the traditional center of the university, is intimately associated with the earliest days of the Republic, having been alternately occupied by British and American troops and seriously damaged, and having then become temporarily the seat of the National Government in 1783 upon the removal of the Congress from Philadelphia to Princeton, and having been the site of the reception by Congress of the first properly accredited minister from abroad to the United States of America; and

Whereas graduates of Princeton were signers of the Declaration of Independence; and

Whereas alumni of Princeton played a distinctive part in the drafting and adoption of the Constitution of the United States; James Madison having taken the lead in the calling of the Constitutional Convention and in shaping and procuring the ratification of the document, and more alumni of Princeton than of any other college having been members of the Convention; and

Whereas many Princeton men have served with distinction in the executive, judicial, and legislative branches of the Government of the United States; and

Whereas Princeton has given to the United States of America two great Presidents and to the world two great contributors to the cause of human freedom, namely James Madison and Woodrow Wilson; and

Whereas since its founding Princeton has dedicated itself to the ideals of freedom in thought and in spirit; and

Whereas at the end of its second century and the beginning of its third it has, through its president, trustees, and faculty rededicated itself to such ideals: Therefore be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Government and the people of the United States unite with Princeton University in a
fitting and appropriate observance of the two-hundredth anniversary of its founding.

Sec. 2. There is hereby established a commission to be known as the United States Princeton University Bicentennial Commission (hereinafter referred to as the "Commission") to be composed of fifteen Commissioners, as follows: The President of the United States and four persons to be appointed by him, the President of the Senate and four Members of the Senate to be appointed by the President of the Senate, and the Speaker of the House of Representatives and four Members of the House to be appointed by the Speaker. Any vacancies occurring in the membership of the Commission shall be filled in the same manner in which original appointments to such Commission are made.

Sec. 3. The Commission, on behalf of the United States, shall cooperate with the representatives of Princeton University, the State of New Jersey, and the Borough of Princeton, New Jersey, in the appropriate observance of such anniversary, and shall extend appropriate courtesies to the delegates of foreign universities and other foreign learned bodies, or individuals, attending the celebrations as guests of Princeton University. The Commission is authorized in performing its functions under this section to utilize the services and facilities of the various agencies and instrumentalities of the United States, with the consent of such agencies and instrumentalities.

Sec. 4. The members of the Commission shall serve without compensation. They shall select a chairman and a secretary from among their number, but the President of the United States shall be designated as the honorary chairman of the Commission.

Approved April 26, 1946.

To provide for payment of travel allowances and transportation and for transportation of dependents of members of the military and naval forces, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any member of the military or naval forces who is hereafter separated from active service under conditions other than honorable may be furnished transportation in kind at Government expense from the place of separation from active service to the place at which he entered upon active service or home of record: Provided, That no transportation will be furnished under this section to any person who is in confinement pursuant to sentence of a civil court at the time of separation from active service.

Sec. 2. In lieu of transportation for dependents of personnel of the Army, Navy, Marine Corps, and Coast Guard, or of any of the components thereof authorized under any provision of law, payment at the rate of 4 cents per mile for dependents twelve years of age and over, and 2 cents per mile for dependents under twelve years of age to include dependents five years of age and over, may be made for land travel when such travel shall have been completed: Provided, That prior to July 1, 1946, such payments may be made, under such conditions as the Secretary of War or the Secretary of the Navy, respectively, may prescribe, in advance of actual travel by dependents otherwise entitled to transportation. No payment will be made for dependents less than five years of age. Reimbursement is authorized in the manner prescribed in this section, for travel performed,
in any case where payment for such travel has not theretofore been made.

SEC. 3. The Secretary of War and the Secretary of the Navy, respectively, are authorized to delegate authority to determine the availability of Government transportation for dependents of military and naval personnel to or from stations beyond the continental limits of the United States under any provision of law and such determinations heretofore made by administrative officers shall be deemed sufficient to support payments for transportation of dependents.

SEC. 4. The Secretary of War and the Secretary of the Navy, respectively, are authorized to prescribe regulations for carrying out the provisions of this Act.

SEC. 5. Determinations of dependency and distances for the purpose of this Act, made by the Secretary of War and the Secretary of the Navy, respectively, or such persons as they may designate, shall be conclusive.

SEC. 6. The provisions of section 5 of this Act shall terminate on September 1, 1948.

SEC. 7. In cases involving personnel of the Coast Guard at times when the Coast Guard is not operating as a part of the Navy, the authorities, powers, and functions prescribed for the Secretary of the Navy in sections 2, 3, 4, and 5 of this Act shall be performed by the Secretary of the Treasury in the same manner and under the same conditions as are prescribed herein for the Secretary of the Navy.

TITLE I—COMPENSATION FOR WAR DAMAGE

Sec. 101. (a) There is hereby established a Philippine War Damage Commission (in this title referred to as the “Commission”). The Commission shall consist of three members, to be appointed by the President of the United States, by and with the advice and consent of the Senate. One of the members of the Commission shall be a Filipino. The members of the Commission shall receive compensation at the rate of $12,000 a year. The terms of office of the members of the Commission shall expire at the time fixed in subsection (d) for winding up the affairs of the Commission. A vacancy in the membership of the Commission shall not impair the authority of the remaining two members of the Commission to exercise all of its functions. Vacancies occurring in the membership of the Commission shall be filled in the same manner as in the case of the original selection. Members of the Commission shall receive their necessary traveling and other expenses incurred in connection with their duties as such members, or a per diem allowance in lieu thereof, to be fixed by the Commission without regard to the limitation prescribed in any existing law.

(b) The Commission may, without regard to the civil-service laws or the Classification Act of 1923, as amended, appoint and fix the compensation and allowances of such officers, attorneys, and employees, and may make such expenditures, as may be necessary to carry out its functions. Officers and employees of any other department or agency of the Government may, with the consent of the head of such department or agency, be assigned to assist the Commission in carrying out its functions. The Commission may, with the consent of the head of any other department or agency of the Government, utilize the facilities and services of such department or agency in carrying out the functions of the Commission.

(c) The Commission may prescribe such rules and regulations as are necessary for carrying out its functions, and may delegate functions to any member, officer, or employee of the Commission or of any other department or agency of the United States or of the Commonwealth of the Philippines and shall give public notice of the time when, and the limit of the time within which, claims may be filed, which notice shall be given in such manner as the Commission shall prescribe.

(d) The Commission shall, so far as practicable, give consideration to, but need not await, or be bound by, the recommendations of the Filipino Rehabilitation Commission (created by the Act approved June 25, 1944) with respect to Philippine war damage. The Commission shall wind up its affairs not later than two years after
the expiration of the time for filing claims under this title if possible, but, in no event later than five years from the enactment of this Act.

Sec. 102. (a) The Commission is hereby authorized to make compensation to the extent hereinafter provided on account of physical loss or destruction of or damage to property in the Philippines occurring after December 7, 1941 (Philippine time), and before October 1, 1945, as a result of one or more of the following perils: (1) Enemy attack; (2) action taken by or at the request of the military, naval, or air forces of the United States to prevent such property from coming into the possession of the enemy; (3) action taken by enemy representatives, civil or military, or by the representatives of any government cooperating with the enemy; (4) action by the armed forces of the United States or other forces cooperating with the armed forces of the United States in opposing, resisting or expelling the enemy from the Philippines; (5) looting, pillage, or other lawlessness or disorder accompanying the collapse of civil authority determined by the Commission to have resulted from any of the other perils enumerated in this section or from control by enemy forces: Provided, That such compensation shall be payable only to qualified persons having, on December 7, 1941 (Philippine time), and continuously to and including the time of loss or damage, an insurable interest as owner, mortgagee, lien holder, or pledgee in such property so lost or damaged: Provided further, That any qualified person who acquired any deceased person's interest in any property either (1) as heir, devisee, legatee, or distributee, or (2) as executor or administrator of the estate of any such deceased person for the benefit of one or more heirs, devisees, legatees, or distributees, all of whom are qualified persons, shall be deemed to have had the same interest in such property during such deceased person's lifetime that such deceased person had: Provided further, That no claim shall be approved in an aggregate amount which exceeds whichever of the following amounts, as determined by the Commission, is less: (a) The actual cash value, at the time of loss, of property lost or destroyed and the amount of the actual damage to other property of the claimant which was damaged as a direct result of the causes enumerated in this section; (b) the cost of repairing or rebuilding such lost or damaged property, or replacing the same with other property of like or similar quality: Provided further, That in case the aggregate amount of the claims which would be payable to any one claimant under the foregoing provisions exceeds $500, the aggregate amount of the claims approved in favor of such claimant shall be reduced by 25 per centum of the excess over $500.

(b) When used in this section, the term "qualified person" means—
(1) any individual, who on December 7, 1941 (Philippine time), and continuously to the time of filing claim pursuant to this title, was a citizen of the United States or of the Commonwealth of the Philippines or of the Republic of the Philippines or who, being a citizen of a nation not an enemy of the United States, which nation grants reciprocal war damage payments to American citizens resident in such countries was for five years prior to December 7, 1941, a resident of the Philippines;
(2) any individual, who at any time subsequent to September 16, 1940, and prior to August 14, 1945, served honorably in the armed forces of the United States or of the Commonwealth of the Philippines, or honorably performed "service in the merchant marine" (as defined in the first section of the Act entitled "An Act to provide reemployment rights for persons who leave

Sec. 103. The Commission shall make no payment under the provisions of this title—
(a) to any enemy alien;
(b) to any person who, by a civil or military court having jurisdiction, has been found guilty of collaborating with the enemy, or of any act involving disloyalty to the United States or the Commonwealth of the Philippines;
(c) to any unincorporated association, trust, corporation or sociedad anonima owned or controlled by any of the persons specified in clauses (a) and (b) of this section;
(d) to compensate for any loss of or damage to property which, at the time of loss or damage, was insured against any one or more of the perils specified in section 102 hereof, except to the extent that the loss or damage exceeds the amount of such insurance, whether or not collectible;
(e) to compensate for any loss or damage—
(1) for which the War Department or the Navy Department is authorized to make payment, or
(2) for which compensation or indemnity is otherwise payable, or has been paid, or is authorized to be paid, by the Government of the Commonwealth of the Philippines (Republic of the Philippines), or by the United States Government or by their respective departments, establishments, or agencies,
unless the War Department, Navy Department, respective department, establishment, or agency concerned has declined to pay compensation or indemnity for such loss or damage;
(f) unless the claimant shall file with the Commission, within twelve months after the date on which public notice is given as prescribed in section 101 (c) of this title, a claim in reasonable conformity with the requirements of this title and such reasonable regulations as shall be established by the Commission.

Sec. 104. (a) No claim shall be paid unless approved by the Commission or its authorized representatives, and on account of each claim so approved the Commission may make immediate payment of (1) so much of the approved amount of the claim as does not exceed five hundred dollars or one thousand Philippine pesos, plus (2) such percentage, not in excess of 80 per centum of the remainder of the approved amount of the claim as the Commission shall make applicable to all approved claims, due consideration having been given to the total funds available for distribution. After the time for filing claims has expired, the Commission shall determine the amount of money available for the further payment of claims. Such funds shall be applied pro rata toward the payment of the unpaid balances of the amounts authorized to be paid pursuant to section 102 of this title.
(b) The Commission may, at its option, make payment, in whole or in part, of the amount payable in the case of any claim authorized to be paid under this title by replacing lost, damaged, or destroyed property with other property of like or similar kind. The amount expended for such purpose in any case, including the fair value of property transferred to the claimant, shall be deemed to have been paid to the claimant on account of his claim, and such amount shall in no case exceed the amount authorized to be paid under this title on account of such claim. The Commission is authorized to acquire such property, to have such work done, to make such contracts, and to take such other action as may be necessary for the purposes of this subsection. To accomplish the purposes of this section such surplus property of the United States, wherever located, as the President of the United States by Executive order shall direct, shall be transferred to the Commission. The Commission shall pay to the disposal agency the fair value of the property as agreed to by the Commission and the disposal agency.

(c) All of the provisions of this title shall be subject to the requirement that, to the fullest extent practicable, the Commission shall require that the lost or damaged property be rebuilt, replaced, or repaired before payments of money are actually made to claimants under this title.

Sec. 105. Not later than six months after its organization, and every six months thereafter, the Commission shall make a report to the Congress concerning operations under this title: Provided, That if the Commission determines it is impossible for any reason beyond the control of the claimant, or is impractical to rebuild, replace, or repair the lost or damaged property, the Commission may make payment to the claimant without making said requirement: Provided, however, That, as a condition to the making of such payment, the Commission shall require that the whole of such payment shall be reinvested in such manner as will further the rehabilitation or economic development of the Philippines: And provided further, That nothing in this subsection shall preclude the partial payment of claims as the rebuilding, replacing, or repairing of the property progresses.

Sec. 106. (a) There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the amount of $400,000,000 for the purposes of paying compensation to the extent authorized by this title, and of such sum, not to exceed $4,000,000 shall be available to pay the expenses of the Commission.

(b) Any money or bullion received by the United States from the Japanese Government or the Japanese people by way of reparations or indemnity on account of war losses in the Philippines—

(1) shall be covered into the Treasury of the United States until the value of said money or bullion so covered into the Treasury is equal to the sum of the amounts appropriated for the payment of compensation under this title and the amounts appropriated for carrying out the purposes of title III of this Act;

(2) when the amounts covered into the Treasury under clause (1) are equal to the amounts so appropriated, the excess over the amounts so appropriated shall be used, first, to satisfy in full the balance unpaid of any approved claims under this title; second, toward the payment of any amount by which any claim was reduced under Section 102 (a) hereof; third, toward the satisfaction of any approved claim of the Government of the Commonwealth of the Philippines (or the Republic of the Philippines), its provinces, cities, municipalities, and instrumentalities, not compensated under this Act; and
(3) the balance shall be covered into the Treasury of the United States.

(c) Notwithstanding any other provision of law, any other property received by the United States from the Japanese Government or the Japanese people, whether by way of reparations or restitution on account of war losses in the Philippines, may be transferred, by Executive order of the President of the United States, to the Commission, to be applied in kind, under such regulations as may be adopted by it, to the payment of losses or damages covered by this Act, or in such other manner as the Commission may determine to be necessary to carry out the purposes and policy of this Act.

(d) Nothing in this Act shall prejudice the right of any claimant not covered by this Act to recover damages from the Japanese Government or the Japanese people, by way of reparations or indemnity on account of the war, for losses not, or not fully, compensated for hereunder.

Sec. 107. Whoever, in the Philippines or elsewhere, makes any statement or representation knowing it to be false, or whoever willfully and fraudulently overvalues loss of or damage to property for the purpose of obtaining for himself or for any claimant any compensation pursuant to this title, for the purpose of influencing in any way the action of the Commission with respect to any claim for compensation pursuant to this title, for the purpose of obtaining money, property, or anything of value under this title, shall, upon conviction, be punished by a fine of not more than $5,000 or by imprisonment for not more than two years, or both, and shall not receive any payments or other benefits under this title and, if any payment or benefit shall have been made or granted, the Commission shall take such action as may be necessary to recover the same.

Sec. 108. No remuneration on account of services rendered or to be rendered to or on behalf of any claimant in connection with any claim for compensation pursuant to this title shall exceed 5 per centum of the compensation paid by the Commission on account of such claim. Any agreement to the contrary shall be unlawful and void. Whoever, in the Philippines, or elsewhere, pays or offers to pay, or promises to pay, or receives, on account of services rendered or to be rendered in connection with any claim for compensation hereunder, any remuneration in excess of the maximum permitted by this section, shall be deemed guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than $5,000, or imprisoned for not more than twelve months or both, and, if any such payment or benefit shall have been made or granted, the Commission shall take such action as may be necessary to recover the same, and, in addition thereto, any such claimant shall forfeit all rights under this title.

Sec. 109. Except as lawfully provided in policies of insurance heretofore or hereafter issued by the War Damage Corporation pursuant to subsection (a) of section 5g of the Reconstruction Finance Corporation Act, as amended, the authority herein granted to the Philippine War Damage Commission shall be in lieu of and shall supersede all authority previously conferred on the War Damage Corporation to furnish protection or pay compensation with respect to property situated, at the time of loss or damage, in the Philippines, and the protection authorized to be extended and the compensation authorized to be paid by the Philippine War Damage Commission shall be in lieu of all protection heretofore extended or authorized to be extended by the War Damage Corporation with respect to property situated, at the time of loss or damage, in the Philippines, except to the extent provided in policies of insurance heretofore or
hereafter issued by the War Damage Corporation. The War Damage Corporation is hereby prohibited from providing for or paying compensation for war damage in the Philippines except to the extent provided in its policies of insurance heretofore or hereafter issued in consideration of a premium paid therefor.

Sec. 110. The classes of property enumerated in this section, whether situated in the Philippines or elsewhere, are hereby excluded from protection, compensation, or consideration under this title, and the Commission shall not make any payment, directly or indirectly, on account of loss of or damage to such classes of property:

(3) Intangible property;

(4) Property diverted to the Philippine Islands, by authority of the United States Government or otherwise, as a result of war conditions; and

(5) Property in transit (a) which at the time of loss or damage was insured against war perils, or (b) with respect to which insurance against such perils was available, at the time of loss or damage either at reasonable commercial rates or from the United States Maritime Commission.

Sec. 111. All departments, commissions, offices, agencies, and instrumentalities of the United States Government, upon the written request of the Commission, are authorized to make delivery and conveyance to designated claimants, or to the Commission, of any surplus property of the United States in the Philippines deemed by the Commission to be similar to that for which compensation is requested, or to be suitable for the rebuilding or repair of the property damaged or destroyed. The transfer of such property to such claimants shall be at the fair value of the property as agreed by the Commission and the disposal agency. The Commission shall pay such fair value to the disposal agency.

Sec. 112. The War Damage Corporation is authorized and directed to consult with, and in every manner possible to assist and cooperate with, the Commission, to aid the Commission in its performance of duties hereunder, and to make available to or deliver to the Commission all records, claims, files, and other documents in its possession pertaining to Philippine claims. (b) Unless and until the Congress of the Philippines (in the act of acceptance, or separately) has enacted such legislation as may be necessary to make all the provisions of Parts 2, 3, 4, and 5 of Title III take effect as laws of the Philippines, except (during the period prior to the amendment to the Constitution of the Philippines referred to in subsection (b) of section 402) such provisions of section 341 as are in conflict with such constitution.

SEC. 402. OBLIGATIONS OF PHILIPPINES.
The President of the United States is not authorized by section 401 to enter into such executive agreement unless in the agreement the Government of the Philippines agrees—

(e) That there shall be permitted to enter the Philippines, without regard to any numerical limitations under the laws of the Philippines, in each of the years of a specified period of years, a specified number of citizens of the United States. (a) That upon the taking effect of the agreement the provisions of Title II—

(1) if in effect as laws of the United States at the time the agreement takes effect, shall continue in effect as laws of the United States during the effectiveness of the agreement; or

(2) if not so in effect at the time the agreement takes effect (because suspended under section 502 of Title V) shall take effect and continue in effect as laws of the United States during the effectiveness of the agreement.

(b) That the United States will promptly enact, and keep in effect during the effectiveness of the agreement, such legislation as may be necessary to supplement and implement the provisions of Title II so continued in effect, or so made to take effect, as laws of the United States.

(c) That with respect to quotas on Philippine articles (other than the quotas established in Part 2 of Title II, and other than quotas established in conjunction with quantitative limitations, applicable to products of all foreign countries, on imports of like articles), the United States will not establish any such quota for any period before January 1, 1948; and that, for any part of the period from January 1, 1948, to July 3, 1974, both dates inclusive, it will establish such a quota only if—

(1) the President of the United States, after investigation, finds that such Philippine articles are coming, or are likely to come, into substantial competition with like articles the product of the United States; and

(2) the quota established for any Philippine article for any twelve-month period is not less than the amount determined by the President as the total amount of Philippine articles of such class which (during the twelve months ended on the last day of the month preceding the month in which occurs the date proclaimed by the President as the date of the beginning of the investigation) was entered, or withdrawn from warehouse, in the United States for consumption; or, if the quota is established for any period other than a twelve-month period, is not less than a proportionate amount.

(d) That during the effectiveness of the agreement the United States will not reduce the preference of 2 cents per pound provided in section 2470 of the Internal Revenue Code (relating to processing taxes on coconut oil, etc.) with respect to articles "wholly the production of the Philippine Islands" or articles "produced wholly from materials the growth or production of the Philippine Islands"; except that it may suspend the provisions of subsection (a) (2) of such section during any period as to which the President of the United States, after consultation with the President of the Philippines, finds that adequate supplies of neither copra nor coconut oil, the product of the Philippines, are readily available for processing in the United States.

SEC. 404. TERMINATION OF AGREEMENT.

The President of the United States is not authorized by section 401 to enter into such executive agreement unless it provides—

(a) TERMINATION IN GENERAL.—That the agreement shall have no effect after July 3, 1974; and
(b) Termination by Either Party.—
(1) that the agreement may be terminated by either party at any time, upon not less than five years' notice; and
(2) that if the President of the United States or the President of the Philippines determines and proclaims that the other country has adopted or applied measures or practices which would operate to nullify or impair any right or obligation provided for in such agreement, then the agreement may be terminated upon not less than six months' notice; and
(c) Termination or Suspension by the United States.—
(1) that the President of the United States determines that a reasonable time for the making of the amendment to the Constitution of the Philippines referred to in section 402 (b) has elapsed, but that such amendment has not been made, he shall so proclaim and the executive agreement shall have no effect after the date of such proclamation; and
(2) that if the President of the United States determines and proclaims, after consultation with the President of the Philippines, that the Republic of the Philippines or any of its political subdivisions or the Philippine Government is in any manner discriminating against citizens of the United States or any form of United States business enterprise, then the United States shall have the right to suspend the effectiveness of the whole or any portion of the agreement; and
(3) that if the President of the United States determines and proclaims, after consultation with the President of the Philippines, that the discrimination which was the basis for the suspension under paragraph (2) of this subsection—
(A) has ceased, the suspension effected under paragraph (2) shall end; or
(B) has not ceased after the lapse of a time determined by the President of the United States to be reasonable, then the United States shall have the right to terminate the agreement upon not less than six months' notice.

SEC. 405. EFFECT OF TERMINATION OF AGREEMENT.
Upon the termination of the agreement as provided in section 404, the provisions of Title II shall cease to have effect as laws of the United States.

SEC. 406. INTERPRETATION OF AGREEMENT.
The President of the United States is not authorized by section 401 to enter into such executive agreement unless it provides that the acceptance of the provisions of Titles II and III is on the understanding that the definitions, and provisions in the nature of definitions, contained in section 2 of Title I, shall apply in the interpretation of the provisions so accepted.

SEC. 407. TERMINATION OF AUTHORITY TO MAKE AGREEMENT.
Whenever the President of the United States determines that a reasonable time for the entering into, acceptance and taking effect, of the executive agreement has elapsed, but that such agreement has not taken effect, he shall so proclaim, and thereupon his authority to enter into such executive agreement shall terminate, and the provisions of Title II shall cease to have effect as laws of the United States.

SEC. 408. EFFECTIVE DATE OF AGREEMENT.
When the President of the United States determines that the executive agreement entered into under section 401 has been accepted by the Congress of the Philippines by law and that the Congress of
the Philippines has enacted the legislation the enactment of which is, under section 401, a condition precedent to the taking effect of the agreement, he shall so proclaim, and in his proclamation specify the effective date of the agreement.

TITLE V—MISCELLANEOUS

SEC. 501. SUSPENSION AND TERMINATION OF AGREEMENT IN CASE OF DISCRIMINATION.

(a) Suspension.—If the President of the United States determines, after consultation with the President of the Philippines, that the Republic of the Philippines or any of its political subdivisions or the Philippine Government is in any manner discriminating against citizens of the United States or any form of United States business enterprise, he shall so proclaim, and thereupon the effectiveness of the agreement, or such part thereof as he may in the proclamation specify as necessary in order adequately to protect the interests of the United States, shall be suspended.

(b) Termination of Suspension.—If the President of the United States, after consultation with the President of the Philippines, determines that the discrimination which was the basis for the suspension under subsection (a) of this section has ceased, he shall so proclaim, and thereupon the suspension effected under subsection (a) shall end.

(c) Termination of Agreement.—If the President of the United States, after consultation with the President of the Philippines, determines that such discrimination has not ceased, after the lapse of a time determined by him to be reasonable, he shall so proclaim and give to the Philippine Government notice of the intention of the United States to terminate the agreement.

(d) Laws of the United States.—

(1) In case of suspension.—If the effectiveness of the agreement is suspended under subsection (a) of this section, the provisions of Title II of this Act shall cease to have effect as laws of the United States during the period of the suspension. If the suspension is of the effectiveness of only part of the agreement, then such provisions of Title II as the President may in his proclamation under subsection (a) specify as necessary adequately to protect the interests of the United States, shall cease to have effect as laws of the United States during the period of this suspension.

Ante, p. 143.

(2) In case of termination.—If the agreement is terminated under subsection (c) of this section, the provisions of Title II of this Act shall cease to have effect as laws of the United States.

Ante, p. 143.

SEC. 502. SUSPENSION OF TITLE II.

If the President finds that, during the period after July 3, 1946, and before the taking effect of the executive agreement provided for in Title IV, the Government of the Philippines is not putting into effect, or making every effort to put into effect, to the fullest extent possible under its Constitution, the provisions of Title III of this Act, or is not providing for the allocation of quotas on the basis provided in section 211, 212, or 214, respectively, he shall so proclaim. On the day following the date of such proclamation, such provisions of Title II shall be suspended as he may in the proclamation specify as necessary in order adequately to protect the interests of the United States. Such suspension shall continue until the taking effect of the executive agreement provided for in Title IV, whereupon the suspension shall terminate and the suspended provisions shall again take effect and continue in effect as laws of the United States during the effectiveness of the agreement.
SEC. 503. CUSTOMS DUTIES ON IMPORTATIONS FROM PHILIPPINES.

Articles coming or imported into the United States from the Philippines, and Philippine products coming or imported into the United States, shall, except as otherwise provided with respect to Philippine articles by Title II of this Act during the period such title is in effect—

(1) if entered, or withdrawn from warehouse, in the United States for consumption, during the period from the day after the date of the enactment of this Act to July 3, 1946, both dates inclusive, be subject to the same duties as like articles coming or imported into the United States from foreign countries, except Cuba; and

SEC. 504. QUOTAS ON PHILIPPINE ARTICLES.

(a) Establishment by President.—After the executive agreement referred to in Title IV has taken effect, then whenever the President of the United States, after the investigation by the United States Tariff Commission provided for in subsection (d), finds, with respect to any Philippines articles (other than those for which quotas are established by Part 2 of Title II), that they are coming, or likely to come, into substantial competition with like articles which are the product of the United States, he shall so proclaim, and in his proclamation shall establish the total amount of such Philippine articles which may in each of specified periods be entered, or withdrawn from warehouse, in the United States for consumption. If he finds that the allocation of any quota so established is necessary to make the application of the quota just and reasonable between the United States and the Philippines, he shall, in such proclamation or a subsequent proclamation, provide the basis for such allocation.

(b) Maximum and Minimum Quotas.—No quota shall be established under subsection (a), with respect to a Philippine article, which is greater than the amount of such article which in each of such specified periods the President determines may be so entered or withdrawn from warehouse without coming into substantial competition with like articles which are the product of the United States; except that in no case shall the quota be less than the minimum amount provided in that portion of such executive agreement which sets forth the provisions of section 403 (c) (2) of this Act.

(c) Duration of Quotas.—Any quota established pursuant to this section shall become effective at such time as the President shall designate (but not before January 1, 1948), and shall continue in effect until the President, after investigation, finds and proclaims that the conditions which gave rise to the establishment of such quota no longer exist, but no such quota shall continue in effect after the termination of the executive agreement provided for in Title IV.

(d) Investigations by Tariff Commission.—The United States Tariff Commission shall at the request of the President, upon resolution of either House of Congress or concurrent resolution of both Houses of Congress, upon its own motion, or when in its judgment there is good reason therefor, upon application of any interested party, make an investigation to ascertain (1) whether imports of a Philippine article (other than an article for which a quota is established by Part 2 of Title II) are coming, or are likely to come, into substantial competition with like articles which are the product of the United States; (2) what is the greatest amount of such article which may be entered,
or withdrawn from warehouse, in the United States for consumption, without coming into substantial competition with like articles which are the product of the United States; and (3) the total amount of such article which (during the twelve months ended on the last day of the month preceding the month in which occurs the date of the beginning of the investigation) was entered, or withdrawn from warehouse, in the United States for consumption. During the course of the investigation the Commission shall hold a public hearing, of which reasonable public notice shall be given and at which parties interested shall be afforded reasonable opportunity to be present, to produce evidence, and to be heard. The Commission shall give precedence to such investigations. The Commission shall report the results of its investigations to the President, and shall send copies of such report to each House of the Congress.

(b) Suspension of Section 2470 (a) (2) of Internal Revenue Code.—Whenever the President, after consultation with the President of the Philippines, finds that adequate supplies of neither copra nor coconut oil, the product of the Philippines, are readily available for processing in the United States, he shall so proclaim, and after the date of such proclamation the provisions of section 2470 (a) (2) of the Internal Revenue Code shall be suspended until the expiration of 30 days after he proclaims that, after consultation with the President of the Philippines, he has found that such adequate supplies are so readily available.

"DISPOSITIONS TO VETERANS

"Sec. 16. Disposals of surplus property (except real property) to veterans under this subsection shall be given priority over all other disposals of property provided for in this Act except transfers to Government agencies under section 12.

"(b) Notwithstanding the provisions of section 12 of this Act, the Administrator may cause to be set aside or otherwise to be made available quantities and types of any surplus property, except real property, which he determines to be appropriate for exclusive disposal to veterans for their own personal use, and to enable them to establish and maintain their own small business, professional, or agricultural enterprises. The Administrator shall prescribe regulations designed to achieve the equitable distribution of such surplus property among veterans. In selecting any types or quantities of surplus property for disposal in accordance with the provisions of this subsection, the Administrator shall give due consideration to the availability of adequate facilities for and the costs of the distribution of such property. The Administrator shall from time to time cause to be compiled and widely publicized information as to the types and quantities of such surplus property which has or will become available within a given period of time for exclusive disposal to veterans in accordance with the provisions of this subsection.

"(c) The Administrator shall prescribe a reasonable time of not less than 15 days after public notice during which property offered to veterans under this section shall be held for disposal to them."

Sec. 2. Section 12 (a) of the Surplus Property Act of 1944 is amended to read as follows:

"(a) It shall be the duty of the Administrator to facilitate the transfer of surplus property from one Government agency to other Government agencies for their own use and not for transfer or disposition; and the transfer of surplus property under this section shall be given priority over all other disposals provided for in this Act, except disposals to veterans of property reserved exclusively for veterans under subsection (b) of section 16 of this Act. The Administrator shall prescribe a reasonable time within which Government agencies shall exercise the priority provided by this subsection, but the time so fixed shall not exceed twenty days from the time public notice is given of the availability of the surplus property for disposal to Government agencies."

“(d) Notwithstanding the provisions of section 34 (a) of this Act,
no Government agency may transfer any property to any other Gov-

authority of any law approved prior to June 22, 1944. Any disposal
agency may transfer surplus property to a Government agency with-
out reimbursement or transfer of funds whenever a transfer on such
terms by the owning agency (by which such property was declared
surplus) would be authorized by any law approved subsequent to
June 21, 1944, to be made to the Government agency desiring such
property.”

Sect. 5. Section 13 (f) of the Surplus Property Act of 1944 is
amended to read as follows:

(2) “Airport” means any area of land or water which is used, or intended for use, for the landing and take-off of aircraft, and any appurtenant areas which are used, or intended for use, for airport buildings or other airport facilities or rights-of-way, together with all airport buildings and facilities located thereon.

(3) “Airport development” means (A) any work involved in constructing, improving, or repairing a public airport or portion thereof, including the construction, alteration, and repair of airport administrative buildings and the removal, lowering, relocation, and marking and lighting of airport hazards, and (B) any acquisition of land or of any interest therein, or of any easement through or other interest in air space, which is necessary to permit any such work or to remove or mitigate, or prevent or limit the establishment of, airport hazards; but such term does not include the construction, alteration, or repair of airport hangars.

(4) “Airport hazard” means any structure or object of natural growth located on or in the vicinity of a public airport, or any use of land near such airport, which obstructs the air space required for the flight of aircraft in landing or taking off at such airport or is otherwise hazardous to such landing or taking off of aircraft.

(5) “Project” means a project for the accomplishment of airport development with respect to a particular airport.

(6) “Project costs” means any costs involved in accomplishing a project under this Act, including those of making field surveys, preparation of plans and specifications, supervision and inspection of construction work, procurement of the accomplishment of such work by contract, and acquisition of land or interests therein or easements through or other interests in air space, and also including administrative and other incidental costs incurred specifically in connection with the accomplishment of a project, and which would not have been incurred otherwise.

(7) “Public agency” means the United States Government or an agency thereof; a State, the Territory of Alaska, the Territory of Hawaii, or Puerto Rico, or an agency of any of them; a municipality or other political subdivision; or a tax-supported organization.

(12) "State" means a State of the United States or the District of Columbia.

Airport Classifications

(b) For purposes of this Act, a project shall be considered one for development of an airport of a certain class if upon completion of the airport development proposed, the airport so developed would be properly classifiable as of that class according to the airport classification standards of the Administrator stated in Civil Aeronautics Administration Bulletin "Airport Design" dated April 1, 1944.

NATIONAL AIRPORT PLAN

Formulation of Plan

SEC. 3. (a) The Administrator is hereby authorized and directed to prepare, and revise annually, a national plan for the development of public airports in the United States, including the Territory of Alaska, the Territory of Hawaii, and Puerto Rico. Such plan shall specify, in terms of general location and type of development, the projects considered by the Administrator to be necessary to provide a system of public airports adequate to anticipate and meet the needs of civil aeronautics. In formulating and revising such plan, the Administrator shall take into account the needs of both air commerce and private flying, the probable technological developments in the science of aeronautics, the probable growth and requirements of civil aeronautics, and such other considerations as he may deem appropriate, and shall, to the extent feasible, consult, and give consideration to the views and recommendations of, the Civil Aeronautics Board, the States, the Territories, and Puerto Rico, and their political subdivisions, and shall, to the extent feasible, consult, and give consideration to the views and recommendations of, the Federal Communications Commission, and shall make all reasonable efforts to cooperate with that Commission for the purpose of eliminating, preventing, or minimizing airport hazards caused by construction or operation of any radio station. In carrying out this section the Administrator is authorized to make such surveys, studies, examinations, and investigations as he may deem necessary.

Consultation with War and Navy Departments

(b) In carrying out this section the Administrator shall also consider the views and recommendations of the War and Navy Departments to the end that the airport development included in such plan may be as useful for national defense as is feasible, and shall ascertain from such Departments the extent to which military and naval airports and airport facilities will be available for civil use. The War and Navy Departments shall consider the views and recommendations of the Administrator to the end that military and naval airports and airport facilities may be made available for civil use to such extent as is feasible.

Act, the establishment of a Nation-wide system of public airports adequate to meet the present and future needs of civil aeronautics, the Administrator is authorized, within the limits of available appropriations made therefor by the Congress, to make grants of funds to sponsors for airport development as hereinafter provided.

**APPROPRIATIONS**

**Appropriation for Preliminary Expenses**

**SEC. 5.** (a) In addition to amounts hereinafter authorized to be appropriated for administrative expenses, the sum of $3,000,000 is hereby authorized to be appropriated immediately upon the enactment of this Act for expenses of preliminary planning and surveys incident to the initiation of the airport program provided for by this Act, including administrative expenses, which sum shall remain available until expended.

**Annual Appropriations for Projects in States**

(b) For the purpose of carrying out this Act with respect to projects in the several States, annual appropriations amounting in the aggregate to $500,000,000 are hereby authorized to be made to the Administrator over a period of seven fiscal years, beginning with the fiscal year ending June 30, 1947. The appropriation for any such fiscal year shall not exceed $100,000,000 and shall remain available until June 30, 1953, unless sooner expended. Not to exceed 5 per centum of any such annual appropriation, as specified in the Act making such appropriation, shall be available to the Administrator for necessary planning and research and for administrative expenses incident to the administration of this Act in the several States; except that if 5 per centum of the appropriation for any fiscal year is less than $3,500,000, or if there is no appropriation for such fiscal year, not to exceed $3,500,000 in the aggregate may be made available to the Administrator, for such fiscal year, for such planning and research and administrative expenses. Any amounts made available to the Administrator for such planning and research and administrative expenses shall be deducted for purposes of determining the amounts available for grants for projects in the several States.

**Annual Appropriations for Projects in Alaska, Hawaii, and Puerto Rico**

(c) For the purpose of carrying out this Act with respect to projects in the Territories of Alaska and Hawaii, and in Puerto Rico, annual appropriations amounting in the aggregate to $20,000,000 are hereby authorized to be made to the Administrator over a period of seven fiscal years beginning with the fiscal year ending June 30, 1947. The appropriation for any such fiscal year shall remain available until June 30, 1953, unless sooner expended. Not to exceed 5 per centum of any such annual appropriation, as specified in the Act making such appropriation, shall be available to the Administrator for necessary planning and research and for administrative expenses incident to the administration of this Act with respect to projects in the Territories of Alaska and Hawaii, and in Puerto Rico; and the amount so available shall be deducted from such appropriation for purposes of determining the amount thereof available for grants for projects therein. Of the total amount available for such grants, 50 per centum shall be available for projects in the Territory of Alaska,
25 per centum shall be available for projects in the Territory of Hawaii, and 25 per centum shall be available for projects in Puerto Rico.

Administrative Expenses

(d) As used in this section, the term "administrative expenses" includes expenses under this Act of the character specified in section 204 of the Civil Aeronautics Act of 1938, as amended (U. S. C., 1940 edition, title 49, sec. 424).

DISTRIBUTION OF FUNDS AVAILABLE FOR PROJECTS IN STATES

Apportionment of Funds

Sec. 6. (a) As soon as possible after any appropriation is made under section 5 (b), 75 per centum of the amount thereof available for grants for projects in the several States shall be apportioned by the Administrator among the several States, one-half in the proportion which the population of each State bears to the total population of all the States, and one-half in the proportion which the area of each State bears to the total area of all the States. All sums so apportioned for a State shall be available only to pay the United States share of the allowable project costs of approved projects located in that State, or sponsored by that State or some public agency thereof but located in an adjoining State. Upon making an apportionment as provided in this subsection, the Administrator shall inform the executive head of each State, and any public agency which has requested such information, as to the sums apportioned for each State. As used in this subsection the term "population" means the population according to the latest decennial census of the United States and the term "area" includes both land and water.

Discretionary Fund

(b) (1) All moneys appropriated under section 5 (b) which are available for grants for projects in the several States, and which are not apportioned as provided in subsection (a) of this section, shall constitute a discretionary fund.

(2) The moneys in such discretionary fund shall be available to pay the United States share of the allowable project costs of such approved projects in the several States as the Administrator may deem most appropriate for carrying out the national airport plan, regardless of the States in which they are located. The Administrator shall give consideration, in determining the projects for which the moneys in such fund are to be so used, to the existing airport facilities in the several States and to the need for or lack of development of airport facilities in the several States.

(3) The moneys in such discretionary fund shall also be available to pay the United States share of the allowable project costs of such approved projects in national parks and national recreation areas, national monuments, and national forests, sponsored by the United States or any agency thereof, as the Administrator may deem appropriate for carrying out the national airport plan; but no other funds appropriated under authority of this Act shall be available for such purpose. The sponsor's share of the project costs of any such approved project shall be paid only out of funds contributed to the sponsor for the purpose of paying such costs (receipt of which funds and their use for this purpose is hereby authorized) or appropriations specifically authorized therefor.
AVAILABILITY OF FUNDS FOR PROJECTS IN ALASKA, HAWAII, AND PUERTO RICO

SEC. 7. All funds available for grants for projects in the Territory of Alaska, in the Territory of Hawaii, or in Puerto Rico, respectively, shall be available to pay the United States share of the allowable project costs of such approved projects therein as the Administrator may deem most appropriate for carrying out the national airport plan.

CONDITION PRECEDENT TO DEVELOPMENT OF LARGER AIRPORTS

SEC. 8. At least two months prior to the close of each fiscal year, the Administrator shall submit to the Congress a request for authority to undertake during the next fiscal year those of the projects for the development of class 4 and larger airports, included in the then current revision of the national airport plan formulated by him under this Act, which, in his opinion, should be undertaken during that fiscal year, together with an estimate of the Federal funds required to pay the United States share of the allowable project costs of such projects. In determining which projects to include in such a request, the Administrator shall consider, among other things, the relative aeronautical need for and urgency of the projects included in the plan and the likelihood of securing satisfactory sponsorship of such projects. In granting any funds that thereafter may be appropriated to pay the United States share of allowable project costs during the next fiscal year, the Administrator may consider such appropriation as granting the authority requested unless a contrary intent shall have been manifested by the Congress by law or by concurrent resolution, and no such grants shall be made unless so authorized.

SUBMISSION AND APPROVAL OF PROJECTS

Submission

SEC. 9. (a) Subject to the provisions of subsections (b) and (c) of this section, any public agency, or two or more public agencies acting jointly, may submit to the Administrator a project application in such form, and containing such supporting information, as may be prescribed by the Administrator and setting forth the airport development proposed to be undertaken. No project application shall propose airport development other than that included in the then current revision of the national airport plan formulated by the Administrator under this Act, and all such proposed development shall be in accordance with standards established by the Administrator, including standards for site location, airport layout, grading, drainage, seeding, paving, lighting, and safety of approaches.

Applications by Public Agencies Whose Powers Are Limited by State Law

(b) Nothing in this Act shall authorize the submission of a project application by any municipality or other public agency which is subject to the law of any State if the submission of such project application by such municipality or other public agency is prohibited by the law of such State.

Applications by Federal Agencies

(c) Nothing in this Act shall authorize the submission of a project application by the United States or any agency thereof, except in the case of a project in the Territory of Alaska, the Territory of Hawaii, or Puerto Rico, or in a national park or national recreation area, a national monument, or a national forest.
(d) All such projects shall be subject to the approval of the Administrator, which approval shall be given only if, at the time of approval, funds are available for payment of the United States share of the allowable project costs, and only if he is satisfied that the project will contribute to the accomplishment of the purposes of this Act, that sufficient funds are available for that portion of the project costs which is not to be paid by the United States under this Act, that the project will be completed without undue delay, that the public agency or public agencies which submitted the project application have legal authority to engage in the airport development as proposed, and that all project sponsorship requirements prescribed by or under the authority of this Act have been or will be met. No project shall be approved by the Administrator with respect to any airport unless a public agency holds good title, satisfactory to the Administrator, to the landing area of such airport or the site thereof, or gives assurance satisfactory to the Administrator that such title will be acquired.

(e) Project applications shall be matters of public record in the office of the Administrator. Any public agency, person, association, firm, or corporation having a substantial interest in the disposition of any application by the Administrator may file with the Administrator a memorandum in support of or in opposition to such application; and any such agency, person, association, firm, or corporation shall be accorded, upon request, a public hearing with respect to the location of any airport the development of which is proposed. The Administrator is authorized to prescribe regulations governing such public hearings, and such regulations may prescribe a reasonable time within which requests for public hearings shall be made and such other reasonable requirements as may be necessary to avoid undue delay in disposing of project applications.

UNITED STATES SHARE OF PROJECT COSTS

General Provision

Sec. 10. (a) Except as provided in subsections (b), (c), and (d) of this section, the United States share payable on account of any approved project under this Act shall be—

(1) in the case of a project for the development of a class 3 or smaller airport, 50 per centum of the allowable project costs of the project;

(2) in the case of a project for the development of a class 4 or larger airport, such portion of the allowable project costs of the project (not to exceed 50 per centum) as the Administrator may deem appropriate for carrying out the provisions of this Act.

Projects in Public Land States

(b) In the case of any State containing unappropriated and unreserved public lands and nontaxable Indian lands (individual and tribal) exceeding 5 per centum of the total area of all lands therein, the United States share under subsection (a) (1), and the maximum United States share under subsection (a) (2), shall be increased by whichever is the smaller of the following percentages thereof: (1) 25 per centum, or (2) a percentage equal to one-half the percentage that the area of all such lands in such State is of its total area.
Projects in Alaska

(c) The United States share payable on account of any approved project in the Territory of Alaska shall be such portion of the allowable project costs of the project (not less than 50 per centum in the case of a class 3 or smaller airport, and not to exceed 75 per centum in the case of an airport of any class) as the Administrator may deem appropriate for carrying out the provisions of this Act.

Acquisitions of Land and Interests in Air Space

(d) To the extent that the project costs of an approved project represent the cost of acquiring land or interests therein or easements through or other interests in air space, the United States share (1) in the case of a project for the development of a class 3 or smaller airport, shall be 25 per centum of the allowable costs of such acquisition, and (2) in the case of a project for the development of a class 4 or larger airport, shall be not to exceed 25 per centum of the allowable costs of such acquisition.

PROJECT SPONSORSHIP

Sec. 11. As a condition precedent to his approval of a project under this Act, the Administrator shall receive assurances in writing, satisfying to him, that—

1. the airport to which the project relates will be available for public use on fair and reasonable terms and without unjust discrimination;

2. such airport and all facilities thereon or connected there-with will be suitably operated and maintained, with due regard to climatic and flood conditions;

3. the aerial approaches to such airport will be adequately cleared and protected by removing, lowering, relocating, marking, or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards;

4. all the facilities of the airport developed with Federal aid and all those usable for the landing and take-off of aircraft will be available to the United States for use by military and naval aircraft in common with other aircraft at all times without charge, except, if the use by military and naval aircraft shall be substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining the facilities so used;

5. the airport operator or owner will furnish to any civil agency of the Government, without charge (except for light, heat, janitor service, and similar facilities and services at the reasonable cost thereof), such space in airport buildings as may be reasonably adequate for use in connection with any air traffic control activities, or weather-reporting activities and communications activities related to air traffic control, which such agency may deem it necessary to establish and maintain at the airport;

6. all project accounts and records will be kept in accordance with a standard system of accounting prescribed by the Administrator after consultation with appropriate public agencies;

7. the airport operator or owner will submit to the Administrator such annual or special airport financial and operations reports as the Administrator may reasonably request; and

8. the airport and all airport records will be available for inspection by any duly authorized agent of the Administrator upon reasonable request.
To insure compliance with this section, the Administrator shall prescribe such project sponsorship requirements, consistent with the terms of this Act, as he may deem necessary. Among other steps to insure such compliance the Administrator is authorized to enter into contracts with public agencies, on behalf of the United States.

**GRANT AGREEMENTS**

**SEC. 12.** Upon approving a project the Administrator, on behalf of the United States, shall transmit to the sponsor or sponsors of the project an offer to pay the United States share of the allowable project costs of such project. Any such offer shall be made upon such terms, and subject to such conditions, as the Administrator may deem necessary to meet the requirements of this Act and the regulations prescribed thereunder. Each such offer shall state a definite amount as the maximum obligation of the United States payable from funds appropriated under authority of this Act, and shall stipulate the obligations to be assumed by the sponsor or sponsors of the project. If and when any such offer is accepted in writing by the sponsor or sponsors to which it is made, such offer and acceptance shall comprise a grant agreement constituting an obligation of the United States and of the sponsor or sponsors so accepting, and thereafter the amount stated in the accepted offer as the maximum obligation of the United States under such grant agreement shall not be increased. Unless and until such a grant agreement has been executed with respect to a project, the United States shall not pay, nor be obligated to pay, any portion of the project costs which have been or may be incurred in carrying out that project.

**ALLOWABLE PROJECT COSTS**

**SEC. 13.** Except as provided in section 14, the United States shall not pay, or be obligated to pay, from amounts appropriated to carry out the provisions of this Act, any portion of a project cost incurred in carrying out a project unless the Administrator has first determined that such cost is allowable. A project cost shall be allowable if—

1. it was a necessary cost incurred in accomplishing airport development in conformity with approved plans and specifications for an approved project and with the terms and conditions of the grant agreement entered into in connection with such project;
2. it was incurred subsequent to the execution of the grant agreement with respect to the project, and in connection with airport development accomplished under such project after the execution of such grant agreement: Provided, however, That the allowable costs of a project may include any necessary costs of formulating the project (including those of field surveys and the preparation of plans and specifications, including costs of acquiring land or interests therein or easements through or other interests in air space, and including any necessary administrative or other incidental costs incurred by the sponsor specifically in connection with the accomplishment of the project, which would not have been incurred otherwise) which were incurred subsequent to the enactment of this Act; and
3. it is reasonable in amount, in the opinion of the Administrator: Provided, That if the Administrator determines that a project cost is unreasonable in amount, he shall allow, as an allowable project cost under this section, only such amount of such
Auditing.

The Administrator is authorized to prescribe such regulations, including regulations with respect to the auditing of project costs, as he may deem necessary to effectuate the purposes of this section.

PAYMENTS

SEC. 14. The Administrator, after consultation with the sponsor or sponsors with which a grant agreement has been entered into, shall determine at what times, and in what amounts, payments shall be made under this Act. The aggregate of such payments at any time with respect to a particular project shall not exceed a percentage of the project costs of the airport development which has been performed up to that time (and which the sponsor or sponsors to which the payments are to be made certify to have been performed in accordance with the approved plans and specifications for such project), equal to the percentage of the allowable project costs of the project determined to be the United States share of such costs; and if the Administrator shall determine at any time that the aggregate of such payments exceeds the United States share of the allowable project costs of such project the United States shall be entitled to recover such excess. Such payments shall be made to such official or officials or depository, authorized by law to receive public funds, as may be designated by the sponsor or sponsors entitled to such payments.

PERFORMANCE OF CONSTRUCTION WORK

Regulations of the Administrator

SEC. 15. (a) The construction work on any approved project shall be subject to inspection and approval by the Administrator and in accordance with regulations prescribed by him. Such regulations shall require such cost and progress reporting by the sponsor or sponsors of such project as the Administrator shall deem necessary. No such regulation shall have the effect of altering any contract in connection with any project entered into without actual notice of the regulation.

Minimum Rates of Wages

(b) All contracts for work on projects approved under this Act which involves labor shall contain provisions establishing minimum rates of wages, to be predetermined by the Secretary of Labor, which contractors shall pay to skilled and unskilled labor, and such minimum rates shall be stated in the invitation for bids and shall be included in proposals or bids for the work.

Other Provisions as to Labor

(c) All contracts for work on projects approved under this Act which involves labor shall contain such provisions as are necessary to insure (1) that no convict labor shall be employed; and (2) that in the employment of labor (except in executive, administrative, and supervisory positions), preference shall be given, where they are qualified, to individuals who have served as persons in the military service of the United States (as defined in section 101 (1) of the Soldiers' and Sailors' Civil Relief Act of 1940), and who have been honorably discharged from such service: Provided, That such preference shall apply only where such labor is available and qualified to perform the work to which the employment relates.
USE OF GOVERNMENT-OWNED LANDS

Requests for Use

SEC. 16. (a) Whenever the Administrator determines that use of any lands owned or controlled by the United States is reasonably necessary for carrying out a project under this Act, or for the operation of any public airport, he shall file with the head of the department or agency having control of such lands a request that such property interest therein as he may deem necessary be conveyed to the public agency sponsoring the project in question or owning or controlling the airport. Such property interest may consist of the title to or any other interest in land or any easement through or other interest in air space.

Making of Conveyances

(b) Upon receipt of a request from the Administrator under this section, the head of the department or agency having control of the lands in question shall determine whether the requested conveyance is inconsistent with the needs of the department or agency, and shall notify the Administrator of his determination within a period of four months after receipt of the Administrator's request. If such department or agency head determines that the requested conveyance is not inconsistent with the needs of that department or agency, such department or agency head is hereby authorized and directed, with the approval of the President and the Attorney General of the United States, to perform any acts and to execute any instruments necessary to make the conveyance requested; but each such conveyance shall be made on the condition that the property interest conveyed shall automatically revert to the United States in the event that the lands in question are not developed, or cease to be used, for airport purposes.

REIMBURSEMENT FOR DAMAGE BY FEDERAL AGENCIES TO PUBLIC AIRPORTS

Submission and Determination of Claims

SEC. 17. (a) Reimbursement shall be made to public agencies, as provided in this section, for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency. The Administrator is authorized on behalf of the United States to consider, ascertain, adjust, and determine in accordance with regulations he shall prescribe pursuant to this section, any claim submitted by any public agency for reimbursement of the cost of necessary rehabilitation or repair of a public airport, under the control or management of such public agency, substantially damaged by any Federal agency.

Certification of Claims to Congress

(b) Such amount as may be found to be due to any claimant under this section shall be certified by the Administrator to Congress as a claim against the United States, and appropriations for payment of such claims are hereby authorized to be made. Such certification shall include a brief statement of the character of each claim, the amount claimed, and the amount allowed.

Limitation on Submission of Claims

(c) No claim shall be considered by the Administrator pursuant to this section unless such claim has been presented to him within six months after the occurrence of the damage upon which the claim
is based, except that in case of damage caused by operations of a military nature during time of war such notice may be filed within sixty days after termination of the war.

REPORTS TO CONGRESS

Sec. 18. On or before the third day of January of each year the Administrator shall make a report to the Congress describing his operations under this Act during the preceding fiscal year, including detailed statements of the airport development accomplished, the status of each project undertaken, the allocation of appropriations, and itemized statements of expenditures and receipts, and setting forth his recommendations, if any, for legislation amending or supplementing this Act.

FALSE STATEMENTS

Sec. 19. Any officer, agent, or employee of the United States, or any officer, agent, or employee of any public agency, or any person, association, firm, or corporation who shall knowingly make any false statement, false representation, or false report as to the character, quality, quantity, or cost of the material used or to be used, or the quantity or quality of the work performed or to be performed, or the costs thereof, in connection with the submission of plans, maps, specifications, contracts, or estimates of project costs for any project submitted to the Administrator for approval under this Act or shall knowingly make any false statement, false representation, or false report or claim for work or materials for any project approved by the Administrator under this Act, or shall knowingly make any false statement or false representation in any report required to be made under this Act, with the intent to defraud the United States shall, upon conviction thereof, be punished by imprisonment for not to exceed five years or by a fine of not to exceed $10,000, or by both such fine and imprisonment.

EXISTING AIRPORT PROGRAMS

Sec. 20. Nothing in this Act shall affect the carrying out of the program for the development of public landing areas necessary for national defense, authorized by the Department of Commerce Appropriation Act, 1946, or the program for the development of civil landing areas, authorized by the First Supplemental National Defense Appropriation Act, 1944, which programs shall be additional to the Federal-aid airport program authorized by this Act.

Not less than once every two years the Apprenticeship Council shall make a report through the Commissioners of its activities and findings to the Congress and to the public.

SEC. 5. The Director, under the supervision of the Secretary of Labor and with the advice and guidance of the Apprenticeship Council, is authorized to administer the provisions of this Act in cooperation with the Apprenticeship Council and local joint trade apprenticeship committees, to set up conditions and training standards for apprentices, which conditions or standards shall in no case be lower than those prescribed by this Act; to act as secretary of the Apprenticeship Council and of joint trade apprenticeship committees; to approve, if, in his opinion, approval is for the best interest of the apprentice, any apprentice agreement which meets the standards established by or in accordance with this Act; to terminate or cancel any apprentice agreement in accordance with the provisions of such agreement; and to perform such other duties as are necessary to carry out the intent of this Act: Provided, That the administration and supervision of related and supplemental instruction for apprentices, coordination of the instruction with job experiences, and the selection and training of teachers and coordinators for such instruction shall be the responsibility of the District Board of Education.

SEC. 6. Local joint trade apprenticeship committees in any trade or group of trades may be approved by the Apprenticeship Council. Such apprenticeship committees shall be composed of an equal number of employer and employee representatives appointed by the groups or organizations they represent, or the committee may consist of the employer and not less than two representatives from the recognized bargaining agency. In a trade or group of trades in which there is no bona fide employee organization, the Apprenticeship Council may appoint a joint trade apprenticeship committee from persons known to represent the interests of employers and of employees, or the council may act itself as such joint committee, Subject to the review of the council, and in accordance with standards established by or under authority of this Act, joint trade apprenticeship committees may set up standards to govern the training of apprentices and give such aid as may be necessary in effectuating such standards.

SEC. 7. The term “apprentice,” as used herein, shall mean a person at least sixteen years of age who has entered into a written agreement, hereinafter called an apprenticeship agreement, with an employer, an association of employers, or an organization of employees, which apprenticeship agreement provides for not less than four
thousand hours of reasonably continuous employment for such person and for his participation in an approved program of training through employment and through education in related and supplemental subjects.

Sec. 8. Every apprenticeship agreement entered into under this Act shall contain—

(1) the names and signatures of the contracting parties, including the apprentice's parent or guardian if he be a minor;

(2) the date of birth of the apprentice;

(3) a statement of the trade, craft, or business which the apprentice is to be taught and the time at which the apprenticeship will begin and end;

(4) a statement showing the number of hours to be spent by the apprentice in work and the number of hours to be spent in related and supplemental instruction, which instruction shall be not less than one hundred and forty-four hours per year;

(5) a statement setting forth a schedule of the processes in the trade or industry divisions in which the apprentice is to be taught and the approximate time to be spent at each process;

(6) a statement of the graduated scale of wages to be paid the apprentice and whether the required school time shall be compensated;

(7) a statement providing for a period of probation during which time the apprenticeship agreement shall be terminated by the Director at the request in writing of either party, and providing that after such probationary period the apprenticeship agreement may be terminated by the Director by mutual agreement of all parties thereto, or canceled by the Director for good and sufficient reasons;

(8) a provision that all controversies or differences concerning the apprenticeship agreement which cannot be adjusted by conference between the apprentice and the employer or under the terms of the apprenticeship standard shall be submitted to the Director for determination as provided for in section 9;

(9) a provision that an employer who is unable to fulfill his obligation under the apprenticeship agreement may, with the approval of the Director or under the direction of the joint trade apprenticeship committee, transfer such contract to any other employer: Provided, That the apprentice consents and that such other employer agrees to assume the obligations of said apprenticeship agreement;

(10) such additional terms and conditions as may be prescribed or approved by the council not inconsistent with the provisions of this Act.

Sec. 9. No apprenticeship agreement shall be registered or approved by the Director under the provisions of this Act unless it conforms with the standards established by or in accordance with this Act and is in the best interests of the apprentice. Where a minor enters into an agreement for a period of training extending into his majority, and such agreement has been approved by the Director, then such apprenticeship agreement shall, if the parties therein so provide, have the same force and effect during the period covered by the majority of such minor as if such agreement were entered into during the majority of such minor.

Sec. 10. (a) Upon the complaint of any interested person or upon his own initiative, the Director may investigate to determine if there has been a violation of the terms of an apprenticeship agreement made under this Act, and he may hold hearings, inquiries, and other proceedings necessary to such investigation and determination. The parties to such an agreement shall be given a fair and impartial
hearing after reasonable notice thereof. All such hearings, investigations, and determinations shall be made under authority of reasonable rules and procedures prescribed by the Apprenticeship Council, subject to the approval of the Secretary of Labor.

(b) The determination of the Director shall be filed with the council. If no appeal therefrom is filed with the council within ten days after the date thereof, as herein provided, such determination shall become the order of the council. Any person aggrieved by any determination or action of the Director may appeal therefrom to the council, which shall hold a hearing thereon after due notice to the interested parties. Any person aggrieved or affected by any determination or order of the council may appeal therefrom to the District Court of the United States for the District of Columbia at any time within thirty days after the date of such order, by service of a written notice of appeal on the Director. Upon service of said notice of appeal, said council, by its secretary, shall forthwith file, with the clerk of said district court to which said said appeal is taken, a certified copy of the order appealed from, together with findings of fact on which the same is based. The person serving such notice of appeal shall, within five days after the service thereof, file a copy of the same, with the clerk of the court to which such appeal is taken; and thereupon said district court shall have jurisdiction over said appeal, and the same shall be entered upon the records of said district court and shall be tried de novo according to the rules relating to the trial of civil actions, so far as the same are applicable. Any person aggrieved or affected by any determination, order, or decision of the district court may appeal therefrom to the Court of Appeals for the District of Columbia in the same manner as provided by law for the appeal of civil action.

Sec. 11. The provisions of this Act shall apply to any person, firm, corporation, or craft in the District of Columbia which has voluntarily elected to conform with its provisions.

Sec. 12. As used or referred to in this Act the term "the Secretary of Labor" shall mean the administrator of that Department or agency of the United States Government authorized to administer the provisions of Public Law Numbered 308.

Sec. 13. Sections 13, 14, 15, 17, 18, 20, and 21, chapter 2 of title 15 of the Code of Laws of the District of Columbia are hereby repealed.

Sec. 14. If any provision of this Act, or the application thereof to any person or circumstances, is held invalid, the remainder of the Act, and the application of such provision to other persons and circumstances, shall not be affected thereby.

them for house construction and other essential purposes, and to accelerate the production of houses with preferences for veterans of World War II and at sales prices or rentals within their means. To carry out this program, it is necessary to invest a housing expediter with adequate powers, including the power to issue policy directives. Accomplishment of these objectives will assist returning veterans to acquire housing at fair prices, stimulate industry and employment, prevent a post-emergency collapse of values in the housing field, and promote a swift and orderly transition to a peacetime economy.

(b) The provisions of this Act, and all regulations and orders issued thereunder, shall terminate on December 31, 1947, or upon the date specified in a concurrent resolution by the two Houses of the Congress, declaring that the provisions of the Act are no longer necessary to deal with the existing national emergency, whichever date is the earlier.

(c) The provisions of this Act shall be applicable to the United States, its Territories and possessions, and the District of Columbia.

Sec. 2. (a) There is hereby created an office to be known as Housing Expediter; and the President is authorized, by and with the advice and consent of the Senate, to appoint an existing official of the Government to serve as Housing Expediter, or to appoint the Housing Expediter either within any existing agency or as an independent officer of the Government. In the event of an appointment of an existing official, he is hereby authorized and permitted to continue in his present post while serving as Housing Expediter, except that he shall receive no additional compensation by reason of his appointment hereunder. If, however, such Housing Expediter is appointed within an existing agency of the Government, he shall receive compensation in compliance with the laws and regulations applicable to officers within such agency; if the Housing Expediter is appointed as an independent officer of the Government, he shall receive compensation at the rate of $12,000 per annum.

(b) The Housing Expediter, in addition to such other functions and powers as may be delegated to him by the President, is authorized to—

1. formulate such plans and programs as are necessary to provide for an increased supply of housing accommodations of all kinds and, in particular, of homes available for sale or rental at moderate prices to veterans of World War II and their immediate families;

2. issue such orders, regulations, or directives to other executive agencies (including the Office of Economic Stabilization and the Office of Price Administration) as may be necessary to provide for the exercise of their powers in a manner required by or consistent with the execution of the aforesaid plans and programs, and to coordinate the activities of such agencies directed to the execution of such plans and programs. Each executive agency shall carry out without delay the orders, regulations, or directives of the Housing Expediter, and shall, to the extent necessary, modify its operations and procedures from time to time to conform to the directions of the Housing Expediter;

3. recommend to the President the enactment of such legislation as may be necessary to provide the authority to carry out such plans and programs as are not authorized under existing law;

4. consult and cooperate with other agencies of the Federal Government, State and local governments, industries, labor, and other groups, both national and local, with respect to the problems created by the housing emergency and the steps which can be taken to remedy it.
(c) The executive agencies of the Government shall exercise their emergency powers and other powers for the purpose of aiding in the solution of the problems created by the existing housing emergency, the alleviation of which is vital to an orderly transition from war to peace.

(d) (1) All functions, powers, authority, or duties vested in the Office of War Mobilization and Reconversion or the Director thereof by the War Mobilization and Reconversion Act of 1944 which are or may be necessary or suitable to enable the Housing Expediter to carry out the provisions of this Act and such plans and programs as such Housing Expediter may develop for the alleviation of the housing emergency, are hereby transferred to the Housing Expediter. The powers so transferred shall include the power to issue orders, regulations, or directives to other executive agencies with respect to the exercise by such agencies of their respective powers and authority.

(2) The powers so transferred shall continue during the period in which this Act is in effect, notwithstanding any other provision terminating such powers contained in the said War Mobilization and Reconversion Act of 1944.

Sec. 3. (a) Whenever in the judgment of the Expediter the sales prices of housing accommodations the construction of which is completed after the effective date of this Act have risen or threaten to rise to an extent or in a manner inconsistent with the purposes of this Act, he may by regulation or order establish maximum sales prices for such housing accommodations in accordance with the provisions of this Act. Any such regulation or order may be limited in its scope to such geographical area or areas and to such types or classifications of such housing accommodations as in the judgment of the Expediter may be necessary to effectuate the purposes of this Act. Before issuing any regulation or order under this section, the Expediter shall, so far as practicable, advise and consult with representative members of industries affected by such regulation or order, and he shall give consideration to their recommendations and to any recommendations which may be made by State and local officials concerned with housing conditions in any area affected by such regulation or order.

(b) Any regulation or order issued under the authority of this section with respect to housing accommodations the construction of which is completed after the effective date of this Act shall provide that no sale of any such housing accommodations shall take place until after the builder thereof has filed with the appropriate agency designated by the Expediter a description of such accommodations, including a statement of the proposed maximum sales price, and has received from such agency a certification that such price is reasonably related to the value of the accommodations to be sold, taking into consideration (1) reasonable construction costs not in excess of the legal maximum prices of the materials and services required for the construction, (2) the fair market value of the land (immediately prior to construction) and improvements sold with the housing accommodations, and (3) a margin of profit reflecting the generally prevailing profit margin upon comparable units during the calendar year 1941. Any prospective seller of such housing accommodations may apply for such certification at any time, including before the commencement of construction, during its progress, or after its completion. In any case where a certification of approval of a proposed maximum sales price has been issued prior to the completion of construction, the prospective seller may, at any time before the first sale, apply for such revision of the maximum sales price previously certified as may be justified by a showing of special circumstances arising during the
Price Increases.

(c) The Expediter shall by regulation or order provide for appropriate price increases for major structural changes or improvements, not including ordinary maintenance and repair, effected subsequent to the first sale after the effective date of this Act.

(d) The Expediter may promulgate such regulations as he deems necessary and proper to carry out any of the provisions of this Act and may exercise any power or authority conferred upon him by this Act through such department, agency, or officer as he shall direct. Any regulation or order under this Act may contain such classifications and differentiations and may provide for such adjustments and reasonable exceptions as in the judgment of the Expediter are necessary or proper in order to effectuate the purposes of this Act. The Expediter shall have power to forbid the exportation to any foreign country of any lumber or other materials which are needed for the housing program.

SEC. 4. (a) Whenever in the judgment of the Expediter there is a shortage in the supply of any materials or of any facilities suitable for the construction and/or completion of housing accommodations in rural and urban areas, and for the construction and repair of essential farm buildings, he may by regulation or order allocate, or establish priorities for the delivery of, such materials or facilities in such manner, upon such conditions, and to such extent as he deems necessary and appropriate in the public interest and to effectuate the purposes of this Act.

(b) In issuing any regulation or order allocating or establishing priorities for the delivery of any materials or facilities under this section, the Expediter shall give special consideration to (1) satisfying the housing requirements of veterans of World War II and their immediate families, (2) the need for the construction and repair of essential farm buildings, and (3) the general need for housing accommodations for sale or rent at moderate prices. In order to assure preference or priority of opportunity to such veterans or their families, the Expediter shall require that no housing assisted by allocations or priorities under this section shall be sold within 60 days after completion or rented within 30 days after completion for occupancy by persons other than such veterans or their families: Provided, That the Expediter by appropriate regulation may allow for hardship cases.

(c) The provisions of this section shall not be construed as in any way affecting the power of the President to assign priorities or to allocate any materials or facilities under the provisions of subsection (a) of section 2 of the Act of June 28, 1940, entitled "An Act to expedite national defense, and for other purposes" (50 U. S. C. 633), as amended.

SEC. 5. It shall be unlawful for any person to effect, either as principal or broker, a sale of any housing accommodations at a price in excess of the maximum sales price applicable to such sale under the provisions of this Act, or to solicit or attempt, offer, or agree to make any such sale. It shall be unlawful for any person to violate the terms of any regulation or order issued under the provisions of this Act. Notwithstanding any termination of this Act as contemplated in section 1 (b) hereinabove, the provisions of this Act, and all regulations and orders issued thereunder, shall be treated as remaining in
force, as to rights or liabilities incurred or offenses committed prior to such termination date, for the purpose of sustaining any proper suit, action, or prosecution with respect to any such right, liability, or offense.

Sec. 6. Any person who is aggrieved by any action taken pursuant to any regulation or order issued under the authority of this Act may petition the district court of the district in which he resides or has his place of business for a review of such action, and such district court shall have jurisdiction to enjoin or set aside, in whole or in part, such action or to dismiss the petition. No such action shall be enjoined or set aside, in whole or in part, unless the petitioner establishes to the satisfaction of the court that such action is not in accordance with law, is unsupported by competent, material, and substantial evidence, or is arbitrary or capricious.

Sec. 7. (a) Whenever in the judgment of the Expediter any person has engaged or is about to engage in any acts or practices which constitute or will constitute a violation of any provision of section 5 of this Act, he may make application to the appropriate court for an order enjoining such acts or practices, or for an order enforcing compliance with such provision, and upon a showing by the Expediter that such person has engaged or is about to engage in any such acts or practices a permanent or temporary injunction, restraining order, or other order, may be granted and if granted shall be granted without bond.

(b) Any person who willfully violates any provision of section 5 of this Act, and any person who knowingly makes any statement false in any material respect in any description or statement required to be filed under section 3, shall, upon conviction thereof, be subject to a fine of not more than $5,000, or to imprisonment for not more than one year, or to both such fine and imprisonment. Whenever the Expediter has reason to believe that any person is liable to punishment under this subsection, he may certify the facts to the Attorney General, who may, in his discretion, cause appropriate proceedings to be brought.

(c) The district courts shall have jurisdiction of criminal proceedings for violations of section 5 of this Act, and, concurrently with State and Territorial courts, of all other proceedings under this section. Such criminal proceedings may be brought in any district in which any part of any act or transaction constituting the violation occurred. Such other proceedings may be brought in any district in which any part of any act or transaction constituting the violation occurred, and may also be brought in the district in which the defendant resides or transacts business, and process in such cases may be served in any district wherein the defendant resides or transacts business or wherever the defendant may be found. Any such court shall advance on the docket and expedite the disposition of any criminal or other proceedings brought before it under this section. No costs shall be assessed against the Expediter or the United States Government in any proceeding under this Act.

(d) If any person selling housing accommodations violates a regulation or order prescribing a maximum selling price, the person who buys such housing accommodations may, within one year from the date of the occurrence of the violation, bring an action for the amount by which the consideration exceeded the maximum selling price, plus reasonable attorney's fees and costs as determined by the court.

Sec. 8. As used in this Act—

(a) The term “maximum sales price” means the maximum price for which any housing accommodations the construction of which is completed after the effective date of this Act may be sold and includes the total consideration which may be paid by the buyer for
such housing accommodations with accompanying land and improvements, excluding only those incidental charges, such as brokerage fees or commissions or charges, which buyers or sellers of such housing accommodations customarily assume in the community where such accommodations are located and which actually have been incurred for services rendered at the buyer's or seller's request.

(b) The term "person" includes an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing.

(c) The term "district court" means any district court of the United States, and the United States court for any Territory or other place subject to the jurisdiction of the United States.

(d) The term "veterans of World War II" shall include persons who have served in the active military or naval forces of the United States on or after September 16, 1940, and prior to the termination of hostilities in World War II, and who have been discharged or released therefrom under conditions other than dishonorable, and persons serving in the military or naval forces of the United States requiring housing accommodations for their dependent families.

Sec. 9. There are authorized to be appropriated such sums as may be necessary to carry out the provisions and purposes of this Act: Provided, however, That so much of the First Deficiency Appropriation Act, 1946 (Public Law Numbered 269, Seventy-ninth Congress, approved December 28, 1945), as reads "Provided, That none of the funds available under this head for administrative expenses shall be used in paying the salary of any person engaged in making or processing loans in excess of $500,000 to any State, any subdivision thereof, any municipality therein, or any public authority, for construction purposes, unless in pursuance of a specific authorization, except, however, that this provision shall not apply to any application or loan approved or made prior to December 15, 1945", shall not apply to loans made for construction, removal, or remodeling of housing by publicly supported educational institutions where made for the purposes of housing veterans enrolled and attending such institution.

Sec. 10. (a) Section 603 (a) of the National Housing Act, as amended, is hereby amended to read as follows:

"(a) In order to assist in relieving the acute shortage of housing which now exists and to increase the supply of housing accommodations available to veterans of World War II at prices within their reasonable ability to pay, the Administrator is authorized, upon application by the mortgagee, to insure as hereinafter provided any mortgage which is eligible for insurance as hereinafter provided, and, upon such terms as the Administrator may prescribe, to make commitments for the insuring of such mortgages prior to the date of their execution or disbursement thereon: Provided, That the aggregate amount of principal obligations of all mortgages insured under this title shall not exceed $2,800,000,000 except that with the approval of the President such aggregate amount may be increased to not to exceed $3,800,000,000: Provided further, That no mortgage shall be insured under this title after June 30, 1947, except (A) pursuant to a commitment to insure issued on or before June 30, 1947, or (B) a mortgage given to refinance an existing mortgage insured under this title and which does not exceed the original principal amount and unexpired term of such existing mortgage: And provided further, That the Administrator shall, in his discretion, have power to require the availability for rental purposes of properties covered by mortgages
insured under this title, in such instances and for such periods of time as he may prescribe."

(b) Section 603 (b) (2) of the National Housing Act, as amended, is hereby amended to read as follows:

"(2) involve a principal obligation (including such initial service charges, appraisal, inspection, and other fees as the Administrator shall approve) in an amount not to exceed 90 per centum of the Administrator's estimate of the necessary current cost (including the land and such initial service charges and such appraisal, inspection, and other fees as the Administrator shall approve) of a property, urban, suburban, or rural, upon which there is located a dwelling designed principally for residential use for not more than four families in the aggregate, which is approved for mortgage insurance prior to the beginning of construction. The principal obligation of such mortgage shall in no event, however, exceed—

"(A) $5,400 if such dwelling is designed for a single-family residence, or

"(B) $7,500 if such dwelling is designed for a two-family residence, or

"(C) $9,500 if such dwelling is designed for a three-family residence, or

"(D) $12,000 if such dwelling is designed for a four-family residence; Provided, That the Administrator may, if he finds that at any time or in any particular geographical area it is not feasible, within such limitations of maximum mortgage amounts, to construct dwellings without sacrifice of sound standards of construction, design, or livability, prescribe by regulation or otherwise higher maximum mortgage amounts not to exceed—

"(A) $8,100 if such dwelling is designed for a single-family residence, or

"(B) $12,500 if such dwelling is designed for a two-family residence, or

"(C) $15,750 if such dwelling is designed for a three-family residence, or

"(D) $18,000 if such dwelling is designed for a four-family residence;"

(c) Section 603 (b) (5) of the National Housing Act, as amended, is hereby amended to read as follows:

"(5) bear interest (exclusive of premium charges for insurance) at not to exceed 4 per centum per annum on the amount of the principal obligation outstanding at any time;"

(d) Section 603 (c) of the National Housing Act, as amended, is hereby amended (1) by striking out of the third sentence the word "emergency" and inserting in lieu thereof the words "shortage of housing", and (2) by striking out the last sentence thereof and inserting in lieu thereof the following sentence: "The Administrator shall prescribe such procedures as in his judgment are necessary to secure to veterans of World War II, and their immediate families, and to hardship cases as defined by the Administrator, preference or priority of opportunity to purchase or rent properties covered by mortgages insured under this title."

(e) Section 604 (b) of the National Housing Act, as amended, is hereby amended by striking out the words "appraised value of such property as determined by the Administrator" and inserting in lieu thereof the following: "Administrator's estimate of the necessary current cost".
(f) Section 608 (b) of the National Housing Act, as amended, is hereby amended:

(1) by amending paragraph numbered (2) thereof to read as follows:

“(2) Preference or priority of opportunity in the occupancy of the mortgaged property for veterans of World War II and their immediate families, and for hardship cases as defined by the Administrator, shall be provided under such regulations and procedures as may be prescribed by the Administrator;”;

(2) by amending paragraph (3) (C) to read as follows:

“(C) not to exceed $1,500 per room for such part of such property or project as may be attributable to dwelling use: Provided, That the Administrator may increase this amount to $1,800 where in his discretion cost levels so require.”; and

(3) by striking out “reasonable replacement cost” and inserting in lieu thereof “necessary current cost”;

(g) Section 608 (c) of the National Housing Act, as amended, is hereby amended by inserting in the third sentence before the semicolon at the end of clause (C), the following: “and any mortgage insurance premiums paid after default.”

SEC. 11. (a) The last paragraph of section 2 (e) of the Emergency Price Control Act of 1942, as amended (50 U. S. C. 902 (e)), shall not apply to subsidies, which the Reconstruction Finance Corporation may make hereunder, in the form of premium payments used only to the extent that the Housing Expediter (after considering all available means) finds them temporarily necessary to increase the supply of materials for the veterans' emergency housing program and for other construction, maintenance, and repair essential to the national well-being: Provided, That not more than $400,000,000 shall be used for such premium payments.

(b) The following standards shall be applied by the Housing Expediter to premium payments:

(1) Premium payments shall be used only temporarily and only with relation to additional units of production beyond that otherwise attainable (as determined by the Housing Expediter by general regulation for the industry involved), where such premium payments are necessary to stimulate such additional production with greater rapidity, economy, or certainty than other available methods.

(2) The value of the units of production to which premium payments are applied (A) in the case of any new producer (except of new type materials) shall not exceed 50 per centum of the value at the producers' level of the output of such producer, and (B) in the aggregate shall not exceed 30 per centum of the value at the producers' level of all materials needed for the veterans' emergency housing program and for other construction, maintenance, and repair essential to the national well-being. The average rate of premium payments shall not exceed 25 per centum of the value of the units of production to which they are applied.

(3) Premium payments shall wherever feasible be applied at a uniform rate within any industry requiring them, rather than at varying rates for each producer.

(4) The stimulation of necessary additional production by premium payments shall place emphasis upon avoiding either economic dislocations or adverse effects upon established business.

(5) New type materials to which premium payments are applied shall be tested for sound quality.

(c) Not more than $15,000,000 of the funds made available under this section may be used to the extent that other funds are unavailable for the construction of access roads to standing timber on lands owned by or under the jurisdiction of an agency of Government.
Sec. 12. (a) The powers vested in the Reconstruction Finance Corporation pursuant to clause (a) of section 5d (3) of the Reconstruction Finance Corporation Act, as amended (15 U. S. C. 606b (3)), may be used to underwrite or guarantee markets for new type building materials and prefabricated houses, but only to the extent that the Housing Expediter finds this necessary to assure a sufficient supply for the veterans' emergency housing program: Provided, That the number of prefabricated houses covered by outstanding underwriting or guaranty (including such houses as may be held by the Housing Expediter) shall at no time during the program exceed two hundred thousand.

(b) The following standards shall be applied by the Housing Expediter to such underwriting or guaranty:

(1) To avoid impairment of established enterprises, new type materials and prefabricated houses shall be encouraged only to supplement such expanded production of conventional type materials and houses (with access to available materials) as can be achieved with sufficient rapidity and economy.

(2) There shall be reasonable prospect of either (A) full return to the Government of any funds involved in such underwriting or guaranty, or (B) net cost to the Government substantially lower than under any other available method of achieving the necessary expansion of production. Toward this end, the underwriting or guaranty of such materials or houses shall not be for more than 90 per centum of the producers' standard delivery price. The Housing Expediter shall maintain constant review of experience toward the objective that the total net costs to the Government shall in no event exceed 5 per centum of the total amount of underwriting or guaranty undertaken.

(3) There shall be clear evidence that the new type materials or prefabricated houses require underwriting or guaranty only temporarily until they attain general market acceptability.

(4) Emphasis shall be placed upon avoiding either economic dislocations or adverse effects upon established business.

(5) New type materials and prefabricated houses shall be tested for sound quality and (in the case of such houses) for durability, livability, and safety.

(6) Any underwriting or guaranty shall require adequate showing by the producer that he has sufficient working capital and experience, and that he can achieve the desired production on time under conditions satisfactory to the Housing Expediter.

Sec. 13. If any provision of this Act or the application of such provision to any person or circumstances shall be held invalid, the validity of the remainder of the Act and the applicability of such provision to other persons or circumstances shall not be affected thereby.

Approved May 22, 1946.

AN ACT

To provide assistance to the States in the establishment, maintenance, operation, and expansion of school-lunch programs, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National School Lunch Act".

DECLARATION OF POLICY

SEC. 2. It is hereby declared to be the policy of Congress, as a measure of national security, to safeguard the health and well-being of the Nation's children and to encourage the domestic consumption of nutritious agricultural commodities and other food, by assisting the States, through grants-in-aid and other means, in providing an adequate supply of foods and other facilities for the establishment, maintenance, operation, and expansion of nonprofit school-lunch programs.

APPROPRIATIONS AUTHORIZED

SEC. 3. For each fiscal year, beginning with the fiscal year ending June 30, 1947, there is hereby authorized to be appropriated, out of money in the Treasury not otherwise appropriated, such sums as may be necessary to enable the Secretary of Agriculture (hereinafter referred to as "the Secretary") to carry out the provisions of this Act.

APPORTIONMENTS TO STATES

SEC. 4. The sums appropriated for any fiscal year pursuant to the authorization contained in section 3 of this Act, excluding the sum specified in section 6, shall be available to the Secretary for supplying, during such fiscal year, agricultural commodities and other foods for the school-lunch program in accordance with the provisions of this Act. The Secretary shall apportion among the States during each fiscal year not less than 75 per centum of the aforesaid funds.
made available for such year for supplying agricultural commodities and other foods under the provisions of this Act, except that the total of such apportionments of funds for use in Alaska, Territory of Hawaii, Puerto Rico, and the Virgin Islands shall not exceed 3 percent of the funds appropriated for agricultural commodities and other foods for the school-lunch program. Apportionment among the States shall be made on the basis of two factors: (1) the number of school children in the State and (2) the need for assistance in the State as indicated by the relation of the per capita income in the United States to the per capita income in the State. The amount of the initial apportionment to any State shall be determined by the following method: First, determine an index for the State by multiplying factors (1) and (2); second, divide this index by the sum of the indices for all the States; and, finally, apply the figure thus obtained to the total funds to be apportioned. For the purpose of this section, the number of school children in the State shall be the number of children therein between the ages of five and seventeen, inclusive; such figures and per capita income figures shall be the latest figures certified by the Department of Commerce. For the purposes of this Act, "school" means any public or nonprofit private school of high-school grade or under and, with respect to Puerto Rico, shall also include nonprofit child-care centers certified as such by the Governor of Puerto Rico. If any State cannot utilize all funds so apportioned to it, or if additional funds are available under this Act for apportionment among the States, the Secretary shall make further apportionments to the remaining States in the same manner.

SEC. 5. Of the sums appropriated for any fiscal year pursuant to the authorization contained in section 3 of this Act, $10,000,000 shall be available to the Secretary for the purpose of providing, during such fiscal year, nonfood assistance for the school-lunch program pursuant to the provisions of this Act. The Secretary shall apportion among the States during each fiscal year the aforesaid sum of $10,000,000, and such apportionment among the States shall be on the basis of the factors, and in accordance with the standards, set forth in section 4 with respect to the apportionment for agricultural commodities and other foods. The total of such funds apportioned for nonfood assistance for use in Alaska, Territory of Hawaii, Puerto Rico, and the Virgin Islands shall not exceed 3 per centum of the funds appropriated for nonfood assistance in accordance with the provisions of this Act.

DIRECT FEDERAL EXPENDITURES

SEC. 6. The funds appropriated for any fiscal year for carrying out the provisions of this Act, less not to exceed 3 1/2 per centum thereof hereby made available to the Secretary for his administrative expenses and less the amount apportioned by him pursuant to sections 4, 5, and 10, shall be available to the Secretary during such year for direct expenditure by him for agricultural commodities and other foods to be distributed among the States and schools participating in the school-lunch program under this Act in accordance with the needs as determined by the local school authorities. The provisions of law contained in the proviso of the Act of June 28, 1937 (50 Stat. 323), facilitating operations with respect to the purchase and disposition of surplus agricultural commodities under section 32 of the Act approved August 24, 1935 (49 Stat. 774), as amended, shall, to the extent not inconsistent with the provisions of this Act, also be applicable to expenditures of funds by the Secretary under this Act.
PAYMENTS TO STATES

Sec. 7. Funds apportioned to any State pursuant to section 4 or 5 during any fiscal year shall be available for payment to such State for disbursement by the State educational agency, in accordance with such agreements not inconsistent with the provisions of this Act, as may be entered into by the Secretary and such State educational agency, for the purpose of assisting schools of that State during such fiscal year, in supplying (1) agricultural commodities and other foods for consumption by children and (2) nonfood assistance in furtherance of the school-lunch program authorized under this Act. Such payments to any State in any fiscal year during the period 1947 to 1950, inclusive, shall be made upon condition that each dollar thereof will be matched during such year by $1 from sources within the State determined by the Secretary to have been expended in connection with the school-lunch program under this Act. Such payments in any fiscal year during the period 1951 to 1955, inclusive, shall be made upon condition that each dollar thereof will be so matched by one and one-half dollars; and for any fiscal year thereafter, such payments shall be made upon condition that each dollar will be so matched by $3. In the case of any State whose per capita income is less than the per capita income of the United States, the matching required for any fiscal year shall be decreased by the percentage which the State per capita income is below the per capita income of the United States. For the purpose of determining whether the matching requirements of this section and section 10, respectively, have been met, the reasonable value of donated services, supplies, facilities, and equipment as certified, respectively, by the State educational agency and in case of schools receiving funds pursuant to section 10, by such schools (but not the cost or value of land, of the acquisition, construction, or alteration of buildings of commodities donated by the Secretary, or of Federal contributions), may be regarded as funds from sources within the State expended in connection with the school-lunch program. The Secretary shall certify to the Secretary of the Treasury from time to time the amounts to be paid to any State under this section and the time or times such amounts are to be paid; and the Secretary of the Treasury shall pay to the State at the time or times fixed by the Secretary the amounts so certified.

STATE DISBURSEMENT TO SCHOOLS

Sec. 8. Funds paid to any State during any fiscal year pursuant to section 4 or 5 shall be disbursed by the State educational agency, in accordance with such agreements approved by the Secretary as may be entered into by such State agency and the schools in the State, to those schools in the State which the State educational agency, taking into account need and attendance, determines are eligible to participate in the school-lunch program. Such disbursement to any school shall be made only for the purpose of reimbursing it for the cost of obtaining agricultural commodities and other foods for consumption by children in the school-lunch program and nonfood assistance in connection with such program. Such food costs may include, in addition to the purchase price of agricultural commodities and other foods, the cost of processing, distributing, transporting, storing, or handling thereof. In no event shall such disbursement for food to any school for any fiscal year exceed an amount determined by multiplying the number of lunches served in the school in the school-lunch program under this Act during such year by the maximum Federal food-cost contribution rate for the State, for the type of lunch served, as prescribed by the Secretary.
NUTRITIONAL AND OTHER PROGRAM REQUIREMENTS

SEC. 9. Lunches served by schools participating in the school-lunch program under this Act shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research. Such meals shall be served without cost or at a reduced cost to children who are determined by local school authorities to be unable to pay the full cost of the lunch. No physical segregation of or other discrimination against any child shall be made by the school because of his inability to pay. School-lunch programs under this Act shall be operated on a nonprofit basis. Each school shall, insofar as practicable, utilize in its lunch program commodities designated from time to time by the Secretary as being in abundance, either nationally or in the school area, or commodities donated by the Secretary. Commodities purchased under the authority of section 32 of the Act of August 24, 1935 (49 Stat. 774), as amended, may be donated by the Secretary to schools, in accordance with the needs as determined by local school authorities, for utilization in the school-lunch program under this Act as well as to other schools carrying out nonprofit school-lunch programs and institutions authorized to receive such commodities.

SEC. 10. If, in any State, the State educational agency is not permitted by law to disburse the funds paid to it under this Act to nonprofit private schools in the State, or is not permitted by law to match Federal funds made available for use by such nonprofit private schools, the Secretary shall withhold from the funds apportioned to any such State under sections 4 and 5 of this Act the same proportion of the funds as the number of children between the ages of five and seventeen, inclusive, attending nonprofit private schools within the State is of the total number of persons of those ages within the State attending school. The Secretary shall disburse the funds so withheld directly to the nonprofit private schools within said State for the same purposes and subject to the same conditions as are authorized or required with respect to the disbursements to schools within the State by the State educational agency, including the requirement that any such payment or payments shall be matched, in the proportion specified in section 7 for such State, by funds from sources within the State expended by nonprofit private schools within the State participating in the school-lunch program under this Act. Such funds shall not be considered a part of the funds constituting the matching funds under the terms of section 7.

MISCELLANEOUS PROVISIONS AND DEFINITIONS

SEC. 11. (a) States, State educational agencies, and schools participating in the school-lunch program under this Act shall keep such accounts and records as may be necessary to enable the Secretary to determine whether the provisions of this Act are being complied with. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines is necessary.

(b) The Secretary shall incorporate, in his agreements with the State educational agencies, the express requirements under this Act with respect to the operation of the school-lunch program under this Act insofar as they may be applicable and such other provisions as in his opinion are reasonably necessary or appropriate to effectuate the purposes of this Act.

(c) In carrying out the provisions of this Act, neither the Secretary nor the State shall impose any requirement with respect to teaching personnel, curriculum, instruction, methods of instruction, and
Minority races. materials of instruction in any school. formulation, amendment, or repeal of a rule.

(d) ORDER AND ADJUDICATION.—“Order” means the whole or any
part of the final disposition (whether affirmative, negative, injunctive,
or declaratory in form) of any agency in any matter other than
rule making but including licensing. “Adjudication” means agency
process for the formulation of an order.
(e) License and Licensing.—"License" includes the whole or part of any agency permit, certificate, approval, registration, charter, membership, statutory exemption or other form of permission. "Licensing" includes agency process respecting the grant, renewal, denial, revocation, suspension, annulment, withdrawal, limitation amendment, modification, or conditioning of a license.

(f) Sanction and Relief.—"Sanction" includes the whole or part of any agency (1) prohibition, requirement, limitation, or other condition affecting the freedom of any person; (2) withholding of relief; (3) imposition of any form of penalty or fine; (4) destruction, taking, seizure, or withholding of property; (5) assessment of damages, reimbursement, restitution, compensation, costs, charges, or fees; (6) requirement, revocation, or suspension of a license; or (7) taking of other compulsory or restrictive action. "Relief" includes the whole or part of any agency (1) grant of money, assistance, license, authority, exemption, exception, privilege, or remedy; (2) recognition of any claim, right, immunity, privilege, exemption, or exception; or (3) taking of any other action upon the application or petition of, and beneficial to, any person.

(g) Agency Proceedings and Action.—"Agency proceeding" means any agency process as defined in subsections (c), (d), and (e) of this section. "Agency action" includes the whole or part of every agency rule, order, license, sanction, relief, or the equivalent or denial thereof, or failure to act.

**Public Information**

Sec. 3. Except to the extent that there is involved (1) any function of the United States requiring secrecy in the public interest or (2) any matter relating solely to the internal management of an agency—

(a) Rules.—Every agency shall separately state and currently publish in the Federal Register (1) descriptions of its central and field organization including delegations by the agency of final authority and the established places at which, and methods whereby, the public may secure information or make submittals or requests; (2) statements of the general course and method by which its functions are channeled and determined, including the nature and requirements of all formal or informal procedures available as well as forms and instructions as to the scope and contents of all papers, reports, or examinations; and (3) substantive rules adopted as authorized by law and statements of general policy or interpretations formulated and adopted by the agency for the guidance of the public, but not rules addressed to and served upon named persons in accordance with law. No person shall in any manner be required to resort to organization or procedure not so published.

(b) Opinions and Orders.—Every agency shall publish or, in accordance with published rule, make available to public inspection all final opinions or orders in the adjudication of cases (except those required for good cause to be held confidential and not cited as precedents) and all rules.

(c) Public Records.—Save as otherwise required by statute, matters of official record shall in accordance with published rule be made available to persons properly and directly concerned except information held confidential for good cause found.

**Rule Making**

Sec. 4. Except to the extent that there is involved (1) any military, naval, or foreign affairs function of the United States or (2) any matter relating to agency management or personnel or to public property, loans, grants, benefits, or contracts—
(a) **Notice.**—General notice of proposed rule making shall be published in the Federal Register (unless all persons subject thereto are named and either personally served or otherwise have actual notice thereof in accordance with law) and shall include (1) a statement of the time, place, and nature of public rule making proceedings; (2) reference to the authority under which the rule is proposed; and (3) either the terms or substance of the proposed rule or a description of the subjects and issues involved. Except where notice or hearing is required by statute, this subsection shall not apply to interpretative rules, general statements of policy, rules of agency organization, procedure, or practice, or in any situation in which the agency for good cause finds (and incorporates the finding and a brief statement of the reasons therefor in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.

(b) **Procedures.**—After notice required by this section, the agency shall afford interested persons an opportunity to participate in the rule making through submission of written data, views, or arguments with or without opportunity to present the same orally in any manner; and, after consideration of all relevant matter presented, the agency shall incorporate in any rules adopted a concise general statement of their basis and purpose. Where rules are required by statute to be made on the record after opportunity for an agency hearing, the requirements of sections 7 and 8 shall apply in place of the provisions of this subsection.

(c) **Effective dates.**—The required publication or service of any substantive rule (other than one granting or recognizing exemption or relieving restriction or interpretative rules and statements of policy) shall be made not less than thirty days prior to the effective date thereof except as otherwise provided by the agency upon good cause found and published with the rule.

(d) **Petitions.**—Every agency shall accord any interested person the right to petition for the issuance, amendment, or repeal of a rule.

**ADJUDICATION**

Sec. 5. In every case of adjudication required by statute to be determined on the record after opportunity for an agency hearing, except to the extent that there is involved (1) any matter subject to a subsequent trial of the law and the facts de novo in any court; (2) the selection or tenure of an officer or employee of the United States other than examiners appointed pursuant to section 11; (3) proceedings in which decisions rest solely on inspections, tests, or elections; (4) the conduct of military, naval, or foreign affairs functions; (5) cases in which an agency is acting as an agent for a court; and (6) the certification of employee representatives—

(a) **Notice.**—Persons entitled to notice of an agency hearing shall be timely informed of (1) the time, place, and nature thereof; (2) the legal authority and jurisdiction under which the hearing is to be held; and (3) the matters of fact and law asserted. In instances in which private persons are the moving parties, other parties to the proceeding shall give prompt notice of issues controverted in fact or law; and in other instances agencies may by rule require responsive pleading. In fixing the times and places for hearings, due regard shall be had for the convenience and necessity of the parties or their representatives.

(b) **Procedures.**—The agency shall afford all interested parties opportunity for (1) the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment where time, the nature of the proceeding, and the public interest permit, and (2)
to the extent that the parties are unable so to determine any controversy by consent, hearing, and decision upon notice and in conformity with sections 7 and 8.

(c) **Separation of Functions.**—The same officers who preside at the reception of evidence pursuant to section 7 shall make the recommended decision or initial decision required by section 8 except where such officers become unavailable to the agency. Save to the extent required for the disposition of ex parte matters as authorized by law, no such officer shall consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate; nor shall such officer be responsible to or subject to the supervision or direction of any officer, employee, or agent engaged in the performance of investigative or prosecuting functions for any agency. No officer, employee, or agent engaged in the performance of investigative or prosecuting functions for any agency in any case shall, in that or a factually related case, participate or advise in the decision, recommended decision, or agency review pursuant to section 8 except as witness or counsel in public proceedings. This subsection shall not apply in determining applications for initial licenses or to proceedings involving the validity or application of rates, facilities, or practices of public utilities or carriers; nor shall it be applicable in any manner to the agency or any member or members of the body comprising the agency.

(d) **Declaratory Orders.**—The agency is authorized in its sound discretion, with like effect as in the case of other orders, to issue a declaratory order to terminate a controversy or remove uncertainty.

**Ancillary Matters**

Sec. 6. Except as otherwise provided in this Act—

(a) **Appearance.**—Any person compelled to appear in person before any agency or representative thereof shall be accorded the right to be accompanied, represented, and advised by counsel or, if permitted by the agency, by other qualified representative. Every party shall be accorded the right to appear in person or by or with counsel or other duly qualified representative in any agency proceeding. So far as the orderly conduct of public business permits, any interested person may appear before any agency or its responsible officers or employees for the presentation, adjustment, or determination of any issue, request, or controversy in any proceeding (interlocutory, summary, or otherwise) or in connection with any agency function. Every agency shall proceed with reasonable dispatch to conclude any matter presented to it except that due regard shall be had for the convenience and necessity of the parties or their representatives. Nothing herein shall be construed either to grant or to deny to any person who is not a lawyer the right to appear for or represent others before any agency or in any agency proceeding.

(b) **Investigations.**—No process, requirement of a report, inspection, or other investigative act or demand shall be issued, made, or enforced in any manner or for any purpose except as authorized by law. Every person compelled to submit data or evidence shall be entitled to retain or, on payment of lawfully prescribed costs, procure a copy or transcript thereof, except that in a nonpublic investigatory proceeding the witness may for good cause be limited to inspection of the official transcript of his testimony.

(c) **Subpoenas.**—Agency subpoenas authorized by law shall be issued to any party upon request and, as may be required by rules of procedure, upon a statement or showing of general relevance and reasonable scope of the evidence sought. Upon contest the court shall sustain
any such subpoena or similar process or demand to the extent that it is
found to be in accordance with law and, in any proceeding for enforce-
ment, shall issue an order requiring the appearance of the witness or
the production of the evidence or data within a reasonable time under
penalty of punishment for contempt in case of contumacious failure
to comply.

(d) Denials.—Prompt notice shall be given of the denial in whole
or in part of any written application, petition, or other request of any
interested person made in connection with any agency proceeding.
Except in affirming a prior denial or where the denial is self-explan-
tory, such notice shall be accompanied by a simple statement of
procedural or other grounds.

HEARINGS

SEC. 7. In hearings which section 4 or 5 requires to be conducted
pursuant to this section—

(a) Presiding Officers.—There shall preside at the taking of evi-
dence—(1) the agency, (2) one or more members of the body which
comprises the agency, or (3) one or more examiners appointed as
provided in this Act; but nothing in this Act shall be deemed to
supersede the conduct of specified classes of proceedings in whole or
part by or before boards or other officers specially provided for by or
designated pursuant to statute. The functions of all presiding officers
and of officers participating in decisions in conformity with section
8 shall be conducted in an impartial manner. Any such officer may at
any time withdraw if he deems himself disqualified; and, upon the
filing in good faith of a timely and sufficient affidavit of personal bias
or disqualification of any such officer, the agency shall determine the
matter as a part of the record and decision in the case.

(b) Hearing Powers.—Officers presiding at hearings shall have
authority, subject to the published rules of the agency and within its
powers, to (1) administer oaths and affirmations, (2) issue subpoenas
authorized by law, (3) rule upon offers of proof and receive relevant
evidence, (4) take or cause depositions to be taken whenever the ends
of justice would be served thereby, (5) regulate the course of the hear-
ing, (6) hold conferences for the settlement or simplification of the
issues by consent of the parties, (7) dispose of procedural requests
or similar matters, (8) make decisions or recommend decisions in
conformity with section 8, and (9) take any other action authorized
by agency rule consistent with this Act.

(c) Evidence.—Except as statutes otherwise provide, the proponent
of a rule or order shall have the burden of proof. Any oral or docu-
mentary evidence may be received, but every agency shall as a matter
of policy provide for the exclusion of irrelevant, immaterial, or unduly
repetitious evidence and no sanction shall be imposed or rule or order
be issued except upon consideration of the whole record or such portions
thereof as may be cited by any party and as supported by and in
accordance with the reliable, probative, and substantial evidence.
Every party shall have the right to present his case or defense by
oral or documentary evidence, to submit rebuttal evidence, and to
conduct such cross-examination as may be required for a full and true
disclosure of the facts. In rule making or determining claims for
money or benefits or applications for initial licenses any agency may,
where the interest of any party will not be prejudiced thereby, adopt
procedures for the submission of all or part of the evidence in written
form.

(d) Record.—The transcript of testimony and exhibits, together
with all papers and requests filed in the proceeding, shall constitute
the exclusive record for decision in accordance with section 8 and, upon payment of lawfully prescribed costs, shall be made available to the parties. Where any agency decision rests on official notice of a material fact not appearing in the evidence in the record, any party shall on timely request be afforded an opportunity to show the contrary.

**Decisions**

Sec. 8. In cases in which a hearing is required to be conducted in conformity with section 7—

(a) **Action by Subordinates.**—In cases in which the agency has not presided at the reception of the evidence, the officer who presided (or, in cases not subject to subsection (c) of section 5, any other officer or officers qualified to preside at hearings pursuant to section 7) shall initially decide the case or the agency shall require (in specific cases or by general rule) the entire record to be certified to it for initial decision. Whenever such officers make the initial decision and in the absence of either an appeal to the agency or review upon motion of the agency within time provided by rule, such decision shall without further proceedings then become the decision of the agency. On appeal from or review of the initial decisions of such officers the agency shall, except as it may limit the issues upon notice or by rule, have all the powers which it would have in making the initial decision. Whenever the agency makes the initial decision without having presided at the reception of the evidence, such officers shall first recommend a decision except that in rule making or determining applications for initial licenses (1) in lieu thereof the agency may issue a tentative decision or any of its responsible officers may recommend a decision or (2) any such procedure may be omitted in any case in which the agency finds upon the record that due and timely execution of its functions imperatively and unavoidably so requires.

(b) **Submittals and Decisions.**—Prior to each recommended, initial, or tentative decision, or decision upon agency review of the decision of subordinate officers the parties shall be afforded a reasonable opportunity to submit for the consideration of the officers participating in such decisions (1) proposed findings and conclusions, or (2) exceptions to the decisions or recommended decisions of subordinate officers or to tentative agency decisions, and (3) supporting reasons for such exceptions or proposed findings or conclusions. The record shall show the ruling upon each such finding, conclusion, or exception presented. All decisions (including initial, recommended, or tentative decisions) shall become a part of the record and include a statement of (1) findings and conclusions, as well as the reasons or basis therefor, upon all the material issues of fact, law, or discretion presented on the record; and (2) the appropriate rule, order, sanction, relief, or denial thereof.

**Sanctions and Powers**

Sec. 9. In the exercise of any power or authority—

(a) **In General.**—No sanction shall be imposed or substantive rule or order be issued except within jurisdiction delegated to the agency and as authorized by law.

(b) **Licenses.**—In any case in which application is made for a license required by law the agency, with due regard to the rights or privileges of all the interested parties or adversely affected persons and with reasonable dispatch, shall set and complete any proceedings required to be conducted pursuant to sections 7 and 8 of this Act or other proceedings required by law and shall make its decision. Except in cases of willfulness or those in which public health, interest, or
safety requires otherwise, no withdrawal, suspension, revocation, or
annulment of any license shall be lawful unless, prior to the institution
of agency proceedings therefor, facts or conduct which may warrant
such action shall have been called to the attention of the licensee by the
agency in writing and the licensee shall have been accorded opportunity
to demonstrate or achieve compliance with all lawful requirements.
In any case in which the licensee has, in accordance with agency rules,
made timely and sufficient application for a renewal or a new license,
no license with reference to any activity of a continuing nature shall
expire until such application shall have been finally determined by
the agency.

JUDICIAL REVIEW

SEC. 10. Except so far as (1) statutes preclude judicial review or
(2) agency action is by law committed to agency discretion—
(a) Right of Review.—Any person suffering legal wrong because
of any agency action, or adversely affected or aggrieved by such
action within the meaning of any relevant statute, shall be entitled
to judicial review thereof.
(b) Form and Venue of Action.—The form of proceeding for judi-
cial review shall be any special statutory review proceeding relevant
to the subject matter in any court specified by statute or, in the
absence or inadequacy thereof, any applicable form of legal action
(including actions for declaratory judgments or writs of prohibitory
or mandatory injunction or habeas corpus) in any court of competent
jurisdiction. Agency action shall be subject to judicial review in
civil or criminal proceedings for judicial enforcement except to the
extent that prior, adequate, and exclusive opportunity for such review
is provided by law.
(c) Reviewable Acts.—Every agency action made reviewable by
statute and every final agency action for which there is no other
adequate remedy in any court shall be subject to judicial review.
Any preliminary, procedural, or intermediate agency action or ruling
not directly reviewable shall be subject to review upon the review of
the final agency action. Except as otherwise expressly required by
statute, agency action otherwise final shall be final for the purposes
of this subsection whether or not there has been presented or deter-
dined any application for a declaratory order, for any form of recon-
sideration, or (unless the agency otherwise requires by rule and pro-
vides that the action meanwhile shall be inoperative) for an appeal
to superior agency authority.
(d) Interim Relief.—Pending judicial review any agency is
authorized, where it finds that justice so requires, to postpone the
effective date of any action taken by it. Upon such conditions as
may be required and to the extent necessary to prevent irreparable
injury, every reviewing court (including every court to which a case
may be taken on appeal from or upon application for certiorari or
other writ to a reviewing court) is authorized to issue all necessary
and appropriate process to postpone the effective date of any agency
action or to preserve status or rights pending conclusion of the review
proceedings.
(e) Scope of Review.—So far as necessary to decision and where
presented the reviewing court shall decide all relevant questions of
law, interpret constitutional and statutory provisions, and determine
the meaning or applicability of the terms of any agency action. It
shall (A) compel agency action unlawfully withheld or unreasonably
delayed; and (B) hold unlawful and set aside agency action, findings,
and conclusions found to be (1) arbitrary, capricious, an abuse of
discretion, or otherwise not in accordance with law; (2) contrary to
constitutional right, power, privilege, or immunity; (3) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right; (4) without observance of procedure required by law; (5) unsupported by substantial evidence in any case subject to the requirements of sections 7 and 8 or otherwise reviewed on the record of an agency hearing provided by statute; or (6) unwarranted by the facts to the extent that the facts are subject to trial de novo by the reviewing court. In making the foregoing determinations the court shall review the whole record or such portions thereof as may be cited by any party, and due account shall be taken of the rule of prejudicial error.

EXAMINERS

SEC. 11. Subject to the civil-service and other laws to the extent not inconsistent with this Act, there shall be appointed by and for each agency as many qualified and competent examiners as may be necessary for proceedings pursuant to sections 7 and 8, who shall be assigned to cases in rotation so far as practicable and shall perform no duties inconsistent with their duties and responsibilities as examiners. Examiners shall be removable by the agency in which they are employed only for good cause established and determined by the Civil Service Commission (hereinafter called the Commission) after opportunity for hearing and upon the record thereof. Examiners shall receive compensation prescribed by the Commission independently of agency recommendations or ratings and in accordance with the Classification Act of 1923, as amended, except that the provisions of paragraphs (2) and (3) of subsection (b) of section 7 of said Act, as amended, and the provisions of section 9 of said Act, as amended, shall not be applicable. Agencies occasionally or temporarily insufficiently staffed may utilize examiners selected by the Commission from and with the consent of other agencies. For the purposes of this section, the Commission is authorized to make investigations, require reports by agencies, issue reports, including an annual report to the Congress, promulgate rules, appoint such advisory committees as may be deemed necessary, recommend legislation, subpoena witnesses or records, and pay witness fees as established for the United States courts.

CONSTRUCTION AND EFFECT

SEC. 12. Nothing in this Act shall be held to diminish the constitutional rights of any person or to limit or repeal additional requirements imposed by statute or otherwise recognized by law. Except as otherwise required by law, all requirements or privileges relating to evidence or procedure shall apply equally to agencies and persons. If any provision of this Act or the application thereof is held invalid, the remainder of this Act or other applications of such provision shall not be affected. Every agency is granted all authority necessary to comply with the requirements of this Act through the issuance of rules or otherwise. No subsequent legislation shall be held to supersede or modify the provisions of this Act except to the extent that such legislation shall do so expressly. This Act shall take effect three months after its approval except that sections 7 and 8 shall take effect six months after such approval, the requirement of the selection of examiners pursuant to section 11 shall not become effective until one year after such approval, and no procedural requirement shall be mandatory as to any agency proceeding initiated prior to the effective date of such requirement.

AN ACT

Granting the consent and approval of Congress to an interstate compact between Colorado and New Mexico with respect to the waters of Costilla Creek.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent and approval of Congress is hereby given to the compact between the State of Colorado and the State of New Mexico designated as the Costilla Creek Compact signed in the city of Santa Fe, State of New Mexico, on the 30th day of September, anno Domini 1944, by Clifford H. Stone, commissioner for the State of Colorado, and Thomas M. McClure, commissioner for the State of New Mexico, and thereafter approved by the Legislatures of the States of Colorado and New Mexico, which compact reads as follows:

COSTILLA CREEK COMPACT

The State of Colorado and the State of New Mexico, parties signatory to this compact (hereinafter referred to as “Colorado” and “New Mexico”, respectively, or individually as a “State”, or collectively as the “States”), having resolved to conclude a compact with respect to the waters of Costilla Creek, an interstate stream, have designated, pursuant to the Acts of their respective Legislatures and appointment by their respective Governors, as their Commissioners: Clifford H. Stone, for Colorado; Thomas M. McClure, for New Mexico; who, after negotiations, have agreed upon these articles:

ARTICLE I

The major purposes of this compact are to provide for the equitable division and apportionment of the use of the waters of Costilla Creek; to promote interstate comity; to remove causes of present and future interstate controversies; to assure the most efficient utilization of the waters of Costilla Creek; to provide for the integrated operation of existing and prospective irrigation facilities on the stream in the two States; to adjust the conflicting jurisdictions of the two States over irrigation works and facilities diverting and storing water in one State for use in both States; to equalize the benefits of water from Costilla Creek, used for the irrigation of contiguous lands lying on either side of the Boundary, between the citizens
and water users of one State and those of the other; and to place the beneficial application of water diverted from Costilla Creek for irrigation by the water users of the two States on a common basis.

The physical and other conditions peculiar to the Costilla Creek and its basin, and the nature and location of the irrigation development and the facilities in connection therewith, constitute the basis for this compact; and neither of the States hereby, nor the Congress of the United States by its consent, concedes that this compact establishes any general principle or precedent with respect to any other interstate stream.

**ARTICLE II**

As used in this compact, the following names, terms, and expressions are described, defined, applied, and taken to mean as in this Article set forth:

(a) “Costilla Creek” is a tributary of the Rio Grande which rises on the west slope of the Sangre de Cristo range in the extreme southeastern corner of Costilla County in Colorado and flows in a general westerly direction crossing the Boundary three times above its confluence with the Rio Grande in New Mexico.

(b) The “Canyon Mouth” is that point on Costilla Creek in New Mexico where the stream leaves the mountains and emerges into the San Luis Valley.

(u) The word "Commission" means the Costilla Creek Compact Commission created by Article VIII of this compact for the administration thereof.

**ARTICLE III**

1. To accomplish the purposes of this compact, as set forth in Article I, the following adjustments in the operation of irrigation facilities on Costilla Creek, and in the use of water diverted, stored and regulated thereby, are made:

(a) The quantity of water delivered for use in the two States by direct flow ditches in the Costilla-Garcia Area and by the Cerro Canal is based on a Duty of Water of one cubic foot per second of time for each eighty (80) acres, to be applied in the order of priority; provided, however, that this adjustment in each instance is based on the acreage as determined by the court in decreeing the water rights for the Costilla-Garcia Area, and in the case of the Cerro Canal such basis shall apply to eight thousand (8,000) acres of land; and provided further that, in order to maintain a usable head, any ditch supplying water for the Costilla-Garcia Area in Colorado shall be permitted to divert for beneficial consumptive use not less than one cubic foot per second of time under its water right.

(b) There is transferred from certain ditches in the Costilla-Garcia Area twenty-four and fifty-two hundredths (24.52) cubic feet per second of time of direct flow water rights, which rights of use are held by the Water Company or its successors in title, to the headgate of the Cerro Canal. The twenty-four and fifty-two hundredths (24.52) cubic feet of water per second of time hereby transferred represents an evaluation of these rights after adjustment in the Duty of Water, pursuant to subsection (a) of this Article, and includes a reduction thereof to compensate for increased use of direct flow water which otherwise would have been possible under these rights by this transfer.

(c) Except for the rights to store water from Costilla Creek in Eastdale Reservoir No. 1 as hereinafter provided, all diversion and storage rights from Costilla Creek for Eastdale Reservoirs No. 1 and No. 2 are relinquished and the water decreed thereunder is returned to the creek for use in accordance with the plan of integrated operation effectuated by this compact.

(d) The Cerro Canal direct flow permit shall be seventy-five and forty-eight hundredths (75.48) cubic feet per second of time.

2. Each State grants for the benefit of the other and its water users the rights to change the points of diversion of water from Costilla Creek, to divert water from the stream in one State for use in the other and to store water in one State for the irrigation of lands in the other, insofar as the exercise of such rights may be necessary to effectuate the provisions of this Article and to comply with the terms of this compact.
3. The Water Company has consented to and approved the adjustments contained in this Article; and such consent and approval shall be evidenced in writing and filed with the Commission.

**ARTICLE IV**

The apportionment and allocation of the use of Costilla Creek water shall be as follows:

(a) There is allocated for diversion from the natural flow of Costilla Creek and its tributaries sufficient water for beneficial use on meadow and pasture lands above Costilla Reservoir in New Mexico to the extent and in the manner now prevailing in that area.

(b) There is allocated for diversion from the natural flow of Costilla Creek and its tributaries thirteen and forty-two hundredths (13.42) cubic feet of water per second of time for beneficial use on lands in the Amalia Area in New Mexico.

(c) In addition to allocations made in subsections (e), (f), and (g) of this Article, there is allocated for diversion from the natural flow of Costilla Creek fifty-one and forty-two hundredths (51.42) cubic feet of water per second of time for Colorado and eighty-eight and twenty-eight hundredths (88.28) cubic feet of water per second of time for New Mexico, subject to adjustment as provided in Article V (e), and such water shall be delivered for beneficial use in the two States in accordance with the schedules and under the conditions set forth in Article V.

(d) There is allocated for diversion from the natural flow of Costilla Creek sufficient water to provide each year one thousand (1,000) acre-feet of stored water in Eastdale Reservoir No. 1, such water to be delivered as provided in Article V.

(e) There is allocated for diversion to Colorado thirty-six and five-tenths percent (36.5%) and to New Mexico sixty-three and five-tenths percent (63.5%) of the water stored by Costilla Reservoir for release therefrom for irrigation purposes each year, subject to adjustment as provided in Article V (e) and such water shall be delivered for beneficial use in the two States on a parity basis in accordance with the provisions of Article V. By “parity basis” is meant that neither State shall enjoy a priority of right of use.

(f) There is allocated for beneficial use in each of the States of Colorado and New Mexico one-half of the Surplus Water, as defined in Article II (p), to be delivered as provided in Article V.

(g) There is allocated for beneficial use in each of the States of Colorado and New Mexico one-half of any water made available and usable by Additional Storage Facilities which may be constructed in the future.

**ARTICLE V**

The operation of the facilities of Costilla Creek and the delivery of water for the irrigation of land in Colorado and New Mexico, in accordance with the allocations made in Article IV, shall be as follows:

(a) Diversions of water for use on lands in the Amalia Area shall be made as set forth in Article IV (b) in the order of decreed priorities in New Mexico and of relative priority dates in the two States, subject to the right of New Mexico to change the points of diversion and places of use of any of such water to other points of diversion and places of use; provided, however, that the rights so transferred shall be limited in each instance to the quantity of water actually consumed on the lands from which the right is transferred.
(b) Deliveries to Colorado of direct flow water below the Canyon Mouth shall be made by New Mexico in accordance with the following schedule:

The actual discharges of Costilla Creek at the canyon mouth gaging station at which the various blocks of direct flow water become effective shall equal the flows set forth in column (1) increased by the transmission losses necessary to deliver those flows to the headgates of the respective direct flow ditches.

The delivery of ditch water at the boundary shall equal the allocation set forth in column (2b) reduced by the transmission losses between the headgate of the ditch and the point where the ditch crosses the boundary. The allocation to be delivered to Colorado through the Cerro Canal is in each and all cases 36.5 per cent of those blocks of direct flow water of the Costilla Reservoir system which are subject to adjustment as provided in subsection (e) of this article.

The delivery of water in the creek at the boundary shall equal the allocation set forth in column (2b) increased by the transmission losses between the boundary and the headgate of the Colorado ditch which is to receive the water.

The above table is compiled on the basis of the delivery to Colorado at the Boundary of thirty-six and five-tenths per cent (36.5%) of all direct flow water of the Costilla Reservoir System diverted by the Cerro Canal and the delivery at the Boundary of all other direct flow water allocated to Colorado, in the order of priority, all such deliveries to be adjusted for transmission losses. In the event of change in the Usable Capacity of the Costilla Reservoir, Colorado's share of Cerro Canal diversions, to be delivered at the Boundary and adjusted for transmission losses, shall be determined by the percentages set forth in Column (4) of the table which appears in subsection (e) of this Article.
Water stored in Costilla Reservoir and not released during the current season shall not be held over to the credit of either State but shall be apportioned when the safe yield is subsequently determined. 

(f) The Colorado apportionment of Surplus Water, as allocated in Article IV (f), shall be delivered by New Mexico at such points of interstate delivery and in the respective quantities, subject to transmission losses, requested by the Colorado member of the Commission. 

(g) In the event that additional water becomes usable by the construction of Additional Storage Facilities, such water shall be made available to each State in accordance with rules and regulations to be prescribed by the Commission. 

(h) When it appears to the Commission that any part of the water allocated to one State for use in a particular year will not be used by that State, the Commission may permit its use by the other State during that year, provided that a permanent right to the use of such water shall not thereby be established.

**ARTICLE VI**

The desirability of consolidating various of the direct flow ditches serving the Costilla-Garcia Area, which are now or which would become interstate in character by consolidation, and diverting the water available to such ditches through a common headgate is recognized. Should the owners of any of such ditches, or a combination of them, desire to effectuate a consolidation and provide for a common headgate diversion, application therefor shall be made to the Commission which, after review of the plans submitted, may grant permission to make such consolidation.

**ARTICLE VII**

The Commission shall cause to be maintained and operated a stream-gaging station, equipped with an automatic water-stage recorder, at each of the following points, to-wit:

(a) On Costilla Creek immediately below Costilla Reservoir.

(b) On Costilla Creek at or near the Canyon Mouth above the headgate of Cerro Canal and below the Amalia Area.

(c) On Costilla Creek at or near the Boundary.

(d) On the Cerro Canal immediately below its headgate.

(e) On the Cerro Canal at or near the Boundary.

(f) On the intake from Costilla Creek to the Eastdale Reservoir No. 1, immediately above the point where the intake discharges into the reservoir.

(g) On the Acequia Madre immediately below its headgate.

(h) On the Acequia Madre at the Boundary.

(i) Similar gaging stations shall be maintained and operated at such other points as may be necessary in the discretion of the Commission for the securing of records required for the carrying out of the provisions of the compact.

Such gaging stations shall be equipped, maintained, and operated by the Commission directly or in cooperation with an appropriate federal or state agency, and the equipment, method, and frequency of measurement at such stations shall be such as to produce reliable records at all times.

**ARTICLE VIII**

The two States shall administer this compact through the official in each State who is now or may hereafter be charged with the duty of administering the public water supplies, and such officials shall constitute the Costilla Creek Compact Commission. In addition to

[Public Law 413]

To grant to the Federal Works Administrator certain powers with respect to site acquisition, building construction, purchase of buildings, and other matters.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Federal Works Administrator is hereby authorized under the provisions of the Public Buildings Act of May 25, 1936, as amended (40 U. S. C. 341-347), and as hereby further amended—

(a) For projects outside of the District of Columbia: To construct extensions to the marine hospitals at Seattle, Washington, and San Francisco, California; to purchase buildings either unencumbered or subject to existing leases where in his determination it is advantageous to do so and to remodel the same; and to establish the limits of cost and design new building projects where the sites are in Government ownership, notwithstanding the fact that appropriations for construction work shall not have been made. The total limit of cost for the foregoing shall be $13,000,000, and the unobligated balances of appropriations heretofore made for the construction of projects outside the District of Columbia are hereby made available for this purpose.

(b) To acquire additional land in and contiguous to the area in the District of Columbia defined in the Act of March 31, 1938 (52 Stat. 149), under a limit of cost of $2,000,000. Funds for this purpose are hereby made available from the unobligated balances of appropriations heretofore made for the construction of buildings outside the District of Columbia.

Sec. 2. The limit of cost for the site and building for the West Central Heating Plant, Washington, District of Columbia, authorized in the First Supplemental Civil Functions Appropriation Act, 1941, as amended by Public Law 371, Seventy-seventh Congress, approved December 23, 1941, is hereby increased to $7,750,000.

Sec. 3. For the extension of the site of the Barge Office, New York, New York, and to permit the city of New York to proceed with the development of its highway system, the Federal Works Administrator is hereby authorized to exchange a portion of the site of the Barge Office, for land owned by the city upon such terms and conditions as are mutually satisfactory to the Administrator and the city government of New York.

Sec. 4. The last two provisos of section 2 of the Act of August 27, 1935, as amended (40 U. S. C. 304b), beginning with the words: "Provided further, That the amount so charged against any Federal agency * * *" to the end of the section are hereby repealed.

Section 3 of the Act of August 27, 1935, as amended (40 U. S. C. 304c), is hereby amended to read as follows:

"The Commissioner of Public Buildings is authorized to procure space by lease, on such terms and for such period not in excess of five years as he may deem in the public interest, for the housing of any Federal agency or agencies outside of the District of Columbia, except the Post Office Department, and to assign and reassign
such space. To the extent that the appropriations of the Public Buildings Administration not otherwise required are inadequate therefor, the Commissioner of Public Buildings may require each Federal agency to which leased space has been assigned to pay promptly by check to the Public Buildings Administration out of its available appropriations, either in advance or during occupancy of such space, all or part of the estimated cost of rent, repairs, alterations, maintenance, operation, and moving: Provided, That when space in a building is occupied by two or more agencies, the Commissioner of Public Buildings shall determine and equitably apportion rental, operation, and other charges on the basis of the total amount of space so leased."

SEC. 5. The Commissioner of Public Buildings is authorized to maintain a survey of the use of Government-owned and leased office space in the larger metropolitan centers and the District of Columbia, including adjacent areas, and to study and determine the extent to which consolidation, reassignment, and reallocation of office space, including the cancellation of uneconomical leases, would be advantageous to the Government. Where he finds uneconomical use of space in buildings operated or leased by the Public Buildings Administration, he shall direct and prescribe its economical use or its surrender. Where such conditions are found to exist in space operated or leased by others than the Public Buildings Administration, he shall report his findings to those responsible therefor to the end that economical use of office space and cooperation between all agencies of the Government on space problems may be achieved. This section shall not apply to the Executive Mansion and Office of the President, buildings under the jurisdiction of the Regents of the Smithsonian Institution, buildings in or under the legislative branch of the Government, buildings structurally or domestically maintained by the Architect of the Capitol, or to buildings operated by the Post Office Department.

SEC. 6. That portion of the Act of March 2, 1913 (40 U.S.C. 36), pertaining to the leasing of storage space in the District of Columbia, is hereby amended to read as follows:

"The Commissioner of Public Buildings is authorized to enter into contracts for the leasing, for periods of not exceeding five years, of storage accommodations within the District of Columbia for the use of the several activities of the Government, subject to the provisions of section 922 of the Act of June 30, 1932, as amended (40 U.S.C. 278a), payable from appropriations that Congress may from time to time make for rent of buildings in the District of Columbia: Provided, That the authority granted herein shall also extend to the head of any department or establishment of the Government to which an appropriation is made specifically for the rental of storage accommodations within the District of Columbia."

SEC. 7. The Commissioner of Public Buildings is authorized to provide and operate public utility communications services serving one or more governmental activities, in and outside the District of Columbia, where it is found that such services are economical and in the interest of the Government. This section does not apply to communications systems for handling messages of a confidential or secret nature, or to the operation of cryptographic equipment or transmission of secret, security, or coded messages, or to buildings operated or occupied by the Post Office Department, except upon request of the department or agency concerned.

SEC. 8. Hereafter, subject to applicable provisions of existing law relating to the functions in the District of Columbia of the National
Capital Park and Planning Commission and the Commission of Fine Arts, only the Commissioner of Public Buildings shall be required to approve sketches, plans, and estimates for buildings to be constructed by the Public Buildings Administration, except in the case of buildings designed for post-office purposes which shall be approved by the Commissioner of Public Buildings and the Postmaster General.

Sec. 9. In the prosecution of construction projects or planning programs assigned to the Public Buildings Administration for which funds are provided by direct appropriation or transferred under authority contained in the Act of June 15, 1938 (40 U. S. C. 265), an amount administratively determined as necessary for the payment of salaries and expenses of personnel engaged upon the preparation of plans and specifications, field supervision, and general office expense, may be transferred and consolidated on the books of the Treasury Department into a special account for direct expenditure in the prosecution of said work, such expenditures to be subsequently allocated and reported upon by projects in accordance with procedures prescribed by the General Accounting Office.

Sec. 10. The Federal Works Administrator is hereby authorized to dispose of that parcel of land situated in the city of Washington, District of Columbia, described as lot numbered 71 in square 234, improved by premises 2218 Thirteenth Street Northwest, together with the improvements thereon, in such manner and upon such terms as he may deem to be for the best interest of the United States, to convey the said land, together with improvements thereon, to the purchaser thereof by quitclaim deed, and to deposit the proceeds of said sale in the Treasury of the United States as miscellaneous receipts.

Sec. 11. The Federal Works Administrator is hereby authorized to assume permanent custody and control for the use of the Public Buildings Administration, without reimbursement, of that portion of the Denver Ordnance Plant, Denver, Colorado (which has been declared surplus and assigned to the Public Buildings Administration as disposal agency by the Surplus Property Administration), comprised of section 9, and the west half of the west half of section 10, township 4 south, range 69 west, the tract numbered 1, township 4 south, range 69 west (railroad right-of-way), located in section 4, and tract numbered 1 (pump house property), comprising an area one hundred and five feet by four hundred feet located in section 34, township 3 south, range 69 west, together with all buildings, appurtenances, equipment, and supplies necessary for the maintenance, operation, and protection of the area described, and the Public Buildings Administration may operate the plant and assign and reassign space to such Federal agencies as may be accommodated therein.

Sec. 12. The Federal Works Administrator is authorized to convey, upon such terms as he shall deem to be in the public interest, that parcel of land, together with the improvements thereon, described as "All of block 172, City of Portland, in the City of Portland, County of Multnomah, State of Oregon", in exchange for any lands in such city which, in his determination, are more suitable for use as a site for the erection of a new Federal building.

Sec. 6. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such sums as may be necessary to carry out the provisions of this Act: Provided, That articles or services furnished pursuant to the provisions of this Act shall be within the limits of appropriations made specifically for that purpose or to the extent of availability of items which are surplus to the needs of the United States Government.

"SEC. 34. APPOINTMENT, REAPPOINTMENT, AND REMOVAL OF REFEREES:

(a) APPOINTMENT.—The judges of the several courts of bankruptcy shall appoint referees. Where there is more than one judge of a court of bankruptcy, or where the territory to be served by a referee includes territory in more than one judicial district, the appointment, whether an original appointment or a reappointment, shall be by the concurrence of a majority of all the judges of such court or of the courts of bankruptcy of such judicial districts, and where there is no such concurrence, then by the senior judge. Except as otherwise provided in section 37 of this Act, each appointment and reappointment shall be for a term of six years.

(b) REMOVAL.—Removal of a referee during the term for which he is appointed shall be only for incompetency, misconduct, or neglect of duty: Provided, however, That, in the case of a part-time referee, an additional cause for removal shall be that his services are not needed. Any cause for removal in respect of any referee coming to the knowledge of the Director shall be reported by him to the judge or judges of the judicial district or districts in which such referee serves, and a copy of such report shall at the same time be transmitted to the council and to the referee. Such judge or judges may, upon receipt of such report, or upon their own motion, remove the referee for any one or more of the above mentioned causes; where there is more than one judge, such removal shall be by a concurrence of a majority of the judges, and where there is no such concurrence, then by the council. Before any order of removal shall be entered, except in the case of a part-time referee where the cause for removal is that his services are not needed, a full specification of the charges shall be furnished to the referee, and he shall be accorded by the removing judge or judges an opportunity to be heard on the charges.

Sec. 3. Section 35 of such Act, as amended, is amended to read as follows:

"SEC. 35. QUALIFICATIONS OF REFEREES.—Individuals shall not be eligible to appointment as referees unless they are (1) competent to perform the duties of a referee in bankruptcy; (2) not holding any office of profit or emolument under the laws of the United States or of any State or subdivision thereof other than conciliation commissioner or special master under this Act: Provided, however, That part-time referees may be commissioners of deeds, United States commissioners, justices of the peace, masters in chancery, notaries public, or either conciliation commissioners or supervising conciliation commissioners but not both; (3) at the time when originally appointed not relatives of any of the judges of the courts of bankruptcy or of the justices or judges of the appellate courts of the districts wherein they may be
appointed; (4) resident and have their offices within the judicial district of the court or one of the courts of bankruptcy under which they are to hold appointment: Provided, however, That where a referee shall be temporarily transferred or permanently appointed to another judicial district, residence or office in such other district shall not be requisite for eligibility; and (5) members in good standing at the bar of the district court of the United States in which they are first appointed or, if appointed to serve in territory within more than one judicial district, at the bar of one of such district courts: Provided, however, That the requirement of membership at such bar shall not apply to referees holding office on the date when this amendatory Act takes effect."

SEC. 4. Section 37 of such Act, as amended, is amended to read as follows:

"SEC. 37. NUMBER AND TERRITORIES OF REFEREES.—a. The Director shall recommend to the district judges, the councils and the conference the number of referees to hold appointment and the territory which each shall serve, after he has made a careful study of conditions throughout the country as a whole, and of local conditions, including the estimated amount of funds available for salaries, the areas and the populations to be served, the transportation and communication facilities, the previous types and amount of business under this Act in such areas and where such business is centered, the existing personnel, and any other material factors. The territory of a referee may, if it is deemed advisable, lie within more than one judicial district, but shall be within one circuit: Provided, however, That the jurisdiction of a referee in any matter referred to him shall not be restricted to the territory to be served by him but shall, unless otherwise provided in this Act, be coextensive with the territorial jurisdiction of the court or courts of bankruptcy whose judges participated in appointing him.

"b. (1) The Director shall, within one year immediately following the date of the enactment of this amendatory Act, make the initial surveys required by subdivision a of this section, and required for subdivisions a and c of section 40, paragraph (2) of section 633, and paragraph (3) of section 659 of this Act. Thereafter, the Director shall, from time to time, make such surveys, general or local, as the conference shall deem expedient. In the course of such surveys, the Director shall give consideration to suggestions from any interested parties including district judges, referees, bar associations, trade associations, and the like. The surveys shall be made with a view toward creating and maintaining a system of full-time referees. However, should the Director find, as a result of any such surveys, any area in which the employment of a full-time referee would not be feasible because of the small amount of business under this Act and the extent of the territory to be served, he shall also report separately thereon, with a statement of all the pertinent facts and data and his recommendations and the reasons therefor. Upon the completion of the initial surveys, the Director shall report to the district judges, the councils and the conference concerning the number of referees, their respective territories, the amounts of their respective salaries, and the schedules of additional fees to be charged in asset, arrangement and wage-earner cases. The district judges shall advise their respective councils, and the councils shall advise the conference, in respect thereto, stating their recommendations and their reasons therefor. The conference shall determine, in the light of the recommendations of the Director and of the councils, the number of referees, full-time and part-time, to be appointed, the respective territories which they shall serve, including the regular place of office and the places at which courts shall be held, their respective salaries, and schedules of graduated additional

fees to be charged in asset, arrangement and wage-earner cases, and such determinations shall become effective sixty days after they are promulgated by the conference.

"(2) The Director shall, upon such promulgation, divide by lot the total number of referees first to be appointed as equally as possible into three classes. The initial terms of the referees in the first class shall expire at the end of the second year, in the second class at the end of the fourth year, and in the third class at the end of the sixth year.

"(3) Thereupon the Director shall report in writing to the judge or judges of the several courts of bankruptcy the number of referees to be appointed by them in each of the three classes above specified, the respective territories which such referees shall serve, and the respective salaries to be paid to them. The judge or judges shall thereupon appoint, pursuant to subdivision a of section 34 of this Act, such referees in each of the specified classes for terms commencing sixty days after such promulgation of the determinations of the conference, and shall select them as far as practicable from the referees then in office within their respective judicial districts.

"c. Except as otherwise provided in this Act, the conference may, from time to time, in the light of the recommendations of the councils, made after advising with the district judges of their respective circuits, and of the Director, change the number of referees and the extent of the respective territories to be served by them, as the expeditious transaction of the business of the several courts of bankruptcy may require."

Sec. 5. Subdivision b of section 39 of such Act, as amended, is amended to read as follows:

"b. Referees shall not (1) act in cases in which they are directly or indirectly interested; or (2) purchase, directly or indirectly, any property of an estate in any proceeding under this Act. Active full-time referees shall not exercise the profession or employment of counsel or attorney, or be engaged in the practice of law. Active part-time referees, and referees receiving benefits under paragraph (1) of subdivision d of section 40 of this Act, shall not practice as counsel or attorney in any proceeding under this Act."

Sec. 6. Section 40 of such Act, as amended, is amended to read as follows:

"Sec. 40. Compensation of Referees; Referees' Salary and Expense Funds; Retirement of Referees. a. Referees shall receive as full compensation for their services salaries to be fixed by the conference, in the light of the recommendations of the councils, made after advising with the district judges of their respective circuits, and of the Director, at rates not more than $10,000 per annum for full-time referees, and not more than $5,000 per annum for part-time referees. In fixing the amount of salary to be paid to a referee, consideration shall be given to the average number and the types of, and the average amount of gross assets realized from, cases closed and pending in the territory which the referee is to serve, during the last preceding period of ten years, and to such other factors as may be material. Disbursement of such salaries shall be made monthly by or pursuant to the order of the Director.

b. The conference, in the light of the recommendations of the councils, made after advising with the district judges of their respective circuits, and of the Director, may increase or decrease any salary, within the limits prescribed in subdivision a of this section, if there has been a material increase or decrease in the volume of business or other change in the factors which may be considered material in fixing salaries: Provided, however, That during the tenure of any full-time referee his salary shall not be reduced below that at which
he was originally appointed under this amendatory Act, and during any term of any such referee his salary shall not be reduced below the salary fixed for him at the beginning of that term: \textit{And provided further.} That no salary fixed under the provisions of this section for a full-time referee shall be changed more often than once in any two years or in an amount of less than $250.

"c. (1) Except as otherwise provided in this Act, there shall be deposited with the clerk, at the time the petition is filed in each case, and at the time an ancillary proceeding is instituted, (a) $17 for each estate for the referees' salary fund, and (b) $15 for each estate for the referees' expense fund, as hereinbelow established: \textit{Provided, however,} That in cases of voluntary bankruptcy such fees, as well as the filing fees of the clerk and trustee, may be paid in installments, if so authorized by General Order of the Supreme Court of the United States.

"(2) Additional fees for the referees' salary fund and for the referees' expense fund shall be charged, in accordance with the schedules fixed by the conference (a) against each estate wholly or partially liquidated in a bankruptcy proceeding, and be computed upon the net proceeds realized; (b) against each case in an arrangement confirmed under chapter XI of this Act, and be computed upon the amount to be paid to the unsecured creditors upon confirmation of the arrangement and thereafter, pursuant to the terms of the arrangement, and, where under the arrangement any part of the consideration to be distributed is other than money, upon the amount of the fair value of such consideration; and (c) against each case in a wage-earner plan confirmed under chapter XIII of this Act, and be computed upon the payments actually made by or for a debtor under the plan. Such schedules of fees may be revised by the Director, with the approval of the conference, not more than once during each calendar year, so that the total amount of fees, allowances and charges collected and to be collected from all sources for the referees' salary fund and the referees' expense fund will, as nearly as may be, equal for each fund, respectively, the total amount of salaries paid and to be paid to referees in active service, and the total amount of their expenses: \textit{Provided, however,} That such schedules of fees shall not be so revised for any year that the total collections estimated by the Director for such year shall exceed by more than 10 per centum the total collections in the preceding year. The Director, with the approval of the conference, may make, and from time to time amend, rules and regulations prescribing methods for determining net proceeds realized in asset cases, fair values of considerations, other than money, distributable in arrangement cases, and payments actually made by or for a debtor under the plan in wage-earner cases; prescribing the procedure for collection by the clerk of fees and allowances for the referees' salary fund and the referees' expense fund; and providing for the effective administration of the provisions of this paragraph (2).

"(3) Charges for the expense of special services relating to or in connection with proceedings before referees shall be made and collected by the referees in accordance with regulations to be prescribed by the Director, with the approval of the conference, and the proceeds shall be paid by the referees to the clerk for transmission to the Treasury of the United States for deposit in the referees' expense fund.

"(4) A referee's salary fund and a referee's expense fund shall be established in the Treasury of the United States, and the amounts of the various fees and allowances collected by the clerks for the services of referees, and for their expenses, including the fees, allowances and charges for their services and expenses as conciliation commissioners and as special masters under this Act, shall be covered into the Treasury of the United States for the account of such salary fund.
and expense fund. The salaries of the referees in active service shall be paid out of annual appropriations from such salary fund, and the expenses of the referees, including the salaries of their clerical assistants, shall be paid out of annual appropriations from such expense fund, by the United States. Any deficiencies of such salary fund or expense fund shall be paid out of any funds in the Treasury of the United States not otherwise appropriated, and appropriations to pay such deficiencies are hereby authorized: Provided, however, That there shall be covered into miscellaneous receipts of the Treasury of the United States in any subsequent year so much of the surplus, if any, arising in the salary fund or expense fund respectively as may be necessary to reimburse the Treasury of the United States for payments made on account of such respective funds in any prior year.

"(5) As of the day preceding the date when the referees, as provided by paragraph (2) of subdivision b of section 37 of this Act, are to take office, an allocation shall be made by the judge or judges of the several courts of bankruptcy of all filing and other fees, commissions, and allowances, and of all expense funds, due the then existing referees for services rendered and expenses incurred in the cases pending before them, whether as referee, conciliation commissioner, or special master under this Act. The balances of such filing and other fees, commissions, and allowances and the expense surpluses shall be covered into the Treasury of the United States by the referees and the clerks, to be deposited to the credit of the respective salary and expense funds. All cases pending before outgoing referees shall be referred, and no additional filing fees shall be required, but additional salary and expense charges may be assessed in such cases in such amounts as the judge or judges of the several courts of bankruptcy may deem equitable, taking into consideration the schedules of additional fees fixed by the Director and the payments previously made therein.

"d. (1) All referees in bankruptcy and employees in the offices of such referees shall be deemed to be officers and employees in the judicial branch of the United States Government within the meaning of section 3 of the Civil Service Retirement Act of May 29, 1930, as amended.

"(2) Any referee who has retired or been retired under the provisions of paragraph (1) of this subdivision d may, if called upon by a judge of a court of bankruptcy, perform, without compensation, such duties of a referee, conciliation commissioner or special master under this Act, within the jurisdiction of such court, as such referee may be able and willing to undertake: Provided, however, That when so acting, compensation for his services shall be allowed and paid or deposited and his expenses shall be allowed and paid, as in the case of an active referee."

SEC. 7. Section 43 of such Act, as amended, is amended to read as follows:

"SEC. 43. Vacancies; Referee's Absence or Disability.—Whenever the office of a referee is vacant, or its occupant is absent or disqualified to act, the clerk of the district court in which the territory or any part of the territory served by such referee is located shall immediately notify the Director of such fact.

"b. Whenever the office of a referee is vacant, the Director shall recommend to the district judges, the councils and the conference whether a new appointment should be made, and no such appointment shall be made until authorized by the conference.

"c. Whenever the office of a referee is vacant or its occupant is temporarily absent or disqualified to act, or whenever the expeditious transaction of the business of the court or courts of bankruptcy may require, the judge, or any one of the judges, may act, or another referee
holding appointment under such court or courts of bankruptcy may be designated by the judge, or by a concurrence of a majority of the judges where there is more than one judge, and where there is no such concurrence, then by the council, to act; or the council may designate another referee from within the same circuit to act, or the council may order that pending cases be rereferred and future cases referred to one or more referees within the same circuit; or the conference may temporarily assign a referee from another circuit to act."

SEC. 8. (a) Clause (2) of section 51 of such Act, as amended, is amended to read as follows:

"(2) collect the fees of the clerk and trustee and the fees for the referees' salary fund and referees' expense fund provided in paragraph (1) of subdivision c of section 40 of this Act in each case instituted before filing the petition, except where installment payments may be authorized pursuant to section 40 of this Act, and collect the various other fees, allowances and charges for the services of referees and for their expenses, including their services and expenses as conciliation commissioners and as special masters under this Act.;"

(b) Clause (5) of such section is amended to read as follows:

"(5) transmit to the Treasury of the United States all fees, allowances and charges collected for the referees' salary fund and the referees' expense fund, and transmit to the trustee, within ten days after a case has been closed, the fee collected for him at the time of the filing of the petition."

SEC. 8a. Subdivision a of section 52 of such Act, as amended, is amended to read as follows:

"Sec. 52a. Clerks shall charge and collect for their services to each estate, whether in a court of primary or ancillary jurisdiction, a filing fee of $8. The clerk may collect this amount in installments when such installment payments have been authorized by General Order of the Supreme Court of the United States."

SEC. 9. Section 53 of such Act, as amended, is amended to read as follows:

"Sec. 53. Statistics.—The Director annually shall lay before Congress statistical tables which will accurately reflect the business transacted by the several bankruptcy courts, a statement of the amounts received and disbursed for the referees' salary fund and referees' expense fund, and all other pertinent data."

SEC. 10. Section 54 of such Act, as amended, is hereby repealed.

SEC. 11. (a) Subdivision a of section 62 of such Act, as amended, is amended to read as follows:

"Sec. 62. Expenses of Administering Estates; Unauthorized Sharing of Fees; Withholding Allowances.—a. If approved, they shall be paid or allowed out of the estates in which they were incurred."

"(2) The actual and necessary office and other expenses of referees shall be allowed when authorized and approved by the Director, including compensation of clerical, stenographic and other assistants of referees at rates to be fixed by the Director, taking into consideration the rates for comparable services prevailing in the respective offices of the clerks of the several district courts, and the costs of establishing and maintaining their offices with equipment and supplies adequate for their efficient and economical operation, including mechanical equipment and devices and law libraries. Such expenses may be
allowed when authorized by a judge of the judicial district or districts in which a referee serves in cases of emergency where it is not feasible to secure prior authorization of the Director. The Director, with the approval of the conference, may prescribe such rules and regulations as may be necessary for the purpose of carrying out the provisions of this paragraph (2).

“(3) When, in the opinion of the Director, the public interest requires it, he may, on the recommendation of a referee, which recommendation shall state facts showing the necessity for the same, allow the referee to employ necessary clerical, stenographic, and other assistants. The referee may at his pleasure remove any assistant in his employ. If the office of a referee shall become vacant, the employment of his assistants shall not thereupon be terminated: Provided, however, That during such vacancy the Director may terminate the employment of any assistant, if, in his opinion, the services of such assistant are no longer needed.

“(4) Referees and special masters under this Act shall be entitled to transmit in the mails, free of postage, under cover of a penalty envelope, all matters which relate exclusively to the business of the courts, including notices in proceedings under this Act.”

(b) Subdivision b of such section is amended to read as follows:

“(2) When authorized and approved by the Director, the assistants of referees shall be entitled to the same travel allowances as are provided for employees of the executive branch of the United States Government under the standardized Government travel regulations issued by the President, while absent from their regular place of employment on official business.

“(3) Payment of the expenses allowed or per diem granted under subdivision b and paragraph (2) of subdivision a of this section shall be by or pursuant to the order of the Director.”

SEC. 13. Section 72 of such Act, as amended, is amended to read as follows:

“SEC. 72. LIMITATION OF COMPENSATION OF OFFICERS OF COURT.—No receiver, marshal, or trustee shall in any form or guise receive, nor shall the court allow him, any other or further compensation for his services as required by this Act, than that expressly authorized and prescribed in this Act.
“No referee shall receive any compensation for his services under this Act other than his salary; and allowances made to a referee for compensation or expense while acting as a conciliation commissioner under section 75, or as a referee or special master under any chapter or section of this Act, shall be paid to the clerk, and by him transmitted to the Treasury of the United States for deposit in the referees’ salary fund and referees’ expense fund, respectively.”

The judge may, at any stage of a proceeding under this chapter, refer the proceeding to a referee in bankruptcy to hear and determine any and all matters not reserved to the judge by the provisions of this chapter, or to a referee as special master, to hear and report generally or upon specified matters. Only under special circumstances shall references be made to a special master who is not a referee. The appointment of a receiver in a proceeding under this chapter shall be by the judge.”

Sec. 15. Paragraph numbered (3) of section 624 of such Act, as amended, is amended to read as follows:

“Tract.”

(3) Where the Secretary of the Interior finds that certain non-
Indian-owned lands subject to the pro rata share of the costs dealt
with in section 1, as well as Indian-owned lands within the irrigation
project, cannot be put to immediate productive use due to a need of
proper drainage facilities; need of clearing and leveling; need of
additional project construction work; present unfavorable soil condi-
tions which can be corrected at an economic cost, he shall declare such
lands temporarily nonirrigable until such time as he shall determine
such lands can be put to productive use, and no irrigation project
charges shall be assessed against such lands during such periods. Upon
application of the landowners the Secretary of the Interior is author-
ized to eliminate from the project five hundred and four and nine-
tenths acres of land located in sections 21, 27, and 28 of township 5
south, range 26 east, and in section 10 of township 1 north, range 33
east, described in the district engineer’s report of November 29, 1945,
to the Commissioner of Indian Affairs on the conditions of the Crow
Indian irrigation project.

(4) The cost of the necessary survey to determine the irrigable
acreage of the project, made by the land designation committee, whose
report was approved by the Secretary of the Interior in 1944, shall be
reimbursed in a sum not to exceed $5,000 by the owners of project lands
in Indian and non-Indian ownership. Such costs shall be reimbursed
by the project landowners over a period not to exceed three years.
During this period each year the per-acre annual operation and main-
tenance charge shall be increased in amount sufficient to insure the
per acre repayment of this cost.

(5) All obligations arising out of contracts heretofore entered into
with the United States for the payment to the United States of con-
struction charges in connection with this project are hereby canceled,
and all lands heretofore covered by such contracts shall be subject to
the provisions of subsections (1), (2), (3), and (4) of this section.

(6) The provisions of this section shall become operative only when
the Secretary of the Interior shall determine that the contracts con-
templated by section 3 have been entered into, and that the releases
required by section 2 have been obtained.

SEC. 2. The Secretary of the Interior shall obtain releases of claims
which non-Indians owning lands under the Crow irrigation project
may have against the United States on account of the construction
of the Crow irrigation project or the assessment or collection of con-
struction or operation and maintenance charges in connection with
the project.

SEC. 3. The Secretary of the Interior may enter into contracts
with irrigation districts acting on behalf of all non-Indians owning
land under the Crow irrigation project in which the irrigation dis-
tricts shall agree to pay the charge of $45,000 fixed by subsection (1)
of section 1. Such contracts shall provide for the payment of the
aforesaid sum on a per-acre basis without interest over a twenty-year
period in equal annual installments, credits to be given in the amounts
allowable under subsection (2) of said section 1; for the payment by
the districts of the proportionate share chargeable to the lands within
the districts of the annual cost of operation and maintenance of the
project; and for a first lien on the lands within the districts in favor
of the United States for the repayment of such construction and
operation and maintenance charges.

SEC. 4. The Secretary of the Interior may enter into contracts with
irrigation districts acting on behalf of all non-Indians owning lands

under the Crow irrigation project on the Little Big Horn River watershed in which the irrigation districts shall agree to repay to the United States the proportionate share chargeable to the non-Indian lands within the districts of the reimbursable cost of construction of the Willow Creek storage works not to exceed $210,726. The contracts with the districts shall provide for delivery by the Secretary or his duly authorized representative to lands within the irrigation districts of the proper share of the waters stored by the Willow Creek storage works, for the repayment of such construction charges on a per-acre basis in equal annual installments over a forty-year period without interest, and for the payment on a per-acre basis of the proportionate share chargeable to the lands within the district of the cost of the annual operation and maintenance of the Willow Creek storage works. The contracts shall provide that the United States shall have no lien on the lands included within the irrigation districts for the repayment of the share of the construction cost of the Willow Creek storage works to be paid by the irrigation districts under the contracts. In the event of the failure of the districts to fulfill their obligations of contracts with the United States before entire repayment of the construction charges shall have been completed under the contract, all unpaid portions of such construction charges shall again become charges against the lands within the districts and the United States shall again have a first lien on the lands for the repayment of such charges remaining unpaid. The contracts may provide that if during any year the operation of the Willow Creek storage works is so affected in any way, except by lack of adequate precipitation, that no delivery of storage waters can be made to lands within the irrigation districts, the payments by the districts of construction charges shall be suspended, and that upon resumption of operation the payment of annual construction charges shall also be resumed until the total charges fixed by the contracts shall have been paid. If the irrigation districts at any time shall fail to pay the construction or operation and maintenance charges as provided in the contracts, the Secretary of the Interior shall not deliver any stored waters from the Willow Creek storage works to lands within the districts until the districts shall have complied with the provisions of the contracts.

Until such time as the irrigation district or districts shall execute a contract as herein provided for, the lands within said district or districts shall not be liable for either the construction or operation and maintenance charges of the Willow Creek storage works, nor shall such lands be entitled to any benefits from said storage works, either by the direct use of the stored water or by substituted water, except as authorized by section 8 of this Act.

Sec. 5. The Secretary of the Interior may enter into contracts with non-Indians owning lands on the Little Big Horn River watershed under private ditches which have been constructed prior to the date of approval of this Act, in which, on the same terms and conditions as are contained in the contracts entered into pursuant to section 4, such owners shall agree to the repayment of their proper proportionate share of the reimbursable cost of construction and the cost of operation and maintenance of the Willow Creek storage works, and the Secretary shall agree to deliver water to their ditches. The covenants of each such contract shall run with the land, and the contract shall provide for a first lien in favor of the United States for the repayment of such construction and operation and maintenance charges. Each owner shall be privileged to pay in full at any time his pro rata share of the construction cost. The Secretary shall not enter into any contract pursuant to this section after five years have elapsed from the date of approval of this Act. The Secretary shall also
designate the Indian lands under private ditches to receive benefits provided for herein. The Indian lands thus designated shall be subject to provisions and conditions of the Act of July 1, 1932 (47 Stat. 564-565).

SEC. 6. The contracts entered into between the Secretary of the Interior and an irrigation district or districts, or with non-Indians owning land under private ditches, in pursuance to sections 4 and 5, shall provide that the owners of the lands included in such contracts shall agree to pay annually to the United States for a period of five years beginning November 15 next following the date of approval of this Act, $1 per acre for each irrigable acre covered by such contract or contracts, and shall further agree at the end of such five-year period to pay thereafter their proportionate share of the total reimbursable cost of the construction of the Willow Creek storage works in the sum of $210,726. The Secretary of the Interior shall allow full credit to each landowner for all construction cost repayments applicable to the Willow Creek storage works, made to the United States during such five-year period, and on behalf of all payments made pursuant to the temporary public notice of the Secretary of the Interior issued March 1, 1944.

SEC. 7. Water stored in the Willow Creek storage works shall be made available by the Secretary of the Interior only to the following lands on the Little Big Horn River watershed irrigable under irrigation works which have been constructed prior to the date of approval of this Act; Indian-owned lands; non-Indian-owned lands within the irrigation districts referred to in section 4; those non-Indian-owned lands covered by contracts entered into pursuant to section 5, subject, however, to the authority of the Secretary to dispose of the water as provided for in section 8 hereof.

SEC. 8. Pending the execution of contracts with a district or districts, and thereafter, the Secretary of the Interior may, in lieu of disposing of the stored water as prescribed in sections 4, 5, and 6 of this Act, dispose of any uncontracted part of the stored water during any year on an acre-foot basis upon such terms and conditions as he shall determine. The Secretary is authorized to fix annual charges to cover the costs of operating and maintaining the storage works and the distribution of the stored water.

SEC. 9. No further construction work on the Crow Indian Reservation shall be undertaken by the United States without the prior consent of (1) the Crow Tribe, (2) the irrigation district or districts affected, and (3) the Congress of the United States, and without the prior execution of repayment contracts by the non-Indian water users or irrigation district or districts, obligating the non-Indian lands for the payment of their share of such construction costs. The consent of the Crow Tribe shall be obtained by a majority vote of the general council of the tribe expressed at a duly convened meeting: Provided, however, That such consents shall not be necessary to construct laterals necessary to irrigate the lands within the Crow Indian irrigation project as now determined and classified as irrigable by the land designation committee report, as approved by the Secretary of the Interior in 1944.

SEC. 10. Pursuant to the findings of the report referred to in section 1 (3) the sum of $676,891.83 of operation and maintenance assessments against Indian- and non-Indian-owned lands of the project on the water users' ledger is hereby canceled, and the Secretary of the Interior is authorized and directed (1) to credit not to exceed $38,000 on future operation and maintenance assessments against certain lands described in the report; (2) to make refunds not to exceed $3,000 from Crow
project operation and maintenance collections on deposit in the Treasury to cover overpayments made to the project by landowners as provided for in the report; (3) to make refunds not to exceed $40,000 from Crow project operation and maintenance collections to heirs of certain Crow allottees on account of moneys withheld from their estates by the United States and used for the payment of delinquent operation and maintenance assessments; (4) to reform in accordance with the adjustments made by the provisions of this Act any deferment contracts heretofore executed in accordance with the provisions of section 1 of the Act of June 22, 1936 (49 Stat. 1803).

Sec. 11. All claims of every description, all costs, charges, and unpaid assessments against lands in Indian ownership under the Crow irrigation project system, arising out of the expenditure of Treasury and tribal moneys for the construction, operation, and maintenance of the Crow irrigation project system, including the Willow Creek storage works, to and including expenditures for the fiscal year 1945, except the proportionate share of the amount authorized in section 1 (4) of this Act, are hereby canceled, and the obligations of the Indians and their lands to repay any part or all of said claims or sums are hereby dissolved: Provided, That the Crow Tribe of Indians, by appropriate action of their tribal council, releases the United States and all lands of the irrigation project from any and all claims said tribe may have arising out of the expenditure of tribal moneys by the United States for the construction, operation, and maintenance of said project.

Sec. 12. All costs and charges against lands in non-Indian ownership under the Crow Indian irrigation project system arising out of the expenditure of Treasury and tribal moneys for the construction, operation, and maintenance of the said project systems except (1) $210,726, which is the proportionate part of the cost of the Willow Creek storage works chargeable to non-Indian lands; (2) $45,000 as provided for in section 1 (1) of this Act; (3) the proportionate share of the non-Indian landowners in the $5,000 expenditure provided for in section 1 (4) hereof; and (4) all unpaid operation and maintenance assessments remaining on the water users' ledgers of the Crow project after the adjustments have been made, as recommended in the district engineer's report of November 29, 1945, referred to in section 1 (3) of this Act, which assessments when collected shall be deposited in the Treasury of the United States for the operation and maintenance of the project, are hereby canceled, and the obligations of non-Indians and their lands to repay to the United States any part or all of said sums so canceled are hereby dissolved: Provided, however, That this cancellation of reimbursable costs and charges shall not serve to change the present lien status except as provided in section 4 hereof.

Sec. 13. The cancellation of the reimbursable status of all project construction, operation, and maintenance costs and expenditures as herein provided shall be reported in the reimbursable accounts rendered to the Comptroller General of the United States, pursuant to the provisions of the Act of April 4, 1910 (36 Stat. 270), as deductions from the total indebtedness of the project without regard to fiscal years or appropriations from which expenditures were made.

Sec. 14. [CHAPTER 531]

AN ACT

To amend the National Housing Act, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 203 (a) of the National Housing Act, as amended, is hereby amended by striking out the second and third provisos and by striking out the colon at the end of the first proviso and inserting in lieu thereof a period.

Approved July 1, 1946.
AN ACT

To amend sections 81, 82, and 83, and to repeal section 84 of chapter IX of the
Act entitled “An Act to establish a uniform system of bankruptcy throughout
the United States”, approved July 1, 1898, and Acts amendatory thereof and
supplementary thereto.

Be it enacted by the Senate and House of Representatives of the
United States of America in Congress assembled, That sections 81,
82, and 83 of chapter IX of the Act entitled “An Act to establish a
uniform system of bankruptcy throughout the United States”,
approved July 1, 1898, as amended (U. S. C., title 11, secs. 401, 402,
and 403), are amended to read as follows:

“SEC. 81. This Act and proceedings thereunder are found and
declared to be within the subject of bankruptcies and, in addition to
the jurisdiction otherwise exercised, courts of bankruptcy shall exercise
original jurisdiction as provided in this chapter for the composition
of indebtedness of, or authorized by, any of the agencies or instrumentalities
hereinafter named, payable (a) out of assessments or taxes,
or both, levied against and constituting liens upon property in any
of said agencies or instrumentalities, or (b) out of property acquired
by foreclosure of any such assessments or taxes or both, or (c) out of
income derived by such agencies or instrumentalities from any income-
producing property, whether or not secured by a lien upon such
property: (1) Drainage, drainage and levee, reclamation, water, irriga-
tion, or other similar districts, commonly designated as agricultural
improvement districts or local improvement districts, organized or
created for the purpose of constructing, improving, maintaining, and
operating certain improvements or projects devoted chiefly to the
improvement of lands therein for agricultural purposes; or (2) local
improvement districts, such as sewer, paving, sanitary, or other similar
districts, organized or created for the purposes designated by their
respective names; or (3) local improvement districts, such as road,
highway, or other similar districts, organized or created for the pur-
pose of grading, paving, or otherwise improving public streets, roads,
or highways; or (4) public-school districts or public-school authorities
organized or created for the purpose of constructing, maintaining,
and operating public schools or public-school facilities; or (5) local
improvement districts, such as port, navigation, or other similar dis-
tricts, organized or created for the purpose of constructing, improving,
maintaining, and operating ports and port facilities; or (6) incor-
porated authorities, commissions, or similar public agencies organized
for the purpose of constructing, maintaining, and operating revenue-
producing enterprises; or (7) any county or parish or any city, town,
village, borough, township, or other municipality: Provided, however,
That if any provision of this chapter, or the application thereof to any
such agency or district or class thereof or to any circumstance, is held
invalid, the remainder of the chapter, or the application of such
provision to any other or different circumstances, shall not be affected
by such holding.

“SEC. 82. The following terms as used in this chapter, unless a differ-
ent meaning is plainly required by the context, shall be construed as
follows:

The term ‘petitioner’ shall include any agency or instrumentality
referred to in section 81 of this chapter.

The term ‘security’ shall include bonds, notes, judgments, claims,
and demands, liquidated or unliquidated, and other evidences of
indebtedness, either secured or unsecured, and certificates of beneficial
interest in property.
"Creditor."

U. S. agency holding securities.

"Security affected by the plan."

Number and gender.

Petition for composition of debts.

Filing fee.

List of known creditors.

Order of approval or dismissal.

Obligations represented by securities, etc.

"The term 'creditor' means the holder of a security or securities.

"Any agency of the United States holding securities acquired pursuant to contract with any petitioner under this chapter shall be deemed a creditor in the amount of the full face value thereof.

"The term 'security affected by the plan' means a security as to which the rights of its holder are proposed to be adjusted or modified materially by the consummation of a composition agreement.

"The singular number includes the plural and the masculine gender the feminine.

"Sec. 83. (a) Any petitioner may file a petition hereunder stating that the petitioner is insolvent or unable to meet its debts as they mature and that it desires to effect a plan for the composition of its debts. The petition shall be filed with the court in whose territorial jurisdiction the petitioner or the major part thereof is located, and, in the case of any unincorporated tax or special-assessment district having no officials of its own, the petition may be filed by its governing authority or the board or body having authority to levy taxes or assessments to meet the obligations to be affected by the plan of composition. The petition shall be accompanied by payment to the clerk of a filing fee of $100, which shall be in lieu of the fees required to be collected by the clerk under other applicable chapters of this title, as amended. The petition shall state that a plan of composition has been prepared, is filed and submitted with the petition, and that creditors of the petitioner owning not less than 51 per centum in amount of the securities affected by the plan (excluding, however, any such securities owned, held, or controlled by the petitioner) have accepted it in writing. There shall be filed with the petition a list of all known creditors of the petitioner, together with their addresses so far as known to petitioner, and description of their respective securities showing separately those who have accepted the plan of composition, together with their separate addresses, the contents of which list shall not constitute admissions by the petitioner in a proceeding under this chapter or otherwise. Upon the filing of such a petition the judge shall enter an order either approving it as properly filed under this chapter, if satisfied that such petition complies with this chapter and has been filed in good faith, or dismissing it, if not so satisfied.

"Whenever the petition seeks to effect a plan for the composition of obligations represented by securities, or evidences in any form of rights to payment, issued by the petitioner to defray the cost of local improvements and which are payable solely out of the proceeds of special assessments or special taxes levied by the petitioner, or issued by the petitioner to finance one or more revenue-producing enterprises payable solely out of the revenues of such enterprise or enterprises, it shall be sufficient if the petitioner aver that the property liable for, or the revenues pledged to the payment of such securities, principal, and interest is not of sufficient value, or that the revenues of the enterprise or enterprises are inadequate to pay same, and that the accrued interest on such securities is past due and in default; and the list of creditors to be filed with such petition need contain only the known claimants of rights based on those securities evidencing the obligations sought to be composed under this chapter, and such list shall include separately the names and addresses of those creditors who have accepted the plan of composition. If the plan of composition sought to be effected requires a revision of assessments so that the proportion of special assessments or special taxes to be assessed against some of the lands will be different from the proportion in effect at the time the petition is filed, a list of the record owners or holders of title, legal or equitable, to any real estate adversely affected in the
proceeding shall also be filed with the petition, and such record owners
or holders of title shall be notified in the manner provided in this
section for creditors and be entitled to hearing by the court upon
reasonable application therefor.

"The 'plan of composition', within the meaning of this chapter, may
include provisions modifying or altering the rights of creditors gen-
erally, or of any class of them, secured or unsecured, either through
issuance of new securities of any character, or otherwise, and may
contain such other provisions and agreements not inconsistent with
this chapter as the parties may desire.

"No creditor shall be deemed to be affected by any plan of com-
position unless the same shall affect his interest materially, and in case
any controversy shall arise as to whether any creditor or class of cred-
itors shall or shall not be affected, the issue shall be determined by
the judge, after hearing, upon notice to the parties interested.

"For all purposes of this chapter any creditor may act in person or
by an attorney or a duly authorized agent or committee. Where any
committee, organization, group, or individual shall assume to act for or
on behalf of creditors, such committee, organization, group, or indi-
vidual shall first file with the court in which the proceeding is pending
a list of the creditors represented by such committee, organization,
group, or individual, giving the name and address of each such credi-
tor, together with a statement of the amount, class, and character of
the security held by him, and attach thereto copies of the instrument
or instruments in writing signed by the owners of the bonds showing
their authority, and shall file with the list a copy of the contract or
agreement entered into between such committee, organization, group,
or individual and the creditors represented by it or them, which con-
tract shall disclose all compensation to be received, directly or indi-
rectly, by such committee, organization, group, or individual, which
agreed compensation shall be subject to modification and approval
by the court.

"(b) Upon approving the petition as properly filed, or at any time
thereafter, the judge shall enter an order fixing a time and place for
a hearing on the petition, which shall be held within ninety days from
the date of said order, and shall provide in the order that notice shall
be given to creditors of the filing of the petition and its approval as
being properly filed, and of the time and place for the hearing. The
judge shall prescribe the form of the notice, which shall specify the
manner in which claims and interests of creditors shall be filed or
evidenced, on or before the date fixed for the hearing. The notice shall
be published at least once a week for three successive weeks in at
least one newspaper of general circulation published within the
jurisdiction of the court, and in such other paper or papers having a
general circulation among bond dealers and bondholders as may be
designated by the court, and the judge may require that it may be
published in such other publication as he may deem proper. The judge
shall require that a copy of the notice be mailed, postage prepaid, to
each creditor of the petitioner named in the petition at the address of
such creditor given in the petition, or, if no address is given in the
petition for any creditor and the address of such creditor cannot with
reasonable diligence be ascertained, then a copy of the notice shall be
mailed, postage prepaid, to such creditor addressed to him as the judge
may prescribe. All expense of giving notice as herein provided shall
be paid by the petitioner. The notice shall be first published, and the
mailing of copies thereof shall be completed, at least sixty days before
the date fixed for the hearing.
Filing of answer.

At any time not less than ten days prior to the time fixed for the hearing, any creditor of the petitioner affected by the plan may file an answer to the petition controverting any of the material allegations therein and setting up any objection he may have to the plan of composition. The judge may continue the hearing from time to time if the percentage of creditors required herein for the confirmation of the plan shall not have accepted the plan in writing, or if for any reason satisfactory to the judge the hearing is not completed on the date fixed therefor. At the hearing, or a continuance thereof, the judge shall decide the issues presented and unless the material allegations of the petition are sustained shall dismiss the proceeding. If, however, the material allegations of the petition are sustained, the judge shall classify the creditors according to the nature of their respective claims and interest: Provided, however, That the holders of all claims, regardless of the manner in which they are evidenced, which are payable without preference out of funds derived from the same source or sources shall be of one class. The holders of claims for the payment of which specific property or revenues are pledged, or which are otherwise given preference as provided by law, shall accordingly constitute a separate class or classes of creditors.

Decision on issues presented.

Reference of special issues.

Compensation for services of referee, etc.

At the hearing or a continuance thereof the judge may refer any special issues of fact to a referee in bankruptcy or a special master for consideration, the taking of testimony, and a report upon such special issues of fact, if the judge finds that the condition of his docket is such that he cannot take such testimony without unduly delaying the dispatch of other business pending in his court, and if it appears that such special issues are necessary to the determination of the case. Only under special circumstances shall references be made to a special master who is not a referee in bankruptcy. A general reference of the case to a master shall not be made, but the reference, if any, shall be only in the form of requests for findings of specific facts.

Restriction.

Appeals from orders.

At any time not less than ten days prior to the time fixed for the hearing, any creditor of the petitioner affected by the plan may file an answer to the petition controverting any of the material allegations therein and setting up any objection he may have to the plan of composition. The judge may continue the hearing from time to time if the percentage of creditors required herein for the confirmation of the plan shall not have accepted the plan in writing, or if for any reason satisfactory to the judge the hearing is not completed on the date fixed therefor. At the hearing, or a continuance thereof, the judge shall decide the issues presented and unless the material allegations of the petition are sustained shall dismiss the proceeding. If, however, the material allegations of the petition are sustained, the judge shall classify the creditors according to the nature of their respective claims and interest: Provided, however, That the holders of all claims, regardless of the manner in which they are evidenced, which are payable without preference out of funds derived from the same source or sources shall be of one class. The holders of claims for the payment of which specific property or revenues are pledged, or which are otherwise given preference as provided by law, shall accordingly constitute a separate class or classes of creditors.

Compensation for services of referee, etc.

At the hearing or a continuance thereof the judge may refer any special issues of fact to a referee in bankruptcy or a special master for consideration, the taking of testimony, and a report upon such special issues of fact, if the judge finds that the condition of his docket is such that he cannot take such testimony without unduly delaying the dispatch of other business pending in his court, and if it appears that such special issues are necessary to the determination of the case. Only under special circumstances shall references be made to a special master who is not a referee in bankruptcy. A general reference of the case to a master shall not be made, but the reference, if any, shall be only in the form of requests for findings of specific facts.

The court may allow reasonable compensation for the services performed by such referee in bankruptcy or special master, and the actual and necessary expenses incurred in connection with the proceeding, including compensation for services rendered and expenses incurred in obtaining the deposit of securities and the preparation of the plan, whether such work may have been done by the petitioner or by committees or other representatives of creditors, and may allow reasonable compensation for the attorneys or agents of any of the foregoing: Provided, however, That no fees, compensation, reimbursement, or other allowances for attorneys, agents, committees, or other representatives of creditors shall be assessed against the petitioner or paid from any revenues, property, or funds of the petitioner except in the manner and in such sums, if any, as may be provided for in the plan of composition. An appeal may be taken from any order making such determination or award to the United States circuit court of appeals for the circuit in which the proceeding under this chapter is pending, independently of other appeals which may be taken in the proceeding, and such appeal shall be heard summarily.

Such compensation of referees in bankruptcy and special masters shall not be governed by section 40 of this Act.

On thirty days' notice by any creditor to petitioner, the judge, if he finds that the proceeding has not been prosecuted with reasonable diligence, or that it is unlikely that the plan will be accepted by said proportion of creditors, may dismiss the proceeding.

(a) Upon entry of the order fixing the time for the hearing, or at any time thereafter, the judge may upon notice enjoin or stay, pending the determination of the matter, the commencement or continuation of suits against the petitioner, or any officer or inhabitant
thereof, on account of the securities affected by the plan, or to enforce any lien or to enforce the levy of taxes or assessments for the payment of obligations under any such securities, or any suit or process to levy upon or enforce against any property acquired by the petitioner through foreclosure of any such tax lien or special assessment lien, except where rights have become vested, and may enter an interlocutory decree providing that the plan shall be temporarily operative with respect to all securities affected thereby and that the payment of the principal or interest, or both, of such securities shall be temporarily postponed or extended or otherwise readjusted in the same manner and upon the same terms as if such plan had been finally confirmed and put into effect, and upon the entry of such decree the principal or interest, or both, of such securities which have otherwise become due, or which would otherwise become due, shall not be or become due or payable, and the payment of all such securities shall be postponed during the period in which such decree shall remain in force, but shall not, by any order or decree, in the proceeding or otherwise, interfere with (a) any of the political or governmental powers of the petitioner; or (b) any of the property or revenues of the petitioner necessary for essential governmental purposes; or (c) any income-producing property, unless the plan of composition so provides.

"Any agency or instrumentality referred to in section 81 of this chapter may file a petition for a preliminary stay with the court referred to in section 83 (a) stating (a) that the petitioner is insolvent or unable to meet its debts as they mature; (b) that it desires to effect a plan for the composition of its debts, a copy of which is filed and submitted with the petition; (c) that a creditor of the petitioner holding a security affected by the plan or a person claiming to be such a creditor (naming him and giving his address and the name and address of his attorney of record, if any), is attempting or threatening to obtain payment of said security in preference to other creditors by means of the commencement or continuance of a suit or process of the class hereinbefore in this section 83 (c) described; (d) that efforts are being made in good faith to the end that creditors of the petitioner owning not less than 51 per centum in amount of the securities affected by the plan (excluding, however, any such securities owned, held, or controlled by the petitioner) shall accept it in writing; (e) that there is a reasonable prospect of such acceptance within a reasonable time; (f) that upon such acceptance the petitioner intends to file a petition under section 83 (a) of this chapter; and (g) that the petitioner prays that the judge will upon notice enjoin or stay the commencement or continuation of said suit or process. A single petition may seek the preliminary stay of several suits or processes brought or threatened by the same or different creditors or persons claiming to be creditors. The petition shall be accompanied by the filing fee required in section 83 (a) of this chapter, unless such fee shall have been paid upon the filing of an earlier petition for a preliminary stay involving the same plan, and no further fee shall be required upon the subsequent filing of a petition under said section 83 (a). Upon such petition the judge shall fix a time and place for hearing and direct that notice thereof shall be given in such manner as he shall prescribe to said creditor or person claiming to be a creditor and to any other person deemed by him to be interested. After such hearings, and upon being satisfied of the truth of the allegations of the petition, the judge may, in his discretion, except where rights have become vested, enjoin or stay the commencement and continuation of said suit or process until a date fixed by him in his order not exceeding sixty days from the date of entry thereof. The judge shall retain jurisdiction to vacate said injunction or stay,
Acceptance of plan.

The plan of composition shall not be confirmed until it has been accepted in writing, by or on behalf of creditors holding at least two-thirds of the aggregate amount of claims of all classes affected by such plan and which have been admitted by the petitioner or allowed by the judge, but excluding claims owned, held, or controlled by the petitioner: Provided, however, That it shall not be requisite to the confirmation of the plan that there be such acceptance by any creditor or class of creditors (a) whose claims are not affected by the plan; or (b) if the plan makes provision for the payment of their claims in cash in full; or (c) if provision is made in the plan for the protection of the interests, claims, or lien of such creditors or class of creditors.

Changes and modifications of plan.

Before a plan is confirmed, changes and modifications may be made therein with the approval of the judge after hearing upon such notice to creditors as the judge may direct, subject to the right of any creditor who shall previously have accepted the plan to withdraw his acceptance, within a period to be fixed by the judge and after such notice as the judge may direct, if, in the opinion of the judge, the change or modification will be materially adverse to the interest of such creditor, and if any creditor having such right of withdrawal shall not withdraw or to extend the period thereof for one additional period of not exceeding sixty days, upon good cause shown.

Attorney’s compensation.

Examination to ascertain existing practice.

Findings and conclusions.

Adjudication of issue, etc.

After such examination the judge shall make an adjudication of this issue, as a separate part of his interlocutory decree, and if it be found that any such practice exists, he shall forthwith dismiss the proceeding and tax all of the costs against such fiscal agent, attorney, or other person, firm, or corporation promoting the composition, or doing anything of such a nature, has been or is to be compensated, directly or indirectly, by both the petitioner and the creditors thereof, or any of such creditors—either by fee, commission, or other similar payment, or by transfer or exchange of bonds or other evidence of indebtedness whereby a profit could accrue—and shall take evidence under oath to make certain whether or not any such practice obtains or might obtain.

Before concluding the hearing, the judge shall carefully examine all of the contracts, proposals, acceptances, deposit agreements, and all other papers relating to the plan, specifically for the purpose of ascertaining if the fiscal agent, attorney, or other person, firm, or corporation promoting the composition, or doing anything of such a nature, has been or is to be compensated, directly or indirectly, by both the petitioner and the creditors thereof, or any of such creditors—either by fee, commission, or other similar payment, or by transfer or exchange of bonds or other evidence of indebtedness whereby a profit could accrue—and shall take evidence under oath to make certain whether or not any such practice obtains or might obtain.

Adjudication of issue, etc.

After such examination the judge shall make an adjudication of this issue, as a separate part of his interlocutory decree, and if it be found that any such practice exists, he shall forthwith dismiss the proceeding and tax all of the costs against such fiscal agent, attorney, or other person, firm, or corporation promoting the composition, or doing anything of such a nature, has been or is to be compensated, directly or indirectly, by both the petitioner and the creditors thereof, or any of such creditors—either by fee, commission, or other similar payment, or by transfer or exchange of bonds or other evidence of indebtedness whereby a profit could accrue—and shall take evidence under oath to make certain whether or not any such practice obtains or might obtain.

At the conclusion of the hearing, the judge shall make written findings of fact and his conclusions of law thereon, and shall enter an interlocutory decree confirming the plan if he finds and is satisfied that (1) it is fair, equitable, and for the best interests of the creditors and does not discriminate unfairly in favor of any creditor or class of creditors; (2) complies with the provisions of this chapter; (3) has been accepted and approved as required by the provisions of subdivision (d) of this section; (4) all amounts to be paid by the petitioner for services or expenses incident to the composition have been fully disclosed and are reasonable; (5) the offer of the plan and its acceptance are in good faith; and (6) the petitioner is authorized by law to take all action necessary to be taken by it to carry out the plan. If not so satisfied, the judge shall enter an order dismissing the proceeding. No case shall be reversed or remanded for want of specific or detailed findings unless it is found that the evidence is insufficient to support one or more of the general findings required in this section.

Before a plan is confirmed, changes and modifications may be made therein with the approval of the judge after hearing upon such notice to creditors as the judge may direct, subject to the right of any creditor who shall previously have accepted the plan to withdraw his acceptance, within a period to be fixed by the judge and after such notice as the judge may direct, if, in the opinion of the judge, the change or modification will be materially adverse to the interest of such creditor, and if any creditor having such right of withdrawal shall not withdraw...
within such period, he shall be deemed to have accepted the plan as changed or modified: Provided, however, That the plan as changed or modified shall comply with all the provisions of this chapter and shall have been accepted in writing by the petitioner. Either party may appeal from the interlocutory decree as in equity cases. In case said interlocutory decree shall prescribe a time within which any action is to be taken, the running of such time shall be suspended in case of an appeal until final determination thereof. In case said decree is affirmed, the judge may grant such time as he may deem proper for the taking of such action.

"(f) In an interlocutory decree confirming the plan is entered as provided in subdivision (e) of this section, the plan and said decree of confirmation shall become and be binding upon all creditors affected by the plan, if within the time prescribed in the interlocutory decree, or such additional time as the judge may allow, the money, securities, or other consideration to be delivered to the creditors under the terms of the plan shall have been deposited with the court or such disbursing agent as the court may appoint or shall otherwise be made available for the creditors. And thereupon the court shall enter a final decree determining that the petitioner has made available for the creditors affected by the plan the consideration provided for therein and is discharged from all debts and liabilities dealt with in the plan except as provided therein, and that the plan is binding upon all creditors affected by it, whether secured or unsecured, and whether or not their claims have been filed or evidenced, and, if filed or evidenced, whether or not allowed, including creditors who have not, as well as those who have, accepted it. If securities are deposited by the petitioner with the court or disbursing agent for delivery to the creditors, such final decree shall be entered unless the court finds and adjudicates that said securities have been lawfully authorized and, upon delivery, will constitute valid obligations of the petitioner, and that the provisions made to pay and secure payment thereof are valid.

"(g) A certified copy of the final decree, or of any other decree or order entered by the court or the judge thereof, in a proceeding under this chapter, shall be evidence of the jurisdiction of the court, the regularity of the proceedings, and the fact that the decree or order was made. A certified copy of an order providing for the transfer of any property dealt with by the plan shall be evidence of the transfer of title accordingly, and, if recorded as conveyances are recorded, shall impart the same notice that a deed, if recorded, would impart.

"(h) This chapter shall not be construed as to modify or repeal any prior existing statute relating to the refinancing or readjustment of indebtedness of municipalities, political subdivisions, or districts: Provided, however, That the initiation of proceedings or the filing of a petition under section 80 of this Act shall not constitute a bar to the same agency or instrumentality initiating a new proceeding under section 81 of this chapter.

"(i) Nothing contained in this chapter shall be construed to limit or impair the power of any State to control, by legislation or otherwise, any municipality or any political subdivision of or in such State in the exercise of its political or governmental powers, including expenditures therefor: Provided, however, That no State law prescribing a method of composition of indebtedness of such agencies shall be binding upon any creditor who does not consent to such composition, and no judgment shall be entered under such State law which would bind a creditor to such composition without his consent.

"(j) The partial completion or execution of any plan of composition as outlined in any petition filed under the terms of this Act by the exchange of new evidences of indebtedness under the plan for
evidences of indebtedness covered by the plan, whether such partial completion or execution of such plan of composition occurred before or after the filing of said petition, shall not be construed as limiting or prohibiting the effect of this title, and the written consent of the holders of any securities outstanding as the result of any such partial completion or execution of any plan of composition shall be included as consenting creditors to such plan of composition in determining the percentage of securities affected by such plan of composition."

Scc. 2. Section 84 of chapter IX of the Act entitled "An Act to establish a uniform system of bankruptcy throughout the United States", approved July 1, 1898, as amended by the Acts of August 16, 1937, June 28, 1940, and June 22, 1942, is hereby repealed.

Approved July 1, 1946.

[CHAPTER 533]

AN ACT

To require weekly newspapers enjoying mailing privileges to make sworn statements with respect to their circulation.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the second paragraph of section 2 of the Act entitled "An Act making appropriations for the service of the Post Office Department for the fiscal year ending June thirtieth, nineteen hundred and thirteen, and for other purposes", approved August 24, 1912, as amended (U. SECTION 1. The owner of a trade-mark used in commerce may register his trade-mark under this Act on the principal register hereby established:

(a) By filing in the Patent Office—

(1) a written application, in such form as may be prescribed by the Commissioner, verified by the applicant, or by a member of the firm or an officer of the corporation or association applying, specifying applicant's domicile and citizenship, the date of applicant's first use of the mark, the date of applicant's first use of the mark in commerce, the goods in connection with which the mark is used and the mode or manner in which the mark is used in connection with such goods, and including a statement to the effect that the person making the verification believes himself, or the firm, corporation, or association in whose behalf he makes the verification, to be the owner of the mark sought to be registered, that the mark is in use in commerce, and that no other person, firm, corporation, or association, to the best of his knowledge and belief, has the right to use such mark in commerce either in the identical form thereof or in such near resemblance thereto as might be calculated to deceive: Provided, That in the case of every application claiming concurrent use the applicant shall state exceptions to his claim of exclusive use, in which he shall specify, to the extent of his knowledge, any concurrent use by others, the goods or services in connection with which and the areas in which each concurrent use exists, the periods of such use, and the goods and area for which the applicant desires registration;

(2) a drawing of the mark; and

(3) such number of specimens or facsimiles of the mark as actually used as may be required by the Commissioner.

(b) By paying into the Patent Office the filing fee.
(c) By complying with such rules or regulations, not inconsistent with law, as may be prescribed by the Commissioner.

(d) If the applicant is not domiciled in the United States he shall designate by a written document filed in the Patent Office the name and address of some person resident in the United States on whom may be served notices or process in proceedings affecting the mark. Such notices or process may be served upon the person so designated by leaving with him or mailing to him a copy thereof at the address specified in the last designation so filed. If the person so designated cannot be found at the address given in the last designation, such notice or process may be served upon the Commissioner.

MARKS REGISTRABLE ON THE PRINCIPAL REGISTER

Sec. 2. No trade-mark by which the goods of the applicant may be distinguished from the goods of others shall be refused registration on the principal register on account of its nature unless it—

(a) Consists of or comprises immoral, deceptive, or scandalous matter; or matter which may disparage or falsely suggest a connection with persons, living or dead, institutions, beliefs, or national symbols, or bring them into contempt, or disrepute.

(b) Consists of or comprises the flag or coat of arms or other insignia of the United States, or of any State or municipality, or of any foreign nation, or any simulation thereof.

(c) Consists of or comprises a name, portrait, or signature identifying a particular living individual except by his written consent, or the name, signature, or portrait of a deceased President of the United States during the life of his widow, if any, except by the written consent of the widow.

(d) Consists of or comprises a mark which so resembles a mark registered in the Patent Office or a mark or trade name previously used in the United States by another and not abandoned, as to be likely, when applied to the goods of the applicant, to cause confusion or mistake or to deceive purchasers: Provided, That the Commissioner may register as concurrent registrations the same or similar marks to more than one registrant when they have become entitled to use such marks as a result of their concurrent lawful use thereof in commerce prior to any of the filing dates of the applications involved and the Commissioner or a court on appeal determines that confusion or mistake or deceit of purchasers is not likely to result from the continued use of said marks under conditions and limitations as to the mode or place of use or the goods in connection with which such registrations may be granted which conditions and limitations shall be prescribed in the grant of the concurrent registrations thereof; and concurrent registrations may be similarly granted by the Commissioner with such conditions and limitations when a court has finally determined that more than one person is entitled to use the same or similar marks in commerce. The Commissioner shall give not less than thirty days' written notice to all applicants, registrants, and users specified by any of the parties concerned of any application for concurrent registration and of the time and place of the hearings thereon. When the Commissioner decides to grant a concurrent registration the proposed registration shall be published in the Official Gazette of the Patent Office and the application shall be subject to opposition as hereinafter provided for other applications to register marks. Concurrent registrations may be ordered by a court in an action under the provisions of section 4915, Revised Statutes, under such conditions and limitations as the court considers proper in accordance herewith.
(e) Consists of a mark which, (1) when applied to the goods of the applicant is merely descriptive or deceptively misdescriptive of them, or (2) when applied to the goods of the applicant is primarily geographically descriptive or deceptively misdescriptive of them, except as indications of regional origin may be registrable under section 4 hereof, or (3) is primarily merely a surname.

(f) Except as expressly excluded in paragraphs (a), (b), (c), and (d) of this section, nothing herein shall prevent the registration of a mark used by the applicant which has become distinctive of the applicant's goods in commerce. The Commissioner may accept as prima facie evidence that the mark has become distinctive, as applied to the applicant's goods in commerce, proof of substantially exclusive and continuous use thereof as a mark by the applicant in commerce for the five years next preceding the date of the filing of the application for its registration.

SERVICE MARKS REGISTRABLE

SEC. 3. Subject to the provisions relating to the registration of trade-marks, so far as they are applicable, service marks used in commerce shall be registrable, in the same manner and with the same effect as are trade-marks, and when registered they shall be entitled to the protection provided herein in the case of trade-marks, except when used so as to represent falsely that the owner thereof makes or sells the goods on which such mark is used. The Commissioner may establish a separate register for such service marks. Applications and procedure under this section shall conform as nearly as practicable to those prescribed for the registration of trade-marks.

COLLECTIVE AND CERTIFICATION MARKS REGISTRABLE

SEC. 4. Subject to the provisions relating to the registration of trade-marks, so far as they are applicable, collective and certification marks, including indications of regional origin used in commerce, shall be registrable under this Act, in the same manner and with the same effect as are trade-marks, by persons, and nations, States, municipalities, and the like, exercising legitimate control over the use of the marks sought to be registered, even though not possessing an industrial or commercial establishment, and when registered they shall be entitled to the protection provided herein in the case of trade-marks, except when used so as to represent falsely that the owner or a user thereof makes or sells the goods or performs the services on or in connection with which such mark is used. The Commissioner may establish a separate register for such collective marks and certification marks. Applications and procedure under this section shall conform as nearly as practicable to those prescribed for the registration of trade-marks.

USE BY RELATED COMPANIES

SEC. 5. Where a registered mark or a mark sought to be registered is or may be used legitimately by related companies, such use shall inure to the benefit of the registrant or applicant for registration, and such use shall not affect the validity of such mark or of its registration, provided such mark is not used in such manner as to deceive the public.

DISCLAIMERS

SEC. 6. The Commissioner shall require unregistrable matter to be disclaimer, but such disclaimer shall not prejudice or affect the applicant's or owner's rights then existing or thereafter arising in the disclaimed matter, nor shall such disclaimer prejudice or affect the
applicants or owners' rights of registration on another application of
later date if the disclaimed matter has become distinctive of the appli-
cant's or owner's goods or services.

CERTIFICATES

Sec. 7. (a) Certificates of registration of marks registered upon
the principal register shall be issued in the name of the United States
of America, under the seal of the Patent Office, and shall either be
signed by the Commissioner or have his name printed thereon and
attested by an assistant commissioner or by one of the law examiners
duly designated by the Commissioner, and a record thereof, together
with printed copies of the drawing and statement of the applicant,
shall be kept in books for that purpose. The certificate shall repro-
duce the drawing of the mark, contain the statement of the applicant
and state that the mark is registered on the principal register under
this Act, the date of the first use of the mark, the date of the first use
of the mark in commerce, the particular goods or services for which
it is registered, the number and date of the registration, the term
thereof, the date on which the application for registration was
received in the Patent Office, and any conditions and limitations that
may be imposed in the grant of the registration.

(b) A certificate of registration of a mark upon the principal regis-
ter provided by this Act shall be prima facie evidence of the validity
of the registration, registrant's ownership of the mark, and of registr-
ant's exclusive right to use the mark in commerce in connection with
the goods or services specified in the certificate, subject to any condi-
tions and limitations stated therein.

c) A certificate of registration of a mark may be issued to the
assignee of the applicant, but the assignment must first be recorded
in the Patent Office. In case of change of ownership the Commissioner
shall, at the request of the owner and upon a proper showing and the
payment of the fee herein provided, issue to such assignee a new
certificate of registration of the said mark in the name of such
assignee, and for the unexpired part of the original period.

d) At any time, upon application of the registrant and payment
of the fee herein provided, the Commissioner may permit any reg-
istration in the Patent Office to be surrendered, canceled, or for good
cause to be amended, and he may permit any registered mark to be
disclaimed in whole or in part: Provided, That the registration when
so amended shall still contain registrable matter and the mark as
amended shall still be registrable as a whole, and that such amend-
ment or disclaimer does not involve such changes in the registration as
to alter materially the character of the mark. The Commissioner
shall make appropriate entry upon the records of the Patent Office
and upon the certificate of registration or, if said certificate is lost
or destroyed, upon a certified copy thereof.

e) Copies of any records, books, papers, or drawings belonging to
the Patent Office relating to marks, and copies of certificates of reg-
istration, when authenticated by the seal of the Patent Office and
certified by the Commissioner, or in his name by a chief of division
duly designated by the Commissioner, shall be evidence in all cases
wherein the originals would be evidence; and any person making
application therefor and paying the fee required by law shall have such
copies.

(f) Whenever a material mistake in a registration, incurred through
the fault of the Patent Office, is clearly disclosed by the records of
the Office a certificate stating the fact and nature of such mistake,
signed by the Commissioner and sealed with the seal of the Patent
Office, shall be issued without charge and recorded and a printed copy
thereof shall be attached to each printed copy of the registration certificate and such corrected certificate shall thereafter have the same effect as if the same had been originally issued in such corrected form, or in the discretion of the Commissioner a new certificate of registration may be issued without charge. All certificates of correction heretofore issued in accordance with the rules of the Patent Office and the registrations to which they are attached shall have the same force and effect as if such certificates and their issue had been specifically authorized by statute.

(g) Whenever a mistake has been made in a registration and a showing has been made that such mistake occurred in good faith through the fault of the applicant, the Commissioner is authorized to issue a certificate of correction or, in his discretion, a new certificate upon the payment of the required fee: Provided, That the correction does not involve such changes in the registration as to require republication of the mark.

DURATION

Sec. 8. (a) Each certificate of registration shall remain in force for twenty years: Provided, That the registration of any mark under the provisions of this Act shall be canceled by the Commissioner at the end of six years following its date, unless within one year next preceding the expiration of such six years the registrant shall file in the Patent Office an affidavit showing that said mark is still in use or showing that its nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark. Special notice of the requirement for such affidavit shall be attached to each certificate of registration.

(b) Any registration published under the provisions of subsection (c) of section 12 of this Act shall be canceled by the Commissioner at the end of six years after the date of such publication unless within one year next preceding the expiration of such six years the registrant shall file in the Patent Office an affidavit showing that said mark is still in use or showing that its nonuse is due to special circumstances which excuse such nonuse and is not due to any intention to abandon the mark.

(c) The Commissioner shall notify any registrant who files either of the above-prescribed affidavits of his acceptance or refusal thereof and, if a refusal, the reasons therefor.

RENEWAL

Sec. 9. Each registration may be renewed for periods of twenty years from the end of the expiring period upon the filing of an application therefor accompanied by an affidavit by the registrant stating that the mark is still in use in commerce and the payment of the renewal fee required by this Act; and such application may be made at any time within six months before the expiration of the period for which the certificate of registration was issued or renewed, or it may be made within three months after such expiration on payment of the additional fee herein provided.

An applicant for renewal not domiciled in the United States shall be subject to and comply with the provisions of section 1 (d) hereof.

ASSIGNMENT

Sec. 10. A registered mark or a mark for which application to register has been filed shall be assignable with the goodwill of the business in which the mark is used, or with that part of the goodwill of the business connected with the use of and symbolized by the mark,
and in any such assignment it shall not be necessary to include the goodwill of the business connected with the use of and symbolized by any other mark used in the business or by the name or style under which the business is conducted: Provided, That any assigned registration may be canceled at any time if the registered mark is being used by, or with the permission of, the assignee so as to misrepresent the source of the goods or services in connection with which the mark is used. Assignments shall be by instruments in writing duly executed. Acknowledgment shall be prima facie evidence of the execution of an assignment and when recorded in the Patent Office the record shall be prima facie evidence of execution. An assignment shall be void as against any subsequent purchaser for a valuable consideration without notice, unless it is recorded in the Patent Office within three months after the date thereof or prior to such subsequent purchase. The Commissioner shall keep a separate record of such assignments submitted to him for recording.

An assignee not domiciled in the United States shall be subject to and comply with the provisions of section 1 (d) hereof.

ACKNOWLEDGMENTS AND VERIFICATIONS

Sec. 11. Acknowledgments and verifications required hereunder may be made before any person within the United States authorized by law to administer oaths, or, when made in a foreign country, before any diplomatic or consular officer of the United States or before any official authorized to administer oaths in the foreign country concerned whose authority shall be proved by a certificate of a diplomatic or consular officer of the United States, and shall be valid if they comply with the laws of the state or country where made.

EXAMINATION

Sec. 12. (a) Upon the filing of an application for registration and payment of the fee herein provided, the Commissioner shall refer the application to the examiner in charge of the registration of marks, who shall cause an examination to be made and, if on such examination it shall appear that the applicant is entitled to registration, the Commissioner shall cause the mark to be published in the Official Gazette of the Patent Office.

(b) If the applicant is found not entitled to registration, the examiner shall advise the applicant thereof and of the reasons therefor. The applicant shall have a period of six months in which to reply or amend his application, which shall then be reexamined. This procedure may be repeated until (1) the examiner finally refuses registration of the mark or (2) the applicant fails for a period of six months to reply or amend or appeal, whereupon the application shall be deemed to have been abandoned, unless it can be shown to the satisfaction of the Commissioner that the delay in responding was unavoidable, whereupon such time may be extended.

(c) A registrant of a mark registered under the provisions of the Act of March 3, 1881, or the Act of February 20, 1905, may, at any time prior to the expiration of the registration thereof, upon the payment of the prescribed fee file with the Commissioner an affidavit setting forth those goods stated in the registration on which said mark is in use in commerce and that the registrant claims the benefits of this Act for said mark. The Commissioner shall publish notice thereof with a reproduction of said mark in the Official Gazette, and notify the registrant of such publication and of the requirement for the affidavit of use or nonuse as provided for in subsection (b) of section 8 of this Act. This subsection shall not be subject to the provisions of section 13 of this Act.
SEC. 13. Any person who believes that he would be damaged by the registration of a mark upon the principal register may, upon payment of the required fee, file a verified notice of opposition in the Patent Office, stating the grounds therefor, within thirty days after the publication under subsection (a) of section 12 of this Act of the mark sought to be registered. For good cause shown, the time for filing notice of opposition may be extended by the Commissioner, who shall notify the applicant. An unverified opposition may be filed by a duly authorized attorney, but such opposition shall be null and void unless verified by the opposer within a reasonable time after such filing to be fixed by the Commissioner.

CANCELATION

SEC. 14. Any person who believes that he is or will be damaged by the registration of a mark on the principal register established by this Act, or under the Act of March 3, 1881, or the Act of February 20, 1905, may upon the payment of the prescribed fee, apply to cancel said registration—

(a) within five years from the date of the registration of the mark under this Act; or

(b) within five years from the date of the publication under section 12 (c) hereof of a mark registered under the Act of March 3, 1881, or the Act of February 20, 1905; or

(c) at any time if the registered mark becomes the common descriptive name of an article or substance on which the patent has expired, or has been abandoned or its registration was obtained fraudulently or contrary to the provisions of section 4 or of subsections (a), (b), or (c) of section 2 of this Act for a registration hereunder, or contrary to similar prohibitory provisions of said prior Acts for a registration thereunder, or if the registered mark has been assigned and is being used by, or with the permission of, the assignee so as to misrepresent the source of the goods or services in connection with which the mark is used, or if the mark was registered under the Act of March 3, 1881, or the Act of February 20, 1905, and has not been published under the provisions of subsection (c) of section 12 of this Act; or

(d) at any time in the case of a certification mark on the ground that the registrant (1) does not control, or is not able legitimately to exercise control over, the use of such mark, or (2) engages in the production or marketing of any goods or services to which the mark is applied, or (3) permits the use of such mark for other purposes than as a certification mark, or (4) discriminately refuses to certify or to continue to certify the goods or services of any person who maintains the standards or conditions which such mark certifies. Provided, That the Federal Trade Commission may apply to cancel on the grounds specified in subsections (c) and (d) of this section any mark registered on the principal register established by this Act, and the prescribed fee shall not be required.

SEC. 15. Except on a ground for which application to cancel may be filed at any time under subsections (c) and (d) of section 14 of this Act, and except to the extent, if any, to which the use of a mark registered on the principal register infringes a valid right acquired under the law of any State or Territory by use of a mark or trade name continuing from a date prior to the date of the publication under this Act of such registered mark, the right of the registrant to use such
registered mark in commerce for the goods or services on or in connection with which such registered mark has been in continuous use for five consecutive years subsequent to the date of such registration and is still in use in commerce, shall be incontestable: Provided, That—

(1) there has been no final decision adverse to registrant’s claim of ownership of such mark for such goods or services, or to registrant’s right to register the same or to keep the same on the register; and

(2) there is no proceeding involving said rights pending in the Patent Office or in a court and not finally disposed of; and

(3) an affidavit is filed with the Commissioner within one year after the expiration of any such five-year period setting forth those goods or services stated in the registration on or in connection with which such mark has been in continuous use for such five consecutive years and is still in use in commerce, and the other matters specified in subsections (1) and (2) hereof; and

(4) no incontestable right shall be acquired in a mark or trade name which is the common descriptive name of any article or substance, patented or otherwise.

Subject to the conditions above specified in this section, the incontestable right with reference to a mark registered under this Act shall apply to a mark registered under the Act of March 3, 1881, or the Act of February 20, 1905, upon the filing of the required affidavit with the Commissioner within one year after the expiration of any period of five consecutive years after the date of publication of a mark under the provisions of subsection (c) of section 12 of this Act.

The Commissioner shall notify any registrant who files the above-prescribed affidavit of the filing thereof.

**INTERFERENCE**

Sec. 16. Whenever application is made for the registration of a mark which so resembles a mark previously registered by another, or for the registration of which another has previously made application, as to be likely when applied to the goods or when used in connection with the services of the applicant to cause confusion or mistake or to deceive purchasers, the Commissioner may declare that an interference exists. No interference shall be declared between an application and the registration of a mark the right to the use of which has become incontestable.

Sec. 17. In every case of interference, opposition to registration, application to register as a lawful concurrent user, or application to cancel the registration of a mark, the Commissioner shall give notice to all parties and shall direct the examiner in charge of interferences to determine and decide the respective rights of registration.

Sec. 18. In such proceedings the Commissioner may refuse to register the opposed mark, may cancel or restrict the registration of a registered mark, or may refuse to register any or all of several interfering marks, or may register the mark or marks for the person or persons entitled thereto, as the rights of the parties hereunder may be established in the proceedings: Provided, That in the case of the registration of any mark based on concurrent use, the Commissioner shall determine and fix the conditions and limitations provided for in subsection (d) of section 2 of this Act.

Sec. 19. In all inter partes proceedings equitable principles of laches, estoppel, and acquiescence, where applicable may be considered and applied. The provisions of this section shall also govern proceedings heretofore begun in the Patent Office and not finally determined.
Sec. 20. An appeal may be taken to the Commissioner in person from any final decision of the examiner in charge of interferences or of the registration of marks upon the payment of the prescribed fees.

Sec. 21. Any applicant for registration of a mark, party to an interference proceeding, party to an opposition proceeding, party to an application to register as a lawful concurrent user, party to a cancellation proceeding, or any registrant who has filed an affidavit as provided in section 8, who is dissatisfied with the decision of the Commissioner may appeal to the United States Court of Customs and Patent Appeals or may proceed under section 4915, Revised Statutes, as in the case of applicants for patents, under the same conditions, rules, and procedure as are prescribed in the case of patent appeals or proceedings so far as they are applicable: Provided, That any party who is satisfied with the decision of the Commissioner shall, upon the filing of an appeal to the Court of Customs and Patent Appeals by any dissatisfied party, have the right to elect to have all further proceedings under Revised Statutes 4915, by election as provided in Revised Statutes 4911. The Commissioner of Patents shall not be a necessary party to an inter partes proceeding under Revised Statutes 4915, but shall be notified of the filing of the bill by the clerk of the court in which it is filed and the Commissioner shall have the right to intervene in the action.

REGISTRATION IS NOTICE

Sec. 22. Registration of a mark on the principal register provided by this Act or under the Act of March 3, 1881, or the Act of February 20, 1905, shall be constructive notice of the registrant's claim of ownership thereof.

TITLE II—THE SUPPLEMENTAL REGISTER

Sec. 23. In addition to the principal register, the Commissioner shall keep a continuation of the register provided in paragraph (b) of section 1 of the Act of March 19, 1920, entitled "An Act to give effect to certain provisions of the convention for the protection of trade-marks and commercial names, made and signed in the city of Buenos Aires, in the Argentine Republic, August 20, 1910, and for other purposes", to be called the supplemental register. All marks capable of distinguishing applicant's goods or services and not registrable on the principal register herein provided, except those declared to be unregistrable under paragraphs (a), (b), (c), and (d) of section 2 of this Act, which have been in lawful use in commerce by the proprietor thereof, upon or in connection with any goods or services for the year preceding the filing of the application may be registered on the supplemental register upon the payment of the prescribed fee and compliance with the provisions of section 1 so far as they are applicable.

Upon the filing of an application for registration on the supplemental register and payment of the fee herein provided the Commissioner shall refer the application to the examiner in charge of the registration of marks, who shall cause an examination to be made and if on such examination it shall appear that the applicant is entitled to registration, the registration shall be granted. If the applicant is found not entitled to registration the provisions of subsection (b) of section 12 of this Act shall apply.

For the purposes of registration on the supplemental register, a mark may consist of any trade-mark, symbol, label, package, configuration of goods, name, word, slogan, phrase, surname, geographical name,

numeral, or device or any combination of any of the foregoing, but such mark must be capable of distinguishing the applicant’s goods or services.

Upon a proper showing by the applicant that he has begun the lawful use of his mark in foreign commerce and that he requires domestic registration as a basis for foreign protection of his mark, the Commissioner may waive the requirement of a full year’s use and may grant registration forthwith.

CANCELLATION

SEC. 24. Marks for the supplemental register shall not be published for or be subject to opposition, but shall be published on registration in the Official Gazette of the Patent Office. Whenever any person believes that he is or will be damaged by the registration of a mark on this register he may at any time apply to the Commissioner to cancel such registration. The Commissioner shall refer such application to the examiner in charge of interferences, who shall give notice thereof to the registrant. If it is found after a hearing before the examiner that the registrant was not entitled to register the mark at the time of his application for registration thereof, or that the mark is not used by the registrant or has been abandoned, the registration shall be canceled by the Commissioner.

SEC. 25. The certificates of registration for marks registered on the supplemental register shall be conspicuously different from certificates issued for marks registered on the principal register.

GENERAL PROVISIONS

SEC. 26. The provisions of this Act shall govern so far as applicable applications for registration and registrations on the supplemental register as well as those on the principal register, but applications for and registrations on the supplemental register shall not be subject to or receive the advantages of sections 2 (e), 2 (f), 7 (b), 12 (a), 13 to 18, inclusive, 22, 28, and 42 of this Act.

SEC. 27. Registration of a mark on the supplemental register, or under the Act of March 19, 1920, shall not preclude registration by the registrant on the principal register established by this Act.

SEC. 28. Registration on the supplemental register or under the Act of March 19, 1920, shall not be filed in the Department of the Treasury or be used to stop importations.

TITLE III—NOTICE OF REGISTRATION

SEC. 29. Notwithstanding the provisions of section 22 hereof, a registrant of a mark registered under the Act of March 3, 1881, or the Act of February 20, 1905, or on the principal register established by this Act, shall give notice that his mark is registered by displaying with the mark as used the words “Registered in U. S. Patent Office” or “Reg. U. S. Pat. Off.” or the letter R enclosed within a circle, thus ©; and in any suit for infringement under this Act by such a registrant failing so to mark goods bearing the registered mark, or by a registrant under the Act of March 19, 1920, or by the registrant of a mark on the supplemental register provided by this Act no profits and no damages shall be recovered under the provisions of this Act unless the defendant had actual notice of the registration.

TITLE IV—CLASSIFICATION

SEC. 30. The Commissioner shall establish a classification of goods and services, for convenience of Patent Office administration, but not to limit or extend the applicant’s rights. The applicant may
register his mark in one application for any or all of the goods or services included in one class, upon or in connection with which he is actually using the mark. The Commissioner may issue a single certificate for one mark registered in a plurality of classes upon payment of a fee equaling the sum of the fees for each registration in each class.

TITLE V—FEES AND CHARGES

Sec. 31. The following fees shall be paid to the Patent Office under this Act:

(1) Any person who shall, in commerce, (a) use, without the consent of the registrant, any reproduction, counterfeit, copy, or colorable imitation of any registered mark in connection with the sale, offering for sale, or advertising of any goods or services on or in connection with which such use is likely to cause confusion or mistake or to deceive purchasers as to the source of origin of such goods or services; or (b) reproduce, counterfeit, copy, or colorably imitate any such mark and apply such reproduction, counterfeit, copy, or colorable imitation to labels, signs, prints, packages, wrappers, receptacles, or advertisements intended to be used upon or in connection with the sale in commerce of such goods or services, shall be liable to a civil

(a) Any certificate of registration issued under the Act of March 3, 1881, or the Act of February 20, 1905, or of a mark registered on the principal register provided by this Act and owned by a party to an action shall be admissible in evidence and shall be prima facie evidence of registrant's exclusive right to use the registered mark in commerce on the goods or services specified in the certificate subject to any conditions or limitations stated therein, but shall not preclude an opposing party from proving any legal or equitable defense or defect which might have been asserted if such mark had not been registered.

(b) If the right to use the registered mark has become incontestable under section 15 hereof, the certificate shall be conclusive evidence of the registrant's exclusive right to use the registered mark in commerce on or in connection with the goods or services specified in the certificate subject to any conditions or limitations stated therein except when one of the following defenses or defects is established:

(1) That the registration or the incontestable right to use the mark was obtained fraudulently; or

(4) That the use of the name, term, or device charged to be an infringement is a use, otherwise than as a trade or service mark, of the party's individual name in his own business, or of the individual name of anyone in privity with such party, or of a term or device which is descriptive of and used fairly and in good faith only to describe to users the goods or services of such party, or their geographic origin; or
(5) That the mark whose use by a party is charged as an infringement was adopted without knowledge of the registrant's prior use and has been continuously used by such party or those in privity with him from a date prior to the publication of the registered mark under subsection (a) or (c) of section 12 of this Act: Provided, however, That this defense or defect shall apply only for the area in which such continuous prior use is proved.

Sec. 34. The several courts vested with jurisdiction of civil actions arising under this Act shall have power to grant injunctions, according to the principles of equity and upon such terms as the court may deem reasonable, to prevent the violation of any right of the registrant of a mark registered in the Patent Office. Any such injunction may include a provision directing the defendant to file with the court and serve on the plaintiff within thirty days after the service on the defendant of such injunction, or such extended period as the court may direct, a report in writing under oath setting forth in detail the manner and form in which the defendant has complied with the injunction. Any such injunction granted upon hearing, after notice to the defendant, by any district court of the United States, may be served on the parties against whom such injunction is granted anywhere in the United States where they may be found, and shall be operative and may be enforced by proceedings to punish for contempt, or otherwise, by the court by which such injunction was granted, or by any other United States district court in whose jurisdiction the defendant may be found.

The said courts shall have jurisdiction to enforce said injunction, as herein provided, as fully as if the injunction had been granted by the district court in which it is sought to be enforced. The clerk of the court or judge granting the injunction shall, when required to do so by the court before which application to enforce said injunction is made, transfer without delay to said court a certified copy of all papers on file in his office upon which said injunction was granted.

It shall be the duty of the clerks of such courts within one month after the filing of any action, suit, or proceeding arising under the provisions of this Act to give notice thereof in writing to the Commissioner setting forth in order so far as known the names and addresses of the litigants and the designating number or numbers of the registration or registrations upon which the action, suit, or proceeding has been brought, and in the event any other registration be subsequently included in the action, suit, or proceeding by amendment, answer, or other pleading, the clerk shall give like notice thereof to the Commissioner, and within one month after the decision is rendered, appeal taken or a decree issued the clerk of the court shall give notice thereof to the Commissioner, and it shall be the duty of the Commissioner on receipt of such notice forthwith to endorse the same upon the file wrapper of the said registration or registrations and to incorporate the same as a part of the contents of said file wrapper.

Sec. 35. When a violation of any right of the registrant of a mark registered in the Patent Office shall have been established in any civil action arising under this Act, the plaintiff shall be entitled, subject to
the provisions of sections 29 and 31 (1) (b), and subject to the principles of equity, to recover (1) defendant's profits, (2) any damages sustained by the plaintiff, and (3) the costs of the action. The court shall assess such profits and damages or cause the same to be assessed under its direction. In assessing profits the plaintiff shall be required to prove defendant's sales only; defendant must prove all elements of cost or deduction claimed. In assessing damages the court may enter judgment, according to the circumstances of the case, for any sum above the amount found as actual damages, not exceeding three times such amount. If the court shall find that the amount of the recovery based on profits is either inadequate or excessive the court may in its discretion enter judgment for such sum as the court shall find to be just, according to the circumstances of the case. Such sum in either of the above circumstances shall constitute compensation and not a penalty.

SEC. 36. In any action arising under this Act, in which a violation of any right of the registrant of a mark registered in the Patent Office shall have been established, the court may order that all labels, signs, prints, packages, wrappers, receptacles, and advertisements in the possession of the defendant, bearing the registered mark or any reproduction, counterfeit, copy, or colorable imitation thereof, and all plates, molds, matrices, and other means of making the same, shall be delivered up and destroyed.

SEC. 37. In any action involving a registered mark the court may determine the right to registration, order the cancelation of registrations, in whole or in part, restore canceled registrations, and otherwise rectify the register with respect to the registrations of any party to the action. Decrees and orders shall be certified by the court to the Commissioner, who shall make appropriate entry upon the records of the Patent Office, and shall be controlled thereby.

(b) Registrations now existing under the Act of March 3, 1881, or the Act of February 20, 1905, shall continue in full force and effect for the unexpired terms thereof and may be renewed under the provisions of section 9 of this Act. Registrations now existing under the Act of March 19, 1920, shall expire six months after the effective date of this Act, or twenty years from the dates of their registrations, whichever date is later. Such registrations shall be subject to and entitled to the benefits of the provisions of this Act relating to marks registered on the supplemental register established by this Act, and may not be renewed unless renewal is required to support foreign registrations. In that event renewal may be effected on the supplemental register under the provisions of section 9 of this Act.

Marks registered under previous Acts may, if eligible, also be registered under this Act.

Sec. 47. (a) All applications for registration pending in the Patent Office at the effective date of this Act may be amended, if practicable, to bring them under the provisions of this Act. The prosecution of such applications so amended and the grant of registrations thereon shall be proceeded with in accordance with the provisions of this Act. If such amendments are not made, the prosecution of said applications shall be proceeded with and registrations thereon granted in accordance with the Acts under which said applications were filed, and said Acts are hereby continued in force to this extent and for this purpose only, notwithstanding the foregoing general repeal thereof.

(b) In any case in which an appeal is pending before the United States Court of Customs and Patent Appeals or any United States Circuit Court of Appeals or the United States Court of Appeals for
the District of Columbia or the United States Supreme Court at the effective date of this Act, the court, if it be of the opinion that the provisions of this Act are applicable to the subject matter of the appeal, may apply such provision or may remand the case to the Commissioner or to the district court for the taking of additional evidence or a new trial or for reconsideration of the decision on the record as made, as the appellate court may deem proper.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Commissioners of the District of Columbia are authorized and directed to construct, maintain, and operate two four-lane bridges across the Potomac River to replace the existing Fourteenth Street or Highway Bridge, together with bridge approaches and roads connecting such bridges and approaches with streets and park roads in the District of Columbia and with roads and park roads on the Virginia side of the Potomac River, the south-bound bridge to be constructed as nearly as practicable in the location of the existing Fourteenth Street or Highway Bridge, and the north-bound bridge to be constructed within six hundred feet of the downstream side of the existing Fourteenth Street or Highway Bridge, at a cost not to exceed $7,000,000, in accordance with the provisions of the Act entitled “An Act to regulate the construction of bridges over navigable waters”, approved March 23, 1906, and subject to the conditions and limitations in this Act.

Sec. 2. The Federal agencies having control and jurisdiction over the lands at and adjacent to the ends of the two bridges shall transfer to the Commissioners of the District of Columbia, upon their request, the areas to be occupied by said bridges, approaches, and connecting roads, all as more particularly described on plans of said bridges,
approaches, and connecting roads approved by the Commissioners of the District of Columbia and the Public Roads Administration.

Sec. 3. The Commissioners of the District of Columbia are authorized to acquire by purchase or by condemnation any and all lands not under Federal jurisdiction or control in the State of Virginia needed for said bridges, approaches, and connecting roads, title to such land to be taken directly to and in the name of the United States; and in case a price satisfactory to the Commissioners of the District of Columbia cannot be agreed upon for the purchase of such land or in case the title cannot be made satisfactory to the Attorney General of the United States, then the latter is directed to procure such land by condemnation, and the expenses of procuring evidence of title, or condemnation, or both, shall be paid from funds made available for the purposes of this Act. Jurisdiction and control over any land acquired under the authority of this Act shall be transferred to the District of Columbia.

Sec. 4. The Commissioners of the District of Columbia are authorized to make such use of federally owned and controlled lands at and adjacent to the north and south ends of the respective bridges as may be necessary for making borings, performing other preliminary work, routing and rerouting traffic, constructing said bridges, approaches, and connecting roads, and storing of materials incident to such preliminary work and to actual construction.

Sec. 5. The Commissioners of the District of Columbia are authorized and directed to route and reroute and to cause the routing and rerouting of traffic on, and to close or cause to be closed, park roads, streets, and highways under the jurisdiction of the United States, and to negotiate for the closing of roads by contact with Virginia authorities, when necessary in connection with the preparation of plans for, and during the actual construction of, said bridges, approaches, and connecting roads. The Commissioners of the District of Columbia are further authorized to prepare plans for such changes in park roads as they deem necessary to provide maximum efficiency in handling traffic to and from said bridges, and, when such plans are approved by the Public Roads Administration, to construct roads in conformity with such approved plans.

Sec. 6. The National Capital Park Service is authorized and directed to remove or transplant to other locations any and all planting materials within the area to be used for the bridges, approaches, and connecting roads or for construction purposes, when requested by the Commissioners of the District of Columbia. The Commissioners of the District of Columbia are authorized and directed to regrade the areas involved in the construction of the bridges, approaches, and connecting roads so as to conform with plans approved by them and the Public Roads Administration. Upon completion of said bridges, approaches, and connecting roads and the regrading of the areas, or prior thereto, when authorized by the Commissioners of the District of Columbia and when such operations will not interfere with the construction of said bridges, approaches, and connecting roads, the National Capital Park Service is directed to landscape such areas in accordance with plans of the National Capital Park Service as may be approved by the Commissioners of the District of Columbia and the Public Roads Administration, the cost of said landscaping to be paid out of funds made available for the purposes of this Act.

Sec. 7. That the cost of construction, reconstruction, and repair of all roads which are changed or made necessary as an incident to the construction of said bridges, approaches, and connecting roads, when approved by the Commissioners of the District of Columbia and the
Public Roads Administration, shall be paid out of funds made available for construction of said bridges, approaches, and connecting roads.

AN ACT

To amend the Act of June 7, 1939 (53 Stat. 811), as amended, relating to the acquisition of stocks of strategic and critical materials for national defense purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of June 7, 1939 (53 Stat. 811), as amended, is hereby amended to read as follows:

“That the natural resources of the United States in certain strategic and critical materials being deficient or insufficiently developed to supply the industrial, military, and naval needs of the country for common defense, it is the policy of the Congress and the purpose and intent of this Act to provide for the acquisition and retention of stocks of these materials and to encourage the conservation and development of sources of these materials within the United States, and thereby decrease and prevent wherever possible a dangerous and costly dependence of the United States upon foreign nations for supplies of these materials in times of national emergency.

Sec. 2. (a) To effectuate the policy set forth in section 1 hereof, the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, acting jointly through the agency of the Army and Navy Munitions Board, are hereby authorized and directed to determine, from time to time, which materials are strategic and critical under the provisions of this Act and to determine, from time to time, the quality and quantities of such materials which shall be stock piled under the provisions of this Act. In determining the materials which are strategic and critical and the quality and quantities of same to be acquired the Secretaries of State, Treasury, Agriculture, and Commerce shall each designate representatives to cooperate with the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior in carrying out the provisions of this Act.
“(b) To the fullest extent practicable the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, acting jointly, shall appoint industry advisory committees selected from the industries concerned with the materials to be stock piled. It shall be the general function of the industry advisory committees to advise with the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior and with any agencies through which they may exercise any of their functions under this Act with respect to the purchase, sale, care, and handling of such materials. Members of the industry advisory committees shall receive a per diem allowance of not to exceed $10 for each day spent at conferences held upon the call of the Secretary of War, the Secretary of the Navy, and the Secretary of the Interior, plus necessary traveling and other expenses while so engaged.

“Sec. 3. The Secretary of War and the Secretary of the Navy shall direct the Secretary of the Treasury, through the medium of the Procurement Division of his Department, to—

“(a) make purchases of strategic and critical materials with due regard to the objectives set forth in section 1 of this Act and pursuant to the determinations as provided in section 2 hereof, which purchases (1) shall be made, so far as is practicable, from supplies of materials in excess of the current industrial demand and (2) shall be made in accordance with title III of the Act of March 3, 1933 (47 Stat. 1520), but may be made without regard to section 3709 of the Revised Statutes. A reasonable time (not to exceed one year) shall be allowed for production and delivery from domestic sources and in the case of any such material available in the United States but which has not been developed commercially, the Secretary of War and the Secretary of the Navy may, if they find that the production of such material is economically feasible, direct the purchase of such material without requiring the vendor to give bond;

“(b) provide for the storage, security, and maintenance of strategic and critical materials for stock-piling purposes on military and naval reservations or other locations, approved by the Secretary of War and the Secretary of the Navy;

“(c) provide through normal commercial channels for the refining or processing of any materials acquired or transferred under this Act when the Secretary of War and the Secretary of the Navy deem such action necessary to convert such materials into a form best suitable for stock piling, and such materials may be refined, processed, or otherwise beneficiated either before or after their transfer from the owning agency;

“(d) provide for the rotation of any strategic and critical materials constituting a part of the stock pile where necessary to prevent deterioration by replacement of acquired stocks with equivalent quantities of substantially the same material with the approval of the Secretary of War and the Secretary of the Navy;

“(e) dispose of any materials held pursuant to this Act which are no longer needed because of any revised determination made pursuant to section 2 of this Act, as hereinafter provided. No such disposition shall be made until six months after publication in the Federal Register and transmission of a notice of the proposed disposition to the Congress and to the Military Affairs Committee of each House thereof. Such notice shall state the reasons for such revised determination, the amounts of the materials proposed to be released, the plan of disposition proposed to be followed, and the date upon which the material is to become available for sale
or transfer. The plan and date of disposition shall be fixed with due regard to the protection of the United States against avoidable loss on the sale or transfer of the material to be released and the protection of producers, processors, and consumers against avoidable disruption of their usual markets. Provided, That no material constituting a part of the stock piles may be disposed of without the express approval of the Congress except where the revised determination is by reason of obsolescence of that material for use in time of war. For the purposes of this paragraph a revised determination is by reason of obsolescence if such determination is on account of (1) deterioration, (2) development or discovery of a new or better material or materials, or (3) no further usefulness for use in time of war.

"Sec. 4. The Secretary of War and the Secretary of the Navy shall submit to the Congress, not later than six months after the approval of this Act, and every six months thereafter a written report detailing the activities with respect to stock piling under this Act, including a statement of foreign and domestic purchases, and such other pertinent information on the administration of the Act as will enable the Congress to evaluate its administration and the need for amendments and related legislation.

"Sec. 5. The stock piles shall consist of all such materials heretofore purchased or transferred to be held pursuant to this Act, or hereafter transferred pursuant to section 6 hereof, or hereafter purchased pursuant to section 3 hereof, and not disposed of pursuant to this Act. Except for the rotation to prevent deterioration and except for the disposal of any material pursuant to section 3 of this Act, materials acquired under this Act shall be released for use, sale, or other disposition only (a) on order of the President at any time when in his judgment such release is required for purposes of the common defense, or (b) in time of war or during a national emergency with respect to common defense proclaimed by the President, on order of such agency as may be designated by the President.

"Sec. 6. (a) Pursuant to regulations issued by the War Assets Administration or its successor, every material determined to be strategic and critical pursuant to section 2 hereof, which is owned or contracted for by the United States or any agency thereof, including any material received from a foreign government under an agreement made pursuant to the Act of March 11, 1941 (55 Stat. 31), as amended, or other authority, shall be transferred by the owning agency, when determined by such agency to be surplus to its needs and responsibilities, to the stock piles established pursuant to this Act, so long as the amount of the stock pile for that material does not exceed the quantities determined therefor pursuant to section 2 hereof. There shall be exempt from this requirement such amount of any material as is necessary to make up any deficiency of the supply of such material for the current requirements of industry as determined by the Civilian Production Administration or its successor. There shall also be exempt from this requirement (1) any material which constitutes contractor inventory if the owning agency shall not have taken possession of such inventory, (2) such amount of any material as the Army and Navy Munitions Board determines (i) are held in lots so small as to make the transfer thereof economically impractical; or (ii) do not meet or cannot economically be converted to meet, stock-pile requirements determined in accordance with section 2 of this Act. The total material transferred to the stock piles established by this Act in accordance with this section during any fiscal year beginning more than twelve months after this Act becomes law shall not exceed in
value (as determined by the Secretary of the Treasury on the basis of the fair market value at the time of each transfer) an amount to be fixed by the appropriation Act or Acts relating to the acquisition of materials under this Act.

"(b) Any transfer made pursuant to this section shall be made without charge against or reimbursement from the funds available under this Act, except that expenses incident to such transfer may be paid or reimbursed from such funds, and except that, upon any such transfer from the Reconstruction Finance Corporation, or any corporation organized by virtue of the authority contained in the Act of January 22, 1932 (47 Stat. 5), the Secretary of the Treasury shall cancel notes of Reconstruction Finance Corporation, and sums due and unpaid upon or in connection with such notes at the time of such cancellation, in an amount equal to the fair market value as determined by the Secretary of the Treasury of the material so transferred.

"(c) Effective whenever the Secretary of the Treasury shall cancel any notes pursuant to subsection (b) of this section, the amount of notes, debentures, bonds, or other such obligations which the Reconstruction Finance Corporation is authorized and empowered to have outstanding at any one time under the provisions of existing law shall be deemed to be reduced by the amount of the notes so canceled.

"(d) Subsection (b) of section 14 of the Act of October 3, 1944 (58 Stat. 765) is hereby amended to read as follows:

"(e) Section 22 of the Act of October 3, 1944 (58 Stat. 765), is hereby repealed: Provided, That any owning agency as defined in that Act having control of materials that, when determined to be surplus, are required to be transferred to the stock piles pursuant to subsection (a) hereof, shall make such determination as soon as such materials in fact become surplus to its needs and responsibilities.

"Sec. 7. (a) The Secretary of the Interior, through the Director of the Bureau of Mines and the Director of Geological Survey, is hereby authorized and directed to make scientific, technologic, and economic investigations concerning the extent and mode of occurrence, the development, mining, preparation, treatment, and utilization of ores and other mineral substances found in the United States or its Territories or insular possessions, which are essential to the common defense or the industrial needs of the United States, and the quantities or grades of which are inadequate from known domestic sources, in order to determine and develop domestic sources of supply, to devise new methods for the treatment and utilization of lower grade reserves, and to develop substitutes for such essential ores and mineral products; on public lands and on privately owned lands, with the consent of the owner, to explore and demonstrate the extent and quality of deposits of such minerals, including core drilling, trenching, test-pitting, shaft sinking, drifting, cross-cutting, sampling, and metallurgical investigations and tests as may be necessary to determine the extent and
quality of such deposits, the most suitable methods of mining and beneficiating them, and the cost at which the minerals or metals may be produced.

"(b) The Secretary of Agriculture is hereby authorized and directed to make scientific, technologic, and economic investigations of the feasibility of developing domestic sources of supplies of any agricultural material or for using agricultural commodities for the manufacture of any material determined pursuant to section 2 of this Act to be strategic and critical or substitutes therefor.

"Sec. 8. For the procurement, transportation, maintenance, rotation, storage, and refining or processing of the materials to be acquired under this Act, there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, such sums as the Congress, from time to time, may deem necessary to carry out the provisions of this Act. The funds so appropriated, including the funds heretofore appropriated, shall remain available to carry out the purposes for which appropriated until expended, and shall be expended under the joint direction of the Secretary of War and the Secretary of the Navy.

"Sec. 9. Any funds heretofore or hereafter received on account of sales or other dispositions of materials under the provisions of this Act, except funds received on account of the rotation of stocks, shall be covered into the Treasury as miscellaneous receipts.

"Sec. 10. This Act may be cited as the 'Strategic and Critical Materials Stock Piling Act'."

Said States shall thereafter maintain and operate said bridge and approaches free of tolls.

"Sec. 11. The corporation shall at the close of each year during its trusteeship file with the highway departments of the States of Nebraska and Iowa a sworn financial statement of its operation of the said bridge during such year. Such statement shall show funds on hand and indebtedness at the beginning and at the end of the year, receipts, disbursements, indebtedness retired during the year, and any other information required by either of said departments to show the true and complete accounting of revenues, expenditures, and financial status and operation of such bridge and approaches thereto.

"Sec. 12. The Nebraska-Iowa Bridge Corporation shall prepare and submit an annual budget of estimated operating and other expenditures for or on behalf of said bridge and approaches at the beginning of each year, and such budget shall be subject to approval by the highway departments of the States of Nebraska and Iowa before becoming effective. Expenditures during any year shall not exceed the approved budget unless an increase in the annual budget be likewise approved by said departments.

"Sec. 13. No toll or other charge shall be levied against any official or employee of the United States, civil or military, or any vehicle or conveyance of the United States for the use of such bridge in the performance of official duties."

Sec. 2. Section 6 of the Stabilization Act of 1942, as amended, is amended by striking out "June 30, 1946" and substituting "June 30, 1947".

Sec. 3. Title I of the Emergency Price Control Act of 1942, as amended, is amended by inserting after section 1 thereof a new section as follows:

"PURPOSES AND POLICIES IN THE TRANSITION PERIOD

"SEC. 1A. (a) OBJECTIVES.—The Congress hereby affirms—

"(1) that because of abnormally excess spending power in relation to the presently available supply of commodities, rapid attainment of production equal to the public demand is one of the necessary and urgent objectives for the prevention of inflation and for the achievement of a reasonable stability in the general level of prices and rents, cost of living and costs of production (including labor costs), for the purposes set forth in section 1 of this Act and for the further purposes of protecting the real value of benefits provided by law for veterans and their dependents, of keeping faith with purchasers of United States War Bonds, and of making possible a successful transition to a peacetime economy of maximum employment, production, and purchasing power under a system of free enterprise;

"(2) that unnecessary or unduly prolonged controls over prices and rents and use of subsidies would be inconsistent with the return to such a peacetime economy and would tend to repress and prevent the attainment of this and the other goods herein declared; and

"(3) that adequate prices are necessary stimulants to the production thus desired and the expeditious attainment of said goals.

(b) DECLARATION OF DECONTROL POLICY.—Therefore, it is hereby declared to be the policy of the Congress that the Office of Price Administration, and other agencies of the Government, shall use their price, subsidy, and other powers to promote the earliest practicable balance between production and the demand therefor of commodities under their control, and that the general control of prices and the use of subsidy powers shall, subject to other specific provisions of this Act, be terminated as rapidly as possible consistent with the policies and purposes set forth in this section and in no event later than June 30, 1947, and on that date the Office of Price Administration shall be abolished.

(c) RECOMMENDATIONS BY THE PRESIDENT TO THE CONGRESS.—

"(1) As soon as practicable after the enactment of this section and in any event on or before January 15, 1947, the President shall recommend to the Congress such further legislation as in his judgment is needed to establish monetary, fiscal, and other policies which are adequate to supplement the control of prices and wages during the balance of the fiscal year 1947, and to insure that general control of
prices and wages can be terminated by the end of that fiscal year without danger of inflation thereafter.

"(2) On or before April 1, 1947, the President shall report to the Congress what, if any, commodities or classes of commodities, including housing accommodations, are in such critically short supply as to necessitate, in his judgment, the continuance of the powers granted by this Act as to them after June 30, 1947, together with his recommendations as to established departments or agencies of the Government (other than the Office of Price Administration) which should be charged with the administration of such powers.

"(d) DECONTROL OF NONAGRICULTURAL COMMODITIES.—(1) On or before December 31, 1946, the Administrator shall decontrol all non-agricultural commodities not important in relation to business costs or living costs, and prior to that date shall proceed with such decontrol as rapidly as, in his judgment, will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect. In no event shall maximum prices be maintained after December 31, 1946, for any non-agricultural commodity or class of commodities unless the same has been expressly found by the Administrator to be important in relation to business costs or living costs.

"(2) The Administrator shall provide for the prompt removal of maximum prices in the case of any nonagricultural commodity whenever the supply thereof exceeds or is in approximate balance with the demand therefor (including appropriate inventory requirements).

"(3) Whenever, after a reasonable test period, it appears that the supply of a nonagricultural commodity which has been decontrolled is no longer consistent with the applicable decontrol standard, the Administrator, with the advance consent in writing of the Price Decontrol Board established under subsection (h), shall reestablish such maximum prices for the commodity, consistent with applicable provisions of law, as in his judgment may be necessary to effectuate the purposes of this Act. The supply of a nonagricultural commodity shall be deemed inconsistent with the applicable decontrol standard in any case where the prices of the commodity have risen to and after a reasonable test period remain at unreasonable and inflationary levels.

"(4) Nothing contained in this Act shall be construed to authorize the Administrator to impose or maintain price controls with respect to petroleum or petroleum products processed or manufactured in whole or substantial part from petroleum, except that, after August 20, 1946, maximum prices with respect thereto may be reestablished pursuant to the provisions of paragraph (3) of this subsection (d), but only under the standards prescribed in paragraph (8) (C) of subsection (e).

"(e) AGRICULTURAL COMMODITIES.—(1) On the first day of the first calendar month which begins more than thirty days after the date of enactment of this section, the Secretary of Agriculture shall certify to the Price Administrator each agricultural commodity which such Secretary determines to be in short supply. Thereafter, on the first day of each succeeding calendar month the Secretary shall certify modifications of such certification by adding other agricultural commodities which have become in short supply and by removing from such certification such commodities which he determines are no longer in short supply. No maximum price shall be applicable with respect to any agricultural commodity during any calendar month which begins more than thirty days after the date of enactment of this section, unless such commodity is certified to the Price Administrator under this paragraph as being in short supply.

Applicability of maximum prices, etc.

“(2) (A) Whenever the Secretary of Agriculture determines that maximum prices applicable to any agricultural commodity which is in short supply are impeding the necessary production of such commodity, he may recommend to the Price Administrator such adjustments in such maximum prices as the Secretary determines to be necessary to attain the necessary production of such commodity.

“(B) The Secretary of Agriculture by December 31, 1946, shall recommend to the Price Administrator the removal of maximum prices on all agricultural commodities, whether or not in short supply, not important in relation to business costs or living costs, and prior to that date shall make such recommendations as rapidly as, in his judgment, will be consistent with the avoidance of a cumulative and dangerous unstabilizing effect.

“(C) Within ten days after the receipt of any recommendation under this subsection for the adjustment of maximum prices applicable to any agricultural commodity, or for the removal of maximum prices on agricultural commodities not important in relation to business costs or living costs, the Price Administrator shall adjust or remove such maximum prices in accordance with such recommendations.

“(3) Whenever the Secretary of Agriculture determines that an agricultural commodity with respect to which maximum prices have been removed is in short supply and that the reestablishment of maximum prices with respect thereto is necessary to effectuate the purposes of this Act, the Secretary, with the written consent of the Price Decontrol Board, may recommend to the Administrator, and the Administrator shall establish, such maximum prices with respect to such commodity, consistent with applicable provisions of law, as in the judgment of the Secretary are necessary to effectuate the purposes of this Act.

“(4) For the purposes of this section (except subparagraph (6) of this subsection (d))—

“(A) an agricultural commodity shall be deemed to be in short supply unless the supply of such commodity equals or exceeds the requirements for such commodity for the current marketing season;

“(B) the term ‘agricultural commodity’ shall be deemed to mean any agricultural commodity and any food or feed product processed or manufactured in whole or substantial part from any agricultural commodity;

“(C) the term ‘subsidy’ means any subsidy or purchase and sale operations described in the last paragraph of section 2 (e) of this Act.

“(5) Notwithstanding any other provision of this or any other law, except as provided in subsection (h), the Secretary of Agriculture, in exercising his functions under this Act, shall not be subject to the direction or control of any other appointive officer or agency in the executive branch of the Government, and no such officer or agency shall undertake to exercise any direction or control over the Secretary of Agriculture with respect to the exercise of such functions. The Secretary of Agriculture may at any time withdraw his approval of any action with respect to which his approval is required under this Act, and upon the withdrawal of his approval such action shall be rescinded.

“(6) No maximum price and no regulation or order under this Act or the Stabilization Act of 1942, as amended, shall be applicable with respect to any agricultural commodity, or any service rendered with respect to any agricultural commodity, unless a regulation or order establishing a maximum price with respect to such commodity had been issued under this Act prior to April 1, 1946.
"(7) No maximum price and no regulation or order under this Act or the Stabilization Act of 1942, as amended, shall be applicable with respect to poultry or eggs or food or feed products processed or manufactured in whole or substantial part therefrom, or in the case of leaf tobacco or tobacco products processed or manufactured in whole or substantial part therefrom, except that, after August 20, 1946, maximum prices with respect thereto may be reestablished pursuant to the provisions of paragraph (3) of this subsection (e), but only under the standards prescribed in paragraph (8) (C) of this subsection (e).

"(8) (A) No maximum price and no regulation or order under this Act or the Stabilization Act of 1942, as amended, shall be applicable prior to August 21, 1946, with respect to livestock, milk, or food or feed products processed or manufactured in whole or substantial part from livestock or milk; with respect to cottonseed or soybeans, or food or feed products processed or manufactured in whole or substantial part from cottonseed or soybeans; with respect to grains for which standards have been established under the United States Grain Standards Act, as amended, or any livestock or poultry feed processed or manufactured in whole or substantial part therefrom.

"(B) The Price Decontrol Board shall proceed forthwith to consider whether the commodities listed in subparagraph (A) shall continue, after August 20, 1946, to be free from regulation under this Act and the Stabilization Act of 1942, as amended. Such Board, after due notice of a public hearing and full opportunity for representatives of affected industries and consumers to present their views orally or in writing, shall have power to determine whether or not any commodity listed in subparagraph (A) shall be regulated after August 20, 1946, under this Act and the Stabilization Act of 1942, as amended. Such Board shall direct that any such commodity shall not be so regulated unless it finds:

"(i) that the price of such commodity has risen unreasonably above a price equal to the lawful maximum price in effect on June 30, 1946, plus the amount per unit of any subsidy payable with respect thereto as of June 29, 1946, and

"(ii) that such commodity is in short supply and that its regulation is practicable and enforceable, and

"(iii) that the public interest will be served by such regulation.

If in the case of any commodity listed in subparagraph (A) such Board fails to act, or before August 20, 1946, that such commodity shall not be regulated under this Act and the Stabilization Act of 1942, as amended, maximum prices and regulations and orders under such Acts shall be applicable with respect to such commodity without regard to this paragraph (8).

"(C) If in the case of any commodity listed in subparagraph (A) such Board, on or before August 20, 1946, does direct that such commodity shall not be regulated under such Acts, the Board may at any subsequent time direct that such commodity shall be so regulated if it finds:

"(i) that the price of such commodity has risen unreasonably above a price equal to the lawful maximum price in effect on June 30, 1946, plus the amount per unit of any subsidy payable with respect thereto as of June 29, 1946; and

"(ii) that such commodity is in short supply and that its regulation is practicable and enforceable; and

"(iii) that the public interest will be served by such regulation.

Thereafter, the provisions of such Acts and regulations and orders...
thereunder shall be applicable with respect to such commodity without regard to this paragraph (8).

“(D) In the case of milk, the Board may consider and determine decontrol or recontrol on a regional basis.

“(9) The Price Decontrol Board shall also have power to determine, when maximum prices are in effect with respect to any commodity listed in paragraph (8) (A), whether any subsidy or any part thereof in effect prior to June 30, 1946, shall be reestablished in whole or in part; and the powers of the Administrator, the Commodity Credit Corporation, and the Reconstruction Finance Corporation to pay subsidies in connection with such commodity shall be limited in accordance with any order of the Board.

“(10) Whenever maximum prices are in effect for any commodity processed or manufactured in whole or substantial part from any commodity listed in paragraph (8) (A) with respect to which maximum prices are not in effect, no maximum price, and no margin, mark-up, or discount, shall be maintained with respect to such processed or manufactured commodity which does not return to the processors, manufacturers, and distributors thereof (A) the raw material cost (which must be computed at least once every sixty days at not less than the current cost), (B) the conversion or distribution cost, and (C) a reasonable profit.

“(f) Saving provision.—Nothing in this section shall limit the Administrator’s authority to remove maximum prices for any non-agricultural commodity, or any agricultural commodity with the approval of the Secretary of Agriculture, at an earlier time than would be required by this section, if in his judgment or in the judgment of the Secretary of Agriculture, as the case may be, such action would be consistent with the purposes of this section.

“(g) Petitions for decontrol.—(1) If in the judgment of the industry advisory committee appointed by the Administrator in accordance with section 2 (a) of this Act to advise and consult with respect to a commodity, the standards set forth in this section require the removal of maximum prices for such commodity, it may file a petition for the removal of such maximum prices. In the case of any nonagricultural commodity, such petition shall be filed with the Administrator in accordance with regulations prescribed by him. In the case of agricultural commodities, such petition shall be filed with the Secretary of Agriculture in accordance with regulations prescribed by him and shall request that he make an appropriate certification or recommendation to the Price Administrator. The petition shall specifically state the grounds upon which the committee believes such action to be required and shall be accompanied by affidavits or other written evidence in support thereof.

“(2) Within fifteen days after receiving a petition filed in accordance with the provisions of this subsection, the Administrator or the Secretary of Agriculture, as the case may be, shall either grant the petition or inform the committee in writing why in his judgment the standards for decontrol stated in subsections (d) and (e) have not been satisfied with respect to the commodity involved. If the petition is not granted in full, the Administrator or the Secretary, as the case may be, shall, within ten days after the receipt of a request by the committee for further consideration of its petition, hold a hearing before himself or before a deputy administrator (or, in the case of the Secretary, before such officer as he may designate) at which the committee may present its argument in support of the petition. The Consumers Advisory Committee and the Labor Advisory Committee appointed by the Administrator shall be given
notice of any such hearing and an opportunity to present their views with respect to the petition and may, not later than five days prior to such hearing, present in writing evidence relating thereto. Within fifteen days after such hearing, the Administrator or the Secretary, as the case may be, shall either grant the petition in full or furnish the industry advisory committee with a statement in writing of his reasons for denying it in whole or in part together with a statement of any economic data or other facts of which he has taken official notice in connection with such denial.

"(3) At any time within thirty days after the denial in whole or in part, following a hearing, of a petition filed under this subsection, the petitioning industry advisory committee may petition the Price Decontrol Board established under subsection (h) for a review of the action of the Administrator or the Secretary of Agriculture. If the Administrator or the Secretary, as the case may be, fails to act upon a petition within the time prescribed by paragraph (2), the industry advisory committee may, at any time within thirty days after the expiration of the time so prescribed, petition the Price Decontrol Board for the removal of maximum prices on the commodity involved.

"(4) Nothing in this section shall be construed to take away or impair any right of any person to protest, in accordance with the provisions of sections 203 and 204 of this Act, the further maintenance of maximum prices for a commodity under the standards of subsection (d) or (e): Provided, That the filing of such a protest or of a petition under paragraph 3 of this subsection shall not be grounds for staying any proceeding brought pursuant to section 205 of this Act or section 37 of the Criminal Code, and no retroactive effect shall be given to any judgment setting aside a provision of a regulation, order, or price schedule under the standards set forth in this section.

"(h) PRICE DECONTROL BOARD.—(1) There is hereby established as an independent agency in the executive branch of the Government a Price Decontrol Board, to be composed of three members appointed by the President by and with the advice and consent of the Senate. Not more than two members of the Board shall be members of the same political party. Two members of the Board shall constitute a quorum, and a vacancy in the membership of the Board shall not impair the power of the remaining members to exercise its functions. Members of the Board shall receive compensation at the rate of $12,000 a year.

"(2) The Board shall appoint and fix the compensation of a secretary for the Board and such other officers and employees as may be necessary to enable it to perform its functions. The Board may make such expenditures as may be necessary for performing its functions. The Board may, with the consent of the head of the department or agency concerned, utilize the facilities, services, and personnel of other agencies or departments of the Government. The Board shall maintain an office in charge of its secretary in the District of Columbia, which shall be open on all business days for the receipt of petitions for review and the transaction of other business of the Board. The Board shall prescribe regulations and procedures for the conduct of its business which will provide for summary disposition, with the utmost expedition consistent with sound decision, of petitions filed with the Board.

"(3) A petition made under subsection (g) (3) shall specifically state the grounds upon which the petitioning industry advisory committee believes that maximum prices on the commodity involved should be removed. A copy of such petition shall forthwith be served on the
Hearing.

Administrator or the Secretary, as the case may be, who shall within such time as may be fixed by the Board certify and file with the Board a transcript of such portions of the proceedings in connection with the petition under subsection (g) as are material. Such transcript shall include a statement in writing of the Administrator's or Secretary's reasons for believing that maximum prices on the commodity involved should not be removed, together with a statement of any economic data or other facts of which he has taken official notice. At the earliest practicable time the Board shall conduct a hearing upon the petition, at which the Administrator or the Secretary, as the case may be, and the committee shall be given an opportunity to present their views and argument orally or in writing. If application is made to the Board by either party for leave to introduce additional evidence, the Board may permit such evidence to be introduced or filed with it if it deems it material and determines that such evidence could not reasonably have been offered or included in the proceedings under subsection (g). At the earliest practicable time after the hearing on any petition, the Board shall make and issue an order specifying the extent, if any, to which maximum prices on the commodity involved shall be removed. The Board shall order the removal of such maximum prices if and to the extent that in its judgment the standards of decontrol stated in subsection (d) or (e) have been satisfied with respect to the commodity involved. The Administrator shall remove maximum prices with respect to the commodity in question within such time and to such extent as shall be specified in the order of the Board. Orders of the Board shall not be subject to modification or review by any other department or agency or by any court.

"(4) No petition may be filed with the Board with respect to any commodity within a period of three months after the issuance of an order of the Board with respect to the same commodity.

"(5) The members of the Board may serve as such without regard to the provisions of sections 109 and 113 of the Criminal Code (18 U. S. C., secs. 198 and 203) or section 19(e) of the Contract Settlement Act of 1944, except insofar as such sections may prohibit any such member from receiving compensation in respect of any particular matter which is within the jurisdiction of the Board.

"(6) If the number of petitions filed with the Board should at any time become so great as to prevent the Board from promptly conducting hearings upon such petitions, the Board shall appoint such hearing commissioners as it deems necessary in order to expedite the transaction of its business. The Board may authorize one or more of the hearing commissioners so appointed to conduct the hearing upon any petition under this subsection and to exercise the authority of the Board with respect to such hearing. After a hearing conducted before a hearing commissioner, the commissioner shall make recommendations consistent with this subsection to the Board concerning its action with respect to the petition. If the Board approves such recommendations, it shall issue an order in conformity therewith. If the Board does not approve such recommendations, the Board may issue such order as it deems proper upon the record or may conduct a new hearing upon the petition before the Board."

Sec. 4. Section 2(a) of the Emergency Price Control Act of 1942, as amended, is amended by adding at the end thereof the following new sentence: "In administering the provisions of this subsection relating to the establishment of industry advisory committees, the Administrator, upon the request of a substantial portion of the industry in any region, shall promptly appoint a regional industry advisory committee for such region."
SEC. 5. Section 2 (b) of the Emergency Price Control Act of 1942, as amended, is amended by adding at the end thereof the following new paragraphs:

"After the date upon which this paragraph takes effect, the Administrator, when establishing rent ceilings on hotels or when passing upon applications for adjustments of rent ceilings on hotels, is authorized to take into consideration the distinction between transient hotels and residential or apartment hotels, including the difference in the investment, operation, expenses, and mechanical details of operation between the transient hotels and the residential and apartment hotels, and is directed to classify separately by regulation (1) transient hotels, (2) residential and apartment hotels, and (3) tourists courts, rooming houses, and boarding houses.

"While maximum rents are in effect under this Act with respect to housing accommodations in any defense-rental area, such housing accommodations shall not be subject to rent control by any State or local government."

SEC. 6. (a) The last paragraph of section 2 (e) of the Emergency Price Control Act of 1942, as amended by the Stabilization Extension Act of 1944, shall not apply with respect to operations for the fiscal year ending June 30, 1947, of the Commodity Credit Corporation and the Reconstruction Finance Corporation: Provided, That with respect to such corporations and such operations, the making of subsidy payments and buying for resale at a loss shall be limited as follows:

Payments and purchases may be made with respect to operations for the fiscal year ending June 30, 1947, which involve subsidies and anticipated losses as follows:

(1) With respect to rubber produced in Latin America and Africa for which commitments were made before January 1, 1946, $31,000,000.

(2) With respect to copper, lead, and zinc, in the form of premium price payments, $100,000,000: Provided, That (A) premiums shall be paid on ores mined or removed from mine dumps or tailing piles before July 1, 1947, though shipped and/or processed and marketed subsequently thereto; and that (B) the premium price plan for copper, lead, and zinc shall be extended until June 30, 1947, on terms not less favorable to the producer than heretofore and (1) adjustments shall be made to encourage exploration and development work, (ii) adequate allowances shall be made for depreciation and depletion, and (iii) all classes of premiums shall be noncancelable unless necessary in order to make individual adjustments of income to specific mines.

(3) With respect to purchases by the Reconstruction Finance Corporation, of such tin ores and concentrates as it deems necessary to insure continued operation of the Texas City tin smelter.

(4) With respect to noncrop programs, 1946 crop program operations and the 1947 crop program operations relating to sugar, flour, petroleum, petroleum products, and other domestic and imported materials and commodities, $869,000,000: Provided, That the operations authorized under this subparagraph (4) shall be progressively reduced, shall be terminated not later than April 1, 1947, and shall not cost more than $629,000,000 during the last six months of the calendar year 1946. Operations shall not be carried out under authority of this subparagraph (4) with respect to any commodity for any period occurring after the date of the enactment of this Act during which maximum prices on such

commodity are not in effect under the Emergency Price Control Act of 1942, as amended, or the Stabilization Act of 1942, as amended: Provided, That subsidies with respect to petroleum produced from stripper wells shall be continued at not to exceed the existing rates. No subsidy or purchase and sale operation shall be undertaken under authority of this subparagraph (4) with respect to any commodity unless a subsidy or purchase and sale operation with respect to such commodity was in effect on June 29, 1946; and no such operation shall be undertaken under authority of this subparagraph (4) which will increase the rate of subsidy paid or the rate of loss incurred with respect to any commodity above that which would be paid or incurred if the operations in effect on June 29, 1946, had been continued on the same basis.

(b) When any direct or indirect subsidy to an industry is reduced or terminated, or upon recontrol is not restored or is restored only in part, any maximum price applicable to the product affected shall be correspondingly increased, except in the case of transportation subsidies, differential subsidies to high-cost producers, and premium payments under authority of the Veterans' Emergency Housing Act of 1946.

c) Where roll-back subsidies have previously been or presently are in effect, and have been discontinued, or shall hereafter be discontinued, the industries which have received such subsidies shall be permitted to increase their ceiling prices at least an amount equivalent to the amount of the discontinued roll-back subsidy. Such price increase shall become effective either upon discontinuance of the roll-back subsidy or upon passage of this Act, whichever date is the later. For the purposes of this paragraph, the term "roll-back subsidies" means subsidy payments, or purchases and sales of a commodity at a loss by the Government of the United States (including any Government-owned or controlled corporation), or contracts therefor, which resulted directly or indirectly in the lowering of ceiling prices below the maximum price levels established by the Office of Price Administration prior to the institution of the subsidy payments or purchases and sales at a loss, or the execution of the contracts therefor, whichever date is the earlier.

d) Nothing in this section shall be construed to affect the provisions of Public Laws 30, 88, 164, and 328 of the Seventy-ninth Congress, or to prevent the use of the sums authorized in such laws to fulfill obligations incurred prior to July 1, 1946, with respect to operations prior to such date.

e) Notwithstanding any of the foregoing provisions of this section 6, 1946 and 1947 crop program operations with respect to sugar, may, while maximum prices are in effect with respect to sugar, be continued until such crops are processed and distributed, and the cost of 1946 crop program operations with respect to sugar may be charged to the funds authorized by Public Law 30, Seventy-ninth Congress, as amended by Public Law 328, Seventy-ninth Congress. For the purpose of this section 6, no subsidy program operation on sugar shall be considered to be a new subsidy: Provided, That Commodity Credit Corporation or any other Government agency shall not absorb any increase in the price paid for Cuban sugar over 3.675 cents per pound, raw basis, f. o. b. Cuba, as being paid for such sugar, in Cuba, on June 30, 1946.

(f) Nothing in this section shall be construed as a limitation upon operations authorized by the Veterans' Emergency Housing Act of 1946; and nothing in this Act or in any other Act shall prohibit the establishment of maximum sales prices or maximum rents for housing accommodations for which materials or facilities are allocated, or

SEC. 9. Section 2 (k) of the Emergency Price Control Act of 1942, as amended, is amended by inserting the words "or any operator of any service establishment" after the words "seller of goods at retail".

SEC. 10. Section 2 of the Emergency Price Control Act of 1942, as amended, is amended by adding at the end thereof the following new subsections:

"(o) No maximum price shall be applicable to any item served in any restaurant or other eating establishment if such item consists in whole or major part of a commodity to which no maximum price is applicable with respect to sales to restaurants and other eating establishments, unless the maximum price of such item, when sold by such restaurant or other eating establishment, is determined, under the applicable maximum price regulation or order, by the addition of a customary margin to the acquisition cost of such item.

"(p) After July 1, 1946, no maximum price regulation or order shall be issued or continued in effect requiring any seller to limit his sales by any weighted average price limitation based on his previous sales.

"(q) In the case of any retail industry, the principal sales of which consisted during the calendar years 1939 to 1941, inclusive, of sales of a commodity or commodities the production or retail distribution of which has been reduced, for a period of three years beginning on or after March 2, 1942, by 75 per centum or more below such production or retail distribution for the calendar years 1939 to 1941, inclusive, as a result of the operation of any governmental regulation or restriction, the Administrator shall not, in establishing maximum prices under this section, reduce established peacetime retail trade discounts or mark-ups or dealer handling charges for any such commodity before the retail unit sales of such commodity for a period of six months shall have reached the average annual retail unit sales thereof for the calendar years 1939 to 1941, inclusive.

"(r) In the case of any wholesale industry, the principal sales of which consisted during the calendar years 1939 to 1941, inclusive, of sales of a commodity or commodities, the production or wholesale distribution of which has been reduced for a period of three years beginning on or after March 2, 1942, by 75 per centum or more below such production or wholesale distribution for the calendar years 1939 to

1941, inclusive, as the result of the operation of any governmental regulation or restriction, the Administrator shall not in establishing maximum prices under this section reduce established wholesale trade discounts or normal wholesale mark-ups for any such commodity prevailing on March 2, 1942, before the wholesale unit sales of such commodity for a period of six months shall have reached the average annual wholesale unit sales thereof for the calendar years 1939 to 1941, inclusive.

"(s) No maximum price regulation or order shall require the reduction of the established peacetime discounts or mark-ups for the sale of any manufactured or processed commodity (treating as a single commodity for the purposes of this paragraph all commodities in a line of related commodities which, for the purpose of establishing manufacturers' and processors' maximum prices, have been placed by the Office of Price Administration under a single regulation) if the retail, wholesale, or other distributive trade selling such commodity shows that the commodity constituted approximately one-half or more of the gross sales income of a majority of the persons engaged in such trade in 1945 and that, in the first quarter of 1946, the deliveries of such commodity to such distributive trade were less than 100 per centum of the deliveries thereof in the corresponding quarter of 1945.

"(t) In establishing maximum prices applicable to wholesale or retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or mark-up as was in effect on March 31, 1946.

"(u) After the date upon which this subsection takes effect, no maximum price shall be established or maintained, under this Act or under any other provision of law, with respect to any new commodity when the Administrator upon application finds that its use, in the production, manufacturing, or processing of any commodity or commodities, without increasing the cost to the ultimate user, either increases the life or reduces the cost of production, manufacture, or processing of the commodity or commodities produced, manufactured or processed. As used in this subsection the term 'new commodity' means a commodity which was not commercially or industrially available prior to January 30, 1942.

"(v) In the case of softwood logs and lumber, the maximum prices shall be established at a level which will permit producers of at least 90 per centum of the production of softwood logs and lumber to recover their current costs of production.

"(w) In establishing maximum prices for sales of finished woven or knitted fabrics made primarily of cotton fiber or for the sales of apparel made therefrom it shall be unlawful for the Administrator to establish or maintain differentials in the method of determining the basic grey-goods cost or the finished-woven-fabrics or finished-knitted-fabrics cost to which a mark-up is to be applied based on the degree of integration of the seller.

"(x) Whenever the world price of a commodity essential to the economy of the United States (average price at which such commodity could be purchased when landed duty paid at any United States port of entry) exceeds the maximum purchase price established by the Administrator, and results in—

"(1) an actual reduction of the importation of such commodity into the United States in an amount substantial in relation to the total consumption of the commodity in the United States; or

"(2) the substantial curtailment or restriction of the domestic trade in such commodity or products processed directly therefrom,

the Administrator shall, in order to maintain and increase domestic...
production and employment and to make possible the balancing of supply and demand, promptly remove maximum purchase prices from imports of such commodity and maximum prices from products processed directly therefrom, or increase the maximum prices of imports of such commodity and of products processed directly therefrom to the extent necessary to prevent such reduction in importation or curtailment of domestic trade.

Sec. 11. The Emergency Price Control Act of 1942, as amended, is amended by inserting after section 5 thereof the following new section:

"Sec. 6. (a) For the purposes of this section the base period shall be the calendar year 1940, or in the case of an industry customarily keeping its accounts on a fiscal year basis, the industry's fiscal year 1940.

"(b) In order that adequate general price levels shall be established for all commodities to bring about maximum production and employment, no maximum prices shall be established or maintained for any product of a producing, manufacturing, or processing industry (including any industry furnishing service or transportation the charges for which are subject to the Administrator's control) which do not return on the average to the industry not less than the average dollar price of such product during the base period, plus the average increase in cost of producing, manufacturing, or processing the same accruing since the base period, but the maximum prices for a product shall be deemed in compliance with this standard if such prices on the average are equal to the average current total cost of the product plus the industry's average over-all profit margin on sales in the base period.

"(c) For the purpose of determining costs under this section, currently or for the base period, the Administrator shall ascertain the costs of a reasonable number of typical producers, manufacturers, or processors and shall follow accepted methods of accounting and such fair and reasonable methods of calculation as he shall establish by regulation, including adjustments for temporary cost abnormalities which may be reasonably anticipated to be eliminated within the three months following the Administrator's determination, and adjustments for increases in the volume of production which may be reasonably anticipated to be experienced within such three-month period.

"(d) Maximum prices established hereunder shall not be held invalid on account of their failure to return his costs to any particular member of any group involved.

"(e) Nothing herein shall nullify the power of the Administrator to make reasonable adjustments and exceptions in individual cases under the provisions of section 2 (c) of this Act.

"(f) If the maximum prices of a product on the average equal its average current total cost plus a reasonable profit, nothing herein shall require any further adjustment of such maximum prices for any period with respect to which it appears that a substantial expansion in the production or use of the product would not be practicable or would be practicable only by reducing the production of at least equally needed products.

"(g) As used in this section, 'product' shall mean any major item, or any article different in character from other products of the industry; but all the styles, models, or other varieties of any such item or article shall be considered as one product.

Any industry advisory committee may apply to the Administrator for the adjustment of the maximum prices applicable to any product in accordance with the standards set forth in this section, and shall present with the application comprehensive evidence with respect to costs and prices. The Administrator shall consider the evidence so presented and all evidence otherwise available to him and, within sixty days after the receipt of such application, he shall make the adjustments in maximum prices required by this section, or, if he finds that no such adjustments are required, he shall deny the application. If the Administrator neither makes the adjustments in the maximum prices for any product required by this section, nor denies the application for such adjustments, within the sixty-day period prescribed in this paragraph, the industry advisory committee concerned may petition the Emergency Court of Appeals, created pursuant to section 204, for relief; and such court shall have jurisdiction by appropriate order to require the Administrator to make such adjustments or deny such application within such time, not to exceed thirty days, as may be fixed by the court. If the Administrator fails to make such adjustments or deny such application within the time so fixed, no maximum price shall thereafter be applicable with respect to any sale of such product by any seller."

SEC. 12. (a) The second sentence of section 205 (e) of the Emergency Price Control Act of 1942, as amended, is amended to read as follows: "In any action under this subsection, the seller shall be liable for reasonable attorney's fees and costs as determined by the court, plus whichever of the following sums is greater: (1) Such amount not more than three times the amount of the overcharge, or the overcharges, upon which the action is based as the court in its discretion may determine, or (2) an amount not less than $25 nor more than $50, as the court in its discretion may determine: Provided, however, That such amount shall be the amount of the overcharge or overcharges if the defendant proves that the violation of the regulation, order, or price schedule in question was neither willful nor the result of failure to take practicable precautions against the occurrence of the violation."

(b) Section 205 (e) of the Emergency Price Control Act of 1942, as amended, is amended by adding at the end thereof the following new paragraphs:

"The Administrator may not institute any action under this subsection on behalf of the United States, or, if such action has been instituted, the Administrator shall withdraw the same—"

"(1) if the violation arose because the person selling the commodity acted upon and in accordance with the written advice and instructions of the Administrator or any regional administrator or district director of the Office of Price Administration; or"

"(2) if the violation arose out of the sale of a commodity to any agency of the Government, or to any public housing authority whose operations are supervised or financed in whole or in part by any agency of the Government, and such sale was made pur-
suant to the lowest bid made in response to an invitation for competitive bids.

"The Administrator shall not institute or maintain any enforcement action under this subsection against any manufacturer of apparel items where the Administrator shall determine (1) that the transactions on which such proceeding is based consisted of the manufacturer’s selling such an item at his published March 1942 price list prices instead of his March 1942 delivered prices, and (2) that the seller’s customary pricing patterns for related apparel items would be distorted by a requirement that his ceilings be the March 1942 delivered prices. The Administrator’s determinations under this paragraph shall be subject to review by the Emergency Court of Appeals in accordance with sections 203 and 204."

Sec. 13. The third sentence of paragraph (2) of section 205 (f) of the Emergency Price Control Act of 1942, as amended, is amended to read as follows: "If any such court finds that such person has violated any of the provisions of such license, regulation, order, price schedule, or requirement after the receipt of the warning notice, such court shall issue an order suspending the license to the extent that it authorizes such person to sell the commodity or commodities in connection with which the violation has occurred, or to the extent that it authorizes such person to sell any commodity or commodities with respect to which a regulation or order issued under section 2, or a price schedule effective in accordance with the provisions of section 206, is applicable; but no suspension shall be for a period of more than twelve months, and if the defendant proves that the violation in question was neither willful nor the result of failure to take practicable precautions against the occurrence of the violation, then in that event no suspension shall be ordered or directed."

Sec. 14. Section 3 of the Stabilization Act of 1942, as amended, is amended by adding at the end thereof the following new paragraph: "On and after the date of the enactment of this paragraph, it shall be unlawful to establish, or maintain, any maximum price applicable to manufacturers or processors, for any major item in the case of products made in whole or major part from cotton or cotton yarn or wool or wool yarn, unless the maximum price for such major item is fixed and maintained at not less than the sum of the following:

"(1) The cotton or wool cost (which must be computed at not less than the parity price or the current cost, whichever is greater, of the grade and staple of cotton or wool used in such item, delivered at the mill);

"(2) A weighted average of mill conversion costs; and

"(3) A reasonable profit (which shall not be less than a weighted average profit for each unit of such item equal to the weighted average of the profit earned on an equivalent unit of said item during the period 1939 to 1941, both inclusive)."

Sec. 15. The Secretary of Agriculture, through the Commodity Credit Corporation or otherwise, is hereby authorized to allocate feed which he controls to feeders of livestock and poultry in domestic areas which he may determine to be in an emergency shortage condition with respect to animal and poultry feed.

Sec. 16. (a) In the event producers of wheat are required by an order issued pursuant to the Second War Powers Act, 1942, as amended, to sell all or any part of wheat delivered to an elevator prior to April 1, 1947, the Commodity Credit Corporation shall offer to purchase the wheat so required to be sold at a price determined as follows: The purchase price paid for the wheat shall be the market price at the

point of delivery as of any date the producer may elect between the date of delivery and March 31, 1947, inclusive: Provided, however, That only one election may be made for each lot of wheat: And provided further, That the producer may not elect a date prior to the date on which he mails a written notice to Commodity Credit Corporation of his election. In the event the producer does not notify Commodity Credit Corporation in writing by March 31, 1947, of his election of a date for determining the market price, such date shall be deemed to be March 31, 1947.

(b) Any producer of wheat who, prior to the date of enactment of this Act, has sold any wheat pursuant to the requirements of paragraph (ee) (1) of War Food Order Numbered 144, may, at any time within thirty days after the date of enactment of this Act, pay to the Commodity Credit Corporation a sum equal to the amount for which he sold such wheat. Any producer paying any such sum to the Commodity Credit Corporation shall be deemed to have sold and delivered to the Commodity Credit Corporation as of the date he pays such sum a quantity of wheat equal in grade and quality to the quantity sold by him pursuant to such requirements and the purchase price to be paid to him for such wheat shall be determined in the same manner as in the case of a sale of wheat to the Commodity Credit Corporation pursuant to the provisions of subsection (a) of this section.

Sec. 18. (1) The provisions of this Act shall take effect as of June 30, 1946, and (2) all regulations, orders, price schedules, and requirements under the Emergency Price Control Act of 1942, as amended (except regulations or requirements under section 2 (e) thereof relating to meat, flour, or coffee), and the Stabilization Act of 1942, as amended, which were in effect on June 30, 1946, shall be in effect in the same manner and to the same extent as if this Act had been enacted on June 30, 1946, and (3) any proceeding, petition, application, or protest which was pending under the Emergency Price Control Act of 1942, as amended, or the Stabilization Act of 1942, as amended, on June 30, 1946, shall be proceeded with and shall be effective in the same manner and to the same extent as if this Act had been enacted on June 30, 1946: Provided, That in any case in which the Emergency Price Control Act of 1942, as amended (except sections 204 and 205), or the Stabilization Act of 1942, as amended (except sections 8 and 9), or any regulation, order, or requirement under either of such Acts, prescribes any period of time within which any act is required or permitted to be done, and such period had commenced but had not expired on June 30, 1946, such period is hereby extended for a number of days equal to the number of days from July 1, 1946, to the date of enactment of this Act, both inclusive: Provided further, That no act or transaction, or omission or failure to act, occurring subsequent to June 30, 1946, and prior to the date of enactment of this Act shall be deemed to be a violation of the Emergency Price Control Act of 1942, as amended, or the Stabilization Act of 1942, as amended, or of any regulation, order, price schedule, or requirement under either of such Acts: Provided further, That insofar as the provisions of this Act require the Administrator to make any change in any maximum price, such provisions shall not be deemed to require such change to be made before the thirtieth day following the date of enactment of this Act.

AN ACT

To amend and supplement the Federal-Aid Road Act of July 11, 1916, as amended and supplemented, to provide for the design and construction of dams so that they will serve as foundations for highway bridges, to provide for the design and construction of highway bridges upon and across such dams, to authorize the granting of easements and rights-of-way in connection therewith, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That hereafter each executive department, independent establishment, office, board, bureau, commission, authority, administration, corporation wholly owned or controlled by the United States, or other agency of the Government of the United States, hereinafter collectively and individually referred to as "agency", now or hereafter having jurisdiction over and custody of any dam constructed or to be constructed and owned by or for the United States, shall be, and is hereby, authorized, with any funds available to it, to design and construct any such dam in such manner that it will constitute and serve as a suitable and adequate foundation to support a public highway bridge upon and across such dam, and to design and construct upon the foundation thus provided a public highway bridge upon and across such dam: Provided, That the highway department of the State in which such dam shall be located jointly with the United States Commissioner of Public Roads shall first determine and certify to such agency that such bridge is economically desirable and needed as a link in the State or Federal-aid highway systems, and shall request such agency to design and construct such dam so that it will serve as a suitable and adequate foundation for a public highway bridge and to design and construct such public highway bridge upon and across such dam, and shall agree to reimburse such agency pursuant to section 4 hereof for any additional costs which it may be required to incur because of the design and construction of such dam so that it will serve as a foundation for a public highway bridge and for any expenditures which it may find it necessary to make in designing and constructing such public highway bridge upon and across such dam: Provided further, That in no case shall the design and construction of a bridge upon and across any such dam be undertaken hereunder except by the agency having jurisdiction over and custody of the dam, acting directly or through contractors employed by it, and after such agency shall determine that it will be structurally feasible and will not interfere with the proper functioning and operation of the dam.

Sec. 2. Construction of any bridge upon and across any dam pursuant to this Act shall not be commenced unless and until the State in which such bridge is to be located, or the appropriate subdivision of such State, shall enter into an agreement with such agency and with the Commissioner of Public Roads to construct, or cause to be constructed, with or without the aid of Federal funds, the approach roads necessary to connect such bridge with existing public highways and to maintain, or cause to be maintained, such approach roads from and after their completion. Such agreement may also provide for the design and construction of such bridge upon and across the dam by such agency of the United States and for reimbursing such agency the costs incurred by it in the design and construction of the bridge.

as provided in section 4 hereof. Any such agency is hereby authorized to convey to the State, or to the appropriate subdivision thereof, without cost, such easements and rights-of-way in its custody or over lands of the United States in its custody and control as may be necessary, convenient, or proper for the location, construction, and maintenance of the approach roads referred to in this section, including such roadside parks or recreational areas of limited size as may be deemed necessary for the accommodation of the traveling public. Any bridge constructed pursuant to this Act upon and across a dam in the custody and jurisdiction of any agency of the United States, including such portion thereof, if any, as may extend beyond the physical limits of the dam, shall constitute and remain a part of said dam and be maintained by the agency: Provided, however, That any such agency may enter into any such contracts and agreements with the State or its subdivisions respecting public use of any bridge so located and constructed as may be deemed appropriate, but no such bridge shall be closed to public use by the agency except in cases of emergency or when deemed necessary in the interest of national security.

SEC. 3. All costs and expenses incurred and expenditures made by any agency in the exercise of the powers and authority conferred by this Act (but not including any costs, expenses, or expenditures which would have been required in any event to satisfy a legal road or bridge relocation obligation or to meet operating or other agency needs) shall be recorded and kept separate and apart from the other costs, expenses, and expenditures of such agency, and no portion thereof shall be charged or allocated to flood control, navigation, irrigation, fertilizer production, the national defense, the development of power, or other program, purpose, or function of such agency.

SEC. 4. Not to exceed $10,000,000 of any money heretofore or hereafter appropriated for expenditure in accordance with the provisions of the Federal Highway Act (42 Stat. 212), as amended and supplemented, shall be available for expenditure by the Commissioner of Public Roads in accordance with the provisions of this Act, as an emergency fund, to reimburse any agency for any additional costs or expenditures which it may be required to incur because of the design and construction of any such dam so that it will constitute and serve as a foundation for a public highway bridge upon and across such dam and to reimburse any such agency for any costs, expenses, or expenditures which it may be required to make in designing and constructing any such bridge upon and across a dam in accordance with the provisions of this Act, except such costs, expenses, or expenditures as would have been required of such agency in any event to satisfy a legal obligation to relocate a highway or bridge or to meet operating or other agency needs, and there is hereby authorized to be appropriated any sum or sums necessary to reimburse the funds so expended by the Commissioner of Public Roads from time to time under the authority of this section. Of each bridge constructed upon and across a dam under the provisions of this Act, there may be financed wholly with Federal funds that portion thereof which is located within the physical limits of the masonry structure, or structures, of the dam, and the Commissioner of Public Roads shall in his sole discretion determine what additional portion of the bridge, if any, may be so financed, such determination to be final and conclusive. The remainder of the bridge, and any necessary related approach roads, shall be financed by the State or its appropriate subdivision, with or without the aid of Federal funds; but said portion of the bridge so financed by the State or its subdivisions, including such portion thereof, if any, as may extend beyond the
physical limits of the dam, shall nevertheless be designed and constructed solely by the agency having custody and jurisdiction of the dam as provided in section 1 hereof.

Sec. 5. In making, reviewing, or approving the design of any bridge or approach structure to be constructed under this Act the agency shall, in matters relating to roadway design, loadings, clearances and widths, and traffic safeguards, give full consideration to and be guided by the standards and advice of the Public Roads Administration.

Sec. 6. The authority conferred by this Act shall be in addition to and not in limitation of authority conferred upon any agency by any other law, and nothing in this Act contained shall affect or be deemed to relate to any bridge, approach structure, or highway constructed or to be constructed by any such agency in furtherance of its lawful purposes and requirements or to satisfy a legal obligation incurred independently of this Act.

The National Commission shall meet at least once annually. The National Commission shall designate from among its members an executive committee, and may designate such other committees as may prove necessary, to consult with the Department of State and to perform such other functions as the National Commission shall delegate to them. "(b) EMPLOYEE.—The term 'employee' means any individual in the service of one or more employers for compensation: Provided, however, That the term 'employee' shall include an employee of a local lodge or division defined as an employer in subsection (a) only if he was in the service of or in the employment relation to a carrier on or after August 29, 1935. An individual shall be deemed to have been in the employment relation to a carrier on August 29, 1935, if (i) he was on that date on leave of absence from his employment, expressly granted to him by the carrier by whom he was employed, or by a duly authorized representative of such carrier, and the grant of such leave of absence will have been established to the satisfaction of the Railroad Retirement Board before July 1947; or (ii) he was in the service of a carrier after August 29, 1935, and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before August 29, 1935, he did not retire and was not retired or discharged from the service of the last carrier by whom he was employed or its corporate or operating successor, but (A) solely by reason of his physical or mental disability he ceased before August 29, 1935, to be in the service of such carrier and thereafter remained continuously disabled until he attained age sixty-five or until August 1945, or (B) solely for such
last stated reason a carrier by whom he was employed before August 29, 1935, or a carrier who is its successor did not on or after August 29, 1935, and before August 1945 call him to return to service, or (C) if he was so called he was solely for such reason unable to render service in six calendar months as provided in clause (ii); or (iv) he was on August 29, 1935 absent from the service of a carrier by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the carrier, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights: Provided, That an individual shall not be deemed to have been on August 29, 1935, in the employment relation to a carrier if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6 of the Railroad Retirement Act of 1937, or if during the last pay-roll period before August 29, 1935, in which he rendered service to a carrier he was not in the service of an employer, in accordance with subsection (d), with respect to any service in such pay-roll period, or if he could have been in the employment relation to an employer only by reason of his having been, either before or after August 29, 1935, in the service of a local lodge or division defined as an employer in subsection (a).

"The term 'employee' includes an officer of an employer.

"The term 'employee' shall not include any individual while such individual is engaged in the physical operations consisting of the mining of coal, the preparation of coal, the handling (other than movement by rail with standard railroad locomotives) of coal not beyond the mine tipple, or the loading of coal at the tipple."

(f) Section 1532 (e) of the Internal Revenue Code is amended by adding at the end thereof the following new paragraph:

"A payment made by an employer to an individual through the employer's pay roll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made. An employee shall be deemed to be paid, 'for time lost' the amount he is paid by an employer with respect to an identifiable period of absence from the active service of the employer, including absence on account of personal injury, and the amount he is paid by the employer for loss of earnings resulting from his displacement to a less remunerative position or occupation. If a payment is made by an employer with respect to a personal injury and includes pay for time lost, the total payment shall be deemed to be paid for time lost unless, at the time of payment, a part of such payment is specifically apportioned to factors other than time lost, in which event only such part of the payment as is so not apportioned shall be deemed to be paid for time lost."

(g) Subchapter B of Chapter 9 of the Internal Revenue Code is amended by adding at the end thereof the following new section:

"SEC. 1538. TITLE OF SUBCHAPTER.

"This subchapter may be cited as the 'Railroad Retirement Tax Act'."

DIVISION II

Sec. 201. Section 1 (d) of the Railroad Retirement Act of 1937 is amended by reading as follows:

"(d) An individual shall be deemed to have been in the employment relation to an employer on the enactment date if (i) he was on that date on leave of absence from his employment, expressly granted to him by the employer by whom he was employed, or by a
duly authorized representative of such employer, and the grant of such leave of absence will have been established to the satisfaction of the Board before July 1947; or (ii) he was in the service of an employer after the enactment date and before January 1946 in each of six calendar months, whether or not consecutive; or (iii) before the enactment date he did not retire and was not retired or discharged from the service of the last employer by whom he was employed or its corporate or operating successor, but (A) solely by reason of his physical or mental disability he ceased before the enactment date to be in the service of such employer and thereafter remained continuously disabled until he attained age sixty-five or until August 1945 or (B) solely for such last stated reason an employer by whom he was employed before the enactment date or an employer who is its successor did not on or after the enactment date and before August 1945 call him to return to service, or (C) if he was so called he was solely for such reason unable to render service in six calendar months as provided in clause (ii); or (iv) he was on the enactment date absent from the service of an employer by reason of a discharge which, within one year after the effective date thereof, was protested, to an appropriate labor representative or to the employer, as wrongful, and which was followed within ten years of the effective date thereof by his reinstatement in good faith to his former service with all his seniority rights: Provided, That an individual shall not be deemed to have been on the enactment date in the employment relation to an employer if before that date he was granted a pension or gratuity on the basis of which a pension was awarded to him pursuant to section 6, or if during the last pay-roll period before the enactment date in which he rendered service to an employer he was not in the service of an employer, in accordance with subsection (c), with respect to any service in such pay-roll period, or if he could have been in the employment relation to an employer only by reason of his having been, either before or after the enactment date in the service of a local lodge or division defined as an employer in section 1 (a).

SEC. 202. Section 1 (f) is amended by changing the period at the end of the proviso to a semicolon and adding “it may also be included as to service rendered to a person not an employer in the performance of operations involving the use of standard railroad equipment if such operations were performed by an employer on the enactment date.” Section 1 (f) is further amended by substituting for the word “An” in the next to the last sentence the following: “Ultimate fractions shall be taken at their actual value, except that if the individual will have had not less than fifty-four months of service, an” and by striking out the last sentence.

SEC. 203. A new subsection is added to section 1 as follows:
“(o) An individual shall be deemed to have a ‘current connection with the railroad industry’ at the time an annuity begins to accrue to him and at death if, in any thirty consecutive calendar months before the month in which an annuity under section 2 begins to accrue to him (or the month in which he dies if that first occurs), he will have been in service as an employee in not less than twelve calendar months and, if such thirty calendar months do not immediately precede such month, he will not have been engaged in any regular employment other than employment for an employer in the period before such month and after the end of such thirty months. For the purposes of section 5 only, an individual shall be deemed also to have a ‘current connection with the railroad industry’ if he is in all other respects completely insured but would not be fully insured under the
Social Security Act, or if he is in all other respects partially insured but would be neither fully nor currently insured under the Social Security Act, or if he has no wage quarters of coverage."

SEC. 204. A new subsection is added to section 1 as follows:

"(p) The terms 'quarter' and 'calendar quarter' shall mean a period of three calendar months ending on March 31, June 30, September 30, or December 31."

SEC. 205. Section 2 (a) is amended by substituting for all that portion of the subsection after the first numbered paragraph the following:

"2. Women who will have attained the age of sixty and will have completed thirty years of service.

3. Individuals who will have attained the age of sixty and will have completed thirty years of service, but the annuity of such an individual shall be reduced by one one-hundred-and-eightieth for each calendar month that he is under age sixty-five when his annuity begins to accrue.

4. Individuals having a current connection with the railroad industry, and whose permanent physical or mental condition is such as to be disabling for work in their regular occupation, and who (i) will have completed twenty years of service or (ii) will have attained the age of sixty. The Board, with the cooperation of employers and employees, shall secure the establishment of standards determining the physical and mental conditions which permanently disqualify employees for work in the several occupations in the railroad industry, and the Board, employers, and employees shall cooperate in the promotion of the greatest practicable degree of uniformity in the standards applied by the several employers. An individual's condition shall be deemed to be disabling for work in his regular occupation if he will have been disqualified by his employer because of disability for service in his regular occupation in accordance with the applicable standards so established; if the employee will not have been so disqualifed by his employer, the Board shall determine whether his condition is disabling for work in his regular occupation in accordance with the standards generally established; and, if the employee's regular occupation is not one with respect to which standards will have been established, the standards relating to a reasonably comparable occupation shall be used. If there is no such comparable occupation, the Board shall determine whether the employee's condition is disabling for work in his regular occupation by determining whether under the practices generally prevailing in industries in which such occupation exists such condition is a permanent disqualification for work in such occupation. For the purposes of this section, an employee's 'regular occupation' shall be deemed to be the occupation in which he will have been engaged in more calendar months than the calendar months in which he will have been engaged in any other occupation during the last preceding five calendar years, whether or not consecutive, in each of which years he will have earned wages or salary, except that, if an employee establishes that during the last fifteen consecutive calendar years he will have been engaged in another occupation in one-half or more of all the months in which he will have earned wages or salary, he may claim such other occupation as his regular occupation; or

5. Individuals whose permanent physical or mental condition is such that they are unable to engage in any regular employment and who (i) have completed ten years of service, or (ii) have attained the age of sixty.

Such satisfactory proof shall be made from time to time as prescribed by the Board, of the disability provided for in paragraph 4.
or 5 and of the continuance of such disability (according to the standards applied in the establishment of such disability) until the employee attains the age of sixty-five. If the individual fails to comply with the requirements prescribed by the Board as to proof of the continuance of the disability until he attains the age of sixty-five years, his right to an annuity by reason of such disability shall, except for good cause shown to the Board, cease, but without prejudice to his rights to any subsequent annuity to which he may be entitled. If before attaining the age of sixty-five an employee in receipt of an annuity under paragraph 4 or 5 is found by the Board to be no longer disabled as provided in said paragraphs his annuity shall cease upon the last day of the month in which he ceases to be so disabled. An employee, in receipt of such annuity, who earns more than $75 in service for hire, or in self-employment, in each of any six consecutive calendar months, shall be deemed to cease to be so disabled in the last of such six months; and such employee shall report to the Board immediately all such service for hire, or such self-employment. If after cessation of his disability annuity the employee will have acquired additional years of service, such additional years of service may be credited to him with the same effect as if no annuity had previously been awarded to him."

SEC. 206. Section 2 (b) is amended by substituting for "2 (b)" and "3" the numbers "4" and "5", respectively.

SEC. 207. Section 3 (b) (4) is amended by substituting for the portion of the sentence following "June 30, 1937" the following: "and after the end of the calendar year in which the individual attains the age of sixty-five".

SEC. 208. Section 3 (c) is amended by substituting the phrase "paid to an employee with respect to" for the phrase "earned by an employee in".

SEC. 209. Section 3 (e) is further amended by substituting for that portion of the subsection following the phrase "and (2)" the following: "the amount of compensation paid or attributable as paid to him with respect to each month of service before September 1941 as a station employee whose duties consisted of or included the carrying of passengers' hand baggage and otherwise assisting passengers at passenger stations and whose remuneration for service to the employer was, in whole or in substantial part, in the forms of tips, shall be the monthly average of the compensation paid to him as a station employee in his months of service in the period September 1940-August 1941: Provided, however, That where service in the period 1924-1931 in the one case, or in the period September 1940-August 1941 in the other case, is, in the judgment of the Board, insufficient to constitute a fair and equitable basis for determining the amount of compensation paid or attributable as paid to him in each month of service before 1937, or September 1941, respectively, the Board shall determine the amount of such compensation for each such month in such manner as in its judgment shall be fair and equitable. In computing the monthly compensation, no part of any month's compensation in excess of $300 shall be recognized."

SEC. 210. Section 3 (e) is amended to read as follows: "(e) In the case of an individual having a current connection with the railroad industry and not less than five years of service, the minimum annuity payable shall, before any reduction pursuant to subsection 2 (a) (3), be whichever of the following is the least: (1) $3 multiplied by the number of his years of service; or (2) $50; or (3) his monthly compensation."
SEC. 211. Section 3 (f) is amended to read as follows:

“Annuity payments which will have become due an individual but will not yet have been paid at death shall be paid to the same individual or individuals who, in the event that a lump sum will have become payable pursuant to section 5 hereof upon such death, would be entitled to receive such lump sum, in the same manner as, and subject to the same limitations under which, such lump sum would be paid, except that, as determined by the Board, first, brothers and sisters of the deceased, and if there are none such, then grandchildren of the deceased, if living on the date of the determination, shall be entitled to receive payment prior to any payment being made for reimbursement of burial expenses. If there be no individual to whom payment can thus be made, such annuity payments shall escheat to the credit of the Railroad Retirement Account.”

SEC. 212. Section 4 is repealed, section 3A is renumbered as section 4, subsections (h) and (m) of said section are repealed, and all references to section “3A” are changed to “4”.

SEC. 213. The heading preceding section 5, and section 5 are amended to read as follows:

“ANNUITIES AND LUMP Sums FOR SURVIVORS

“SEC. 5. (a) WIDOW’S INSURANCE ANNUITY.—A widow of a completely insured employee, who will have attained the age of sixty-five, shall be entitled during the remainder of her life or, if she remarries, then until remarriage to an annuity for each month equal to three-fourths of such employee’s basic amount.

“(b) WIDOW’S CURRENT INSURANCE ANNUITY.—A widow of a completely or partially insured employee, who is not entitled to an annuity under subsection (a) and who at the time of filing an application for an annuity under this subsection will have in her care a child of such employee entitled to receive an annuity under subsection (c) shall be entitled to an annuity for each month equal to three-fourths of the employee’s basic amount. Such annuity shall cease upon her death, upon her remarriage, when she becomes entitled to an annuity under subsection (a), or when no child of the deceased employee is entitled to receive an annuity under subsection (c), whichever occurs first.

“(c) CHILD’S INSURANCE ANNUITY.—Every child of an employee who will have died completely or partially insured shall be entitled, for so long as such child lives and meets the qualifications set forth in paragraph (1) of subsection (1), to an annuity for each month equal to one-half of the employee’s basic amount.

“(d) PARENT’S INSURANCE ANNUITY.—Each parent, sixty-five years of age or over, of a completely insured employee, who will have died leaving no widow and no child, shall be entitled, for life, or, if such parent remarries after the employee’s death, then until such remarriage, to an annuity for each month equal to one-half of the employee’s basic amount.

“(e) When there is more than one employee with respect to whose death a parent or child is entitled to an annuity for a month, such annuity shall be one-half of whichever employee’s basic amount is greatest.

“(f) LUMP-SUM PAYMENT.—Upon the death, on or after January 1, 1947, of a completely or partially insured employee who will have died leaving no widow, child, or parent who would on proper application therefor be entitled to receive an annuity under this section for the month in which such death occurred, there shall be paid a lump sum of eight times the employee’s basic amount to the following person (or if more than one there shall be distributed among them) whose relationship to the deceased employee will have
been determined by the Board, and who will have been living on the date of such determination: to the widow or widower of the deceased; or, if no such widow or widower be then living, to any child or children of the deceased and to any other person or persons who, under the intestacy law of the State where the deceased will have been domiciled, will have been entitled to share as distributees with such children of the deceased, in such proportions as is provided by such law; or, if no widow or widower and no such child and no such other person be then living, to the parent or parents of the deceased, in equal shares. A person who is entitled to share as distributee with an above-named relative of the deceased shall not be precluded from receiving a payment under this subsection by reason of the fact that no such named relative will have survived the deceased or of the fact that no such named relative of the deceased will have been living on the date of such determination. If none of the persons described in this subsection be living on the date of such determination, such amount shall be paid to any person or persons, equitably entitled thereto, to the extent and in the proportions that he or they shall have paid the expenses of burial of the deceased. If a lump sum would be payable to a widow, child, or parent under this subsection except for the fact that a survivor will have been entitled to receive an annuity for the month in which the employee will have died, but within one year after the employee’s death there will not have accrued to survivors of the employee, by reason of his death annuities which, after all deductions pursuant to paragraph (1) of subsection (i) will have been made, are equal to such lump sum, a payment to any then surviving widow, children, or parents shall nevertheless be made under this subsection equal to the amount by which such lump sum exceeds such annuities so accrued after such deductions. No payment shall be made to any person under this subsection, unless application therefor shall have been filed, by or on behalf of any such person (whether or not legally competent), prior to the expiration of two years after the date of death of the deceased employee, except that if the deceased employee is a person to whom section 2 of the Act of March 7, 1942 (56 Stat. 143, 144), is applicable such two years shall run from the date on which the deceased employee, pursuant to said Act, is determined to be dead, and for all other purposes of this section such employee, so long as it does not appear that he is in fact alive, shall be deemed to have died on the date determined pursuant to said Act to be the date or presumptive date of death.

(g) CORRELATION OF PAYMENTS.—(1) An individual, entitled on applying therefor to receive for a month before January 1, 1947, an insurance benefit under the Social Security Act on the basis of an employee’s wages, which benefit is greater in amount than would be an annuity for such individual under this section with respect to the death of such employee, shall not be entitled to such annuity. An individual, entitled on applying therefor to any annuity or lump sum under this section with respect to the death of an employee, shall not be entitled to a lump-sum death payment or, for a month beginning on or after January 1, 1947, to any insurance benefits under the Social Security Act on the basis of the wages of the same employee.

(2) A widow or child, otherwise entitled to an annuity under this section, shall be entitled only to that part of such annuity for a month which exceeds the total of any retirement annuity, and insurance benefit under the Social Security Act to which such widow or child would be entitled for such month on proper application.
therefor. A parent, otherwise entitled to an annuity under this section, shall be entitled only to that part of such annuity for a month which exceeds the total of any other annuity under this section, retirement annuity, and insurance benefit under the Social Security Act to which such parent would be entitled for such month on proper application therefor.

"(h) Maximum and Minimum Annuity Totals.—Whenever according to the provisions of this section as to annuities, payable for a month with respect to the death of an employee, the total of annuities is more than $20 and exceeds either (a) $120, or (b) an amount equal to twice such employee's basic amount, or with respect to employees other than those who will have been completely insured solely by virtue of subsection (l) (7) (iii), such total exceeds (c) an amount equal to 80 per centum of his average monthly remuneration, whichever of such amounts is least, such total of annuities shall, prior to any deductions under subsection (i), be reduced to such least amount or to $20, whichever is greater. Whenever such total of annuities is less than $10, such total shall, prior to any deductions under subsection (i), be increased to $10.

"(i) Deductions from Annuities.—(1) Deductions shall be made from any payments under this section to which an individual is entitled, until the total of such deductions equals such individual's annuity or annuities under this section for any month in which such individual—

"(i) will have rendered compensated service within or without the United States to an employer;
"(ii) will have rendered service for wages of not less than $25;
"(iii) if a child under eighteen and over sixteen years of age, will have failed to attend school regularly and the Board finds that attendance will have been feasible; or
"(iv) if a widow otherwise entitled to an annuity under subsection (b) will not have had in her care a child of the deceased employee entitled to receive an annuity under subsection (c);

"(2) The total of deductions for all events described in paragraph (1) occurring in the same month shall be limited to the amount of such individual's annuity or annuities for that month. Such individual (or anyone in receipt of an annuity in his behalf) shall report to the Board the occurrence of any event described in paragraph (1).

"(3) Deductions shall also be made from any payments under this section with respect to the death of an employee until such deductions total—

"(i) any death benefit, paid with respect to the death of such employee, under sections 5 of the Retirement Acts (other than a survivor annuity pursuant to an election);
"(ii) any lump sum paid, with respect to the death of such employee, under title II of the Social Security Act, or under section 203 of the Social Security Act in force prior to the date of the Social Security Act Amendments of 1939;
"(iii) any lump sum paid to such employee under section 204 of the Social Security Act in force prior to the date of the enactment of the Social Security Act Amendments of 1939, provided such lump sum will not previously have been deducted from any insurance benefit paid under the Social Security Act; and
"(iv) an amount equal to 1 per centum of any wages paid to such employee for services performed in 1939, and subsequent to his attaining age sixty-five, with respect to which the taxes imposed by section 1400 of the Internal Revenue Code will not have been deducted by his employer from his wages or paid by such employer, provided such amount will not previously have
been deducted from any insurance benefit paid under the Social Security Act.

"(4) The deductions provided in this subsection shall be made in such amounts and at such time or times as the Board shall determine. Decreases or increases in the total of annuities payable for a month with respect to the death of an employee shall be equally apportioned among all annuities in such total. An annuity under this section which is not in excess of $5 may, in the discretion of the Board, be paid in a lump sum equal to its commuted value as the Board shall determine.

"(j) When annuities begin and end.—No individual shall be entitled to receive an annuity under this section for any month before January 1, 1947. An application for any payment under this section shall be made and filed in such manner and form as the Board prescribes. An annuity under this section for an individual otherwise entitled thereto shall begin with the month in which such individual filed an application for such annuity: Provided, That such individual's annuity shall begin with the first month for which he will otherwise have been entitled to receive such annuity if he files such application prior to the end of the third month immediately succeeding such month. No application for an annuity under this section filed prior to three months before the first month for which the applicant becomes otherwise entitled to receive such annuity shall be accepted. No annuity shall be payable for the month in which the recipient thereof ceases to be qualified therefor.

"(k) Provisions for crediting railroad industry service under the social security act in certain cases.—(1) For the purpose of determining insurance benefits under title II of the Social Security Act which would begin to accrue on or after January 1, 1947, to a widow, parent, or surviving child, and with respect to lump-sum death payments under such title payable in relation to a death occurring on or after such date, section 15 of the Railroad Retirement Act of 1935, section 209 (b) (9) of the Social Security Act, and section 17 of this Act shall not operate to exclude from 'employment', under title II of the Social Security Act, service which would otherwise be included in such 'employment' but for such sections. For such purpose, compensation paid in a calendar year shall, in the absence of evidence to the contrary, be presumed to have been paid in equal proportions with respect to all months in the year in which the employee will have been in services as an employee.

"(2) Not later than January 1, 1950, the Board and the Federal Security Administrator shall make a special joint report to the President to be submitted to Congress setting forth the experience of the Board in crediting wages toward awards, and the experience of the Social Security Board in crediting compensation toward awards, and their recommendations for such legislative changes as are deemed advisable for equitable distribution of the financial burden of such awards between the retirement account and the Federal Old Age and Survivors Insurance Trust Fund.

"(3) The Board and the Federal Security Administrator shall, upon request, supply each other with certified reports of records of compensation or wages and periods of service and of other records in their possession or which they may secure, pertinent to the administration of this section or title II of the Social Security Act as affected by paragraph (1). Such certified reports shall be conclusive in adjudication as to the matters covered therein: Provided, That if the Board or the Federal Security Administrator receives
evidence inconsistent with a certified report and the application involved is still in course of adjudication or otherwise open for such evidence, such recertification of such report shall be made as, in the judgment of the Board or the Federal Security Administrator, whichever made the original certification, the evidence warrants. Such recertification and any subsequent recertification shall be treated in the same manner and be subject to the same conditions as an original certification.

"(1) DEFINITIONS.—For the purposes of this section the term 'employee' includes an individual who will have been an 'employee', and—

"(1) The qualifications for 'widow', 'child', and 'parent' shall be, except for the purposes of subsection (f), those set forth in section 209 (j) and (k), and section 202 (f) (3) of the Social Security Act, respectively; and in addition—

If the average monthly earnings on which a pension payable to him was computed are not ascertainable from the records in the possession of the Board, the amount computed under this subdivision shall be $33.33, except that if the pension payable to him was less than $25, such amount shall be four-thirds of the amount of the pension or $13.33, whichever is greater. The term ‘monthly compensation’ shall, for the purposes of this subdivision, mean the monthly compensation used in computing the annuity;

The place or places of examination shall be reasonably convenient for the employee. No sickness or maternity benefits shall be payable under this Act with respect to any period during which the employee unreasonably refuses to take or willfully obstructs an examination as prescribed by the Board.

"Any doctor who renders any attendance, treatment, attention, or care, or performs any examination with respect to a sickness of an employee or to the expected date of birth of a female employee’s child, or the birth of such a child, upon which a claim or right to benefits under this Act is based, shall furnish the Board, in such manner and form and at such times as the Board by regulations may prescribe, information and reports relative thereto and to the condition of the employee. An application for sickness or maternity benefits under this Act shall contain a waiver of any doctor-patient privilege that the employee may have with respect to any sickness or maternity period upon which such application is based; Provided, That such information shall not be disclosed by the Board except in a court proceeding relating to any claim for benefits by the employee under this Act.

In the event that the Board pays for the physical or mental examination of an employee or for the execution of a statement of sickness and such employee's claim for benefits is based upon such examination or statement, the Board shall deduct from any sickness or maternity benefits payable to the employee pursuant to such claim such amount as, in the judgment of the Board, is a fair and reasonable charge for such examination or execution of such statement.
“(o) Benefits payable to an employee with respect to days of sickness shall be payable regardless of the liability of any person to pay damages for such infirmity. The Board shall be entitled to reimbursement from any sum or damages paid or payable to such employee or other person through suit, compromise, settlement, judgment, or otherwise on account of any liability (other than a liability under a health, sickness, accident, or similar insurance policy) based upon such infirmity, to the extent that it will have paid or will pay benefits for days of sickness resulting from such infirmity. Upon notice to the person against whom such right or claim exists or is asserted, the Board shall have a lien upon such right or claim, any judgment obtained thereunder, and any sum or damages paid under such right or claim, to the extent of the amount to which the Board is entitled by way of reimbursement.

“(p) The Board may, after hearing, disqualify any person from executing statements of sickness who, the Board finds, (i) will have solicited, or will have employed another to solicit, for himself or for another the execution of any such statement, or (ii) will have made false or misleading statements to the Board, to any employer, or to any employee, in connection with the awarding of any benefits under this Act, or (iii) will have failed to submit medical reports and records required by the Board under this Act, or will have failed to submit any other reports, records, or information required by the Board in connection with the administration of this Act or any other Act herebefore or hereafter administered by the Board, or (iv) will have engaged in any malpractice or other professional misconduct. No fees or charges of any kind shall accrue to any such person from the Board after his disqualification.

“(q) The Board shall engage in and conduct research projects, investigations, and studies with respect to the cause, care, and prevention of, and benefits for, accidents and disabilities and other subjects deemed by the Board to be related thereto, and shall recommend legislation deemed advisable in the light of such research projects, investigations, and studies.”

Sec. 324. Subsection 13 (b) is amended by inserting after “1939,” in the first, second, and third sentences thereof, “and for the payment of sickness and maternity benefits for sickness or for maternity periods after June 30, 1947,” “or to sickness or maternity benefits under a sickness or maternity law of any State with respect to sickness or to maternity periods occurring after June 30, 1947,” and “or of State sickness or maternity laws after June 30, 1947”, respectively.

Sec. 402. Section 306 shall become effective on July 1, 1946, and sections 203, 205, 206, 207, 210, 211, 213, and 318 shall become effective on January 1, 1947.

The amendments to section 1532 of the Internal Revenue Code made by sections 1 and 3 (e) and (f) shall be effective only with respect to services rendered after December 31, 1946. The amendments made by section 3 (a), (b), (c), and (d) shall take effect January 1, 1947. Sections 1500, 1510, and 1520 of the Internal Revenue Code as in effect on December 31, 1946, shall remain in full force and effect on and after January 1, 1947, with respect to any remuneration which constitutes compensation under the law as in effect on December 31, 1946, to which such sections as amended by this Act are not applicable.
SEC. 403. Sections 301, 302, 303, 304, 305 (except for the revision of the table which shall be effective on the date of enactment of this Act), 307, 308, 309, and 310 shall become effective on July 1, 1947.

SEC. 404. Except as hereinafter provided, the rights of persons to whom pensions or annuities were awarded before the date of approval of this Act shall continue to be governed by the provisions of law applicable thereto prior to the approval of this Act. In the award of annuities or increases in annuities after the date of approval of this Act on applications on which no award or a partial award has been made prior to said date, service prior to 1937 (and the compensation therefor) shall be credited only if such service is credited under the amendments made by section 201. No annuity or increase in annuity so awarded crediting such service shall begin to accrue prior to the date of approval of this Act.

SEC. 405. The election of a joint and survivor annuity made before the date of approval of this Act by an individual to whom an annuity accrues before January 1, 1947, shall be given effect as though the provisions of law under which the election was made had continued to be operative unless an annuity was awarded before the date of approval of this Act and, within one year after the approval of this Act, he revokes the election in such form and manner as the Board may prescribe. Such election by an individual to whom no annuity accrues before January 1, 1947, shall also be given such effect if the individual, before January 1, 1948, reaffirms the election in such form and manner as the Board may prescribe.

SEC. 406. Payments upon death as provided in sections 5 of the Railroad Retirement Acts of 1935 and 1937 other than survivor annuities pursuant to an election, shall be made only with respect to deaths occurring before January 1, 1947.

SEC. 407. An individual to whom an annuity accrued prior to January 1, 1947, and who would as of the date of initial accrual have been entitled to an annuity in a greater amount by reason of the amendments made by section 201, 202, 205, or 210 had such amendments been in effect at the date of initial accrual (or, in the case of a survivor annuity, at the date of initial accrual of the annuity from which it derives), shall, without further application therefor other than a statement of any service claimed under section 202, be awarded an annuity in such greater amount beginning as of the date the applicable amendment shall have become operative: Provided, however, That, in such award service before 1937 (and the compensation therefor) shall not be credited if such service would not be creditable upon application of all the amendments made by this Act. In determinations made pursuant to this section any individual to whom an annuity based on not less than five years of service accrues before January 1, 1947, shall be deemed to have a “current connection with the railroad industry”. If an annuity increased pursuant to this section is a joint and survivor annuity, the increase shall be in the same form, the actuarial value being computed as of the date the increase begins, unless on that date there is no spouse living for whom the election was made, in which case the increase shall be awarded on a single life basis. If the increase herein provided effects a survivor annuity only, the increase shall be so determined as to bear the same ratio to the survivor annuity, as the increase in the basic annuity would bear to such basic annuity, if the employee annuitant were living and had made no joint and survivor election.

SEC. 408. No annuities accruing after the month in which this Act is approved shall be reduced under section 2 (a) 3 of the Railroad Retirement Act of 1937 to compensate for an annuity terminated by recovery from disability.
SEC. 409. In the application of section 6 of the Railroad Retirement Act of 1937 with respect to persons who were not employers before the enactment of section 1 of this Act, the dates January 1, 1946, and January 1, 1947, shall be substituted for March 1, 1937, and July 1, 1937, respectively.

Approved July 31, 1946.

expenses incident to scholastic activities; or (B) furnishing transportation for citizens of such foreign country who desire to attend American schools and institutions of higher learning in the continental United States, Hawaii, Alaska (including the Aleutian Islands), Puerto Rico, and the Virgin Islands, and whose attendance will not deprive citizens of the United States of an opportunity to attend such schools and institutions: Provided, however, That no such agreement or agreements shall provide for the use of an aggregate amount of the currencies, or credits for currencies, of any one country in excess of $20,000,000 or for the expenditure of the currencies, or credits for currencies, of any one foreign country in excess of $1,000,000 annually at the official rate of exchange for such currencies, unless otherwise authorized by Congress, nor shall any such agreement relate to any subject other than the use and expenditure of such currencies or credits for currencies for the purposes herein set forth: Provided further, That for the purpose of selecting students and educational institutions qualified to participate in this program, and to supervise the exchange program authorized herein, the President of the United States is hereby authorized to appoint a Board of Foreign Scholarships, consisting of ten members, who shall serve without compensation, composed of representatives of cultural, educational, student and war veterans groups, and including representatives of the United States Office of Education, the United States Veterans' Administration, State educational institutions, and privately endowed educational institutions: And Provided further, That in the selection of American citizens for study in foreign countries under this paragraph preference shall be given to applicants who have served in the military or naval forces of the United States during World War I or World War II, and due consideration shall be given to applicants from all geographical areas of the United States. The Secretary of State shall transmit to the Congress not later than the 1st day of March of each year a report of operations under this paragraph during the preceding calendar year. Such report shall include the text of any agreements which have been entered into hereunder during the preceding calendar year, and shall specify the names and addresses of American citizens who are attending schools or institutions of higher learning in foreign countries pursuant to such agreements, the names and locations of such schools and institutions, and the amounts of the currencies or credits for currencies expended for any of the purposes under this paragraph in each such foreign country during the preceding calendar year.

[CHAPTER 724]

AN ACT

For the development and control of atomic energy.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

DECLARATION OF POLICY

Section 1. (a) Findings and Declaration.—Research and experimentation in the field of nuclear chain reaction have attained the stage at which the release of atomic energy on a large scale is practical. The significance of the atomic bomb for military purposes is evident. The effect of the use of atomic energy for civilian purposes upon the social, economic, and political structures of today cannot now be determined. It is a field in which unknown factors are involved. Therefore, any legislation will necessarily be subject to revision from
time to time. It is reasonable to anticipate, however, that tapping this new source of energy will cause profound changes in our present way of life. Accordingly, it is hereby declared to be the policy of the people of the United States that, subject at all times to the paramount objective of assuring the common defense and security, the development and utilization of atomic energy shall, so far as practicable, be directed toward improving the public welfare, increasing the standard of living, strengthening free competition in private enterprise, and promoting world peace.

(b) Purpose of Act.—It is the purpose of this Act to effectuate the policies set out in section 1 (a) by providing, among others, for the following major programs relating to atomic energy:

(1) A program of assisting and fostering private research and development to encourage maximum scientific progress;

(2) A program for the control of scientific and technical information which will permit the dissemination of such information to encourage scientific progress, and for the sharing on a reciprocal basis of information concerning the practical industrial application of atomic energy as soon as effective and enforceable safeguards against its use for destructive purposes can be devised;

(3) A program of federally conducted research and development to assure the Government of adequate scientific and technical accomplishment;

(4) A program for Government control of the production, ownership, and use of fissionable material to assure the common defense and security and to insure the broadest possible exploitation of the fields; and

(5) A program of administration which will be consistent with the foregoing policies and with international arrangements made by the United States, and which will enable the Congress to be currently informed so as to take further legislative action as may hereafter be appropriate.

ORGANIZATION

Sec. 2. (a) Atomic Energy Commission.—

(1) There is hereby established an Atomic Energy Commission (herein called the Commission), which shall be composed of five members. Three members shall constitute a quorum of the Commission. The President shall designate one member as Chairman of the Commission.

(2) Members of the Commission shall be appointed by the President, by and with the advice and consent of the Senate. In submitting any nomination to the Senate, the President shall set forth the experience and the qualifications of the nominee. The term of office of each member of the Commission taking office prior to the expiration of two years after the date of enactment of this Act shall expire upon the expiration of such two years. The term of office of each member of the Commission taking office after the expiration of two years from the date of enactment of this Act shall be five years, except that (A) the terms of office of the members first taking office after the expiration of two years from the date of enactment of this Act shall expire, as designated by the President at the time of appointment, one at the end of three years, one at the end of four years, one at the end of five years, one at the end of six years, and one at the end of seven years, after the date of enactment of this Act; and (B) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed, shall be appointed for the remainder of such term. Any member of the Commission may be removed by the President for inefficiency, neglect of duty, or
malfeasance in office. Each member, except the Chairman, shall receive compensation at the rate of $15,000 per annum; and the Chairman shall receive compensation at the rate of $17,500 per annum. No member of the Commission shall engage in any other business, vocation, or employment than that of serving as a member of the Commission.

(3) The principal office of the Commission shall be in the District of Columbia, but the Commission or any duly authorized representative may exercise any or all of its powers in any place. The Commission shall hold such meetings, conduct such hearings, and receive such reports as may be necessary to enable it to carry out the provisions of this Act.

(4) There are hereby established within the Commission—

(A) a General Manager, who shall discharge such of the administrative and executive functions of the Commission as the Commission may direct. The General Manager shall be appointed by the President by and with the advice and consent of the Senate, and shall receive compensation at the rate of $15,000 per annum. The Commission may make recommendations to the President with respect to the appointment or removal of the General Manager.

(B) a Division of Research, a Division of Production, a Division of Engineering, and a Division of Military Application. Each division shall be under the direction of a Director who shall be appointed by the Commission, and shall receive compensation at the rate of $14,000 per annum. The Director of the Division of Military Application shall be a member of the armed forces. The Commission shall require each such division to exercise such of the Commission's powers under this Act as the Commission may determine, except that the authority granted under section 3 (a) of this Act shall not be exercised by the Division of Research.

(b) GENERAL ADVISORY COMMITTEE.—There shall be a General Advisory Committee to advise the Commission on scientific and technical matters relating to materials, production, and research and development, to be composed of nine members, who shall be appointed from civilian life by the President. Each member shall hold office for a term of six years, except that (1) any member appointed to fill a vacancy occurring prior to the expiration of the term for which his predecessor was appointed, shall be appointed for the remainder of such term; and (2) the terms of office of the members first taking office after the date of the enactment of this Act shall expire, as designated by the President at the time of appointment, three at the end of two years, three at the end of four years, and three at the end of six years, after the date of the enactment of this Act. The Committee shall designate one of its own members as Chairman. The Committee shall meet at least four times in every calendar year. The members of the Committee shall receive a per diem compensation of $50 for each day spent in meetings or conferences, and all members shall receive their necessary traveling or other expenses while engaged in the work of the Committee.

(c) MILITARY LIASON COMMITTEE.—There shall be a Military Liaison Committee consisting of representatives of the Departments of War and Navy, detailed or assigned thereto, without additional compensation, by the Secretaries of War and Navy in such number as they may determine. The Commission shall advise and consult with the Committee on all atomic energy matters which the Committee deems to relate to military applications, including the development, manufacture, use, and storage of bombs, the allocation of fissionable material for military research, and the control of information relating to the manufacture or utilization of atomic weapons. The Commission shall
keep the Committee fully informed of all such matters before it and the Committee shall keep the Commission fully informed of all atomic energy activities of the War and Navy Departments. The Committee shall have authority to make written recommendations to the Commission on matters relating to military applications from time to time as it may deem appropriate. If the Committee at any time concludes that any action, proposed action, or failure to act of the Commission on such matters is adverse to the responsibilities of the Departments of War or Navy, derived from the Constitution, laws, and treaties, the Committee may refer such action, proposed action, or failure to act to the Secretaries of War and Navy. If either Secretary concurs, he may refer the matter to the President, whose decision shall be final.

(d) APPOINTMENT OF ARMY AND NAVY OFFICERS.—Notwithstanding the provisions of section 1222 of the Revised Statutes (U. S. C., 1940 edition, title 10, sec. 576), section 212 of the Act entitled “An Act making appropriations for the Legislative Branch of the Government for the fiscal year ending June 30, 1933, and for other purposes”, approved June 30, 1932, as amended (U. S. C., 1940 edition, title 5, sec. 59a), section 2 of the Act entitled “An Act making appropriations for the legislative, executive, and judicial expenses of the Government for the fiscal year ending June thirtieth, eighteen hundred and ninety-five, and for other purposes”, approved July 31, 1894, as amended (U. S. C., 1940 edition, title 5, sec. 62), or any other law, any active or retired officer of the Army or the Navy may serve as Director of the Division of Military Application established by subsection (a) (4) (B) of this section, without prejudice to his commissioned status as such officer. Any such officer serving as Director of the Division of Military Application shall receive, in addition to his pay from the United States as such officer, an amount equal to the difference between such pay and the compensation prescribed in subsection (a) (4) (B) of this section.

RESEARCH

SEC. 3. (a) RESEARCH ASSISTANCE.—The Commission is directed to exercise its powers in such manner as to insure the continued conduct of research and development activities in the fields specified below by private or public institutions or persons and to assist in the acquisition of an ever-expanding fund of theoretical and practical knowledge in such fields. To this end the Commission is authorized and directed to make arrangements (including contracts, agreements, and loans) for the conduct of research and development activities relating to—

(1) nuclear processes;
(2) the theory and production of atomic energy, including processes, materials, and devices related to such production;
(3) utilization of fissionable and radioactive materials for medical, biological, health, or military purposes;
(4) utilization of fissionable and radioactive materials and processes entailed in the production of such materials for all other purposes, including industrial uses; and
(5) the protection of health during research and production activities.

The Commission may make such arrangements without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and may make partial and advance payments under such arrangements, and may make available for use in connection therewith such of its equipment and facilities as it may deem desirable. Such arrangements shall contain such provisions to protect health, to minimize danger from explosion...
and other hazards to life or property, and to require the reporting and to permit the inspection of work performed thereunder, as the Commission may determine; but shall not contain any provisions or conditions which prevent the dissemination of scientific or technical information, except to the extent such dissemination is prohibited by law.

(b) Research by the Commission.—The Commission is authorized and directed to conduct, through its own facilities, activities and studies of the types specified in subsection (a) above.

PRODUCTION OF FISSIONABLE MATERIAL

SEC. 4. (a) Definition.—As used in this Act, the term “produce”, when used in relation to fissionable material, means to manufacture, produce, or refine fissionable material, as distinguished from source materials as defined in section 5 (b) (1), or to separate fissionable material from other substances in which such material may be contained or to produce new fissionable material.

(b) Prohibition.—It shall be unlawful for any person to own any facilities for the production of fissionable material or for any person to produce fissionable material, except to the extent authorized by subsection (c).

(c) Ownership and Operation of Production Facilities.—

(1) Ownership of Production Facilities.—The Commission, as agent of and on behalf of the United States, shall be the exclusive owner of all facilities for the production of fissionable material other than facilities which (A) are useful in the conduct of research and development activities in the fields specified in section 3, and (B) do not, in the opinion of the Commission, have a potential production rate adequate to enable the operator of such facilities to produce within a reasonable period of time a sufficient quantity of fissionable material to produce an atomic bomb or any other atomic weapon.

(2) Operation of the Commission's Production Facilities.—The Commission is authorized and directed to produce or to provide for the production of fissionable material in its own facilities. To the extent deemed necessary, the Commission is authorized to make, or to continue in effect, contracts with persons obligating them to produce fissionable material in facilities owned by the Commission. The Commission is also authorized to enter into research and development contracts authorizing the contractor to produce fissionable material in facilities owned by the Commission to the extent that the production of such fissionable material may be incident to the conduct of research and development activities under such contracts. Any contract entered into under this section shall contain provisions (A) prohibiting the contractor with the Commission from subcontracting any part of the work he is obligated to perform under the contract, except as authorized by the Commission, and (B) obligating the contractor to make such reports to the Commission as it may deem appropriate with respect to his activities under the contract, to submit to frequent inspection by employees of the Commission of all such activities, and to comply with all safety and security regulations which may be prescribed by the Commission. Any contract made under the provisions of this paragraph may be made without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance
Determination of payments may be made under such contracts. The President shall determine at least once each year the quantities of fissionable material to be produced under this paragraph.

(3) OPERATION OF OTHER PRODUCTION FACILITIES.—Fissile material may be produced in the conduct of research and development activities in facilities which, under paragraph (1) above, are not required to be owned by the Commission.

(d) IRRADIATION OF MATERIALS.—For the purpose of increasing the supply of radioactive materials, the Commission and persons lawfully producing or utilizing fissile material are authorized to expose materials of any kind to the radiation incident to the processes of producing or utilizing fissile material.

(e) MANUFACTURE OF PRODUCTION FACILITIES.—Unless authorized by a license issued by the Commission, no person may manufacture, produce, transfer, or acquire any facilities for the production of fissile material. Licenses shall be issued in accordance with such procedures as the Commission may by regulation establish and shall be issued in accordance with such standards and upon such conditions as will restrict the production and distribution of such facilities to effectuate the policies and purposes of this Act. Nothing in this section shall be deemed to require a license for such manufacture, production, transfer, or acquisition incident to or for the conduct of research or development activities in the United States of the types specified in section 3, or to prohibit the Commission from manufacturing or producing such facilities for its own use.

CONTROL OF MATERIALS

SEC. 5. (a) FISSIONABLE MATERIALS.—

(1) DEFINITION.—As used in this Act, the term “fissile material” means plutonium, uranium enriched in the isotope 235, any other material which the Commission determines to be capable of releasing substantial quantities of energy through nuclear chain reaction of the material, or any material artificially enriched by any of the foregoing; but does not include source materials, as defined in section 5 (b)(1).

(2) GOVERNMENT OWNERSHIP OF ALL FISSIONABLE MATERIAL.—All right, title, and interest within or under the jurisdiction of the United States, in or to any fissile material, now or hereafter produced, shall be the property of the Commission, and shall be deemed to be vested in the Commission by virtue of this Act. Any person owning any interest in any fissile material at the time of the enactment of this Act, or owning any interest in any material at the time when such material is hereafter determined to be a fissile material, or who lawfully produces any fissile material incident to privately financed research or development activities, shall be paid just compensation therefor. The Commission may, by action consistent with the provisions of paragraph (4) below, authorize any such person to retain possession of such fissile material, but no person shall have any title in or to any fissile material.

(3) PROHIBITION.—It shall be unlawful for any person, after sixty days from the effective date of this Act to (A) possess or transfer any fissile material, except as authorized by the Commission, or (B) export from or import into the United States any fissile material, or (C) directly or indirectly engage in the production of any fissile material outside of the United States.

(4) DISTRIBUTION OF FISSIONABLE MATERIAL.—Without prejudice to its continued ownership thereof, the Commission is authorized to distribute fissile material owned by it, with or without charge, to applicants requesting such material (A) for the conduct of research or development activities either independently or under contract or
other arrangement with the Commission, (B) for use in medical therapy, or (C) for use pursuant to a license issued under the authority of section 7. Such material shall be distributed in such quantities and on such terms that no applicant will be enabled to obtain an amount sufficient to construct a bomb or other military weapon. The Commission is directed to distribute sufficient fissionable material to permit the conduct of widespread independent research and development activity, to the maximum extent practicable. In determining the quantities of fissionable material to be distributed, the Commission shall make such provisions for its own needs and for the conservation of fissionable material as it may determine to be necessary in the national interest for the future development of atomic energy. The Commission shall not distribute any material to any applicant, and shall recall any distributed material from any applicant, who is not equipped to observe or who fails to observe such safety standards to protect health and to minimize danger from explosion or other hazard to life or property as may be established by the Commission, or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor.

(5) The Commission is authorized to purchase or otherwise acquire any fissionable material or any interest therein outside the United States, or any interest in facilities for the production of fissionable material, or in real property on which such facilities are located, without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance payments may be made under contracts for such purposes. The Commission is further authorized to take, requisition, or condemn, or otherwise acquire any interest in such facilities or real property, and just compensation shall be made therefor.

(b) SOURCE MATERIALS.—

(1) DEFINITION.—As used in this Act, the term "source material" means uranium, thorium, or any other material which is determined by the Commission, with the approval of the President, to be peculiarly essential to the production of fissionable materials; but includes ores only if they contain one or more of the foregoing materials in such concentration as the Commission may by regulation determine from time to time.

(2) LICENSE FOR TRANSFERS REQUIRED.—Unless authorized by a license issued by the Commission, no person may transfer or deliver, receive possession of or title to, or export from the United States any source material after removal from its place of deposit in nature, except that licenses shall not be required for quantities of source materials which, in the opinion of the Commission, are unimportant.

(3) ISSUANCE OF LICENSES.—The Commission shall establish such standards for the issuance, refusal, or revocation of licenses as it may deem necessary to assure adequate source materials for production, research, or development activities pursuant to this Act or to prevent the use of such materials in a manner inconsistent with the national welfare. Licenses shall be issued in accordance with such procedures as the Commission may by regulation establish.

(4) REPORTING.—The Commission is authorized to issue such regulations or orders requiring reports of ownership, possession, extraction, refining, shipment, or other handling of source materials as it may deem necessary, except that such reports shall not be required with respect to (A) any source material prior to removal from its place of deposit in nature, or (B) quantities of source materials which in the
opinion of the Commission are unimportant or the reporting of which will discourage independent prospecting for new deposits.  

(5) ACQUISITION.—The Commission is authorized and directed to purchase, take, requisition, condemn, or otherwise acquire, supplies of source materials or any interest in real property containing deposits of source materials to the extent it deems necessary to effectuate the provisions of this Act. Any purchase made under this paragraph may be made without regard to the provisions of section 3709 of the Revised Statutes (U. S. C., title 41, sec. 5) upon certification by the Commission that such action is necessary in the interest of the common defense and security, or upon a showing that advertising is not reasonably practicable, and partial and advance payments may be made thereunder. The Commission may establish guaranteed prices for all source materials delivered to it within a specified time. Just compensation shall be made for any property taken, requisitioned, or condemned under this paragraph.

(6) EXPLORATION.—The Commission is authorized to conduct and enter into contracts for the conduct of exploratory operations, investigations, and inspections to determine the location, extent, mode of occurrence, use, or conditions of deposits or supplies of source materials, making just compensation for any damage or injury occasioned thereby. Such exploratory operations may be conducted only with the consent of the owner, but such investigations and inspections may be conducted with or without such consent.

(7) PUBLIC LANDS.—All uranium, thorium, and all other materials determined pursuant to paragraph (1) of this subsection to be peculiarly essential to the production of fissionable material, contained, in whatever concentration, in deposits in the public lands are hereby reserved for the use of the United States subject to valid claims, rights, or privileges existing on the date of the enactment of this Act: Provided, however, That no individual, corporation, partnership, or association, which had any part, directly or indirectly, in the development of the atomic bomb project, may benefit by any location, entry, or settlement upon the public domain made after such individual, corporation, partnership, or association took part in such project, if such individual, corporation, partnership, or association, by reason of having had such part in the development of the atomic bomb project, acquired confidential official information as to the existence of deposits of such uranium, thorium, or other materials in the specific lands upon which such location, entry, or settlement is made, and subsequent to the date of the enactment of this Act made such location, entry, or settlement or caused the same to be made for his, its, or their benefit. The Secretary of the Interior shall cause to be inserted in every patent, conveyance, lease, permit, or other authorization hereafter granted to use the public lands or their mineral resources, under any of which there might result the extraction of any materials so reserved, a reservation to the United States of all such materials, whether or not of commercial value, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine, and remove the same, making just compensation for any damage or injury occasioned thereby. Any lands so patented, conveyed, leased, or otherwise disposed of may be used, and any rights under any such permit or authorization may be exercised, as if no reservation of such materials had been made under this subsection; except that, when such use results in the extraction of any such material from the land in quantities which may not be transferred or delivered without a license under this subsection, such material shall be the property of the Commission and the Commission may require delivery of such material to it by any possessor thereof after such material has been separated
as such from the ores in which it was contained. If the Commission requires the delivery of such material to it, it shall pay to the person mining or extracting the same, or to such other person as the Commission determines to be entitled thereto, such sums, including profits, as the Commission deems fair and reasonable for the discovery, mining, development, production, extraction, and other services performed with respect to such material prior to such delivery, but such payment shall not include any amount on account of the value of such material before removal from its place of deposit in nature. If the Commission does not require delivery of such material to it, the reservation made pursuant to this paragraph shall be of no further force or effect.

(c) **Byproduct Materials.**

(1) **Definition.**—As used in this Act, the term "byproduct material" means any radioactive material (except fissionable material) yielded in or made radioactive by exposure to the radiation incident to the processes of producing or utilizing fissionable material.

(2) **Distribution.**—The Commission is authorized to distribute, with or without charge, byproduct materials to applicants seeking such materials for research or development activity, medical therapy, industrial uses, or such other useful applications as may be developed. In distributing such materials, the Commission shall give preference to applicants proposing to use such materials in the conduct of research and development activity or medical therapy. The Commission shall not distribute any byproduct materials to any applicant, and shall recall any distributed materials from any applicant, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such materials in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor.

(d) **General Provisions.**—The Commission shall not—

(1) distribute any fissionable material to (A) any person for a use which is not under or within the jurisdiction of the United States, (B) any foreign government, or (C) any person within the United States if, in the opinion of the Commission, the distribution of such fissionable material to such person would be inimical to the common defense and security.

(2) license any person to transfer or deliver, receive possession of or title to, or export from the United States any source material if, in the opinion of the Commission, the issuance of a license to such person for such purpose would be inimical to the common defense and security.

**MILITARY APPLICATIONS OF ATOMIC ENERGY**

**Sec. 6 (a) Authority.**—The Commission is authorized to—

(1) conduct experiments and do research and development work in the military application of atomic energy; and

(2) engage in the production of atomic bombs, atomic bomb parts, or other military weapons utilizing fissionable materials; except that such activities shall be carried on only to the extent that the express consent and direction of the President of the United States has been obtained, which consent and direction shall be obtained at least once each year.

The President from time to time may direct the Commission (1) to deliver such quantities of fissionable materials or weapons to the armed forces for such use as he deems necessary in the interest of national defense or (2) to authorize the armed forces to manufacture, produce, or acquire any equipment or device utilizing fissionable material or atomic energy as a military weapon.
(b) Prohibition.—It shall be unlawful for any person to manufacture, produce, transfer, or acquire any equipment or device utilizing fissionable material or atomic energy as a military weapon, except as may be authorized by the Commission. Nothing in this subsection shall be deemed to modify the provisions of section 4 of this Act, or to prohibit research activities in respect of military weapons, or to permit the export of any such equipment or device.

UTILIZATION OF ATOMIC ENERGY

SEC. 7. (a) License Required.—It shall be unlawful, except as provided in sections 5(a)(4)(A) or (B) or 6(a), for any person to manufacture, produce, or export any equipment or device utilizing fissionable material or atomic energy or to utilize fissionable material or atomic energy with or without such equipment or device, except under and in accordance with a license issued by the Commission authorizing such manufacture, production, export, or utilization. No license may permit any such activity if fissionable material is produced incident to such activity, except as provided in sections 3 and 4. Nothing in this section shall be deemed to require a license for the conduct of research or development activities relating to the manufacture of such equipment or devices or the utilization of fissionable material or atomic energy, or for the manufacture or use of equipment or devices for medical therapy.

(b) Report to Congress.—Whenever, in its opinion, any industrial, commercial, or other nonmilitary use of fissionable material or atomic energy has been sufficiently developed to be of practical value, the Commission shall prepare a report to the President stating all the facts with respect to such use, the Commission’s estimate of the social, political, economic, and international effects of such use and the Commission’s recommendations for necessary or desirable supplemental legislation. The President shall then transmit this report to the Congress together with his recommendations. No license for any manufacture, production, export, or use shall be issued by the Commission under this section until after (1) a report with respect to such manufacture, production, export, or use has been filed with the Congress; and (2) a period of ninety days in which the Congress was in session has elapsed after the report has been so filed. In computing such period of ninety days, there shall be excluded the days on which either House is not in session because of an adjournment of more than three days.

(c) Issuance of Licenses.—After such ninety-day period, unless hereafter prohibited by law, the Commission may license such manufacture, production, export, or use in accordance with such procedures and subject to such conditions as it may by regulation establish to effectuate the provisions of this Act. The Commission is authorized and directed to issue licenses on a nonexclusive basis and to supply to the extent available appropriate quantities of fissionable material to licensees (1) whose proposed activities will serve some useful purpose proportionate to the quantities of fissionable material to be consumed; (2) who are equipped to observe such safety standards as to protect health and to minimize danger from explosion or other hazard to life or property as the Commission may establish; and (3) who agree to make available to the Commission such technical information and data concerning their activities pursuant to such licenses as the Commission may determine necessary to encourage similar activities by as many licensees as possible. Each such license shall be issued for a specified period, shall be revocable at any time by the Commission in accordance with such procedures as the Commission may establish, and may be renewed upon the expiration of such period. Where
activities under any license might serve to maintain or to foster the
growth of monopoly, restraint of trade, unlawful competition, or
other trade position inimical to the entry of new, freely competitive
enterprises in the field, the Commission is authorized and directed
to refuse to issue such license or to establish such conditions to prevent
these results as the Commission, in consultation with the Attorney
General, may determine. The Commission shall report promptly to
the Attorney General any information it may have with respect to
any utilization of fissionable material or atomic energy which appears
to have these results. No license may be given to any person for
activities which are not under or within the jurisdiction of the United
States, to any foreign government, or to any person within the United
States if, in the opinion of the Commission, the issuance of a license
to such person would be inimical to the common defense and security.

(d) Byproduct Power.—If energy which may be utilized is pro-
duced in the production of fissionable material, such energy may be
used by the Commission, transferred to other Government agencies,
or sold to public or private utilities under contracts providing for
reasonable resale prices.

INTERNATIONAL ARRANGEMENTS

Sec. 8. (a) Definition.—As used in this Act, the term "international
arrangement" shall mean any treaty approved by the Senate
or international agreement hereafter approved by the Congress,
during the time such treaty or agreement is in full force and effect.

(b) Effect of International Arrangements.—Any provision of
this Act or any action of the Commission to the extent that it conflicts
with the provisions of any international arrangement made after the
date of enactment of this Act shall be deemed to be of no further force
or effect.

(c) Policies Contained in International Arrangements.—In the
performance of its functions under this Act, the Commission shall give
maximum effect to the policies contained in any such international
arrangement.

PROPERTY OF THE COMMISSION

Sec. 9. (a) The President shall direct the transfer to the Com-
miseion of all interests owned by the United States or any Government
agency in the following property:

(1) All fissionable material; all atomic weapons and parts thereof;
all facilities, equipment, and materials for the processing, production,
or utilization of fissionable material or atomic energy; all processes
and technical information of any kind, and the source thereof (including
data, drawings, specifications, patents, patent applications, and
other sources relating to the processing, production, or utilization
of fissionable material or atomic energy; and all contracts, agreements,

payments may be in the amounts, at the times, and upon the terms the Commission deems appropriate, but the Commission shall be guided by the policy of not making payments in excess of the taxes which would have been payable for such property in the condition in which it was acquired, except in cases where special burdens have been cast upon the State or local government by activities of the Commission, the Manhattan Engineer District or their agents. In any such case, any benefit accruing to the State or local government by reason of such activities shall be considered in determining the amount of the payment. The Commission, and the property, activities, and income of the Commission, are hereby expressly exempted from taxation in any manner or form by any State, county, municipality, or any subdivision thereof.

CONTROL OF INFORMATION

Sec. 10. (a) Policy.—It shall be the policy of the Commission to control the dissemination of restricted data in such a manner as to assure the common defense and security. Consistent with such policy, the Commission shall be guided by the following principles:

(1) That until Congress declares by joint resolution that effective and enforceable international safeguards against the use of atomic energy for destructive purposes have been established, there shall be no exchange of information with other nations with respect to the use of atomic energy for industrial purposes; and

(2) That the dissemination of scientific and technical information relating to atomic energy should be permitted and encouraged so as to provide that free interchange of ideas and criticisms which is essential to scientific progress.

(b) Restrictions.—

(1) The term "restricted data" as used in this section means all data concerning the manufacture or utilization of atomic weapons, the production of fissionable material, or the use of fissionable material in the production of power, but shall not include any data which the Commission from time to time determines may be published without adversely affecting the common defense and security.

(2) Whoever, lawfully or unlawfully, having possession of, access to, control over, or being entrusted with, any document, writing, sketch, photograph, plan, model, instrument, appliance, note or information involving or incorporating restricted data—

(A) communicates, transmits, or discloses the same to any individual or person, or attempts or conspires to do any of the foregoing, with intent to injure the United States or with intent to secure an advantage to any foreign nation, upon conviction thereof, shall be punished by death or imprisonment for life (but the penalty of death or imprisonment for life may be imposed only upon recommendation of the jury and only in cases where the offense was committed with intent to injure the United States); or by a fine of not more than $20,000 or imprisonment for not more than twenty years, or both;

(B) communicates, transmits, or discloses the same to any individual or person, or attempts or conspires to do any of the foregoing, with reason to believe such data will be utilized to injure the United States or to secure an advantage to any foreign nation, upon conviction, be punished by a fine of not more than $10,000 or imprisonment for not more than ten years, or both.

(3) Whoever, with intent to injure the United States or with intent to secure an advantage to any foreign nation, acquires or attempts or
conspires to acquire any document, writing, sketch, photograph, plan, model, instrument, appliance, note or information involving or incorporating restricted data shall, upon conviction thereof, be punished by death or imprisonment for life (but the penalty of death or imprisonment for life may be imposed only upon recommendation of the jury and only in cases where the offense was committed with intent to injure the United States); or by a fine of not more than $20,000 or imprisonment for not more than twenty years, or both.

(4) Whoever, with intent to injure the United States or with intent to secure an advantage to any foreign nation, removes, conceals, tampers with, alters, mutilates, or destroys any document, writing, sketch, photograph, plan, model, instrument, appliance, or note involving or incorporating restricted data and used by any individual or person in connection with the production of fissionable material, or research or development relating to atomic energy, conducted by the United States, or financed in whole or in part by Federal funds, or conducted with the aid of fissionable material, shall be punished by death or imprisonment for life (but the penalty of death or imprisonment for life may be imposed only upon recommendation of the jury and only in cases where the offense was committed with intent to injure the United States); or by a fine of not more than $20,000 or imprisonment for not more than twenty years or both.

(5) (A) No person shall be prosecuted for any violation under this section unless and until the Attorney General of the United States has advised the Commission with respect to such prosecution and no such prosecution shall be commenced except upon the express direction of the Attorney General of the United States.

(B) (i) No arrangement shall be made under section 3, no contract shall be made or continued in effect under section 4, and no license shall be issued under section 4 (e) or 7, unless the person with whom such arrangement is made, the contractor or prospective contractor, or the prospective licensee agrees in writing not to permit any individual to have access to restricted data until the Federal Bureau of Investigation shall have made an investigation and report to the Commission on the character, associations, and loyalty of such individual and the Commission shall have determined that permitting such person to have access to restricted data will not endanger the common defense or security.

(ii) Except as authorized by the Commission in case of emergency, no individual shall be employed by the Commission until the Federal Bureau of Investigation shall have made an investigation and report to the Commission on the character, associations, and loyalty of such individual.

(iii) Notwithstanding the provisions of subparagraphs (i) and (ii), during such period of time after the enactment of this Act as may be necessary to make the investigation, report, and determination required by such paragraphs, (a) any individual who was permitted access to restricted data by the Manhattan Engineer District may be permitted access to restricted data and (b) the Commission may employ any individual who was employed by the Manhattan Engineer District.

(iv) To protect against the unlawful dissemination of restricted data and to safeguard facilities, equipment, materials, and other property of the Commission, the President shall have authority to utilize the services of any Government agency to the extent he may deem necessary or desirable.

(C) All violations of this Act shall be investigated by the Federal Bureau of Investigation of the Department of Justice.
(6) This section shall not exclude the applicable provisions of any other laws, except that no Government agency shall take any action under such other laws inconsistent with the provisions of this section.

c) INSPECTIONS, RECORDS, AND REPORTS.—The Commission is—

(1) authorized by regulation or order to require such reports and the keeping of such records with respect to, and to provide for such inspections of, activities and studies of types specified in section 3 and of activities under licenses issued pursuant to section 7 as may be necessary to effectuate the purposes of this Act;

(2) authorized and directed by regulation or order to require regular reports and records with respect to, and to provide for frequent inspections of, the production of fissionable material in the conduct of research and development activities.

PATENTS AND INVENTIONS

SEC. 11. (a) PRODUCTION AND MILITARY UTILIZATION.

(1) No patent shall hereafter be granted for any invention or discovery which is useful solely in the production of fissionable material or in the utilization of fissionable material or atomic energy for a military weapon. Any patent granted for any such invention or discovery is hereby revoked, and just compensation shall be made therefor.

(2) No patent hereafter granted shall confer any rights with respect to any invention or discovery to the extent that such invention or discovery is used in the production of fissionable material or in the utilization of fissionable material or atomic energy for a military weapon. Any rights conferred by any patent heretofore granted for any invention or discovery are hereby revoked to the extent that such invention or discovery is so used, and just compensation shall be made therefor.

(3) Any person who has made or hereafter makes any invention or discovery useful in the production of fissionable material or in the utilization of fissionable material or atomic energy for a military weapon shall file with the Commission a report containing a complete description thereof, unless such invention or discovery is described in an application for a patent filed in the Patent Office by such person within the time required for the filing of such report. The report covering any such invention or discovery shall be filed on or before whichever of the following is the latest: (A) The sixtieth day after the date of enactment of this Act; (B) the sixtieth day after the completion of such invention or discovery; or (C) the sixtieth day after such person first discovers or first has reason to believe that such invention or discovery is useful in such production or utilization.

(b) USE OF INVENTIONS FOR RESEARCH.—No patent hereafter granted shall confer any rights with respect to any invention or discovery to the extent that such invention or discovery is used in the conduct of research or development activities in the fields specified in section 3. Any rights conferred by any patent heretofore granted for any invention or discovery are hereby revoked to the extent that such invention or discovery is so used, and just compensation shall be made therefor.

(c) NONMILITARY UTILIZATION.—

(1) It shall be the duty of the Commission to declare any patent to be affected with the public interest if (A) the invention or discovery covered by the patent utilizes or is essential in the utilization of fissionable material or atomic energy; and (B) the licensing of such invention or discovery under this subsection is necessary to effectuate the policies and purposes of this Act.
(2) Whenever any patent has been declared, pursuant to paragraph (1), to be affected with the public interest—

(A) The Commission is hereby licensed to use the invention or discovery covered by such patent in performing any of its powers under this Act; and

(B) Any person to whom a license has been issued under section 7 is hereby licensed to use the invention or discovery covered by such patent to the extent such invention or discovery is used by him in carrying on the activities authorized by his license under section 7.

The owner of the patent shall be entitled to a reasonable royalty fee for any use of an invention or discovery licensed by this subsection. Such royalty fee may be agreed upon by such owner and the licensee, or in the absence of such agreement shall be determined by the Commission.

(3) No court shall have jurisdiction or power to stay, restrain, or otherwise enjoin the use of any invention or discovery by a licensee, to the extent that such use is licensed by paragraph (2) above, on the ground of infringement of any patent. If in any action for infringement against such licensee the court shall determine that the defendant is exercising such license, the measure of damages shall be the royalty fee determined pursuant to this section, together with such costs, interest, and reasonable attorney's fees as may be fixed by the court. If no royalty fee has been determined, the court shall stay the proceeding until the royalty fee is determined pursuant to this section. If any such licensee shall fail to pay such royalty fee, the patentee may bring an action in any court of competent jurisdiction for such royalty fee, together with such costs, interest, and reasonable attorney's fees as may be fixed by the court.

(d) ACQUISITION OF PATENTS.—The Commission is authorized to purchase, or to take, requisition, or condemn, and make just compensation for, (1) any invention or discovery which is useful in the production of fissionable material or in the utilization of fissionable material or atomic energy for a military weapon, or which utilizes or is essential in the utilization of fissionable material or atomic energy, or (2) any patent or patent application covering any such invention or discovery. The Commissioner of Patents shall notify the Commission of all applications for patents heretofore or hereafter filed which in his opinion disclose such inventions or discoveries and shall provide the Commission access to all such applications.

(e) COMPENSATION AWARDS, AND ROYALTIES.—

(1) PATENT COMPENSATION BOARD.—The Commission shall designate a Patent Compensation Board, consisting of two or more employees of the Commission, to consider applications under this subsection.

(2) ELIGIBILITY.—

(A) Any owner of a patent licensed under subsection (c) (2) or any licensee thereunder may make application to the Commission for the determination of a reasonable royalty fee in accordance with such procedures as it by regulation may establish.

(B) Any person seeking to obtain the just compensation provided in subsections (a), (b), or (d) shall make application therefor to the Commission in accordance with such procedures as it by regulation establish.

(C) Any person making any invention or discovery useful in the production of fissionable material or in the utilization of fissionable material or atomic energy for a military weapon who is not entitled to compensation therefor under subsection (a) and...
who has complied with subsection (a) (3) above may make application to the Commission for, and the Commission may grant, an award.

(D) Any person making application under this subsection shall have the right to be represented by counsel.

(B) STANDARDS.—

(A) In determining such reasonable royalty fee, the Commission shall take into consideration any defense, general or special, that might be pleaded by a defendant in an action for infringement, the extent to which, if any, such patent was developed through federally financed research, the degree of utility, novelty, and importance of the invention or discovery, and may consider the cost to the owner of the patent of developing such invention or discovery or acquiring such patent.

(B) In determining what constitutes just compensation under subsection (a), (b), or (d) above, the Commission shall take into account the considerations set forth in paragraph (A) above, and the actual use of such invention or discovery, and may determine that such compensation be paid in periodic payments or in a lump sum.

(C) In determining the amount of any award under paragraph (2) (C) of this subsection, the Commission shall take into account the considerations set forth in paragraph (A) above, and the actual use of such invention or discovery. Awards so made may be paid by the Commission in periodic payments or in a lump sum.

(4) JUDICIAL REVIEW.—Any person aggrieved by any determination of the Commission of an award or of a reasonable royalty fee may obtain a review of such determination in the Court of Appeals for the District of Columbia by filing in such court, within thirty days after notice of such determination, a written petition praying that such determination be set aside. A copy of such petition shall be forthwith served upon the Commission and thereupon the Commission shall file with the court a certified transcript of the entire record in the proceeding, including the findings and conclusions upon which the determination was based. Upon the filing of such transcript the court shall have exclusive jurisdiction upon the record certified to it to affirm the determination in its entirety or set it aside and remand it to the Commission for further proceedings. The findings of the Commission as to the facts, if supported by substantial evidence, shall be conclusive. The court's judgment shall be final, subject, however, to review by the Supreme Court of the United States upon writ of certiorari on petition therefor under section 240 of the Judicial Code (U. S. C., title 28, sec. 347), by the Commission or any party to the court proceeding.

GENERAL AUTHORITY

Sec. 12. (a) In the performance of its functions the Commission is authorized to—

(1) establish advisory boards to advise with and make recommendations to the Commission on legislation, policies, administration, research, and other matters;

(2) establish by regulation or order such standards and instructions to govern the possession and use of fissionable and byproduct materials as the Commission may deem necessary or desirable to protect health or to minimize danger from explosions and other hazards to life or property;

(3) make such studies and investigations, obtain such information, and hold such hearings as the Commission may deem
necessary or proper to assist it in exercising any authority pro-
vided in this Act, or in the administration or enforcement of
this Act, or any regulations or orders issued thereunder. For
such purposes the Commission is authorized to administer oaths
and affirmations, and by subpoena to require any person to appear
and testify, or to appear and produce documents, or both, at any
designated place. No person shall be excused from complying
with any requirements under this paragraph because of his priv-
ilege against self-incrimination, but the immunity provisions of
the Compulsory Testimony Act of February 11, 1893 (U. S. C.,
title 49, sec. 46), shall apply with respect to any individual who
specifically claims such privilege. Witnesses subpoenaed under
this subsection shall be paid the same fees and mileage as are paid
witnesses in the district courts of the United States;

(4) appoint and fix the compensation of such officers and
employees as may be necessary to carry out the functions of the
Commission. Such officers and employees shall be appointed in
accordance with the civil-service laws and their compensation
fixed in accordance with the Classification Act of 1923, as amended,
except that to the extent the Commission deems such action nec-
essary to the discharge of its responsibilities, personnel may be
employed and their compensation fixed without regard to such
laws. The Commission shall make adequate provision for admin-
istrative review of any determination to dismiss any employee;

(5) acquire such materials, property, equipment, and facilities,
establish or construct such buildings and facilities, and modify
such buildings and facilities from time to time as it may deem
necessary, and construct, acquire, provide, or arrange for such
facilities and services (at project sites where such facilities and
services are not available) for the housing, health, safety, welfare,
and recreation of personnel employed by the Commission as it
decides to deem necessary;

(6) with the consent of the agency concerned, utilize or employ
the services or personnel of any Government agency or any State
or local government, or voluntary or uncompensated personnel,
to perform such functions on its behalf as may appear desirable;

(7) acquire, purchase, lease, and hold real and personal prop-
erty as agent of and on behalf of the United States and to sell,
lease, grant, and dispose of such real and personal property as
provided in this Act; and

(8) without regard to the provisions of the Surplus Property
Act of 1944 or any other law, make such disposition as it may
decem desirable of (A) radioactive materials, and (B) any other
property the special disposition of which is, in the opinion of
the Commission, in the interest of the national security.

(b) SECURITY.—The President may, in advance, exempt any specific
action of the Commission in a particular matter from the provisions
of law relating to contracts whenever he determines that such action
is essential in the interest of the common defense and security.

(c) ADVISORY COMMITTEES.—The members of the General Advisory
Committee established pursuant to section 2 (b) and the members of
advisory boards established pursuant to subsection (a) (1) of this
section may serve as such without regard to the provisions of sections
109 and 113 of the Criminal Code (18 U. S. C., secs. 198 and 203) or
section 19 (e) of the Contract Settlement Act of 1944, except insofar
as such sections may prohibit any such member from receiving compen-
sation in respect of any particular matter which directly involves
the Commission or in which the Commission is directly interested.
COMPENSATION FOR PRIVATE PROPERTY ACQUIRED

Sec. 13. (a) The United States shall make just compensation for any property or interests therein taken or requisitioned pursuant to sections 5 and 11. The Commission shall determine such compensation. If the compensation so determined is unsatisfactory to the person entitled thereto, such person shall be paid 50 per centum of the amount so determined, and shall be entitled to sue the United States in the Court of Claims or in any district court of the United States in the manner provided by sections 24 (20) and 145 of the Judicial Code to recover such further sum as added to said 50 per centum will make up such amount as will be just compensation.

(b) In the exercise of the rights of eminent domain and condemnation, proceedings may be instituted under the Act of August 1, 1888 (U. S. C., title 40, sec. 257), or any other applicable Federal statute. Upon or after the filing of the condemnation petition, immediate possession may be taken and the property may be occupied, used, and improved for the purposes of this Act, notwithstanding any other law. Real property acquired by purchase, donation, or other means of transfer may also be occupied, used, and improved for the purposes of this Act, prior to approval of title by the Attorney General.

JUDICIAL REVIEW AND ADMINISTRATIVE PROCEDURE

Sec. 14. (a) Notwithstanding the provisions of section 12 of the Administrative Procedure Act (Public Law 404, Seventy-ninth Congress, approved June 11, 1946) which provide when such Act shall take effect, section 10 of such Act (relating to judicial review) shall be applicable, upon the enactment of this Act, to any agency action under the authority of this Act or by any agency created by or under the provisions of this Act.

(b) Except as provided in subsection (a), no provision of this Act shall be held to supersede or modify the provisions of the Administrative Procedure Act.

(c) As used in this section the terms “agency action” and “agency” shall have the same meaning as is assigned to such terms in the Administrative Procedure Act.

Sec. 15. (a) There is hereby established a Joint Committee on Atomic Energy to be composed of nine Members of the Senate to be appointed by the President of the Senate, and nine Members of the House of Representatives to be appointed by the Speaker of the House of Representatives. In each instance not more than five members shall be members of the same political party.

(b) The joint committee shall make continuing studies of the activities of the Atomic Energy Commission and of problems relating to the development, use, and control of atomic energy. The Commission shall keep the joint committee fully and currently informed with respect to the Commission's activities. All bills, resolutions, and other matters in the Senate or the House of Representatives relating primarily to the Commission or to the development, use, or control of atomic energy shall be referred to the joint committee. The members of the joint committee who are Members of the Senate shall from time to time report to the Senate, and the members of the joint committee who are Members of the House of Representatives shall from time to time report to the House, by bill or otherwise, their recommendations with respect to matters within the jurisdiction of their respective Houses which are (1) referred to the joint committee or (2) otherwise within the jurisdiction of the joint committee.
(c) Vacancies in the membership of the joint committee shall not affect the power of the remaining members to execute the functions of the joint committee, and shall be filled in the same manner as in the case of the original selection. The joint committee shall select a chairman and a vice chairman from among its members.

(d) The joint committee, or any duly authorized subcommittee thereof, is authorized to hold such hearings, to sit and act at such places and times, to require, by subpoena or otherwise, the attendance of such witnesses and the production of such books, papers, and documents, to administer such oaths, to take such testimony, to procure such printing and binding, and to make such expenditures as it deems advisable. The cost of stenographic services to report such hearings shall not be in excess of 25 cents per hundred words. The provisions of sections 102 to 104, inclusive, of the Revised Statutes shall apply in case of any failure of any witness to comply with a subpoena or to testify when summoned under authority of this section.

(e) The joint committee is empowered to appoint and fix the compensation of such experts, consultants, technicians, and clerical and stenographic assistants as it deems necessary and advisable, but the compensation so fixed shall not exceed the compensation prescribed under the Classification Act of 1923, as amended, for comparable duties. The committee is authorized to utilize the services, information, facilities, and personnel of the departments and establishments of the Government.

(b) Whoever willfully violates, attempts to violate, or conspires to violate, any provision of this Act other than those specified in subsection (a) and other than section 10 (b), or of any regulation or order prescribed or issued under sections 5 (b) (4), 10 (c), or 12 (a) (2), shall, upon conviction thereof, be punished by a fine of not more than $5,000 or by imprisonment for not more than two years, or both, except that whoever commits such an offense with intent to injure the United States or with intent to secure an advantage to any foreign nation shall, upon conviction thereof, be punished by a fine of not more than $20,000 or by imprisonment for not more than twenty years, or both.

(c) Whenever in the judgment of the Commission any person has engaged or is about to engage in any acts or practices which constitute or will constitute a violation of any provision of this Act, or any regulation or order issued thereunder, it may make application to the appropriate court for an order enjoining such acts or practices, or for an order enforcing compliance with such provision, and upon a showing by the Commission that such person has engaged or is about to engage in any such acts or practices a permanent or temporary injunction, restraining order, or other order may be granted.
(d) In case of failure of refusal to obey a subpoena served upon any person pursuant to section 12 (a) (3), the district court for any district in which such person is found or resides or transacts business, upon application by the Commission, shall have jurisdiction to issue an order requiring such person to appear and give testimony or to appear and produce documents, or both, in accordance with the subpoena; and any failure to obey such order of the court may be punished by such court as a contempt thereof.

SEC. 19. There are hereby authorized to be appropriated such sums as may be necessary and appropriate to carry out the provisions and purposes of this Act. The Acts appropriating such sums may appropriate specified portions thereof to be accounted for upon the certification of the Commission only. Funds appropriated to the Commission shall, if obligated by contract during the fiscal year for which appropriated, remain available for expenditure for four years following the expiration of the fiscal year for which appropriated. After such four-year period, the unexpended balances of appropriations shall be carried to the surplus fund and covered into the Treasury.

(b) The amendment made by subsection (a) of this section to section 601 (f) of the National Service Life Insurance Act of 1940, as amended, shall not be construed (1) to require the discontinuance, for any period prior to the first day of the third calendar month following receipt of claim by or on behalf of a person brought within the permitted class of beneficiaries by such amendment, of any insurance award made prior to the date of enactment of this Act, or (2) to require duplicate payments of benefits in any case.

SEC. 2. Section 602 (c) of the National Service Life Insurance Act of 1940 is hereby amended effective as of October 8, 1940, to read as follows:

“(c)(1) Any person upon reenlistment or reentrance into or reemployment in active service and before discharge or resignation therefrom and any person in the active service upon discharge to accept a commission and before resignation therefrom, shall be granted such insurance upon application therefor in writing (made within one hundred and twenty days following such reenlistment, reentrance, reemployment, or discharge to accept a commission), and upon payment of premiums and evidence satisfactory to the Administrator showing such person to be in good health at the time of such application.

“(2) Subject to the provisions of the first proviso under the caption ‘Transfer of Appropriations’ contained in title II of the First Supplemental Surplus Appropriation Rescission Act, 1946 (Public Law 301, Seventy-ninth Congress), any individual who has had active service between October 8, 1940, and September 2, 1945, both dates inclusive, shall be granted such insurance upon application therefor in writing and upon payment or authorization for deduction of premiums and evidence satisfactory to the Administrator showing such person to be in good health at the time of such application. In any case in which application for life or disability insurance or for reinstatement of such insurance is made prior to January 1, 1950, the Administrator shall not deny, for the purposes of this or any other section of this part, that the applicant is in good health because of any disability or disabilities, less than total in degree, resulting from or aggravated by such active service. In any case in which insurance is granted by reason of the immediately preceding sentence, the premiums paid on such insurance shall be credited directly to the national service life-insurance appropriation and any payments of benefits on such insurance shall be made directly from such appropriation. The maximum amount of insurance for which an individual is otherwise eligible to apply under this paragraph shall be decreased by the amount of any insurance which he may have surrendered for its cash-surrender value.
Permanent disability, etc., in line of duty.

“(3) Any person in the active service between October 8, 1940, and September 2, 1945, both dates inclusive, who, while in such service, made application in writing for insurance while performing full military or naval duty, which application was denied solely on account of his condition of health, and the applicant thereafter shall have incurred a total and permanent disability in line of duty or died in line of duty, shall be deemed to have applied for and to have been granted such insurance as of the date of such application and such insurance shall be deemed to be or to have been continued in force to the date of death of such person. In any case in which insurance deemed to have been granted under this paragraph matures or has matured, there shall be deducted from the proceeds of such insurance the premiums payable thereon from the date of application to the date of incurrence of total and permanent disability in line of duty or to the date of death, if permanent and total disability was not incurred. Any payments on such insurance shall be made directly from the national service life insurance appropriation. The amount of insurance deemed to have been granted under this paragraph, when added to any other insurance in force under the War Risk Insurance Act, as amended, the World War Veterans’ Act, 1924, as amended, or this part, shall not in the aggregate exceed $10,000.’’

All level premium term policies shall cease and terminate at the expiration of the term period. Provisions for cash, loan, paid-up, and extended values, dividends from gains and savings, refund of unearned premiums, and such other provisions as may be found to be reasonable and practicable may be provided for in the policy of insurance or from time to time by regulations promulgated by the Administrator.’’

SEC. 4. Section 602 (g) of the National Service Life Insurance Act of 1940, as amended, is hereby amended by substituting a colon for the period at the end thereof and adding the following: ‘‘Provided, That the provisions of this subsection as to the restricted permitted class of beneficiaries shall not apply to any national service life-insurance policy maturing on or after the date of enactment of the Insurance Act of 1946.’’

previously made on the insurance. The right of election with
respect to cases in which benefit payments were commenced prior
to September 30, 1944, shall terminate two years after the date
of enactment of the Insurance Act of 1946. The Administrator
is directed to send, within one year after the date of enactment
of the Insurance Act of 1946, to each beneficiary of insurance
on which payments were commenced prior to September 30,
1944, a notice explaining the right of election. Any such notice
shall be sent by registered mail addressed to the last known
address of the addressee.

“(2) If the beneficiary to whom payment is first made is thirty
or more years of age at the time of maturity, in equal monthly
installments for one hundred and twenty months certain, with
such payments continuing during the remaining lifetime of such
beneficiary: Provided, That the Administrator, under regulations
to be promulgated by him, may include a provision in the insur-
ance contract authorizing the insured or the beneficiary to elect,
in lieu of this mode of payment and prior to the commencement
of payments, a refund life income in monthly installments payable
for such period certain as may be required in order that the sum
of the installments certain, including a last installment of such
reduced amount as may be necessary, shall equal the face value of
the contract, less any indebtedness, with such payments continuing
throughout the lifetime of such beneficiary: Provided further,
That such optional settlement shall not be available in any case
in which such settlement would result in payments of installments
over a shorter period than one hundred and twenty months: Pro-
vided further, That in any case in which insurance benefit pay-
ments were commenced prior to September 30, 1944, the beneficiary,
whether or not the first beneficiary, shall have the right to elect
to receive a refund life income, as provided in such optional
settlement, payable in monthly installments adjusted as of the
date of the maturity of such policy, credit being allowed for
payments previously made on the insurance. The right of election
with respect to cases in which benefit payments were commenced
prior to September 30, 1944, shall terminate two years after the
date of enactment of the Insurance Act of 1946. The Adminis-
trator is directed to send, within one year after the date of enact-
ment of the Insurance Act of 1946, to each beneficiary of insurance
on which payments were commenced prior to September 30, 1944,
a notice explaining the right of election. Any such notice shall
be sent by registered mail addressed to the last known
address of the addressee.”

(b) Subsections (i), (j), and (k) of section 602 of the National
Service Life Insurance Act of 1940, as amended, are amended by
adding at the end of each of such subsections the following: “The
provisions of this subsection shall not be applicable to insurance matur-
ing on or after the date of enactment of the Insurance Act of 1946.”
SEC. 6. Section 602 (m) of the National Service Life Insurance Act of 1940 is hereby amended, effective as of October 8, 1940, to read as follows:

“(m) (1) The Administrator shall, by regulations, prescribe the time and method of payment of the premiums on such insurance, but payments of premiums in advance shall not be required for periods of more than one month each, and may at the election of the insured be deducted from his active-service pay or be otherwise made: Provided, That an amount equal to the first premium due under a national service life-insurance policy may be advanced from current appropriations for active service pay to any person in the active service in the Army, Navy, Marine Corps, or Coast Guard, which amount shall constitute a lien upon any service or other pay accruing to the person for whom such advance was made and shall be collected therefrom if not otherwise paid: Provided further, That no disbursing or certifying officer shall be responsible for any loss incurred by reason of the advance herein authorized: And provided further, That any amount so advanced in excess of available service or other pay shall constitute a lien on the policy within the provisions of section 5, Public Law Numbered 866, Seventy-sixth Congress, approved October 17, 1940.

“(2) In any case in which the insured provided for the payment of premiums on his insurance by authorizing in writing the deduction of premiums from his service pay, such insurance shall be deemed not to have lapsed so long as he remained in active service prior to the date of enactment of the Insurance Act of 1946, notwithstanding the fact that deduction of premiums was discontinued because—

“(A) the insured was discharged to accept a commission; or

“(B) the insured was absent without leave, if restored to active duty; or

“(C) the insured was sentenced by court martial, if he was restored to active duty, required to engage in combat, or killed in combat.

In any case in which the insured under any insurance continued in force by the provisions of this paragraph died while such insurance was so continued in force, any premiums due on such insurance shall be deducted from the proceeds of the insurance. Any premiums deducted or collected on any such insurance shall be credited to the national service life insurance appropriation and any payments of benefits on any such insurance shall be made directly from such appropriation.”

SEC. 7. Section 602 (n) of the National Service Life Insurance Act of 1940, as amended, is amended to read as follows:

“(n) Upon application by the insured and under such regulations as the Administrator may promulgate, payment of premiums on such insurance may be waived during the continuous total disability of the insured, which continues or has continued for six or more consecutive months, if such disability commenced (1) subsequent to the date of his application for insurance, (2) while the insurance was in force under premium-paying conditions, and (3) prior to the insured’s sixtieth birthday: Provided, That upon application made within one year after the date of enactment of the Insurance Act of 1946 the Administrator shall grant waiver of any premium becoming due not more than five years prior to the date of enactment of such Act which may be waived under the foregoing provisions of this subsection: Provided further, That the Administrator, upon any application made subsequent to one year after the date of enactment of the Insurance Act of 1946, shall not grant waiver of any premium
becoming due more than one year prior to the receipt in the Veterans' Administration of application for the same, except as hereinafter provided. Any premiums paid for months during which waiver is effective shall be refunded. The Administrator shall provide by regulations for examination or reexamination of an insured claiming benefits under this subsection, and may deny benefits for failure to cooperate. In the event that it is found that an insured is no longer totally disabled, the waiver of premiums shall cease as of the date of such finding and the policy of insurance may be continued by payment of premiums as provided in said policy: Provided further, That in any case in which the Administrator finds that the insured's failure to make timely application for waiver of premiums or his failure to submit satisfactory evidence of the existence or continuance of total disability was due to circumstances beyond his control, the Administrator may grant waiver or continuance of waiver of premiums: And provided further, That in the event of death of the insured without filing application for waiver, the beneficiary, within one year after the death of the insured or the enactment of this amendment, whichever be the later, or, if the beneficiary be insane or a minor, within one year after removal of such legal disability, may file application for waiver with evidence of the insured's right to waiver under this section. Premium rates shall be calculated without charge for the cost of the waiver of premiums herein provided and no deduction from benefits otherwise payable shall be made on account thereof."

Sec. 8. Section 602 (p) of the National Service Life Insurance Act of 1940, as amended, is amended to read as follows:

“(p) Such insurance may be made effective, as specified in the application, not later than the first day of the calendar month following the date of application therefor, but the United States shall not be liable thereunder for death occurring prior to such effective date. Notwithstanding the foregoing provisions of this subsection, in any case in which prior to the date of enactment of the Insurance Act of 1946 application was made for insurance to become effective subsequent to the date of application and the applicant died in line of duty prior to the date such insurance was to become effective, the United States shall be liable to the same extent as it would have been if such insurance had been in force on the date of death of the applicant. Any payments of benefits made as a result of the enactment of the preceding sentence shall be made directly from the national service life insurance appropriation.”

Sec. 9. Section 602 of the National Service Life Insurance Act of 1940, as amended, is hereby amended by adding at the end thereof the following new subsections:

“(t) Insurance maturing on or subsequent to the date of enactment of the Insurance Act of 1946 shall be payable in accordance with the following optional modes of settlement:

“(1) In one sum.

“(2) In equal monthly installments of from thirty-six to two hundred and forty in number, in multiples of twelve.

“(3) In equal monthly installments for one hundred and twenty months certain with such payments continuing during the remaining lifetime of the first beneficiary.

“(4) As a refund life income in monthly installments payable for such period certain as may be required in order that the sum of the installments certain, including a last installment of such reduced amount as may be necessary, shall equal the face
value of the contract, less any indebtedness, with such payments continuing throughout the lifetime of the first beneficiary: Provided, That such optional settlement shall not be available in any case in which such settlement would result in payments of installments over a shorter period than one hundred and twenty months.

Unless the insured elects some other mode of settlement, the insurance shall be payable to the designated beneficiary or beneficiaries in thirty-six equal monthly installments. The first beneficiary may elect to receive payment under any option which provides for payment over a longer period of time than the option elected by the insured, or if no option be designated by the insured, in excess of thirty-six months. If the option selected requires payment to any one beneficiary of monthly installments of less than $10, the amount payable to such beneficiary shall be paid in such maximum number of monthly installments as are a multiple of twelve as will provide a monthly installment of not less than $10. If the present value of the amount payable at the time any person initially becomes entitled to payment thereof is not sufficient to pay at least twelve monthly installments of not less than $10 each, such amount shall be payable in one sum. Options (3) and (4) shall not be available if any firm, corporation, legal entity (including the estate of the insured), or trustee is beneficiary, or in any case in which an endowment contract matures by reason of the completion of the endowment period.

"(u) With respect to insurance maturing on or subsequent to the date of enactment of the Insurance Act of 1946, in any case in which the beneficiary is entitled to a lump-sum settlement but elects some other mode of settlement and dies before receiving all the benefits due and payable under such mode of settlement, the present value of the remaining unpaid amount shall be payable to the estate of the insured, or the designated beneficiary does not survive the insured, or a designated beneficiary not entitled to choose a lump-sum settlement survives the insured, and dies before receiving all the benefits due and payable, the commuted value of the insurance remaining unpaid shall be paid in one sum to the estate of the insured: Provided, That in no event shall there be any payment to the estate of the insured or of the beneficiary of any sums unless it is shown that any sums paid will not escheat.

"(v) (1) The Administrator is hereby authorized and directed, upon application by the insured and proof of good health satisfactory to the Administrator and payment of such extra premium as the Administrator shall prescribe, to include in any national service life-insurance policy on the life of the insured provisions whereby an insured who is shown to have become totally disabled for a period of six consecutive months or more commencing after the date of such application and before attaining the age of sixty and while the payment of any premium is not in default, shall be paid monthly disability benefits from the first day of the seventh consecutive month of and during the continuance of such total disability of $5 for each $1,000 of such insurance in effect when such benefits become payable: Provided, That in any case in which the applicant while not totally disabled and prior to January 1, 1950, furnishes proof satisfactory to the Administrator that his inability to furnish proof of good health is the result of an actually service-incurred injury or disability, the requirement of proof of good health shall be waived, but in such case the extra premium for disability coverage paid by any such insured shall be credited directly to the
national service life-insurance appropriation and any disability payments made to such insured shall be made directly from the national service life-insurance appropriation: Provided further, That policies containing additional provisions for the payment of disability benefits may be separately classified for the purpose of dividend distribution from otherwise similar policies not containing such benefit.

"(2) Whenever benefits under the total-disability provision authorized by section 602 (v) (1) hereof become, or have become, payable because of total disability of the insured as a result of disease or injury traceable to the extra hazard of the military or naval service, as such hazard may be determined by the Administrator of Veterans' Affairs, the liability shall be borne by the United States, and the Administrator is hereby authorized and directed to transfer from the national service life-insurance appropriation to the national service life-insurance fund from time to time any amounts which become, or have become, payable to the insured on account of such total disability, and to transfer from the national service life-insurance fund to the national service life-insurance appropriation the amount of the reserve held on account of the total-disability benefit. When a person receiving such payments on account of total disability recovers from such disability, and is then entitled to continue protection under the total-disability provision, the Administrator is hereby authorized and directed to transfer to the national service life-insurance fund a sum sufficient to set up the then required reserve on such total-disability benefit.

"(w) Subject to the provisions of section 612 of the National Service Life Insurance Act of 1940, as amended, all contracts or policies of insurance heretofore or hereafter issued, reinstated, or converted shall be incontestable from the date of issue, reinstatement, or conversion except for fraud, nonpayment of premium, or on the ground that the applicant was not a member of the military or naval forces of the United States.

"(x) When an optional mode of settlement of insurance heretofore or hereafter matured is available to a beneficiary who is a minor or incompetent, such option may be exercised by his fiduciary, person qualified under Public Law 373, Seventy-second Congress, February 25, 1933 (47 Stat. 907; 25 U. S. C. 14), or person recognized by the Administrator as having custody of the person or the estate of such beneficiary, and the obligation of the United States under the insurance contract shall be fully satisfied by payment of benefits in accordance with the mode of settlement so selected.

"(y) (1) Any level premium term insurance which has lapsed may be reinstated within the term upon written application, payment of two monthly premiums, and evidence satisfactory to the Administrator that the applicant, subject to the provisions of the second sentence of section 602 (c) (2), supra, is in good health.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "District of Columbia Redevelopment Act of 1945".

GENERAL PURPOSES

Sec. 2. It is hereby declared to be a matter of legislative determination that owing to technological and sociological changes, obsolete lay-out, and other factors, conditions existing in the District of Columbia with respect to substandard housing and blighted areas, including the use of buildings in alleys as dwellings for human habitation, are injurious to the public health, safety, morals, and welfare; and it is hereby declared to be the policy of the United States to protect and promote the welfare of the inhabitants of the seat of the Government by eliminating all such injurious conditions by employing all means necessary and appropriate for the purpose; and control by regulatory processes having proved inadequate and insufficient to remedy the evils, it is in the judgment of Congress necessary to acquire property in the District of Columbia by gift, purchase, or the use of eminent domain to effectuate the declared policy by the discontinuance of the use for human habitation in the District of Columbia of substandard dwellings and of buildings in alleys and blighted areas, and thereby to eliminate the substandard housing conditions and the communities in the inhabited alleys and blighted areas in such District; and it is necessary to modernize the planning and development of such portions of such District. The Congress finds that the foregoing cannot be accomplished by the ordinary operations of private enterprise alone without public participation in the planning and in the financing of land assembly for such development; and that for the economic soundness of this redevelopment and the accomplishment of the necessary social and economic benefits, and by reason of the close relationships between the development and uses of any part of an urban area with the development and uses of all other parts the sound replanning and redevelopment of an obsolescent or obsolescing portion of such District cannot be accomplished
unless it be done in the light of comprehensive and coordinated planning of the whole of the territory of the District of Columbia and its environs; and that this comprehensive planning and replanning should proceed vigorously without delay; and to these ends it is necessary to enact the provisions hereinafter set forth; and that the acquisition and the assembly of real property and the leasing or sale thereof for redevelopment pursuant to a project area redevelopment plan, all as provided in this Act, is hereby declared to be a public use.

For the purposes of this Act, "redevelopment" also includes the replanning, redesign, and original development of undeveloped areas which, by reason of street lay-out, lot lay-out, or other causes, are backward and stagnant and therefore blighted and for which replanning and land assembly are deemed necessary as a condition of sound development.

(q) "Revenues" means the revenues or income received by the Agency from real property while held by it and operated or temporarily let by it and not yet leased, transferred, or sold by it; and "net revenues" means the gross revenues after deducting repair, management, maintenance, insurance, and other operating expenses and taxes paid or payable by the Agency.

(r) "Substandard housing conditions" means the conditions obtaining in connection with the existence of any dwelling, or dwellings, or housing accommodations for human beings, which because of lack of sanitary facilities, ventilation, or light, or because of dilapidation, overcrowding, faulty interior arrangement, or any combination of these factors, is in the opinion of the Commissioners detrimental to the safety, health, morals, or welfare of the inhabitants of the District of Columbia.
ESTABLISHMENT AND POWERS OF THE AGENCY

SEC. 4. (a) The District of Columbia Redevelopment Land Agency is hereby established and shall be composed of five members. Two members shall be appointed by the President and three members shall be appointed by the District Commissioners, subject to confirmation by the Senate. Each nonofficial appointee shall have been a resident of the District of Columbia for at least the five next preceding years, and shall have been engaged or employed during such time in private business or industry, or the private practice of a profession, in the District of Columbia. The terms of members shall be for five years, except that the first appointment of one of the Presidential appointees shall be for three years and the other for five years; one of the first appointments of the District Commissioners shall be for four years, one for two years, and one for one year: Provided, That in the event any member shall cease to hold the official position held by him at the time of his designation or appointment, such cessation shall be deemed to create a vacancy in his membership on the Agency, such vacancy, as well as all vacancies from other causes, to be filled by designation or appointment by the President or District Commissioners for the unexpired term. The members shall receive no salary as such, but those members who hold no other salaried public position shall be paid a per diem of $20 for each day of service at meetings or on the work of the Agency.

(b) The said District of Columbia Redevelopment Agency is hereby made a body corporate of perpetual duration, the powers of which shall be vested in and exercised by the board of directors thereof, consisting of the five members thereof appointed as above set forth. It shall have the power to adopt, alter, and use a corporate seal which shall be judicially noticed; to make contracts; to sue and be sued, to complain and defend in its own name in any court of competent jurisdiction, State, Federal, or municipal; to make, deliver, and receive deeds, leases, and other instruments and to take title to real and other property in its own name; to adopt, prescribe, amend, repeal, and enforce bylaws, rules, and regulations for the exercise of its powers under this Act or governing the manner in which its business may be conducted and the powers granted to it by this Act may be exercised and enjoyed, including the selection of its chairman and other officers, together with provisions for such committees and the functions thereof as it may deem necessary for facilitation of its work; to protect and enforce any right conferred upon it by this Act, or otherwise acquired, including any lease, sale, or other agreement made by or with it; and in general to exercise all the powers necessary or proper to the performance of its duties and functions under this Act.

POWER TO ACQUIRE AND ASSEMBLE REAL PROPERTY

SEC. 5. (a) Subject to and in accordance with the procedures, conditions, and other provisions of this Act, the Agency is hereby granted the power to further the redevelopment of blighted territory in the District of Columbia and the prevention, reduction, or elimination of blighting factors or causes of blight and for that purpose to acquire and assemble real property by purchase, exchange, gift, dedication, or eminent domain, and including the power to rent, maintain, manage, operate, repair, clear, transfer, lease, and sell such real property, but excluding the power to build new structures.
Condemnation proceedings.

(b) Condemnation proceedings for the acquisition of real property for said purposes shall be conducted in accordance with the procedural provisions of the Act entitled "An Act to provide for the acquisition of land in the District of Columbia for the use of the United States", approved March 1, 1929 (45 Stat. 1415), or Acts which may amend or supplement said Act. The title to properties acquired under this present Act shall be taken by and in the name of the Agency and proceedings for condemnation or other acquisition of property shall be brought by and in the name of the Agency.

GENERAL AND PROJECT AREA REDEVELOPMENT PLANS

Sec. 6. (a) The Planning Commission is hereby directed to make and, from time to time, develop a comprehensive or general plan of the District of Columbia, including the appropriate maps, charts, tables, and descriptive, interpretative, and analytical matter, which plan is intended to serve as a general framework or guide of development within which the various project areas may be more precisely planned and calculated, and which comprehensive or general plan shall include at least a land-use plan which designates the proposed general distribution and general locations and extents of the uses of the land for housing, business, industry, recreation, education, public buildings, public reservations, and other general categories of public and private uses of the land.

(b) For the exercise of the powers granted to the Agency by this Act for the acquisition and disposition of real property for the redevelopment of a project area, the following steps and plans shall be requisite, namely:

(1) Adoption by the Planning Commission of the boundaries of the project area proposed by it, submission of such boundaries to the District Commissioners, and approval thereof by said Commissioners.

(2) Adoption by the Planning Commission and submission to, and, after a public hearing thereon, approval by the District Commissioners, of the redevelopment plan of the project area which shall contain a site and use plan for the redevelopment of the area, including the approximate locations and extents of the land uses proposed for and within the area, such as public buildings, streets, and other public works and utilities, housing, recreation, business, industry, schools, public and private open spaces, and other categories of public and private uses. Such plan shall also contain specifications of standards of population density and building intensity. Any such plan may also specify, by means of specification of maximum rentals or other basis, the amount or character or class of any low-rent housing for which the area or part thereof is proposed to be redeveloped.

(c) In relation to the location and extent of public works and utilities, public buildings, and other public uses in the general plan or in a project area plan, the Planning Commission is directed to confer with the Federal and District public officials, boards, authorities, and agencies under whose administrative jurisdictions such uses respectively fall. In the project area planning, the Planning Commission is directed to consult from time to time with the Agency, and the Agency shall be free at all times to submit to the Planning Commission suggestions regarding both the location and extent of project areas and the use and site plans of project areas.
(d) After a project area redevelopment plan shall have been adopted by the Planning Commission and approved by the District Commissioners, the Planning Commission shall forthwith certify said plan to the Agency, whereupon said Agency shall proceed to the exercise of the powers granted to it in this Act for the acquisition and assembly of the real property of the area. Following such certification, no new construction shall be authorized by the District Commissioners in such area, including substantial remodeling or conversion or rebuilding, enlargement or extension or major structural improvements on existing buildings, but not including ordinary maintenance or remodeling or changes necessary to continue the occupancy.

TRANSFER, LEASE, OR SALE OF REAL PROPERTY IN PROJECT AREA FOR PUBLIC AND PRIVATE USES

SEC. 7. (a) After the real property in the project area shall have been assembled by the Agency, the Agency shall have the power to transfer to and shall at a practicable time or times transfer by deeds to the United States or to the District of Columbia, or to the appropriate Federal or District public body, department, or agency, those pieces of real property which, in accordance with the approved project area redevelopment plan, are to be devoted to public uses (other than public housing) falling within the construction or administrative jurisdiction of Federal or District agencies, such as streets and other utilities and works, Federal and District public buildings, public recreational spaces, and schools. The Federal agencies and the public agencies of the District of Columbia are hereby empowered, respectively, to acquire real property from the Agency for the uses respectively specified in the project area plan and to pay for same out of their funds duly appropriated for such acquisition. Excepting for such property as may be transferred by dedication, gift, or exchange, the transferee agency shall pay to the Agency such sum as may be agreed upon or, in the absence of agreement, as may be fixed by the Chief Justice of the District Court of the United States for the District of Columbia.

(b) The Agency shall have the power to lease or sell the remainder of the project area as an entirety to a redevelopment company or to an individual or a partnership. Said remainder may include streets or parts thereof which in accordance with the plan are to be closed or vacated or other than publicly owned properties; and the Federal and District departments and agencies are empowered to transfer said spaces or properties to the Agency for such sums or other consideration as may be agreed upon.

(c) Any such lease or sale may be made without public bidding but only after a public hearing, after ten days' public notice, by the Agency upon the proposed lease or sale and the provisions thereof.

(d) The term of any such lease shall be fixed by the Agency and the instrument of lease may provide for renewals upon reappraisals and with rentals and other provisions adjusted to such reappraisals. Every such lease or sale shall provide that the lessee or purchaser shall carry out or cause to be carried out the approved project area redevelopment plan or approved modifications thereof and that no use shall be made of any land or real property included in the lease or sale nor any building or structure erected thereon which does not conform to such approved plan or approved modifications thereof. In the instrument, or instruments, of lease or sale, the Agency may include such other terms, conditions, and provisions as in its judgment will provide reasonable assurance of the priority of the obligations of the lease or sale and of conformance to the plan over any other obligations of the lessee or purchaser and also assurance of the financial and legal ability
(e) Until the Agency certifies that all building constructions and other physical improvements specified to be done and made by the purchaser of the area have been completed, the purchaser shall have no power to convey the area, or any part thereof, without the consent of the Agency; and no such consent shall be given unless the grantee or mortgagee of the purchaser obligates itself or himself by written instrument to the Agency to carry out that portion of the redevelopment plan which falls within the boundaries of the conveyed property, and also that the grantee, his or its heirs, representatives, successors, and assigns, shall have no right or power to convey, lease, or let the conveyed property or any part thereof or erect or use any building or structure erected thereon free from the obligation and requirement to conform to the approved project area redevelopment plan or approved modifications thereof.

(f) In lieu of the lease or sale of a project area as an entirety, the Agency shall have the power to lease or sell parts of such area separately to individuals, partnerships, or redevelopment companies. Any such sale or lease of a part or parts of a project area shall be fully subject to the provisions of subsections (c), (d), and (e) of this section.

(g) No lease or sale of any project area or portion thereof shall be made by the Agency to any public redevelopment company unless the terms of such lease or sale shall provide greater compensation to the Agency than any offer or combination of offers based on substantially the same area and substantially the same redevelopment plan which shall be received from any responsible private sources (eligible as purchasers or lessees under this Act) within a reasonable announced period of time (not less than thirty days) after the public hearing on such proposed lease or sale. It is the intent of this provision that private enterprise as represented through a responsible private redevelopment company, individual, or partnership shall be given a preference over any public redevelopment company in such lease or sale provided such preference can be given, in the judgment of the Agency, consistently with the protection of the public interest and consistently with a purpose to resort to a public redevelopment company only in the event that private enterprise shall not reasonably be available for the development of the project area or the part thereof under consideration.

(h) The Agency may itself demolish any existing structure or clear the area or any part thereof, or may specify the demolition and clearance to be performed by a lessee or purchaser within a reasonable time after such lease or purchase. The Agency may specify a reasonable time schedule and reasonable conditions for the construction of buildings and other improvements by a lessee or purchaser: Provided, That any such time schedule or condition shall be specified prior to the offering of the area or part thereof for lease or sale, and shall be equally binding upon any purchaser or lessee, public or private. The cost of demolition or clearance made by the Agency pursuant to this

of the lessee or purchaser to carry out and conform to the plan and the terms and conditions of the lease or sale; also, such terms, conditions, and specifications concerning buildings, improvements, subleases, or tenancies, maintenance and management, and any other related matters as the Agency may reasonably impose or approve, including provisions whereby the obligations to carry out and conform to the project area plan shall run with the land. In the event that maximum rentals to be charged to tenants of housing be specified, provision may be made for periodic reconsideration of such rental bases, with a view to proposing modification of the project area plan with respect to such rentals.
subsection shall be treated as an item of cost of the acquisition of the area.

(i) In order to facilitate the lease or sale of a project area or, in the event that the lease or sale is of parts of an area, then to facilitate the leases or sales of such parts, the Agency shall have the power to include in the cost payable by it the cost of the construction of local streets and sidewalks within the area or of grading and other local public surface or subsurface facilities necessary for shaping the area as the site of the redevelopment of the area. The Agency may arrange with the appropriate Federal or District agencies for the reimbursement of such outlays from funds or assessments raised or levied for such purposes.

HOUSING FOR DISPLACED FAMILIES

SEC. 8. (a) Prior to approval by the District Commissioners, pursuant to subparagraph (2) of subsection 6 (b), of any redevelopment plan, the District Commissioners shall satisfy themselves (and shall so state at the public hearing required by such subparagraph) that decent, safe, and sanitary housing, substantially equal in quantity to the number of substandard dwelling units to be removed or demolished within the project area, under the proposed redevelopment plan, are available or will be provided (by construction pursuant to the redevelopment plan, or otherwise) in localities, and at rents or prices, within the reach of the low-income families displaced or to be displaced (temporarily or permanently), pursuant to the redevelopment plan, from the project area.

(b) Families displaced by slum clearance or redevelopment under this Act shall be given preference as tenants to fill vacancies occurring in housing owned or operated within the District of Columbia by Federal or District of Columbia governmental agencies until appropriate housing is available to such families.

ACQUISITION OF PROPERTY FROM PROSPECTIVE LESSEE OR PURCHASER

SEC. 9. As an aid in the acquisition of the real property of a project area, the Agency may accept a fund or, at an agreed value, any parcel or parcels of property within such area, from any redevelopment company or partnership or individual, subject to a provision that in the event the supplier of any such fund or the conveyor of such property shall become the purchaser of the project area or any part or parts thereof such fund or the agreed value of such property shall be credited on the purchase price of such area or part thereof and if there be an excess above the cost of acquisition of the area such excess shall be returned, and that in the event that such supplier or conveyor does not become the purchaser of such area or any part thereof, the amount of the fund or the agreed value of such property (as the case may be) shall be paid to such supplier or conveyor.

USE-VALUE APPRAISALS

SEC. 10. After the Agency shall have assembled and acquired the real property of a project area, it shall, as an aid to it in determining the rentals and other terms upon which it will lease or the price at which it will sell the area or parts thereof, place a use-value upon each piece or tract of land within the area which, in accordance with the plan, is to be used for private uses or for low-rent housing, such use-value to be based on the planned use; and, for the purpose of this use valuation, it shall cause a use-value appraisal to be made by two or more land-value experts employed by it for the purpose; but nothing contained in this section shall be construed as requiring the Agency to base its rentals or selling prices upon such appraisal.
The aggregate use value placed, for purposes of lease or sale, upon all land, within a particular project area, leased or sold by the Agency pursuant to this Act shall be not less than one-third of the aggregate cost to the Agency of acquiring all such land (excluding the cost of old buildings destroyed and the demolition and clearance thereof).

PROTECTION OF REDEVELOPMENT PLAN

Sec. 11. (a) Previous to the execution and delivery by the Agency of a lease or conveyance to a redevelopment company or previous to the consent by the Agency to an assignment or conveyance by a lessee or purchaser to a redevelopment company, the articles or certificate of incorporation or association or charter or other basic instrument of such company shall contain provisions so defining, limiting, and regulating the exercise of the powers of the company that neither the company nor its stockholders, its officers, its directors, its members, its beneficiarics, its bondholders, or other creditors or other persons shall have any power to amend or to effect the amendment of the terms and conditions of the lease or the terms and conditions of the sale without the consent of the Agency or, in relation to the project area redevelopment plan, without the approval of any proposed modification in accordance with the provisions of section 12 of this Act; and no action of stockholders, officers, directors, bondholders, creditors, partners or other persons, nor any reorganization, dissolution, receivership, consolidation, foreclosure, or any other change in the status or obligation of any redevelopment company, partnership, or individual in any litigation or proceeding in any Federal or other court shall effect any release or any impairment or modification of the lease or terms of sale or of the project area redevelopment plan unless such consent or approval be obtained.

(b) Redevelopment corporations may be organized under the provisions of subchapter 4 of chapter XVIII of the Code of Law for the District of Columbia approved March 3, 1901, as amended (title 29, ch. 2 of the District of Columbia Code, 1940 edition); and said corporations shall have the power to be redevelopment companies under this Act and to acquire and hold real property for the purposes set forth in this Act and to exercise all other powers granted to redevelopment companies in this Act subject to the provisions, limitations, and obligations set forth in this Act.

(c) A redevelopment company, individual, or partnership to which any project area or part thereof is leased or sold under this Act shall keep books of account of its operations of or transactions relating to such area or part thereof entirely separate and distinct from its or his accounts of and for any other project area or part thereof or any other real property or enterprise; and no lien or other interest shall be placed upon any real property in said area to secure any indebtedness or obligation of the redevelopment company, individual, or partnership incurred for or in relation to any property or enterprise outside of said area.

MODIFICATIONS OF REDEVELOPMENT PLANS

Sec. 12. An approved project area redevelopment plan may be modified at any time or times: Provided, That any such modification as it may affect an area or part thereof which has been sold or leased shall not become effective without the consent in writing of the purchaser or lessee thereof: Provided further, That such modification may be effected only through adoption by the Planning Commission and subsequent submission to and approval by the District Commissioners, as hereinafter provided. Before approval, the District Commissioners shall hold a public hearing on the proposed modification,
notice of the time and place of which shall be given by mail sent at least ten days prior to the hearing to the then owners of the real properties in the project area and of the real properties immediately adjoining or across the street from the project area. The District Commissioners may refer back to the Planning Commission any project area redevelopment plan, project area boundaries, or modification submitted to it, together with their recommendation for changes in such plan, boundaries, or modification, and, if such recommended changes be adopted by the Planning Commission and be in turn approved by the District Commissioners, the plan, boundaries, or modification as thus changed shall be and become the approved plan, boundaries, or modification.

LIMITATION UPON TAX EXEMPTION

Sec. 13. Nothing contained in this Act shall be construed to authorize or require the exemption of any real property from taxation. No real property acquired by the Agency under this Act shall be exempt from taxation by reason of such acquisition or by reason of the holding thereof by the Agency; and, in the case of any piece of real property, which, under the project area redevelopment plan, is designated to be used for Federal or District or other tax-exempt uses, the exemption of such real property from taxation granted by or in the Act entitled "An Act to define the real property exempt from taxation in the District of Columbia (Public Law 846, Seventy-seventh Congress)"; or other statute, shall not commence until title thereto shall have been transferred from the Agency to the United States or the District of Columbia or to a Federal or District public agency as provided in section 7 of this Act or sold or leased to a public redevelopment company or other public corporation or tax-exempt agency and may thereby become exempt from taxation by reason of the provisions of statutes other than this present Act; the intention being that ownership or operation by the Agency in the exercise of its power under this present Act shall not, in and of itself, produce tax exemption.

ADMINISTRATIVE EXPENDITURE AND EMPLOYMENT

Sec. 14. The Agency is hereby authorized and empowered—

(a) to procure services or make any purchase without regard to the provisions of section 3709 of the Revised Statutes, provided the aggregate amount involved is not more than $100;

(b) to secure planning, land economics and valuation services, and other expert services related to the acquisition and disposition of real property, by contract or otherwise, at rates of pay or fees not to exceed those usual for similar services elsewhere, and without regard to the Classification Act of 1923, and to section 3709 of Revised Statutes, as amended: Provided, That this exemption shall not apply to persons employed by the Agency on a permanent basis;

(c) to appoint and employ such officers and employees as it may find necessary for the proper performance of its duties under this Act and to prescribe their authorities, duties, responsibilities, and tenures and fix their compensations; such appointments and employments to be made in conformance with the civil-service laws and the Classification Act of 1923, as amended; and

(d) to make such expenditures, subject to audit under the general law, for the acquisition and maintenance of adequate vehicles, furnishings, equipment, supplies, books of reference, directories, periodicals, newspapers, printing and binding, and for
such other expenses as may from time to time be found necessary for the proper administration of this Act.

ANNUAL REPORT

SEC. 15. On or before the last day of September of each year the Agency shall make an annual report to Congress of its operations and expenditures for the immediately preceding fiscal year, said report to include a financial balance sheet of its entire operations hereunder, and a recital in such particularity as is feasible of what the Agency proposes to do during the next succeeding fiscal year. The Agency shall make such other and further reports, in such form and at such times as the Congress by concurrent resolution shall require.

APPROPRIATIONS AUTHORIZED

SEC. 16. (a) There is hereby authorized to be appropriated, out of any moneys in the Treasury of the United States not otherwise appropriated, whatever amounts are necessary to the Planning Commission, in addition to other funds which may be appropriated to it or private funds made available to it (the acceptance of which is hereby authorized), for the making or modification of a general or comprehensive plan and the making or modification of project area redevelopment plans and for surveys as authorized in this Act, and other administrative expenses in connection therewith. The Commission is also authorized to receive any grants that the Congress may appropriate for said purposes to the various States and municipalities and the District of Columbia.

(b) There is further authorized to be appropriated out of any moneys in the Treasury of the United States not otherwise appropriated, the sum of $20,000,000, which sum shall be placed to the credit of a special trust fund to be established for the purposes hereinafter set out. There shall be deposited in the Treasury of the United States and credited to said special trust fund all revenues, rentals, proceeds, and other funds received by the Agency. The said special trust fund is hereby made available to the Agency for the purpose of acquiring real property and performing any act required or authorized by this Act. The Agency shall from time to time submit to the District Commissioners estimates of amounts for the reasonable and necessary expenses of the Agency, including personal services, and such amounts as may be approved by the District Commissioners shall be available from the said special trust fund for such expenses.

(c) As of the last day of the tenth fiscal year beginning after approval of this Act, or as of such later date as may be fixed by the Congress, there shall be transferred and credited to miscellaneous receipts of the United States the balance in the said special trust fund after deducting (a) such amount as may be necessary for the completion of any approved project the acquisition of which has been begun and (b) such amount for operating expenses of the Agency for one year as may be approved by the District Commissioners. If the balance so transferred and credited be insufficient to reimburse the United States for appropriations made pursuant to paragraph (b) of this section, then an amount equal to 50 per centum of the deficit shall be payable to the United States from revenues of the District of Columbia in installments of equal amounts for each of ten years. The District Commissioners shall include in their annual estimates of appropriations items for the payment of such installments. The aforesaid deficit shall be determined by deducting from the total of said appropriations an amount equal to (a) the fund transferred and credited to miscellaneous receipts of the United States, (b) the cost
to the Agency of the real property owned by it on said date, and (c) the reserve for completion of approved projects. All subsequent proceeds, revenues, and rentals from said real property shall be credited to the said special trust fund, to be disposed of as the Congress may direct.

ACQUISITION UNDER DISTRICT OF COLUMBIA ALLEY DWELLING ACT

Sec. 17. From and after the termination of the period of one year, beginning with the date of the approval of this Act, all authority granted by the Act known as the District of Columbia Alley Dwelling Act, approved June 12, 1934, as amended, to acquire, by purchase, condemnation, or gift, lands, buildings and structures, or any interest therein, is hereby transferred to and vested in the Agency created by this Act. During said one-year period said authority may be exercised by the National Capital Housing Authority only for projects that shall have been approved by the Planning Commission and the District Commissioners: Provided, however, That failure of the Planning Commission or the District Commissioners to approve or disapprove in writing within sixty days after the submission by the National Capital Housing Authority shall be equivalent to a formal approval. Nothing contained in said Alley Dwelling Act or in this Act shall be interpreted as precluding the inclusion at any time of any alley or inhabited alley or alley dwelling or dwelling or square containing an inhabited alley in a project area to be planned, acquired, and disposed of under the provisions of this Act. Any real property acquired by the Agency under the authority of the Alley Dwelling Act may be transferred or may be sold or leased by the Agency as provided in this Act for real property acquired for a project area redevelopment. The National Capital Housing Authority is hereby declared to be a redevelopment company and is hereby granted the power to purchase or lease redevelopment areas or parts thereof from the Agency in accordance with the provisions of this Act. The National Capital Housing Authority shall keep regular books of account in accordance with standard auditing practices, covering all properties operated by it, showing detailed construction costs, management costs, repairs, maintenance, other operating costs, rents, subsidies, grants, allowances and exemptions; such books shall be subject to annual audit by the General Accounting Office; and the annual report of the National Capital Housing Authority shall include a summary of all transactions covered by such books and shall be made available to the public upon request.

AMENDMENT TO DISTRICT OF COLUMBIA ALLEY DWELLING ACT

Sec. 18. (a) Section 4 (b) of the Act known as the "District of Columbia Alley Dwelling Act", approved June 12, 1934, as amended, is further amended to read as follows:

(b) Any financial institution or other lending organization operating under the laws of the United States or the District of Columbia is authorized, notwithstanding any other law or regulation, to make loans to redevelopment corporations to finance the improvement of any project area as provided in this Act. Any life-insurance company organized under the laws of the District or formed or organized under an Act of Congress is authorized, notwithstanding any other provision of law, to make loans or advances for the purpose of making repairs, alterations, additions, or improvements to homes or other buildings on improved real estate upon which it then holds a first lien to secure a loan previously made, without additional security: Provided, That no such loan or advance shall be made in a sum in excess of $2,000: And provided further, That the amount of such loan or advance when added to the balance due on the original indebtedness shall not exceed the amount originally secured by the first lien.

Sec. 20. (a) In the making and approval of project area redevelopment plans, the Planning Commission and the District Commissioners shall not be limited or bound by the provisions of sections 7-108, 7-117, 7-122, and 7-301 of the District of Columbia Code (1940 edition) (Act of March 2, 1893, 27 Stat. 532, ch. 197, sec. 1; Act of May 31, 1900, 31 Stat. 248, ch. 599, sec. 2; Act of March 4, 1913, 37 Stat. 949, ch. 150; Act of March 3, 1901, 31 Stat. 1429, ch. 854, sec. 1608, as amended) relating to width, location, and length of streets and highways. No department, instrumentality, agency, or official of the Federal Government or of the District of Columbia shall have any power to release or modify or depart from any feature or detail of an approved redevelopment plan or part thereof unless such release, modification, or departure be adopted by the Planning Commission and approved by the District Commissioners in accordance with the provisions of section 12 of this Act or unless the modification or departure be approved by Act of Congress.

(b) Any power granted the District Commissioners or any District or Federal agency by the District of Columbia Code or by any statute may, in addition to the purposes now specified, be exercised in furtherance of the protection or carrying out of any redevelopment plan or modification made and approved under this Act.

AN ACT

To further amend the Act of January 16, 1936, as amended, entitled "An Act to provide for the retirement and retirement annuities of civilian members of the teaching staff at the United States Naval Academy and the Postgraduate School, United States Naval Academy".

Be it enacted by the Senate and House of Representatives of the United States in Congress assembled, That the Act of January 16, 1936 (49 Stat. 1092; 34 U. S. C. 1073-1073e), entitled "An Act to provide for the retirement and retirement annuities of civilian members of the teaching staff at the United States Naval Academy and the Postgraduate School, United States Naval Academy", as amended by the Act of November 28, 1943 (57 Stat. 594), is hereby further amended by inserting therein two new sections numbered 4B and 4C, reading as follows:

"SEC. 4B. Any civilian member of the teaching staffs to whom this Act applies who shall have served for a total period of not less than five years, and who, before becoming eligible for retirement under the conditions defined in the preceding sections hereof, becomes totally disabled for useful and efficient service in his position, by reason of disease or injury not due to vicious habits, intemperance, or willful misconduct on the part of the civilian member of the teaching staffs, shall upon his own application or upon the request or order of the Secretary of the Navy be retired on an annuity computed in accordance with provisions of section 4A of this Act. The annuity which the Government pays to a civilian teacher who is forced to retire under this section shall be the difference between his total annuity as computed under section 4A of this Act and the immediate life annuity to which he is entitled at the time of such retirement under the annuity policy provided by the Act. Every annuitant retired under the provisions of this section, unless the disability for which he was retired be permanent in character, shall at the expiration of one year from the date of such retirement and annually thereafter, until reaching retirement age as defined in section 3 hereof, be examined by a board of medical officers appointed by the Superintendent of the Naval Academy. If the annuitant is found to be sufficiently recovered for useful and efficient service in his position and if he is offered reemployment by the Superintendent of the Naval Academy, the annuity being paid him by the Government shall cease immediately. If an annuitant who has been retired under the provisions of this section, unless the disability for which he was retired be permanent in character, shall at the expiration of one year from the date of such retirement and annually thereafter, until reaching retirement age as defined in section 3 hereof, be examined by a board of medical officers appointed by the Superintendent of the Naval Academy, the annuity being paid him by the Government shall cease immediately. If an annuitant who has been retired under the provisions of this section is subsequently reemployed by the Government, the annuity being paid to him by the Government shall be terminated. If the annuitant is reemployed as a civilian teacher at the Naval Academy, the annuity which the Government will pay him at the time of subsequent retirement shall be the difference between the total annuity, computed under section 4A of this Act, and the immediate life annuity which the total premiums, paid on his annuity contracts provided by this Act, would purchase. No person shall be entitled to receive an annuity under the provisions of this Act, and compensation under the provisions of the Act of September 7, 1916, entitled 'An Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties, and for other purposes', covering the same period of time; but this provision shall not bar the right of any claimant to the greater benefit conferred by either Act for any part of the same period.
"SEC. 4C. Any civilian member of the teaching staffs retiring under the provisions of this Act, as amended, may at the time of his retirement elect to receive in lieu of the life annuity to be paid by the Secretary of the Navy under the provisions of this Act a reduced annuity payable to him during his life, and an annuity after his death payable to his beneficiary, duly designated in writing and filed with the Secretary of the Navy at the time of retirement, during the life of such beneficiary (a) equal to or (b) 50 per centum of such reduced annuity and upon the death of such surviving beneficiary all payments shall cease and no further annuities shall be due or payable. The amounts of these two annuities shall be such that their combined actuarial value on the date of retirement as determined under the provisions of the Civil Service Retirement Act shall be the same as the actuarial value of the single life annuity provided by this Act."

**TITLE V—GENERAL BRIDGE ACT**

**SHORT TITLE**

Sec. 501. This title may be cited as the "General Bridge Act of 1946".

**CONSENT OF CONGRESS**

Sec. 502. (a) The consent of Congress is hereby granted for the construction, maintenance, and operation of bridges and approaches thereto over the navigable waters of the United States, in accordance with the provisions of this title.

(b) The location and plans for such bridges shall be approved by the Chief of Engineers and the Secretary of War before construction is commenced, and, in approving the location and plans of any bridge, they may impose any specific conditions relating to the maintenance and operation of the structure which they may deem necessary in the interest of public navigation, and the conditions so imposed shall have the force of law.

(c) Notwithstanding the provisions of subsections (a) and (b), it shall be unlawful to construct or commence the construction of any privately owned highway toll bridge until the location and plans thereof shall also have been submitted to and approved by the highway department or departments of the State or States in which the bridge and its approaches are situated; and where such bridge shall be between two or more States and the highway departments thereof shall be unable to agree upon the location and plans thereof, or if they, or either of them, shall fail or refuse to act upon the location and plans submitted, such location and plans then shall be submitted to the Public Roads Administration and, if approved by the Public Roads Administration, approval by the highway departments shall not be required.

**TOLLS**

Sec. 503. If tolls shall be charged for the transit over any interstate bridge of engines, cars, street cars, wagons, carriages, vehicles, animals, foot passengers, or other passengers, such tolls shall be reasonable and just, and the Secretary of War may, at any time, and from time to time, prescribe the reasonable rates of toll for such transit over.
such bridge, and the rates so prescribed shall be the legal rates and shall be the rates demanded and received for such transit.

ACQUISITION BY PUBLIC AGENCIES

SEC. 504. After the completion of any interstate toll bridge constructed by an individual, firm, or corporation, as determined by the Secretary of War, either of the States in which the bridge is located, or any public agency or political subdivision of either of such States, within or adjoining which any part of such bridge is located, or any two or more of them jointly, may at any time acquire and take over all right, title, and interest in such bridge and its approaches, and any interest in real property for public purposes by condemnation or expropriation. If at any time after the expiration of five years after the completion of such bridge the same is acquired by condemnation or expropriation, the amount of damages or compensation to be allowed shall not include good will, going value, or prospective revenues or profits, but shall be limited to the sum of (1) the actual cost of constructing such bridge and its approaches, less a reasonable deduction for actual depreciation in value; (2) the actual costs of acquiring such interests in real property; (3) actual financing and promotion costs, not to exceed 10 per centum of the sum of the cost of constructing the bridge and its approaches and acquiring such interests in real property; and (4) actual expenditures for necessary improvements.

SEC. 505. The Secretary of War may, and upon request of a highway department shall, at any time within three years after the completion of such bridge, investigate such costs and determine the accuracy and the reasonableness of the costs alleged in the statement of costs so filed, and shall make a finding of the actual and reasonable costs of constructing, financing, and promoting such bridge. For the purpose of such investigation the said individual, firm, or corporation, its successors and assigns, shall make available all of its records in connection with the construction, financing, and promotion thereof. The findings of the Secretary of War as to the reasonable costs of the construction, financing, and promotion of the bridge shall be conclusive for the purposes mentioned in section 504 of this title subject only to review in a court of equity for fraud or gross mistake.

SEC. 506. If tolls are charged for the use of an interstate bridge constructed or taken over or acquired by a State or States or by any municipality or other political subdivision or public agency thereof, under the provisions of this title, the rates of toll shall be so adjusted as to provide a fund sufficient to pay for the reasonable cost of maintaining, repairing, and operating the bridge and its approaches under economical management, and to provide a sinking fund sufficient to amortize the amount paid therefor, including reasonable interest and financing cost, as soon as possible under reasonable charges, but within a period of not to exceed twenty years from the date of constructing or acquiring the same. After a sinking fund sufficient for
such amortization shall have been so provided, such bridge shall there-
after be maintained and operated free of tolls. An accurate record

actual expenditures for maintaining, repairing, and operating the
same, and of the daily tolls collected, shall be kept and shall be avail-

The fund thus created shall be held and invested by the Secretary of the Treasury until paid out as hereinafter provided, and the income derived from such investment shall constitute a part of said fund for the purpose of carrying out the provisions of this Act. Separate accounts shall be maintained by the Treasury with respect to (1) the regular operations of the retirement system, exclusive of those incident to the voluntary deposits; and (2) the voluntary deposits and the supplementary annuities and refunds resulting from such deposits.

Sec. 3. (a) Any teacher to whom this Act applies who shall have attained or shall hereafter attain the age of sixty years and has rendered at least thirty years of service computed as prescribed in section 8 of this Act, or shall hereafter attain the age of sixty-two years and has rendered at least fifteen years of service computed as prescribed in section 8 of this Act, may voluntarily retire and shall be eligible for retirement on an annuity computed as provided in section 5 of this Act.

(c) Any teacher who shall have attained or shall hereafter attain
the age of sixty-two years and is eligible for retirement under the provisions of this Act, may be retired by the Board of Education upon written recommendation of the Superintendent of Schools. Any teacher who shall have attained, or shall hereafter attain the age of seventy years, shall be retired unless upon written recommendation of the Superintendent of Schools two-thirds of the members of the Board of Education vote to retain such teacher in the public schools for the good of the service. No sum shall be paid to any teacher upon his retirement under the provisions of this section unless he shall have been employed as a teacher on active duty in the public schools of the District of Columbia for a total period of not less than ten years.

Sec. 4. Any teacher to whom this Act applies who shall have served on active duty in the public schools of the District of Columbia for a total period of not less than ten years, and who, before becoming eligible for retirement under the conditions defined in the preceding sections hereof, becomes physically or mentally disabled and incapable of satisfactorily performing the duties of his position, by reason of disease or injury not due to vicious habits, intemperance, or willful misconduct on the part of the teacher, shall upon his own application or upon order of the Board of Education as provided later in this section be retired on an annuity computed in accordance with the provisions of section 5 and 6 hereof: Provided, That proof of freedom from vicious habits, intemperance, or willful misconduct for a period of more than five years next prior to becoming so disabled for useful and efficient service shall not be required in any case. No claim shall be allowed under the provisions of this section unless the application for retirement shall have been executed prior to the applicant's separation from the service or within six months thereafter. No teacher shall be retired under the provisions of this section unless examined under the direction of the Health Officer of the District of Columbia, and as a result of said examination, in his judgment, or in the judgment of the Superintendent of Schools concurred in by two-thirds of the members of the Board of Education, shall have been found to be physically or mentally incapacitated for efficient service.

Every annuitant retired under the provisions of this section, unless the disability for which retired be permanent in character, shall at the expiration of one year from the date of such retirement and annually thereafter, until reaching retirement age as defined in section 3 hereof, be examined under the direction of the Health Officer of the District of Columbia in order to ascertain the nature and degree of the annuitant's disability, if any. If an annuitant shall recover before reaching retirement age he shall be reappointed by the Board of Education in accordance with such rules and regulations as the said Board may prescribe to the first position, equal or similar to any position in the public schools occupied by the annuitant before retirement, which becomes vacant after the date the Board of Education receives written notification from the Health Officer of the District of Columbia that the annuitant has recovered and is able to discharge his duties as a teacher in the public schools of the District of Columbia. Payment of the annuity shall be continued until the date of reappointment by the Board of Education. In the event that the annuitant refuses to accept the employment prescribed in this section no annuity shall be paid after the date of such refusal. Should the annuitant fail to appear for examination as required under this section payment of the annuity shall be suspended until continuance of the disability shall have been satisfactorily established. Upon written recommendation of the Superintendent of Schools the Board of Education may order or direct at any time such medical or other examination as it shall deem necessary to determine the facts relative to the nature and degree of disability of any teacher retired on an annuity under this section.
In all cases where the annuity is discontinued under the provisions of this section, the annuity payments made under (1) of section 5 hereof shall be charged against his individual account and, unless he shall become reemployed in a position under the purview of this Act, he shall be considered as having been separated from the service for other than retirement purposes and entitled to the benefits of section 9 hereof: Provided, however, That if such teacher were also receiving an annuity because of voluntary deposits made under the provisions of section 1 hereof, such annuity may be continued or, at the option of the teacher, the actuarial reserve value of such annuity may be withdrawn in cash unless the teacher is reemployed in a position within the purview of this Act, in which case the amount of such reserve value shall be treated as a voluntary deposit under the provisions of section 1 hereof.

SEC. 5. That following the effective date of this Act every teacher who shall be retired under the provisions of section 3 or section 4 of this Act shall receive an annuity composed of (1) a sum equal to 1 per centum of his average annual salary received during any five consecutive years of allowable service in the public schools of the District of Columbia, at the option of the teacher, for each year of his whole term of service, but in no event shall the amount of the average annual salary used to determine this portion of the annuity be less than the maximum salary for class 1, group A, established by the District of Columbia Teachers' Salary Act of 1945, as amended; and (2) an additional sum of $20 for each year of his whole term of service, not exceeding forty. The total annuity shall be fixed at the nearest multiple of 12 cents, and shall be payable monthly. Annuities payable to any retired teacher who has become eligible for retirement because of age as defined in section 3 of this Act shall be payable during the lifetime of the annuitant. Annuities payable to any teacher retired on account of disability shall be subject to the conditions set forth under section 4 of this Act.

Any teacher retiring under the provisions of this Act may, at the time of his retirement, elect one of the following options: (1) He may elect to receive in lieu of the life annuity described herein a reduced annuity of equivalent value providing that, in the event the annuitant shall die without having received in annuities purchased by his contributions accumulated with interest to the date of his retirement an aggregate sum equal to the total amount to his credit at time of retirement, the difference shall be paid in accordance with the provisions of section 10 of this Act; or (2) he may elect to receive in lieu of the life annuity as described herein a reduced annuity of equivalent value providing for a life-insurance benefit payable in a lump sum at the time of the annuitant's death. The face amount of such life insurance may be in any amount which the retiring teacher shall designate at the time of retirement but shall not exceed his contributions accumulated with interest to the date of retirement. Payment of such insurance shall be made in accordance with the provisions of section 10 of this Act. Any annuitant who elects to receive the reduced annuity with fixed life-insurance benefits may reconvert the value of the life insurance to an additional annuity of equivalent value on any anniversary of the retirement date of said annuitant prior to reaching age seventy.

SEC. 6. That in calculating, as provided in section 5, the second part of the annuity of a teacher retired under the provisions of section 4 of this Act, a minimum credit of twenty years shall be used in determining the sum allowable to a teacher with less than twenty years of service: Provided, That such minimum credit shall not exceed the total number of years of service which the teacher might have served.
if continuously employed as a teacher in the public schools of the District of Columbia to age sixty.

Sec. 7. The amount of each year's appropriation shall be calculated on an actuarial basis, as a level percentage of the pay roll of all participants which shall be adequate to cover the liability normally accrued plus a further level amount computed to be sufficient to liquidate the unfunded accrued liability within a period of approximately twenty years after the effective date of this Act.

Sec. 8. The whole term of service which forms the basis for determining the amount of the annuity provided in section 5 of this Act shall be computed from the date of original employment as a teacher, other than temporary, in the public schools of the District of Columbia, plus any service credit that may be allowed under the provisions of this section. To authorize relief in certain cases where work, supplies, or services have been furnished for the Government under contracts during the war.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That where work, supplies, or services have been furnished between September 16, 1940, and August 14, 1945, under a contract or subcontract, for any department or agency of the Government which prior to the latter date was authorized to enter into contracts and amendments or modifications of contracts under section 201 of the First War Powers Act, 1941 (50 U. S. C., Supp. IV, app., sec. 611), such departments and agencies are hereby authorized, in accordance with regulations to be prescribed by the President within sixty days after the date of approval of this Act, to consider, adjust, and settle equitable claims of contractors, including subcontractors and materialmen performing work or furnishing supplies or services to the contractor or another subcontractor, for losses (not including diminution of anticipated profits) incurred between September 16, 1940, and August 14, 1945, without fault or negligence on their part in the performance of such contracts or subcontracts. Settlement of such claims shall be made or approved in each case by the head of the department or agency concerned or by a central authority therein designated by such head.

SEC. 2. (a) In arriving at a fair and equitable settlement of claims under this Act, the respective departments and agencies shall not allow any amount in excess of the amount of the net loss (less the amount of any relief granted subsequent to the establishment of such loss) on all contracts and subcontracts held by the claimant under which work, supplies, or services were furnished for the Government between September 16, 1940, and August 14, 1945, and shall consider with respect to such contracts and subcontracts (1) action taken under the Renegotiation Act (50 U. S. C., Supp. IV, app., sec. 1191), the Contract Settlement Act of 1944 (41 U. S. C., Supp. IV, sec. 101-125), or similar legislation; (2) relief granted under section 201 of the First War Powers Act, 1941, or otherwise; and (3) relief proposed to be granted by any other department or agency under this Act. Wherever a department or agency considering a claim under this Act finds that losses under any such contract or subcontract affected the computation of the amount of excessive profits determined in a renegotiation
agreement or order, and to the extent that the department or agency finds such amount was thereby reduced, claims for such losses shall not be allowed under this Act.

(b) Every claimant under this Act shall furnish to the department or agency concerned any evidence within the possession of such claimant bearing upon the matters referred to in subsection (a) of this section.

Sec. 3. Claims for losses shall not be considered unless filed with the department or agency concerned within six months after the date of approval of this Act, and shall be limited to losses with respect to which a written request for relief was filed with such department or agency on or before August 14, 1945, but a previous settlement under the First War Powers Act, 1941, or the Contract Settlement Act of 1944 shall not operate to preclude further relief otherwise allowable under this Act.

Sec. 4. Appropriations or funds available for work, supplies, or services of the character involved in the respective claims at the time of settlement thereof shall be available for payment of the settlements: Provided, That where no such appropriations are available, appropriations for payment of such settlements are hereby authorized.

Sec. 5. Each department and agency shall report to the Congress quarterly the name of each claimant to whom relief has been granted under this Act, together with the amount of such relief and a brief statement of the facts and the administrative decision.

Sec. 6. Whenever any claimant under this Act is dissatisfied with the action of a department or agency of the Government in either granting or denying his claim, such claimant shall have the right within six months to file a petition with any Federal district court of competent jurisdiction, asking a determination by the court of the equities involved in such claim; and upon the filing of such a petition, the court, sitting as a court of equity, shall have jurisdiction to determine the amount, if any, to which such claimant and petitioner may be equitably entitled (not exceeding the amount which might have been allowed by the department or agency concerned under the terms of this Act) and to enter an order directing such department or agency to settle the claim in accordance with the finding of the court; and thereafter either party may appeal from the decision of the court as in other equity cases.

its date; after the expiration of this time the warrant, unless executed,
is void.

"(f) It shall be the duty of the said court to maintain and keep
records of all warrants issued and the returns thereon.

Any defense to the payment of such claims which would have been available to the debtor shall be available to the Custodian, except that the period from and after the beginning of the war shall not be included for the purpose of determining the application of any statute of limitations. Debt claims allowable hereunder shall include only those of citizens of the United States or of the Philippines; those of corporations organized under the laws of the United States or any State, Territory, or possession thereof, or the District of Columbia or the Philippine Islands; those of other natural persons who are and have been since the beginning of the war residents of the United States and who have not during the war been interned or paroled pursuant to the Alien Enemy Act (50 U. (b) The Custodian shall fix a date or dates after which the filing of debt claims in respect of any or all debtors shall be barred, and may extend the time so fixed, and shall give at least sixty days' notice thereof by publication in the Federal Register. In no event shall the time extend beyond the expiration of two years from the date of the last vesting in or transfer to the Custodian of any property or interest of a debtor in respect of whose debts the date is fixed, or from the date of enactment of this section, whichever is later. (d) Payment of debt claims shall be made only out of such money included in, or received as net proceeds from the sale, use, or other disposition of, any property or interest owned by the debtor immediately prior to its vesting in or transfer to the Alien Property Custodian, as shall remain after deduction of (1) the amount of the expenses of the Office of Alien Property Custodian (including both expenses in connection with such property or interest or proceeds thereof, and such portion as the Custodian shall fix of the other expenses of the Office of Alien Property Custodian), and of taxes, as defined in section 36 hereof, paid by the Custodian in respect of such property or interest or proceeds, and (2) such amount, if any, as the Custodian may establish as a cash reserve for the future payment of such expenses and taxes. If the money available hereunder for the payment of debt claims against the debtor is insufficient for the satisfaction of all claims allowed by the Custodian, ratable payments shall be made in accordance with subsection (g) hereof.

to the extent permitted by the money available and additional payments shall be made whenever the Custodian shall determine that substantial further money has become available, through liquidation of any such property or interest or otherwise. The Custodian shall not be required through any judgment of any court, levy of execution, or otherwise to sell or liquidate any property or interest vested in or transferred to him, for the purpose of paying or satisfying any debt claim.

"(e) If the aggregate of debt claims filed as prescribed does not exceed the money from which, in accordance with subsection (d) hereof, payment may be made, the Custodian shall pay each claim to the extent allowed, and shall serve by registered mail, on each claimant whose claim is disallowed in whole or in part, a notice of such disallowance. Within sixty days after the date of mailing of the Custodian's determination, any debt claimant whose claim has been disallowed in whole or in part may file in the District Court of the United States for the District of Columbia a complaint for review of such disallowance naming the Custodian as defendant. Such complaint shall be served on the Custodian. The Custodian, within forty-five days after service on him, shall certify and file in said court a transcript of the record of proceedings in the Office of Alien Property Custodian with respect to the claim in question. Upon good cause shown such time may be extended by the court. Such record shall include the claim as filed, such evidence with respect thereto as may have been presented to the Custodian or introduced into the record by him, and the determination of the Custodian with respect thereto, including any findings made by him. The court may, in its discretion, take additional evidence, upon a showing that such evidence was offered to and excluded by the Custodian, or could not reasonably have been adduced before him or was not available to him. The court shall enter judgment affirming, modifying, or reversing the Custodian's determination, and directing payment in the amount, if any, which it finds due.

"(f) If the aggregate of debt claims filed as prescribed exceeds the money from which, in accordance with subsection (d) hereof, payment may be made, the Custodian shall prepare and serve by registered mail on all claimants a schedule of all debt claims allowed and the proposed payment to each claimant. In preparing such schedule, the Custodian shall assign priorities in accordance with the provisions of subsection (g) hereof. Within sixty days after the date of mailing of such schedule, any claimant considering himself aggrieved may file in the District Court of the United States for the District of Columbia a complaint for review of such schedule, naming the Custodian as defendant. A copy of such complaint shall be served upon the Custodian and on each claimant named in the schedule. The Custodian, within forty-five days after service on him, shall certify and file in said court a transcript of the record of proceedings in the Office of Alien Property Custodian with respect to such schedule. Upon good cause shown such time may be extended by the court. Such record shall include the claims in question as filed, such evidence with respect thereto as may have been presented to the Custodian or introduced into the record by him, any findings or other determinations made by the Custodian with respect thereto, and the schedule prepared by the Custodian. The court may, in its discretion, take additional evidence, upon a showing that such evidence was offered to and excluded by the Custodian or could not reasonably have been adduced before him or was not available to him. Any interested debt claimant who has filed a claim with the Custodian pursuant to this section, upon timely application to the court, shall be permitted to intervene in such review proceedings. The

Court shall enter judgment affirming or modifying the schedule as prepared by the Custodian and directing payment, if any be found due, pursuant to the schedule as affirmed or modified and to the extent of the money from which, in accordance with subsection (d) hereof, payment may be made. Pending the decision of the court on such complaint for review, and pending final determination of any appeal from such decision, payment may be made only to an extent, if any, consistent with the contentions of all claimants for review.

"(g) Debt claims shall be paid in the following order of priority:
(1) Wage and salary claims, not to exceed $600; (2) claims entitled to priority under sections 191 and 193 of the United States Code, except as provided in subsection (h) hereof; (3) all other claims for services rendered, for expenses incurred in connection with such services, for rent, for goods and materials delivered to the debtor, and for payments made to the debtor for goods or services not received by the claimant; (4) all other debt claims. No payment shall be made to claimants within a subordinate class unless the money from which, in accordance with subsection (d) hereof, payment may be made permits payment in full of all allowed claims in every prior class.

"(h) No debt of any kind shall be entitled to priority under any law of the United States or any State, Territory, or possession thereof, or the District of Columbia, solely by reason of becoming a debt due or owing to the United States as a result of its acquisition by the Alien Property Custodian.

"(i) The sole relief and remedy available to any person seeking satisfaction of a debt claim out of any property or interest which shall have been vested in or transferred to the Alien Property Custodian (other than any property or interest acquired by the United States prior to December 18, 1941), or the proceeds thereof, shall be the relief and remedy provided in this section, and suits for the satisfaction of debt claims shall not be instituted, prosecuted, or further maintained except in conformity with this section: Provided, That no person asserting any interest, right, or title in any property or interest or proceeds acquired by the Alien Property Custodian, shall be barred from proceeding pursuant to this Act for the return thereof, by reason of any proceeding which he may have brought pursuant to this section; nor shall any security interest asserted by the creditor in any such property or interest or proceeds be deemed to have been waived solely by reason of such proceeding. The Alien Property Custodian shall treat all debt claims now filed with him as claims filed pursuant to this section. Nothing contained in this section shall bar any person from the prosecution of any suit at law or in equity against the original debtor or against any other person who may be liable for the payment of any debt for which a claim might have been filed hereunder. No purchaser, lessee, licensee, or other transferee of any property or interest from the Alien Property Custodian shall, solely by reason of such purchase, lease, license, or transfer, become liable for the payment of any debt owed by the person who owned such property or interest prior to its vesting in or transfer to the Alien Property Custodian. Payment by the Alien Property Custodian to any debt claimant shall constitute, to the extent of payment, a discharge of the indebtedness represented by the claim.

"Sec. 35. The officer or agency empowered to entertain claims under sections 9 (a), 32, and 34 hereof shall have power to hold such hearings as may be deemed necessary; to prescribe rules and regulations governing the form and contents of claims, the proof thereof, and all other matters related to proceedings on such claims; and in connection with such proceedings to issue subpoenas, administer oaths,
and examine witnesses. Such powers, and any other powers conferred upon such officer or agency by sections 9 (a), 32, and 34 hereof may be exercised through subordinate officers designated by such officer or agency.

"Sec. 36. (a) The vesting in or transfer to the Alien Property Custodian of any property or interest (other than any property or interest acquired by the United States prior to December 18, 1941), or the receipt by him of any earnings, increment, or proceeds thereof shall not render inapplicable any Federal, State, Territorial, or local tax for any period prior or subsequent to the date of such vesting or transfer, nor render applicable the exemptions provided in title II of the Social Security Act with respect to service performed in the employ of the United States Government or of any instrumentality of the United States.

"(b) The Alien Property Custodian shall, notwithstanding the filing of any claim or the institution of any suit under this Act, pay any tax incident to any such property or interest, or the earnings, increment, or proceeds thereof, at the earliest time appearing to him to be not contrary to the interest of the United States. The former owner shall not be liable for any such tax accruing while such property, interest, earnings, increment, or proceeds are held by the Alien Property Custodian, unless they are returned pursuant to this Act without payment of such tax by the Alien Property Custodian. Every such tax shall be paid by the Alien Property Custodian to the same extent, as nearly as may be deemed practicable, as though the property or interest had not been vested in or transferred to the Alien Property Custodian, and shall be paid only out of the property or interest, or earnings, increment, or proceeds thereof, to which they are incident or out of other property or interests acquired from the same former owner, or earnings, increment, or proceeds thereof. No tax liability may be enforced from any property or interest or the earnings, increment, or proceeds thereof while held by the Alien Property Custodian except with his consent. Where any property or interest is transferred, otherwise than pursuant to section 9 (a) or 32 hereof, the Alien Property Custodian may transfer the property or interest free and clear of any tax, except to the extent of any lien for a tax existing and perfected at the date of vesting, and the proceeds of such transfer shall, for tax purposes, replace the property or interest in the hands of the Alien Property Custodian.

"(c) Subject to the provisions of subsection (b) hereof, the manner of computing any Federal taxes, including without limitation by reason of this enumeration, the applicability in such computation of credits, deductions, and exemptions to which the former owner is or would be entitled, and the time and manner of any payment of such taxes and the extent of any compliance by the Custodian with provisions of Federal law and regulations applicable with respect to Federal taxes shall be in accordance with regulations prescribed by the Commissioner of Internal Revenue with the approval of the Secretary of the Treasury to effectuate this section. Statutes of limitations on assessment, collection, refund, or credit of Federal taxes shall be suspended, with respect to any vested property or interest, or the earnings, increment or proceeds thereof, while vested and for six months thereafter; but no interest shall be paid upon any refund with respect to any period during which the statute of limitations is so suspended.

"(d) The word "tax" as used in this section shall include, without limitation by reason of this enumeration, any property, income, excess-profits, war-profits, excise, estate and employment tax, import duty, and special assessment; and also any interest, penalty, additional...

Such person attending a course on a part-time basis, and such person receiving compensation for productive labor whether performed as part of their apprentice or other training on the job at institutions, business, or other establishments, or otherwise, shall be entitled to receive such lesser sums, if any, as subsistence or dependency allowances, as may be determined by the Administrator: Provided, That in no event shall the rate of such allowance plus the compensation received exceed $175 per month for a veteran without a dependent or $200 per month if he has a dependent or dependents."

SEC. 3. Paragraph 11 of part VIII of Veterans Regulation Numbered 1 (a) is hereby amended, to read as follows:

"11. (a) As used in this part, the term 'educational or training institutions' shall include all public or private elementary, secondary, and other schools furnishing education for adults, business schools and colleges, scientific and technical institutions, colleges, vocational schools, junior colleges, teachers colleges, normal schools, professional schools, universities, and other educational institutions, and shall also include business or other establishments providing apprentice or other training on the job, including those under the supervision of an approved college or university or any State department of education, or any State apprenticeship agency or State board of vocational education, or any State apprenticeship council or the Federal Apprentice Training Service established in accordance with Public Law Numbered 308, Seventy-fifth Congress, or any agency in the executive branch of the Federal Government authorized under other laws to supervise such training.

(b) As used in this part the term 'Other training on the job' shall include courses offered by establishments approved by the appropriate agency of the State or the Administrator whenever such courses of training on the job are furnished in accordance with the following provisions:"
1. Any establishment desiring to undertake an on-the-job training program will be required to submit to the appropriate State approving agency a written application setting forth the course of training for each job for which a veteran is to be trained. The written application covering the training program will include the following:

a. Title and description of the specific job objective for which the veteran is to be trained.

b. Length of the training period.

c. Schedule listing various operations for major kinds of work or tasks to be learned and showing for each, job operations or work, tasks to be performed, and the approximate length of time to be spent on each operation or task.

d. Wage or salary to be paid at the beginning of the training program, at each successive step in the program, and at the completion of training.

e. Entrance wage or salary paid by the establishment to employees already trained in the kind of work for which the veteran is to be trained.

f. Number of hours of supplemental instructions required.

2. The appropriate approving agency of the State or the Administrator may approve the application of the establishment when such establishment is found upon investigation to have met or made provision for meeting the following criteria:

a. The training content of the program is adequate to qualify the veteran for appointment to the job for which he is to be trained.

b. There is reasonable certainty that the job for which the veteran is to be trained will be available to him at the end of the training period.

c. The job is one in which progression and appointment to the next higher classification are based upon skills learned through organized training on the job and not on such factors as length of service and normal turn-over.

d. The wages to be paid the veteran for each successive period of training are not less than those customarily paid in the establishment and the community to a learner in the same job and who is not a veteran and are in conformity with State and Federal laws and applicable bargaining agreements.

e. The job customarily requires a period of training of not less than three months and not more than two years of full-time training.

f. The length of the training period is no longer than that customarily required by the establishment and other establishments in the community to provide the trainee with the required skills, arrange for the acquiring of job knowledge, technical information, and other facts which the trainee will need to learn in order to become competent on the job for which he is being trained.

g. Provision is made for related instruction for the individual veteran who may need it.

h. There is in the establishment adequate space, equipment, instructional material, and instructor personnel to provide satisfactory training on the job.

i. Adequate records are kept to show the progress made by the veteran toward his job objective and a periodic report showing the conduct and progress made in the course of training on the job will be provided for the Veterans' Administration.

j. Appropriate credit is given the veteran for previous job experience, whether in the military service or elsewhere, his beginning wage adjusted to the level to which such credit advances him and his training period shortened accordingly. No course of training will be considered bona fide if given to a veteran who is already qualified by training and experience for the job objective.
k. A copy of the training program as approved by the State agency is provided to the veteran and to the Veterans' Administration by the employer.

4. Upon completion of the training the veteran is given a certificate by the employer indicating the length and type of training provided and that the veteran has completed the course of training on the job satisfactorily.

3. The Veterans' Administration is not authorized to award the benefits under this part, if it is found by the Administrator that the course of apprentice training or other training on the job fails to meet the requirements of this paragraph.

AN ACT

To extend temporarily the time for filing applications for patents, for taking action in the United States Patent Office with respect thereto, for preventing proof of acts abroad with respect to the making of an invention, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the rights of priority provided by section 4887 of the Revised Statutes (U. S. C., title 35, sec. 32), as amended, for the filing of applications for patent for inventions, discoveries, and designs, which rights had not expired on the 8th day of September 1939, or which rights have arisen since the 8th day of September 1939, shall be, and the same are hereby, extended until the expiration of a period of twelve months from the passage of this Act in favor of the citizens of the United States and of citizens or subjects of all countries which have extended, or which now extend or which within said period of twelve months shall extend substantially reciprocal privileges to citizens of the United States, and such
extension shall apply to applications upon which patents have been granted, as well as to applications now pending or filed within the period specified herein: Provided, That no such extension shall apply to any patent unless a request in writing was made therefor during the pendency of the application for such patent in the United States Patent Office, or within twelve months after the passage of this Act, which request must be accompanied by (1) a copy of the original foreign application, certified to by the patent office of the country in which it was filed, but if the original foreign application has been destroyed, other evidence pertaining thereto may be accepted; (2) a sworn translation of the same if it is not in the English language; and (3) if the foreign application was not made by the inventor himself, an affidavit by the applicant or patentee stating that such application was filed for his benefit or on his behalf and that such procedure is in accordance with the procedure in the foreign country: Provided further, That no patent granted or validated by reason of any such extension shall in any way furnish a basis of claim against the Government of the United States: Provided further, That such extension shall in no way abridge or otherwise affect the right of the United States, or of any person, firm, association, company, or corporation, who, before the passage of this Act was bona fide in possession of any rights in or under patents or applications for patents conflicting with rights in patents granted or validated by reason of such extensions to exercise such rights by itself or himself personally, or by such agents, or licensees as derived their rights from it or him before the passage of this Act, to the extent that they shall not be amenable to any action for infringement of any patent granted or validated by reason of such extension.

A patent shall not be refused on an application coming within the provisions of this section, nor shall a patent granted on such application be held invalid, by reason of the invention having been patented or described in any printed publication or in public use or on sale in the United States more than one year prior to the filing of the application in the United States, unless such patent or publication or such public use or sale was prior to the filing of the foreign application upon which the right of priority is based.

SEC. 2. Whenever, prior to the 8th day of April 1946, an invention, discovery, or a design has been communicated in writing or embodied in any article supplied to the Government of the United States or to any person, firm, or corporation in the United States at the request of said Government, pursuant to and by reason of an agreement or arrangement between the Government of the United States and the government of a foreign country for the supply or mutual exchange of information or articles for use for national defense purposes during the periods of the national emergencies declared by the President of the United States preceding World War II, or for use for war purposes during World War II—

(a) A patent based on an application filed by the inventor of the invention, discovery, or design so communicated or supplied shall not be refused or held invalid merely because of the fact that the invention, discovery, or design had been in public use or on sale in the United States, or described in a printed publication, if such public use or sale or publication was in consequence of and attributable to the communication or supply and subsequent to the date of the communication or supply; and

(b) For use in any action in a United States court or proceeding in the Patent Office involving a patent for an invention, discovery, or a design, or involving an application for patent for an invention, discovery, or a design so communicated or supplied any court of the
United States for any district or Territory thereof, and the Commissioner of Patents shall have the power to call upon any department or agency of the Government of the United States to produce information or papers in its possession relating to the communication or supply or relating to the further communication of the invention, discovery, or design by said department or agency to any person, firm, or corporation in the United States: Provided, however, That the head of any department or agency may refuse and omit to comply with any call for information or papers when in his opinion such compliance would jeopardize the national defense.

No benefit under section 2 of this Act shall be extended to any person unless (1) an application for patent for the same invention, discovery, or design which was communicated or supplied as aforesaid is filed in the United States Patent Office prior to the expiration of twelve months from the date of this Act; and (2) unless sufficient information in writing and under oath as to what was communicated or supplied, the date thereof and to whom made, is furnished to the Commissioner of Patents by the owner of such application while it is pending, or prior to the expiration of twelve months from the date of this Act to enable him to judge of the identity of the invention so communicated or supplied with the invention claimed in such application, which information shall be made a part of the record of such application and shall have no evidentiary value as proof of the facts stated therein; and (3) unless the country of which such person is a national extends substantially reciprocal privileges to citizens of the United States.

SEC. 3. That whenever it shall be shown to the satisfaction of the Commissioner of Patents that the time now fixed by law for the payment of any fee, or for the taking of any other action, with respect to an application for patent for an invention, discovery, or design has lapsed because of conditions growing out of World War II, which time had not expired on the 8th day of September 1939, or which commenced after the 8th day of September 1939, such time may be extended by the Commissioner to a date not later than twelve months after the passage of this Act, without the payment of extension fees or other penalty, in favor of citizens of the United States and the citizens or subjects of countries which have extended, now extend, or shall extend prior to the expiration of twelve months after the passage of this Act substantially reciprocal privileges to citizens of the United States: Provided, That no extension herein shall confer such privileges upon the citizens or subjects of a foreign country for a longer term than the term during which such privileges are conferred by such foreign country upon the citizens of the United States, but nothing in this Act shall give any right to reopen interference proceedings where final hearing before the Examiner of Interferences or the Board of Interference Examiners has taken place.

SEC. 4. That no patent granted or validated by reason of any extension of time provided for by sections 1 and 3 of this Act shall abridge or otherwise affect the right of the United States, or of any person, firm, association, company, or corporation, or agent or agents, or his successor in business, to continue or to resume any manufacture, use, or sale bona fide commenced by it or him in the United States before the passage of this Act, or, in the case of an application claiming the benefits of section 3 hereof, commenced by it or him before the taking of action or the payment of any fee under that section if such action or payment was later than the passage of this Act, nor shall the further manufacture, use, or sale by it or him, or its or his agents or successors in business or the use or sale of the devices resulting from such manufacture or use constitute an infringement: Provided, That
the benefits of this section shall not apply to the manufacture, use, or sale as aforesaid if and to the extent that it is based upon or attributable to a communication of the invention, discovery, or design so manufactured, used, or sold to the United States or to any person, firm, or corporation in the United States at the request of said Government under an agreement or arrangement between the Government of the United States and the government of another country for the supply or mutual exchange of information or articles for use for national defense purposes during the periods of the national emergencies declared by the President of the United States preceding World War II, or for use for war purposes during World War II.

SEC. 5. Notwithstanding the provisions of sections 4885 and 4887 of the Revised Statutes (U. S. C., title 35, secs. 41 and 32, respectively) no patent issued subsequent to July 17, 1945, which was scheduled for issue on that date, or on July 24, July 31, or August 7, 1945, shall be held invalid because of the deferment of the issuance of such patent due to the failure to issue patents on July 17 and July 24, 1945.

SEC. 6. Notwithstanding the provisions of the Act of Congress approved July 1, 1940 (54 Stat. 710; U. S. C., title 35, sec. 42), as amended by the Act approved August 21, 1941 (55 Stat. 677; U. S. C., title 35, sec. 42a-42f), and as further amended by the Act of June 16, 1942 (56 Stat. 370), no person shall be debarred from receiving a patent for an invention made in the United States, nor shall any patent issued for such invention be deemed or held invalid under said Act, merely because authorization to file an application for patent for such invention in any country foreign to the United States was not first obtained from the Commissioner of Patents: Provided, That the Commissioner subsequently authorized the filing of the application in such foreign country.

SEC. 7. That all applications for patents for inventions, discoveries, or designs officially accepted by the Patent Office and given a serial number and date of filing since the 8th day of September 1939, and prior to the passage of this Act, which were executed by an agent of the applicant, and in which a duplicate copy of the specification and a new petition and oath, all duly signed and executed by the inventor or his executor or administrator has been or shall have been filed within a period of twelve months from the approval of this Act, and the patents granted on such applications, shall have the same force and effect as if the papers signed and executed by the inventor, or his executor or administrator, had been filed on the date on which the papers signed by his agent were deposited in the United States Patent Office.

SEC. 8. That nothing in this Act shall affect any act which has been or shall be done by virtue of the special measures taken during World War II under legislative, executive, or administrative authority of the United States in regard to the rights of any enemy, or ally of an enemy, as defined by the Trading With the Enemy Act of October 6, 1917 (40 Stat. L. 411), as amended, in patents for inventions and designs.

Sec. 13. Section 10 (a) of the said Trading With the Enemy Act, relating to the filing and prosecution of applications for patents and the registration of trade-marks, prints, labels, and copyrights, by an enemy, or ally of an enemy, is hereby repealed.

Sec. 14. The benefits of this Act shall not extend in favor of inventions, applications, or patents made by or owned by citizens of any country with which the United States shall have been at war since the 8th day of September 1939. The Alien Property Custodian shall be entitled to the benefits of this Act.

Sec. 15. Nothing contained in this Act shall be effective to nullify any judicial finding upon the validity of any patent for an invention, discovery, or a design heretofore made by a court of competent jurisdiction.

Sec. 16. If any clause, sentence, paragraph, or part of this Act shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operations to the clause, sentence, paragraph, or part thereof directly involved in the controversy in which such judgment shall have been rendered.

AN ACT
To provide emergency relief for the victims of the seismic waves which struck the Territory of Hawaii, and for other purposes.

Whereas the Territory of Hawaii is suffering from the effects of violent seismic waves of extraordinary force and unexampled violence which struck the Territory in April, 1946; and

Whereas as a result of said seismic waves two hundred lives were lost and approximately $25,000,000 in damages caused to property; and

Whereas the damage to Territorial and county piers, waterworks, sewer works, and other structures and facilities is estimated at $4,250,000; and

Whereas a total of three hundred and ninety-seven homes and one hundred and sixty business concerns were completely destroyed, including furniture and personal effects, and nine hundred and sixty-one homes and forty business concerns were seriously damaged causing an estimated total loss of $18,000,000 and rendering over one thousand three hundred families homeless; and

Whereas the devastation caused in the Territory has been so great as to make it impossible for the Territorial government or the Red Cross to give adequate relief in the emergency; and

Whereas the Territory of Hawaii has indicated a willingness to assume one-half of the cost of providing emergency relief for the victims of the seismic waves and of aiding in the restoration and reconstruction of the devastated area: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated the sum of $1,300,000, to be immediately available and remain available until expended, which shall be used in the discretion and under the direction of the Federal Works Administrator for the making of grants for the repair and reconstruction of any Territorial, county, or municipal structures or facilities, other than roads, highways, or bridges, damaged or destroyed by the seismic waves which struck the Territory in April 1946 (including but not confined to piers numbered 1 and numbered 2 at Hilo, the Hilo ship berths, the pavilion and hall of the Hawaiian Homes Commission at Hilo, the school buildings at Laupahoehoe, the waterworks and the sewer works at Hilo, and the county public parks), and for the removal of debris and other clean-up operations necessitated by said seismic waves: Provided, That no grant shall exceed 50 per centum of the cost of the work financed in part therewith as determined by the Administrator: And provided further, That in the event that any amount shall be allocated pursuant to law out of any existing appropriation for any of the purposes herein specified, then the amount herein authorized to be appropriated shall be reduced by the amount so allocated.

SEC. 2. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $10,000,000 to be expended by the Commissioner of Public Roads, Federal Works Agency, for the necessary rehabilitation or repair of roads, highways, and bridges in the Territory of Hawaii, which he finds, after investigation, have been substantially damaged by the Army or the Navy, or both, or by any person or contractor employed by or contracting with the Army or Navy in the performance of contract work in connection with the prosecution of the war or national defense, and for the restoration or reconstruction of roads, highways, and bridges on the system of Federal-aid highways or the system of
secondary Federal-aid highways which he finds, after investigation, have been damaged or destroyed by the recent seismic waves in the Territory of Hawaii: Provided, That in the case of war damage the Territory of Hawaii shall match the funds authorized to be appropriated by this section to the extent that may be required by the Commissioner of Public Roads, and that in all other cases the Territory shall make a contribution equal to that of the Federal Government: Provided further, That no part of the funds authorized to be appropriated by this section shall be expended for any abandoned railroad right-of-way or part thereof that may be used in the restoration or reconstruction of any such road, highway, or bridge, or for any construction features on any such abandoned railroad right-of-way that may be used for or be incorporated in such restoration or reconstruction work: And provided further, That the sum herein authorized to be appropriated by this section shall constitute full and complete provision for the relief of the Territory of Hawaii for all damages that may have been caused to roads, highways, and bridges therein by the Army or the Navy or their contractors in connection with prosecution of the war or the national defense or caused by the recent seismic waves and no further claims on account of damage from such causes shall be made by said Territory or its subdivisions.

SEC. 3. For the purpose of facilitating the rebuilding or repair of private homes, stores, or other structures damaged or destroyed by said seismic waves, the Secretary of the Interior (hereinafter called the “Secretary”) is authorized to make loans to persons in the Territory of Hawaii in such amounts and upon such terms as the Secretary shall by regulation prescribe, including an agreement by the borrower to use the loan for the purpose herein prescribed; except that no such loan shall be made for a period of more than twenty years or in an amount in excess of $25,000 to any one borrower. The rate of interest upon each such loan shall be 3 per centum per annum, except that the Secretary may, in his discretion, defer the payment of interest upon any such loan for such a period not to exceed three years. All such loans shall be made, administered, and collected by the Secretary in such manner and through such agencies as he shall designate. For carrying out the purpose of this section there is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $5,000,000, to be immediately available, and remain available until expended, of which not to exceed $25,000 shall be available annually for the payment of administrative expenses. All moneys received during a period of five years from the date of approval of this Act as repayment of any loan or interest on any loan made under the provisions of this section shall constitute a revolving fund from which loans may be made for the purpose and upon the terms herein provided, and all moneys received after said five-year period as payments of interest and principal on loans made under this section shall be covered into the Treasury as miscellaneous receipts.

now or hereafter established, when the acquisition by exchange of such property would, in his judgment, be in the best interests of the United States. In exchange for the non-Federal property so to be acquired, the Secretary of the Interior is authorized to convey to the grantors of such property, or to their nominees, any federally owned lands, interests in lands, buildings, or other property, real or personal, within the authorized boundaries of the Glacier National Park, located in the State of Montana and administered by the National Park Service, which are of approximately equal value, as determined by the Secretary, to the property being acquired. In order to facilitate the making of such exchanges, the Secretary of the Interior may enter into agreements for the reservation in conveyances to the United States, or for the grant in conveyances from the United States, of such estates for years, life estates, or other interests as may be consistent, in his judgment, with the accomplishment of the purposes of this Act, but all such limitations shall be considered in determining the equality of the interests to be exchanged.

Sec. 2. Any property acquired pursuant to this Act shall, upon acceptance of title thereto, become a part of the Glacier National Park, and shall be subject to all laws applicable to such area. The Secretary of the Interior is authorized to issue such regulations as he deems necessary for carrying out the purposes of this Act.

delay in the delivery of gas produced from the well to the purchaser
thereof.

Sec. 2. Section 16 of the Act is amended to read as follows:

"Sec. 16. That all leases of lands containing oil or gas, made or
issued under the provisions of this Act, shall be subject to the condi-
tion that the lessee will, in conducting his explorations and mining
operations, use all reasonable precautions to prevent waste of oil or
gas developed in the land, or the entrance of water through wells
drilled by him to the oil sands or oil-bearing strata, to the destruction
or injury of the oil deposits. Violations of the provisions of this
section shall constitute grounds for the forfeiture of the lease, to be
enforced as provided in this Act."

Sec. 3. Section 17 of the Act is amended to read as follows:

"Sec. 17. All lands subject to disposition under this Act which are
known or believed to contain oil or gas deposits may be leased by the
Secretary of the Interior. When the lands to be leased are within any
known geological structure of a producing oil or gas field, they shall
be leased to the highest responsible qualified bidder by competitive
bidding under general regulations, in units of not exceeding six
hundred and forty acres, which shall be as nearly compact in form as
possible, upon the payment by the lessee of such bonus as may be
accepted by the Secretary and of such royalty as may be fixed in the
lease which shall be not less than 12 1/2 per centum in amount or value
of the production removed or sold from the lease. When the lands to
be leased are not within any known geological structure of a produc-
ting oil or gas field, the person first making application for the lease
who is qualified to hold a lease under this Act shall be entitled to a
lease of such lands without competitive bidding. Such leases shall
be conditioned upon the payment by the lessee of a royalty of 12 1/2
per centum in amount or value of the production removed or sold from
the lease. Leases issued under this section shall be for a primary term
of five years and shall continue so long thereafter as oil or gas is pro-
duced in paying quantities.

"Any lease issued under this Act upon which there is production
during or after the primary term shall not terminate when such
production ceases if diligent drilling operations are in progress on the
land under lease during such period of nonproduction.

Upon the expiration of the primary term of any noncompetitive
lease maintained in accordance with applicable statutory require-
ments and regulations, the record titleholder thereof shall be entitled to a
single extension of the lease, unless then otherwise provided by law,
for such lands covered by it as are not on the expiration date of the
lease within the known geological structure of a producing oil or
gas field or withdrawn from leasing under this section. A withdrawal,
however, shall not affect the right to an extension if actual drilling
operations on such lands were commenced prior thereto and were being
diligently prosecuted on such expiration date. No withdrawal shall
be effective within the meaning of this section until ninety days after
notice thereof shall be mailed, registered mail, to each lessee to be
affected by such withdrawal. Such extension shall be for a period of
five years and so long thereafter as oil or gas is produced in paying
quantities and shall be subject to such rules and regulations as are in
force at the expiration of the initial five-year term of the lease. No
extension shall be granted unless an application therefor is filed by
the record titleholder within a period of ninety days prior to such
expiration date. Any noncompetitive lease which is not subject to such
extension in whole or in part because the lands covered thereby are
within the known geologic structure of a producing oil or gas field
at the date of expiration of the primary term of the lease, and upon
which drilling operations are being diligently prosecuted on such expiration date, shall continue in effect for a period of two years and so long thereafter as oil or gas is produced in paying quantities.

"All leases issued under this section shall be conditioned upon the payment by the lessee in advance of a rental of not less than 25 cents per acre per annum. A minimum royalty of $1 per acre in lieu of rental shall be payable at the expiration of each lease year beginning on or after a discovery of oil or gas in paying quantities on the lands leased: Provided, That in the case of lands not within any known geological structure of a producing oil or gas field, the rentals for the second and third lease years shall be waived unless a valuable deposit of oil or gas be sooner discovered.

"Whenever it appears to the Secretary of the Interior that lands owned by the United States are being drained of oil or gas by wells drilled on adjacent lands, he is hereby authorized and empowered to negotiate agreements whereby the United States, or the United States and its lessees, shall be compensated for such drainage, such agreements to be made with the consent of the lessees affected thereby and the primary term of any lease for which compensatory royalty is being paid shall be extended by adding thereto a period equal to the period during which such compensatory royalty is paid."

SEC. 4. The Act is hereby amended by adding a new section to read as follows:

"SEC. 17. (a) The Secretary of the Interior shall, upon timely application therefor, issue a new lease in exchange for any lease issued for a term of twenty years, or any renewal thereof, or any lease here-tofore issued in exchange for a twenty-year lease, such new lease to be for a primary term of five years and so long thereafter as oil or gas is produced in paying quantities and at a royalty rate of not less than 12½ per centum in amount or value of the production removed or sold from such leases, except that the royalty rate shall be 12½ per centum in amount or value of the production removed or sold from said leases, as to (1) such leases, or such part of the lands subject thereto, and the deposits underlying the same, as are not believed to be within the productive limits of any producing oil or gas deposit, as such productive limits are found by the Secretary to exist on the effective date of this Act, and (2) any production on a lease from an oil or gas deposit which was discovered after May 27, 1941, by a well or wells drilled within the boundaries of the lease, and which is determined by the Secretary to be a new deposit; and (3) any production on or allocated to a lease pursuant to an approved unit or cooperative agreement from an oil or gas deposit which was discovered after May 27, 1941, on land committed to such agreement, and which is determined by the Secretary to be a new deposit, where such lease, or a lease for which it is exchanged, was included in such agreement at the time of discovery, or was included in a duly executed and filed application for the approval of such agreement at the time of discovery."

SEC. 5. The Act is hereby amended by adding a new section to read as follows:

"SEC. 17. (b) For the purpose of more properly conserving the natural resources of any oil or gas pool, field, or like area, or any part thereof (whether or not any part of said oil or gas pool, field, or like area, is then subject to any cooperative or unit plan of development or operation), lessees thereof and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a cooperative or unit plan of development or operation of such pool, field, or like area, or any part thereof, when-
ever determined and certified by the Secretary of the Interior to be necessary or advisable in the public interest. The Secretary is thereunto authorized, in his discretion, with the consent of the holders of leases involved, to establish, alter, change, or revoke drilling, producing, rental, minimum royalty, and royalty requirements of such leases and to make such regulations with reference to such leases, with like consent on the part of the lessees, in connection with the institution and operation of any such cooperative or unit plan as he may deem necessary or proper to secure the proper protection of the public interest. The Secretary may provide that oil and gas leases hereafter issued under this Act shall contain a provision requiring the lessee to operate under such a reasonable cooperative or unit plan, and he may prescribe such a plan under which such lessee shall operate, which shall adequately protect the rights of all parties in interest, including the United States.

"Any plan authorized by the preceding paragraph, which includes lands owned by the United States, may, in the discretion of the Secretary, contain a provision whereby authority is vested in the Secretary of the Interior, or any such person, committee, or State or Federal officer or agency as may be designated in the plan, to alter or modify from time to time the rate of prospecting and development and the quantity and rate of production under such plan. All leases operated under any such plan approved or prescribed by the Secretary shall be excepted in determining holdings or control under the provisions of any section of this Act.

"When separate tracts cannot be independently developed and operated in conformity with an established well-spacing or development program, any lease, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, under a communitization or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the Secretary of the Interior to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed thereto.

"Any lease issued for a term of twenty years, or any renewal thereof, or any portion of such lease that has become the subject of a cooperative or unit plan of development or operation of a pool, field, or like area, which plan has the approval of the Secretary of the Interior, shall continue in force until the termination of such plan. Any other lease issued under any section of this Act which is committed to any such plan that contains a general provision for allocation of oil or gas shall continue in force and effect as to the land committed so long as the lease remains subject to the plan, provided oil or gas is discovered under the plan prior to the expiration date of the primary term of such lease. The minimum royalty or discovery rental under any lease that has become subject to any cooperative or unit plan of development or operation, or other plan that contains a general provision for allocation of oil or gas, shall be payable only with respect to the lands subject to such lease to which oil or gas shall be allocated under such plan. Any lease which shall be eliminated from any such approved or prescribed plan, or from any communitization or drilling agreement authorized by this section, and any lease which shall be in effect at the termination of any such approved or prescribed plan, or at the termination of any such communitization or drilling agreement, unless relinquished, shall continue in effect for the original term thereof, but for not less than two years, and so long thereafter as oil or gas is produced in paying quantities.
Approval of contracts.

"The Secretary of the Interior is hereby authorized, on such conditions as he may prescribe, to approve operating, drilling, or development contracts made by one or more lessees of oil or gas leases, with one or more persons, associations, or corporations, whenever, in his discretion and regardless of acreage limitations provided for in this Act, the conservation of natural products or the public convenience or necessity may require it or the interests of the United States may be best subserved thereby.

The Secretary of the Interior, to avoid waste or to promote conservation of natural resources, may authorize the subsurface storage of oil or gas, whether or not produced from federally owned lands, in lands leased or subject to lease under this Act. Such authorization may provide for the payment of a storage fee or rental on such stored oil or gas, or, in lieu of such fee or rental, for a royalty other than that prescribed in the lease when such stored oil or gas is produced in conjunction with oil or gas not previously produced. Any lease on which storage is so authorized shall be extended at least for the period of storage and so long thereafter as oil or gas not previously produced is produced in paying quantities."

SEC. 6. Section 27 of the Act is amended to read as follows:

"SEC. 27. No person, association, or corporation, except as herein provided, shall take or hold coal, phosphate, or sodium leases or permits during the life of such leases in any one State, exceeding in the aggregate acreage two thousand five hundred and sixty acres for each of said minerals; and no person, association, or corporation, except as herein provided, shall take or hold at one time oil or gas leases exceeding in the aggregate fifteen thousand three hundred and sixty acres granted hereunder in any one State. No person, association, or corporation shall take or hold at one time any interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease or leases, permit or permits, under the provisions hereof, which, together with the area embraced in any direct holding of a lease or leases, permit or permits, under this Act, or which, together with any other interest or interests as a member of an association or associations or as a stockholder of a corporation or corporations holding a lease or leases, permit or permits, under the provisions hereof for any kind of minerals hereunder, exceeds in the aggregate an amount equivalent to the maximum number of acres of the respective kinds of minerals allowed to any one lessee or permittee under this Act. For the purpose of this Act, no contract for development and operation of any lands leased hereunder, whether or not coupled with an interest in such lease, nor any lease or leases owned in common by two or more persons, shall be deemed to create a separate association under this section between or among such contracting parties, or the persons owning such lease or leases in common, but the proportionate interest of each such person shall be charged against the total acreage permitted to be held by such person under this Act: Provided, That the total acreage so held in common by two or more persons shall not exceed, in the aggregate, an amount equivalent to the maximum number of acres of the respective kind of minerals allowed to any one lessee or permittee under this Act. The interest of an optionee under a nonrenewable option to purchase or otherwise acquire one or more oil or gas leases (whether then or thereafter issued), or any interest therein, when taken for the purpose of geological or geophysical exploration, shall not, prior to the exercise of such option, be a taking or holding or control under the acreage limitation provisions of any section of this Act. No such option shall be entered into after June 1, 1946, for a period of more than two years, without..."
the prior approval of the Secretary of the Interior, and no person, association, or corporation shall hold at one time such options of more than one hundred thousand acres in any one State: Provided, however, that nothing in this section shall be construed to invalidate options taken prior to June 1, 1946, and on which such geological or geophysical exploration has been actually made, and which are exercised within two years after the passage of this Act. Each holder of any such option shall file with the Secretary within ninety days after the 30th day of June and the 31st day of December in each year a statement under oath showing as of said dates (1) name of optionor and serial number of lease or application for lease, (2) date and expiration date of each option, (3) number of acres covered by each option, and (4) aggregate number of options held in each State and total acreage subject to said options in each State. If any interest in any lease is owned or controlled, directly or indirectly, by means of stock or otherwise, in violation of any of the provisions of this Act, the lease may be canceled, or the interest so owned may be forfeited, or the person so owning or controlling the interest may be compelled to dispose of the interest, in any appropriate proceeding instituted by the Attorney General. Such a proceeding shall be instituted in the United States district court for the district in which the leased property or some part thereof is located or in which the lease owner may be found, except that any ownership or interest forbidden in this Act which may be acquired by descent, will, judgment, or decree may be held for two years and not longer after its acquisition. Nothing herein contained shall be construed to limit sections 18, 18a, 19, and 22 or to prevent any number of lessees under the provisions of this Act from combining their several interests so far as may be necessary for the purposes of constructing and carrying on the business of a refinery, or of establishing and constructing as a common carrier a pipe line or lines of railroads to be operated and used by them jointly in the transportation of oil from their several wells, or from the wells of other lessees under this Act, or the transportation of coal or to increase the acreage which may be acquired or held under section 17 of this Act: Provided, That any combination for such purpose or purposes shall be subject to the approval of the Secretary of the Interior on application to him for permission to form the same. Except as in this Act provided, if any of the lands or deposits leased under the provisions of this Act shall be subleased, trustee, possessed, or controlled by any and every device permanently, temporarily, directly, indirectly, tacitly, or in any manner whatsoever, so that they form a part of or are in anywise controlled by any combination in the form of an unlawful trust, with the consent of the lessee, or form the subject of any contract or conspiracy in restraint of trade in the mining or selling of coal, phosphate, oil, oil shale, gas, or sodium entered into by the lessee, or any agreement or understanding, written or verbal, or otherwise, to which such lessee shall be a party, of which his or its output is to be or become the subject, to control the price or prices thereof or of any holding of such lands by any individual, partnership, association, corporation, or control in excess of the amounts of lands provided in this Act, the lease thereof shall be forfeited by appropriate court proceedings.

Sec. 7. The Act is hereby amended by adding a new section to read as follows:

"Sec. 30. (a) Notwithstanding anything to the contrary in section 30 hereof, any oil or gas lease issued under the authority of this Act may be assigned or subleased, as to all or part of the acreage included therein, subject to final approval by the Secretary and as to either a divided or undivided interest therein, to any person or persons..."
qualified to own a lease under this Act, and any assignment or sub-
lease shall take effect as of the first day of the lease month following
the date of filing in the proper land office of three original executed
counterparts thereof, together with any required bond and proof
of the qualification under this Act of the assignee or sublessee to take
or hold such lease or interest therein. Until such approval, however,
the assignor or sublessor and his surety shall continue to be responsible
for the performance of any and all obligations as if no assignment
or sublease had been executed. The Secretary shall disapprove the
assignment or sublease only for lack of qualification of the assignee or
sublessee or for lack of sufficient bond: Provided, however, That the
Secretary may, in his discretion, disapprove an assignment of a sepa-
rate zone or deposit under any lease, or of a part of a legal subdivision.
Upon approval of any assignment or sublease, the assignee or sublessee
shall be bound by the terms of the lease to the same extent as if such
assignee or sublessee were the original lessee, any conditions in the
assignment or sublease to the contrary notwithstanding. Any partial
assignment of any lease shall segregate the assigned and retained por-
tions thereof, and as above provided, release and discharge the assignor
from all obligations thereafter accruing with respect to the assigned
lands; and such segregated leases shall continue in full force and effect
for the primary term of the original lease, but for not less than two
years after the date of discovery of oil or gas in paying quantities
upon any other segregated portion of the lands originally subject
to such lease. Assignments under this section may also be made of
parts of leases which are in their extended term because of production,
and the segregated lease of any undeveloped lands shall continue in
full force and effect for two years and so long thereafter as oil or
gas is produced in paying quantities."

SEC. 8. The Act is hereby amended by adding a new section to read
as follows:

"Sec. 30. (b) Notwithstanding any provision to the contrary in
section 30 hereof, a lessee may at any time make and file in the
appropriate land office a written relinquishment of all rights under
any oil or gas lease issued under the authority of this Act or of any
legal subdivision of the area included within any such lease. Such
relinquishment shall be effective as of the date of its filing, subject
to the continued obligation of the lessee and his surety to make
payment of all accrued rentals and royalties and to place all wells
on the lands to be relinquished in condition for suspension or aban-
donment in accordance with the applicable lease terms and regu-
lations; thereupon the lessee shall be released of all obligations
thereafter accruing under said lease with respect to the lands reli-
quished, but no such relinquishment shall release such lessee, or his
bond, from any liability for breach of any obligation of the lease,
other than an obligation to drill, accrued at the date of the
relinquishment."

SEC. 9. Section 31 of the Act is amended to read as follows:

"Sec. 31. Except as otherwise herein provided, any lease issued
under the provisions of this Act may be forfeited and canceled by
an appropriate proceeding in the United States district court for
the district in which the property, or some part thereof, is located
whenever the lessee fails to comply with any of the provisions of this
Act, of the lease, or of the general regulations promulgated under
this Act and in force at the date of the lease; and the lease may
provide for resort to appropriate methods for the settlement of
disputes or for remedies for breach of specified conditions thereof.

"Any lease issued after August 21, 1925, under the provisions of
section 17 of this Act shall be subject to cancellation by the Secretary
of the Interior after thirty days' notice upon the failure of the lessee
to comply with any of the provisions of the lease, unless or until the
land covered by any such lease is known to contain valuable deposits
of oil or gas. Such notice in advance of cancellation shall be sent the
lease owner by registered letter directed to the lease owner's record
post-office address, and in case such letter shall be returned as unde-
levered, such notice shall also be posted for a period of thirty days in
the United States land office for the district in which the land cov-
ered by such lease is situated, or in the event that there is no district
land office for such district, then in the post office nearest such land."

Sec. 10. Section 39 which was added to the Act by the Act of February
9, 1933 (47 Stat. 798; 30 U. S. C., sec 209), is amended to read as
follows:

"Sec. 39. The Secretary of the Interior for the purpose of encour-
gaging the greatest ultimate recovery of coal, oil, or gas and in the
interest of conservation of natural resources is authorized to waive,
suspend, or reduce the rental, or minimum royalty, or reduce the
royalty on an entire leasehold, or on any tract or portion thereof
segretated for royalty purposes, whenever in his judgment it is nec-
essary to do so in order to promote development, or whenever in his
judgment the leases cannot be successfully operated under the terms
provided therein. In the event the Secretary of the Interior, in the
interest of conservation, shall direct or shall assent to the suspension
of operations and production under any lease granted under the terms
of this Act, any payment of acreage rental or of minimum royalty
prescribed by such lease likewise shall be suspended during such
period of suspension of operations and production; and the term of
such lease shall be extended by adding any such suspension period
thereof. The provisions of this section shall apply to all oil and gas
leases issued under this Act, including those within an approved or
prescribed plan for unit or cooperative development and operation."

Sec. 11. Section 5 of the Act approved February 7, 1927 (44 Stat.
1057; 30 U. S. C., sec. 285), is amended to read as follows:

"Sec. 5. That the general provisions of sections 26 to 38, inclusive,
of the Act of February 25, 1920, entitled 'An Act to promote the
mining of coal, phosphate, oil, oil shale, gas and sodium on the public
domain', as amended, are made applicable to permits and leases under
this Act, the thirty-seventh section thereof being amended to include
deposits of potassium."

Sec. 12. From and after the effective date of this Act, the royalty
obligation to the United States under all leases requiring payment of
royalty in excess of 1½ per centum, except leases issued or to be
issued upon competitive bidding, is reduced to 1½ per centum in
amount or value of production removed or sold from said leases as
to (1) such leases, or such part of the lands subject thereto, and the
deposits underlying the same, as are not believed to be within the
productive limits of any oil or gas deposit, as such productive limits
are found by the Secretary to exist on the effective date of this
Act, and (2) any production on a lease from an oil or gas deposit
which was discovered after May 27, 1941, by a well or wells drilled
within the boundaries of the lease, and which is determined by the
Secretary to be a new deposit; and (3) any production on or allo-
cated to a lease pursuant to an approved unit or cooperative agree-
ment from an oil or gas deposit which was discovered after May 27,
1941, on land committed to such agreement, and which is determined
by the Secretary to be a new deposit, where such lease was included
in such agreement at the time of discovery, or was included in a
duly executed and filed application for the approval of such agree-
ment at the time of discovery.

To grant to personnel of the armed forces equal treatment in the matter of leave, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Armed Forces Leave Act of 1946".

Sec. 2. As used in this Act—

(a) The term "member of the armed forces" means any member of the Army of the United States, United States Navy, United States Marine Corps, or the United States Coast Guard.

(b) The term "discharge" means (1), in the case of enlisted personnel, separation or release from active duty under honorable conditions or appointment as a commissioned officer or warrant officer; and (2), in the case of commissioned or warrant officers, separation or release from active duty under honorable conditions.

(c) The term "spouse" means a lawful wife or husband.

(d) The term "child" includes—

(1) a legitimate child;
(2) a child legally adopted;
(3) a stepchild, if, at the time of death of the member or former member of the armed forces, such stepchild is a member of the deceased's household;
(4) an illegitimate child, but in the case of a male member or former male member of the armed forces only if he has been judicially ordered or decreed to contribute to such child's support; has been judicially decreed to be the putative father of such child; or has acknowledged under oath in writing that he is the father of such child; and
(5) a person to whom the member or former member of the armed forces at the time of death stands in loco parentis and so stood for not less than twelve months prior to the date of death.

(e) The term "parent" includes father and mother, grandfather and grandmother, stepfather and stepmother, father and mother through adoption, and persons who, for a period of not less than one year prior to the death of the member or former member of the armed forces, stood in loco parentis to such member or former member: Provided, That not more than two parents may receive the benefits provided under this Act and preference shall be given to the parent or parents, not exceeding two, who actually exercised parental relationship at the time of or most nearly prior to the date of the death of such member or former member of the armed forces.

(f) The term "Secretary" means in the case of personnel of the Army, the Secretary of War; in the case of personnel of the Navy and Marine Corps, the Secretary of the Navy; and in the case of personnel of the Coast Guard, the Secretary of the Treasury, and the designated representatives of each such Secretary.

Sec. 3. (a) Each member of the armed forces shall be entitled to leave at the rate of two and one-half calendar days for each month of active service, excluding periods of (1) absence from duty without leave, (2) absence over leave, and (3) confinement as the result of a sentence of court martial. Except as provided in subsection (b) of this section, such leave may be accumulated in an amount not to exceed one hundred and twenty calendar days. Any leave so accumulated shall not, however, survive death occurring during active military service. Enlisted members or former enlisted members of the armed forces shall be considered to be entitled to such leave from and after
September 8, 1939, but shall not be considered to have any leave accumulated or accrued as of the date of the enactment of this Act, or the date of discharge if prior to such date of enactment, in excess of the amount which would have been accumulated and accrued if their leave had been accumulated and accrued from and after September 8, 1939, on the same basis as leave is accumulated and accrued in the case of commissioned officers in the Regular components of their respective branches of the armed forces. Except in the case of leave to be settled and compensated for under section 6 of this Act, leave may be taken by a member on a calendar-day basis as vacation or absence from duty with pay, annually as accruing or otherwise, in accordance with regulations to be issued by the several Secretaries. Such regulations shall provide equal treatment for officers and enlisted men, shall establish to the fullest extent practicable uniform policies for the several branches of the armed forces, and shall provide that leave shall be taken annually as accruing to the extent consistent with military requirements and other exigencies. Members who reenlist after the date of enactment of this Act may be authorized reenlistment leave in the discretion of the Secretary, for a period not exceeding ninety days, and such leave shall be deducted from leave accrued during active service prior to reenlistment or charged against any leave which may accrue during future active service or both. In the case of members who are retired after the date of enactment of this Act and after retirement are continued on or recalled to active duty, leave accrued during service prior to retirement may be carried over to the period of service after retirement. Leave taken prior to discharge before or after the enactment of this Act shall be considered as active military service; but leave settled and compensated for under section 6 of this Act shall not be considered as active military service.

(b) Notwithstanding any other provision of this Act or of any other law or regulation, no member of the armed forces (other than a member on terminal leave on September 1, 1946) shall be permitted to accumulate or to have to his credit, at any time after August 31, 1946, accumulated or accrued leave aggregating in excess of sixty days.

SEC. 4. Leave to be settled and compensated for under section 6 of this Act shall be compensable as follows:

(a) In the case of leave accumulated as an enlisted member of the armed forces, on the basis of the base and longevity pay applicable to such member on the date of his discharge from enlisted service if discharged before August 31, 1946, or on August 31, 1946, if not so discharged, and an allowance computed at the rate of 70 cents a day for subsistence, plus, in the case of enlisted members of the first three grades with dependents or former enlisted members of the first three grades with dependents at the time of discharge if prior to such date, an allowance computed at the rate of $1.25 a day for quarters.

(b) In the case of leave accumulated or accrued as a member of the armed forces as a warrant or commissioned officer, on the basis of the base and longevity pay and allowances applicable to such member on August 31, 1946.

In the case of all other leave provided under this Act, members shall be entitled during such leave to the same pay and allowances they would receive if not on leave and to any additional or other allowance or allowances otherwise authorized or provided by law for members while on leave. Determination of the number of calendar days of leave to which a member or former member is entitled, including the number of calendar days of absence from duty or vacation to be counted or charged against such leave, shall be made...
in accordance with regulations to be prescribed by the respective Secretaries, which regulations shall provide equal treatment of officers and enlisted men and shall establish to the fullest extent practicable uniform policies for the several branches of the armed forces. In the case of the leave of enlisted members or former enlisted members attributable to the period prior to the date of enactment of this Act, the Secretary may in the determination of the number of calendar days of absence from duty or vacation to be counted or charged against such leave rely on such records and evidence, including applicants' sworn statements as to the material facts, as he may determine proper. All decisions by the Secretary under this section shall be final and conclusive and shall not be subject to review by any court or by any officer of the United States.

Sec. 5. (a) Leave to which enlisted members of the armed forces discharged prior to September 1, 1946, and former enlisted members of the armed forces discharged prior to the date of enactment of this Act, are entitled under the provisions of section 3 of this Act shall, to the extent not taken, be settled and compensated for only in the manner provided in section 6 of this Act and if application is made to the Secretary not later than September 1, 1947, or, in the case of any such member or former member whose record is corrected after the date of enactment of this Act to show discharge under honorable conditions, not later than September 1, 1947, or within one year after the date on which such record is corrected, whichever is later.

(b) In any case in which a member of the armed forces on active duty on September 1, 1946 (other than a member on terminal leave on such date) has to his credit on August 31, 1946, accumulated or accrued leave aggregating in excess of sixty days, such leave in excess of sixty days shall be settled and compensated for only in the manner provided in section 6 of this Act and if application is made to the Secretary not later than September 1, 1947.

(c) In no event shall the number of calendar days of leave settled and compensated for under section 6 of this Act exceed one hundred and twenty calendar days; and in no event shall the number of calendar days of leave so settled and compensated for, plus—

(1) in the case of a member on active duty on September 1, 1946 (other than a member on terminal leave on such date), the number of calendar days of leave accumulated or standing to such member's credit on such date; or

(2) in the case of a member or former member placed on terminal leave prior to September 1, 1946, the number of calendar days of such terminal leave,

exceed one hundred and twenty calendar days.

Sec. 6. (a) Leave by this Act provided to be settled and compensated for under this section shall be settled and compensated for as follows:

(1) Settlement and compensation shall be made entirely in cash—

(i) when the amount due is less than $50;

(ii) in the case of any enlisted member of the armed forces discharged prior to January 1, 1943; or

(iii) in any case covered by subsection (b) or (c) of this section.

(2) In all other cases settlement and compensation shall be made in bonds of the United States to the highest multiple of $25 and in cash to the extent of the full amount of any difference. Any such bond issued pursuant to an application made under subsection (a) of section 5 shall be dated as of the 1st day of January, the 1st day of April, the 1st day of July, or the 1st day of October, whichever next follows the date of discharge, and any such bond issued pursuant to an application
made under subsection (b) of section 5 shall be dated as of October 1, 1946. Each such bond shall mature five years from the date thereof. The bonds issued under this Act shall be issued by the Secretary of the Treasury under the authority and subject to the provisions of the Second Liberty Bond Act, as amended, and through such agencies as he may designate. Except as provided in subsection (d), such bonds shall be nonnegotiable and shall not be transferable by sale, exchange, assignment, pledge, hypothecation, or otherwise. Such bonds shall be issued only to and in the names of living members or living former members of the armed forces. In the event of the death of any holder of any such bond or of any check issued pursuant to this subsection, payment of the bond shall be made by the Secretary of the Treasury prior to, upon, or after its maturity upon application at the option of such holder’s survivors and payment of the check shall be made by the Secretary of the Treasury upon application by such survivors as follows: To such holder’s surviving spouse and children, if any, in equal shares; and if such holder leaves no surviving spouse or child or children, then in equal shares to such holder’s surviving parents, if any. If there is no such survivor, any such bond shall be retired, and any such check shall be canceled and the amount of the bond or check covered into the general fund of the Treasury. Payment of any such bond or any such check to any holder, or any survivor entitled thereto under the provisions of this subsection, between seventeen and twenty-one years of age shall constitute a complete discharge of the obligations of the United States under this Act. Where the Secretary of the Treasury is of the opinion that any holder of any such bond or any such check or any survivor entitled to payment under the provisions of this subsection is, by reason of being either under seventeen years of age or under mental disability, incapable of satisfactorily looking after his own interests, payment of such bond or such check may be made in the same manner, and with the same effect, as settlement and compensation made under the provisions of subsection (c). Settlement and compensation made under the provisions of this subsection shall constitute a complete discharge of the obligations of the United States under this Act. The provisions of this subsection shall not apply when a legal guardian or committee has been judicially appointed for any such member, former member, or survivor appointed in accordance with the provisions of this subsection and the exaction or acceptance of any such fee, commission, or charge shall be deemed a misdemeanor punishable by a fine of not exceeding $500 or imprisonment for not exceeding six months, or both.

[CHAPTER 943]
AN ACT
August 9, 1946

To provide for investigating the matter of the establishment of a national park in the old part of the city of Philadelphia, for the purpose of conserving the historical objects and buildings therein.

Whereas thousands of residents of the city of Philadelphia, comprising part of the Third Congressional District of Pennsylvania, have petitioned their representatives in the Congress of the United States upon the matters more fully hereinafter set forth; and

Whereas the petition of the residents of the city of Philadelphia calls attention to the existence of many shrines hallowed in American history, as well as several modern buildings owned by the Federal Government, in the area of the city of Philadelphia, beginning at the southeast corner of Sixth Street and Chestnut Street and proceeding southwardly to the northeast corner of Sixth Street and Walnut Street; thence proceeding eastwardly to the northwest corner of Fifth Street and Walnut Street; thence proceeding northwardly to a point on the west side of Fifth Street which would be made by extending the north line of Sansom Street to the east side of Fifth Street; thence proceeding eastwardly along the north line of the said Sansom Street to a point in the east side of Fourth Street which would be made by extending the north line of the said Sansom Street to the east side of the said Fourth Street; thence southwardly to the northeast corner of Harmony and Fourth Streets; thence eastwardly to the northwest corner of Harmony and Third Streets; thence northwardly to a point at which a line extended perpendicularly from the east side of Third Street would meet the angle created by the lines forming the northeast corner of Third and Dock Streets; thence eastwardly along the northerly line
of said Dock Street to the northeast corner of Dock, South American, and Moravian Streets; thence eastwardly to the northwest corner of Moravian and Second Streets; thence northwardly to the southwest corner of Second and Chestnut Streets; thence westwardly to the southeast corner of Sixth and Chestnut Streets, to the place of beginning; and calls attention to the fact that much of the area above described is run down, some properties are demolished, and others are in such dilapidated condition as to constitute a serious fire hazard of such proportions as to endanger Independence Hall, Carpenters' Hall, the Old Custom House, and the First Bank of the United States, as well as other landmarks and shrines of patriotism, and that such unsightly condition is not conducive to a proper respect and reverence for those American ideals which are symbolized by those shrines; and recommends that the Federal Government establish a national park in the above vicinity and also in the area bounded by Fifth Street on the east, Race Street on the north, Sixth Street on the west, and Chestnut Street on the south, which will assure at once a beautiful setting for those shrines and maximum protection against fire or other disaster; and

Whereas during these troubled times it is desirable to augment the defense effort of our Nation not only with arms but with proper emphasis on spiritual values; and

Whereas an attractive and inspiring setting will create a stronger sense of reverence for American institutions, laws and orders, which had their beginnings, in large part, in this group of shrines in the formative years around 1776; and

Whereas it is proper, fitting, and desirable that the United States of America should properly enshrine these jewels of democracy, so that all who visit these hallowed places from the far corners of this glorious democracy and the four corners of the world may be stirred with a feeling of patriotic reverence: Therefore

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That a commission is hereby created for the purpose of investigating the matter of the establishment in the city of Philadelphia, in the Commonwealth of Pennsylvania, of a Federal area to be called Philadelphia National Shrines Park, or by some other appropriate name, to encompass within its area the buildings of historical significance in the old part of the city of Philadelphia, and to be operated and maintained by the National Park Service, for the purpose of conserving the historical objects and buildings in the said area and to provide for the enjoyment and appreciation thereof in such manner and by such means as will leave them unimpaired for the enjoyment of future generations.

Sec. 2. The Commission shall be known as the Philadelphia National Shrines Park Commission, and shall be composed of seven individuals, who shall serve without compensation, to be appointed as follows: One Member of the United States Senate, to be appointed by the President of the Senate; one Member of the United States House of Representatives, to be appointed by the Speaker of the House; one member to be appointed by the Secretary of the Interior, and four persons, one of whom shall be a resident of the city of Philadelphia, to be appointed by the President of the United States. Any vacancy in the Commission shall be filled in the same manner in which the original appointment was made.

Sec. 3. The Commission shall meet for the purpose of organizing within thirty days after the enactment of this Act. Rooms shall be provided for the use of the Commission in the New Custom House at Philadelphia. The Commission shall elect a Chairman and executive secretary from among its members.
Sec. 4. The Commission shall make a study of the historic area and the area surrounding and contiguous to the locality involved, the buildings now in existence there, comparative real-estate costs, the advisability of condemnation of all or any part of the said locality and area, which of the present buildings should remain privately owned, if any, and shall prepare a report on all phases of the problem. Such report shall be transmitted to the Congress by the Secretary of the Interior not later than January 3, 1947. Upon submission of the report to Congress, the Commission shall cease to exist.

Sec. 5. The Commission, or any member thereof, may, for the purpose of carrying out the provisions of this Act, hold hearings and sit and act at such places and times, require by subpoena the attendance of such witnesses other than persons engaged in essential war industries as defined by the War Manpower Commission, and the production of such books, papers, and documents, administer such oaths, and take such testimony, as the Commission or such member deems advisable. Subpoenas shall be issued under the signature of the Chairman of the Commission and shall be served by any person designated by him. For purposes of the exercise of the functions, powers, and duties conferred or imposed by this Act, the provisions of sections 9 and 10 (relating to the attendance and testimony of witnesses and the production of evidence) of the Federal Trade Commission Act of September 16, 1914, as amended (U. S. C., 1940 edition, title 15, secs. 49 and 50), are hereby made applicable so far as is consistent with the provisions of this Act.

Sec. 6. (a) The Secretary of the Interior may appoint and fix the compensation, in accordance with the provisions of the civil-service laws and the Classification Act of 1923, as amended, of such experts, advisers, and other employees, and may make such expenditures, including expenditures for actual travel and subsistence expense of members, employees, and witnesses (not exceeding $15 for subsistence expenses for any one person for any one calendar day), for personal services at the seat of government and elsewhere, and for printing and binding, as are necessary for the efficient execution of the functions, powers, and duties of the Commission under this Act. The Commission is authorized to utilize voluntary and uncompensated services for the purposes of this Act. There is hereby authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $15,000 to carry out the provisions of this Act.

(b) The Commission shall have the same privilege of free transmission of official mail matter as is granted by law to officers of the United States Government.

Approved August 9, 1946.

TITLE II—BENEFITS IN CASE OF DECEASED WORLD WAR II VETERANS

SEC. 201. The Social Security Act, as amended, is amended by adding after subsection (r) of section 209 of Title II (added to such section by section 411 of this Act) a new section to read as follows:

"BENEFITS IN CASE OF DECEASED WORLD WAR II VETERANS

"SEC. 210. (a) Any individual who has served in the active military or naval service of the United States at any time on or after September 16, 1940, and prior to the date of the termination of World War II, and who has been discharged or released therefrom under conditions other than dishonorable after active service of ninety days or more, or by reason of a disability or injury incurred or aggravated in service in line of duty, shall in the event of his death during the period of three years immediately following separation from the active military or naval service, whether his death occurs on, before, or after the date of the enactment of this section, be deemed—

"(1) to have died a fully insured individual;
"(2) to have an average monthly wage of not less than $160; and
"(3) for the purposes of section 209 (e) (2), to have been paid not less than $200 of wages in each calendar year in which he had thirty days or more of active service after September 16, 1940.

This section shall not apply in the case of the death of any individual occurring (either on, before, or after the date of the enactment of this section) while he is in the active military or naval service, or in the case of the death of any individual who has been discharged or released from the active military or naval service of the United States subsequent to the expiration of four years and one day after the date of the termination of World War II.

"(b) (1) If any pension or compensation is determined by the Veterans' Administration to be payable on the basis of the death of any individual referred to in subsection (a) of this section, any monthly benefits or lump-sum death payment payable under this title with respect to the wages of such individual shall be determined without regard to such subsection (a).

"(2) Upon an application for benefits or a lump-sum death payment with respect to the death of any individual referred to in subsection (a), the Federal Security Administrator shall make a decision without regard to paragraph (1) of this subsection unless he has been notified by the Veterans' Administration that pension or compensation is determined to be payable by the Veterans' Administration by reason of the death of such individual. The Federal Security Administrator shall notify the Veterans' Administration of any decision made by him authorizing payment, pursuant to subsection (a), of monthly benefits or of a lump-sum death payment. If the Veterans' Administration in any such case has made an adjudication or thereafter makes an adjudication that any pension or compensation is payable under any law administered by it, by reason of the death of any such individual, it shall notify the Federal Security Administrator, and the Administrator shall certify no further benefits for payment, or shall recomputate the amount of any further benefits payable,
as may be required by paragraph (1) of this subsection. Any payments theretofore certified by the Federal Security Administrator pursuant to subsection (a) to any individual, not exceeding the amount of any accrued pension or compensation payable to him by the Veterans’ Administration, shall (notwithstanding the provisions of sec. 3 of the Act of August 12, 1935, as amended (U. S. C., 1940 edition, title 38, sec. 454a)) be deemed to have been paid to him by the Veterans’ Administration on account of such accrued pension or compensation. No such payment certified by the Federal Security Administrator, and no payment certified by him for any month prior to the first month for which any pension or compensation is paid by the Veterans’ Administration, shall be deemed by reason of this subsection to have been an erroneous payment.

“(c) In the event any individual referred to in subsection (a) has died during such three-year period but before the date of the enactment of this section—

“(1) upon application filed within six months after the date of the enactment of this section, any monthly benefits payable with respect to the wages of such individual (including benefits for months before such date) shall be computed or recomputed and shall be paid in accordance with subsection (a), in the same manner as though such application had been filed in the first month in which all conditions of entitlement to such benefits, other than the filing of an application, were met;

“(2) if any individual who upon filing application would have been entitled to benefits or to a recomputation of benefits under paragraph (1) has died before the expiration of six months after the date of the enactment of this section, the application may be filed within the same period by any other individual entitled to benefits with respect to the same wages, and the nonpayment or underpayment to the deceased individual shall be treated as erroneous within the meaning of section 204;

“(3) the time within which proof of dependency under section 202 (f) or any application under 202 (g) may be filed shall be not less than six months after the date of the enactment of this section; and

“(4) application for a lump-sum death payment or recomputation, pursuant to this section, of a lump-sum death payment certified by the Board or the Federal Security Administrator, prior to the date of the enactment of this section, for payment with respect to the wages of any such individual may be filed within a period not less than six months from the date of the enactment of this section or a period of two years after the date of the death of any individual specified in subsection (a), whichever is the later, and any additional payment shall be made to the same individual or individuals as though the application were an original application for a lump-sum death payment with respect to such wages.

No lump-sum death payment shall be made or recomputed with respect to the wages of an individual if any monthly benefit with respect to his wages is, or upon filing application would be, payable for the month in which he died; but except as otherwise specifically provided in this section no payment heretofore made shall be rendered erroneous by the enactment of this section.

“(d) There are hereby authorized to be appropriated to the Trust Fund from time to time such sums as may be necessary to meet the additional cost, resulting from this section, of the benefits (including lump-sum death payments) payable under this title.
“(e) For the purposes of this section the term ‘date of the termination of World War II’ means the date proclaimed by the President as the date of such termination, or the date specified in a concurrent resolution of the two Houses of Congress as the date of such termination, whichever is the earlier.”

Sec. 202. When used in the Social Security Act, as amended by this Act, the term “Administrator”, except where the context otherwise requires, means the Federal Security Administrator.

Such person and the officers and members of the crew of such vessel shall not be required to make contributions, with respect to such service, to the unemployment fund of any other State. The permission granted by this subsection is subject to the condition that such service shall be treated, for purposes of wage credits given employees, like other service subject to such State unemployment compensation law approved for such person in such State, and also subject to the same limitation, with respect to contributions required from such person and from the officers and members of the crew of such vessel, as is imposed by the second sentence (other than clause (2) thereof) of subsection (b) of this section with respect to contributions required from instrumentalities of the United States and from individuals in their employ.”

"COMPENSATION FOR SEAMEN"

"Sec. 1303. (a) The Administrator is authorized on behalf of the United States to enter into an agreement with any State, or with the unemployment compensation agency of such State, under which such State agency (1) will make, as agent of the United States, payments of compensation, on the basis provided in subsection (b), to individuals who have performed Federal maritime service, and (2) will otherwise cooperate with the Administrator and with other State unemployment compensation agencies in making payments of compensation authorized by this title.

"(b) Any such agreement shall provide that compensation will be paid to such individuals, with respect to unemployment occurring in the reconversion period, in the same amounts, on the same terms, and subject to the same conditions as the compensation which would be payable to such individuals under the State unemployment compensation law if such individuals' Federal maritime service and Federal maritime wages had (subject to regulations of the Administrator concerning the allocation of such service and wages among the several States) been included as employment and wages under such law; except that the compensation to which an individual is entitled under such an agreement for any week shall be reduced by 15 per centum of the amount of any annuity or retirement pay which such individual is entitled to receive, under any law of the United States relating to the retirement of officers or employees of the United States, for the month in which such week begins, unless a deduction from such compensation on account of such annuity or retirement pay is otherwise provided for by the applicable State law.

"(c) If in the case of any State an agreement is not entered into under this section or the unemployment compensation agency of such State fails to make payments in accordance with such an agreement, the Administrator, in accordance with regulations prescribed by him, shall make payments of compensation to individuals who file a claim for compensation which is payable under such agreement, or would be payable if such agreement were entered into, on a basis which will provide that they will be paid compensation in the same amounts, on substantially the same terms, and subject to substantially the same conditions as though such agreement had been entered into and such agency made such payments. Final determinations by the Administrator of entitlement to such payments shall be subject to review by the courts in the same manner and to the same extent as is provided in

37 Stat. 47.
Title II with respect to decisions by the Administrator under such title.

“(d) Operators of vessels who are or were general agents of the War Shipping Administration or of the United States Maritime Commission shall furnish to individuals who have been in Federal maritime service, to the appropriate State agency, and to the Administrator such information with respect to wages and salaries as the Administrator may determine to be practicable and necessary to carry out the purposes of this title.

“(e) Pursuant to regulations prescribed by the Administrator, he, and any State agency making payments of compensation pursuant to an agreement under this section, may—

“(1) to the extent that the Administrator finds that it is not feasible for Federal agencies or operators of vessels to furnish information necessary to permit exact and reasonably prompt determinations of the wages or salaries of individuals who have performed Federal maritime service, determine the amount of and pay compensation to any individual under this section, or an agreement thereunder, as if the wages or salary paid such individual for each week of such service were in an amount equal to his average weekly wages or salary for the last pay period of such service occurring prior to the time he files his initial claim for compensation; and

“(2) to the extent that information is inadequate to assure the prompt payment of compensation authorized by this section (either on the basis of the exact wages or salaries of the individual concerned or on the basis prescribed in clause (1) of this subsection), accept certification under oath by individuals of facts relating to their Federal maritime service and to wages and salaries paid them with respect to such service.

“ADMINISTRATION

“Sec. 1304. (a) Determinations of entitlement to payments of compensation by a State unemployment compensation agency under an agreement under this title shall be subject to review in the same manner and to the same extent as determinations under the State unemployment compensation law, and only in such manner and to such extent.

“PAYMENTS TO STATES

“Sec. 1305. (a) Each State shall be entitled to be paid by the United States an amount equal to the additional cost to the State of payments of compensation made under and in accordance with an agreement under this title, which would not have been incurred by the State but for the agreement.

“(b) In making payments pursuant to subsection (a) of this section, there shall be paid to the State, either in advance or by way of reimbursement, as may be determined by the Administrator, such sum as
the Administrator estimates the State will be entitled to receive under this title for each calendar quarter; reduced or increased, as the case may be, by any sum by which the Administrator finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the State. The amount of such payments may be determined by such statistical, sampling, or other method as may be agreed upon by the Administrator and the State agency.

“(c) The Administrator shall from time to time certify to the Secretary of the Treasury for payment to each State the sums payable to such State under this section. The Secretary of the Treasury, prior to audit or settlement by the General Accounting Office, shall make payment, at the time or times fixed by the Administrator, in accordance with certification, from the funds for carrying out the purposes of this title. Notwithstanding any other provision of this title, no compensation shall be paid to any individual pursuant to this title with respect to unemployment occurring prior to the date when funds are made available for such payments.

“(d) All money paid to a State under this section shall be used solely for the purposes for which it is paid; and any money so paid which is not used for such purposes shall be returned to the Treasury upon termination of the agreement or termination of the reconversion period, whichever first occurs.

“(e) An agreement under this title may require any officer or employee of the State certifying payments or disbursing funds pursuant to the agreement, or otherwise participating in its performance, to give a surety bond to the United States in such amount as the Administrator may deem necessary, and may provide for the payment of the cost of such bond from appropriations for carrying out the purposes of this title.

“(f) No person designated by the Administrator, or designated pursuant to an agreement under this title, as a certifying officer shall, in the absence of gross negligence or intent to defraud the United States, be liable with respect to the payment of any compensation certified by him under this title.

“(g) No disbursing officer shall, in the absence of gross negligence or intent to defraud the United States, be liable with respect to any payment by him under this title if it was based upon a voucher signed by a certifying officer designated as provided in subsection (f).

“PENALTIES

“Sec. 1306. (a) Whoever, for the purpose of causing any compensation to be paid under this title or under an agreement thereunder where none is authorized to be so paid, shall make or cause to be made any false statement or representation as to any wages paid or received, or whoever makes or causes to be made any false statement of a material fact in any claim for any compensation authorized to be paid under this title or under an agreement thereunder, or whoever makes or causes to be made any false statement, representation, affidavit, or document in connection with such claim, shall, upon conviction thereof, be fined not more than $1,000 or imprisoned for not more than one year, or both.

“(b) Whoever shall obtain or receive any money, check or compensation under this title or an agreement thereunder, without being entitled thereto and with intent to defraud the United States, shall, upon conviction thereof, be fined not more than $1,000 or imprisoned for not more than one year, or both.

“(c) Whoever willfully fails or refuses to furnish information which the Administrator requires him to furnish pursuant to authority
of section 1303 (d), or willfully furnishes false information pursuant to a requirement of the Administrator under such subsection, shall, upon conviction thereof, be fined not more than $1,000 or imprisoned for not more than six months, or both."

The combined actuarial value of the two annuities on the date of retirement as determined by the Secretary of the Treasury shall be the same as the actuarial value of the annuity provided by paragraph (a) of this section. No such election of a reduced annuity payable to a beneficiary other than a child of the participant shall be valid until the participant shall have satisfactorily passed a physical examination as prescribed by the Secretary. (a) For each project for construction pursuant to a State plan approved under this part, there shall be submitted to the Surgeon General through the State agency an application by the State or a political subdivision thereof or by a public or other nonprofit agency. Such application shall set forth (1) a description of the site for such project, (2) plans and specifications therefor in accordance with the regulations prescribed by the Surgeon General under section 622 (e), (3) reasonable assurance that title to such site is or will be vested solely in the applicant, (4) reasonable assurance that adequate financial support will be available for the construction of the project and for its maintenance and operation when completed, and (5) reasonable assurance that the rates of pay for laborers and mechanics engaged in construction of the project will be not less than the prevailing local wage rates for similar work as determined in accordance with Public Law 403 of the Seventy-fourth Congress, approved August 30, 1935, as amended. The Surgeon General shall approve such application if sufficient funds to pay 33⅓ per centum of the cost of construction of such project are available from the allotment to the State, and if the Surgeon General finds (A) that the application contains such reasonable assurance as to title, financial support, and payment of prevailing rates of wages, (B) that the plans and specifications are in accord with the regulations prescribed pursuant to section 622, (C) that the application is in conformity with the State plan approved under section 623 and contains an assurance that the applicant will conform to the applicable requirements of the State plan and of the regulations prescribed pursuant to section 622 (f) regarding the provision of facilities without discrimination on account of race, creed, or color, and for furnishing needed hospital facilities for persons unable to pay therefor, and an assurance that the applicant will conform to State standards for operation and maintenance, and (D) that it has been approved and recommended by the State agency and is entitled to priority over other projects within the State in
accordance with the regulations prescribed pursuant to section 622 (d). No application shall be disapproved until the Surgeon General has afforded the State agency an opportunity for a hearing.

“(b) Upon approving an application under this section, the Surgeon General shall certify to the Secretary of the Treasury an amount equal to 33 1/3 per centum of the estimated cost of construction of the project and designate the appropriation from which it is to be paid. Such certification shall provide for payment to the State, except that if the State is not authorized by law to make payments to the applicant the certification shall provide for payment direct to the applicant. Upon certification by the State agency, based upon inspection by it, that work has been performed upon a project, or purchases have been made, in accordance with the approved plans and specifications, and that payment of an installment is due to the applicant, the Surgeon General shall certify such installment for payment by the Secretary of the Treasury; except that if the Surgeon General, after investigation or otherwise, has ground to believe that a default has occurred requiring action pursuant to section 632 (a) he may, upon giving notice of hearing pursuant to such subsection, withhold certification pending action based on such hearing.

“(c) Amendment of any approved application shall be subject to approval in the same manner as an original application. Certification under subsection (b) may be amended, either upon approval of an amendment of the application or upon revision of the estimated cost of a project. An amended certification may direct that any additional payment be made from the applicable allotment for the fiscal year in which such amended certification is made.

“(d) The funds paid under this section for the construction of an approved project shall be used solely for carrying out such project as so approved.

“(e) If any hospital for which funds have been paid under this section shall, at any time within twenty years after the completion of construction, (A) be sold or transferred to any person, agency, or organization, (1) which is not qualified to file an application under this section, or (2) which is not approved as a transferee by the State agency designated pursuant to section 623 (a)(1), or its successor, or (B) cease to be a nonprofit hospital as defined in section 631 (g), the United States shall be entitled to recover from either the transferor or the transferee (or, in the case of a hospital which has ceased to be a nonprofit hospital, from the owners thereof) 33 1/3 per centum of the then value of such hospital, as determined by agreement of the parties or by action brought in the district court of the United States for the district in which such hospital is situated.

The fees of such attorney or attorneys for all services rendered in prosecuting the claim in question, whether before the Commission or otherwise, shall, unless the amount of such fees is stipulated in the approved contract between the attorney or attorneys and the claimant, be fixed by the Commission at such amount as the Commission, in accordance with standards obtaining for prosecuting similar contingent claims in courts of law, finds to be adequate compensation for services rendered and results obtained, considering the contingent nature of the case, plus all reasonable expenses incurred in the prosecution of the claim; but the amount so fixed by the Commission, exclusive of reimbursements for actual expenses, shall not exceed 10 per centum of the amount recovered in any case. The attorney or attorneys for any such tribe, band, or group as shall have been organized pursuant to section 16 of the Act of June 18, 1934 (48 Stat. 987; 25 U. S. Any member of the Commission may require by subpoena (1) the attendance and testimony of witnesses, and the production of all necessary books, papers, documents, correspondence, and other evidence, from any place in the United States or Alaska at any designated place of hearing; or (2) the taking of depositions before any designated individual competent to administer under the laws of the United States or of any State or Territory. In the case of a deposition, the testimony shall be reduced to writing by the individual taking the deposition or under his direction and shall be subscribed by the deponent. In taking testimony, opportunity shall be given for cross-examination, under such regulations as the Commission may prescribe. Witnesses subpoenaed to testify or whose depositions are taken pursuant to this Act, and the officers or persons taking the same, shall severally be entitled to the same fees and mileage as are paid for like services in the courts of the United States.

FINAL DETERMINATION

SEC. 19. The final determination of the Commission shall be in writing, shall be filed with its clerk, and shall include (1) its findings of the facts upon which its conclusions are based; (2) a statement (a) whether there are any just grounds for relief of the claimant and, if so, the amount thereof; (b) whether there are any allowable offsets, counterclaims, or other deductions, and, if so, the amount thereof; and (3) a statement of its reasons for its findings and conclusions.

REVIEW BY COURT OF CLAIMS

SEC. 20. (a) In considering any claim the Commission at any time may certify to the Court of Claims any definite and distinct questions of law concerning which instructions are desired for the proper disposition of the claim; and thereupon the Court of Claims may give appropriate instructions on the questions certified and transmit the same to the Commission for its guidance in the further consideration of the claim.

(b) When the final determination of the Commission has been filed with the clerk of said Commission the clerk shall give notice of the filing of such determination to the parties to the proceeding in manner and form as directed by the Commission. At any time within three months from the date of the filing of the determination of the Commission with the clerk either party may appeal from the determination of the Commission to the Court of Claims, which Court shall have exclusive jurisdiction to affirm, modify, or set aside such final determination. On said appeal the Court shall determine whether the findings of fact of the Commission are supported by substantial evidence, in which event they shall be conclusive, and also whether the conclusions of law, including any conclusions respecting "fair and honorable dealings", where applicable, stated by the Commission as a basis for its final determination, are valid and supported by the Commission's findings of fact. In making the foregoing determinations, the Court shall review the whole record or such portions thereof as may be cited by any party, and due account shall be taken of the rule of prejudicial error. The Court may at any time remand the cause to the Commission for such further proceedings as it may direct, not inconsistent with the foregoing provisions of this section.

The Court
shall promulgate such rules of practice as it may find necessary to carry out the foregoing provisions of this section.

(c) Determinations of questions of law by the Court of Claims under this section shall be subject to review by the Supreme Court of the United States in the manner prescribed by section 3 of the Act of February 13, 1925 (43 Stat. 939; 28 U. S. C., sec. 288), as amended.

REPORT OF COMMISSION TO CONGRESS

Sec. 21. In each claim, after the proceedings have been finally concluded, the Commission shall promptly submit its report to Congress.

The report to Congress shall contain (1) the final determination of the Commission; (2) a transcript of the proceedings or judgment upon review, if any, with the instructions of the Court of Claims; and (3) a statement of how each Commissioner voted upon the final determination of the claim.

EFFECT OF FINAL DETERMINATION OF COMMISSION

Sec. 22. (a) When the report of the Commission determining any claimant to be entitled to recover has been filed with Congress, such report shall have the effect of a final judgment of the Court of Claims, and there is hereby authorized to be appropriated such sums as are necessary to pay the final determination of the Commission.

The payment of any claim, after its determination in accordance with this Act, shall be a full discharge of the United States of all claims and demands touching any of the matters involved in the controversy.

(b) A final determination against a claimant made and reported in accordance with this Act shall forever bar any further claim or demand against the United States arising out of the matter involved in the controversy.

DISSOLUTION OF THE COMMISSION

Sec. 23. The existence of the Commission shall terminate at the end of ten years after the first meeting of the Commission or at such earlier time after the expiration of the five-year period of limitation set forth in section 12 hereof as the Commission shall have made its final report to Congress on all claims filed with it. Upon its dissolution the records of the Commission shall be delivered to the Archivist of the United States.

FUTURE INDIAN CLAIMS

Sec. 24. The jurisdiction of the Court of Claims is hereby extended to any claim against the United States accruing after the date of the approval of this Act in favor of any Indian tribe, band, or other identifiable group of American Indians residing within the territorial limits of the United States or Alaska whenever such claim is one arising under the Constitution, laws, treaties of the United States, or Executive orders of the President, or is one which otherwise would be cognizable in the Court of Claims if the claimant were not an Indian tribe, band, or group. In any suit brought under the jurisdiction conferred by this section the claimant shall be entitled to recover in the same manner, to the same extent, and subject to the same conditions and limitations, and the United States shall be entitled to the same defenses, both at law and in equity, and to the same offsets, counterclaims, and demands, as in cases brought in the Court of Claims under section 145 of the Judicial Code (36 Stat. 1136; 28 U. S. C., sec. 230), as amended: Provided, however, That nothing contained in this section shall be construed as altering the
EFFECT ON EXISTING LAWS

SEC. 25. All provisions of law inconsistent with this Act are hereby repealed to the extent of such inconsistency, except that existing provisions of law authorizing suits in the Court of Claims by particular tribes, bands, or groups of Indians and governing the conduct or determination of such suits shall continue to apply to any case heretofore or hereafter instituted thereunder save as provided by section 11 hereof as to the deduction of payments, offsets, counter-claims, and demands.

SEC. 26. If any provision of this Act, or the application thereof, is held invalid, the remainder of the Act, or other applications of such provisions, shall not be affected.

Approved August 13, 1946.

The Chief of Engineers may, in his discretion, from time to time, make payments on such construction as the work progresses, but these payments, including previous payments, if any, shall not be more than the United States pro rata part of the value of the labor and materials which have been actually put into such construction in conformity to said plans and specifications: Provided, That the construction of improvement and protective works may be undertaken by the Chief of Engineers upon the request of, and contribution of
required funds by the interested State, municipality or other political subdivision.

"SEC. 43. (a) The Secretary shall do all things necessary to complete the liquidation as expeditiously as possible of all resettlement projects and rural rehabilitation projects for resettlement purposes including, but not limited to, defense relocation corporations, land-leasing and land-purchasing associations, all properties retransferred from the National Housing Agency by section 2 (a) (3) of the Farmers' Home Administration Act of 1946, and all other corporations or associations organized for similar purposes and financed, in whole or in part, with funds made available to the Secretary, the War Food Administrator, the Farm Security Administration, the Resettlement Administration, or the Federal Emergency Relief Administration.

"(b) Within six months after the effective date of the Farmers' Home Administration Act of 1946, the Secretary shall determine which of the lands comprising the projects described in (a) hereof are suitable for use, either with or without subdivision, as farms of sufficient size to constitute efficient farm management units and to enable diligent farm families to carry on farming of a type which the Secretary deems can be carried on successfully in the localities in which the lands are situated. The Secretary shall file with the Congress, promptly after making such determination, a complete report of the determination, with full information as to the location of all lands comprising such projects, and of the facts taken into account by the Secretary in making the determination. All lands which the Secretary determines are suitable for farming and all personal property incident to or comprising such projects and usable in farming operations shall, wherever practicable, be sold by the Secretary as expeditiously as possible to individuals eligible to receive the benefits of title I of this Act and in a manner consistent with the provisions of such title. The Secretary, if appropriations are made therefor by Congress, may make loans to such purchasers to enable them to improve such lands or repair such property, which loans shall be made only after certification of the county committees and otherwise in a manner consistent with the provisions of title I: Provided, That all sales of project lands in economic units shall be in accordance with the terms, conditions, and limitations of S. 704, Seventy-ninth Congress, second session.
"(c) Public facilities, such as electric light, water and sewage systems, buildings and lands for schools and churches, and land for public roads, streets, and alleys, may be granted or dedicated to public or semipublic institutions or granted to public or private organizations where (1) such facilities or lands cannot be sold at reasonable prices, (2) similar facilities or land are not available at reasonable rates and terms to the inhabitants of the particular area and (3) the recipients of such facilities will agree to operate and maintain them and shall relieve the Government of all responsibility in connection therewith. In making grants or dedications of such facilities, the Secretary shall give due consideration to all applications for such grants or dedications and shall award the facilities to the organization or institution found by the Secretary to be most capable of maintaining and operating such properties. In all sales, grants, or dedications of such facilities, the Secretary shall take reasonable precautions to provide that they will not be used in competition with companies or organizations in the area furnishing adequate services to the inhabitants upon reasonable rates and terms.

"(d) Real and personal property comprising such projects which is not determined by the Secretary to be suitable for sale as family-size farms as provided in (b) hereof, or which is not granted or dedicated as provided in (c) hereof, shall, within eighteen months after the effective date of the Farmers' Home Administration Act of 1946, either be transferred by the Secretary to appropriate agencies of the United States for disposition as surplus property of the United States or be sold by the Secretary at public or private sale to any individual or corporation at the best price obtainable, after public notice, for cash or on secured credit, without regard to the laws governing the disposition of surplus real or personal property of the United States: Provided, however, That in the case of all sales on credit under this subparagraph (d) the Secretary shall obtain an initial cash payment of at least 20 per centum of the sales price and the remainder shall be paid in equal annual installments within a term not in excess of five years: Provided further, That whenever it is found by the Secretary that it is not practicable to dispose of lands reserved for sale pursuant to subparagraph (b) hereof under the provisions of title I of this Act, such lands may be sold by the Secretary under the authority of this subparagraph (d).

"(e) The Secretary shall cause the defense relocation corporations, land-leasing and land-purchasing associations, and other similar corporations or associations to sell properties to which they hold title in accordance with the limitations and procedures prescribed in this section.

"(f) The provisions of this section shall apply to all labor supply centers, labor homes, labor camps, and facilities upon their transfer to the Secretary as provided in section 2 (d) of this Act.

"SPECIAL CONDITIONS AND LIMITATIONS ON LOANS

"Sec. 44. The Secretary, under this Act—

"(a) Shall make no loan—

"(1) to any corporation or cooperative association;  
"(2) unless the appropriate county committee certifies in writing that the applicant is eligible to obtain such loan and that, in the opinion of such committee, he will honestly endeavor to carry out undertakings and obligations required of him under a loan which may be made by the Secretary;  
"(3) to any person, unless the applicant represents in writing, and it is administratively determined by the Secretary, after a certification to such effect by the appropriate county committee,
that credit sufficient in amount to finance the actual needs of the applicant is not available to him at the rates (but not exceeding the rate of 5 per centum per annum) and terms prevailing in the community in or near which the applicant resides for loans of similar size and character from commercial banks, cooperative lending agencies, or from any other responsible source;

"(4) for the carrying on of any land-purchase or land-leasing program, or for the purpose of carrying on any operations in collective farming, or cooperative farming, or for the organization, promotion, or management of homestead associations, land-leasing associations, land-purchasing associations, or cooperative land-purchasing for colonies of rehabilitants and tenant purchasers, except for the liquidation as expeditiously as possible of any such projects heretofore initiated.

"(b) Shall, except as otherwise specifically provided by the Congress, make all loans at the interest rate of 5 per centum per annum evidenced by notes requiring full liability of the maker and upon such security and such other terms and conditions as the Secretary may prescribe, including such provisions for the supervision of the borrower as the Secretary shall deem necessary to protect his interests.

"(c) Shall, in the case of every loan, require in the loan and security instruments that if at any time it shall appear to the Secretary that the borrower may be able to obtain a loan from a production credit association, Federal land bank, or other responsible cooperative or private credit source at rates (but not exceeding the rate of 5 per centum per annum) and terms for loans for similar periods of time and purposes prevailing in the area in which the loan is to be made, the borrower shall, upon request of the Secretary, apply for and accept such loan in sufficient amount to repay the Secretary and to pay for any stock necessary to be purchased in the cooperative lending agency in connection with the loan.

"TRANSFER OF LANDS TO SECRETARY

"SEC. 45. The President may at any time in his discretion transfer to the Secretary any right, interest or title held by the United States in any lands acquired in the program of national defense and no longer needed therefor, which the President shall find suitable for the purposes of this Act, and the Secretary shall dispose of such lands in the manner and subject to the terms and conditions of this Act.

"TRANSACTIONS WITH CORPORATIONS

"SEC. 46. Nothing in this Act shall authorize the making of any loan or the sale or other disposition of real property or any interest therein, other than interests in coal, oil, gas, or other minerals, to any private corporation, except in furtherance of liquidation pursuant to section 43, or the leasing of mineral interests to corporations or individuals from time to time in accordance with policies established by the Secretary of Agriculture.

"VARIABLE PAYMENTS"

"Sec. 48. The Secretary shall require annual payments in installments sufficient to pay any obligations or indebtedness to him under this Act within the term of such obligation or indebtedness. The Secretary shall provide a method whereby a borrower may pay any obligation or indebtedness by a system of variable payments under which a surplus above the required installment for any year may be paid in periods of above-normal income and employed to reduce payments below the required annual payment in subsequent periods of subnormal income. Any advance payments to the Secretary shall not affect the obligation to pay the required annual installment during periods of normal or above-normal income.

"SET-OFF"

"Sec. 49. No set-off shall be made against any payment to be made by the Secretary to any person under the provisions of this Act, by reason of any indebtedness of such person to the United States, and no debt due to the Secretary under the provisions of this Act shall be set off against any payments owing by the United States, unless the Secretary shall find that such set-off will not adversely affect the objectives of this Act.

"TAXATION"

"Sec. 50. (a) All property which is being utilized to carry out the purposes of title I of this Act (other than property used solely for administrative purposes) shall, notwithstanding that legal title to such property remains in the Secretary, be subject to taxation by the State, Territory, district, dependency, and political subdivision concerned, in the same manner and to the same extent as other similar property is taxed."

"(b) All property to which subsection (a) of this section is inapplicable which is held by the Secretary pursuant to this Act shall be exempt from all taxation now or hereafter imposed by the United States or any State, Territory, district, dependency, or political subdivision, but the Secretary shall make payments in respect of any such property in lieu of taxes.

"BID AT FORECLOSURE"

"Sec. 51. The Secretary is authorized and empowered to bid for and purchase at any foreclosure or other sale, or otherwise to acquire property pledged or mortgaged or conveyed to secure any loan or other indebtedness owing to or acquired by the Secretary under this Act; to accept title to any property so purchased or acquired; to operate for a period not in excess of one year from the date of acquisition, or lease such property for such period as may be deemed necessary to protect the investment therein; and to sell or otherwise dispose of such property in a manner consistent with the provisions of section 43 of this Act.

"Sec. 52. (a) Whoever makes any material representation, knowing it to be false, for the purpose of influencing in any way the action of the Secretary upon any application, discount, purchase, or repurchase agreement, contract of sale, lease or loan, or any change or extension of any of the same by renewal, compromise, adjustment, deferment of action or otherwise, or the acceptance, release or substitution of security therefor, shall, upon conviction thereof, be punished by a
fine of not more than $2,000 or by imprisonment for not more than two years, or both.

"(b) Whoever, being employed in any capacity by the Secretary, (1) embezzles, abstracts, purloins or willfully misapplies any moneys, funds, securities or other things of value, whether belonging to the Secretary or pledged or otherwise entrusted to him; or (2) with intent to defraud the Secretary, or any body politic or other corporation, or any individual, or to deceive any officer, auditor or examiner of the Secretary, makes any false entry in any book, report or statement of, or to, the Secretary, or draws any order, or issues, puts forth or assigns any note or other obligation or draft, mortgage, judgment or decree thereof; or (3) with intent to defraud the Secretary, participates or shares in or receives directly or indirectly any money, profit, property or benefits through any transaction, loan, commission, contract or any other act of the Secretary shall, upon conviction thereof, be punished by a fine of not more than $5,000 or by imprisonment for not more than five years, or both.

"(c) Whoever willfully shall conceal, remove, dispose of, or convert to his own use or that of another, any property mortgaged or pledged to, or held by, the Secretary as security for any obligation, shall, upon conviction thereof, be punished by a fine of not more than $2,000 or by imprisonment for not more than two years, or both.

"(d) Whoever conspires with another to accomplish any of the acts made unlawful by the preceding provisions of this section shall, upon conviction thereof, be subject to the same fine or imprisonment, or both, as is applicable in the case of conviction for doing such unlawful act.

"FEES AND COMMISSIONS PROHIBITED

"Sec. 53. No officer, attorney, or other employee of the Secretary shall, directly or indirectly, be the beneficiary of or receive any fee, commission, gift, or other consideration for or in connection with any transaction or business under this Act other than such salary, fee, or other compensation as he may receive as such officer, attorney, or employee. No member of a county committee established under section 42 shall knowingly make or join in making any certification prohibited by section 2 (c). "DEBT ADJUSTMENT"

"SEC. 22. The Secretary may assist in the voluntary adjustment of indebtedness between farm debtors and their creditors and may cooperate with State, Territorial, and local agencies and committees engaged in such debt adjustment. AMENDMENT TO TITLE I OF THE BANKHEAD-JONES FARM TENANT ACT

"SEC. 5. Title I of the Bankhead-Jones Farm Tenant Act, as amended, is hereby amended to read as follows:

"TITLE I—TENANT PURCHASE LOANS AND MORTGAGE INSURANCE"

"POWER OF SECRETARY"

"Section 1. (a) The Secretary of Agriculture (hereinafter referred to as the 'Secretary') is authorized to make loans and to insure mortgages in the United States and in the Territories of Alaska and Hawaii and in Puerto Rico to persons eligible to receive the benefits of this title to enable such persons to acquire, repair or improve family-size farms, or to refinance indebtedness against undersized or underimproved units when loans are being made or insured by the Secretary to enlarge or improve such units. Loans may also be made to assist
borrowers under this title in making the improvements needed to
adjust their farming operations to changing conditions.

(b) (1) Except with respect to veterans qualified under subsection
(b) (2) of this section, only farm tenants, farm laborers, sharecrop-
pers, and other individuals (including owners of inadequate or under-
improved farm units) who obtain, or who recently obtained, the major
portion of their income from farming operations, shall be eligible
to receive the benefits of this title. In making available the benefits
of this title, the Secretary shall give preference to persons who are
married, or who have dependent families, and, wherever practicable,
to persons who are able to make an initial down payment, or who are
owners of livestock and farm implements necessary successfully to
carry on farming operations. No person shall be eligible who is not
a citizen of the United States.

(2) Any veteran (defined herein as a person who served in the
land or naval forces of the United States during any war between
the United States and any other nation, and who shall have been
discharged or released therefrom under conditions other than dis-
honorable) who intends to engage in farming as a principal occu-
aption, and who meets the requirements of rules and regulations pre-
scribed by the Secretary as to industry, experience, character, and
other assurances of success as farmers, shall be eligible for the benefits
of this title and their applications shall be entitled to preference over
those of non-veterans.

(c) No loan shall be made, or mortgage insured, for the acquisition,
improvement, or enlargement of any farm unless it is of such size and
type as the Secretary determines to be sufficient to constitute an
efficient family-type farm-management unit and to enable a diligent
farm family to carry on successful farming of a type which the Secre-
tary deems can be carried on successfully in the locality in which the
farm is situated: Provided, That loans may be made to veterans, or
mortgages insured for veterans, as defined in section 1 (b) (2) hereof,
who have pensionable disabilities, to enable such veterans to acquire,
enlarge, repair, or improve farm units of sufficient size to meet the
farming capabilities of such veterans and afford them income which,
together with their pensions, will enable them to meet living and
operating expenses and the amounts due on their loans.

"FUNCTIONS OF COUNTY COMMITTEES"

"Sec. 2. (a) The county committees established under section 42
shall—

(1) examine applications (filed with the chairman of the county
committee, or with such other person as the Secretary may designate)
of persons desiring to obtain the assistance of the Secretary in financ-
ing the acquisition of farms or farming operations in the county as
provided in this Act; and

(2) examine and appraise farms in the county with respect to
which applications are made.

(b) If the committee finds that an applicant is eligible to receive
the benefits of this Act, that, in the opinion of the committee, by rea-
son of his character, ability, industry, and experience, he will success-
fully carry out undertakings required of him under a loan which may
be made or insured under this Act, that credit sufficient in amount to
finance the actual needs of the applicant, specified in the application,
is not available to him at the rates (but not exceeding the rate of 5
per centum per annum) and terms prevailing in the community in or
near which the applicant resides for loans of similar size and character
from commercial banks, cooperative lending agencies, or from any
other responsible source; and that the farm with respect to which the application is made is of such character that there is a reasonable likelihood that the making or insuring of the loan with respect thereto will carry out the purposes of this title, it shall so certify to the Secretary. The committee shall also certify to the Secretary the amount which the committee finds is the fair and reasonable value of the farm based upon its normal earning capacity. The farm shall be appraised by competent employees of the Secretary thoroughly trained in appraisal techniques and the appraisal shall be made available to the county committee and the Secretary for their guidance in determining the value of the farm as specified above.

"(c) No member of the committee shall participate in any certification under his section with respect to any application or farm in which such member, or any person related to such member within the third degree of consanguinity or affinity has any pecuniary interest, direct or indirect, or in which any of them had such interest within one year prior to the date of certification.

"(d) No loan shall be made for any purpose under this Act and no mortgage shall be insured under this Act, unless certification by the committee, as required under this section, has been made with respect to the applicant applying for the loan and with respect to the farm which is to be taken as security either for an insured or an uninsured mortgage.

"TERMS OF LOANS

"SEC. 3. (a) Loans made under this title shall be in such amount (not in excess of the amount certified by the county committee to be the value of the farm) as may be necessary to enable the borrower to acquire the farm and for necessary repairs and improvements thereon, and shall be secured by a first mortgage or deed of trust on the farm. Loans may not be made for the acquisition or enlargement of farms which have a value, as acquired, enlarged, or improved, in excess of the average value of efficient family-type farm-management units, as determined by the Secretary, in the county, parish, or locality where the farm is located.

"(b) The instruments under which the loan is made and security given therefor shall—

"(1) provide for the repayment of the loan within an agreed period of not more than forty years from the making of the loan;

"(2) provide for the payment of interest on the unpaid balance of the loan at the rate of $1/2 per centum per annum;

"(3) provide for the repayment of the unpaid balance of the loan, together with interest thereon, in installments in accordance with amortization schedules prescribed by the Secretary;

"(4) be in such form and contain such covenants as the Secretary shall prescribe to secure the payment of the unpaid balance of the loan, together with interest thereon, to protect the security, and to assure that the farm will be maintained in repair, and waste and exhaustion of the farm prevented, and that such proper farming conservation practices as the Secretary shall prescribe will be carried out;

"(5) provide that the borrower shall pay taxes and assessments on the farm to the proper taxing authorities, and insure and pay for insurance on farm buildings:

"(6) provide that upon the borrower's assigning, selling, or otherwise transferring the farm, or any interest therein, without the consent of the Secretary, or upon default in the performance of, or upon any failure to comply with, any covenant or condition contained in such instruments, or upon involuntary transfer or sale, the Secretary
may declare the amount unpaid immediately due and payable, and
that, without the consent of the Secretary, no final payment shall be
accepted, or release of the Secretary's interest be made, less than five
years after the making of the loan; and
"(7) contain the provisions for refinancing specified in section
44 (6).
"(c) Except as provided in paragraph (6) of subsection (b), no
instrument provided for in this section shall prohibit the prepayment
of any sum due under it.
"(d) No provision of section 75, as amended, of the Act entitled
'An Act to establish a uniform system of bankruptcy throughout the
203), otherwise applicable in respect to any indebtedness incurred
under this title by any beneficiary thereof, shall be applicable in respect
of such indebtedness until such beneficiary has repaid at least 15 per
centum thereof.

"EQUITABLE DISTRIBUTION OF LOANS AND MORTGAGE INSURANCE

"Sec. 4. In making loans and insuring mortgages under this title,
the amount which is devoted to such purposes during any fiscal year
shall be distributed equitably among the several States and Territories
on the basis of farm population and the prevalence of tenancy, as
determined by the Secretary: Provided, That there may be distributed
to each State such amounts as are necessary to insure mortgages or
finance loans pursuant to all bona fide applications from veterans
qualified under section 1 hereof: Provided further, That there may be
disbursed in any fiscal year to each State or Territory such amount
not in excess of $100,000 as is determined by the Secretary to be neces-
sary to finance loans in such State or Territory under this title.

"APPROPRIATION

"Sec. 5. To carry out the provisions of this title with respect to
tenant-purchase loans, there is authorized to be appropriated not to
exceed $50,000,000 for each fiscal year beginning with the fiscal year
ending June 30, 1947, and such further sums as may be necessary in
carrying out the provisions of this title during such fiscal year, with
respect to tenant purchase loans and insured mortgages.

"FARM TENANT MORTGAGE INSURANCE FUND

"Sec. 11. (a) There is hereby created a fund, to be known as the
'farm tenant-mortgage insurance fund' (hereinafter in this title
termed as the 'fund'), which shall be used by the Secretary as a
revolving fund for carrying out the provisions of this title with respect
to mortgages insured under section 12 and to mortgages accepted for
the account of the fund under section 13. There is authorized to be
appropriated to the Secretary the sum of $25,000,000 to constitute
such fund.
"(b) Moneys in the fund not needed for current operations shall
be deposited with the Treasurer of the United States to the credit of
the fund or invested in direct obligations of the United States or obli-
gations guaranteed as to principal and interest by the United States.
The Secretary may purchase, with money in the fund, any notes issued
by the Secretary to the Secretary of the Treasury to obtain money for
the fund.
"(c) All amounts deposited in or credited to the fund and the pro-
ceeds of investments of amounts in the fund shall be used only for pur-
poses to which the fund is specifically authorized to be devoted under
this title and shall not be diverted to any other use.
"(d) The Secretary shall include in his annual report a complete statement with respect to the status of the fund.

INSURANCE OF MORTGAGES

"Sec. 12. (a) The Secretary is authorized, upon application of a prospective mortgagor or mortgagee under a first mortgage eligible for insurance under this title, to insure such mortgage and to make commitments for the insurance of any such mortgage prior to the date of its execution.

(b) The aggregate amount of principal obligations on all mortgages insured under this title, on all mortgages with respect to which commitments to insure have been made, and on all mortgages accepted for the account of the fund and not disposed of under section 14 shall not exceed $100,000,000 in any one fiscal year. With respect to any fiscal year, the amount available for insurance, commitment and acceptance of mortgages under this title shall be distributed among the several States and Territories on the basis provided in section 4 and preferences shall be given to mortgages executed by veterans qualified under section 1.

(c) In order for a mortgage to be eligible under this title:

(1) the person obligated to pay thereunder shall be a person who would be eligible under section 1 for a loan under title I;

(2) the farm mortgaged shall be one with respect to which, under section 1 (e), a loan could be made under title I;

(3) there shall be an appropriate certification by the county committee as required by section 2 of this Act;

(4) the mortgage instruments shall comply with section 3 (b), except that the base rate of interest shall be 2½ per centum per annum;

(5) the principal obligation (and fees and other charges chargeable under subsection (d) of this section) shall not exceed 90 per centum of the reasonable value of the farm and necessary repairs and improvements thereon, as such values are certified by the county committee pursuant to section 2 (b);

(6) the mortgage instruments shall contain a covenant to pay to the Secretary the initial and annual charges provided for in subsections (d) and (e) of this section, and a covenant to pay to the Secretary, as collection agent for the mortgagee, the amounts payable by the mortgagor to the mortgagee under the mortgage; and

(7) the mortgage instruments shall contain a stipulation (not binding upon the Secretary) that the holder of the mortgage will accept the benefits provided by section 13 in lieu of any right of foreclosure which he may have against the property and any right to a deficiency judgment against the mortgagor on account of the mortgage.

(d) The Secretary shall require the payment by the mortgagor or mortgagee of such initial fees for inspection, appraisal, and other charges as it finds necessary and such amounts may be included in the principal obligation of the mortgage, and the payment of such delinquency charges and default reserves as it finds necessary. The proceeds of such fees shall be deposited in the Treasury for use for administrative expense as provided in subparagraph (e) (2) hereof.

(e) (1) The Secretary shall collect from the mortgagor, upon insurance of the mortgage, an initial charge of 1 per centum of the principal obligation of the mortgage and annually thereafter when payment of an installment of principal and interest is due, a charge of 1 per centum of the principal obligation remaining unpaid after
such installment is paid, without taking into account delinquent payments or prepayments. If the principal obligation of the mortgage is paid in full in less than five years after the time when the mortgage was entered into, the Secretary may require payment by the mortgagor of a charge equal to the amount of the last annual charge required of the mortgagor.

"(2) One-half of the amount paid as charges in pursuance of this subsection shall be the premium for insurance and shall be deposited in the fund and may be used only for purposes to which the fund may be devoted. The other half of the amounts so paid shall be deposited in the Treasury to the credit of the Secretary and shall be available only for administrative expenses to carry out the provisions of this title, relating to mortgage insurance.

"(f) (1) The Secretary shall promptly remit to the mortgagee under any mortgage insured under this title any sums collected by it as agent for the mortgagor. The Secretary shall promptly advise any such mortgagees of any default by the mortgagor.

"(2) If within thirty days after the due date of any installment the mortgagor under an insured mortgage has failed to pay to the Secretary the amount due, the Secretary shall notwithstanding the amount paid is less than the interest and principal due, pay the amount of such principal and interest to the mortgagee, less the amount of any previous prepayments.

"(g) Any contract of insurance executed by the Secretary under this section shall be conclusive evidence of the eligibility of the mortgagor for insurance, and the validity of any contract of insurance so executed shall be incontestable in the hands of any holder thereof from the date of the execution of such contract, except for fraud or misrepresentation of which such holder has actual knowledge.

"(h) The Secretary may, at any time, for good cause shown and under such terms and conditions as he may prescribe, consent to the release of the mortgagor from his liability under the mortgage or the credit instruments secured thereby, or consent to the release of parts of the mortgaged property from the lien of the mortgage.

"(1) The holder of any mortgage insured under this title may, upon notice to the Secretary, assign such mortgage together with the accompanying note and contract of insurance and the assignee thereof shall thereupon become entitled to all the benefits of such contract of insurance: Provided, That no such assignment shall be binding upon the Secretary until notice thereof has been given the Secretary and the Secretary has acknowledged receipt of such notice.

"PAYMENT OF INSURANCE

"Sec. 13. (a) In any case in which the mortgagor under a mortgage insured under section 12 is in default for more than twelve months, the mortgagees shall be entitled to receive the benefit of the insurance as hereinafter provided, upon assignment to the Secretary of (1) all the mortgagee's rights and interests arising under the mortgage so in default; (2) all claims of the mortgagee against the mortgagor or others, arising out of the mortgage transaction; (3) all policies of title or other insurance and all surety bonds and other guaranties and any and all claims thereunder relating to the mortgage or the mortgaged
property; (4) any balance of the mortgage loan not advanced to the
mortgagor; and (5) any cash or property held by the mortgagee, or
to which he is entitled, as deposit made for the account of the mort-
gagor and which has not been applied in reduction of the principal
of the mortgage indebtedness; and upon transfer to the Secretary of
such originals or copies of records, documents, books, papers and
accounts relating to the mortgage transaction, as the Secretary pre-
scribes. Upon such assignment and transfer, the Secretary shall pay
to the mortgagee, in cash, an amount equal to the value of the mortgage
and the note and mortgage shall thereupon become a part of the fund.
For the purposes of this subsection, the value of the mortgage shall
be determined, in accordance with rules and regulations prescribed by
the Secretary, by adding to the amount of the original principal
obligation of the mortgage which was unpaid on the date of default,
the amount of all unpaid interest and the amount of all payments
which have been made by the mortgagee for taxes, special assessments,
water rates, and other payments in discharge of liens which are prior
to the mortgage, and insurance on the property mortgaged, and by
deducting from such total amount any amount received on account of
the mortgage indebtedness after such default.

(b) If there should not be sufficient cash in the fund to enable the
Secretary to make payments to mortgagees as provided in subsection
(a) of this section, the Secretary may make and issue notes to the
Secretary of the Treasury to obtain funds to make such payments.
Such notes shall be signed by the Secretary or by his duly authorized
representatives and shall be negotiable. Such notes shall bear inter-
rest, payable semiannually, at a rate equal to the average rate of inter-
est, computed to the end of the calendar month next preceding the date
of issue, borne by all interest bearing obligations of the United States
then forming a part of the public debt, and shall have such maturities
as the Secretary may determine with the approval of the Secretary
of the Treasury.

(c) The Secretary of the Treasury is authorized to purchase any
notes issued by the Secretary pursuant to this section and any renewals
thereof and for such purchases may use as a public debt transaction

Liberty Bond Act, as amended, and the purposes for which such secu-
rities may be issued under such Act, as amended, are hereby extended
to include any such purchases. All recommendations, purchases, and sales
by the Secretary of the Treasury of such notes shall be treated as public
debt transactions of the United States.

(d) In any case in which the mortgagor violates any covenant or
condition of his mortgage, the Secretary may require the mortgagee to
assign such mortgage, together with the incidents thereto, upon payment
of the value of the mortgage determined in accordance with this
section.

gage, the Secretary shall ascertain whether or not the mortgagor

property. If the mortgagor does not desire to remain in possession
of the mortgaged property or if the Secretary is unable to make the
findings prescribed by the next sentence, the Secretary may proceed
to foreclose the mortgage. If the mortgagor desires to remain in
possession of the mortgaged property and if the Secretary finds that
the mortgagor (1) has made reasonable efforts to meet all defaulted

his mortgage and (2) will probably be able to meet such defaulted payments within five years after the maturity date or dates of the defaulted payments, the Secretary may enter into an agreement with the mortgagor providing for the payment of such defaulted payments together with interest thereon, at such times not later than five years after the maturity date or dates as the Secretary may deem to be within the probable future means of the mortgagor. Should any mortgagor with whom the Secretary has entered into such agreement thereafter fail to meet any payments, the Secretary may proceed to foreclose the mortgage.

“(b) Amounts realized under section 51 on account of property which was subject to an insured mortgage shall be deposited in the fund. Amounts payable by the Secretary under section 50 (a) as taxes, with respect to such property, shall be paid out of the fund.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of March 10, 1934 (48 Stat. 401), is hereby amended to read as follows:

"In order to promote effectual planning, development, maintenance, and coordination of wildlife conservation and rehabilitation in the United States, its Territories and possessions, the Secretary of the Interior, through the Fish and Wildlife Service, is authorized (a) to provide assistance to, and cooperate with, Federal, State, and public or private agencies and organizations in the development, protection, rearing, and stocking of all species of wildlife, resources thereof, and their habitat, in controlling losses of the same from disease or other causes, in minimizing damages from overabundant species, in providing public shooting areas, and in carrying out other measures necessary to effectuate the purposes of this Act; and (b) to make surveys and investigations of the wildlife of the public domain, including lands and waters or interests therein acquired or controlled by any agency of the United States.

"Sec. 2. Whenever the waters of any stream or other body of water are authorized to be impounded, diverted, or otherwise controlled for any purpose whatever by any department or agency of the United States, or by any public or private agency under Federal permit, such department or agency first shall consult with the Fish and Wildlife Service and the head of the agency exercising administration over the wildlife resources of the State wherein the impoundment, diversion, or other control facility is to be constructed with a view to preventing loss of and damage to wildlife resources, and the reports and recommendations of the Secretary of the Interior and of the head of the agency exercising administration over the wildlife resources of the State, based on surveys and investigations conducted by the Fish and Wildlife Service and by the said head of the agency exercising administration over the wildlife resources of the State, for the purpose of determining the possible damage to wildlife resources and of the means and measures that should be adopted to prevent loss of and damage to wildlife resources, shall be made an integral part of any report submitted by any agency of the Federal Government responsible for engineering surveys and construction of such projects.
"The cost of planning for and the construction or installation and maintenance of any such means and measures shall be included in and shall constitute an integral part of the costs of such projects: Provided, That, in the case of projects hereafter authorized to be constructed, operated, and maintained in accordance with the Federal reclamation laws (Act of June 17, 1902, 32 Stat. 388, and Acts amendatory thereof or supplementary thereto), the Secretary of the Interior shall, in addition to allocations to be made under section 9 of the Reclamation Project Act of 1939 (53 Stat. 1187), make findings on the part of the estimated cost of the project which can properly be allocated to the preservation and propagation of fish and wildlife, and costs allocated pursuant to such findings shall not be reimbursable. In the case of construction by a Federal agency, that agency is authorized to transfer, out of appropriations or other funds made available for surveying, engineering, or construction to the Fish and Wildlife Service, such funds as may be necessary to conduct the investigations required by this section to be made by it.

"Sec. 3. Whenever the waters of any stream or other body of water are impounded, diverted, or otherwise controlled for any purpose whatever by any department or agency of the United States, adequate provision consistent with the primary purposes of such impoundment, diversion, or other control shall be made for the use thereof, together with any areas of land, or interest therein, acquired or administered in connection therewith, for the conservation, maintenance, and management of wildlife, resources thereof, and its habitat thereon. In accordance with general plans, covering the use of such waters and other interests for these purposes, approved jointly by the head of the department or agency exercising primary administration thereof, the Secretary of the Interior, and the head of the agency exercising administration over the wildlife resources of the State wherein the waters and areas lie, such waters and other interests shall be made available without cost for administration (a) by such State agency, if the management thereof for the conservation of wildlife relates to other than migratory birds; (b) by the Secretary of the Interior, if the waters and other interests have particular value in carrying out the national migratory bird management program.

"Sec. 4. Such areas as are made available to the Secretary of the Interior for the purposes of this Act under sections 1 and 3, or by any other law, proclamation, or Executive order, shall be administered directly or under cooperative agreements entered into pursuant to the provisions of section 1 by the Secretary of the Interior under such rules and regulations for the conservation, maintenance, and management of wildlife, resources thereof, and its habitat thereon, as may be adopted by him in accordance with general plans approved jointly by the Secretary of the Interior and the head of the department or agency exercising primary administration of such areas: Provided, That such rules and regulations shall not be inconsistent with the laws for the protection of fish and game of the States in which such area is situated.

"Sec. 5. The Secretary of the Interior, through the Fish and Wildlife Service and the Bureau of Mines, is authorized to make such investigations as he deems necessary to determine the effects of domestic sewage, mine, petroleum, and industrial wastes, erosion silt, and other polluting substances on wildlife, and to make reports to the Congress concerning such investigations and of recommendations for alleviating dangerous and undesirable effects of such pollution. These investigations shall include (1) the determination of standards of water quality for the maintenance of wildlife; (2) the..."

AN ACT

To provide for further research into basic laws and principles relating to agriculture and to improve and facilitate the marketing and distribution of agricultural products.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I

Title I of the Act entitled “An Act to provide for research into basic laws and principles relating to agriculture and to provide for the further development of cooperative agricultural extension work and the more complete endowment and support of land-grant colleges”, approved June 29, 1935 (the Bankhead-Jones Act), is amended as follows:

(1) By substituting for section 1, title I, the following section:

"Section 1. It is hereby declared to be the policy of the Congress to promote the efficient production and utilization of products of the soil as essential to the health and welfare of our people and to promote a sound and prosperous agriculture and rural life as indispensable to the maintenance of maximum employment and national prosperity. It is also the intent of Congress to assure agriculture a position in research equal to that of industry which will aid in maintaining an equitable balance between agriculture and other sections of our economy. For the attainment of these objectives, the Secretary of Agriculture is authorized and directed to conduct and to stimulate research into the laws and principles underlying the basic problems of agriculture in its broadest aspects, including but not limited to: Research relating to the improvement of the quality of, and the development of new and improved methods of the production, marketing,
distribution, processing, and utilization of plant and animal commodities at all stages from the original producer through to the ultimate consumer; research into the problems of human nutrition and the nutritive value of agricultural commodities, with particular reference to their content of vitamins, minerals, amino and fatty acids, and all other constituents that may be found necessary for the health of the consumer and to the gains or losses in nutritive value that may take place at any stage in their production, distribution, processing, and preparation for use by the consumer; research relating to the development of present, new, and extended uses and markets for agricultural commodities and by-products as food or in commerce, manufacture, or trade, both at home and abroad, with particular reference to those foods and fibers for which our capacity to produce exceeds or may exceed existing economic demand; research to encourage the discovery, introduction, and breeding of new and useful agricultural crops, plants, and animals, both foreign and native, particularly for those crops and plants which may be adapted to utilization in chemical and manufacturing industries; research relating to new and more profitable uses for our resources of agricultural manpower, soils, plants, animals, and equipment than those to which they are now, or may hereafter be, devoted; research relating to the conservation, development, and use of land, forest, and water resources for agricultural purposes; research relating to the design, development, and the more efficient and satisfactory use of farm buildings, farm homes, farm machinery, including the application of electricity and other forms of power; research relating to the diversification of farm enterprises, both as to the type of commodities produced, and as to the types of operations performed, on the individual farm; research relating to any other laws and principles that may contribute to the establishment and maintenance of a permanent and effective agricultural industry including such investigations as have for their purpose the development and improvement of the rural home and rural life, and the maximum contribution by agriculture to the welfare of the consumer and the maintenance of maximum employment and national prosperity; and such other researches or experiments bearing on the agricultural industry or on rural homes of the United States as may in each case be deemed advisable, having due regard to the varying conditions and needs of Puerto Rico, the respective States, and Territories. In effectuating the purposes of this section, maximum use shall be made of existing research facilities owned or controlled by the Federal Government or by State agricultural experiment stations and of the facilities of the Federal and State extension services. Research authorized under this section shall be in addition to research provided for under existing law (but both activities shall be coordinated so far as practicable).\(^3\)

(2) By adding at the end thereof the following new sections:

"Sec. 9. (a) In order to carry out further the purposes of section 2 of this title, there is hereby authorized to be appropriated in addition to all other appropriations authorized by this title the following sums:

\(\text{(1)}\) $2,500,000,000 for the fiscal year ending June 30, 1947, and each subsequent fiscal year.

\(\text{(2)}\) An additional $2,500,000 for the fiscal year ending June 30, 1948, and each subsequent fiscal year.

\(\text{(3)}\) An additional $5,000,000 for the fiscal year ending June 30, 1949, and each subsequent fiscal year.

\(\text{(4)}\) An additional $5,000,000 for the fiscal year ending June 30, 1950, and each subsequent fiscal year.

\(\text{(5)}\) An additional $5,000,000 for the fiscal year ending June 30, 1951, and each subsequent fiscal year.
In addition to the foregoing such additional funds beginning with the fiscal year ending June 30, 1952, and thereafter, as the Congress may deem necessary.

The moneys appropriated in pursuance of this title shall also be available for the purchase and rental of land and the construction or acquisition of buildings necessary for conducting research provided for in this title, for the equipment and maintenance of such buildings and for printing and disseminating the results of research. Sums appropriated in pursuance of this title shall be in addition to, and not in substitution for, sums appropriated or otherwise made available for agricultural experiment stations. The said agricultural experiment stations are authorized to plan and conduct any research provided for under this title in cooperation with each other and such other appropriate agencies and individuals as may contribute to the solution of these problems and sums appropriated in pursuance of this title shall be available to meet the necessary expenses of such research.

Unexpended balances of allotments to experiment stations from appropriations made under this section during the first five fiscal years may remain available for expenditure by the same experiment stations at which the unexpended balances occurred for the purposes specified in section 1 and for the following periods: Unexpended balances of the first year's allotments, five years; of the second fiscal year's allotments, four years; of the third fiscal year's allotments, three years; of the fourth fiscal year's allotments, two years; and of the fifth fiscal year's allotments, one year; and any unexpended balances of allotments to any experiment stations from appropriations made under this section of any subsequent fiscal year shall be deducted from the next succeeding annual allotments to such experiment stations.

Not less than 97 per centum of the sums appropriated for any fiscal year under this section shall be available for the purposes of section 2 to be allotted to Puerto Rico, each State and Territory as follows:

(1) Twenty per centum of the sums appropriated for any fiscal year under this section shall be allotted equally to Puerto Rico, each State and Territory: Provided, That no allotment and no payment under any allotment shall be made for any fiscal year in excess of the amount which Puerto Rico or the State or Territory makes available for such fiscal year out of its own funds, for research and for the establishment and maintenance of necessary facilities for the prosecution of such research. If Puerto Rico or any State or Territory fails to make available for such purposes for any fiscal year a sum equal to the amount to which it may be entitled for such year, the remainder of such amount shall be withheld by the Secretary.

(2) Not less than 32 per centum of the sums appropriated for any fiscal year under this section shall be allotted to Puerto Rico, each State and Territory as follows: One-half in an amount which bears the same ratio to the total amount to be allotted as the rural population of Puerto Rico or the State or Territory bears to the total rural population of Puerto Rico and all the States and Territories as determined by the last preceding decennial census; and one-half in an amount which bears the same ratio to the total amount to be allotted as the farm population of Puerto Rico or the State or Territory bears to the total farm population of Puerto Rico and all the States and Territories as determined by the last preceding decennial census: Provided, That no allotment and no payment under any allotment shall be made for any fiscal year in excess of the amount which Puerto Rico, or the
State or Territory makes available for such fiscal year out of its own funds for research and for the establishment and maintenance of necessary facilities for the prosecution of such research. If Puerto Rico or any State or Territory fails to make available for such purposes for any fiscal year a sum equal to the amount to which it may be entitled for such year, the remainder of such amount shall be withheld by the Secretary.

"(3) Not more than 25 per centum of the sums appropriated for any fiscal year under this section shall be allotted to the States for cooperative research in which two or more State agricultural experiment stations are cooperating to solve problems that concern the agriculture of more than one State. The funds available for such purposes shall be designated as the 'Regional research fund, Office of Experiment Stations' and shall be used only for cooperative regional projects recommended by a committee of nine persons elected by and representing the directors of the State agricultural experiment stations and approved by the Secretary of Agriculture or his authorized representative. The necessary travel expense of said committee of nine in performance of their duties may be paid from the regional research fund, Office of Experiment Stations, provided for under this subsection.

"(c) Three per centum of the sums appropriated for any fiscal year under this section shall be available to the Office of Experiment Stations of the United States Department of Agriculture for administration of research under this section, including participation in planning and coordinating the cooperative regional research.

"Sec. 10. (a) In order to carry out further research on utilization and associated problems in connection with the development and application of present, new, and extended uses of agricultural commodities and products thereof authorized by section 1 of this title, and to disseminate information relative thereto, and in addition to all other appropriations authorized by this title, there is hereby authorized to be appropriated the following sums:

"(1) $3,000,000 for the fiscal year ending June 30, 1947, and each subsequent fiscal year.

"(2) An additional $3,000,000 for the fiscal year ending June 30, 1948, and each subsequent fiscal year.

"(5) An additional $3,000,000 for the fiscal year ending June 30, 1951, and each subsequent fiscal year.

"(6) In addition to the foregoing, such additional funds beginning with the fiscal year ending June 30, 1952, and thereafter, as the Congress may deem necessary. The Secretary of Agriculture, in accordance with such regulations as he deems necessary, and when in his judgment the work to be performed will be carried out more effectively, more rapidly, or at less cost than if performed by the Department of Agriculture, may enter into contracts with such public or private organizations or individuals as he may find qualified to carry on work under this section without regard to the provisions of section 3709, Revised Statutes, and with respect to such contracts he may make advance progress or other payments without regard to the provisions of section 3648, Revised Statutes. Contracts hereunder may be made for work to continue not more than four years from the date of any such contract. Notwithstanding the provisions of section 5 of the Act of June 20, 1874,
as amended (31 U. S. C. 713), any unexpended balances of appropriations properly obligated by contracting with an organization as provided in this subsection may remain upon the books of the Treasury for not more than five fiscal years before being carried to the surplus fund and covered into the Treasury. Research authorized under this subsection shall be conducted so far as practicable at laboratories of the Department of Agriculture. Projects conducted under contract with public and private agencies shall be supplemental to and coordinated with research of these laboratories. Any contracts made pursuant to this authority shall contain requirements making the results of research and investigations available to the public through dedication, assignment to the Government, or such other means as the Secretary shall determine.

"(b) In order to carry out further the purposes of section 1, other than research on utilization of agricultural commodities and the products thereof, and in addition to all other appropriations authorized by this title, there is hereby authorized to be appropriated for cooperative research with the State agricultural experiment stations and such other appropriate agencies as may be mutually agreeable to the Department of Agriculture and the experiment stations concerned, the following sums:

"(3) An additional $1,500,000 for the fiscal year ending June 30, 1949, and each subsequent fiscal year.

"(4) An additional $1,500,000 for the fiscal year ending June 30, 1950, and each subsequent fiscal year.

"(5) In addition to the foregoing such additional funds beginning with the fiscal year ending June 30, 1951, and thereafter, as the Congress may deem necessary.

"(c) The Secretary may incur necessary administrative expenses not to exceed 3 per centum of the amount appropriated in any fiscal year in carrying out this section, including the specific objects of expense enumerated in section 3 of this title.

"(d) The 'Special research fund, Department of Agriculture', provided by section 4 of this title, shall continue to be available solely for research into laws and principles underlying basic problems of agriculture in its broadest aspects; research relating to the improvement of the quality of, and development of, new and improved methods of production of, distribution of, and new and extended uses and markets for, agricultural commodities and byproducts and manufactures thereof; and research relating to the conservation, development, and use of land and water resources for agricultural purposes. Such research shall be in addition to research provided for under other law (but both activities shall be coordinated so far as practicable) and shall be conducted by such agencies of the Department of Agriculture as the Secretary of Agriculture may designate or establish.

"Sec. 11. Notwithstanding any other provision of this title, (1) not less than 20 per centum of the funds authorized to be appropriated under section 9 (a) shall be used by State agricultural experiment stations for conducting marketing research projects approved by the Department of Agriculture, and (2) cooperative research projects provided for under sections 9 (b) (3) and 10 (b) shall be carried out under cooperative agreements between the Secretary of Agriculture and the cooperating agencies and shall include appropriate provisions for preventing duplication or overlapping of work within the State or States
cooperating. Should duplication or overlapping occur subsequent to approval of a cooperative research project, the Secretary of Agriculture is authorized and directed to withhold unexpended balances on such projects notwithstanding the prior approval thereof. The Secretary of Agriculture shall include in his annual report to Congress a complete statement of research work being performed under contracts or cooperative agreements under this title, showing the names of the agencies cooperating and the amounts expended thereon, segregated by Federal and non-Federal funds."

**TITLE II**

This title may be cited as the “Agricultural Marketing Act of 1946”.

Sec. 202. The Congress hereby declares that a sound, efficient, and privately operated system for distributing and marketing agricultural products is essential to a prosperous agriculture and is indispensable to the maintenance of full employment and to the welfare, prosperity, and health of the Nation. It is further declared to be the policy of Congress to promote through research, study, experimentation, and through cooperation among Federal and State agencies, farm organizations, and private industry a scientific approach to the problems of marketing, transportation, and distribution of agricultural products similar to the scientific methods which have been utilized so successfully during the past eighty-four years in connection with the production of agricultural products so that such products capable of being produced in abundance may be marketed in an orderly manner and efficiently distributed. In order to attain these objectives, it is the intent of Congress to provide for (1) continuous research to improve the marketing, handling, storage, processing, transportation, and distribution of agricultural products; (2) cooperation among Federal and State agencies, producers, industry organizations, and others in the development and effectuation of research and marketing programs to improve the distribution processes; (3) an integrated administration of all laws enacted by Congress to aid the distribution of agricultural products through research, market aids and services, and regulatory activities, to the end that marketing methods and facilities may be improved, that distribution costs may be reduced and the price spread between the producer and consumer may be narrowed, that dietary and nutritional standards may be improved, that new and wider markets for American agricultural products may be developed, both in the United States and in other countries, with a view to making it possible for the full production of American farms to be disposed of usefully, economically, profitably, and in an orderly manner. In effectuating the purposes of this title, maximum use shall be made of existing research facilities owned or controlled by the Federal Government or by State agricultural experiment stations and of the facilities of the Federal and State extension services. To the maximum extent practicable marketing research work done hereunder in cooperation with the States shall be done in cooperation with the State agricultural experiment stations; marketing educational and demonstrational work done hereunder in cooperation with the States shall be done in cooperation with the State agricultural extension service; market information, inspection, regulatory work and other marketing service done hereunder in cooperation with the State agencies shall be done in cooperation with the State departments of agriculture, and State bureaus and departments of markets.

Sec. 203. The Secretary of Agriculture is directed and authorized:
(a) To conduct, assist, and foster research, investigation, and experimentation to determine the best methods of processing, preparation for market, packaging, handling, transporting, storing, distributing, and marketing agricultural products: Provided, That the results of such research shall be made available to the public for the purpose of expanding the use of American agricultural products in such manner as the Secretary of Agriculture may determine.

(b) To determine costs of marketing agricultural products in their various forms and through the various channels and to foster and assist in the development and establishment of more efficient marketing methods (including analyses of methods and proposed methods), practices, and facilities, for the purpose of bringing about more efficient and orderly marketing, and reducing the price spread between the producer and the consumer.

(c) To develop and improve standards of quality, condition, quantity, grade, and packaging, and recommend and demonstrate such standards in order to encourage uniformity and consistency in commercial practices.

(d) To conduct, assist, foster, and direct studies and informational programs designed to eliminate artificial barriers to the free movement of agricultural products.

(e) To foster and assist in the development of new or expanded markets (domestic and foreign) and new and expanded uses and in the moving of larger quantities of agricultural products through the private marketing system to consumers in the United States and abroad.

(f) To conduct and cooperate in consumer education for the more effective utilization and greater consumption of agricultural products: Provided, That no money appropriated under the authority of this Act shall be used to pay for newspaper or periodical advertising space or radio time in carrying out the purposes of this section and section 203 (e).

(g) To collect and disseminate marketing information, including adequate outlook information on a market-area basis, for the purpose of anticipating and meeting consumer requirements, aiding in the maintenance of farm income, and bringing about a balance between production and utilization of agricultural products.

(h) To inspect, certify, and identify the class, quality, quantity, and condition of agricultural products when shipped or received in interstate commerce, under such rules and regulations as the Secretary of Agriculture may prescribe, including assessment and collection of such fees as will be reasonable and as nearly as may be to cover the cost of the service rendered, to the end that agricultural products may be marketed to the best advantage, that trading may be facilitated, and that consumers may be able to obtain the quality product which they desire, except that no person shall be required to use the service authorized by this subsection. Any official certificate issued under the authority of this subsection shall be received by all officers and all courts of the United States as prima facie evidence of the truth of the statements therein contained.

(i) To determine the needs and develop or assist in the development of plans for efficient facilities and methods of operating such facilities for the proper assembly, processing, transportation, storage, distribution, and handling of agricultural products.

(j) To assist in improving transportation services and facilities and in obtaining equitable and reasonable transportation rates and services and adequate transportation facilities for agricultural products and farm supplies by making complaint or petition to the Interstate Commerce Commission, the Maritime Commission, the Civil
Aeronautics Board, or other Federal or State transportation regulatory body with respect to rates, charges, tariffs, practices, and services, or by working directly with individual carriers or groups of carriers.

(k) To collect, tabulate, and disseminate statistics on marketing agricultural products, including, but not restricted to statistics on market supplies, storage stocks, quantity, quality, and condition of such products in various positions in the marketing channel, utilization of such products, and shipments and unloads thereof.

(l) To develop and promulgate, for the use and at the request of any Federal agency or State, procurement standards and specifications for agricultural products, and submit such standards and specifications to such agency or State for use or adoption for procurement purposes.

(m) To conduct, assist, encourage, and promote research, investigation, and experimentation to determine the most efficient and practical means, methods, and processes for the handling, storing, preserving, protecting, processing, and distributing of agricultural commodities to the end that such commodities may be marketed in an orderly manner and to the best interest of the producers thereof.

(a) To conduct such other research and services and to perform such other activities as will facilitate the marketing, distribution, processing, and utilization of agricultural products through commercial channels.

Sec. 204. (a) In order to conduct research and service work in connection with the preparation for market, processing, packaging, handling, storing, transporting, distributing, and marketing of agricultural products as authorized by this title, there is hereby authorized to be appropriated the following sums:

1. $2,500,000 for the fiscal year ending June 30, 1947, and each subsequent fiscal year.
2. An additional $2,500,000 for the fiscal year ending June 30, 1948, and each subsequent fiscal year.
3. An additional $5,000,000 for the fiscal year ending June 30, 1949, and each subsequent fiscal year.
4. An additional $5,000,000 for the fiscal year ending June 30, 1950, and each subsequent fiscal year.
5. An additional $5,000,000 for the fiscal year ending June 30, 1951, and each subsequent fiscal year.
6. In addition to the foregoing, such additional funds beginning with the fiscal year ending June 30, 1952, and thereafter, as the Congress may deem necessary.

Such sums appropriated in pursuance of this title shall be in addition to, and not in substitution for, sums appropriated or otherwise made available to the Department of Agriculture.

(b) The Secretary of Agriculture is authorized to make available from such funds such sums as he may deem appropriate for allotment to State departments of agriculture, State bureaus and departments of markets, State agricultural experiment stations, and other appropriate State agencies for cooperative projects in marketing service and in marketing research to effectuate the purposes of title II of this Act: Provided, That no such allotment and no payment under any such allotment shall be made for any fiscal year to any State agency in excess of the amount which such State agency makes available out of its own funds for such research. The funds which State agencies are required to make available in order to qualify for such an allotment shall be in addition to any funds now available to such agencies for marketing services and for marketing research. The allotments authorized under this section shall be made to the agency or agencies.
best equipped and qualified to conduct the specific project to be undertaken. Such allotments shall be covered by cooperative agreements between the Secretary of Agriculture and the cooperating agency and shall include appropriate provisions for preventing duplication or overlapping of work within the State or States cooperating. SEC. 205. (a) In carrying out the provisions of title II of this Act, the Secretary of Agriculture may cooperate with other branches of the Government, State agencies, private research organizations, purchasing and consuming organizations, boards of trade, chambers of commerce, other associations of business or trade organizations, transportation and storage agencies and organizations, or other persons or corporations engaged in the production, transportation, storing, processing, marketing, and distribution of agricultural products whether operating in one or more jurisdictions. The Secretary of Agriculture shall have authority to enter into contracts and agreements under the terms of regulations promulgated by him with States and agencies of States, private firms, institutions, and individuals for the purpose of conducting research and service work, making and compiling reports and surveys, and carrying out other functions relating thereto when in his judgment the services or functions to be performed will be carried out more effectively, more rapidly, or at less cost than if performed by the Department of Agriculture. Contracts hereunder may be made for work to be performed within a period not more than four years from the date of any such contract, and advance, progress, or terminal payments may be made. The provisions of section 3648 (31 U. S. C., sec. 529) and section 3709 (41 U. S. C., sec. 5) of the Revised Statutes shall not be applicable to contracts or agreements made under the authority of this section. Any unexpended balances of appropriations obligated by contracts as authorized by this section may, notwithstanding the provisions of section 5 of the Act of June 20, 1874, as amended (31 U. S. C., sec. 713), remain upon the books of the Treasury for not more than five fiscal years before being carried to the surplus fund and covered into the Treasury. Any contract made pursuant to this section shall contain requirements making the result of such research and investigations available to the public by such means as the Secretary of Agriculture shall determine.

(b) The Secretary of Agriculture shall promulgate such orders, rules, and regulations as he deems necessary to carry out the provisions of this title. In his annual report to Congress, he shall include a complete statement of research work being performed under contracts or cooperative agreements under this title, showing the names of the agencies cooperating and the amounts expended thereon, segregated by Federal and non-Federal funds.

SEC. 206. In order to facilitate administration and to increase the effectiveness of the marketing research, service, and regulatory work of the Department of Agriculture to the fullest extent practicable, the Secretary of Agriculture is authorized, notwithstanding any other provisions of law, to transfer, group, coordinate, and consolidate the functions, powers, duties, and authorities of each and every agency, division, bureau, service, section, or other administrative unit in the Department of Agriculture primarily concerned with research, service, or regulatory activities in connection with the marketing, transportation, storage, processing, distribution of, or service or regulatory activities in connection with, the utilization of, agricultural products, into a single administrative agency. In making such changes as may
be necessary to carry out effectively the purposes of this title, the records, property, personnel, and funds of such agencies, divisions, bureaus, services, sections, or other administrative units in the Department of Agriculture affected thereby are authorized to be transferred to and used by such administrative agency to which the transfer may be made, but such unexpended balances of appropriations so transferred shall be used only for the purposes for which such appropriations were made.

Sec. 207. When used in this title, the term "agricultural products" includes agricultural, horticultural, viticultural, and dairy products, livestock and poultry, bees, forest products, fish and shellfish, and any products thereof, including processed and manufactured products, and any and all products raised or produced on farms and any processed or manufactured product thereof.

Sec. 208. The Secretary of Agriculture shall have the power to appoint, remove, and fix, in accordance with existing law, the compensation of such officers and employees, and to make such expenditures as he deems necessary, including expenditures for rent outside the District of Columbia, travel, supplies, books, equipment, and such other expenditures as may be necessary to the administration of this title: Provided, That the Secretary of Agriculture may appoint and fix the compensation of any technically qualified person, firm, or organization by contract or otherwise on a temporary basis and for a term not to exceed six months in any fiscal year to perform research, inspection, classification, technical, or other special services, without regard to the civil-service laws or the Classification Act of 1923, as amended.

TITLE III

Sec. 301. In order to aid in implementing the research and service work authorized under titles I and II of this Act, and to assist in obtaining the fullest cooperation among Federal and State agencies, producers, farm organizations, and private industry, in the development of and in effectuating such research and service programs, and in order to secure the greatest benefit from the expenditure of funds, the Secretary of Agriculture shall establish a national advisory committee. The functions of such advisory committee shall be to consult with the Secretary of Agriculture and other appropriate officials of the Department of Agriculture, to make recommendations relative to research and service work authorized by this Act, and to assist in obtaining the cooperation of producers, farm organizations, industry groups, and Federal and State agencies in the furtherance of such research and service programs. The chairman of the committee shall be the Secretary of Agriculture or such other official of the Department of Agriculture as he shall designate. The committee shall consist of eleven members, six of whom shall be representatives of producers or their organizations. The committee shall meet at least once each quarter and at such other times as are deemed necessary. Members of the committee may not appoint alternates to serve in their stead. Committee members other than the chairman shall not be deemed to be employees of the United States and are not entitled to compensation, but the Secretary of Agriculture is authorized to allow their traveling and subsistence expenses necessary in connection with their attendance at meetings called by him for the purposes of this section.

Sec. 302. In the furtherance of the research and service work authorized by this Act, the Secretary of Agriculture may, in addition to the national advisory committee, establish appropriate committees, including representatives of producers, industry, government, and science, to assist in effectuating specific research and service programs.
