"(7) A source to which an order is issued under paragraph (1), (3),
(4), or (5) of this subsection shall use the best practicable system or
systems of emission reduction (as determined by the Administrator
taking into account the requirement with which the source must ulti-
mately comply) for the period during which such order is in effect and
shall comply with such interim requirements as the Administrator
determines are reasonable and practicable. Such interim requirements
shall include—
"(A) such measures as the Administrator determines are neces-
sary to avoid an imminent and substantial endangerment to health
of persons, and
"(B) a requirement that the source comply with the require-
ments of the applicable implementation plan during any such
period insofar as such source is able to do so (as determined by the
Administrator).
"(8) Any order under paragraph (1) or (3) of this subsection shall
be terminated if the Administrator determines on the record, after
notice and hearing, that the inability of the source to comply no longer
exists. If the owner or operator of the source to which the order is
issued demonstrates that prompt termination of such order would
result in undue hardship, the termination shall become effective at the
earliest practicable date on which such undue hardship would not
result, but in no event later than the date required under this
subsection.
"(9) If the Administrator determines that a source to which an
order is issued under this subsection is in violation of any requirement
of this subsection, he shall—
"(A) enforce such requirement under subsections (a), (b), or
(c) of this section,
"(B) (after notice and opportunity for public hearing) revoke
such order and enforce compliance with the requirement with
respect to which such order was granted,
"(C) give notice of noncompliance and commence action under
section 120, or
"(D) take any appropriate combination of such actions.
"(10) During the period of the order issued under this subsection
and where the owner or operator is in compliance with the terms of
such order, no other enforcement action pursuant to this section or
section 304 of this Act shall be pursued against such owner or operator
based upon noncompliance during the period the order is in effect with
the requirement for the source covered by such order.
"(11) For the purposes of sections 110, 304, and 307 of this Act, any
order issued by the State (and approved by the Administrator) pur-
suant to this subsection shall become part of the applicable implementa-
section 119 or (B) the administrative orders on consent issued by the
Administrator on November 5, 1975 and February 26, 1976 and requiring compliance with sulfur dioxide emission limitations or standards at least as stringent as those promulgated under section 111. Any such enforcement order issued under subsection (a) of this section or consent decree which provides for an extension beyond July 1, 1979, except such administrative orders on consent, is void unless modified under this subsection within one year after the enactment of the Clean Air Act Amendments of 1977 to comply with the requirements of this subsection.

(b) (1) Section 119 of such Act is hereby repealed. All references to such section 119 or subsections thereof in section 2 of the Energy Supply and Environmental Coordination Act of 1974 (Public Law 93–319) or any amendment thereto, or any subsequent enactment which supersedes such Act, shall be construed to refer to section 113(d) of the Clean Air Act and to paragraph (5) thereof in particular. Any certification or notification required to be given by the Administrator of the Environmental Protection Agency under section 2 of the Energy Supply and Environmental Coordination Act of 1974 or any amendment thereto, or any subsequent enactment which supersedes such Act, shall be given only when the Governor of the State in which is located the source to which the proposed order under section 113(d) (5) of the Clean Air Act is to be issued gives his prior written concurrence.

(2) In the case of any major stationary source to which any requirement is applicable under section 113(d) (5) (B) of the Clean Air Act and for which certification is required under section 2 of the Energy Supply and Environmental Coordination Act of 1974 or any amendment thereto, or any subsequent enactment which supersedes such Act, the Administrator of the Environmental Protection Agency shall certify the date which he determines is the earliest date that such source will be able to comply with all such requirements. In the case of any plant or installation which the Administrator of the Environmental Protection Agency determines (after consultation with the State) will not be subject to an order under section 113(d) of the Clean Air Act and for which certification is required under section 2 of the Energy Supply and Environmental Coordination Act of 1974 or any amendment thereto, or any subsequent enactment which supersedes such Act, the Administrator of the Environmental Protection Agency shall certify the date which he determines is the earliest date that such plant or installation will be able to burn coal in compliance with all applicable emission limitations under the implementation plan.

(3) Any certification required under section 2 of the Energy Supply and Environmental Coordination Act of 1974 or any amendment thereto, or any subsequent enactment which supersedes such Act, or under this subsection may be provided in an order under section 113(d) of the Clean Air Act.

NOTICE TO STATE IN CASE OF CERTAIN INSPECTIONS, ETC.

Sec. 118. Section 114 of the Clean Air Act is amended by adding at the end thereof the following new subsection:

“(d) (1) In the case of any emission standard or limitation or other requirement which is adopted by a State, as part of an applicable implementation plan or as part of an order under section 113(d), before carrying out an entry, inspection, or monitoring under paragraph (2) of subsection (a) with respect to such standard, limitation,
or other requirement, the Administrator (or his representatives) shall provide the State air pollution control agency with reasonable prior notice of such action, indicating the purpose of such action. No State agency which receives notice under this paragraph of an action proposed to be taken may use the information contained in the notice to inform the person whose property is proposed to be affected of the proposed action. If the Administrator has reasonable basis for believing that a State agency is so using or will so use such information, notice to the agency under this paragraph is not required until such time as the Administrator determines the agency will no longer so use information contained in a notice under this paragraph. Nothing in this section shall be construed to require notification to any State agency of any action taken by the Administrator with respect to any standard, limitation, or other requirement which is not part of an applicable implementation plan or which was promulgated by the Administrator under section 110(c).

"(2) Nothing in paragraph (1) shall be construed to provide that any failure of the Administrator to comply with the requirements of such paragraph shall be a defense in any enforcement action brought by the Administrator or shall make inadmissible as evidence in any such action any information or material obtained notwithstanding such failure to comply with such requirements.

INTERNATIONAL AIR POLLUTION

SEC. 114. Section 115 of the Clean Air Act is amended to read as follows:

"INTERNATIONAL AIR POLLUTION

Sec. 115. (a) Whenever the Administrator, upon receipt of reports, surveys or studies from any duly constituted international agency has reason to believe that any air pollutant or pollutants emitted in the United States cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare in a foreign country or whenever the Secretary of State requests him to do so with respect to such pollution which the Secretary of State alleges is of such a nature, the Administrator shall give formal notification thereof to the Governor of the State in which such emissions originate.

"(b) The notice of the Administrator shall be deemed to be a finding under section 110(a)(2)(I)(ii) which requires a plan revision with respect to so much of the applicable implementation plan as is inadequate to prevent or eliminate the endangerment referred to in subsection (a). Any foreign country so affected by such emission of pollutant or pollutants shall be invited to appear at any public hearing associated with any revision of the appropriate portion of the applicable implementation plan.

"(c) This section shall apply only to a foreign country which the Administrator determines has given the United States essentially the same rights with respect to the prevention or control of air pollution occurring in that country as is given that country by this section.

"(d) Recommendations issued following any abatement conference conducted prior to the enactment of the Clean Air Act Amendments of 1977 shall remain in effect with respect to any pollutant for which no national ambient air quality standard has been established under section 109 of this Act unless the Administrator, after consultation
with all agencies which were party to the conference, rescinds any such recommendation on grounds of obsolescence."

PRESIDENT'S AIR QUALITY ADVISORY BOARD

SEC. 115. Section 117 of the Clean Air Act is amended—

(1) to strike subsections (a) through (c);
(2) to renumber subsections (d) and (e) as subsections (a) and (b), respectively; and
(3) to amend redesignated subsection (b)—

(A) by striking the words "the Board and" the first time the word "Board" appears and inserting in lieu thereof the word "any"; and

(B) by striking the words "of the Board" the second time the word "Board" appears.

CONTROL OF POLLUTION FROM FEDERAL FACILITIES

SEC. 116. (a) Section 118 of the Clean Air Act, relating to control of pollution from Federal facilities, is amended—

(1) by inserting "(a)" after "118", and

(2) by striking out "shall comply with Federal, State, interstate, and local requirements respecting control and abatement of air pollution to the same extent that any person is subject to such requirements" and inserting in lieu thereof "and each officer, agent, or employee thereof, shall be subject to, and comply with, all Federal, State, interstate, and local requirements, administrative authority, and process and sanctions respecting the control and abatement of air pollution in the same manner, and to the same extent as any nongovernmental entity. The preceding sentence shall apply (A) to any requirement whether substantive or procedural (including any recordkeeping or reporting requirement, any requirement respecting permits and any other requirement whatsoever), (B) to the exercise of any Federal, State, or local administrative authority, and (C) to any process and sanction, whether enforced in Federal, State, or local courts or in any other manner. This subsection shall apply notwithstanding any immunity of such agencies, officers, agents, or employees under any law or rule of law. No officer, agent, or employee of the United States shall be personally liable for any civil penalty for which he is not otherwise liable."

(b) Section 118 of such Act is amended by striking out "The President may exempt" and inserting in lieu thereof:

"(b) The President may exempt."

(c) Section 118(b) of such Act, as amended by subsection (b) of this Act, is amended by inserting the following immediately before the last sentence thereof: "In addition to any such exemption of a particular emission source, the President may, if he determines it to be in the paramount interest of the United States to do so, issue regulations exempting from compliance with the requirements of this section any weaponry, equipment, aircraft, vehicles, or other classes or categories of property which are owned or operated by the Armed Forces of the United States (including the Coast Guard) or by the National Guard of any State and which are uniquely military in nature. The President shall reconsider the need for such regulations at three-year intervals."
SEC. 117. (a) Title I of the Clean Air Act is amended by inserting immediately before section 101 the following: "PART A—Air Quality and Emission Limitations".

(b) Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

"PRIMARY NONFERROUS SMELTER ORDERS

Sec. 119. (a) (1) Upon application by the owner or operator of a primary nonferrous smelter, a primary nonferrous smelter order under subsection (b) may be issued—

"(A) by the Administrator, after thirty days' notice to the State, or

"(B) by the State in which such source is located, but no such order issued by the State shall take effect until the Administrator determines that such order has been issued in accordance with the requirements of this Act.

Not later than ninety days after submission by the State to the Administrator of notice of the issuance of a primary nonferrous smelter order under this section, the Administrator shall determine whether or not such order has been issued by the State in accordance with the requirements of this Act. If the Administrator determines that such order has not been issued in accordance with such requirements, he shall conduct a hearing respecting the reasonably available control technology for primary nonferrous smelters.

"(2) (A) An order issued under this section to a primary nonferrous smelter shall be referred to as a 'primary nonferrous smelter order'. No primary nonferrous smelter may receive both an enforcement order under section 113(d) and a primary nonferrous smelter order under this section.

(B) Before any hearing conducted under this section, in the case of an application made by the owner or operator of a primary nonferrous smelter for a second order under this section, the applicant shall furnish the Administrator (or the State as the case may be) with a statement of the grounds on which such application is based (including all supporting documents and information). The statement of the grounds for the proposed order shall be provided by the Administrator or the State in any case in which such State or Administrator is acting on its own initiative. Such statement (including such documents and information) shall be made available to the public for a thirty-day period before such hearing and shall be considered as part of such hearing. No primary nonferrous smelter order may be granted unless the applicant establishes that he meets the conditions required for the issuance of such order (or the Administrator or State establishes the meeting of such conditions when acting on their own initiative).

(C) Any decision with respect to the issuance of a primary nonferrous smelter order shall be accompanied by a concise statement of the findings and of the basis of such findings.

(b) A primary nonferrous smelter order under this section may be issued to a primary nonferrous smelter if—

"(1) such smelter is in existence on the date of the enactment of this section;

"(2) the requirement of the applicable implementation plan with respect to which the order is issued is an emission limitation
or standard for sulfur oxides which is necessary and intended to be itself sufficient to enable attainment and maintenance of national primary and secondary ambient air quality standards for sulfur oxides; and

"(8) such smelter is unable to comply with such requirement by the applicable date for compliance because no means of emission limitation applicable to such smelter which will enable it to achieve compliance with such requirement has been adequately demonstrated to be reasonably available (as determined by the Administrator, taking into account the cost of compliance, non-air quality health and environmental impact, and energy consideration).

"(c)(1) A second order issued to a smelter under this section shall set forth compliance schedules containing increments of progress which require compliance with the requirement postponed as expeditiously as practicable. The increments of progress shall be limited to requiring compliance with subsection (d) and, in the case of a second order, to procuring, installing, and operating the necessary means of emission limitation as expeditiously as practicable after the Administrator determines such means have been adequately demonstrated to be reasonably available within the meaning of subsection (b)(3).

"(2) Not in excess of two primary nonferrous smelter orders may be issued under this section to any primary nonferrous smelter. The first such order issued to a smelter shall not result in the postponement of the requirement with respect to which such order is issued beyond January 1, 1983. The second such order shall not result in the postponement of such requirement beyond January 1, 1988.

"(d)(1) (A) Each primary nonferrous smelter to which an order is issued under this section shall be required to use such interim measures for the period during which such order is in effect as may be necessary in the judgment of the Administrator to assure attainment and maintenance of the national primary and secondary ambient air quality standards during such period, taking into account the aggregate effect on air quality of such order together with all variances, extensions, waivers, enforcement orders, delayed compliance orders and primary nonferrous smelter orders previously issued under this Act.

"(B) Such interim requirements shall include—

"(i) a requirement that the source to which the order applies comply with such reporting requirements and conduct such monitoring as the Administrator determines may be necessary, and

"(ii) such measures as the Administrator determines are necessary to avoid an imminent and substantial endangerment to health of persons.

"(C) Such interim measures shall also, except as provided in paragraph (2), include continuous emission reduction technology. The Administrator shall condition the use of any such interim measures upon the agreement of the owner or operator of the smelter—

"(i) to comply with such conditions as the Administrator determines are necessary to maximize the reliability and enforceability of such interim measures, as applied to the smelter, in attaining and maintaining the national ambient air quality standards to which the order relates, and

"(ii) to commit reasonable resources to research and development of appropriate emission control technology.

"(2) The requirement of paragraph (1) for the use of continuous
emission reduction technology may be waived with respect to a particular smelter by the State or the Administrator, after notice and a hearing on the record, and upon a showing by the owner or operator of the smelter that such requirement would be so costly as to necessitate permanent or prolonged temporary cessation of operations of the smelter. Upon application for such waiver, the Administrator shall be notified and shall, within ninety days, hold a hearing on the record in accordance with section 554 of title 5 of the United States Code. At such hearing the Administrator shall require the smelter involved to present information relating to any alleged cessation of operations and the detailed reasons or justifications therefor. On the basis of such hearing the Administrator shall make findings of fact as to the effect of such requirement and on the alleged cessation of operations and shall make such recommendations as he deems appropriate. Such report, findings, and recommendations shall be available to the public, and shall be taken into account by the State or the Administrator in making the decision whether or not to grant such waiver.

“(3) In order to obtain information for purposes of a waiver under paragraph (2), the Administrator may, on his own motion, conduct an investigation and use the authority of section 319.

“(4) In the case of any smelter which on the date of enactment of this section uses continuous emission reduction technology and supplemental controls and which receives an initial primary nonferrous smelter order under this section, no additional continuous emission reduction technology shall be required as a condition of such order unless the Administrator determines, at any time, after notice and public hearing, that such additional continuous emission reduction technology is adequately demonstrated to be reasonably available for the primary nonferrous smelter industry.

“(e) At any time during which such order applies, the Administrator may enter upon a public hearing respecting the availability of technology. Any order under this section shall be terminated if the Administrator determines on the record, after notice and public hearing, that the conditions upon which the order was based no longer exist. If the owner or operator of the smelter to which the order is issued demonstrates that prompt termination of such order would result in undue hardship, the termination shall become effective at the earliest practicable date on which such undue hardship would not result, but in no event later than the date required under subsection (c).

“(f) If the Administrator determines that a smelter to which an order is issued under this section is in violation of any requirement of subsection (e) or (d), he shall—

“(1) enforce such requirement under section 113,

“(2) (after notice and opportunity for public hearing) revoke such order and enforce compliance with the requirement with respect to which such order was granted,

“(3) give notice of noncompliance and commence action under section 120, or

“(4) take any appropriate combination of such actions.”.

NONCOMPLIANCE PENALTY

Sec. 118. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

Sec. 118. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:
"NONCOMPLIANCE PENALTY"

"Sec. 120. (a)(1)(A) Not later than 6 months after the date of enactment of this section, and after notice and opportunity for a public hearing, the Administrator shall promulgate regulations requiring the assessment and collection of a noncompliance penalty against persons referred to in paragraph (2)(A).

(B) (i) Each State may develop and submit to the Administrator a plan for carrying out this section in such State. If the Administrator finds that the State plan meets the requirements of this section, he may delegate to such State any authority he has to carry out this section.

(ii) Notwithstanding a delegation to a State under clause (i), the Administrator may carry out this section in such State under the circumstances described in subsection (b)(2)(B).

(2)(A) Except as provided in subparagraph (B) or (C) of this paragraph, the State or the Administrator shall assess and collect a noncompliance penalty against every person who owns or operates—

(i) a major stationary source (other than a primary nonferrous smelter which has received a primary nonferrous smelter order under section 119) which is not in compliance with any emission limitation, emission standard or compliance schedule under any applicable implementation plan, or

(ii) a stationary source which is not in compliance with an emission limitation, emission standard, standard of performance, or other requirement established under section 111 or 112 of this Act, or

(iii) any source referred to in clause (i) or (ii) (for which an extension, order, or suspension referred to in subparagraph (B) is in effect), or a primary nonferrous smelter which has received a primary nonferrous smelter order under section 119 which is not in compliance with any interim emission control requirement or schedule of compliance under such extension, order, or suspension.

For purposes of subsection (d)(2), in the case of a penalty assessed with respect to a source referred to in clause (iii) of this subparagraph, the costs referred to in such subsection (d)(2) shall be the economic value of noncompliance with the interim emission control requirement or the remaining steps in the schedule of compliance referred to in such clause.

(B) Notwithstanding the requirements of subparagraph (A)(i) and (ii), the owner or operator of any source shall be exempted from the duty to pay a noncompliance penalty under such requirements with respect to that source if, in accordance with the procedures in subsection (b)(5), the owner or operator demonstrates that the failure of such source to comply with any such requirement is due solely to—

(i) a conversion by such source from the burning of petroleum products or natural gas, or both, as the permanent primary energy source to the burning of coal pursuant to an order under section 119;

(ii) in the case of a coal-burning source granted an extension under the second sentence of section 119(c)(1), a prohibition from using petroleum products or natural gas or both, by reason of an order under the provisions of section 2(a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 or under any legislation which amends or supersedes such provisions;

(iii) the use of innovative technology sanctioned by an enforcement order under section 113(d)(4);
"(iv) an inability to comply with any such requirement, for which inability the source has received an order under section 113(d) (or an order under section 113 issued before the date of enactment of this section) which has the effect of permitting a delay or violation of any requirement of this Act (including a requirement of an applicable implementation plan) which inability results from reasons entirely beyond the control of the owner or operator of such source or of any entity controlling, controlled by, or under common control with the owner or operator of such source; or

"(v) the conditions by reason of which a temporary emergency suspension is authorized under section 110 (f) or (g).

An exemption under this subparagraph shall cease to be effective if the source fails to comply with the interim emission control requirements or schedules of compliance (including increments of progress) under any such extension, order, or suspension.

"(C) The Administrator may, after notice and opportunity for public hearing, exempt any source from the requirements of this section with respect to a particular instance of noncompliance if he finds that such instance of noncompliance is de minimis in nature and in duration.

(b) Regulations under subsection (a) shall—

"(1) permit the assessment and collection of such penalty by the State if the State has a delegation of authority in effect under subsection (a) (1) (B) (i);

"(2) provide for the assessment and collection of such penalty by the Administrator, if—

"(A) the State does not have a delegation of authority in effect under subsection (e), or

"(B) the State has such a delegation in effect but fails with respect to any particular person or source to assess or collect the penalty in accordance with the requirements of this section;

"(3) require the States, or in the event the States fail to do so, the Administrator, to give a brief but reasonably specific notice of noncompliance under this section to each person referred to in subsection (a) (2) (A) with respect to each source owned or operated by such person which is not in compliance as provided in such subsection, not later than July 1, 1979, or thirty days after the discovery of such noncompliance, whichever is later;

"(4) require each person to whom notice is given under paragraph (3) to—

"(A) calculate the amount of the penalty owed (determined in accordance with subsection (d) (2)) and the schedule of payments (determined in accordance with subsection (d) (3)) for each such source and, within forty-five days after the issuance of such notice or after the denial of a petition under subparagraph (B), to submit that calculation and proposed schedule, together with the information necessary for an independent verification thereof, to the State and to the Administrator, or

"(B) submit a petition, within forty-five days after the issuance of such notice, challenging such notice of noncompliance or alleging entitlement to an exemption under subsection (a) (2) (B) with respect to a particular source;

"(5) require the Administrator to provide a hearing on the
record (within the meaning of subchapter II of chapter 5 of title 5, United States Code) and to make a decision on such petition (including findings of fact and conclusions of law) not later than ninety days after the receipt of any petition under paragraph (4) (B), unless the State agrees to provide a hearing which is substantially similar to such a hearing on the record and to make a decision on such petition (including such findings and conclusions) within such ninety-day period;

"(6) (A) authorize the Administrator on his own initiative to review the decision of the State under paragraph (5) and disapprove it if it is not in accordance with the requirements of this section, and (B) require the Administrator to do so not later than sixty days after receipt of a petition under this subparagraph, notice, and public hearing and a showing by such petitioner that the State decision under paragraph (5) is not in accordance with the requirements of this section;

"(7) require payment, in accordance with subsection (d), of the penalty by each person to whom notice of noncompliance is given under paragraph (3) with respect to each noncomplying source for which such notice is given unless there has been a final determination granting a petition under paragraph (4) (B) with respect to such source;

"(8) authorize the State or the Administrator to adjust (and from time to time to readjust) the amount of the penalty assessment calculated or the payment schedule proposed by such owner or operator under paragraph (6), if the Administrator finds after notice and opportunity for a hearing on the record that the penalty or schedule does not meet the requirements of this section; and

"(9) require a final adjustment of the penalty within 180 days after such source comes into compliance in accordance with subsection (d) (4).

A delayed compliance penalty established by a State under this section shall apply unless the Administrator, within ninety days after the date of publication of the proposed penalty under this section, objects in writing to the amount of the penalty as less than would be required to comply with guidelines established by the Administrator. If the Administrator objects, he shall immediately establish a substitute delayed compliance penalty applicable to such facility.

"(c) If the owner or operator of any stationary source to whom a notice is issued under subsection (b) (3)—

"(1) does not submit a timely petition under subsection (b) (4) (B), or

"(2) submits a petition under subsection (b) (4) (B) which is denied, and fails to submit a calculation of the penalty assessment, a schedule for payment, and the information necessary for independent verification thereof, the State (or the Administrator, as the case may be) may enter into a contract with any person who has no financial interest in the owner or operator of the source (or in any person controlling, controlled by or under common control with such source) to assist in determining the amount of the penalty assessment or payment schedule with respect to such source. The cost of carrying out such contract may be added to the penalty to be assessed against the owner or operator of such source.
PAYMENT.

"(d) (1) All penalties assessed by the Administrator under this section shall be paid to the United States Treasury. All penalties assessed by the State under this section shall be paid to such State.

"(2) The amount of the penalty which shall be assessed and collected with respect to any source under this section shall be equal to—

"(A) the amount determined in accordance with regulations promulgated by the Administrator under subsection (a), which is no less than the quarterly equivalent of the capital costs of compliance and debt service over a normal amortization period, not to exceed ten years, operation and maintenance costs foregone as a result of noncompliance, and any additional economic value which a delay in compliance beyond July 1, 1979, may have for the owner or operator of such source, minus

"(B) the amount of any expenditure made by the owner or operator of that source during any such quarter for the purpose of bringing that source into, and maintaining compliance with, such requirement, to the extent that such expenditures have not been taken into account in the calculation of the penalty under subparagraph (A).

To the extent that any expenditure under subparagraph (B) made during any quarter is not subtracted for such quarter from the costs under subparagraph (A), such expenditure may be subtracted for any subsequent quarter from such costs. In no event shall the amount paid be less than the quarterly payment minus the amount attributed to actual cost of construction.

"(3) (A) The assessed penalty required under this section shall be paid in quarterly installments for the period of covered noncompliance. All quarterly payments (determined without regard to any adjustment or any subtraction under paragraph (2)(B) after the first payment shall be equal.

"(B) The first payment shall be due on the date six months after the date of issuance of the notice of noncompliance under subsection (b) (3) with respect to any source or on January 1, 1980, whichever is later. Such first payment shall be in the amount of the quarterly installment for the upcoming quarter, plus the amount owed for any preceding period within the period of covered noncompliance for such source.

"(C) For the purpose of this section, the term 'period of covered noncompliance' means the period which begins—

"(i) two years after the date of enactment of this section, in the case of a source for which notice of noncompliance under subsection (b) (3) is issued on or before the date two years after such date of enactment, or

"(ii) on the date of issuance of the notice of noncompliance under subsection (b) (3), in the case of a source for which such notice is issued after July 1, 1979,

and ending on the date on which such source comes into (or for the purpose of establishing the schedule of payments, is estimated to come into) compliance with such requirement.

"(4) Upon making a determination that a source with respect to which a penalty has been paid under this section is in compliance and is maintaining compliance with the applicable requirement, the State (or the Administrator as the case may be) shall review the actual expenditures made by the owner or operator of such source for the purpose of attaining and maintaining compliance, and shall within 180 days after such source comes into compliance—
“(A) provide reimbursement with interest (to be paid by the State or Secretary of the Treasury, as the case may be) at appropriate prevailing rates (as determined by the Secretary of the Treasury) for any overpayment by such person, or
“(B) assess and collect an additional payment with interest at appropriate prevailing rates (as determined by the Secretary of the Treasury) for any underpayment by such person.
“(5) Any person who fails to pay the amount of any penalty with respect to any source under this section on a timely basis shall be required to pay in addition a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be in an amount equal to 20 percent of the aggregate amount of such person's penalties and nonpayment penalties with respect to such source which are unpaid as of the beginning of such quarter.
“(e) Any action pursuant to this section, including any objection of the Administrator under the last sentence of subsection (b) shall be considered a final action for purposes of judicial review of any penalty under section 307 of this Act.
“(f) Any orders, payments, sanctions, or other requirements under this section shall be in addition to any other permits, orders, payments, sanctions, or other requirements established under this Act, and shall in no way affect any civil or criminal enforcement proceedings brought under any provision of this Act or State or local law.
“(g) In the case of any emission limitation or other requirement approved or promulgated by the Administrator under this Act after the enactment of the Clean Air Act Amendments of 1977 which is more stringent than the emission limitation or requirement for the source in effect prior to such approval or promulgation, if any, or where there was no emission limitation or requirement approved or promulgated before enactment of the Clean Air Act Amendments of 1977, the date for imposition of the non-compliance penalty under this section, shall be either July 1, 1979, or the date on which the source is required to be in full compliance with such emission limitation or requirement, whichever is later, but in no event later than three years after the approval or promulgation of such emission limitation or requirement.

CONSULTATION

Sec. 119. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

“CONSULTATION

“Sec. 121. In carrying out the requirements of this Act requiring applicable implementation plans to contain—
“(1) any transportation controls, air quality maintenance plan requirements or preconstruction review of direct sources of air pollution, or
“(2) any measure referred to—
“(A) in part D (pertaining to nonattainment requirements), or
“(B) in part C (pertaining to prevention of significant deterioration),
and in carrying out the requirements of section 113(d) (relating to certain enforcement orders), the State shall provide a satisfactory process
of consultation with general purpose local governments, designated organizations of elected officials of local governments and any Federal land manager having authority over Federal land to which the State plan applies, effective with respect to any such requirement which is adopted more than one year after the date of enactment of the Clean Air Act Amendments of 1977 as part of such plan. Such process shall be in accordance with regulations promulgated by the Administrator to assure adequate consultation. Such regulations shall be promulgated after notice and opportunity for public hearing and not later than 6 months after the date of enactment of the Clean Air Act Amendments of 1977. Only a general purpose unit of local government, regional agency, or council of governments adversely affected by action of the Administrator approving any portion of a plan referred to in this subsection may petition for judicial review of such action on the basis of a violation of the requirements of this section.

UNREGULATED POLLUTANTS

SEC. 120. (a) Part A of title I of the Clean Air Act is amended by adding at the end thereof the following new section:

"LISTING OF CERTAIN UNREGULATED POLLUTANTS"

SEC. 122. (a) Not later than one year after date of enactment of this section (two years for radioactive pollutants) and after notice and opportunity for public hearing, the Administrator shall review all available relevant information and determine whether or not emissions of radioactive pollutants (including source material, special nuclear material, and byproduct material), cadmium, arsenic and polycyclic organic matter into the ambient air will cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health. If the Administrator makes an affirmative determination with respect to any such substance, he shall simultaneously with such determination include such substance in the list published under section 108(a)(1) or 112(b)(1)(A) (in the case of a substance which, in the judgment of the Administrator, causes, or contributes to, air pollution which may reasonably be anticipated to result in an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness), or shall include each category of stationary sources emitting such substance in significant amounts in the list published under section 111(b)(1)(A), or take any combination of such actions.

(b) Nothing in subsection (a) shall be construed to affect the authority of the Administrator to revise any list referred to in subsection (a) with respect to any substance (whether or not enumerated in subsection (a)).

(c)(1) Before listing any source material, special nuclear, or byproduct material (or component or derivative thereof) as provided in subsection (a), the Administrator shall consult with the Nuclear Regulatory Commission.

(2) Not later than six months after listing any such material (or component or derivative thereof) the Administrator and the Nuclear Regulatory Commission shall enter into an interagency agreement with respect to those sources or facilities which are under the jurisdiction of the Commission. This agreement shall, to the maximum extent practicable consistent with this Act, minimize duplication of effort.
and conserve administrative resources in the establishment, implementation, and enforcement of emission limitations, standards of performance, and other requirements and authorities (substantive and procedural) under this Act respecting the emission of such material (or component or derivative thereof) from such sources or facilities.

"(3) In case of any standard or emission limitation promulgated by the Administrator, under this Act or by any State (or the Administrator) under any applicable implementation plan under this Act, if the Nuclear Regulatory Commission determines, after notice and opportunity for public hearing that the application of such standard or limitation to a source or facility within the jurisdiction of the Commission would endanger public health or safety, such standard or limitation shall not apply to such facilities or sources unless the President determines otherwise within ninety days from the date of such finding.

(b) The Administrator of the Environmental Protection Agency shall conduct a study, in conjunction with other appropriate agencies, concerning the effect on the public health and welfare of sulfates, radioactive pollutants, cadmium, arsenic, and polycyclic organic matter which are present or may reasonably be anticipated to occur in the ambient air. Such study shall include a thorough investigation of how sulfates are formed and how to protect public health and welfare from the injurious effects, if any, of sulfates, cadmium, arsenic, and polycyclic organic matter.

STACK HEIGHTS

Sec. 121. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

"STACK HEIGHTS

"Sec. 123. (a) The degree of emission limitation required for control of any air pollutant under an applicable implementation plan under this title shall not be affected in any manner by—

"(1) so much of the stack height of any source as exceeds good engineering practice (as determined under regulations promulgated by the Administrator), or

"(2) any other dispersion technique.

The preceding sentence shall not apply with respect to stack heights in existence before the date of enactment of the Clean Air Amendments of 1970 or dispersion techniques implemented before such date. In establishing an emission limitation for coal-fired steam electric generating units which are subject to the provisions of section 118 and which commenced operation before July 1, 1987, the effect of the entire stack height of stacks for which a construction contract was awarded before February 8, 1974, may be taken into account.

"(b) For the purpose of this section, the term 'dispersion technique' includes any intermittent or supplemental control of air pollutants varying with atmospheric conditions.

"(c) Not later than six months after the date of enactment of this section, the Administrator shall after notice and opportunity for public hearing promulgate regulations to carry out this section. For purposes of this section, good engineering practice means, with respect to stack heights, the height necessary to insure that emissions from the stack do not result in excessive concentrations of any air pollutant in the immediate vicinity of the source as a result of atmospheric downwash, eddies and wakes which may be created by the source itself,
nearby structures or nearby terrain obstacles (as determined by the Administrator). For purposes of this section such height shall not exceed two and a half times the height of such source unless the owner or operator of the source demonstrates, after notice and opportunity for public hearing, to the satisfaction of the Administrator, that a greater height is necessary as provided under the preceding sentence. In no event may the Administrator prohibit any increase in any stack height or restrict in any manner the stack height of any source."

**ASSURANCE OF PLAN ADEQUACY**

Sec. 122. Part A of title I of the Clean Air Act is amended by adding the following new sections at the end thereof:

"ASSURANCE OF ADEQUACY OF STATE PLANS"

Review.

SEC. 124. (a) As expeditiously as practicable but not later than one year after date of enactment of this section, each State shall review the provisions of its implementation plan which relate to major fuel burning sources and shall determine—

"(1) the extent to which compliance with requirements of such plan is dependent upon the use by major fuel burning stationary sources of petroleum products or natural gas,

"(2) the extent to which such plan may reasonably be anticipated to be inadequate to meet the requirements of this Act in such State on a reliable and long-term basis by reason of its dependence upon the use of such fuels, and

"(3) the extent to which compliance with the requirements of such plan is dependent upon use of coal or coal derivatives which is not locally or regionally available.

Each State shall submit the results of its review and its determination under this paragraph to the Administrator promptly upon completion thereof.

Plan revision.

(b) (1) Not later than eighteen months after the date of enactment of this section, the Administrator shall review the submissions of the States under subsection (a) and shall require each State to revise its plan if, in the judgment of the Administrator, such plan revision is necessary to assure that such plan will be adequate to assure compliance with the requirements of this Act in such State on a reliable and long-term basis, taking into account the actual or potential prohibitions on use of petroleum products or natural gas, or both, under any other authority of law.

"(2) Before requiring a plan revision under this subsection, with respect to any State the Administrator shall take into account the report of the review conducted by such State under paragraph (1) and shall consult with the Governor of the State respecting such required revision.

"MEASURES TO PREVENT ECONOMIC DISRUPTION OR UNEMPLOYMENT"

Notice and hearing.

SEC. 125. (a) After notice and opportunity for a public hearing—

"(1) the Governor of any State in which a major fuel burning stationary source referred to in this subsection (or class or category thereof) is located,

"(2) the Administrator, or

"(3) the President (or his designee),

may determine that action under subsection (b) is necessary to prevent..."
or minimize significant local or regional economic disruption or unemployment which would otherwise result from use by such source (or class or category) of—

(A) coal or coal derivatives other than locally or regionally available coal,

(B) petroleum products,

(C) natural gas, or

(D) any combination of fuels referred to in subparagraphs (A) through (C),
to comply with the requirements of a State implementation plan.

(b) Upon a determination under subsection (a)—

(1) such Governor, with the written consent of the President or his designee,

(2) the President's designee with the written consent of such Governor, or

(3) the President

may by rule or order prohibit any such major fuel burning stationary source (or class or category thereof) from using fuels other than locally or regionally available coal or coal derivatives to comply with implementation plan requirements. In taking any action under this subsection, the Governor, the President, or the President's designee as the case may be, shall take into account the final cost to the consumer of such an action.

(c) The Governor, in the case of action under subsection (b)(1), or the Administrator, in the case of an action under subsection (b)(2) or (3) shall, by rule or order, require each source to which such action applies to—

(1) enter into long-term contracts of at least ten years in duration (except as the President or his designee may otherwise permit or require by rule or order for good cause) for supplies of regionally available coal or coal derivatives,

(2) enter into contracts to acquire any additional means of emission limitation which the Administrator or the State determines may be necessary to comply with the requirements of this Act while using such coal or coal derivatives as fuel, and

(3) comply with such schedules (including increments of progress), timetables and other requirements as may be necessary to assure compliance with the requirements of this Act.

Requirements under this subsection shall be established simultaneously with, and as a condition of, any action under subsection (b).

(d) This section applies only to existing or new major fuel burning stationary sources—

(1) which have the design capacity to produce 250,000,000 Btu's per hour (or its equivalent), as determined by the Administrator, and

(2) which are not in compliance with the requirements of an applicable implementation plan or which are prohibited from burning oil or natural gas, or both, under any other authority of law.

(e) Except as may otherwise be provided by rule by the State or the Administrator for good cause, any action required to be taken by a major fuel burning stationary source under this section shall not be deemed to constitute a modification for purposes of section 111(a)(2) and (4) of this Act.

(f) For purposes of sections 113 and 120 a prohibition under subsection (b), and a corresponding rule or order under subsection (c), shall be treated as a requirement of section 113. For purposes of any

42 USC 7411.
plan (or portion thereof) promulgated under section 110(c), any rule or order under subsection (c) corresponding to a prohibition under subsection (b), shall be treated as a part of such plan. For purposes of section 113, a prohibition under subsection (b), applicable to any source, and a corresponding rule or order under subsection (c), shall be treated as part of the applicable implementation plan for the State in which subject source is located.

"(g) The President may delegate his authority under this section to an officer or employee of the United States designated by him on a case-by-case basis or in any other manner he deems suitable.

"(h) For the purpose of this section the term 'locally or regionally available coal or coal derivatives' means coal or coal derivatives which is, or can in the judgment of the State or the Administrator feasibly be, mined or produced in the local or regional area (as determined by the Administrator) in which the major fuel burning stationary source is located."

INTERSTATE POLLUTION ABATEMENT

SEC. 123. Part A of title I of the Clean Air Act is amended by adding at the end thereof the following new section:

"INTERSTATE POLLUTION ABATEMENT

42 USC 7426.

"SEC. 126. (a) Each applicable implementation plan shall—

"(1) require each major proposed new (or modified) source—

"(A) subject to part C, relating to significant deterioration of air quality, or

"(B) which may significantly contribute to levels of air pollution in excess of the national ambient air quality standards in any air quality control region outside the State in which such source intends to locate (or make such modification),

"(2) identify all major existing stationary sources which may have the impact described in paragraph (1) with respect to new or modified sources and provide notice to all nearby States of the identity of such sources not later than three months after the date of enactment of the Clean Air Act Amendments of 1977.

"(b) Any State or political subdivision may petition the Administrator for a finding that any major source emits or would emit any air pollutant in violation of the prohibition of section 110(a)(2)(E)(i). Within 60 days after receipt of any petition under this subsection and after public hearing, the Administrator shall make such a finding or deny the petition.

"(c) Notwithstanding any permit which may have been granted by the State in which the source is located (or intends to locate), it shall be a violation of the applicable implementation plan in such State—

"(1) for any major proposed new (or modified) source with respect to which a finding has been made under subsection (b) to be constructed or to operate in violation of the prohibition of section 110(a)(2)(E)(i), or

"(2) for any major existing source to operate more than three months after such finding has been made with respect to it."
The Administrator may permit the continued operation of a source referred to in paragraph (2) beyond the expiration of such three-month period if such source complies with such emission limitations and compliance schedules (containing increments of progress) as may be provided by the Administrator to bring about compliance with the requirements contained in section 110(a)(2)(E)(i) as expeditiously as practicable, but in no case later than three years after the date of such finding. Nothing in the preceding sentence shall be construed to preclude any such source from being eligible for an enforcement order under section 113(d) after the expiration of such period during which the Administrator has permitted continuous operation."

PUBLIC NOTIFICATION

Sec. 124. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

"Sec. 127. (a) Each State plan shall contain measures which will be effective to notify the public during any calendar on a regular basis of instances or areas in which any national primary ambient air quality standard is exceeded or was exceeded during any portion of the preceding calendar year to advise the public of the health hazards associated with such pollution, and to enhance public awareness of the measures which can be taken to prevent such standards from being exceeded and the ways in which the public can participate in regulatory and other efforts to improve air quality. Such measures may include the posting of warning signs on interstate highway access points to metropolitan areas or television, radio, or press notices or information.

"(b) The Administrator is authorized to make grants to States to assist in carrying out the requirements of subsection (a)."

STATE BOARDS

Sec. 125. Part A of title I of the Clean Air Act is amended by adding the following new section at the end thereof:

"STATE BOARDS

"Sec. 128. (a) Not later than the date one year after the date of the enactment of this section, each applicable implementation plan shall contain requirements that—

"(1) any board or body which approves permits or enforcement orders under this Act shall have at least a majority of members who represent the public interest and do not derive any significant portion of their income from persons subject to permits or enforcement orders under this Act, and

"(2) any potential conflicts of interest by members of such board or body or the head of an executive agency with similar powers be adequately disclosed.

A State may adopt any requirements respecting conflicts of interest for such boards or bodies or heads of executive agencies, or any other entities which are more stringent than the requirements of paragraph (1) and (2), and the Administrator shall approve any such more stringent requirements submitted as part of an implementation plan."

OZONE PROTECTION

Sec. 126. Title I of the Clean Air Act is amended by adding at the end thereof the following new part:
PART B—OZONE PROTECTION

PURPOSES

42 USC 7450. "Sec. 150. The purposes of this part are (1) to provide for a better understanding of the effects of human actions on the stratosphere, especially the ozone in the stratosphere, (2) to provide for a better understanding of the effects of changes in the stratosphere, especially the ozone in the stratosphere on the public health and welfare, (3) to provide information on the progress of regulation of activities which may reasonably be anticipated to affect the ozone in the stratosphere in such a way as to cause or contribute to endangerment of the public health or welfare, and (4) to provide information on the need for additional legislation in this area, if any.

FINDINGS AND DEFINITIONS

42 USC 7451. "Sec. 151. (a) The Congress finds, on the basis of presently available information, that—
"(1) halocarbon compounds introduced into the environment potentially threaten to reduce the concentration of ozone in the stratosphere;
"(2) ozone reduction will lead to increased incidence of solar ultraviolet radiation at the surface of the Earth;
"(3) increased incidence of solar ultraviolet radiation is likely to cause increased rates of disease in humans (including increased rates of skin cancer), threaten food crops, and otherwise damage the natural environment;
"(4) other substances, practices, processes, and activities may affect the ozone in the stratosphere, and should be investigated to give early warning of any potential problem and to develop the basis for possible future regulatory action; and
"(5) there is some authority under existing law, to regulate certain substances, practices, processes, and activities which may affect the ozone in the stratosphere.

DEFINITIONS

42 USC 7452. "Sec. 152. For the purposes of this subtitle—
"(1) the term 'halocarbon' means the chemical compounds CFCI3 and CF2C12 and such other halogenated compounds as the Administrator determines may reasonably be anticipated to contribute to reductions in the concentration of ozone in the stratosphere;
"(2) the term 'stratosphere' means that part of the atmosphere above the tropopause.

STUDIES BY ENVIRONMENTAL PROTECTION AGENCY

42 USC 7453. "Sec. 153. (a) The Administrator shall conduct a study of the cumulative effect of all substances, practices, processes, and activities which may affect the stratosphere, especially ozone in the stratosphere. The study shall include an analysis of the independent effects on the stratosphere especially such ozone in the stratosphere of—
"(1) the release into the ambient air of halocarbons,
"(2) the release into the ambient air of other sources of chlorine,
"(3) the uses of bromine compounds, and
(4) emissions of aircraft and aircraft propulsion systems employed by operational and experimental aircraft. The study shall also include such physical, chemical, atmospheric, biomedical, or other research and monitoring as may be necessary to ascertain (A) any direct or indirect effects upon the public health and welfare of changes in the stratosphere, especially ozone in the stratosphere, and (B) the probable causes of changes in the stratosphere, especially the ozone in the stratosphere.

(b) The Administrator shall undertake research on—

(1) methods to recover and recycle substances which directly or indirectly affect the stratosphere, especially ozone in the stratosphere,

(2) methods of preventing the escape of such substances,

(3) safe substitutes for such substances, and

(4) other methods to regulate substances, practices, processes, and activities which may reasonably be anticipated to affect the stratosphere, especially ozone in the stratosphere.

c(1) The studies and research conducted under this section may be undertaken with such cooperation and assistance from universities and private industry as may be available. Each department, agency, and instrumentality of the United States having the capability to do so is authorized and encouraged to provide assistance to the Administrator in carrying out the requirements of this section, including (notwithstanding any other provision of law) any services which such department, agency, or instrumentality may have the capability to render or obtain by contract with third parties.

(2) The Administrator shall encourage the cooperation and assistance of other nations in carrying out the studies and research under this section. The Administrator is authorized to cooperate with and support similar research efforts of other nations.

d(1) The Administrator shall undertake to contract with the National Academy of Sciences to study the state of knowledge and the adequacy of research efforts to understand (A) the effects of all substances, practices, processes, and activities which may affect the stratosphere, especially ozone in the stratosphere; (B) the health and welfare effects of modifications of the stratosphere, especially ozone in the stratosphere; and (C) methods of control of such substances, practices, processes, and activities including alternatives, costs, feasibility, and timing. The Academy shall make a report of its findings by January 1, 1978.

(2) The Administrator shall make available to the Academy such information in the Administrator's possession as is needed for the purposes of the study provided for in this subsection.

e The Secretary of Labor shall study and transmit a report to the Administrator and the Congress not later than six months after date of enactment, with respect to the losses and gains to industry and employment which could result from the elimination of the use of halocarbons in aerosol containers and for other purposes. Such report shall include recommended means of alleviating unemployment or other undesirable economic impact, if any, resulting therefrom.

(f)(1) The Administrator shall establish and act as Chairman of a Coordinating Committee for the purpose of insuring coordination of the efforts of other Federal agencies carrying out research and studies related to or supportive of the research provided for in subsections (a) and (b) and section 154.

(2) Members of the Coordinating Committee shall include the
appropriate official responsible for the relevant research efforts of each of the following agencies:

"(A) the National Oceanic and Atmospheric Administration,
"(B) the National Aeronautics and Space Administration,
"(C) the Federal Aviation Administration,

A representative of the Department of State shall sit on the Coordinating Committee to encourage and facilitate international coordination.

"(3) The Coordinating Committee shall review and comment on plans for, and the execution and results of, pertinent research and studies. For this purpose, the agencies named in or designated under paragraph (2) of this subsection shall make appropriate and timely reports to the Coordinating Committee on plans for and the execution and results of such research and studies.

"(4) The Chairman may request a report from any Federal Agency for the purpose of determining if that agency should sit on the Coordinating Committee.

"(g) Not later than January 1, 1978, and biennially thereafter, the Administrator shall report to the appropriate committees of the House and the Senate, the results of the studies and research conducted under this section and the results of related research and studies conducted by other Federal agencies.

"RESEARCH AND MONITORING BY OTHER AGENCIES

42 USC 7454.

"SEC. 154. (a) The Administrator of the National Oceanic and Atmospheric Administration shall establish a continuing program of research and monitoring of the stratosphere for the purpose of early detection of changes in the stratosphere and climatic effects of such changes. Such Administrator shall on or before January 1, 1978, and biennially thereafter, transmit such report to the Administrator and Congress on the findings of such research and monitoring. Such report shall contain any appropriate recommendations for legislation or regulation (or both).

"(b) The National Aeronautics and Space Administration shall, pursuant to its authority under title IV of the National Aeronautics and Space Act of 1958, continue programs of research, technology, and monitoring of the stratosphere for the purpose of understanding the physics and chemistry of the stratosphere and for the early detection of potentially harmful changes in the ozone in the stratosphere. Such Administration shall transmit reports by January 1, 1978, and biennially thereafter to the Administrator and the Congress on the results of the programs authorized in this subsection, together with any appropriate recommendations for legislation or regulation (or both).

"(c) The Director of the National Science Foundation shall encourage and support ongoing stratospheric research programs and continuing research programs that will increase scientific knowledge of the effects of changes in the ozone layer in the stratosphere upon living organisms and ecosystems. Such Director shall transmit reports by January 1, 1978, and biennially thereafter to the Administrator and
the Congress on the results of such programs, together with any appropriate recommendations for legislation or regulation (or both).

"(d) The Secretary of Agriculture shall encourage and support continuing research programs that will increase scientific knowledge of the effects of changes in the ozone in the stratosphere upon animals, crops, and other plant life. Such Secretary shall transmit reports by January 1, 1978, and biennially thereafter to the Administrator and the Congress on the results of such programs together with any appropriate recommendations for legislation or regulation (or both).

"(e) The Secretary of Health, Education, and Welfare shall encourage and support continuing research programs that will increase scientific knowledge of the effects of changes in the ozone in the stratosphere upon human health. Such Secretary shall transmit reports by January 1, 1978, and biennially thereafter, to the Administrator and the Congress on the results of such programs, together with any appropriate recommendations for legislation or regulation (or both).

"(f) In carrying out subsections (a) through (e) of this section, the agencies involved (1) shall enlist and encourage cooperation and assistance from other Federal agencies, universities, and private industry, and (2) shall solicit the views of the Administrator with regard to plans for the research involved so that any such research will, if regulatory action by the Administrator is indicated, provide the preliminary information base for such action.

"PROGRESS OF REGULATION

"Sec. 155. The Administrator shall provide an interim report to the Congress by January 1, 1978, shall provide a final report within two years after date of enactment, and shall provide follow-up reports annually thereafter on the actions taken by the Environmental Protection Agency and all other Federal agencies to regulate sources of halocarbon emissions, the results of such regulations in protecting the ozone layer, and the need for additional regulatory action, if any. The reports under this section shall also include recommendations for the control of substances, practices, processes, and activities other than those involving halocarbons, which are found to affect the ozone in the stratosphere and which may cause or contribute to harmful effects on public health or welfare.

"INTERNATIONAL COOPERATION

"Sec. 156. The President shall undertake to enter into international agreements to foster cooperative research which complements studies and research authorized by this part, and to develop standards and regulations which protect the stratosphere consistent with regulations applicable within the United States. For these purposes the President through the Secretary of State and the Assistant Secretary of State for Oceans and International Environmental and Scientific Affairs, shall negotiate multilateral treaties, conventions, resolutions, or other agreements, and formulate, present, or support proposals at the United Nations and other appropriate international forums and shall report to the Congress periodically on efforts to arrive at such agreements.

"REGULATIONS

"Sec. 157. (a) If at any time prior to the submission of the final report referred to in section 155 in the Administrator's judgment, any
substance, practice, process, or activity may reasonably be anticipated to affect the stratosphere, especially ozone in the stratosphere, and such effect may reasonably be anticipated to endanger public health or welfare, the Administrator shall promptly promulgate regulations respecting the control of such substance, practice, process, or activity, and shall simultaneously submit notice of the promulgation of such regulations to the Congress.

"(b) Upon submission of the final report referred to in section 155, and after consideration of the research and study under sections 153 and 154 and consultation with appropriate Federal agencies and scientific entities, the Administrator shall propose regulations for the control of any substance, practice, process, or activity (or any combination thereof) which in his judgment may reasonably be anticipated to affect the stratosphere, especially ozone in the stratosphere, if such effect in the stratosphere may reasonably be anticipated to endanger public health or welfare. Such regulations shall take into account the feasibility and the costs of achieving such control. Such regulations may exempt medical use products for which the Administrator determines there is no suitable substitute. Not later than three months after proposal of such regulations the Administrator shall promulgate such regulations in final form. From time to time, and under the same procedures, the Administrator may revise any of the regulations submitted under this subsection.

"OTHER PROVISIONS UNAFFECTED

42 USC 7458. "Sec. 158. Nothing in this part shall be construed to alter or affect the authority of the Administrator under section 303 (relating to emergency powers), under section 231 (relating to aircraft emission standards), or under any other provision of this Act or to affect the authority of any other department, agency, or instrumentality of the United States under any other provision of law to promulgate or enforce any requirement respecting the control of any substance, practice, process, or activity for purposes of protecting the stratosphere or ozone in the stratosphere. In the case of any proposed rule respecting ozone in the stratosphere which has been published under the Toxic Substances Control Act prior to the date of enactment of this Act notwithstanding section 9(b) of such Act, nothing in this part shall be construed to prohibit or restrict the Administrator from taking any action under the Toxic Substances Control Act respecting the promulgation or enforcement of such rule.

42 USC 7459. "Sec. 159. (a) Nothing in this part shall preclude or deny any State or political subdivision thereof from adopting or enforcing any requirement respecting the control of any substance, practice, process, or activity for purposes of protecting the stratosphere or ozone in the stratosphere except as otherwise provided in subsection (b).

"(b) If a regulation of any substance, practice, process, or activity is in effect under this part in order to prevent or abate any risk to the stratosphere, or ozone in the stratosphere, no State or political subdivision thereof may adopt or attempt to enforce any requirement respecting the control of any such substance, practice, process, or activity to prevent or abate such risk, unless the requirement of the State or political subdivision is identical to the requirement of such
regulation. The preceding sentence shall not apply with respect to any
law or regulation of any State or political subdivision controlling the
use of halocarbons as propellants in aerosol spray containers.”.

PREVENTION OF SIGNIFICANT DETERIORATION

Sec. 127. (a) Title I of the Clean Air Act is amended by adding
the following new part at the end thereof:

“PART C—PREVENTION OF SIGNIFICANT DETERIORATION OF AIR
QUALITY

“SUBPART I

“PURPOSES

“Sec. 160. The purposes of this part are as follows:

“(1) to protect public health and welfare from any actual or
potential adverse effect which in the Administrator’s judgment
may reasonably be anticipate to occur from air pollution or
from exposures to pollutants in other media, which pollutants
originate as emissions to the ambient air), notwithstanding attain-
ment and maintenance of all national ambient air quality
standards;

“(2) to preserve, protect, and enhance the air quality in national
parks, national wilderness areas, national monuments, national
seashores, and other areas of special national or regional natural,
recreational, scenic, or historic value;

“(3) to insure that economic growth will occur in a manner
consistent with the preservation of existing clean air resources;

“(4) to assure that emissions from any source in any State
will not interfere with any portion of the applicable imple-
mentation plan to prevent significant deterioration of air quality
for any other State; and

“(5) to assure that any decision to permit increased air pollu-
tion in any area to which this section applies is made only after
careful evaluation of all the consequences of such a decision and
after adequate procedural opportunities for informed public
participation in the decisionmaking process.

“PLAN REQUIREMENTS

“Sec. 161. In accordance with the policy of section 101(b) (1), each
applicable implementation plan shall contain emission limitations and
such other measures as may be necessary, as determined under regula-
tions promulgated under this part, to prevent significant deterioration
of air quality in each region (or portion thereof) identified pursuant to
section 107(d) (1) (D) or (E).

INITIAL CLASSIFICATIONS

“Sec. 162. (a) Upon the enactment of this part, all—

“(1) international parks,

“(2) national wilderness areas which exceed 5,000 acres in
size,

“(3) national memorial parks which exceed 5,000 acres in size,
"(4) National parks which exceed six thousand acres in size and which are in existence on the date of enactment of the Clean Air Act Amendments of 1977 shall be class I areas and may not be redesignated. All areas which were redesignated as class I under regulations promulgated before such date of enactment shall be class I areas which may be redesignated as provided in this part.

"(b) All areas in such State identified pursuant to section 107(d) (1) (D) or (E) which are not established as class I under subsection (a) shall be class II areas unless redesignated under section 164.

(a) In the case of sulfur oxide and particulate matter, each applicable implementation plan shall contain measures assuring that maximum allowable increases over baseline concentrations of, and maximum allowable concentrations of, such pollutant shall not be exceeded. In the case of any maximum allowable increase (except an allowable increase specified under 165(d) (2) (C) (iv) for a pollutant based on concentrations permitted under national ambient air quality standards for any period other than an annual period, such regulations shall permit such maximum allowable increase to be exceeded during one such period per year.

"(b) (1) For any class I area, the maximum allowable increase in concentrations of sulfur dioxide and particulate matter over the baseline concentration of such pollutants shall not exceed the following amounts:

The maximum allowable concentration of any air pollutant in any area to which this part applies shall not exceed a concentration for each period of exposure equal to—

(A) the concentration permitted under the national secondary ambient air quality standard, or
(B) the concentration permitted under the national primary ambient air quality standard,

whichever concentration is lowest for such pollutant for such period of exposure.

(c)(1) In the case of any State which has a plan approved by the Administrator for purposes of carrying out this part, the Governor of such State may, after notice and opportunity for public hearing, issue orders or promulgate rules providing that for purposes of determining compliance with the maximum allowable increases in ambient concentrations of an air pollutant, the following concentrations of such pollutant shall not be taken into account:

(A) concentrations of such pollutant attributable to the increase in emissions from stationary sources which have converted from the use of petroleum products, or natural gas, or both, by reason of an order which is in effect under the provisions of sections 2 (a) and (b) of the Energy Supply and Environmental Coordination Act of 1974 (or any subsequent legislation which supersedes such provisions) over the emissions from such sources before the effective date of such order.

(B) the concentrations of such pollutant attributable to the increase in emissions from stationary sources which have converted from using natural gas by reason of a natural gas curtailment pursuant to a natural gas curtailment plan in effect pursuant to the Federal Power Act over the emissions from such sources before the effective date of such plan,

(C) concentrations of particulate matter attributable to the increase in emissions from construction or other temporary emission-related activities, and

(D) the increase in concentrations attributable to new sources outside the United States over the concentrations attributable to existing sources which are included in the baseline concentration determined in accordance with section 169(4).

(2) No action taken with respect to a source under paragraph (1)(A) or (1)(B) shall apply more than five years after the effective date of the order referred to in paragraph (1)(A) or the plan referred to in paragraph (1)(B), whichever is applicable. If both such order and plan are applicable, no such action shall apply more than five years after the later of such effective dates.

(3) No action under this subsection shall take effect unless the Governor submits the order or rule providing for such exclusion to the Administrator and the Administrator determines that such order or rule is in compliance with the provisions of this subsection.

"AREA REDESIGNATION"

"Sec. 164. (a) Except as otherwise provided under subsection (c), a State may redesignate such areas as it deems appropriate as class I areas. The following areas may be redesignated only as class I or II:

(1) an area which exceeds ten thousand acres in size and is a national monument, a national primitive area, a national preserve, a national recreation area, a national wild and scenic river, a national wildlife refuge, a national lakeshore or seashore, and

15 USC 792.
16 USC 791a.
42 USC 7474.
“(2) a national park or national wilderness area established after the date of enactment of this Act which exceeds ten thousand acres in size.

Any area (other than an area referred to in paragraph (1) or (2) or an area established as class I under the first sentence of section 162(a)) may be redesignated by the State as class III if—

“(A) such redesignation has been specifically approved by the Governor of the State, after consultation with the appropriate Committees of the legislature if it is in session or with the leadership of the legislature if it is not in session (unless State law provides that such redesignation must be specifically approved by State legislation) and if general purpose units of local government representing a majority of the residents of the area so redesignated enact legislation (including for such units of local government resolutions where appropriate) concurring in the State’s redesignation;

“(B) such redesignation will not cause, or contribute to, concentrations of any air pollutant which exceed any maximum allowable increase or maximum allowable concentration permitted under the classification of any other area; and

“(C) such redesignation otherwise meets the requirements of this part.

Subparagraph (A) of this paragraph shall not apply to area redesignations by Indian tribes.

“(b) (1) (A) Prior to redesignation of any area under this part, notice shall be afforded and public hearings shall be conducted in areas proposed to be redesignated and in areas which may be affected by the proposed redesignation. Prior to any such public hearing a satisfactory description and analysis of the health, environmental, economic, social, and energy effects of the proposed redesignation shall be prepared and made available for public inspection and prior to any such redesignation, the description and analysis of such effects shall be reviewed and examined by the redesignating authorities.

“(B) Prior to the issuance of notice under subparagraph (A) respecting the redesignation of any area under this subsection, if such area includes any Federal lands, the State shall provide written notice to the appropriate Federal land manager and afford adequate opportunity (but not in excess of 60 days) to confer with the State respecting the intended notice of redesignation and to submit written comments and recommendations with respect to such intended notice of redesignation. In redesignating any area under this section with respect to which any Federal land manager has submitted written comments and recommendations, the State shall publish a list of any inconsistency between such redesignation and such recommendations and an explanation of such inconsistency (together with the reasons for making such redesignation against the recommendation of the Federal land manager).

“(C) The Administrator shall promulgate regulations not later than six months after date of enactment of this part, to assure, insofar as practicable, that prior to any public hearing on redesignation of any area, there shall be available for public inspection any specific plans for any new or modified major emitting facility which may be permitted to be constructed and operated only if the area in question is designated or redesignated as class III.

“(2) The Administrator may disapprove the redesignation of any area only if he finds, after notice and opportunity for public hearing, that such redesignation does not meet the procedural requirements of
this section. If any such disapproval occurs, the classification of the area shall be that which was in effect prior to the redesignation which was disapproved.

“(c) Lands within the exterior boundaries of reservations of federally recognized Indian tribes may be redesignated only by the appropriate Indian governing body. Such Indian governing body shall be subject in all respect to the provisions of subsection (e).

“(d) The Federal Land Manager shall review all national monuments, primitive areas, and national preserves, and shall recommend any appropriate areas for redesignation as class I where air quality related values are important attributes of the area. The Federal Land Manager shall report such recommendations, within supporting analysis, to the Congress and the affected States within one year after enactment of this section. The Federal Land Manager shall consult with the appropriate States before making such recommendations.

“(e) If any State affected by the redesignation of area by an Indian tribe or any Indian tribe affected by the redesignation of an area by a State disagrees with such redesignation of any area, or if a permit is proposed to be issued for any new major emitting facility proposed for construction in any State which the Governor of an affected State or governing body of an affected Indian tribe determines will cause or contribute to a cumulative change in air quality in excess of that allowed in this part within the affected State or tribal reservation, the Governor or Indian ruling body may request the Administrator to enter into negotiations with the parties involved to resolve such dispute. If requested by any State or Indian tribe involved, the Administrator shall make a recommendation to resolve the dispute and protect the air quality related values of the lands involved. If the parties involved do not reach agreement, the Administrator shall resolve the dispute and his determination, or the results of agreements reached through other means, shall become part of the applicable plan and shall be enforceable as part of such plan. In resolving such disputes relating to area redesignation, the Administrator shall consider the extent to which the lands involved are of sufficient size to allow effective air quality management or have air quality related values of such an area.

PRECONSTRUCTION REQUIREMENTS

“Sec. 165. (a) No major emitting facility on which construction is commenced after the date of the enactment of this part, may be constructed in any area to which this part applies unless—

“(1) a permit has been issued for such proposed facility in accordance with this part setting forth emission limitations for such facility which conform to the requirements of this part;

“(2) the proposed permit has been subject to a review in accordance with this section, the required analysis has been conducted in accordance with regulations promulgated by the Administrator, and a public hearing has been held with opportunity for interested persons including representatives of the Administrator to appear and submit written or oral presentations on the air quality impact of such source, alternatives thereto, control technology requirements, and other appropriate considerations;

“(3) the owner or operator of such facility demonstrates that emissions from construction or operation of such facility will not cause, or contribute to, air pollution in excess of any (A) maximum allowable increase or maximum allowable concentration for
any pollutant in any area to which this part applies more than one time per year, (B) national ambient air quality standard in any air quality control region, or (C) any other applicable emission standard or standard of performance under this Act;

"(4) the proposed facility is subject to the best available control technology for each pollutant subject to regulation under this Act emitted from, or which results from, such facility;

"(5) the provisions of subsection (d) with respect to protection of class I areas have been complied with for such facility;

"(6) there has been an analysis of any air quality impacts projected for the area as a result of growth associated with such facility;

"(7) the person who owns or operates, or proposes to own or operate, a major emitting facility for which a permit is required under this part agrees to conduct such monitoring as may be necessary to determine the effect which emissions from any such facility may have, or is having, on air quality in any area which may be affected by emissions from such source; and

"(8) in the case of a source which proposes to construct in a class III area, emissions from which would cause or contribute to exceeding the maximum allowable increments applicable in a class II area and where no standard under section 111 of this Act has been promulgated subsequent to enactment of the Clean Air Act Amendments of 1977, for such source category, the Administrator has approved the determination of best available technology as set forth in the permit.

"(b) The demonstration pertaining to maximum allowable increases required under subsection (a) (3) shall not apply to maximum allowable increases for class II areas in the case of an expansion or modification of a major emitting facility which is in existence on the date of enactment of the Clean Air Act Amendments of 1977, whose actual allowable emissions of air pollutants, after compliance with subsection (a) (4), will be less than fifty tons per year and for which the owner or operator of such facility demonstrates that emissions of particulate matter and sulfur oxides will not contribute to ambient air quality levels in excess of the national secondary ambient air quality standard for either of such pollutants.

"(c) Any completed permit application under section 110 for a major emitting facility in any area to which this part applies shall be granted or denied not later than one year after the date of filing of such completed application.

"(d)(1) Each State shall transmit to the Administrator a copy of each permit application relating to a major emitting facility received by such State and provide notice to the Administrator of every action related to the consideration of such permit.

"(2)(A) The Administrator shall provide notice of the permit application to the Federal Land Manager and the Federal official charged with direct responsibility for management of any lands within a class I area which may be affected by emissions from the proposed facility.

"(B) The Federal Land Manager and the Federal official charged with direct responsibility for management of such lands shall have an affirmative responsibility to protect the air quality related values (including visibility) of any such lands within a class I area and to consider, in consultation with the Administrator, whether a proposed major emitting facility will have an adverse impact on such values.
"(C) (i) In any case where the Federal official charged with direct responsibility for management of any lands within a class I area or the Federal Land Manager of such lands, or the Administrator, or the Governor of an adjacent State containing such a class I area files a notice alleging that emissions from a proposed major emitting facility may cause or contribute to a change in the air quality in such area and identifying the potential adverse impact of such change, a permit shall not be issued unless the owner or operator of such facility demonstrates that emissions of particulate matter and sulfur dioxide will not cause or contribute to concentrations which exceed the maximum allowable increases for a class I area.

(ii) In any case where the Federal Land Manager demonstrates to the satisfaction of the State that the emissions from such facility will have an adverse impact on the air quality-related values (including visibility) of such lands, notwithstanding the fact that the change in air quality resulting from emissions from such facility will not cause or contribute to concentrations which exceed the maximum allowable increases for a class I area, a permit shall not be issued.

(iii) In any case where the owner or operator of such facility demonstrates to the satisfaction of the Federal Land Manager, and the Federal Land Manager so certifies, that the emissions from such facility will have no adverse impact on the air quality related values of such lands (including visibility), notwithstanding the fact that the change in air quality resulting from emissions from such facility will cause or contribute to concentrations, which exceed the maximum allowable increases for class I areas, the State may issue a permit.

(iv) In the case of a permit issued pursuant to clause (iii), such facility shall comply with such emission limitations under such permit as may be necessary to assure that emissions of sulfur oxides and particulates from such sources together with all other sources, will not exceed the following maximum allowable increases over the baseline concentration for such pollutants:

(D) (i) In any case where the owner or operator of a proposed major emitting facility who has been denied a certification under subparagraph (C) (iii) demonstrates to the satisfaction of the Governor, after notice and public hearing, and the Governor finds, that the facility cannot be constructed by reason of any maximum allowable increase for sulfur dioxide for periods of twenty-four hours or less applicable to any class I area and, in the case of Federal mandatory class I areas, that a variance under this clause will not adversely affect the air quality related values of the area (including visibility), the Governor, after consideration of the Federal Land Manager's recommendation (if any) and subject to his concurrence, may grant a variance from such maximum allowable increase. If such variance is granted, a permit may be issued to such source pursuant to the requirements of this subparagraph.

(ii) In any case in which the Governor recommends a variance under this subparagraph in which the Federal Land Manager does not concur, the recommendations of the Governor and the Federal Land Manager shall be transmitted to the President. The President may
approve the Governor's recommendation if he finds that such variance is in the national interest. No Presidential finding shall be reviewable in any court. The variance shall take effect if the President approves the Governor's recommendations. The President shall approve or disapprove such recommendation within ninety days after his receipt of the recommendations of the Governor and the Federal Land Manager.

"(iii) In the case of a permit issued pursuant to this subparagraph, such facility shall comply with such emission limitations under such permit as may be necessary to assure that emissions of sulfur oxides from such source, together with all other sources, will exceed the otherwise applicable maximum allowable increases for a period of exposure of twenty-four hours or less on not more than eighteen days during any annual period and that during such day such emissions will not exceed the following maximum allowable increases over the baseline concentration for such pollutant:

Analysis.

"(e) (1) The review provided for in subsection (a) shall be preceded by an analysis in accordance with regulations of the Administrator, promulgated under this subsection, which may be conducted by the State (or any general purpose unit of local government) or by the major emitting facility applying for such permit, of the ambient air quality at the proposed site and in areas which may be affected by emissions from such facility for each pollutant subject to regulation under this Act which will be emitted from such facility.

Continuous air quality monitoring data.

"(2) Effective one year after date of enactment of this part, the analysis required by this subsection shall include continuous air quality monitoring data gathered for purposes of determining whether emissions from such facility will exceed the maximum allowable increases or the maximum allowable concentration permitted under this part. Such data shall be gathered over a period of one calendar year preceding the date of application for a permit under this part unless the State, in accordance with regulations promulgated by the Administrator, determines that a complete and adequate analysis for such purposes may be accomplished in a shorter period. The results of such analysis shall be available at the time of the public hearing on the application for such permit.

Regulations.

"(3) The Administrator shall within six months after the date of enactment of this part promulgate regulations respecting the analysis required under this subsection which regulations—

(A) shall not require the use of any automatic or uniform buffer zone or zones,

(B) shall require an analysis of the ambient air quality, climate and meteorology, terrain, soils and vegetation, and visibility at the site of the proposed major emitting facility and in the area potentially affected by the emissions from such facility for each pollutant regulated under this Act which will be emitted from, or which results from the construction or operation of, such facility, the size and nature of the proposed facility, the degree of
continuous emission reduction which could be achieved by such facility, and such other factors as may be relevant in determining the effect of emissions from a proposed facility on any air quality control region.

"(C) shall require the results of such analysis shall be available at the time of the public hearing on the application for such permit, and

"(D) shall specify with reasonable particularity each air quality model or models to be used under specified sets of conditions for purposes of this part.

Any model or models designated under such regulations may be adjusted upon a determination, after notice and opportunity for public hearing, by the Administrator that such adjustment is necessary to take into account unique terrain or meteorological characteristics of an area potentially affected by emissions from a source applying for a permit required under this part.

"OTHER POLLUTANTS

"SEC. 166. (a) In the case of the pollutants hydrocarbons, carbon monoxide, photochemical oxidants, and nitrogen oxides, the Administrator shall conduct a study and not later than two years after the date of enactment of this part, promulgate regulations to prevent the significant deterioration of air quality which would result from the emissions of such pollutants. In the case of pollutants for which national ambient air quality standards are promulgated after the date of the enactment of this part, he shall promulgate such regulations not more than 2 years after the date of promulgation of such standards.

"(b) Regulations referred to in subsection (a) shall become effective one year after the date of promulgation. Within 21 months after such date of promulgation such plan revision shall be submitted to the Administrator who shall approve or disapprove the plan within 25 months after such date of promulgation in the same manner as required under section 110.

"(c) Such regulations shall provide specific numerical measures against which permit applications may be evaluated, a framework for stimulating improved control technology, protection of air quality values, and fulfill the goals and purposes set forth in section 101 and section 160.

"(d) The regulations of the Administrator under subsection (a) shall provide specific measures at least as effective as the increments established in section 163 to fulfill such goals and purposes, and may contain air quality increments, emission density requirements, or other measures.

"(e) With respect to any air pollutant for which a national ambient air quality standard is established other than sulfur oxides or particulate matter, an area classification plan shall not be required under this section if the implementation plan adopted by the State and submitted for the Administrator's approval or promulgated by the Administrator under section 110(c) contains other provisions which when considered as a whole, the Administrator finds will carry out the purposes in section 160 at least as effectively as an area classification plan for such pollutant. Such other provisions referred to in the preceding sentence need not require the establishment of maximum allowable increases with respect to such pollutant for any area to which this section applies.
"ENFORCEMENT"

42 USC 7477.

"Sec. 167. The Administrator shall, and a State may, take such measures, including issuance of an order, or seeking injunctive relief, as necessary to prevent the construction of a major emitting facility which does not conform to the requirements of this part, or which is proposed to be constructed in any area included in the list promulgated pursuant to paragraph (1)(D) or (E) of subsection (d) of section 107 of this Act and which is not subject to an implementation plan which meets the requirements of this part.

"PERIOD BEFORE PLAN APPROVAL"

42 USC 7478.

"Sec. 168. (a) Until such time as an applicable implementation plan is in effect for any area, which plan meets the requirements of this part to prevent significant deterioration of air quality with respect to any air pollutant, applicable regulations under this Act prior to enactment of this Act shall remain in effect to prevent significant deterioration of air quality in any such area for any such pollutant except as otherwise provided in subsection (b).

"DEFINITIONS"

42 USC 7479.

"Sec. 169. For purposes of this part—

"(1) The term 'major emitting facility' means any of the following stationary sources of air pollutants which emit, or have the potential to emit, one hundred tons per year or more of any air pollutant from the following types of stationary sources: fossil-fuel fired steam electric plants of more than two hundred and fifty million British thermal units per hour heat input, coal cleaning plants (thermal dryers), kraft pulp mills, Portland Cement plants, primary zinc smelters, iron and steel mill plants, primary aluminum ore reduction plants, primary copper smelters, municipal incinerators capable of charging more than two hundred and fifty tons of refuse per day, hydrofluoric, sulfuric, and nitric acid plants, petroleum refineries, lime plants, phosphate rock processing plants, coke oven batteries, sulfur recovery plants, carbon black plants (furnace process), primary lead smelters, fuel conversion plants, sintering plants, secondary metal production facilities, chemical process plants, fossil-fuel boilers of more than two hundred and fifty million British thermal units per hour heat input, petroleum storage and transfer facilities with a capacity exceeding three hundred thousand barrels, taconite ore processing facilities, glas fiber processing plants, charcoal production facilities. Such term also includes any other source with the potential to emit two hundred and fifty tons per year or more of any air pollutant. This term shall not include new or modified facilities
which are nonprofit health or education institutions which have been exempted by the State.

“(2) (A) The term ‘commenced’ as applied to construction of a major emitting facility means that the owner or operator has obtained all necessary preconstruction approvals or permits required by Federal, State, or local air pollution emissions and air quality laws or regulations and either has (i) begun, or caused to begin, a continuous program of physical on-site construction of the facility or (ii) entered into binding agreements or contractual obligations, which cannot be canceled or modified without substantial loss to the owner or operator, to undertake a program of construction of the facility to be completed within a reasonable time.

“(B) The term ‘necessary preconstruction approvals or permits’ means those permits or approvals, required by the permitting authority as a precondition to undertaking any activity under clauses (i) or (ii) of subparagraph (A) of this paragraph.

“(3) The term ‘best available control technology’ means an emission limitation based on the maximum degree of reduction of each pollutant subject to regulation under this Act emitted from or which results from any major emitting facility, which the permitting authority, on a case-by-case basis, taking into account energy, environmental, and economic impacts and other costs, determines is achievable for such facility through application of production processes and available methods, systems, and techniques, including fuel cleaning or treatment or innovative fuel combustion techniques for control of each such pollutant. In no event shall application of ‘best available control technology’ result in emissions of any pollutant which will exceed the emissions allowed by any applicable standard established pursuant to section 111 or 112 of this Act.

“(4) The term ‘baseline concentration’ means, with respect to a pollutant, the ambient concentration levels which exist at the time of the first application for a permit in an area subject to this part, based on air quality data available in the Environmental Protection Agency or a State air pollution control agency and on such monitoring data as the permit applicant is required to submit. Such ambient concentration levels shall take into account all projected emissions in, or which may affect, such area from any major emitting facility on which construction commenced prior to January 6, 1975, but which has not begun operation by the date of the baseline air quality concentration determination. Emissions of sulfur oxides and particulate matter from any major emitting facility on which construction commenced after January 6, 1975, shall not be included in the baseline and shall be counted against the maximum allowable increases in pollutant concentrations established under this part.”.

(b) Within one year from the date of enactment of this Act the Administrator shall report to the Congress on the consequences of that portion of the definition of “major emitting facility” under the amendment made by subsection (a) which applies to facilities with the potential to emit two hundred and fifty tons per year or more. Such study shall examine the type of facilities covered, the air quality benefits of including such facilities, and the administrative aspect of regulating such facilities.

(c) Not later than one year after the date of enactment of this Act, the Administrator shall publish a guidance document to assist the

Report to Congress. 42 USC 7479 note.

Guidance document, publication. 42 USC 7470 note.
States in carrying out their functions under part C of title I of the Clean Air Act (relating to prevention of significant deterioration of air quality) with respect to pollutants, other than sulfur oxides and particulates, for which national ambient air quality standards are promulgated. Such guidance document shall include recommended strategies for controlling photochemical oxidants on a regional or multistate basis for the purpose of implementing part C and section 110 of such Act.

(d) Not later than two years after the date of enactment of this Act, the Administrator shall complete a study and report to the Congress on the progress made in carrying out part C of title I of the Clean Air Act (relating to significant deterioration of air quality) and the problems associated with carrying out such section, including recommendations for legislative changes necessary to implement strategies for controlling photochemical oxidants on a regional or multistate basis.

VISIBILITY PROTECTION

Sec. 128. (a) Part C of title I of the Clean Air Act, is amended by adding the following new section after section 168:

"VISIBILITY PROTECTION FOR FEDERAL CLASS I AREAS"

SEC. 169A. (a) (1) Congress hereby declares as a national goal the prevention of any future, and the remedying of any existing, impairment of visibility in mandatory class I Federal areas which impairment results from manmade air pollution.

(2) Not later than six months after the date of the enactment of this section, the Secretary of the Interior in consultation with other Federal land managers shall review all mandatory class I Federal areas and identify those where visibility is an important value of the area. From time to time the Secretary of the Interior may revise such identifications. Not later than one year after such date of enactment, the Administrator shall, after consultation with the Secretary of the Interior, promulgate a list of mandatory class I Federal areas in which he determines visibility is an important value.

(3) Not later than eighteen months after the date of enactment of this section, the Administrator shall complete a study and report to Congress on available methods for implementing the national goal set forth in paragraph (1). Such report shall include recommendations for—

(A) methods for identifying, characterizing, determining, quantifying, and measuring visibility impairment in Federal areas referred to in paragraph (1), and

(B) modeling techniques (or other methods) for determining the extent to which manmade air pollution may reasonably be anticipated to cause or contribute to such impairment, and

(C) methods for preventing and remedying such manmade air pollution and resulting visibility impairment.

Such report shall also identify the classes or categories of sources and the types of air pollutants which, alone or in conjunction with other sources or pollutants, may reasonably be anticipated to cause or contribute significantly to impairment of visibility.

(4) Not later than twenty-four months after the date of enactment of this section, and after notice and public hearing, the Administrator shall promulgate regulations to assure (A) reasonable progress toward
meeting the national goal specified in paragraph (1), and (B) compliance with the requirements of this section.

"(b) Regulations under subsection (a) (4) shall—

"(1) provide guidelines to the States, taking into account the recommendations under subsection (a) (3) on appropriate techniques and methods for implementing this section (as provided in subparagraphs (A) through (C) of such subsection (a) (3)), and

"(2) require each applicable implementation plan for a State in which any area listed by the Administrator under subsection (a) (2) is located (or for a State the emissions from which may reasonably be anticipated to cause or contribute to any impairment of visibility in any such area) to contain such emission limits, schedules of compliance and other measures as may be necessary to make reasonable progress toward meeting the national goal specified in subsection (a), including—

"(A) except as otherwise provided pursuant to subsection (c), a requirement that each major stationary source which is in existence on the date of enactment of this section, but which has not been in operation for more than fifteen years as of such date, and which, as determined by the State (or the Administrator in the case of a plan promulgated under section 110(c)) emits any air pollutant which may reasonably be anticipated to cause or contribute to any impairment of visibility in any such area, shall procure, install, and operate, as expeditiously as practicable (and maintain thereafter) the best available retrofit technology, as determined by the State (or the Administrator in the case of a plan promulgated under section 110(c)) for controlling emissions from such source for the purpose of eliminating or reducing any such impairment, and

"(B) a long-term (ten to fifteen years) strategy for making reasonable progress toward meeting the national goal specified in subsection (a).

In the case of a fossil-fuel fired generating powerplant having a total generating capacity in excess of 750 megawatts, the emission limitations required under this paragraph shall be determined pursuant to guidelines, promulgated by the Administrator under paragraph (1).

"(c)(1) The Administrator may, by rule, after notice and opportunity for public hearing, exempt any major stationary source from the requirement of subsection (b) (2)(A), upon his determination that such source does not or will not, by itself or in combination with other sources, emit any air pollutant which may reasonably be anticipated to cause or contribute to a significant impairment of visibility in any mandatory class I Federal area.

"(2) Paragraph (1) of this subsection shall not be applicable to any fossil-fuel fired powerplant with total design capacity of 750 megawatts or more, unless the owner or operator of any such plant demonstrates to the satisfaction of the Administrator that such powerplant is located at such distance from all areas listed by the Administrator under subsection (a) (2) that such powerplant does not or will not, by itself or in combination with other sources, emit any air pollutant which may reasonably be anticipated to cause or contribute to significant impairment of visibility in any such area.

"(3) An exemption under this subsection shall be effective only upon concurrence by the appropriate Federal land manager or managers with the Administrator's determination under this subsection.
“(d) Before holding the public hearing on the proposed revision of an applicable implementation plan to meet the requirements of this section, the State (or the Administrator, in the case of a plan promulgated under section 110(c)) shall consult in person with the appropriate Federal land manager or managers and shall include a summary of the conclusions and recommendations of the Federal land managers in the notice to the public.

“(e) In promulgating regulations under this section, the Administrator shall not require the use of any automatic or uniform buffer zone or zones.

“(f) For purposes of section 304(a)(2), the meeting of the national goal specified in subsection (a)(1) by any specific date or dates shall not be considered a 'nondiscretionary duty' of the Administrator.

“(g) For the purpose of this section—

“(1) in determining reasonable progress there shall be taken into consideration the costs of compliance, the time necessary for compliance, and the energy and nonair quality environmental impacts of compliance, and the remaining useful life of any existing source subject to such requirements;

“(2) in determining best available retrofit technology the State (or the Administrator in determining emission limitations which reflect such technology) shall take into consideration the costs of compliance, the energy and nonair quality environmental impacts of compliance, any existing pollution control technology in use at the source, the remaining useful life of the source, and the degree of improvement in visibility which may reasonably be anticipated to result from the use of such technology;

“(3) the term 'manmade air pollution' means air pollution which results directly or indirectly from human activities;

“(4) the term 'as expeditiously as practicable means as expeditiously as practicable but in no event later than five years after the date of approval of a plan revision under this section (or the date of promulgation of such a plan revision in the case of action by the Administrator under section 110(c) for purposes of this section);

“(5) the term 'mandatory class I Federal areas' means Federal areas which may not be designated as other than class I under this part;

“(6) the terms 'visibility impairment' and 'impairment of visibility' shall include reduction in visual range and atmospheric discoloration; and

“(7) the term 'major stationary source' means the following types of stationary sources with the potential to emit 250 tons or more of any pollutant: fossil-fuel fired steam electric plants of more than 250 million British thermal units per hour heat input, coal cleaning plants (thermal dryers), kraft pulp mills, Portland Cement plants, primary zinc smelters, iron and steel mill plants, primary aluminum ore reduction plants, primary copper smelters, municipal incinerators capable of charging more than 250 tons of refuse per day, hydrofluoric, sulfuric, and nitric acid plants, petroleum refineries, lime plants, phosphate rock processing plants, coke oven batteries, sulfur recovery plants, carbon black plants (furnace process), primary lead smelters, fuel conversion plants, sintering plants, secondary metal production facilities, chemical process plants, fossil-fuel boilers of more than 250 million British thermal units per hour heat input, petroleum storage and transfer
facilities with a capacity exceeding 300,000 barrels, taconite ore processing facilities, glass fiber processing plants, charcoal production facilities.".

NONATTAINMENT AREAS

SEC. 129. (a) (1) Before July 1, 1979, the interpretative regulation of the Administrator of the Environmental Protection Agency published in 41 Federal Register 55524–30, December 21, 1976, as may be modified by rule of the Administrator, shall apply except that the baseline to be used for determination of appropriate emission offsets under such regulation shall be the applicable implementation plan of the State in effect at the time of application for a permit by a proposed major stationary source (within the meaning of section 302 of the Clean Air Act).

(2) Before July 1, 1979, the requirements of the regulation referred to in paragraph (1) shall be waived by the Administrator with respect to any pollutant if he determines that the State has—

(A) an inventory of emissions of the applicable pollutant for each nonattainment area (as defined in section 171 of the Clean Air Act) that identifies the type, quantity, and source of such pollutant so as to provide information sufficient to demonstrate that the requirements of subparagraph (C) are being met;

(B) an enforceable permit program which—

   (i) requires new or modified major stationary sources to meet emission limitations at least as stringent as required under the permit requirements referred to in paragraphs (2) and (3) of section 173 of the Clean Air Act (relating to lowest achievable emission rate and compliance by other sources) and which assures compliance with the annual reduction requirements of subparagraph (C); and

   (ii) requires existing sources to achieve such reduction in emissions in the area as may be obtained through the adoption, at a minimum of reasonably available control technology, and

(C) a program which requires reductions in total allowable emissions in the area prior to January 1, 1979, so as to provide for the same level of emission reduction as would result from the application of the regulation referred to in paragraph (1).

The Administrator shall terminate such waiver if in his judgment at the reduction in emissions actually being attained is less than the reduction on which the waiver was conditioned pursuant to subparagraph (C), or if the Administrator determines that the State is no longer in compliance with any requirement of this paragraph. Upon application by the State, the Administrator may reinstate a waiver terminated under the preceding sentence if he is satisfied that such State is in compliance with all requirements of this subsection.

(3) Operating permits may be issued to those applicants who were properly granted construction permits, in accordance with the law and applicable regulations in effect at the time granted, for construction of a new or modified source in areas exceeding national primary air quality standards on or before the date of the enactment of this Act if such construction permits were granted prior to the date of the enactment of this Act and the person issued any such permit is able to demonstrate that the emissions from the source will be within the limitations set forth in such construction permit.

"PART D—PLAN REQUIREMENTS FOR NONATTAINMENT AREAS

"DEFINITIONS

"Sec. 171. For the purpose of this part and section 110(a) (2)(I)—

(1) The term 'reasonable further progress' means annual incremental reductions in emissions of the applicable air pollutant (including substantial reductions in the early years following approval or promulgation of plan provisions under this part and section 110(a) (2)(I) and regular reductions thereafter) which are sufficient in the judgment of the Administrator, to provide for attainment of the applicable national ambient air quality standard by the date required in section 172(a).

(2) The term 'nonattainment area' means, for any air pollutant an area which is shown by monitored data or which is calculated by air quality modeling (or other methods determined by the Administrator to be reliable) to exceed any national ambient air quality standard for such pollutant. Such term includes any area identified under subparagraphs (A) through (C) of section Ante, p. 687.

(3) The term 'lowest achievable emission rate' means for any source, that rate of emissions which reflects—

(A) the most stringent emission limitation which is contained in the implementation plan of any State for such class or category of source, unless the owner or operator of the proposed source demonstrates that such limitations are not achievable, or

(B) the most stringent emission limitation which is achieved in practice by such class or category of source, whichever is more stringent.

In no event shall the application of this term permit a proposed new or modified source to emit any pollutant in excess of the amount allowable under applicable new source standards of performance.

(4) The terms 'modifications' and 'modified' mean the same as the term 'modification' as used in section 111(a)(4) of this Act.

42 USC 7511.

"NONATTAINMENT PLAN PROVISIONS

42 USC 7502.

"Sec. 172. (a)(1) The provisions of an applicable implementation plan for a State relating to attainment and maintenance of national ambient air quality standards in any nonattainment area which are required by section 110(a)(2)(I) as a precondition for the construction or modification of any major stationary source in any such area on or after July 1, 1979, shall provide for attainment of each such national ambient air quality standard in each such area as expeditiously as practicable, but, in the case of national primary ambient air quality standards, not later than December 31, 1982.

(2) In the case of the national primary ambient air quality standard for photochemical oxidants or carbon monoxide (or both) if the State demonstrates to the satisfaction of the Administrator (on or before the time required for submission of such plan) that such attainment is not possible in an area with respect to either or both of such pollutants within the period prior to December 31, 1982, despite the implementation of all reasonably available measures, such provisions shall provide for the attainment of the national primary standard
for the pollutant (or pollutants) with respect to which such demonstration is made, as expeditiously as practicable but not later than December 31, 1987.

"(b) The plan provisions required by subsection (a) shall—

"(1) be adopted by the State (or promulgated by the Administrator under section 110(c)) after reasonable notice and public hearing;

"(2) provide for the implementation of all reasonably available control measures as expeditiously as practicable;

"(3) require, in the interim, reasonable further progress (as defined in section 171(1)) including such reduction in emissions from existing sources in the area as may be obtained through the adoption, at a minimum, of reasonably available control technology;

"(4) include a comprehensive, accurate, current inventory of actual emissions from all sources (as provided by rule of the Administrator) of each such pollutant for each such area which is revised and resubmitted as frequently as may be necessary to assure that the requirements of paragraph (3) are met and to assess the need for additional reductions to assure attainment of each standard by the date required under paragraph (1);

"(5) expressly identify and quantify the emissions, if any, of any such pollutant which will be allowed to result from the construction and operation of major new or modified stationary sources for each such area;

"(6) require permits for the construction and operation of new or modified major stationary sources in accordance with section 173 (relating to permit requirements);

"(7) identify and commit the financial and manpower resources necessary to carry out the plan provisions required by this subsection;

"(8) contain emission limitations, schedules of compliance and such other measures as may be necessary to meet the requirements of this section;

"(9) evidence public, local government, and State legislative involvement and consultation in accordance with section 174 (relating to planning procedures) and include (A) an identification and analysis of the air quality, health, welfare, economic, energy, and social effects of the plan provisions required by this subsection and of the alternatives considered by the State, and (B) a summary of the public comment on such analysis;

"(10) include written evidence that the State, the general purpose local government or governments, or a regional agency designated by general purpose local governments for such purpose, have adopted by statute, regulation, ordinance, or other legally enforceable document, the necessary requirements and schedules and timetables for compliance, and are committed to implement and enforce the appropriate elements of the plan;

"(11) in the case of plans which make a demonstration pursuant to paragraph (2) of subsection (a)—

"(A) establish a program which requires, prior to issuance of any permit for construction or modification of a major emitting facility, an analysis of alternative sites, sizes, production processes, and environmental control techniques for such proposed source which demonstrates that benefits of the proposed source significantly outweigh the environmental and
imposed as a result of its location, construction, or modification;

“(B) establish a specific schedule for implementation of a vehicle emission control inspection and maintenance program; and

“(C) identify other measures necessary to provide for attainment of the applicable national ambient air quality standard not later than December 31, 1987.

“(c) In the case of a State plan revision required under the Clean Air Act Amendments of 1977 to be submitted before July 1, 1982, by reason of a demonstration under subsection (a)(2), effective on such date such plan shall contain enforceable measures to assure attainment of the applicable standard not later than July 1, 1987.

"PERMIT REQUIREMENTS"

42 USC 7503. ”SEC. 173. The permit program required by section 172(b)(6) shall provide that permits to construct and operate may be issued if—

“(1) the permitting agency determines that—

“(A) by the time the facility is to commence operation, total allowable emissions from existing sources in the region, from new sources which are not major emitting facilities, and from the proposed facility will be sufficiently less than total emissions from existing sources allowed under the implementation plan prior to the application for such permit to construct or modify so as to represent (when considered together with the plan provisions required under section 172) reasonable further progress (as defined in section 171); or

“(B) that emissions of such pollutant resulting from the proposed new or modified major stationary source will not cause or contribute to emissions levels which exceed the allowance permitted for such pollutant for such area from new or modified major stationary sources under section 172(b);

“(2) the proposed source is required to comply with the lowest achievable emission rate; and

“(3) the owner or operator of the proposed new or modified source has demonstrated that all major stationary sources owned or operated by such person (or by any entity controlling, controlled by, or under common control with such person) in such State are subject to emission limitations and are in compliance, or on a schedule for compliance, with all applicable emission limitations and standards under this Act.

Any emission reductions required as a precondition of the issuance of a permit under paragraph (1)(A) shall be legally binding before such permit may be issued.

"PLANNING PROCEDURES"

42 USC 7504. ”SEC. 174. (a) Within six months after the enactment of the Clean Air Act Amendments of 1977, for each region in which the national primary ambient air quality standard for carbon monoxide or photochemical oxidants will not be attained by July 1, 1979, the State and elected officials of affected local governments shall jointly determine which elements of a revised implementation plan will be planned for and implemented or enforced by the State and which such elements will be planned for and implemented or enforced by local governments or regional agencies, or any combination of local
governments, regional agencies, or the State. Where possible within the time required under this subsection, the implementation plan required by this part shall be prepared by an organization of elected officials of local governments designated by agreement of the local governments in an affected area, and certified by the State for this purpose. Where such an organization has not been designated by agreement within six months after the enactment of the Clean Air Act Amendments of 1977, the Governor (or, in the case of an interstate area, Governors), after consultation with elected officials of local governments, and in accordance with the determination under the first sentence of this subparagraph, shall designate an organization of elected officials of local governments in the affected area or a State agency to prepare such plan. Where feasible, such organization shall be the metropolitan planning organization designated to conduct the continuing, cooperative and comprehensive transportation planning process for the area under section 134 of title 23, United States Code, or the organization responsible for the air quality maintenance planning process under regulations implementing this section, or the organization with both responsibilities.

"(b) The preparation of implementation plan provisions under this part shall be coordinated with the continuing, cooperative, and comprehensive transportation planning process required under section 134 of title 23, United States Code, and the air quality maintenance planning process required under section 110, and such planning processes shall take into account the requirements of this part.

"ENVIRONMENTAL PROTECTION AGENCY GRANTS

"Sec. 175. (a) The Administrator shall make grants to any organization of local elected officials with transportation or air quality maintenance planning responsibilities recognized by the State under section 174(a) for payment of the reasonable costs of developing a plan revision under this part.

"(b) The amount granted to any organization under subsection (a) shall be 100 percent of any additional costs of developing a plan revision under this part for the first two fiscal years following receipt of the grant under this paragraph, and shall supplement any funds available under Federal law to such organization for transportation or air quality maintenance planning. Grants under this section shall not be used for construction.

"LIMITATIONS ON CERTAIN FEDERAL ASSISTANCE

"Sec. 176. (a) The Administrator shall not approve any projects or award any grants authorized by this Act and the Secretary of Transportation shall not approve any projects or award any grants under title 23, United States Code, other than for safety, mass transit, or transportation improvement projects related to air quality improvement or maintenance, in any air quality control region—

"(1) in which any primary ambient air quality standard has not been attained,

"(2) where transportation control measures are necessary for the attainment of such standard, and

"(3) where the Administrator finds after July 1, 1979, that the Governor has not submitted an implementation plan which considers each of the elements required by section 172 or that reasonable efforts toward submitting such an implementation plan
are not being made (or, after July 1, 1982, in the case of an implement-
ment plan revision required under section 172 to be submitted
before July 1, 1982).

“(b) In any area in which the State or, as the case may be, the general
purpose local government or governments or any regional agency
designated by such general purpose local governments for such purpose,
is not implementing any requirement of an approved or promulgated
plan under section 110, including any requirement for a revised imple-
mentation plan under this part, the Administrator shall not make any
grants under this Act.

“(c) No department, agency, or instrumentality of the Federal Gov-
ernment shall (1) engage in, (2) support in any way or provide finan-
cial assistance for, (3) license or permit, or (4) approve, any activity
which does not conform to a plan after it has been approved or promul-
gated under section 110. No metropolitan planning organization design-
ated under section 134 of title 23, United States Code, shall give its
approval to any project, program, or plan which does not conform to
a plan approved or promulgated under section 110. The assurance of
conformity to such a plan shall be an affirmative responsibility of the
head of such department, agency, or instrumentality.

“(d) Each department, agency, or instrumentality of the Federal
Government having authority to conduct or support any program with
air-quality related transportation consequences shall give priority in
the exercise of such authority, consistent with statutory requirements
for allocation among States or other jurisdictions, to the implementa-
tion of those portions of plans prepared under this section to achieve
and maintain the national primary ambient air quality standard. This
paragraph extends to, but is not limited to, authority exercised under
the Urban Mass Transportation Act, title 23 of the United States Code,
and the Housing and Urban Development Act.

“NEW MOTOR VEHICLE EMISSION STANDARDS IN NONATTAINMENT AREAS

“SEC. 177. Notwithstanding section 209(a), any State which has
plan provisions approved under this part may adopt and enforce for
any model year standards relating to control of emissions from new
motor vehicles or new motor vehicle engines and take such other
actions as are referred to in section 209(a) respecting such vehicles if—

“(1) such standards are identical to the California standards
for which a waiver has been granted for such model year, and

“(2) California and such State adopt such standards at least
two years before commencement of such model year (as deter-
mined by regulations of the Administrator).

“GUIDANCE DOCUMENTS

“SEC. 178. The Administrator shall issue guidance documents under
section 108 for purposes of assisting States in implementing require-
ments of this part respecting the lowest achievable emission rate.
Such a document shall be published not later than nine months after
the date of enactment of this part and shall be revised at least every
two years thereafter.”.

“(c) Notwithstanding the requirements of section 406(d) (2) (relat-
ing to date required for submission of certain implementation plan
revisions), for purposes of section 110(a) (2) of the Clean Air Act
each State in which there is any nonattainment area (as defined in
subpart D of the Clean Air Act) shall adopt and submit an implement-
ment plan revision which meets the requirements of section 101
(a)(2)(I) and subpart D of the Clean Air Act not later than
January 1, 1979. In the case of any State for which a plan revision
adopted and submitted before such date has made the demonstration
required under section 172(a)(2) of the Clean Air Act (respecting
impossibility of attainment before 1983), such State shall adopt and
submit to the Administrator a plan revision before July 1, 1982,
which meets the requirements of section 172 (b) and (c) of such Act.

TITLE II—AMENDMENTS RELATING PRIMARILY
TO TITLE II OF THE CLEAN AIR ACT

LIGHT-DUTY MOTOR VEHICLE EMISSIONS

Sec. 201. (a) Subparagraph (A) of section 202(b)(1) of the Clean
Air Act is amended to read as follows:

“(A) The regulations under subsection (a) applicable to emissions
of carbon monoxide and hydrocarbons from light-duty vehicles and
engines manufactured during model years 1977 through 1979 shall
contain standards which provide that such emissions from such
vehicles and engines may not exceed 1.5 grams per vehicle mile of
hydrocarbons and 15.0 grams per vehicle mile of carbon monoxide.
The regulations under subsection (a) applicable to emissions of car-
bon monoxide from light-duty vehicles and engines manufactured
during the model year 1980 shall contain standards which provide
that such emissions may not exceed 7.0 grams per vehicle mile. The
regulations under subsection (a) applicable to emissions of hydro-
carbons from light-duty vehicles and engines manufactured during or
after model year 1980 shall contain standards which require a reduc-
tion of at least 90 percent from emissions of such pollutant allowable
under the standards under this section applicable to light-duty
vehicles and engines manufactured in model year 1970. Unless waived
as provided in paragraph (5), regulations under subsection (a) appli-
cable to emissions of carbon monoxide from light-duty vehicles and
engines manufactured during or after the model year 1981 shall con-
tain standards which require a reduction of at least 90 percent from
emissions of such pollutant allowable under the standards under this
section applicable to light-duty vehicles and engines manufactured in
model year 1970.”.

(b) Subparagraph (B) of section 202(b)(1) of such Act is
amended to read as follows:

“(B) The regulations under subsection (a) applicable to emissions
of oxides of nitrogen from light-duty vehicles and engines manufac-
tured during model years 1977 through 1980 shall contain standards
which provide that such emissions from such vehicles and engines may
not exceed 2.0 grams per vehicle mile. The regulations under subsec-
tion (a) applicable to emissions of oxides of nitrogen from light-duty
vehicles and engines manufactured during the model year 1981 and
thereafter shall contain standards which provide that such emissions
from such vehicles and engines may not exceed 1.0 gram per vehicle
mile. The Administrator shall prescribe standards in lieu of those
required by the preceding sentence, which provide that emissions of
oxides of nitrogen may not exceed 2.0 grams per vehicle mile for any
light-duty vehicle manufactured during model years 1981 and 1982
by any manufacturer whose production, by corporate identity, for
model year 1976 was less than three hundred thousand light-duty motor vehicles worldwide if the Administrator determines that—

"(i) the ability of such manufacturer to meet emission standards in the 1975 and subsequent model years was, and is, primarily dependent upon technology developed by United States manufacturers and purchased from such manufacturers; and

"(ii) such manufacturer lacks the financial resources and technological ability to develop such technology."

42 USC 7521.

(c) Section 202(b) of such Act is amended by striking out paragraph (5) thereof and substituting the following:

"Waiver, application."

"(5) (A) At any time after August 31, 1978, any manufacturer may file an application requesting the waiver for model years 1981 and 1982 of the effective date of the emission standard required by paragraph (1) (A) for carbon monoxide applicable to any model (as determined by the Administration) of light-duty motor vehicles and engines manufactured in such model years. The Administrator shall make his determination with respect to any such application within sixty days after such application is filed with respect to such model. If he determines, in accordance with the provisions of this paragraph, that such waiver should be granted, he shall simultaneously with such determination prescribe by regulation emission standards which shall apply (in lieu of the standards required to be prescribed by paragraph (1) (A) of this subsection) to emissions of carbon monoxide from such model of vehicles or engines manufactured during model years 1981 and 1982.

"(B) Any standards prescribed under this paragraph shall not permit emissions of carbon monoxide from vehicles and engines to which such waiver applies to exceed 7.0 grams per vehicle per mile.

"Decision."

"(C) Within sixty days after receipt of the application for any such waiver and after public hearing, the Administrator shall issue a decision granting or refusing such waiver. The Administrator may grant such waiver if he finds that protection of the public health does not require attainment of such 90 percent reduction for carbon monoxide for the model years to which such waiver applies in the case of such vehicles and engines and if he determines that—

"(i) such waiver is essential to the public interest or the public health and welfare of the United States;

"(ii) all good faith efforts have been made to meet the standards established by this subsection;

"(iii) the applicant has established that effective control technology, processes, operating methods, or other alternatives are not available or have not been available with respect to the model in question for a sufficient period of time to achieve compliance prior to the effective date of such standards, taking into consideration costs, driveability, and fuel economy; and

"(iv) studies and investigations of the National Academy of Sciences conducted pursuant to subsection (c) and other information available to him has not indicated that technology, processes, or other alternatives are available (within the meaning of clause (iii)) to meet such standards.

"Waiver, petition."

"(6) (A) Upon the petition of any manufacturer, the Administrator, after notice and opportunity for public hearing, may waive the standard required under subparagraph (B) of paragraph (1) to not exceed 1.5 grams of oxides of nitrogen per vehicle mile for any class or category of light-duty vehicles or engines manufactured by such manufacturer during any period of up to four model years beginning
after the model year 1980 if the manufacturer demonstrates that such waiver is necessary to permit the use of an innovative power train technology, or innovative emission control device or system, in such class or category of vehicles or engines and that such technology or system was not utilized by more than 1 percent of the light-duty vehicles sold in the United States in the 1975 model year. Such waiver may be granted only if the Administrator determines—

"(i) that such waiver would not endanger public health,

"(ii) that there is a substantial likelihood that the vehicles or engines will be able to comply with the applicable standard under this section at the expiration of the waiver, and

"(iii) that the technology or system has a potential for long-term air quality benefit and has the potential to meet or exceed the average fuel economy standard applicable under the Energy Policy and Conservation Act upon the expiration of the waiver.

No waiver under this subparagraph granted to any manufacturer shall apply to more than 5 percent of such manufacturer's production or more than fifty thousand vehicles or engines, whichever is greater.

"(B) Upon the petition of any manufacturer, the Administrator, after notice and opportunity for public hearing, may waive the standard required under subparagraph (B) of paragraph (1) to not to exceed 1.5 grams of oxides of nitrogen per vehicle mile for any class or category of light-duty vehicles and engines manufactured by such manufacturer during the four model year period beginning with the model year 1981 if the manufacturer can show that such waiver is necessary to permit the use of diesel engine technology in such class or category of vehicles or engines. Such waiver may be granted if the Administrator determines—

"(i) that such waiver will not endanger public health,

"(ii) that such waiver will result in significant fuel savings at least equal to the fuel economy standard applicable in each year under the Energy Policy and Conservation Act, and

"(iii) that the technology has a potential for long-term air quality benefit and has the potential to meet or exceed the average fuel economy standard applicable under the Energy Policy and Conservation Act at the expiration of the waiver."

STUDIES AND RESEARCH OBJECTIVE FOR OXIDES OF NITROGEN

SEC. 202. (a) The Administrator of the Environmental Protection Agency shall conduct a study of the public health implications of attaining an emission standard on oxides of nitrogen from light duty vehicles of 0.4 gram per vehicle mile, the cost and technological capability of attaining such standard, and the need for such a standard to protect public health or welfare. The Administrator shall submit a report of such study to the Congress, together with recommendations not later than July 1, 1980.

(b) Section 202(b) of the Clean Air Act is amended by adding a new paragraph (7) as follows:

"(7) The Congress hereby declares and establishes as a research objective, the development of propulsion systems and emission control technology to achieve standards which represent a reduction of at least 90 per centum from the average emissions of oxides of nitrogen actually measured from light duty motor vehicles manufactured in model year 1971 not subject to any Federal or State emission standard.
for oxides of nitrogen. The Administrator shall, by regulations promulgated within one hundred and eighty days after enactment of the Clean Air Act Amendments of 1977, require each manufacturer whose sales represent at least 0.5 per centum of light duty motor vehicle sales in the United States, to build and, on a regular basis, demonstrate the operation of light duty motor vehicles that meet this research objective, in addition to any other applicable standards or requirements for other pollutants under this Act. Such demonstration vehicles shall be submitted to the Administrator no later than model year 1979 and in each model year thereafter. Such demonstration shall, in accordance with applicable regulations, to the greatest extent possible, (A) be designed to encourage the development of new powerplant and emission control technologies that are fuel efficient, (B) assure that the demonstration vehicles are or could reasonably be expected to be within the productive capability of the manufacturers, and (C) assure the utilization of optimum engine, fuel, and emission control systems.”.

STUDY AND REPORT OF FUEL CONSUMPTION

SEC. 203. (a) Following each motor vehicle model year, the Administrator of the Environmental Protection Agency shall report to the Congress respecting the motor vehicle fuel consumption associated with the standards applicable for the immediately preceding model year.

(b) The Secretary of Transportation and the Secretary of Energy shall each submit to Congress, as promptly as practicable following submission by the Administrator of the fuel consumption report referred to in subsection (a), separate reports respecting such fuel consumption.

STATE GRANTS

SEC. 204. Section 210 of such Act is amended by adding the following at the end thereof: “Grants may be made under this section by way of reimbursement in any case in which amounts have been expended by the State before the date on which any such grant was made.”.

COST OF CERTAIN EMISSION CONTROL PARTS

SEC. 205. Section 207(a) of the Clean Air Act is amended by adding the following at the end thereof: “(3) The cost of any part, device, or component of any light-duty vehicle that is designed for emission control and which in the instructions issued pursuant to subsection (c)(3) of this section is scheduled for replacement during the useful life of the vehicle in order to maintain compliance with regulations under section 202 of this Act, the failure of which shall not interfere with the normal performance of the vehicle, and the expected retail price of which, including installation costs, is greater than 2 percent of the suggested retail price of such vehicle, shall be borne or reimbursed at the time of replacement by the vehicle manufacturer and such replacement shall be provided without cost to the ultimate purchaser, subsequent purchaser, or dealer. The term ‘designed for emission control’ as used in the preceding sentence means a catalytic converter, thermal reactor, or other component installed on or in a vehicle for the sole or primary purpose of reducing vehicle emissions (not including those vehicle components which were in general use prior to model year 1968 and the primary function of which is not related to emission control).”.
WARRANTIES

Sec. 206. Section 203(a)(4) of the Clean Air Act is amended by striking “or” at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting a comma, and by adding the following new subparagraphs:

“(C) except as provided in subsection (c)(8) of section 207, to provide directly or indirectly in any communication to the ultimate purchaser or any subsequent purchaser that the coverage of any warranty under this Act is conditioned upon use of any part, component, or system manufactured by such manufacturer or any person acting for such manufacturer or under his control, or conditioned upon service performed by any such person,

“(D) to fail or refuse to comply with the terms and conditions of the warranty under section 207(a) or (b) with respect to any vehicle.”

CALIFORNIA WAIVER

Sec. 207. Section 209(b) of the Clean Air Act is amended to read as follows:

“(b)(1) The Administrator shall, after notice and opportunity for public hearing, waive application of this section to any State which has adopted standards (other than crankcase emission standards) for the control of emissions from new motor vehicles or new motor vehicle engines prior to March 30, 1966, if the State determines that the State standards will be, in the aggregate, at least as protective of public health and welfare as applicable Federal standards. No such waiver shall be granted if the Administrator finds that—

“(A) the determination of the State is arbitrary and capricious,

“(B) such State does not need such State standards to meet compelling and extraordinary conditions, or

“(C) such State standards and accompanying enforcement procedures are not consistent with section 202(a) of this part.

“(2) If each State standard is at least as stringent as the comparable applicable Federal standard, such State standard shall be deemed to be at least as protective of health and welfare as such Federal standards for purposes of paragraph (1).

“(3) In the case of any new motor vehicle or new motor vehicle engine to which State standards apply pursuant to a waiver granted under paragraph (1), compliance with such State standards shall be treated as compliance with applicable Federal standards for purposes of this title.”

MAINTENANCE INSTRUCTIONS

Sec. 208. Paragraph (3) of subsection (c) of section 207 of the Clean Air Act is amended to read as follows:

“(3)(A) The manufacturer shall furnish with each new motor vehicle or motor vehicle engine written instructions for the proper maintenance and use of the vehicle or engine by the ultimate purchaser and such instructions shall correspond to regulations which the Administrator shall promulgate. The manufacturer shall provide in boldface type on the first page of the written maintenance instructions notice that maintenance, replacement, or repair of the emission control devices and systems may be performed by any automotive repair establishment or individual using any automotive part which has been certified as provided in subsection (a)(2).

“(B) The instruction under subparagraph (A) of this paragraph...
shall not include any condition on the ultimate purchaser's using, in connection with such vehicle or engine, any component or service (other than a component or service provided without charge under the terms of the purchase agreement) which is identified by brand, trade, or corporate name; or directly or indirectly distinguishing between service performed by the franchised dealers of such manufacturer or any other service establishments with which such manufacturer has a commercial relationship, and service performed by independent automotive repair facilities with which such manufacturer has no commercial relationship; except that the prohibition of this subsection may be waived by the Administrator if—

“(i) the manufacturer satisfies the Administrator that the vehicle or engine will function properly only if the component or service so identified is used in connection with such vehicle or engine, and

“(ii) the Administrator finds that such a waiver is in the public interest.

Certificate of conformity, label.

In addition, the manufacturer shall indicate by means of a label or tag permanently affixed to such vehicle or engine that such vehicle or engine is covered by a certificate of conformity issued for the purpose of assuring achievement of emissions standards prescribed under section 202 of this Act. Such label or tag shall contain such other information relating to control of motor vehicle emissions as the Administrator shall prescribe by regulation.”.

WARRANTIES AND MOTOR VEHICLE PARTS CERTIFICATION

42 USC 7541.

Sec. 209. (a) Section 207(b)(2) of the Clean Air Act is amended by adding the following at the end thereof: “No such warranty shall be invalid on the basis of any part used in the maintenance or repair of a vehicle or engine if such part was certified as provided under subsection (a)(2).”.

(b) Section 207(a) of such Act is amended by striking out “(1)” and “(2)” and inserting in lieu thereof “(A)” and “(B)” respectively, by inserting “(1)” after “(a)” and by adding the following new paragraph at the end thereof:

“(2) In the case of a motor vehicle part or motor vehicle engine part, the manufacturer or rebuilder of such part may certify that use of such part will not result in a failure of the vehicle or engine to comply with emission standards promulgated under section 202. Such certification shall be made only under such regulations as may be promulgated by the Administrator to carry out the purposes of subsection (b). The Administrator shall promulgate such regulations no later than two years following the date of the enactment of this paragraph.”.

(c) Section 207(b) of such Act, as amended by subsection (a), is amended by adding the following at the end thereof: “For purposes of the warranty under this subsection, for the period after twenty-four months or twenty-four thousand miles (whichever first occurs) the term ‘emission control device or system’ means a catalytic converter, thermal reactor, or other component installed on or in a vehicle for the sole or primary purpose of reducing vehicle emissions. Such term shall not include those vehicle components which were in general use prior to model year 1968.”.

REPAIR AT OWNER’S PLACE OF CHOOSING

Sec. 210. Section 207 of the Clean Air Act is amended by adding the following new subsection:
“(g) For the purposes of this section, the owner of any motor vehicle or motor vehicle engine warranted under this section is responsible in the proper maintenance of such vehicle or engine to replace and to maintain, at his expense at any service establishment or facility of his choosing, such items as spark plugs, points, condensers, and any other part, item, or device related to emission control (but not designed for emission control under the terms of the last three sentences of section 207(a)(1)), unless such part, item, or device is covered by any warranty not mandated by this Act.”

HIGH ALTITUDE PERFORMANCE ADJUSTMENTS

Sec. 211. (a) Section 203(a) of the Clean Air Act is amended by adding the following at the end thereof: “No action with respect to any element of design referred to in paragraph (3) (including any adjustment or alteration of such element) shall be treated as a prohibited Act under such paragraph (3) if such action is in accordance with section 215”.

(b) Part A of title II of such Act is amended by inserting the following new section after section 214:

“HIGH ALTITUDE PERFORMANCE ADJUSTMENTS

Sec. 215. (a)(1) Any action taken with respect to any element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this title (including any alteration or adjustment of such element), shall be treated as not in violation of section 203(a) if such action is performed in accordance with high altitude adjustment instructions provided by the manufacturer under subsection (b) and approved by the Administrator.

(2) If the Administrator finds that adjustments or modifications made pursuant to instructions of the manufacturer under paragraph (1) will not insure emission control performance with respect to each standard under section 202 at least equivalent to that which would result if no such adjustments or modifications were made, he shall disapprove such instructions. Such finding shall be based upon minimum engineering evaluations consistent with good engineering practice.

(b)(1) Instructions respecting each class or category of vehicles or engines to which this title applies providing for such vehicle and engine adjustments and modifications as may be necessary to insure emission control performance at different altitudes shall be submitted by the manufacturer to the Administrator pursuant to regulations promulgated by the Administrator.

(2) Any knowing violation by a manufacturer of requirements of the Administrator under paragraph (1) shall be treated as a violation by such manufacturer of section 208(a)(3) for purposes of the penalties contained in section 205.

(3) Such instructions shall provide, in addition to other adjustments, for adjustments for vehicles moving from high altitude areas to low altitude areas after the initial registration of such vehicles.

(c) No instructions under this section respecting adjustments or modifications may require the use of any manufacturer parts (as defined in section 203(a)) unless the manufacturer demonstrates to the satisfaction of the Administrator that the use of such manufacturer parts is necessary to insure emission control performance.
“(d) Before January 1, 1981 the authority provided by this section shall be available in any high altitude State (as determined under regulations of the Administrator under regulations promulgated before the date of the enactment of this Act) but after December 31, 1981, such authority shall be available only in any such State in which an inspection and maintenance program for the testing of motor vehicle emissions has been instituted for the portions of the State where any national ambient air quality standard for auto-related pollutants has not been attained.”.

**DEALER CERTIFICATION**

Sec. 212. Section 207 of the Clean Air Act is amended by adding the following new subsection at the end thereof:

“(f)(1) Upon the sale of each new light-duty motor vehicle by a dealer, the dealer shall furnish to the purchaser a certificate that such motor vehicle conforms to the applicable regulations under section 202, including notice of the purchaser’s rights under paragraph (2).

“(2) If at any time during the period for which the warranty applies under subsection (b), a motor vehicle fails to conform to the applicable regulations under section 202 as determined and subsection (b) of this section such nonconformity shall be remedied by the manufacturer at the cost of the manufacturer pursuant to such warranty as provided in section 207(b)(2) (without regard to subparagraph (C) thereof).

“(3) Nothing in section 209(a) shall be construed to prohibit a State from testing, or requiring testing of, a motor vehicle after the date of sale of such vehicle to the ultimate purchaser (except that no new motor vehicle manufacturer or dealer may be required to conduct testing under this paragraph).”.

**HIGH ALTITUDE REGULATIONS**

Sec. 213. (a) Section 206 of the Clean Air Act is amended by adding the following new subsection:

“(f)(1) All light duty vehicles and engines manufactured during or after model year 1984 shall comply with the requirements of section 202 of this Act regardless of the altitude at which they are sold.

“(2) By October 1, 1978, the Administrator shall report to the Congress on the economic impact and technological feasibility of the requirements found in subparagraph (1) of this subsection. The report is also to evaluate the technological feasibility and the health consequences of separate proportional emission standards for light duty vehicles and engines in high altitude areas that would reflect a comparable percentage of reduction in emissions to that achieved by light duty vehicles and engines in low altitude areas.”

Sec. 213. (b) Section 209 of such Act is amended by adding the following new subsection at the end thereof:

“(f)(1) The high altitude regulation in effect with respect to model year 1977 motor vehicles shall not apply to the manufacture, distribution, or sale of 1978 and later model year motor vehicles. Any future regulation affecting the sale or distribution of motor vehicles or engines manufactured before the model year 1984 in high altitude areas of the country shall take effect no earlier than model year 1981.

“(2) Any such future regulation applicable to high altitude vehicles or engines shall not require a percentage of reduction in the emissions...
of such vehicles which is greater than the required percentage of reduction in emissions from motor vehicles as set forth in section 202(b). This percentage reduction shall be determined by comparing any proposed high altitude emission standards to high altitude emissions from vehicles manufactured during model year 1970. In no event shall regulations applicable to high altitude vehicles manufactured before the model year 1984 establish a numerical standard which is more stringent than that applicable to vehicles certified under non-high altitude conditions.

“(3) Section 307(d) shall apply to any high altitude regulation referred to in paragraph (2) and before promulgating any such regulation, the Administrator shall consider and make a finding with respect to—

“(A) the economic impact upon consumers, individual high altitude dealers, and the automobile industry of any such regulation, including the economic impact which was experienced as a result of the regulation imposed during model year 1977 with respect to high altitude certification requirements;

“(B) the present and future availability of emission control technology capable of meeting the applicable vehicle and engine emission requirements without reducing model availability; and

“(C) the likelihood that the adoption of such a high altitude regulation will result in any significant improvement in air quality in any area to which it shall apply.”.

ASSURANCE OF PROTECTION OF PUBLIC HEALTH AND SAFETY

SEC. 214. (a) Section 202(a) of the Clean Air Act is amended by inserting “paragraph (1) of” before “this subsection” in paragraph (2) thereof and by adding a new paragraph at the end thereof:

“(4)(A) Effective with respect to vehicles and engines manufactured after model year 1978, no emission control device, system, or element of design shall be used in a new motor vehicle or new motor vehicle engine for purposes of complying with standards prescribed under this subsection if such device, system, or element of design will cause or contribute to an unreasonable risk to public health, welfare, or safety in its operation or function.

“(B) In determining whether an unreasonable risk exists under subparagraph (A), the Administrator shall consider, among other factors, (i) whether and to what extent the use of any device, system, or element of design causes, increases, reduces, or eliminates emissions of any unregulated pollutants; (ii) available methods for reducing or eliminating any risk to public health, welfare, or safety which may be associated with the use of such device, system, or element of design, and (iii) the availability of other devices, systems, or elements of design which may be used to conform to standards prescribed under this subsection without causing or contributing to such unreasonable risk. The Administrator shall include in the consideration required by this paragraph all relevant information developed pursuant to section 214.”.

(b) Section 206(a) of such Act is amended by adding at the end thereof the following:

“(3)(A) A certificate of conformity may be issued under this section only if the Administrator determines that the manufacturer (or in the case of a vehicle or engine for import, any person) has established to the satisfaction of the Administrator that any emission control device, system, or element of design installed on, or incorpo-
Section 215. Section 202(a) of the Clean Air Act is amended by adding the following new paragraph at the end thereof:

"(5) (A) If the Administrator promulgates final regulations which define the degree of control required and the test procedures by which compliance could be determined for gasoline vapor recovery of uncontrolled emissions from the fueling of motor vehicles, the Administrator shall, after consultation with the Secretary of Transportation with respect to motor vehicle safety, prescribe, by regulation, fill pipe standards for new motor vehicles in order to insure effective connection between such fill pipe and any vapor recovery system which the Administrator determines may be required to comply with such vapor recovery regulations. In promulgating such standards the Administrator shall take into consideration limits on fill pipe diameter, minimum design criteria for nozzle retainer lips, limits on the location of the unleaded fuel restrictors, a minimum access zone surrounding a fill pipe, a minimum pipe or nozzle insertion angle, and such other factors as he deems pertinent.

"(B) Regulations prescribing standards under subparagraph (A) shall not become effective until the introduction of the model year for which it would be feasible to implement such standards, taking into consideration the restraints of an adequate leadtime for design and production.

"(C) Nothing in subparagraph (A) shall (i) prevent the Administrator from specifying different nozzle and fill neck sizes for gasoline with additives and gasoline without additives or (ii) permit the Administrator to require a specific location, configuration, modeling, or styling of the motor vehicle body with respect to the fuel tank fill neck or fill nozzle clearance envelope.

"(D) For the purpose of this paragraph, the term "fill pipe" shall include the fuel tank fill pipe, fill neck, fill inlet, and closure."

ONBOARD HYDROCARBON TECHNOLOGY

Section 216. Section 202(a) of the Clean Air Act is amended by adding the following new paragraph at the end thereof:

"(6) The Administrator shall determine the feasibility and desirability of requiring new motor vehicles to utilize onboard hydrocarbon control technology which would avoid the necessity of gasoline vapor recovery and reporting requirements.

42 USC 7525.
recovery of uncontrolled emissions emanating from the fueling of motor vehicles. The Administrator shall compare the costs and effectiveness of such technology to that of implementing and maintaining vapor recovery systems (taking into consideration such factors as fuel economy, economic costs of such technology, administrative burdens, and equitable distribution of costs). If the Administrator finds that it is feasible and desirable to employ such technology, he shall, after consultation with the Secretary of Transportation with respect to motor vehicle safety, prescribe, by regulation, standards requiring the use of onboard hydrocarbon technology which shall not become effective until the introduction to the model year for which it would be feasible to implement such standards, taking into consideration compliance costs and the restraints of an adequate lead time for design and production.”.

TEST PROCEDURES FOR MEASURING EVAPORATIVE EMISSIONS

Sec. 217. Section 202(b) (1) of the Clean Air Act is amended by adding a new subparagraph (C) as follows:

“(C) Effective with respect to vehicles and engines manufactured after model year 1978 (or in the case of heavy-duty vehicles or engines, such later model year as the Administrator determines is the earliest feasible model year), the test procedure promulgated under paragraph (2) for measurement of evaporative emissions of hydrocarbons shall require that such emissions be measured from the vehicle or engine as a whole. Regulations to carry out this subparagraph shall be promulgated not later than two hundred and seventy days after date of enactment of this subparagraph.”.

Sec. 219. (a) Section 203(a)(3) of the Clean Air Act is amended by inserting “(A)” after “(3)” and by adding the following new subparagraph (B) at the end thereof:

“(B) for any person engaged in the business of repairing, servicing, selling, leasing, or trading motor vehicles or motor vehicle engines, or who operates a fleet of motor vehicles, knowingly to remove or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this title following its sale and delivery to the ultimate purchaser, or”. 
(b) Section 203(a) of such Act, as amended by section 211 of this Act, is amended by adding the following at the end thereof: "Nothing in paragraph (3) shall be construed to require the use of manufacturer parts in maintaining or repairing any motor vehicle or motor vehicle engine. For the purposes of the preceding sentence, the term 'manufacturer parts' means, with respect to a motor vehicle engine, parts produced or sold by the manufacturer of the motor vehicle or motor vehicle engine."

(c) Section 205 of such Act is amended to read as follows:

"Penalties"

"Sec. 205. Any person who violates paragraph (1), (2), or (4) of section 203(a) or any manufacturer, dealer, or other person who violates paragraph (3)(A) of section 203(a) shall be subject to a civil penalty of not more than $10,000. Any person who violates paragraph (3)(B) of such section 203(a) shall be subject to a civil penalty of not more than $2,500. Any such violation with respect to paragraph (1), (3), or (4) of section 203(a) shall constitute a separate offense with respect to each motor vehicle or motor vehicle engine."

"Testing by small manufacturers"

Sec. 220. Section 206(a)(1) of the Clean Air Act is amended by adding at the end thereof the following: "In the case of any manufacturer of vehicles or vehicle engines whose projected sales in the United States for any model year (as determined by the Administrator) will not exceed three hundred, the regulations prescribed by the Administrator concerning testing by the manufacturer for purposes of determining compliance with regulations under section 202 for the useful life of the vehicle or engine shall not require operation of any vehicle or engine manufactured during such model year for more than five thousand miles or one hundred and sixty hours, respectively, but the Administrator shall apply such adjustment factors as he deems appropriate to assure that each such vehicle or engine will comply during its useful life (as determined under section 202(d)) with the regulations prescribed under section 202 of this Act."

"Parts standards; preemption of state law"

Sec. 221. Section 209 of the Clean Air Act (relating to State standards) is amended by redesignating subsection (c) as (d) and by inserting after subsection (b) the following new subsection:

"(e) Whenever a regulation with respect to any motor vehicle part or motor vehicle engine part is in effect under section 207(a)(2), no State or political subdivision thereof shall adopt or attempt to enforce any standard or any requirement of certification, inspection, or approval which relates to motor vehicle emissions and is applicable to the same aspect of such part. The preceding sentence shall not apply in the case of a State with respect to which a waiver is in effect under subsection (b)."

"Testing of fuels and fuel additives"

Sec. 222. (a) Section 211 of the Clean Air Act is amended by adding the following new subsections at the end thereof:

"(e) (1) Not later than one year after the date of enactment of this subsection and after notice and opportunity for a public hearing, the
Administrator shall promulgate regulations which implement the authority under subsection (b)(2) (A) and (B) with respect to each fuel or fuel additive which is registered on the date of promulgation of such regulations and with respect to each fuel or fuel additive for which an application for registration is filed thereafter.

"(2) Regulations under subsection (b) to carry out this subsection shall require that the requisite information be provided to the Administrator by each such manufacturer—

"(A) prior to registration, in the case of any fuel or fuel additive which is not registered on the date of promulgation of such regulations; or

"(B) not later than three years after the date of promulgation of such regulations, in the case of any fuel or fuel additive which is registered on such date.

"(3) In promulgating such regulations, the Administrator may—

"(A) exempt any small business (as defined in such regulations) from or defer or modify the requirements of, such regulations with respect to any such small business;

"(B) provide for cost-sharing with respect to the testing of any fuel or fuel additive which is manufactured or processed by two or more persons or otherwise provide for shared responsibility to meet the requirements of this section without duplication; or

"(C) exempt any person from such regulations with respect to a particular fuel or fuel additive upon a finding that any additional testing of such fuel or fuel additive would be duplicative of adequate existing testing.

"(f)(1) Effective upon March 31, 1977, it shall be unlawful for any manufacturer of any fuel or fuel additive to first introduce into commerce, or to increase the concentration in use of, any fuel or fuel additive for general use in light duty motor vehicles manufactured after model year 1974 which is not substantially similar to any fuel or fuel additive utilized in the certification of any model year 1975, or subsequent model year, vehicle or engine under section 206.

"(2) Effective November 30, 1977, it shall be unlawful for any manufacturer of any fuel to first introduce into commerce any gasoline which contains a concentration of manganese in excess of .0625 grams per gallon of fuel.

During the period beginning 180 days after the date of the enactment of this subsection and before September 15, 1978, the Administrator shall prohibit, or restrict the concentration of any fuel additive which he determines will cause or contribute to the failure of an emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified under section 206.

"(4) The Administrator, upon application of any manufacturer of any fuel or fuel additive, may waive the prohibitions established under paragraph (1) or (3) of this subsection if he determines that the applicant has established that such fuel or fuel additive or a specified
concentration thereof, and the emission products of such fuel or additive or specified concentration thereof, will not cause or contribute to a failure of any emission control device or system (over the useful life of any vehicle in which such device or system is used) to achieve compliance by the vehicle with the emission standards with respect to which it has been certified pursuant to section 206. If the Administrator has not acted to grant or deny an application under this paragraph within one hundred and eighty days of receipt of such application, the waiver authorized by this paragraph shall be treated as granted.

Judicial review.

"(5) No action of the Administrator under this section may be stayed by any court pending judicial review of such action."

42 USC 7545.

SMALL REFINERIES

Sec. 223. Section 211 of the Clean Air Act is amended by adding the following new subsection at the end thereof:

“(g) (1) For the purposes of this subsection:

“(A) The terms ‘gasoline’ and ‘refinery’ have the meaning provided under regulations of the Administrator promulgated under this section.

“(B) The term ‘small refinery’ means a refinery or a portion of refinery producing gasoline—

“(i) the gasoline producing capacity of which was in operation or under construction at any time during the one-year period immediately preceding October 1, 1976, and

“(ii) which has a crude oil or bona fide feed stock capacity (as determined by the Administrator) of 50,000 barrels per day or less, and

“(iii) which is owned or controlled by a refiner with a total combined crude oil or bona fide feed stock capacity (as determined by the Administrator) of 137,500 barrels per day or less.

Lead additives, restrictions.

“(2) No regulations of the Administrator under this section (or any amendment or revision thereof) respecting the control or prohibition of lead additives in gasoline shall require a small refinery prior to October 1, 1982, to reduce the average lead content per gallon of gasoline refined at such refinery below the applicable amount specified in the table below:

"If the average gasoline production of the small refinery for the immediately preceding calendar year (or, in the case of refineries under construction, half the designed crude oil capacity) was (in barrels per day) : The applicable amount is (in grams per gallon)

The Administrator may promulgate such regulations as he deems appropriate with respect to the reduction of the average lead content of gasoline refined by small refineries on and after October 1, 1982, taking into account the experience under the preceding provisions of this paragraph.
“(3) Effective on the date of the enactment of this subsection, the regulations of the Administrator under this section respecting fuel additives (40 CFR part 80) shall be deemed amended to comply with the requirement contained in paragraph (2).

“(4) Nothing in this section shall be construed to preempt the right of any State to take action as permitted by section 211(c)(4) of this Act.”

EMISSION STANDARDS FOR HEAVY DUTY VEHICLES OR ENGINES AND CERTAIN OTHER VEHICLES OR ENGINES

SEC. 224. (a) Section 202(a) of the Clean Air Act is amended by adding the following new paragraph at the end thereof:

“(3)(A) (i) The Administrator shall prescribe regulations under paragraph (1) of this subsection applicable to emissions of carbon monoxide, hydrocarbons, and oxides of nitrogen from classes or categories of heavy-duty vehicles or engines manufactured during and after model year 1979. Such regulations applicable to such pollutants from such classes or categories of vehicles or engines manufactured during model years 1979 through 1982 shall contain standards which reflect the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the model year to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology.

“(ii) Unless a different standard is temporarily promulgated as provided in subparagraph (B) or unless the standard is changed as provided in subparagraph (E), regulations under paragraph (1) of this subsection applicable to emissions from vehicles or engines manufactured during and after model year—

“(I) 1983, in the case of hydrocarbons and carbon monoxide, shall contain standards which require a reduction of at least 90 per cent, and

“(II) 1985, in the case of oxides of nitrogen, shall contain standards which require a reduction of at least 75 per cent, from the average of the actually measured emissions from heavy-duty gasoline-fueled vehicles or engines, or any class or category thereof, manufactured during the baseline model year.

“(iii) The Administrator shall prescribe regulations under paragraph (1) of this subsection applicable to emissions of particulate matter from classes or categories of vehicles manufactured during and after model year 1981 (or during any earlier model year, if practicable). Such regulations shall contain standards which reflect the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the model year to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology. Such standards shall be promulgated and shall take effect as expeditiously as practicable taking into account the period necessary for compliance.

“(iv) In establishing classes or categories of vehicles or engines for purposes of regulations under this paragraph, the Administrator may base such classes or categories on gross vehicle weight, horsepower, or such other factors as may be appropriate.

SEC. 225. (a) The Administrator shall prescribe regulations under paragraph (1) of this subsection applicable to emissions of sulfur dioxide from classes or categories of vehicles manufactured during and after model year 1980. Such regulations shall contain standards which require a reduction of at least 50 per cent, from the average of the actually measured emissions from heavy-duty gasoline-fueled vehicles or engines, or any class or category thereof, manufactured during the baseline model year.

SEC. 226. (a) The Administrator shall prescribe regulations under paragraph (1) of this subsection applicable to emissions of nitrogen oxides from classes or categories of vehicles manufactured during and after model year 1981 (or during any earlier model year, if practicable). Such regulations shall contain standards which reflect the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the model year to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology. Such standards shall be promulgated and shall take effect as expeditiously as practicable taking into account the period necessary for compliance.

SEC. 227. (a) The Administrator shall prescribe regulations under paragraph (1) of this subsection applicable to emissions of particulate matter from classes or categories of vehicles manufactured during and after model year 1981 (or during any earlier model year, if practicable). Such regulations shall contain standards which reflect the greatest degree of emission reduction achievable through the application of technology which the Administrator determines will be available for the model year to which such standards apply, giving appropriate consideration to the cost of applying such technology within the period of time available to manufacturers and to noise, energy, and safety factors associated with the application of such technology. Such standards shall be promulgated and shall take effect as expeditiously as practicable taking into account the period necessary for compliance.
“(v) For the purpose of this paragraph, the term ‘baseline model year’ means, with respect to any pollutant emitted from any vehicle or engine, or class or category thereof, the model year immediately preceding the model year in which Federal standards applicable to such vehicle or engine, or class or category thereof, first applied with respect to such pollutant.

“(B) During the period of June 1 through December 31, 1979, and during each period of June 1 through December 31 of each third year after 1979, the Administrator may, after notice and opportunity for a public hearing promulgate regulations revising any standard prescribed as provided in subparagraph (A)(ii) for any class or category of heavy-duty vehicles or engines. Such standard shall apply only for the period of three model years beginning four model years after the model year in which such revised standard is promulgated. In revising any standard under this subparagraph for any such three model year period, the Administrator shall determine the maximum degree of emission reduction which can be achieved by means reasonably expected to be available for production of such period and shall prescribe a revised emission standard in accordance with such determination. Such revised standard shall require a reduction of emissions of from any standard which applies in the previous model year.

“(C) Action revising any standard for any period may be taken by the Administrator under subparagraph (B) only if he finds—

“(i) that compliance with the emission standards otherwise applicable for such model year cannot be achieved by technology, processes, operating methods, or other alternatives reasonably expected to be available for production for such model year without increasing cost or decreasing fuel economy to an excessive and unreasonable degree; and

“(ii) the National Academy of Sciences has not, pursuant to its study and investigation under subsection (c), issued a report substantially contrary to the findings of the Administrator under clause (i).

“(D) A report shall be made to the Congress with respect to any standard revised under subparagraph (B) which shall contain—

“(i) a summary of the health effects found, or believed to be associated with, the pollutant covered by such standard,

“(ii) an analysis of the cost-effectiveness of other strategies for attaining and maintaining national ambient air quality standards and carrying out regulations under part C of title I (relating to significant deterioration) in relation to the cost-effectiveness for such purposes of standards which, but for such revision, would apply.

“(iii) a summary of the research and development efforts and progress being made by each manufacturer for purposes of meeting the standards promulgated as provided in subparagraph (A)(ii) or, if applicable, subparagraph (E), and

“(iv) specific findings as to the relative costs of compliance, and relative fuel economy, which may be expected to result from the application for any model year of such revised standard and the application for such model year of the standard, which, but for such revision, would apply.

“(E)(i) The Administrator shall conduct a continuing pollutant-specific study concerning the effects of each air pollutant emitted from heavy-duty vehicles or engines and from other sources of mobile source related pollutants on the public health and welfare. The results of such study shall be published in the Federal Register and reported
to the Congress not later than June 1, 1979, and before June 1 of each
third year thereafter.

(ii) On the basis of such study and such other information as is
available to him (including the studies under section 214), the Admin-
istrator may, after notice and opportunity for a public hearing, pro-
mulgate regulations under paragraph (1) of this subsection changing
any standard prescribed in subparagraph (A)(ii) (or revised under
subparagraph (B) or previously changed under this subparagraph).
No such changed standard shall apply for any model year before the
model year four years after the model year during which regulations
containing such changed standard are promulgated.

(F) For purposes of this paragraph, motorcycles and motorcycle
engines shall be treated in the same manner as heavy-duty vehicles
and engines (except as otherwise permitted under section 206(f)(1))
unless the Administrator promulgates a rule reclassifying motorcycles
as light-duty vehicles within the meaning of this section or unless the
Administrator promulgates regulations under subsection (a) applying
standards applicable to the emission of air pollutants from motor-
cycles as a separate class or category. In any case in which such
standards are promulgated for such emissions from motorcycles as a
separate class or category, the Administrator, in promulgating such
standards, shall consider the need to achieve equivalency of emission
reductions between motorcycles and other motor vehicles to the maxi-
mum extent practicable."

(b) Section 202(b)(3) of such Act is amended by adding the follow-
ing new subparagraph at the end thereof:

"(C) The term 'heavy duty vehicle' means a truck, bus, or other
vehicle manufactured primarily for use on the public streets,
rails, and highways (not including any vehicle operated exclu-
sively on a rail or rails) which has a gross vehicle weight (as
determined under regulations promulgated by the Administrator)
in excess of six thousand pounds. Such term includes any such
vehicle which has special features enabling off-street or off-
highway operation and use."

(c) Section 312 of such Act is amended by inserting "AND STUDIES
OF COST-EFFECTIVENESS ANALYSES" at the end of the heading thereof and
by adding the following new subsection at the end thereof:

"(c) Not later than January 1, 1979, the Administrator shall study
the possibility of increased use of cost-effectiveness analyses in devis-
ing strategies for the control of air pollution and shall report its rec-
ommendations to the Congress, including any recommendations for
revisions in any provision of this Act. Such study shall also include
an analysis and report to Congress concerning whether or not existing
air pollution control strategies are adequate to achieve the purposes
of this Act."

(d) Part A of title II of such Act is amended by redesignating
section 214 as section 216 and by inserting after section 213 the fol-
lowing new section:

"STUDY OF PARTICULATE EMISSIONS FROM MOTOR VEHICLES"

"SEC. 214. (a)(1) The Administrator shall conduct a study con-
cerning the effects on health and welfare of particulate emissions from
motor vehicles or motor vehicle engines to which section 202 applies.
Such study shall characterize and quantify such emissions and anal-
lyze the relationship of such emissions to various fuels and fuel
additives."
"(2) The study shall also include an analysis of particulate emissions from mobile sources which are not related to engine emissions (including, but not limited to tire debris, and asbestos from brake lining).

"(b) The Administrator shall report to the Congress the findings and results of the study conducted under subsection (a) not later than two years after the date of the enactment of the Clean Air Act Amendments of 1977. Such report shall also include recommendations for standards or methods to regulate particulate emissions described in paragraph (2) of subsection (a)."

(e) Section 206 of such Act (relating to compliance testing and certification) is amended by adding the following new subsection at the end thereof:

"(g)(1) In the case of any class or category of heavy-duty vehicles or engines to which a standard promulgated under section 202(a) of this Act applies, except as provided in paragraph (2), a certificate of conformity shall be issued under subsection (a) and shall not be suspended or revoked under subsection (b) for such vehicles or engines manufactured by a manufacturer notwithstanding the failure of such vehicles or engines to meet such standard if such manufacturer pays a nonconformance penalty as provided under regulations promulgated by the Administrator after notice and opportunity for public hearing. In the case of motorcycles to which such a standard applies, such a certificate may be issued notwithstanding such failure if the manufacturer pays such a penalty.

"(2) No certificate of conformity may be issued under paragraph (1) with respect to any class or category of vehicle or engine if the degree by which the manufacturer fails to meet any standard promulgated under section 202(a) with respect to such class or category exceeds the percentage determined under regulations promulgated by the Administrator to be practicable. Such regulations shall require such testing of vehicles or engines being produced as may be necessary to determine the percentage of the classes or categories of vehicles or engines which are not in compliance with the regulations with respect to which a certificate of conformity was issued and shall be promulgated not later than one year after the date of enactment of the Clean Air Act Amendments of 1977.

"(3) The regulations promulgated under paragraph (1) shall, not later than one year after the date of enactment of the Clean Air Act Amendments of 1977, provide for nonconformance penalties in amounts determined under a formula established by the Administrator. Such penalties under such formula—

"(A) may vary from pollutant-to-pollutant;

"(B) may vary by class or category or vehicle or engine;

"(C) shall take into account the extent to which actual emissions of any air pollutant exceed allowable emissions under the standards promulgated under section 202;

"(D) be increased periodically in order to create incentives for the development of production vehicles or engines which achieve the required degree of emission reduction; and

"(E) shall remove any competitive disadvantage to manufacturers whose engines or vehicles achieve the required degree of emission reduction (including any such disadvantage arising from the application of paragraph (4)).

"(4) In any case in which a certificate of conformity has been issued under this subsection, any warranty required under section 207(b) (2)
and any action under section 207(c) shall be required to be effective only for the emission levels which the Administrator determines that such certificate was issued and not for the emission levels required under the applicable standard.

“(5) The authorities of section 208(a) shall apply, subject to the conditions of section 208(b), for purposes of this subsection.”.

(g) Section 202(d) of such Act is amended by striking out “and” at the end of paragraph (1) thereof; by inserting “(other than motorcycles or motorcycle engines)” after “engines” in paragraph (2) thereof; by striking out the period at the end of paragraph (2) and inserting in lieu thereof “; and”; and by adding a new paragraph (3) to read as follows:

“(3) in the case of any motorcycle or motorcycle engine, be a period of use the Administrator shall determine.”.

AIRCRAFT EMISSIONS STANDARDS

Sec. 225. Section 231(c) of the Clean Air Act is amended to read as follows:

“(c) Any regulations in effect under this section on date of enactment of the Clean Air Act Amendments of 1977 or proposed or promulgated thereafter, or amendments thereto, with respect to aircraft shall not apply if disapproved by the President, after notice and opportunity for public hearing, on the basis of a finding by the Secretary of Transportation that any such regulation would create a hazard to aircraft safety. Any such finding shall include a reasonably specific statement of the basis upon which the finding was made.”.

CARBON MONOXIDE INTRUSION INTO SUSTAINED USE VEHICLES

Sec. 226. (a) The Administrator, in conjunction with the Secretary of Transportation, shall study the problem of carbon monoxide intrusion into the passenger area of sustained-use motor vehicles. Such study shall include an analysis of the sources and levels of carbon monoxide in the passenger area of such vehicles and a determination of the effects of carbon monoxide upon the passengers. The study shall also review available methods of monitoring and testing for the presence of carbon monoxide and shall analyze the cost and effectiveness of alternative methods of monitoring and testing. The study shall analyze the cost and effectiveness of alternative strategies for attaining and maintaining acceptable levels of carbon monoxide in the passenger area of such vehicles. Within one year the Administrator shall report to the Congress respecting the results of such study.

(b) For the purpose of this section, the term “sustained-use motor vehicle” means any diesel or gasoline fueled motor vehicle (whether light or heavy duty) which, as determined by the Administrator (in conjunction with the Secretary), is normally used and occupied for a sustained, continuous, or extensive period of time, including buses, taxicabs, and police vehicles.

42 USC 7603.
order to confirm the correctness of the information on which the action proposed to be taken is based and to ascertain the action which such authorities are, or will be, taking. The provisions of section 553 through 557 and section 706 of title 5 of the United States Code shall not, except as expressly provided in this subsection, apply to actions to which this subsection applies. This subsection shall not apply in the case of any rule or circumstance referred to in subparagraphs (A) or (B) of subsection 553(b) of title 5 of the United States Code.

“(2) Not later than the date of proposal of any action to which this subsection applies, the Administrator shall establish a rulemaking docket for such action (hereinafter in this subsection referred to as a ‘rule’). Whenever a rule applies only within a particular State, a second (identical) docket shall be simultaneously established in the appropriate regional office of the Environmental Protection Agency.

“(3) In the case of any rule to which this subsection applies, notice of proposed rulemaking shall be published in the Federal Register, as provided under section 553(b) of title 5, United States Code, shall be accompanied by a statement of its basis and purpose and shall specify the period available for public comment (hereinafter referred to as the ‘comment period’). The notice of proposed rulemaking shall also state the docket number, the location or locations of the docket, and the times it will be open to public inspection. The statement of basis and purpose shall include a summary of—

“(A) the factual data on which the proposed rule is based;
“(B) the methodology used in obtaining the data and in analyzing the data; and
“(C) the major legal interpretations and policy considerations underlying the proposed rule.

The statement shall also set forth or summarize and provide a refer-
ence to any pertinent findings, recommendations, and comments by the Scientific Review Committee established under section 109(d) and the National Academy of Sciences, and, if the proposal differs in any important respect from any of these recommendations, an explanation of the reasons for such differences. All data, information, and documents referred to in this paragraph on which the proposed rule relies shall be included in the docket on the date of publication of the proposed rule.

"(4)(A) The rulemaking docket required under paragraph (2) shall be open for inspection by the public at reasonable times specified in the notice of proposed rulemaking. Any person may copy documents contained in the docket. Any person may request copies by mail if the person pays the expenses, including personnel costs to do the copying;

"(B)(i) Promptly upon receipt by the agency, all written comments and documentary information on the proposed rule received from any person for inclusion in the docket during the comment period shall be placed in the docket. "(5) In promulgating a rule to which this subsection applies (i) the Administrator shall allow any person to submit written comments, data, or documentary information; (ii) the Administrator shall give interested persons an opportunity for the oral presentation of data, views, or arguments, in addition to an opportunity to make written submissions; (iii) a transcript shall be kept of any oral presentation; and (iv) the Administrator shall keep the record of such proceeding open for thirty days after completion of the proceeding to provide an opportunity for submission of rebuttal and supplementary information.

“(C) The promulgated rule may not be based (in part or whole) on any information or data which has not been placed in the docket as of the date of such promulgation.

“(7)(A) The record for judicial review shall consist exclusively of the material referred to in paragraph (3), clause (i) of paragraph (4)(B), and subparagraphs (A) and (B) of paragraph (6).

“(B) Only an objection to a rule or procedure which was raised with reasonable specificity during the period for public comment (including any public hearing) may be raised during judicial review. If the person raising an objection can demonstrate to the Administrator that it was impracticable to raise such objection within such time or if the grounds for such objection arose after the period for public comment (but within the time specified for judicial review) and if such objection is of central relevance to the outcome of the rule, the Administrator shall convene a proceeding for reconsideration of the rule and provide the same procedural rights as would have been afforded had the information been available at the time the rule was proposed. If the Administrator refuses to convene such a proceeding, such person may seek review of such refusal in the United States court of appeals for the appropriate circuit (as provided in subsection (b)). Such reconsideration shall not postpone the effectiveness of the rule. The effectiveness of the rule may be stayed during such reconsideration, however, by the Administrator or the court for a period not to exceed three months.

“(8) The sole forum for challenging procedural determinations made by the Administrator under this subsection shall be in the United States court of appeals for the appropriate circuit (as provided in subsection (b)) at the time of the substantive review of the rule. No interlocutory appeals shall be permitted with respect to such procedural determinations. In reviewing alleged procedural errors, the court may invalidate the rule only if the errors were so serious and related to matters of such central relevance to the rule that there is a substantial likelihood that the rule would have been significantly changed if such errors had not been made.

“(9) In the case of review of any action of the Administrator to which this subsection applies, the court may reverse any such action found to be—

“(A) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;

“(B) contrary to constitutional right, power, privilege, or immunity;

“(C) in excess of statutory jurisdiction, authority, or limitations, or short of statutory right; or

“(D) without observance of procedure required by law, if (i) such failure to observe such procedure is arbitrary or capricious, (ii) the requirement of paragraph (7)(B) has been met, and (iii) the condition of the last sentence of paragraph (8) is met.

“(10) Each statutory deadline for promulgation of rules to which this subsection applies which requires promulgation less than six months after date of proposal may be extended to not more than six months after date of proposal by the Administrator upon a determination that such extension is necessary to afford the public, and the agency, adequate opportunity to carry out the purposes of this subsection.

“(11) The requirements of this subsection shall take effect with
respect to any rule the proposal of which occurs after ninety days after the date of enactment of the Clean Air Act Amendments of 1977.”.

(b) Section 105 of such Act is amended by adding the following new subsection at the end thereof:

“(e) No application by a State for a grant under this section may be disapproved by the Administrator without prior notice and opportunity for a public hearing in the affected State, and no commitment or obligation of any funds under any such grant may be revoked or reduced without prior notice and opportunity for a public hearing in the affected State (or in one of the affected States if more than one State is affected).”.

“(B) would otherwise not be in conformity with the applicable implementation plan, or
“(4) such increase in emissions would interfere with, or be inconsistent with, the applicable implementation plan for any other State.

In the case of construction of a treatment works which would result, directly or indirectly, in an increase in emissions of any air pollutant from stationary and mobile sources in an area to which part D of title I applies, the quantification of emissions referred to in paragraph (2) shall include the emissions of any such pollutant resulting directly or indirectly from areawide and nonmajor stationary source growth (mobile and stationary) for each such area.

Nothing in this section shall apply to any standard or regulation described in paragraphs (1) through (7) of this subsection unless the notice of proposed rulemaking in connection with such standard or regulation is published in the Federal Register after the date ninety days after the date of enactment of this section. In the case of revisions of such standards or regulations, this section shall apply only to revisions which the Administrator determines to be substantial revisions.

“(b) Before publication of notice of proposed rulemaking with respect to any standard or regulation to which this section applies, the Administrator shall prepare an economic impact assessment respecting such standard or regulation. Such assessment shall be included in the docket required under section 307(d)(2) and shall be available to the public as provided in section 307(d)(4). Notice of proposed rulemaking shall include notice of such availability together
with an explanation of the extent and manner in which the Administrator has considered the analysis contained in such economic impact assessment in proposing the action. The Administrator shall also provide such an explanation in his notice of promulgation of any regulation or standard referred to in subsection (a). Each such explanation shall be part of the statements of basis and purpose required under sections 307(d)(3) and 307(d)(6).

"(c) Subject to subsection (d), the assessment required under this section with respect to any standard or regulation shall contain an analysis of—

Nothing in this section shall be construed to provide that the analysis of the factors specified in this subsection affects or alters the factors which the Administrator is required to consider in taking any action referred to in subsection (a).

"(d) The assessment required under this section shall be as extensive as practicable, in the judgment of the Administrator taking into account the time and resources available to the Environmental Protection Agency and other duties and authorities which the Administrator is required to carry out under this Act.

"(e) Nothing in this section shall be construed—

"(1) to alter the basis on which a standard or regulation is promulgated under this Act;

"(2) to preclude the Administrator from carrying out his responsibility under this Act to protect public health and welfare; or

"(3) to authorize or require any judicial review of any such standard or regulation, or any stay or injunction of the proposal, promulgation, or effectiveness of such standard or regulation on the basis of failure to comply with this section.

"(f) The requirements imposed on the Administrator under this section shall be treated as nondiscretionary duties for purposes of section 304(a)(2), relating to citizen suits. The sole method for enforcement of the Administrator's duty under this section shall be by bringing a citizen suit under such section 304(a)(2) for a court order to compel the Administrator to perform such duty. Violation of any such order shall subject the Administrator to penalties for contempt of court.

"(g) In the case of any provision of this Act in which costs are expressly required to be taken into account, the adequacy or inadequacy of any assessment required under this section may be taken into consideration, but shall not be treated for purposes of judicial review of any such provision as conclusive with respect to compliance or noncompliance with the requirement of such provision to take cost into account."

“(A) a description and analysis of the various pollutants which are commonly referred to as 'photochemical oxidants' or chemical precursors to photochemical oxidants;

“(B) an analysis of any pollutants or combination of pollutants which need to be reduced to achieve any photochemical oxidant standard, and the amount of such reduction;

“(1) The term ‘hazardous air pollutant’ means an air pollutant to which no ambient air quality standard is applicable and which in the judgment of the Administrator causes, or contributes to, air pollution which may reasonably be anticipated to result in an increase in mortality or an increase in serious irreversible, or incapacitating reversible, illness.”.

(d) (1) Section 202(a)(1) of such Act is amended to read as follows:

“(a) (1) Except as otherwise provided in subsection (b) the Administrator shall by regulation prescribe (and from time to time revise) in accordance with the provisions of this section, standards applicable to the emission of any air pollutant from any class or classes of new motor vehicles or new motor vehicle engines, which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger public health or welfare. Such standards shall be applicable to such vehicles and engines for their useful life (as determined under subsection (d), relating to useful life of vehicles for purposes of certification), whether such vehicles and engines are designed as complete systems or incorporate devices to prevent or control such pollution.”.

(2) Section 202(e) of such Act is amended by striking out “which cause or contribute to, or are likely to cause or contribute to, air pollution which endangers” and substituting “which in his judgment cause, or contribute to, air pollution which may reasonably be anticipated to endanger”.

(5) report to Congress, not later than one year after the date of enactment of this section and annually thereafter, on the problems and progress in carrying out this section.

STUDIES

Sec. 403. (a) Not later than eighteen months after the date of the enactment of this Act, the Administrator of the Environmental Protection Agency, in cooperation with the National Academy of Sciences, shall study and report to Congress on (1) the relationship between the size, weight, and chemical composition of suspended particulate matter and the nature and degree of the endangerment to public health or welfare presented by such particulate matter (especially with respect to fine particulate matter) and (2) the availability of technology for controlling such particulate matter.

(b) The Administrator of the Environmental Protection Agency shall conduct a study and report to the Congress not later than January 1, 1979, on the effects on public health and welfare of odors or odorous emissions, the sources of such emissions, the technology or other measures available for control of such emissions and the costs of such technology or measures, and the costs and benefits of alternative measures or strategies to abate such emissions. Such report shall include an evaluation of whether air quality criteria or national ambient air quality standards should be published under the Clean Air Act for odors, and what other strategies or authorities under the Clean Air Act are available or appropriate for abating such emissions.

(c) (1) Not later than twelve months after the date of enactment of this Act the Administrator of the Environmental Protection Agency shall publish throughout the United States a list of all known chemical contaminants resulting from environmental pollution which have been found in human tissue including blood, urine, breast milk, and all other human tissue. Such list shall be prepared for the United States and shall indicate the approximate number of cases, the range of levels found, and the mean levels found.
(2) Not later than eighteen months after the date of enactment of this Act the Administrator shall publish in the same manner an explanation of what is known about the manner in which the chemicals described in paragraph (1) entered the environment and thereafter human tissue.

(3) The Administrator, in consultation with National Institutes of Health, the National Center for Health Statistics, and the National Center for Health Services Research and Development, shall, if feasible, conduct an epidemiological study to demonstrate the rela-
tion between levels of chemicals in the environment and in human
tissue. Such study shall be made in appropriate regions or areas of
the United States in order to determine any different results in such
regions or areas. The results of such study shall, as soon as practicable,
be reported to the appropriate committee of the Congress.

(d) The Administrator of the Environmental Protection Agency
shall conduct a study of air quality in various areas throughout the
country including the gulf coast region. Such study shall include
analysis of liquid and solid aerosols and other fine particulate matter
and the contribution of such substances to visibility and public health
problems in such areas. For the purposes of this study, the Adminis-
trator shall use environmental health experts from the National Insti-
tutes of Health and other outside agencies and organizations.

(e) (1) The Secretary of Labor, in consultation with the Admin-
istrator, shall conduct a study of potential dislocation of employees
due to implementation of laws administered by the Administrator.
Such study shall estimate the number of employees so affected, identify
existing sources of assistance available to such employees, assess the
adequacy of such assistance, and recommend additional adjustment
measures, if justified.

(2) The Secretary shall submit to Congress the results of the study
carried under paragraph (1) not more than one year after the
date of enactment of this section.

(f) The Administrator of the Environmental Protection Agency
shall undertake to enter into appropriate arrangements with the
National Academy of Sciences to conduct continuing comprehensive
studies and investigations of the effects on public health and wel-
fare of emissions subject to section 202(a) of the Clean Air Act
(including sulfur compounds) and the technological feasibility of
meeting emission standards required to be prescribed by the Admin-
istrator by section 202(b) of such Act. The Administrator shall report
to the Congress within six months of the date of enactment of this
section and each year thereafter regarding the status of the contrac-
tual arrangements and conditions necessary to implement this
paragraph.

(g) The Administrator of the Environmental Protection Agency
shall conduct a study and report to Congress by the date one year
after the date of the enactment of this section, on the emission of
sulfur-bearing compounds from motor vehicles and motor vehicle
engines and aircraft engines. Such study and report shall include but
not be limited to a review of the effects of such emissions on public
health and welfare and an analysis of the costs and benefits of alterna-
tives to reduce or eliminate such emissions (including desulfurization
of fuel, short-term allocation of low sulfur crude oil, technological
devices used in conjunction with current engine technologies, alterna-
tive engine technologies, and other methods) as may be required to
achieve any proposed or promulgated emission standards for sulfur
compounds.

RAILROAD EMISSION STUDY

Sec. 404. (a) The Administrator of the Environmental Protection
Agency shall conduct a study and investigation of emissions of air
pollutants from railroad locomotives, locomotive engines, and sec-
ondary power sources on railroad rolling stock, in order to determine—
(1) the extent to which such emissions affect air quality in air
quality control regions throughout the United States,
(2) the technological feasibility and the current state of technology for controlling such emissions, and
(3) the status and effect of current and proposed State and local regulations affecting such emissions.

(b) Within one hundred and eighty days after commencing such study and investigation, the Administrator shall submit a report of such study and investigation, together with recommendations for appropriate legislation, to the Senate Committee on Environment and Public Works and the House Committee on Interstate and Foreign Commerce.

STUDY AND REPORT CONCERNING ECONOMIC APPROACHES TO CONTROLLING AIR POLLUTION

42 USC 7401

Sec. 405. (a) The Administrator, in conjunction with the Council of Economic Advisors (hereinafter in this section referred to as "the Council"), shall undertake a study and assessment of economic measures for the control of air pollution which could—
(1) strengthen the effectiveness of existing methods of controlling air pollution,
(2) provide incentives to abate air pollution to a greater degree than is required by existing provisions of the Clean Air Act (and regulations thereunder), and
(3) serve as the primary incentive for controlling air pollution problems not addressed by any provision of the Clean Air Act (or any regulation thereunder).

(b) The study of measures referred to in paragraph (1) of subsection (a) shall concentrate on (1) identification of air pollution problems for which existing methods of control are not effective because of economic incentives to delay compliance and (2) formulation of economic measures which could be taken with respect to each such air pollution problem which would provide an incentive to comply without interfering with such existing methods of control.

(c) The study of measures referred to in paragraph (2) of subsection (a) shall concentrate on (1) identification of air pollution problems for which existing methods of control may not be sufficiently extensive to achieve all desired environmental goals and (2) formulation of economic measures for each such air pollution problem which would provide additional incentives to reduce air pollution without—
(A) interfering with the effectiveness of existing methods of control, or
(B) creating problems similar to those which prevent alternative regulatory methods from being used to reach such environmental goals.

(d) The study of the measures referred to in paragraph (3) of subsection (a) shall concentrate on (1) identification of air pollution problems for which no existing methods of control exist, (2) formulation of economic measures to reduce such pollution, and (3) comparison of the environmental and economic impacts of the economic measures with those of any alternative regulatory methods which can be identified.

(e) In conducting the study under this section, a preliminary screening should be made of the problems referred to in subsections (b) (1), (c) (1), and (d) (1) and economic measures should be formulated under subsections (b) (2), (c) (2), and (d) (2) in the most promising cases, giving special attention to structural and administra-
tive problems. In formulating any such measure which provides for a charge, the appropriate level of the charge should be determined, if possible, and the environmental and economic impacts should be identified.

(f) Within one year after the date of enactment of this Act, the Administrator shall complete a study and report to the Congress on the advantages and disadvantages (including an analysis of the feasibility) of establishing a system of penalties for stationary sources on emissions of oxides of nitrogen and make recommendation regarding the establishment of such a system. Such study shall determine if such a system will effectively encourage the development of more effective systems and technologies for control of emissions of oxides of nitrogen for new major emitting facilities, or existing major emitting facilities, or both. In any case in which a proposed penalty system is recommended by the Administrator, the report should include—

(1) a recommendation respecting the appropriate period during which such system of penalties should apply, and the appropriate termination date or dates for such system, if any, taking into account—

(A) the time at which adequate technology may reasonably be anticipated to be available to control oxides of nitrogen for that category of facilities,

(B) the degree to which such technology can be expected to be used on such facilities, and

(C) the Administrator's authorities to require the use of such technology,

(2) recommendations respecting the compilation of records by facilities subject to such penalties for purposes of determining the applicability and amount of such penalty.

(g) Not later than two years after the date of the enactment of this section, the Administrator and the Council shall conclude the study and assessment under this section and submit a report containing the results thereof to the President and to the Congress. Interim reports on specific pollution problems and solutions recommended shall be made available to the President and the Congress by the Administrator whenever available.

SAVING PROVISION; EFFECTIVE DATES

(a) No suit, action, or other proceeding lawfully commenced by or against the Administrator or any other officer or employee of the United States in his official capacity or in relation to the discharge of his official duties under the Clean Air Act, as in effect immediately prior to the date of enactment of this Act shall abate by reason of the taking effect of the amendments made by this Act. The court may, on its own motion or that of any party made at any time within twelve months after such taking effect, allow the same to be maintained by or against the Administrator or such officer or employee.

(b) All rules, regulations, orders, determinations, contracts, certifications, authorizations, delegations, or other actions duly issued, made, or taken by or pursuant to the Clean Air Act as in effect immediately prior to the date of enactment of this Act, and pertaining to any functions, powers, requirements, and duties under the Clean Air Act, as in effect immediately prior to the date of enactment of this Act, and
not suspended by the Administrator or the courts, shall continue in full force and effect after the date of enactment of this Act until modified or rescinded in accordance with the Clean Air Act as amended by this Act.

(c) Nothing in this Act nor any action taken pursuant to this Act shall in any way affect any requirement of an approved implementation plan in effect under section 110 of this Act or any other provision of the Act in effect under the Clean Air Act before the date of enactment of this section until modified or rescinded in accordance with the Clean Air Act as amended by this Act.

(d) (1) Except as otherwise expressly provided, the amendments made by this Act shall be effective on date of enactment.

(2) Except as otherwise expressly provided, each State required to revise its applicable implementation plan by reason of any amendment made by this Act shall adopt and submit to the Administrator of the Environmental Protection Administration such plan revision before the later of the date—

(A) one year after the date of enactment of this Act, or

(B) nine months after the date of promulgation by the Administrator of the Environmental Protection Administration of any regulations under an amendment made by this Act which are necessary for the approval of such plan revision.

(b) (1) Such section 444 (22 U.S.C. 889) is further amended by adding the following new subsection at the end thereof:
“(c) (1) The head of any agency of the United States, including any agency of the legislative or judicial branch of the United States, may compensate any current or former alien employee, including an alien employee who worked under a personal services contract, who is or has been imprisoned by a foreign government if the Secretary of State (or, in the case of an alien employee of the Central Intelligence Agency, the Director of Central Intelligence) determines that such imprisonment is the result of the alien’s employment by the United States. Such compensation may not exceed an amount that such agency head determines approximates the salary and other benefits to which such employee or former employee would have been entitled had he or she remained employed during the period of such imprisonment, and may be paid under such terms and conditions as the Secretary of State deems appropriate. For purposes of making payments authorized by this subsection, the head of any such agency shall have the same powers with respect to imprisoned alien employees and such former employees as any head of an agency under the provisions of subchapter VII of chapter 55 of title 5, United States Code, to the extent that such powers are consistent with this paragraph. Any period of imprisonment of an alien which is compensable under this subsection shall be considered for purposes of any other employee benefit to be a period of employment by the United States Government, except that a period of imprisonment shall not be creditable—
(A) for purposes of subchapter III of chapter 83 of title 5, United States Code, unless the individual either—
“(i) was subject to section 8334(a) of such title during the period of his or her Government employment last preceding the imprisonment; or

“(ii) qualifies for annuity benefits under such subchapter III by reason of other service; or

“(B) for purposes of subchapter I of chapter 8 of title 5, United States Code, unless the individual was employed by the United States Government at the time of his or her imprisonment.

“(2) No compensation or other benefit shall be awarded under paragraph (1) unless a claim therefor is filed within three years after—

“(A) the date of the enactment of this subsection;

“(B) the termination of the period of imprisonment giving rise to the claim; or

“(C) the date of the claimant’s first opportunity to file such a claim, as determined by the appropriate agency head;

whichever is later.

“(3) The Secretary of State may prescribe regulations governing payments under this subsection for the guidance of all agencies.”.

The amendment made by paragraph (1) of this subsection shall apply with respect to all past, present, and future qualified employees, but no monthly compensation or annuity payment under title 5, United States Code, that may be approved by reason of such amendment shall be effective prior to the first day of the first month which begins on or after the date of enactment of this Act or October 1, 1977, whichever is later. Payments that may be authorized under such amendment, other than annuity or monthly compensation payments referred to in the preceding sentence, shall be paid from funds appropriated after such date of enactment for salaries and expenses.

TITLE V—MISCELLANEOUS PROVISIONS

BELGRADE CONFERENCE

SEC. 502. The Congress finds that the Belgrade Conference to review compliance with the Helsinki Accords provides the United States an important forum to press its case for greater respect for human rights. Furthermore, the Congress is convinced that the emphasis given human rights in general by the United States should be translated into concern for specific individuals. In this regard, the Congress is particularly concerned about the fate of Anatoly Shcharansky and urges the United States representatives to the Belgrade Conference to express the official concern of the United States over the Shcharansky case.
UNITED NATIONS REFORM

SEC. 503. (a) The United States should make a major effort toward reforming and restructuring the United Nations system so that it might become more effective in resolving global problems. Toward that end, the United States should present a program for United Nations reform to the Special United Nations Committee on the Charter of the United Nations and on Strengthening of the Role of the Organization. In developing such a program the United States should give appropriate consideration to various possible proposals for reforming the United Nations, including but not limited to proposals which would—

1. adjust decisionmaking processes in the United Nations by providing voting in the General Assembly weighted according to population and contributions and by modifying veto powers on certain categories of questions, such as membership recommendations, in the Security Council;

2. foster greater use of the International Court of Justice by the United States and other members of the United Nations;

3. supplement United Nations finances through contributions from commerce, services, and resources regulated by the United Nations;

4. improve coordination of and expand United Nations activities on behalf of human rights;

(b) As used in this section, the term "light capital technologies" means those means of production which economize on capital wherever capital is scarce and expensive and labor abundant and cheap, the purposes being to insure that the increasingly scarce capital in the world can be stretched to help all, rather than a small minority, of the world's poor; that workers will not be displaced by sophisticated labor-saving devices where there is already much unemployment; and further, that poor nations can be encouraged eventually to produce their own capital from surplus labor time, thus enhancing their chances of developing independently of outside help.

SEC. 508. Section 401(s) of the Foreign Assistance Act of 1969 (22 U.S.C. 290f(s)) is amended—

INTERNATIONAL FOOD RESERVE

22 USC 2220

Sec. 510. (a) The Congress finds and declares that—

(1) half a billion people suffer from malnutrition or undernutrition;

(2) very modest shortfalls in crop production can result in widespread human suffering;

(3) increasing variability in world food production and trade remains an ever-present threat to producers and consumers;

(4) the World Food Conference recognized the urgent need for an international undertaking on world food security based largely upon strategic food reserves;

(5) the nations of the world have agreed to begin discussions on a system of grain reserves to regulate food availability;

(6) the Congress through legislation has repeatedly urged the President to enter negotiations with other nations to establish such a network of grain reserves;
(7) little progress has resulted from the initial multilateral discussions toward the negotiation of an international grain reserve system;

(8) this lack of progress is caused, in part, by lack of leadership in such discussions; and

(9) the United States is in a unique position as the world's most important producer of foodstuffs to provide such leadership.

(b) It is therefore the sense of the Congress that the President should initiate a major diplomatic initiative toward the creation of an international system of nationally held grain reserves which provides for supply assurance to consumers and income security to producers.

NEGOTIATIONS WITH CUBA

Sec. 511. (a) It is the sense of the Congress that any negotiations toward the normalization of relations with Cuba be conducted in a deliberate manner and on a reciprocal basis, and that the vital concerns of the United States with respect to the basic rights and interests of United States citizens whose persons or property are the subject of such negotiations be protected.

(b) Furthermore, it is the sense of Congress that the Cuban policies and actions regarding the use of its military and paramilitary personnel beyond its borders and its disrespect for the human rights of individuals are among the elements which must be taken into account in any such negotiations.

UNITED STATES POLICY TOWARD KOREA

Sec. 512. (a) The Congress declares that—

(1) United States policy toward Korea should continue to be arrived at by joint decision of the President and the Congress;

(2) in any implementation of the President's policy of gradual and phased reduction of United States ground forces from the Republic of Korea, the United States should seek to accomplish such reduction in stages consistent with United States interests in Asia, notably Japan, and with the security interests of the Republic of Korea;

(3) any implementation of this policy should be carried out with a careful regard to the interest of the United States in continuing its close relationship with the people and government of Japan, in fostering democratic practices in the Republic of Korea, and in maintaining stable relations among the countries of East Asia; and

(4) these interests can be served most effectively by a policy which involves consultations by the United States Government, as appropriate, with the governments of the region, particularly those directly involved.

(b) (1) Any implementation of the foregoing policy shall be carried out in regular consultation with the Congress.

(2) Not later than February 15, 1978, and not later than February 15 of each year thereafter until any such withdrawal is completed, the President shall transmit a report in writing to the Speaker of the House of Representatives and the Committees on Foreign Relations, Armed Services, and Intelligence of the Senate assessing the implementation of the foregoing policy.

Sec. 513. Noting the decision of the United Nations General Assembly to convene a special session on disarmament in the spring of 1978 and recognizing the important role that comprehensive disarmament could play in securing world peace and economic development, the Congress requests that, at an appropriate date, the Secretary of State report to the appropriate committees of the Congress on the procedures which the executive branch is following in preparing for the special session on disarmament and on United States objectives for that special session.

(c) Section 103 of the American-Mexican Treaty Act of 1950 (22 U.S.C. 277d–3) is amended by striking out “$100 per diem” in the second sentence and inserting in lieu thereof “the maximum daily rate for grade GS-15 of the General Schedule”.

(d) The amendments made by this section shall take effect on October 1, 1977.

“(i) The President shall direct all Chiefs of a United States Diplomatic Mission to inform their host governments that it is a general policy of the United States Government to prohibit United States Government employees from receiving gifts or decorations of more than minimal value.

“(j) Nothing in this section shall be construed to derogate any regulation prescribed by any employing agency which provides for more stringent limitations on the receipt of gifts and decorations by its employees.

“(k) The provisions of this section do not apply to grants and other forms of assistance to which section 108A of the Mutual Educational and Cultural Exchange Act of 1961 applies.”.

An Act

To amend the Consumer Credit Protection Act to prohibit abusive practices by

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Consumer Credit Protection Act (15 U.S.C. 1601 et seq.) is amended by adding at the end thereof the following new title:

"TITLE VIII—DEBT COLLECTION PRACTICES

§ 801. Short title

This title may be cited as the 'Fair Debt Collection Practices Act'.

§ 802. Findings and purpose

(a) There is abundant evidence of the use of abusive, deceptive, and unfair debt collection practices by many debt collectors. Abusive debt collection practices contribute to the number of personal bankruptcies, to marital instability, to the loss of jobs, and to invasions of individual privacy.

(b) Existing laws and procedures for redressing these injuries are inadequate to protect consumers.

(c) Means other than misrepresentation or other abusive debt collection practices are available for the effective collection of debts.

(d) Abusive debt collection practices are carried on to a substantial extent in interstate commerce and through means and instrumentalities of such commerce. Even where abusive debt collection practices are purely intrastate in character, they nevertheless directly affect interstate commerce.

(e) It is the purpose of this title to eliminate abusive debt collection practices by debt collectors, to insure that those debt collectors who refrain from using abusive debt collection practices are not competitively disadvantaged, and to promote consistent State action to protect consumers against debt collection abuses.
"§ 803. Definitions

"As used in this title—

“(2) The term 'communication' means the conveying of information regarding a debt directly or indirectly to any person through any medium.

“(3) The term ‘consumer’ means any natural person obligated or allegedly obligated to pay any debt.

“(4) The term ‘creditor’ means any person who offers or extends credit creating a debt or to whom a debt is owed, but such term does not include any person to the extent that he receives an assignment or transfer of a debt in default solely for the purpose of facilitating collection of such debt for another.

“(5) The term ‘debt’ means any obligation or alleged obligation of a consumer to pay money arising out of a transaction in which the money, property, insurance, or services which are the subject of the transaction are primarily for personal, family, or household purposes, whether or not such obligation has been reduced to judgment.

“(6) The term ‘debt collector’ means any person who uses any instrumentality of interstate commerce or the mails in any business the principal purpose of which is the collection of any debts, or who regularly collects or attempts to collect, directly or indirectly, debts owed or due or asserted to be owed or due another. Notwithstanding the exclusion provided by clause (G) of the last sentence of this paragraph, the term includes any creditor who, in the process of collecting his own debts, uses any name other than his own which would indicate that a third person is collecting or attempting to collect such debts. For the purpose of section 808(6), such term also includes any person who uses any instrumentality of interstate commerce or the mails in any business the principal purpose of which is the enforcement of security interests. The term does not include—

“(A) any officer or employee of a creditor while, in the name of the creditor, collecting debts for such creditor;

“(B) any person while acting as a debt collector for another person, both of whom are related by common ownership or affiliated by corporate control, if the person acting as a debt collector does so only for persons to whom it is so related or affiliated and if the principal business of such person is not the collection of debts;

“(C) any officer or employee of the United States or any State to the extent that collecting or attempting to collect any debt is in the performance of his official duties;

“(D) any person while serving or attempting to serve legal process on any other person in connection with the judicial enforcement of any debt;

“(E) any nonprofit organization which, at the request of consumers, performs bona fide consumer credit counseling and assists consumers in the liquidation of their debts by receiving payments from such consumers and distributing such amounts to creditors;

“(F) any attorney-at-law collecting a debt as an attorney on behalf of and in the name of a client; and
“(G) any person collecting or attempting to collect any debt owed or due or asserted to be owed or due another to the extent such activity (i) is incidental to a bona fide fiduciary obligation or a bona fide escrow arrangement; (ii) concerns a debt which was originated by such person; (iii) concerns a debt which was not in default at the time it was obtained by such person; or (iv) concerns a debt obtained by such person as a secured party in a commercial credit transaction involving the creditor.

“(7) The term ‘location information’ means a consumer's place of abode and his telephone number at such place, or his place of employment.

“(8) The term ‘State’ means any State, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any political subdivision of any of the foregoing.

15 USC 1692b. “§ 804. Acquisition of location information

“Any debt collector communicating with any person other than the consumer for the purpose of acquiring location information about the consumer shall—

“(1) identify himself, state that he is confirming or correcting location information concerning the consumer, and, only if expressly requested, identify his employer;

“(2) not state that such consumer owes any debt;

“(3) not communicate with any such person more than once unless requested to do so by such person or unless the debt collector reasonably believes that the earlier response of such person is erroneous or incomplete and that such person now has correct or complete location information;

“(4) not communicate by post card;

“(5) not use any language or symbol on any envelope or in the contents of any communication effected by the mails or telegram that indicates that the debt collector is in the debt collection business or that the communication relates to the collection of a debt; and

“(6) after the debt collector knows the consumer is represented by an attorney with regard to the subject debt and has knowledge of, or can readily ascertain, such attorney's name and address, not communicate with any person other than that attorney, unless the attorney fails to respond within a reasonable period of time to communication from the debt collector.

15 USC 1692c. “§ 805. Communication in connection with debt collection

“(a) Communication With the Consumer Generally.—Without the prior consent of the consumer given directly to the debt collector or the express permission of a court of competent jurisdiction, a debt collector may not communicate with a consumer in connection with the collection of any debt—

“(1) at any unusual time or place or a time or place known or which should be known to be inconvenient to the consumer. In the absence of knowledge of circumstances to the contrary, a debt collector shall assume that the convenient time for communicating with a consumer is after 8 o'clock antimeridian and before 9 o'clock postmeridian, local time at the consumer’s location; and

“(2) if the debt collector knows the consumer is represented by an attorney with respect to such debt and has knowledge of, or can readily ascertain, such attorney's name and address, unless
the attorney fails to respond within a reasonable period of time
to a communication from the debt collector or unless the attorney
consents to direct communication with the consumer; or

“(3) at the consumer's place of employment if the debt collector
knows or has reason to know that the consumer's employer pro-
hibits the consumer from receiving such communication.

“(b) COMMUNICATION WITH THIRD PARTIES.—Except as provided
in section 804, without the prior consent of the consumer given directly
to the debt collector, or the express permission of a court of competent
jurisdiction, or as reasonably necessary to effectuate a postjudgment
judicial remedy, a debt collector may not communicate, in connection
with the collection of any debt, with any person other than the con-
sumer, his attorney, a consumer reporting agency if otherwise per-
mitted by law, the creditor, the attorney of the creditor, or the attorney
of the debt collector.

“(c) CEASING COMMUNICATION.—If a consumer notifies a debt col-
collector in writing that the consumer refuses to pay a debt or that the
consumer wishes the debt collector to cease further communication
with the consumer, the debt collector shall not communicate further
with the consumer with respect to such debt, except—

“(1) to advise the consumer that the debt collector’s further
efforts are being terminated;
“(2) to notify the consumer that the debt collector or creditor
may invoke specified remedies which are ordinarily invoked by
such debt collector or creditor; or
“(3) where applicable, to notify the consumer that the debt
collector or creditor intends to invoke a specified remedy.
If such notice from the consumer is made by mail, notification shall be
complete upon receipt.

“(d) For the purpose of this section, the term ‘consumer’ includes
the consumer’s spouse, parent (if the consumer is a minor), guardian,
executor, or administrator.

“§ 806. Harassment or abuse
“A debt collector may not engage in any conduct the natural con-
sequence of which is to harass, oppress, or abuse any person in con-
nection with the collection of a debt. Without limiting the general
application of the foregoing, the following conduct is a violation of
this section:

“(1) The use or threat of use of violence or other criminal
means to harm the physical person, reputation, or property of any
person.
“(2) The use of obscene or profane language or language the
natural consequence of which is to abuse the hearer or reader.
“(3) The publication of a list of consumers who allegedly refuse
to pay debts, except to a consumer reporting agency or to persons
meeting the requirements of section 603(f) or 604(3) of this Act.
“(4) The advertisement for sale of any debt to coerce payment
of the debt.
“(5) Causing a telephone to ring or engaging any person in
telephone conversation repeatedly or continuously with intent to
annoy, abuse, or harass any person at the called number.
“(6) Except as provided in section 804, the placement of tele-
phone calls without meaningful disclosure of the caller's identity.

“§ 807. False or misleading representations
“A debt collector may not use any false, deceptive, or misleading
representation or means in connection with the collection of any debt.
Without limiting the general application of the foregoing, the following conduct is a violation of this section:

“(1) The false representation or implication that the debt collector is vouched for, bonded by, or affiliated with the United States or any State, including the use of any badge, uniform, or facsimile thereof.

“(2) The false representation of—

“(A) the character, amount, or legal status of any debt; or

“(B) any services rendered or compensation which may be lawfully received by any debt collector for the collection of a debt.

“(3) The false representation or implication that any individual is an attorney or that any communication is from an attorney.

“(4) The representation or implication that nonpayment of any debt will result in the arrest or imprisonment of any person or the seizure, garnishment, attachment, or sale of any property or wages of any person unless such action is lawful and the debt collector or creditor intends to take such action.

“(5) The threat to take any action that cannot legally be taken or that is not intended to be taken.

“(6) The false representation or implication that a sale, referral, or other transfer of any interest in a debt shall cause the consumer to—

“(A) lose any claim or defense to payment of the debt; or

“(B) become subject to any practice prohibited by this title.

“(7) The false representation or implication that the consumer committed any crime or other conduct in order to disgrace the consumer.

“(8) Communicating or threatening to communicate to any person credit information which is known or which should be known to be false, including the failure to communicate that a disputed debt is disputed.

“(9) The use or distribution of any written communication which simulates or is falsely represented to be a document authorized, issued, or approved by any court, official, or agency of the United States or any State, or which creates a false impression as to its source, authorization, or approval.

“(10) The use of any false representation or deceptive means to collect or attempt to collect any debt or to obtain information concerning a consumer.

“(11) Except as otherwise provided for communications to acquire location information under section 804, the failure to disclose clearly in all communications made to collect a debt or to obtain information about a consumer, that the debt collector is attempting to collect a debt and that any information obtained will be used for that purpose.

“(12) The false representation or implication that accounts have been turned over to innocent purchasers for value.

“(13) The false representation or implication that documents are legal process.

“(14) The use of any business, company, or organization name other than the true name of the debt collector's business, company, or organization.

“(15) The false representation or implication that documents are not legal process forms or do not require action by the consumer.
"(16) The false representation or implication that a debt collector operates or is employed by a consumer reporting agency as defined by section 603(f) of this Act.

§ 808. Unfair practices

A debt collector may not use unfair or unconscionable means to collect or attempt to collect any debt. Without limiting the general application of the foregoing, the following conduct is a violation of this section:

§ 809. Validation of debts

"(a) Within five days after the initial communication with a consumer in connection with the collection of any debt, a debt collector shall, unless the following information is contained in the initial communication or the consumer has paid the debt, send the consumer a written notice containing—

"(1) the amount of the debt;

"(2) the name of the creditor to whom the debt is owed;

"(3) a statement that unless the consumer, within thirty days after receipt of the notice, disputes the validity of the debt, or any portion thereof, the debt will be assumed to be valid by the debt collector;

“(b) If the consumer notifies the debt collector in writing within the thirty-day period described in subsection (a) that the debt, or any portion thereof, is disputed, or that the consumer requests the name and address of the original creditor, the debt collector shall cease collection of the debt, or any disputed portion thereof, until the debt collector obtains verification of the debt or a copy of a judgment, or the name and address of the original creditor, and a copy of such verification or judgment, or name and address of the original creditor, is mailed to the consumer by the debt collector.

“(c) The failure of a consumer to dispute the validity of a debt under this section may not be construed by any court as an admission of liability by the consumer.

15 USC 1692h. “§ 810. Multiple debts

“If any consumer owes multiple debts and makes any single payment to any debt collector with respect to such debts, such debt collector may not apply such payment to any debt which is disputed by the consumer and, where applicable, shall apply such payment in accordance with the consumer’s directions.

15 USC 1692i. “§ 811. Legal actions by debt collectors

“(a) Any debt collector who brings any legal action on a debt against any consumer shall—

“(1) in the case of an action to enforce an interest in real property securing the consumer’s obligation, bring such action only in a judicial district or similar legal entity in which such real property is located; or

“(2) in the case of an action not described in paragraph (1), bring such action only in the judicial district or similar legal entity—

“(A) in which such consumer signed the contract sued upon; or

“(B) in which such consumer resides at the commencement of the action.

“(b) Nothing in this title shall be construed to authorize the bringing of legal actions by debt collectors.

15 USC 1692j. “§ 812. Furnishing certain deceptive forms

“(a) It is unlawful to design, compile, and furnish any form knowing that such form would be used to create the false belief in a consumer that a person other than the creditor of such consumer is participating in the collection of or in an attempt to collect a debt such consumer allegedly owes such creditor, when in fact such person is not so participating.

“(b) Any person who violates this section shall be liable to the same extent and in the same manner as a debt collector is liable under section 813 for failure to comply with a provision of this title.
§ 813. Civil liability

(a) Except as otherwise provided by this section, any debt collector who fails to comply with any provision of this title with respect to any person is liable to such person in an amount equal to the sum of—

(1) any actual damage sustained by such person as a result of such failure;

(2)(A) in the case of any action by an individual, such additional damages as the court may allow, but not exceeding $1,000; or

(B) in the case of a class action, (i) such amount for each named plaintiff as could be recovered under subparagraph (A), and (ii) such amount as the court may allow for all other class members, without regard to a minimum individual recovery, not to exceed the lesser of $500,000 or 1 per centum of the net worth of the debt collector; and

(3) in the case of any successful action to enforce the foregoing liability, the costs of the action, together with a reasonable attorney’s fee as determined by the court. On a finding by the court that an action under this section was brought in bad faith and for the purpose of harassment, the court may award to the defendant attorney’s fees reasonable in relation to the work expended and costs.

(b) In determining the amount of liability in any action under subsection (a), the court shall consider, among other relevant factors—

(1) in any individual action under subsection (a) (2)(A), the frequency and persistence of noncompliance by the debt collector, the nature of such noncompliance, and the extent to which such noncompliance was intentional; or

(2) in any class action under subsection (a) (2)(B), the frequency and persistence of noncompliance by the debt collector, the nature of such noncompliance, the resources of the debt collector, the number of persons adversely affected, and the extent to which the debt collector’s noncompliance was intentional.

(c) A debt collector may not be held liable in any action brought under this title if the debt collector shows by a preponderance of evidence that the violation was not intentional and resulted from a bona fide error notwithstanding the maintenance of procedures reasonably adapted to avoid any such error.

(d) An action to enforce any liability created by this title may be brought in any appropriate United States district court without regard to the amount in controversy, or in any other court of competent jurisdiction, within one year from the date on which the violation occurs.

(e) No provision of this section imposing any liability shall apply to any act done or omitted in good faith in conformity with any advisory opinion of the Commission, notwithstanding that after such act or omission has occurred, such opinion is amended, rescinded, or determined by judicial or other authority to be invalid for any reason.

§ 814. Administrative enforcement

(a) Compliance with this title shall be enforced by the Commission, except to the extent that enforcement of the requirements imposed under this title is specifically committed to another agency under subsection (b). For purpose of the exercise by the Commission of its functions and powers under the Federal Trade Commission Act, a violation of this title shall be deemed an unfair or deceptive act or practice in violation of that Act. All of the functions and powers of
the Commission under the Federal Trade Commission Act are available to the Commission to enforce compliance by any person with this title, irrespective of whether that person is engaged in commerce or meets any other jurisdictional tests in the Federal Trade Commission Act, including the power to enforce the provisions of this title in the same manner as if the violation had been a violation of a Federal Trade Commission trade regulation rule.

"(b) Compliance with any requirements imposed under this title shall be enforced under—

12 USC 1818.

"(1) section 8 of the Federal Deposit Insurance Act, in the case of—

"(A) national banks, by the Comptroller of the Currency;

"(B) member banks of the Federal Reserve System (other than national banks), by the Federal Reserve Board; and

12 USC 1751.

"(3) the Federal Credit Union Act, by the Administrator of the National Credit Union Administration with respect to any Federal credit union;

"(c) For the purpose of the exercise by any agency referred to in subsection (b) of its powers under any Act referred to in that subsection, a violation of any requirement imposed under this title shall be deemed to be a violation of a requirement imposed under that Act. In addition to its powers under any provision of law specifically referred to in subsection (b), each of the agencies referred to in that subsection may exercise, for the purpose of enforcing compliance with any requirement imposed under this title any other authority conferred on it by law, except as provided in subsection (d).

"(d) Neither the Commission nor any other agency referred to in subsection (b) may promulgate trade regulation rules or other regulations with respect to the collection of debts by debt collectors as defined in this title.

15 USC 1692m.

§ 815. Reports to Congress by the Commission

"(a) Not later than one year after the effective date of this title and at one-year intervals thereafter, the Commission shall make reports to the Congress concerning the administration of its functions under this title, including such recommendations as the Commission deems necessary or appropriate. In addition, each report of the Commission shall include its assessment of the extent to which compliance with this title
is being achieved and a summary of the enforcement actions taken by the Commission under section 814 of this title.

"(b) In the exercise of its functions under this title, the Commission may obtain upon request the views of any other Federal agency which exercises enforcement functions under section 814 of this title.

§ 816. Relation to State laws

This title does not annul, alter, or affect, or exempt any person subject to the provisions of this title from complying with the laws of any State with respect to debt collection practices, except to the extent that those laws are inconsistent with any provision of this title, and then only to the extent of the inconsistency. For purposes of this section, a State law is not inconsistent with this title if the protection such law affords any consumer is greater than the protection provided by this title.

§ 817. Exemption for State regulation

The Commission shall by regulation exempt from the requirements of this title any class of debt collection practices within any State if the Commission determines that under the law of that State that class of debt collection practices is subject to requirements substantially similar to those imposed by this title, and that there is adequate provision for enforcement.

§ 818. Effective date

Sec. 1901. Effective date.

TITLE I—PAYMENT LIMITATION FOR WHEAT, FEED GRAINS, UPLAND COTTON, AND RICE

PAYMENT LIMITATION

Sec. 101. Notwithstanding any other provision of law—
(1) The total amount of payments which a person shall be entitled to receive under—
(A) one or more of the annual programs established under the Agricultural Act of 1949, as amended, and the Agricultural Adjustment Act of 1938, as amended, for wheat, feed grains, and upland cotton shall not exceed $40,000 for the 1978 crop and $45,000 for the 1979 crop;

(B) the annual rice program established under such Acts shall not exceed $52,250 for the 1978 crop and $50,000 for the 1979 crop; and

(C) one or more of the annual programs established under such Acts for wheat, feed grains, upland cotton, and rice shall not exceed $50,000 for each of the 1980 and 1981 crops.

"Payments."

(2) The term "payments" as used in this section shall not include loans or purchases, or any part of any payment which is determined by the Secretary of Agriculture to represent compensation for disaster loss or resource adjustment (excluding land diversion payments) or public access for recreation.

(3) If the Secretary determines that the total amount of payments which will be earned by any person under the program in effect for any crop will be reduced under this section, the set-aside acreage for the farm or farms on which such person will be sharing in payments earned under such program shall be reduced to such extent and in such manner as the Secretary determines will be fair and reasonable in relation to the amount of the payment reduction.

"Person."

(4) The Secretary shall issue regulations defining the term "person" and prescribing such rules as the Secretary determines necessary to assure a fair and reasonable application of such limitation: Provided, That the provisions of this section which limit payments to any person shall not be applicable to lands owned by States, political subdivisions, or agencies thereof, so long as such lands are farmed primarily in the direct furtherance of a public function, as determined by the Secretary. The rules for determining whether corporations and their stockholders may be considered as separate persons shall be in accordance with the regulations issued by the Secretary on December 18, 1970, under section 101 of the Agricultural Act of 1970.

FAMILY FARMS

Sec. 102. (a) Congress hereby specifically reaffirms the historical policy of the United States to foster and encourage the family farm system of agriculture in this country. Congress firmly believes that the maintenance of the family farm system of agriculture is essential to the social well-being of the Nation and the competitive production of adequate supplies of food and fiber. Congress further believes that any significant expansion of nonfamily owned large-scale corporate farming enterprises will be detrimental to the national welfare. It is neither the policy nor the intent of Congress that agricultural and agriculture-related programs be administered exclusively for family farm operations, but it is the policy and the express intent of Congress that no such program be administered in a manner that will place the family farm operation at an unfair economic disadvantage.

(b) In order that Congress may be better informed regarding the status of the family farm system of agriculture in the United States, the Secretary of Agriculture shall submit to Congress, not later than July 1 of each year, a written report containing current information on trends in family farm operations and comprehensive national and State-by-State data on nonfamily farm operations in the United States. The Secretary shall also include in each such report (1) information on how existing agricultural and agriculture-related programs
are being administered to enhance and strengthen the family farm system of agriculture in the United States, (2) an assessment of how Federal laws may encourage the growth of nonfamily farm operations, and (3) such other information as the Secretary deems appropriate or determines would aid Congress in protecting, preserving, and strengthening the family farm system of agriculture in the United States.

STUDY ON PROHIBITING PAYMENTS TO CERTAIN LEGAL ENTITIES

Sec. 103. In furtherance of the policy stated in section 102 of this Act, the Secretary of Agriculture shall conduct a study and report to Congress no later than January 1, 1979, on the impact on participation in the wheat, feed grain, cotton, and rice programs and the production of such commodities in carrying out a statutory provision such as that included in the Food and Agriculture Act of 1977, as passed by the Senate on May 24, 1977, prohibiting the making of payments to certain corporations and other entities under such programs. The study shall, in addition, assess the impact of extending the prohibition against making commodity program payments to tenants on land owned by such corporations and other entities which would be excluded from payments under such a provision. The study shall utilize, to the greatest extent possible, the information on commodity program payments compiled by the Agricultural Stabilization and Conservation Service in determining payment eligibility under section 101 of the Agricultural Act of 1970, as amended, and section 101 of this Act. The Secretary may collect such other information as may be necessary to determine the impact of such a statutory provision and to identify the number and characteristics of producers that would be affected by such a provision.

CONFORMING AMENDMENT

Sec. 104. Section 101 (1) of the Agricultural Act of 1970, as amended, is amended to read as follows:

“(1) The total amount of payments which a person shall be entitled to receive under one or more of the annual programs established by titles IV, V, and VI of this Act for the 1974 through 1976 crops of the commodities and by titles IV and V of the Food and Agriculture Act of 1977 and titles IV, V, and VI of this Act for the 1977 crop of the commodities shall not exceed $20,000.”.

TITLE II—DAIRY AND BEEKEEPER PROGRAMS

DAIRY BASE PLANS

Sec. 201. Section 201 (e) of the Agricultural Act of 1970, as amended, is amended to read as follows:

“(e) The provisions of this section shall not be effective after December 31, 1981, except with respect to orders providing for class I base plans issued prior to such date, but in no event shall any order so issued extend or be effective beyond December 31, 1984.”.

PRODUCER HANDLERS

Sec. 202. The legal status of producer handlers of milk under the provisions of the Agricultural Adjustment Act, as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, shall be the same subsequent to the adoption of the amendment made by the Food and Agriculture Act of 1977 as it was prior thereto.
7 USC 1446. SEC. 203. Section 201 of the Agricultural Act of 1949, as amended, is amended by—

(1) striking out the second sentence in subsection (c) and inserting in lieu thereof a new sentence as follows: "Notwithstanding the foregoing, effective for the period beginning on the effective date of the Food and Agriculture Act of 1977 and ending March 31, 1979, the price of milk shall be supported at not less than 80 per centum of the parity price therefor;"; and

Adjustments.

(2) adding at the end thereof a new subsection (d) as follows:

"...effective for the period beginning on the effective date of the Food and Agriculture Act of 1977 and ending March 31, 1981, the support price of milk shall be adjusted by the Secretary at the beginning of each semiannual period after the beginning of the marketing year to reflect any estimated change in the parity index during such semiannual period. The Secretary is authorized to adjust the support price of milk at the beginning of each remaining quarter in the marketing year to reflect any substantial change in the parity index during such quarterly period. Any adjustment under this subsection shall be announced by the Secretary not more than thirty days prior to the beginning of the period to which it is applicable.".

7 USC 1446a. SEC. 204. Section 202 of the Agricultural Act of 1949, as amended, is amended by striking out "1977" in subsections (a) and (b) and inserting in lieu thereof "1981".

(1) inserting after the first sentence a new sentence as follows: "The Secretary is also authorized to make indemnity payments for milk, or cows producing such milk, at a fair market value to any dairy farmer who is directed to remove his milk from commercial markets because of (1) the presence of products of nuclear radiation or fallout if such contamination is not due to the fault of the farmer, or (2) residues of chemicals or toxic substances not included under the first sentence of this section if such chemicals or toxic substances were not used in a manner contrary to applicable regulations or labeling instructions provided at the time of use and the contamination is not due to the fault of the farmer; Provided, That no indemnity payment may be made for contamination resulting from such residues of chemicals or toxic substances if the Secretary determines within thirty days after the date of application for payment that other legal recourse is available to the farmer;"; and

Announcement.

(2) striking out "June 30, 1977" in section 3 and inserting in lieu thereof "September 30, 1981".

7 USC 450l. SEC. 206. Section 203(c) of the Agricultural Marketing Act of 1946 is amended by adding at the end thereof the following: "Within thirty days after the enactment of the Food and Agriculture Act of 1977, the Secretary shall by regulation adopt a standard of quality for ice cream which shall provide that ice cream shall contain at least 1.6 pounds of
total solids to the gallon, weigh not less than 4.5 pounds to the gallon and contain not less than 20 percent total milk solids, constituted of not less than 10 percent milkfat. In no case shall the content of milk solids not fat be less than 6 percent. Whey shall not, by weight, be more than 25 percent of the milk solids not fat. Only those products which meet the standard issued by the Secretary may bear a symbol thereon indicating that they meet the Department of Agriculture standard for ‘ice cream’.

**BEEKEEPER INDEMNITY PROGRAM**

Sec. 207. Section 804 (f) of the Agricultural Act of 1970, as amended, is amended by striking out “December 31, 1977” and inserting in lieu thereof “September 30, 1981”.

**TITLE III—WOOL AND MOHAIR**

**DECLARATION OF POLICY**

Sec. 301. Section 702 of the National Wool Act of 1954, as amended, is amended to read as follows:

“Sec. 702. It is hereby recognized that wool is an essential, strategic, and energy-efficient commodity which is not produced in the United States in sufficient quantities and grades to meet the domestic needs; and that the desired domestic production of wool is impaired by predatory animals and by the depressing effects of wide fluctuations in the price of wool in the world markets. It is hereby declared to be the policy of Congress, as a measure of national security and to promote the general economic welfare, a positive balance of trade, and the efficient use of the Nation’s resources, to encourage the continued domestic production of wool at prices fair to both producers and consumers in a manner which will assure a viable domestic wool industry in the future.”

**EXTENSION OF ACT; SUPPORT PRICE**

Sec. 302. Section 703 of the National Wool Act of 1954, as amended, is amended by—

1. striking out “1977” in subsection (a) and inserting in lieu thereof “1981”;
2. striking out “1977” in subsection (b) and inserting in lieu thereof “1976”;
3. inserting immediately before the period at the end of subsection (b) a new proviso as follows: “: Provided further, That for the marketing years beginning January 1, 1977, and ending December 31, 1981, the support price for shorn wool shall be 85 per centum (rounded to the nearest full cent) of the amount calculated according to the foregoing formula”; and
4. striking out “1977” in subsection (c) and inserting in lieu thereof “1976”.

**TITLE IV—WHEAT**

**LOAN RATES AND TARGET PRICES FOR THE 1977 THROUGH 1981 CROPS**

Sec. 401. Effective only for the 1977 through 1981 crops of wheat, the Agricultural Act of 1949, as amended, is amended to add subsections (a) through (c) to new section 107A as follows:

“Sec. 107A. Notwithstanding any other provision of law—
"(a) The Secretary shall make available to producers loans and purchases at such level, not less than $2.25 per bushel for the 1977 crop of wheat and $2.35 per bushel for each of the 1978 through 1981 crops of wheat, nor, in the case of each of the 1977 through 1981 crops, in excess of 100 per centum of parity, as the Secretary determines will maintain its competitive relationship to other grains in domestic and export markets: Provided, That if the Secretary determines that the average price of wheat received by producers in any marketing year is not more than 105 per centum of the level of loans and purchases for wheat for such marketing year, the Secretary may reduce the level of loans and purchases for wheat for the next marketing year by the amount the Secretary determines necessary to maintain domestic and export markets for grain, except that the level of loans and purchases shall not be reduced by more than 10 per centum in any year nor below $2.00 per bushel.

(b) (1) (A) In addition, the Secretary shall make available to producers payments for each of the 1977 through 1981 crops of wheat in an amount computed as provided in this subsection. Payments for the 1977 crop shall be computed by multiplying (i) the payment rate, by (ii) the allotment for the farm for such crop, by (iii) the projected yield established for the farm for such crop with such adjustments as the Secretary determines necessary to provide a fair and equitable yield. Payments for each of the 1978 through 1981 crops shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the farm program payment yield for the crop. In no event shall payments be made under this paragraph for any of the 1978 through 1981 crops on a greater acreage than the acreage actually planted to wheat.

(B) The payment rate for wheat shall be the amount by which the higher of—

(i) the national weighted average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary; or

(ii) the loan level determined under subsection (a) of this section for such crop

is less than the established price per bushel. The established price for wheat shall be $2.90 per bushel for the 1977 crop and $3.00 per bushel for the 1978 crop: Provided, That for the 1977 crop, the established price shall be $2.47 per bushel with respect to any acreage not planted to wheat within the wheat acreage allotment: Provided further, That for the 1978 crop, the established price shall be $3.05 per bushel if the 1978 crop of wheat is 1.8 billion bushels or less. For the 1979 crop, the established price shall be $3.00 per bushel adjusted to reflect any change in (i) the average adjusted cost of production for the two crop years immediately preceding the 1979 crop year from (ii) the average adjusted cost of production for the two crop years immediately preceding the 1978 crop year. For the 1980 and 1981 crops, the established price shall be the established price for the previous year's crop adjusted to reflect any change in (i) the average adjusted cost of production for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall be limited to (i) vari-
able costs, (ii) machinery ownership costs, and (iii) general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop.

"(C) Notwithstanding the foregoing provisions of this section, in the event the Secretary adjusts the level of loans and purchases for wheat in accordance with the proviso in subsection (a) of this section, the Secretary shall provide emergency compensation by increasing the established price payments for wheat by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made: Provided, That any such increase in established price payments shall not be included in the payments subject to limitation under the provisions of section 101 of the Food and Agriculture Act of 1977.

"(D) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2) of this subsection.

"(2) (A) Effective only with respect to the 1978 and 1979 crops of wheat, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for wheat to wheat or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to wheat for harvest (including any acreage which the producers were prevented from planting to wheat or other nonconserving crop in lieu of wheat because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the farm program payment yield established by the Secretary times a payment rate equal to 33 1/3 per centum of the established price per bushel for wheat.

"(B) Effective only with respect to the 1978 and 1979 crops of wheat, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of wheat which the producers are able to harvest on any farm is less than the result of multiplying 60 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a farm disaster payment to the producers at a rate equal to 50 per centum of the established price for the crop for the deficiency in production below 60 per centum for the crop.

"(C) In the case of the 1977 crop of wheat, disaster payments for prevented planting shall be computed as provided in section 107 of this Act, as amended for the 1974 through 1977 crops by the Agriculture and Consumer Protection Act of 1973, and disaster payments for low yield shall be computed in accordance with the formula provided in subparagraph (B) of this paragraph: Provided, That producers may elect to receive disaster payments for low yield computed as provided in section 107 of this Act, as amended for the 1974 through 1977 crops by the Agriculture and Consumer Protection Act of 1973: Provided further, That no disaster payments for low yield may be made under this paragraph prior to October 1, 1977.

"(c) The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis."
PROGRAM ACREAGES AND PAYMENT YIELDS; SET-ASIDE PROGRAM

Sec. 402. Effective only for the 1978 through 1981 crops of wheat, the Agricultural Act of 1949, as amended, is amended by adding subsections (d) through (i) to section 107A to read as follows:

"(d) (1) The Secretary shall proclaim a national program acreage for each of the 1978 through 1981 crops of wheat. The proclamation shall be made not later than August 15 of each calendar year for the crop harvested in the next succeeding calendar year, except that in the case of the 1978 crop the proclamation shall be made as soon as practicable after enactment of the Food and Agriculture Act of 1977. The Secretary may revise the national program acreage first proclaimed for any crop year for the purpose of determining the allocation factor under paragraph (2) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for wheat shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that carryover stocks of wheat are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

"(2) The Secretary shall determine a program allocation factor for each crop of wheat. The allocation factor for wheat shall be determined by dividing the national program acreage for the crop by the number of acres which the Secretary estimates will be harvested for such crop: Provided, That in no event shall the allocation factor for any crop of wheat be more than 100 per centum nor less than 80 per centum.

"(3) The individual farm program acreage for each crop of wheat shall be determined by multiplying the allocation factor by the acreage of wheat planted for harvest on the farms for which individual farm program acreages are required to be determined: Provided, That the wheat acreage eligible for payments shall not be further reduced by application of the allocation factor if the producers reduce the acreage of wheat planted for harvest on the farm from the previous year by at least the percentage recommended by the Secretary in the proclamation of the national program acreage made not later than August 15 prior to the year in which the crop is harvested, or in the case of the 1978 crop, the proclamation first made after enactment of the Food and Agriculture Act of 1977. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of wheat planted for harvest is less than for the preceding year, but the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for wheat, the Secretary is authorized to make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

"(e) The farm program payment yield for each crop of wheat shall be the yield established for the farm for the previous crop year, adjusted by the Secretary to provide a fair and equitable yield. If no
payment yield for wheat was established for the farm in the previous crop year, the Secretary is authorized to determine such yield as the Secretary finds fair and reasonable. Notwithstanding the foregoing provisions of this subsection, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this subsection. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. In the event national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

"(f)(1) The Secretary shall provide for a set-aside of cropland if the Secretary determines that the total supply of wheat will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. The Secretary shall announce any such set-aside not later than August 15 prior to the year in which the crop is harvested, except that in the case of the 1978 crop, the announcement shall be made as soon as practicable after enactment of the Food and Agriculture Act of 1977. If a set-aside of cropland is in effect under this subsection, then as a condition of eligibility for loans, purchases, and payments authorized by this section, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the acreage of wheat planted for harvest for the crop year for which the set-aside is in effect. The Secretary may limit the acreage planted to wheat. Such limitation shall be applied on a uniform basis to all wheat-producing farms. The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion; however, the Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the set-aside acreage to be devoted to sweet sorghum, hay, and grazing or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, oats, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply, is not likely to increase the cost of the price support program, and will not adversely affect farm income.

"(2) The Secretary may make land diversion payments to producers of wheat, whether or not a set-aside for wheat is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of wheat to desirable goals. Such land diversion payments shall be made to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines.
appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

Wildlife habitats.

“(3) The set-aside acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

Payments.

“(4) The Secretary may make such adjustments in individual set-aside acreages under this section as the Secretary determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography, and such other factors as the Secretary deems necessary.

Adjustments.

“(5) If the operator of the farm desires to participate in the program formulated under this subsection, the operator shall file an agreement to do so no later than such date as the Secretary may prescribe. Loans, purchases, and payments under this section shall be made available to producers on such farm only if the producers set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the producers, terminate or modify any such agreement entered into pursuant to this subsection if the Secretary determines such action necessary because of an emergency created by drought or other disaster, or in order to prevent or alleviate a shortage in the supply of agricultural commodities.

Agreement, filing.

“(g) In any case in which the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the default.

Termination or modification.

“(h) The Secretary is authorized to issue such regulations as the Secretary determines necessary to carry out the provisions of this section.

“(i) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.”

(3) striking out in the seventh sentence "but in no event shall the purchase price exceed the then current support price for such commodities" and inserting in lieu thereof the following: "or unduly affecting market prices, but in no event shall the purchase price exceed the Corporation's minimum sales price for such commodities for unrestricted use".

TITLE V—FEED GRAINS

LOAN RATES AND TARGET PRICES FOR THE 1977 THROUGH 1981 CROPS

Sec. 501. Effective only for the 1977 through 1981 crops, the Agricultural Act of 1949, as amended, is amended by adding subsections (a) through (c) to a new section 105A as follows:

"Sec. 105A. Notwithstanding any other provision of law—

(a)(1) The Secretary shall make available to producers loans and purchases at such level, not less than $2.00 per bushel, for each of the 1977 through 1981 crops of corn, as the Secretary determines will encourage the exportation of feed grains and not result in excessive total stocks of feed grains in the United States: Provided, That if the Secretary determines that the average price of corn received by producers in any marketing year is not more than 105 per centum of the level of loans and purchases for corn for such marketing year, the Secretary may reduce the level of loans and purchases for corn for the next marketing year by the amount the Secretary determines necessary to maintain domestic and export markets for grain, except that the level of loans and purchases shall not be reduced by more than 10 per centum in any year nor below $1.75 per bushel.

(2) The Secretary shall make available to producers loans and purchases on each of the 1977 through 1981 crops of barley, oats, and rye, respectively, at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of such
commodity in relation to corn and other factors specified in section 401(b) of this Act, and on each crop of grain sorghums at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value and average transportation costs to market of grain sorghums in relation to corn.

"(b) (1) (A) In addition, the Secretary shall make available to producers payments for each of the 1977 through 1981 crops of corn, grain sorghums, and, if designated by the Secretary, oats and barley, in an amount computed as provided in this subsection. Payments for the 1977 crop shall be computed by multiplying (i) the payment rate, by (ii) the allotment for the farm for such crop, by (iii) the yield established for the farm for the preceding crop with such adjustments as the Secretary determines necessary to provide a fair and equitable yield. Payments for each of the 1978 through 1981 crops shall be computed by multiplying (i) the payment rate, by (ii) the farm program acreage for the crop, by (iii) the farm program payment yield for the crop. In no event shall payments be made under this paragraph for any of the 1978 through 1981 crops on a greater acreage than the acreage actually planted to such feed grains.

"(B) The payment rate for corn shall be the amount by which the higher of—

"(1) the national weighted average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary, or

"(2) the loan level determined under subsection (a) for such crop

is less than the established price per bushel. The established price for corn shall be $2.00 per bushel in the case of the 1977 crop, except that the established price shall be $1.70 per bushel with respect to any acreage not planted to corn within the feed grain allotment. The established price for corn shall be $2.10 per bushel in the case of the 1978 crop, and for the 1979 through 1981 crops the established price shall be the established price for the previous year's crop adjusted to reflect any change in (i) the average adjusted cost of production for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall be limited to (i) variable costs, (ii) machinery ownership costs, and (iii) general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop.

"(C) Notwithstanding the foregoing provisions of this section, in the event the Secretary adjusts the level of loans and purchases for corn in accordance with the proviso in subsection (a)(1) of this section, the Secretary shall provide emergency compensation by increasing the established price payments for corn by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made: Provided, That any such increase in established price payments shall not be included in the payments subject to limitation under the provisions of section 101 of the Food and Agriculture Act of 1977.

"(D) The payment rate for grain sorghums and, if designated by the Secretary, oats and barley, shall be such rate as the Secretary
determines fair and reasonable in relation to the rate at which payments are made available for corn.

"(E) The total quantity on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2) of this subsection.

"(2)(A) Effective only with respect to the 1978 and 1979 crops of feed grains, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for feed grains to feed grains or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to feed grains for harvest (including any acreage which the producers were prevented from planting to feed grains or other nonconserving crop in lieu of feed grains because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year multiplied by 75 per centum of the farm program payment yield for feed grains established by the Secretary times a payment rate equal to 33 1/3 per centum of the established price per bushel.

"(B) Effective only with respect to the 1978 and 1979 crops of feed grains, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of feed grains which the producers are able to harvest on any farm is less than the result of multiplying 60 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted for harvest for such crop, the Secretary shall make a farm disaster payment to the producers at a rate equal to 50 per centum of the established price for the crop for the deficiency in production below 60 per centum for the crop.

"(C) In the case of the 1977 crop of feed grains, disaster payments for prevented planting for feed grains shall be computed as provided in section 105 of this Act, as amended for the 1974 through 1977 crops by the Agriculture and Consumer Protection Act of 1973, and disaster payments for low yield shall be computed in accordance with the formula provided in subparagraph (B) of this paragraph: Provided, That producers may elect to receive disaster payments for low yield computed as provided in section 105 of this Act, as amended for the 1974 through 1977 crops by the Agriculture and Consumer Protection Act of 1973: Provided further, That no disaster payments for low yield may be made under this paragraph prior to October 1, 1977.

"(c) The Secretary shall provide for the sharing of payments made under this section for any farm among producers on the farm on a fair and equitable basis.”.
any crop year for the purpose of determining the allocation factor under paragraph (2) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall proclaim such revised national program acreage as soon as it is made. The national program acreage for feed grains shall be the number of harvested acres the Secretary determines (on the basis of the weighted national average of the farm program payment yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. If the Secretary determines that the carryover stocks of feed grains are excessive or an increase in stocks is needed to assure desirable carryover, the Secretary may adjust the national program acreage by the amount the Secretary determines will accomplish the desired increase or decrease in carryover stocks.

“(2) The Secretary shall determine a program allocation factor for each crop of feed grains. The allocation factor for feed grains shall be determined by dividing the national program acreage for the crop by the number of acres which the Secretary estimates will be harvested for such crop: Provided, That in no event shall the allocation factor for any crop of feed grains be more than 100 per centum nor less than 80 per centum.

“(3) The individual farm program acreage for each crop of feed grains shall be determined by multiplying the allocation factor by the acreage of feed grains planted for harvest on the farms for which individual farm program acreages are required to be determined: Provided, That the feed grain acreage eligible for payments shall not be further reduced by application of the allocation factor if the producers reduce the acreage of feed grains planted for harvest on the farm from the previous year by at least the percentage recommended by the Secretary in the proclamation of the national program acreage made not later than November 15 prior to the year in which the crop is harvested. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of feed grains planted for harvest is less than for the preceding year, but the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor for feed grains, the Secretary is authorized to make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

“(e) The farm program payment yield for each crop of feed grains shall be the yield established for the farm for the previous crop year, adjusted by the Secretary to provide a fair and equitable yield. If no payment yield for feed grains was established for the farm in the previous crop year, the Secretary is authorized to determine such yield as the Secretary finds fair and reasonable. Notwithstanding the foregoing provisions of this subsection, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this subsection. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary’s estimate of actual yields for the crop year involved. In the event national, State, or county program payment yields are established, the
farm program payment yields shall balance to the national, State, or county program payment yields.

"(f) (1) The Secretary shall provide for a set-aside of cropland if the Secretary determines that the total supply of feed grains will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. Any such set-aside shall be announced by the Secretary not later than November 15 of each calendar year for the crop harvested in the next calendar year. If a set-aside of cropland is in effect under this subsection, then as a condition of eligibility for loans, purchases, and payments authorized by this section on corn, grain sorghums, and, if designated by the Secretary, barley and oats, respectively, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage, as determined by the Secretary, of the feed grain acreage planted for harvest for the crop year for which the set-aside is in effect. The Secretary may limit the acreage planted to feed grains. Such limitation shall be applied on a uniform basis to all feed grain-producing farms. The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion; however, the Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the set-aside acreage to be devoted to sweet sorghum, hay, and grazing or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, tiglicale, oats, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply, is not likely to increase the cost of the price support program, and will not adversely affect farm income.

"(2) The Secretary may make land diversion payments to producers of feed grains, whether or not a set-aside for feed grains is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. Such land diversion payments shall be made to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

"(3) The set-aside acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunt-
ing, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

"(4) The Secretary may make such adjustments in individual set-aside acreages under this section as the Secretary determines necessary to correct for abnormal factors affecting production, and to give due consideration to tillable acreage, crop-rotation practices, types of soil, soil and water conservation measures, and topography, and such other factors as the Secretary deems necessary.

"(5) If the operator of the farm desires to participate in the program formulated under this subsection, the operator shall file an agreement to do so no later than such date as the Secretary may prescribe. Loans, purchases, and payments under this section shall be made available to producers on such farm only if the producers set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the producers, terminate or modify any such agreement entered into pursuant to this subsection if the Secretary determines such action necessary because of an emergency created by drought or other disaster, or in order to prevent or alleviate a shortage in the supply of agricultural commodities.

"(g) In any case in which the failure of a producer to comply fully with the terms and conditions of the program formulated under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the default.

"(h) The Secretary is authorized to issue such regulations as the Secretary determines necessary to carry out the provisions of this section.

"(i) The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.".

Sec. 503. Section 105 of the Agricultural Act of 1949, as amended, shall not be applicable to the 1977 through 1981 crops of feed grains.

NONAPPLICABILITY OF SECTION 105 OF THE AGRICULTURAL ACT OF 1949, AS AMENDED, TO THE 1977 CROP OF FEED GRAINS

Sec. 504. Except as otherwise provided in section 501 of this Act, section 105 (a) and (b) (1) of the Agricultural Act of 1949, as added by the Agricultural Act of 1970, as amended, to be effective only for the 1974 through 1977 crops of feed grains, shall not be applicable to the 1977 crop of feed grains.

TITLE VI—UPLAND COTTON

BASE ACREAGE ALLOTMENTS; SUSPENSION OF MARKETING QUOTAS, AND RELATED PROVISIONS

Sec. 601. Sections 342, 343, 344, 345, 346, and 377 of the Agricultural Adjustment Act of 1938, as amended, shall not be applicable to upland cotton of the 1978 through 1981 crops.

7 USC 1342 note, 1343, 1344, 1345, 1346, 1377.
SEC. 602. Effective only with respect to the 1978 through 1981 crops of upland cotton, except as otherwise provided herein, section 108 of the Agricultural Act of 1949, as amended, is amended by adding at the end thereof a new subsection (f) as follows:

“(f) (1) The Secretary shall, upon presentation of warehouse receipts reflecting accrued storage charges of not more than sixty days, make available for the 1978 through 1981 crops of upland cotton to cooperators nonrecourse loans for a term of ten months from the first day of the month in which the loan is made at such level as will reflect for Strict Low Middling one and one-sixteenth inch upland cotton (micronaire 3.5 through 4.9) at average location in the United States the smaller of (i) 85 per centum of the average price (weighted by market and month) of such quality of cotton as quoted in the designated United States spot markets during the four-year period ending July 31 in the year in which the loan level is announced, or (ii) 90 per centum of the average, for the first two full weeks of October of the year in which the loan level is announced, of the five lowest priced growths of the growths quoted for Strict Middling one and one-sixteenth inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between such average Northern Europe price quotation of such quality of cotton and the market quotations in the designated United States spot markets for Strict Low Middling one and one-sixteenth inch cotton (micronaire 3.5 through 4.9)). The loan level for any crop of cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which such loan is to be effective, and such level shall not thereafter be changed.

The rate of interest on loans to cooperators under the provisions of this paragraph shall be established quarterly by the Commodity Credit Corporation on the basis of the lowest current interest rate on ordinary obligations of the United States. Nonrecourse loans provided for in this subsection, shall, upon request of the cooperator during the tenth month of the loan period for the cotton, be made available for an additional term of eight months: Provided, That such request to extend the loan period shall not be approved in a month when the average price of Strict Low Middling one and one-sixteenth inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for the preceding month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six month period: Provided further, That whenever the Secretary determines that the average price of Strict Low Middling one and one-sixteenth inch cotton (micronaire 3.5 through 4.9) in the designated spot markets for a month exceeded 130 per centum of the average price of such quality of cotton in such markets for the preceding thirty-six months, notwithstanding any other provision of law, the President shall immediately establish and proclaim a special limited global import quota for upland cotton subject to the following conditions:

“(A) The amount of the special quota shall be equal to twenty-one days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent three months for which data are available;

“(B) If a special quota has been established under this subsection during the preceding twelve months, the amount of the quota next established hereunder shall be the smaller of twenty-one days
(A) of this subsection or the amount required to increase the supply to 130 per centum of the demand;

"(C) As used in clause (B) of this paragraph, the term 'supply' means, using the latest official data of the Bureau of the Census, the United States Department of Agriculture, and the United States Department of the Treasury, the carryover of upland cotton at the beginning of the marketing year (adjusted to four hundred and eighty-pound bales) in which the special quota is established, plus production of the current crop, plus imports to the latest date available during the marketing year, and the term 'demand' means the average seasonally adjusted annual rate of domestic mill consumption in the most recent three months for which data are available, plus the larger of average exports of upland cotton during the preceding six marketing years or cumulative exports of upland cotton, plus outstanding export sales for the marketing year in which the special quota is established; and

"(D) When a special quota is established under the provisions of this subsection, a ninety-day period from the effective date of the proclamation shall be allowed for entering cotton under such quota.

"(2) Notwithstanding the foregoing provisions of this subsection, a special quota period shall not be established that overlaps an existing special quota period.

"(3) Notwithstanding any other provision of law, the foregoing provisions of this subsection with respect to extension of the loan period and to proclamation of the special quota shall become effective upon the effective date of the Food and Agriculture Act of 1977 even though the cotton may be of a crop prior to the 1978 crop.

"(4) Payments shall be made for each crop of upland cotton to the producers on each farm at a rate equal to the amount by which the higher of-

"(A) the average market price received by farmers for upland cotton during the calendar year which includes the first five months of the marketing year for such crop, as determined by the Secretary, or

"(B) the loan level determined under paragraph (1) for such crop

is less than the established price per pound times in each case (i) the farm program acreage for cotton, determined in accordance with paragraph (9) of this subsection (but in no event on a greater acreage than the acreage actually planted to cotton for harvest), multiplied by (ii) the farm program payment yield for cotton determined in accordance with paragraph (10) of this subsection. For the 1978 through 1981 crops, the established price shall be the established price for the previous year's crop adjusted to reflect any change in (i) the average adjusted cost of production for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production for the two crop years immediately preceding the year previous to the one for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall be limited to (i) variable costs, (ii) machinery ownership costs, and (iii) general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop: Provided, That in no event shall the established price for the 1978 crop be less than 52 cents per pound and for each subse-
sequent crop be less than 51 cents per pound. The total quantity on which payments would otherwise be payable to a producer for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (5) (B) of this subsection.

"(5) (A) Effective only with respect to the 1978 and 1979 crops of upland cotton, if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for cotton to cotton or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers on the number of acres so affected but not to exceed the acreage planted to cotton to cotton or other nonconserving crop in lieu of cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year, multiplied by 75 per centum of the farm program payment yield established by the Secretary times a payment rate equal to 33 1/3 per centum of the established price for the crop.

"(B) Effective only with respect to the 1978 and 1979 crops of upland cotton, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of cotton which the producers are able to harvest on any farm is less than the result of multiplying 75 per centum of the farm program payment yield established by the Secretary for such crop by the acreage planted to harvest for such crop, the Secretary shall make a farm disaster payment to the producers at a rate equal to 33 1/3 per centum of the established price for the crop for the deficiency in production below 75 per centum for the crop.

Payment sharing: "(6) The Secretary shall provide for the sharing of payments made under this subsection for any farm among the producers on the farm on a fair and equitable basis.

National program acreage. "(7) The Secretary shall establish for each of the 1978 through 1981 crops of upland cotton a national program acreage. Such national program acreage shall be announced by the Secretary not later than December 15 of the calendar year preceding the year for which such acreage is established. The Secretary may revise the national program acreage first announced for any crop year for the purpose of determining the allocation factor under paragraph (8) of this subsection if the Secretary determines it necessary based upon the latest information, and the Secretary shall announce such revised national program acreage as soon as it has been made. The national program acreage shall be the number of harvested acres the Secretary determines (on the basis of the estimated weighted national average of the farm program yields for the crop for which the determination is made) will produce the quantity (less imports) that the Secretary estimates will be utilized domestically and for export during the marketing year for such crop. The national program acreage shall be subject to such adjustment as the Secretary determines necessary, taking into consideration the estimated carryover supply, so as to provide for an adequate but not excessive total supply of cotton for the marketing year for the crop for which such national program acreage is established. In no event shall the national program acreage be less than 10 million acres.

Allocation factor. "(8) The Secretary shall determine a program allocation factor for each crop of upland cotton. The allocation factor (not to exceed 100 per centum) shall be determined by dividing the national program acreage by the estimated weighted national average of the farm program yields for the crop for which the determination is made. The allocation factor shall be used to determine the proportion of the national program payments to producers for each crop of upland cotton. The Secretary shall provide for the sharing of payments made under this section among the producers on the farm on a fair and equitable basis.
acreage for the crop by the number of acres which the Secretary estimates will be harvested for such crop.

“(9) The individual farm program acreage for each crop of upland cotton shall be determined by multiplying the allocation factor by the acreage of cotton planted for harvest on the farms for which individual farm program acreages are required to be determined: Provided, That the cotton acreage eligible for payment on a farm shall not be further reduced by application of the allocation factor if the producers reduce the acreage of cotton planted for harvest on the farm from the previous year by at least the percentage recommended by the Secretary in the announcement of the national program acreage made not later than December 15 of the calendar year preceding the year for which such acreage is established. The Secretary shall provide fair and equitable treatment for producers on farms on which the acreage of cotton planted for harvest is less than for the preceding year, but the reduction is insufficient to exempt the farm from the application of the allocation factor. In establishing the allocation factor, the Secretary is authorized to make such adjustment as the Secretary deems necessary to take into account the extent of exemption of farms under the foregoing provisions of this paragraph.

“(10) The farm program payment yield for each crop of upland cotton shall be determined on the basis of the actual yields per harvested acre on the farm for the preceding three years: Provided, That the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, or other natural disaster, or other condition beyond the control of the producers. In case farm yield data for one or more years are unavailable or there was no production, the Secretary shall provide for appraisals to be made on the basis of actual yields and program payment yields for similar farms in the area for which data are available. Notwithstanding the foregoing provisions of this paragraph, in the determination of yields, the Secretary shall take into account the actual yields proved by the producer, and neither such yields nor the farm program payment yield established on the basis of such yields shall be reduced under other provisions of this paragraph. If the Secretary determines it necessary, the Secretary may establish national, State, or county program payment yields on the basis of historical yields, as adjusted by the Secretary to correct for abnormal factors affecting such yields in the historical period, or, if such data are not available, on the Secretary's estimate of actual yields for the crop year involved. In the event national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

“(11)(A) The Secretary shall provide for a set-aside of cropland if the Secretary determines that the total supply of upland cotton will, in the absence of such a set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable supplies and prices and to meet a national emergency. If a set-aside of cropland is in effect under this paragraph, then as a condition of eligibility for loans, purchases, and payments on upland cotton, the producers on a farm must set aside and devote to conservation uses an acreage of cropland equal to a specified percentage as determined by the Secretary (but not to exceed 28 per centum), of the acreage of upland cotton planted for harvest for the crop year for which a set-aside is in effect. The set-aside acreage shall be devoted to conservation uses in accordance with regulations issued by the Secretary which will assure protection of such acreage from weeds and wind and water erosion; however, the Secretary may permit, subject to such regulations.
terms and conditions as the Secretary may prescribe, all or any part of the set-aside acreage to be devoted to sweet sorghum, hay, and grazing or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, oats, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply, is not likely to increase the cost of the price support program, and will not adversely affect farm income. The Secretary may limit the acreage planted to upland cotton. Such limitation shall be applied on a uniform basis to all cotton-producing farms. Producers on a farm who knowingly plant cotton in excess of the permitted cotton acreage for the farm shall be ineligible for cotton loans or payments with respect to that farm.

Land diversion payments. "(B) The Secretary may make land diversion payments to producers of upland cotton, whether or not a set-aside for upland cotton is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. Such land diversion payments shall be made to producers on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such producers. The amounts payable to producers under land diversion contracts may be determined through the submission of bids for such contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

Wildlife habitat. "(C) The set-aside acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

Agreement, filing. "(12) If the operator of the farm desires to participate in the program formulated under this subsection, the operator shall file an agreement to do so no later than such date as the Secretary may prescribe. Loans, purchases, and payments under this subsection shall be made available to the producers on such farm only if the producers set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the producers, terminate or modify any such agreement entered into pursuant to this subsection if the Secretary determines such action necessary because of an emergency created by drought or other disaster, or in order to alleviate a shortage in the supply of agricultural commodities.
“(13) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

“(14) In any case in which the failure of a producer to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the default.

“(15) The Secretary is authorized to issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

“(16) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

“(17) The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act, as amended (relating to assignment of payments), shall apply to payments under this subsection.”.

COMMODITY CREDIT CORPORATION SALES PRICE RESTRICTIONS

Sec. 603. Effective only with respect to the period beginning August 1, 1978, and ending July 31, 1982, the tenth sentence of section 407 of the Agricultural Act of 1949, as amended, is amended by striking out all of that sentence through the words “110 per centum of the loan rate, and (2)” and inserting in lieu thereof the following: “Notwithstanding any other provision of law, (1) the Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same prices as it sells cotton for export, in no event, however, at less than 115 per centum of the loan rate for Strict Low Middling one and one-sixteenth inch upland cotton (micronaire 3.5 through 4.9) adjusted for such current market differentials reflecting grade, quality, location, and other value factors as the Secretary determines appropriate plus reasonable carrying charges, and (2)”.

MISCELLANEOUS COTTON PROVISIONS

Sec. 604. (a) Section 408(b) of the Agricultural Act of 1949, as amended, is amended by inserting immediately before the period at the end of the first sentence the following: “Provided further, That for the 1978 through 1981 crops of upland cotton, a cooperator shall be a producer on a farm who has set aside the acreage required under section 103(f)”.

(b) Section 408(1) of the Agricultural Act of 1949, as added by the Agricultural Act of 1970, as amended, to be effective for the 1971 through 1977 crops, shall be effective for the 1978 through 1981 crops, and shall read as follows:

“REFERENCES TO TERMS MADE APPLICABLE TO UPLAND COTTON

“(1) References made in sections 402, 403, 406, and 416 to the terms ‘support price’, ‘level of support’, and ‘level of price support’ shall be considered to apply as well to the level of loans and purchases for upland cotton under this Act; and references made to the terms ‘price support’, ‘price support operations’, and ‘price support program’ in such sections and in section 401(a) shall be considered as applying as well to the loan and purchase operations for upland cotton under this Act.”.

(c) Sections 103(a) and 203 of the Agricultural Act of 1949, as amended, shall not be applicable to the 1978 through 1981 crops.
Sec. 605. Section 374(a) of the Agricultural Adjustment Act of 1938, as amended, is amended by striking out “1977” in the last sentence and inserting in lieu thereof “1981”.

Preliminary allotments for 1982 crop of upland cotton

Sec. 606. Notwithstanding any other provision of law, the permanent State, county, and farm base acreage allotments for the 1977 crop of upland cotton, adjusted for any underplantings in 1977 and reconstituted as provided in section 379 of the Agricultural Adjustment Act of 1938, as amended, shall again become effective as preliminary allotments for the 1982 crop.

Extra long staple cotton

Sec. 607. Section 101(f) of the Agricultural Act of 1949, as amended, is amended by striking out the words “Middling one-inch” appearing in the first sentence and inserting in lieu thereof “Strict Low Middling one and one-sixteenth inch”.

Title VII—Rice

National Acreage allotment and allocation

Sec. 701. Effective beginning with the 1978 crop of rice, section 101 of the Rice Production Act of 1975 is amended by striking out “1976 and 1977” each place it occurs and inserting in lieu thereof “1976 through 1981”.

Loan rates, target prices, and set-aside for the 1978 through 1981 crops

Sec. 702. Effective only for the 1978 through 1981 crops of rice, section 101 of the Agricultural Act of 1949, as amended, is amended by adding a new subsection (h) as follows:

“(1) For the 1978 through 1981 crops of rice, the established price for the purpose of making payments under this subsection shall be the established price for the previous year’s crop adjusted to reflect any change in (i) the average adjusted cost of production for the two crop years immediately preceding the year for which the determination is made from (ii) the average adjusted cost of production for the two crop years immediately preceding the year previous to the one, for which the determination is made. The adjusted cost of production for each of such years shall be determined by the Secretary on the basis of such information as the Secretary finds necessary and appropriate for the purpose and shall be limited to (i) variable costs, (ii) machinery ownership costs, and (iii) general farm overhead costs, allocated to the crops involved on the basis of the proportion of the value of the total production derived from each crop.

“(2) The Secretary shall make available, to cooperators in the several States of the United States, loans and purchases for each of the 1978 through 1981 crops of rice at such level as bears the same ratio to the loan level for the preceding year’s crop as the established price for each such crop bears to the established price for the preceding year’s crop. If the Secretary determines that
loans and purchases at the foregoing level for any of the 1978 through 1981 crops would substantially discourage the exportation of rice and result in excessive stocks of rice in the United States, the Secretary may, notwithstanding the foregoing provisions of this paragraph, establish loans and purchases for such crop or crops at such level, not less than $6.31 per hundredweight nor more than the parity price thereof, as the Secretary determines necessary to avoid such consequences. The loans and purchases shall be made available to cooperators on a farm with respect to a quantity of rice determined by multiplying the allotment by the yield established for the farm, as determined in the manner described in the second sentence of paragraph (4) (A) of this subsection.

"(3) The Secretary shall make available to cooperators payments for each of the 1978 through the 1981 crops of rice grown in the several States of the United States at a rate equal to the amount by which the established price for the crop of rice exceeds the higher of—

"(A) the national average market price received by farmers during the first five months of the marketing year for such crop, as determined by the Secretary, or

"(B) the loan level determined under paragraph (2) for such crop.

"(4) (A) The payments for each such crop shall be made available to cooperators on a farm with respect to a quantity of rice determined by multiplying that portion of the allotment planted to rice by the yield established for the farm: Provided, That an acreage on the farm which the Secretary determines was not planted to rice because of drought, flood, or other natural disaster, or other condition beyond the control of the cooperators shall be considered to be an acreage planted to rice. The yield for the farm for any year shall be determined on the basis of the actual yields per harvested acre for the three preceding years: Provided, That the actual yields shall be adjusted by the Secretary for abnormal yields in any year caused by drought, flood, other natural disaster, or other condition beyond the control of the cooperators. The total quantity on which payments would otherwise be payable to a cooperator for any crop under this subparagraph shall be reduced by the quantity on which any disaster payment is made to the cooperator on a farm for the crop under this paragraph.

"(B) Effective only with respect to the 1978 and 1979 crops of rice, if the Secretary determines that the persons involved in producing rice on a farm are prevented from planting all or any portion of the acreage allotments of producers on the farm or the farm acreage allotment to rice or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to cooperators on a farm in an amount determined by multiplying (i) the number of such acres so affected, by (ii) the yield established for the farm, by (iii) 33 1/3 per centum of the established price for rice, except that the Secretary shall make no payment pursuant to this sentence on a farm from which acres were transferred under section 352(d) of the Agricultural Adjustment Act of 1938, as amended, with respect to the transferred acreage.

"(C) Effective only with respect to the 1978 and 1979 crops of rice, if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the
producers, the total quantity of rice which the persons involved in producing rice on a farm are able to harvest on the acreage allotments of producers on the farm or the farm acreage allotment is less than the result of multiplying 75 per centum of the yield established for the farm by the acreage within the allotment planted to rice for harvest for such crop, the Secretary shall make a farm disaster payment to the cooperators on the farm for the deficiency in production below 75 per centum of the crop at a rate equal to 33 1/3 per centum of the established price for the crop.

"(D) Any payment made under subparagraphs (B) and (C) of this paragraph with regard to acres transferred under section 352(d) of the Agricultural Adjustment Act of 1938, as amended, shall be calculated with respect to the farm yield established on the farm to which such acres were transferred.

"(5) The Secretary shall provide for a set-aside of cropland if the Secretary determines that the total supply of rice will, in the absence of such set-aside, likely be excessive taking into account the need for an adequate carryover to maintain reasonable and stable prices and to meet a national emergency. If a set-aside of cropland is in effect under this paragraph, then as a condition of eligibility for loans, purchases, and payments under this subsection, the cooperators on a farm must set aside and devote to conservation uses an acreage of cropland equal to (i) such percentage of the farm acreage allotment as may be specified by the Secretary (not to exceed 30 per centum of the farm acreage allotment), plus, if required by the Secretary, (ii) the acreage of cropland on the farm devoted in preceding years to soil conserving uses, as determined by the Secretary. The set-aside acreage shall be devoted to conservation uses, in accordance with regulations issued by the Secretary, which will assure protection of such acreage from weeds and wind and water erosion; however, the Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the set-aside acreage to be devoted to sweet sorghum, hay, and grazing or the production of guar, sesame, safflower, sunflower, castor beans, mustard seed, crambe, plantago ovato, flaxseed, triticale, oats, rye, or other commodity, if the Secretary determines that such production is needed to provide an adequate supply of such commodities, is not likely to increase the cost of the price support program, and will not adversely affect farm income.

"(6) The Secretary may make land diversion payments to cooperators, whether or not a set-aside for rice is in effect, if the Secretary determines that such land diversion payments are necessary to assist in adjusting the total national acreage of rice to desirable goals. Such land diversion payments shall be made to cooperators on a farm who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with such cooperators. The amounts payable to cooperators under land diversion contracts may be determined through the submission of bids for such contracts by cooperators in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to
be undertaken by the cooperators and the productivity of the acreage diverted. The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(7) The set-aside acreage and the additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of the foregoing sentence. The Secretary may provide for an additional payment on such acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the cooperator agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

“(8) If the operator of the farm desires to participate in the program formulated under this subsection the operator shall file an agreement to do so no later than such date as the Secretary may prescribe. Loans, purchases, and payments under this subsection shall be made available to cooperators on such farm only if such cooperators set aside and devote to approved soil conserving uses an acreage on the farm equal to the number of acres which the operator of the farm agrees to set aside and devote to approved soil conserving uses, and the agreement shall so provide. The Secretary may, by mutual agreement with the cooperators on the farm, terminate or modify any such agreement entered into pursuant to this subsection if the Secretary determines such action necessary because of any emergency created by drought or other disaster, or in order to alleviate a shortage in the supply of rice.

“(9) The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers, including provision for sharing, on a fair and equitable basis in payments under this subsection.

“(10) In any case in which the failure of a cooperator to comply fully with the terms and conditions of the program formulated under this subsection precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines to be equitable in relation to the seriousness of the default.

“(11) The Secretary is authorized to issue such regulations as the Secretary determines necessary to carry out the provisions of this subsection.

“(12) The Secretary shall carry out the program authorized by this subsection through the Commodity Credit Corporation.

“(13) The provisions of subsection 8(g) of the Soil Conservation and Domestic Allotment Act (relating to assignment of payments) shall apply to payments under this subsection.”

SUSPENSION OF MARKETING QUOTAS AND OTHER PROVISIONS

Sec. 703. Sections 353, 354, 355, 356, and 377 of the Agricultural Adjustment Act of 1938, as amended, shall not be applicable to the 1978 through 1981 crops of rice.
DEFINITION OF COOPERATOR

Sec. 704. The last proviso in the first sentence of section 408(b) of the Agricultural Act of 1949, as added by section 303 of the Rice Production Act of 1975, is amended by striking out "and 1977" and inserting in lieu thereof "through 1981".

CONFORMING AMENDMENT

7 USC 1736b. Sec. 705. Section 408(m) of the Agricultural Act of 1949, as added by the Rice Production Act of 1975, to be effective for the 1976 and 1977 crops, shall be effective for the 1978 through 1981 crops, and shall read as follows:

"REFERENCES TO TERMS MADE APPLICABLE TO RICE

(m) References made in sections 402, 403, 406, 407, and 416 to the terms 'support price', 'level of support', and 'level of price support' shall be considered to apply as well to the level of loans and purchases for rice under this Act; and references made to the terms 'price support', 'price support operation', and 'price support program' in such sections and in section 401(a) shall be considered as applying as well to the loan and purchase operations for rice under this Act."

TITLE VIII—PEANUTS

ANNUAL MARKETING QUOTA AND STATE ACREAGE ALLOTMENT

Sec. 801. Section 358 of the Agricultural Adjustment Act of 1938; 7 USC 1358. as amended, is amended as follows:

(a) Subsections (a) and (e) shall not be applicable to the 1978 through 1981 crops of peanuts.

(b) Subsection (c) (1) is amended, effective for the 1978 through 1981 crops of peanuts, by striking out the period at the end of the second sentence and inserting in lieu thereof the following: "Provided, That the peanut acreage allotment for the State of New Mexico shall not be reduced below the 1977 acreage allotment as increased pursuant to subsection (c) (2) of this section."

NATIONAL ACREAGE ALLOTMENT; NATIONAL POUNDAGE QUOTA; FARM POUNDAGE QUOTA; AND DEFINITIONS

Sec. 802. Effective for the 1978 through 1981 crops of peanuts, section 358 of the Agricultural Adjustment Act of 1938, as amended, is amended by adding at the end thereof new subsections (k) through (p) as follows:

"(k) The Secretary shall, not later than December 1 of each year, announce a national acreage allotment for peanuts for the following crop taking into consideration projected domestic use, exports, and a reasonable carryover: Provided, That such allotment shall be not less than one million six hundred and fourteen thousand acres.

(1) The Secretary shall, not later than December 1 of each year, announce a minimum national poundage quota for peanuts for the following marketing year of the following amounts: 1978, 1,680,000 tons; 1979, 1,596,000 tons; 1980, 1,516,000 tons; and 1981, 1,440,000 tons. If the Secretary determines that the minimum national poundage quota for any marketing year is insufficient to meet total estimated..."
requirements for domestic edible use and a reasonable carryover, the national poundage quota for the marketing year may be increased by the Secretary to the extent determined by the Secretary to be necessary to meet such requirements.

“(m) For each farm for which a farm acreage allotment has been established, a farm yield for peanuts shall be determined. Such yield shall be equal to the average of the actual yield per acre on the farm for each of the three crop years in which yields were highest on the farm out of the five crop years 1973 through 1977: Provided, That if peanuts were not produced on the farm in at least three years during such five-year period or there was a substantial change in the operation of the farm during such period (including, but not limited to, a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that amount determined to be fair and reasonable on the basis of yields established for similar farms which are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

“(n) For each farm, a farm base production poundage shall be established equal to the quantity determined by multiplying the farm peanut acreage allotment by the farm yield determined in accordance with subsection (m) of this section.

“(o) For each farm, a farm poundage quota shall be established by the Secretary for each marketing year equal to the farm base production poundage multiplied by a factor determined by the Secretary, such that the total of all farm poundage quotas will equal the national poundage quota for such marketing year. The poundage quota so determined, beginning with the 1979 crop for any farm, shall be increased by the number of pounds by which marketings of quota peanuts from the farm during the immediately preceding marketing year were less than the farm poundage quota: Provided, That total marketings shall not exceed actual production from the farm acreage allotment: Provided further, That the grower must have planted in such preceding marketing year that part of the farm allotment estimated on the basis of the farm yield to be sufficient to produce the total farm poundage quota: Provided further, That if the total of all such increases in individual farm poundage quotas exceeds 10 per centum of the national poundage quota for the marketing year, the Secretary shall adjust such increases so that the total of all increases does not exceed 10 per centum of the national poundage quota.

“(p) For the purposes of this part and title I of the Agricultural Act of 1949, as amended—

“(1) ‘quota peanuts’ means, for any marketing year, any peanuts which are eligible for domestic edible use as determined by the Secretary, which are marketed or considered marketed from a farm, and which do not exceed the farm poundage quota of such farm for such year;

“(2) ‘additional peanuts’ means, for any marketing year, any peanuts which are marketed from a farm and which are in excess of the marketings of quota peanuts from such farm for such year but not in excess of the actual production of the farm acreage allotment;

“(3) ‘crushing’ means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts
by crushing or otherwise when authorized by the Secretary; and
“(4) ‘domestic edible use’ means use for milling to produce
domestic food peanuts and seed and use on a farm.”.

SALE, LEASE, AND TRANSFER OF ACREAGE ALLOTMENT

SEC. 803. Effective for the 1978 through 1981 crops of peanuts, section 358a of the Agricultural Adjustment Act of 1938, as amended, is amended by—
(1) in subsection (a)—
   (i) striking out “.if he determines that it will not impair
the effective operation of the peanut marketing quota or price
support program.”; and
   (ii) striking out “may” each place that term appears and
inserting “shall” in lieu thereof; and
(2) adding at the end thereof a new subsection (i) as follows:
“(i) Notwithstanding any other provision of this section, transfers
shall be on the basis of the farm base production poundage, and the
acreage allotment for the receiving farm shall be increased by an
amount determined by dividing the number of pounds transferred by
the farm yield for the receiving farm, and the acreage allotment for
the transferring farm shall be reduced by an amount determined by
dividing the number of pounds transferred by the farm yield for the
transferring farm.”.

MARKETING PENALTIES; DISPOSITION OF ADDITIONAL PEANUTS

SEC. 804. Effective for the 1978 through 1981 crops of peanuts, section 359 of the Agricultural Adjustment Act of 1938, as amended, is amended by—
(1) striking out in the first sentence of subsection (a) “75 per
centum of the support price for” and inserting in lieu thereof
“120 per centum of the support price for quota”;
(2) inserting after the first sentence of subsection (a) a new
sentence as follows: “The marketing of any additional peanuts
from a farm shall be subject to the same penalty unless the pea-
uts, in accordance with regulations established by the Secretary.
are placed under loan at the additional loan rate under the loan
program made available under section 108(b) of the Agricultural
Act of 1949 and not redeemed by the producers or are marketed
under contracts between handlers and producers pursuant to the
provisions of subsection (i) of this section.”;
(3) striking out “normal yield” in subsection (a) and inserting
in lieu thereof “farm yield”; and
(4) adding at the end thereof new subsections (f) through (j)
as follows:
“(f) Only quota peanuts may be retained for use as seed or for other
uses on a farm and when so retained shall be considered as marketings
of quota peanuts. Additional peanuts shall not be retained for use on
a farm and shall not be marketed for domestic edible use. Seed for
planting of any peanut acreage in the United States shall be obtained
solely from quota peanuts marketed or considered marketed for
domestic edible use.
“(g) Upon a finding by the Secretary that the peanuts marketed
from any crop for domestic edible use by a handler are larger in quan-
tity or higher in grade or quality than the peanuts that could reason-
ably be produced from the quantity of peanuts having the grade,
kernel content, and quality of the quota peanuts acquired by such handler from such crop for such marketing, such handler shall be subject to a penalty equal to 120 per centum of the loan level for quota peanuts on the peanuts which the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

“(h) The Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108(c) of the Agricultural Act of 1949. Quota and additional peanuts of like type and segregation or quality may, under regulations prescribed by the Secretary, be commingled and exchanged on a dollar value basis to facilitate warehousing, handling, and marketing.

“(i) Handlers may, under regulations prescribed by the Secretary, contract with producers for the purchase of additional peanuts for crushing, export, or both. All such contracts shall be completed and submitted to the Secretary (or if designated by the Secretary, the area association) for approval prior to June 15 of the year in which the crop is produced.

“(j) Subject to the provisions of section 407 of the Agricultural Act of 1949, as amended, any peanuts owned or controlled by the Commodity Credit Corporation may be made available for domestic edible use in accordance with regulations established by the Secretary. Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to such peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus (1) 100 per centum of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season upon delivery by the producer, or (2) 105 per centum of the loan value of quota peanuts if the additional peanuts are sold after delivery by the producer but not later than December 31 of the marketing year, or (3) 107 per centum of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.”.

PRICE SUPPORT PROGRAM

Sec. 807. Effective for the 1978 through 1981 crops of peanuts, title I of the Agricultural Act of 1949, as amended, is amended by adding at the end thereof a new section 108 as follows:
7 USC 1445c.  "Sec. 108. Notwithstanding any other provision of law—
   "(a) The Secretary shall make price support available to producers
   through loans, purchases, or other operations on quota peanuts for
   each of the 1978 through 1981 crops at such levels as the Secretary
   finds appropriate, taking into consideration the eight factors specified
   in section 401(b) of this Act, and any change in the index of prices
   paid by farmers for production items, interest, taxes, and wage rates
   during the period beginning January 1 and ending December 31 of
   the calendar year immediately preceding the marketing year for which
   the level of support is being determined, but not less than $420 per ton.
   The levels of support so announced shall not be reduced by any deduct-
   tions for inspection, handling, or storage: Provided, That the Secretary
   may make adjustments for location of peanuts and such other
   adjustments as are authorized by section 408 of this Act.

   "(b) The Secretary shall make price support available to producers
   through loans, purchases, or other operations on additional peanuts
   for each of the 1978 through 1981 crops. In determining support levels,
   the Secretary shall take into consideration the demand for peanut oil
   and peanut meal, expected prices of other vegetable oils and protein
   meals, and the demand for peanuts in foreign markets. The Secretary
   shall announce the level of support for additional peanuts of each crop
   not later than February 15 preceding the marketing year for which
   the level of support is being determined.

   "(c) (1) In carrying out subsections (a) and (b) of this section, the
   Secretary may make warehouse storage loans available in each of the
   three producing areas (described in 7 CFR § 1446.4 (1977) ) to a desig-
   nated area marketing association of peanut producers which is selected
   and approved by the Secretary and which is operated primarily for
   the purpose of conducting such loan activities. Such associations may
   be used in administrative and supervisory activities relating to price
   support and marketing activities under this section and section 359 of
   the Agricultural Adjustment Act of 1938, as amended. Such loans
   may include, in addition to the price support value of the peanuts, such
   costs as such association reasonably may incur in carrying out such
   responsibilities in its operations and activities under this section and
   section 359 of the Agricultural Adjustment Act of 1938, as amended.

   "(2) The Secretary may require that each such association establish
   pools and maintain complete and accurate records by type for quota
   peanuts handled under loans and for additional peanuts produced
   without a contract between handler and producer described in section
   359(i) of the Agricultural Adjustment Act of 1938. Net gains on pea-
   nuts in each pool, unless otherwise approved by the Secretary, shall be
   distributed in proportion to the value of the peanuts placed in the pool
   by each grower. Net gains for peanuts in each pool shall consist of (A)
   for quota peanuts, the net gains over and above the loan indebtedness
   and other costs or losses incurred on peanuts placed in such pool plus
   an amount from the pool for additional peanuts to the extent of the
   net gains from the sale for domestic food and related uses of addi-
   tional peanuts in the pool for additional peanuts equal to any loss on
   disposition of all peanuts in the pool for quota peanuts and (B) for
   additional peanuts, the net gains over and above the loan indebtedness
   and other costs or losses incurred on peanuts placed in the pool for
   additional peanuts less any amount allocated to offset any loss on the
pool for quota peanuts as provided in clause (A) of this paragraph. Notwithstanding any other provision of this subsection, any distribution of net gains on additional peanuts of any type to any producer shall be reduced to the extent of any loss by the Commodity Credit Corporation on quota peanuts of a different type placed under loan by such grower."

In carrying out the price support program authorized by this subsection, the Secretary shall establish minimum wage rates for agricultural employees engaged in the production of sugar.

(2) Notwithstanding any other provision of law, the Secretary may suspend the operation of the price support program authorized by this subsection whenever the Secretary determines that an international sugar agreement is in effect which assures the maintenance in the United States of a price for sugar not less than 13.5 cents per pound raw sugar equivalent. In carrying out the price support program authorized by this subsection, the Secretary shall establish minimum wage rates for agricultural employees engaged in the production of sugar.

(3) Nothing in this subsection shall affect the authority of the Secretary to establish under any other provision of law a price support program for that portion of the 1977 crop of sugar cane and sugar beets marketed prior to the implementation of the program authorized by this subsection."

(b) Any loan level established pursuant to subsection (a) of this section shall remain in effect as long as the suspension of commercial export sales described in subsection (a) remains in effect.

(c) For purposes of this section, the term "commodity" shall include any of the following: wheat, corn, grain sorghum, soybeans, oats, rye, barley, rice, flaxseed, and cotton.

“PRODUCER STORAGE PROGRAM FOR WHEAT AND FEED GRAINS

“Sec. 110. (a) The Secretary shall formulate and administer a program under which producers of wheat and, in the discretion of the Secretary, producers of feed grains will be able to store wheat and
feed grains when such commodities are in abundant supply and extend the time period for their orderly marketing. The Secretary shall establish safeguards to assure that wheat and feed grains held under the program shall not be utilized in any manner to unduly depress, manipulate, or curtail the free market. The authority provided by this section shall be in addition to other authorities available to the Secretary for carrying out producer loan and storage operations.

"(b) In carrying out the producer storage program, the Secretary may provide original or extended price support loans for wheat and feed grains at the same level of support as provided by this Act under terms and conditions designed to encourage producers to store wheat and feed grains for extended periods of time in order to promote orderly marketing when wheat or feed grains are in abundant supply. Among such other terms and conditions as the Secretary may prescribe by regulation, the program shall provide for (1) repayment of such loans in not less than three years nor more than five years; (2) payment to producers of such amounts as the Secretary determines appropriate to cover the cost of storing wheat and feed grains held under the program; (3) a rate of interest determined by the Secretary based upon the rate of interest charged the Commodity Credit Corporation by the United States Treasury, except that the Secretary may waive or adjust such interest; (4) recovery of amounts paid for storage, and for the payment of additional interest or other charges in the event such loans are repaid by producers before the market price for wheat or feed grains has reached the price levels specified in clause (5) of this subsection; (5) conditions designed to induce producers to redeem and market the wheat or feed grains securing such loans without regard to the maturity dates thereof whenever the Secretary determines that the market price of wheat has attained a specified level which is not less than 140 per centum nor more than 160 per centum of the then current level of price support for wheat or such appropriate level for feed grains, as determined by the Secretary; and (6) conditions prescribed by the Secretary under which the Secretary may require producers to repay such loans, plus accrued interest thereon, refund amounts paid for storage, and pay such additional interest and other charges as may be required by regulation, whenever the Secretary determines that the market price for the commodity is not less than 175 per centum of the then current level of price support for wheat or such appropriate level for feed grains as determined by the Secretary under this Act.

"(c) The Secretary shall announce the terms and conditions of the producer storage program as far in advance of making loans as practicable. In such announcement, the Secretary shall specify the quantity of wheat or feed grains to be stored under the program which the Secretary determines appropriate to promote the orderly marketing of such commodities. The quantity of wheat shall not be less than three hundred million bushels nor more than seven hundred million bushels: Provided, That such maximum amount may be adjusted by the Secretary as necessary to meet such commitments as may be assumed by the United States pursuant to an international agreement containing provisions relating to grain reserves.

"(d) Notwithstanding any other provision of law, whenever the extended loan program authorized by this section is in effect, the Commodity Credit Corporation may not sell any of its stocks of wheat or feed grains at less than 150 per centum of the then current level of price support for such commodity: Provided, That such restriction shall not apply to—
“(1) sales of such commodities which have substantially deteriorated in quality or as to which there is a danger of loss or waste through deterioration or spoilage; and

“(2) sales or other disposals of such commodities under (A) the fifth and sixth sentences of section 407 of this Act; (B) the Act of September 21, 1959 (73 Stat. 574, as amended; 7 U.S.C. 1427 note), and (C) section 813 of the Agricultural Act of 1970.

“(e) The Secretary may, with the concurrence of the owner of grain stored under the program authorized by this section, reconcentrate all such grain stored in commercial warehouses at such points as the Secretary deems to be in the public interest, taking into account such factors as transportation and normal marketing patterns. The Secretary shall permit rotation of stocks and facilitate maintenance of quality under regulations which assure that the holding producer or ware-houseman shall, at all times, have available for delivery at the designated place of storage both the quantity and quality of grain covered by his commitment.

“(f) Whenever grain is stored under the provisions of this section, the Secretary may buy and sell at an equivalent price, allowing for the customary location and grade differentials, substantially equivalent quantities of grain in different locations or warehouses to the extent needed to properly handle, rotate, distribute, and locate such commodities which the Commodity Credit Corporation owns or controls. Such purchases to offset sales shall be made within two market days following the sales. The Secretary shall make a daily list available showing the price, location, and quantity of the transactions.

“(g) The Secretary shall use the Commodity Credit Corporation, to the extent feasible, to fulfill the purposes of this section. In addition, to the maximum extent practicable consistent with the fulfillment of the purposes of this section and the effective and efficient administration of this section, the Secretary shall utilize the usual and customary channels, facilities, and arrangements of trade and commerce.”.

The Secretary may acquire wheat, feed grains, soybeans, hay, or other livestock forages at such locations, at such times, and in such quantities as the Secretary finds necessary and appropriate and may pay such transportation and other costs as may be required to permit disposition of such wheat, feed grains, soybeans, hay, and other livestock forages under subsection (d) of this section.”.

TITLE XIII—FOOD STAMP AND COMMODITY DISTRIBUTION PROGRAMS

FOOD STAMP ACT OF 1964 AMENDMENTS

SEC. 1301. Effective October 1, 1977, the Food Stamp Act of 1964, as amended, is amended to read as follows:

"SHORT TITLE

"SECTION 1. This Act may be cited as the 'Food Stamp Act of 1977'.

"DECLARATION OF POLICY

"Sec. 2. It is hereby declared to be the policy of Congress, in order to promote the general welfare, to safeguard the health and well-being of the Nation's population by raising levels of nutrition among low-income households. Congress hereby finds that the limited food purchasing power of low-income households contributes to hunger and malnutrition among members of such households. Congress further finds that increased utilization of food in establishing and maintaining adequate national levels of nutrition will promote the distribution in a beneficial manner of the Nation's agricultural abundance and will strengthen the Nation's agricultural economy, as well as result in more orderly marketing and distribution of foods. To alleviate such hunger and malnutrition, a food stamp program is herein authorized which will permit low-income households to obtain a more nutritious diet through normal channels of trade by increasing food purchasing power for all eligible households who apply for participation.

"ESTABLISHMENT OF THE FOOD STAMP PROGRAM

"SEC. 4. (a) Subject to the availability of funds appropriated under section 18 of this Act, the Secretary is authorized to formulate and administer a food stamp program under which, at the request of the State agency, eligible households within the State shall be provided an opportunity to obtain a more nutritious diet through the issuance to them of an allotment. The coupons so received by such households shall be used only to purchase food from retail food stores which have been approved for participation in the food stamp program. Coupons issued and used as provided in this Act shall be redeemable at face value by the Secretary through the facilities of the Treasury of the United States.

"(b) In jurisdictions where the food stamp program is in operation, there shall be no distribution of federally donated foods to households under the authority of any law, except that distribution may be made (1) on a temporary basis under programs authorized by law to meet disaster relief needs, or (2) for the purpose of the commodity supplemental food program. Distribution of commodities, with or without the food stamp program, shall also be made whenever a request for concurrent or separate food program operations, respectively, is made by a tribal organization. In the event of distribution on all or part of an Indian reservation, the appropriate agency of the State government in the area involved shall be responsible for such distribution, except that, if the Secretary determines that the tribal organization is capable of effectively and efficiently administering such distribution, then such tribal organizations shall administer such distribution: Provided. That the Secretary shall not approve any plan for such distribution which permits any household on any Indian reservation to participate simultaneously in the food stamp program and the distribution of federally donated foods. The Secretary is authorized to pay such amounts for administrative costs of such distribution on Indian reservations as the Secretary, finds necessary for effective administration of such distribution by a State agency or tribal organization.

"(c) The Secretary shall issue such regulations consistent with this Act as the Secretary deems necessary or appropriate for the effective and efficient administration of the food stamp program and shall promulgate all such regulations in accordance with the procedures set forth in section 553 of title 5 of the United States Code. In addition, prior to issuing any regulation, the Secretary shall provide the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a copy of the regulation with a detailed statement justifying it.
"SEC. 5. (a) Participation in the food stamp program shall be limited to those households whose incomes and other financial resources, held singly or in joint ownership, are determined to be a substantial limiting factor in permitting them to obtain a more nutritious diet. Assistance under this program shall be furnished to all eligible households who make application for such participation.

"(b) The Secretary shall establish uniform national standards of eligibility (other than the income standards for Alaska, Hawaii, Guam, Puerto Rico, and the Virgin Islands of the United States established in accordance with subsections (c) and (e) of this section) for participation by households in the food stamp program in accordance with the provisions of this section. No plan of operation submitted by a State agency shall be approved unless the standards of eligibility meet those established by the Secretary, and no State agency shall impose any other standards of eligibility as a condition for participating in the program.

"(c) The income standards of eligibility shall be the nonfarm income poverty guidelines prescribed by the Office of Management and Budget adjusted annually pursuant to section 625 of the Economic Opportunity Act of 1964, as amended (42 U.S.C. 2971d), for the forty-eight States and the District of Columbia, Alaska, Hawaii, Puerto Rico, the Virgin Islands of the United States, and Guam, respectively: Provided, That in no event shall the standards of eligibility for Puerto Rico, the Virgin Islands of the United States, or Guam exceed those in the forty-eight contiguous States: Provided further, That the income poverty guidelines for the period commencing July 1, 1978, shall be made as up to date as possible by multiplying the income poverty guidelines for 1977 by the change between the average 1977 Consumer Price Index and the Consumer Price Index for March 1978, utilizing the most current procedures which have been used by the Office of Management and Budget, and the income poverty guidelines for future periods shall be similarly adjusted.

"(d) Household income for purposes of the food stamp program shall include all income from whatever source excluding only: (1) any gain or benefit which is not in the form of money payable directly to a household, (2) any income in the certification period which is received too infrequently or irregularly to be reasonably anticipated, but not in excess of $30 in a quarter, (3) all educational loans on which payment is deferred, grants, scholarships, fellowships, veterans' educational benefits, and the like to the extent that they are used for tuition and mandatory school fees at an institution of higher education or school for the handicapped, (4) all loans other than educational loans on which repayment is deferred, (5) reimbursements which do not exceed expenses actually incurred and which do not represent a gain or benefit to the household, (6) monies received and used for the care and maintenance of a third-party beneficiary who is not a household member, (7) income earned by a child who is a member of the household, who is a student, and who has not attained his eighteenth birthday, (8) monies received in the form of nonrecurring lump-sum payments, including, but not limited to, income tax refunds, rebates, or credits, retroactive lump-sum social security or railroad retirement pension payments and retroactive lump-sum insurance settlements: Provided, That such payments shall be counted as resources, unless specifically excluded by other laws, (9) the cost of producing self-employed income, and (10) any income that any other law specifically excludes from consideration as income for the purpose of determining eligibility for the food stamp program.
“(e) In computing household income, the Secretary shall allow a standard deduction of $60 a month for each household, except that households in Alaska, Hawaii, Guam, Puerto Rico, and the Virgin Islands of the United States shall be allowed a standard deduction determined by the Secretary in accordance with the best available information on the relationship of actual or potential itemized deductions claimed under the food stamp program in those areas to such deductions in the forty-eight contiguous States and the District of Columbia. Such standard deductions, starting July 1, 1978, shall be adjusted every July 1 and January 1 to the nearest $5 to reflect changes in the Consumer Price Index of the Bureau of Labor Statistics for items other than food for the six months ending the preceding March 31 and September 30, respectively. All households with earned income shall be allowed an additional deduction of 20 per centum of all earned income (other than that excluded by subsection (d) of this section), to compensate for taxes, other mandatory deductions from salary, and work expenses. Households shall also be entitled to (1) a dependent care deduction, the maximum allowable level of which shall be the same as that for the excess shelter expense deduction contained in clause (2) of this subsection, for the actual cost of payments necessary for the care of a dependent, regardless of the dependent’s age, when such care enables a household member to accept or continue employment, or training or education which is preparatory for employment, or (2) an excess shelter expense deduction to the extent that the monthly amount expended by a household for shelter exceeds an amount equal to 50 per centum of monthly household income after all other applicable deductions have been allowed: Provided, That the amount of such excess shelter expense deduction shall not exceed $75 a month in the forty-eight contiguous States and the District of Columbia, and shall not exceed, in Alaska, Hawaii, Guam, Puerto Rico, and the Virgin Islands of the United States, amounts determined by the Secretary in accordance with the best available information on the relationship of the actual shelter costs in those areas to such costs in the forty-eight contiguous States and the District of Columbia, adjusted annually (commencing July 1, 1978) to the nearest $5 increment to reflect changes in the shelter, fuel, and utilities components of housing costs in the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor for the twelve-month period ending the preceding March 31, or (3) a deduction combining the dependent care and excess shelter expense deductions under clauses (1) and (2) of this subsection, the maximum allowable level of which shall not exceed the maximum allowable deduction under clause (2) of this subsection.

“(f) Household income shall be calculated by the State agency for the purpose of determining household eligibility. The State agency in calculating household income shall take into account the income reasonably anticipated to be received by the household in the certification period for which eligibility is being determined and the income which has been received by the household during the thirty days preceding the filing of its application for food stamps so that the State agency may reasonably ascertain the income that is and will be actually available to the household for the certification period, except that for (1) those households which by contract for other than an hourly or piecework basis, or by self-employment, derive their annual income in a period of time shorter than one year, income shall be calculated by being averaged over a twelve-month period and (2) those
Financial resources, allowances.

(g) The Secretary shall prescribe the types and allowable amounts of financial resources (liquid and nonliquid assets) an eligible household may own, and shall, in so doing, assure that a household otherwise eligible to participate in the food stamp program will not be eligible to participate if its resources exceed $1,750, or, in the case of a household consisting of two or more persons, one of whom is age 60 or over, if its resources exceed $3,000. The Secretary shall, in prescribing inclusions in, and exclusions from, financial resources, follow the regulations in force as of June 1, 1977, and shall, in addition, (1) include in financial resources any boats, snowmobiles, and airplanes used for recreational purposes, any vacation homes, any mobile homes used primarily for vacation purposes, and any licensed vehicle (other than one used to produce earned income) used for household transportation or used to obtain or continue employment or to transport disabled household members to the extent that the fair market value of any such vehicle exceeds $4,500, and (2) study and develop means of improving the effectiveness of these resource requirements in limiting participation to households in need of food assistance, and implement and report the results of such study and the Secretary's plans to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate no later than June 1, 1978.

(h)(1) The Secretary shall, after consultation with the official empowered to exercise the authority provided for by section 302(a) of the Disaster Relief Act of 1974, establish temporary emergency standards of eligibility for the duration of the emergency for households who are victims of a disaster which disrupts commercial channels of food distribution, if such households are in need of temporary food assistance and if commercial channels of food distribution have again become available to meet the temporary food needs of such households. Such standards as are prescribed for individual emergencies may be promulgated without regard to section 4(c) of this Act or the procedures set forth in section 553 of title 5 of the United States Code.

(2) The Secretary shall establish a Food Stamp Disaster Task Force, to assist States in implementing and operating the disaster program, which shall be available to go into a disaster area and provide direct assistance to State and local officials.

"ELIGIBILITY DISQUALIFICATIONS"

(b) No individual who is a member of a household otherwise eligible to participate in the food stamp program shall be eligible to participate for (1) three months after such individual has been found by a State agency after notice and hearing at the State level, or after failure to appeal a local hearing to the State level, to have fraudulently used, presented, transferred, acquired, received, possessed, or altered coupons or authorization cards, or (2) a period of not less than six and not more than twenty-four months, as determined by the court, after
such individual has been found by a court of appropriate jurisdiction, with a State or a political subdivision thereof or the United States as prosecutor or plaintiff, to have been criminally or civilly fraudulent in the use, presentation, transfer, acquisition, receipt, possession, or alteration of coupons or authorization cards, or (3) both of the periods specified in clauses (1) and (2) of this subsection. Each such period of ineligibility is to take effect immediately upon the relevant administrative or judicial finding and to remain in effect, without possibility of administrative stay, unless and until the finding of fraud is subsequently reversed by a court of appropriate jurisdiction, but in no event shall the period of disqualification be subject to judicial review.

"(c) No household shall be eligible to participate in the food stamp program if it refuses to cooperate in providing information to the State agency that is necessary for making a determination of its eligibility or for completing any subsequent review of its eligibility. Every household that is participating in the food stamp program shall report or cause to be reported to the State agency, on a form designed or approved by the Secretary (that shall contain a description in understandable terms in prominent and boldface lettering of the appropriate civil and criminal provisions dealing with violations of this Act, including the penalties therefor, by members of an eligible household) changes in income or household circumstances which the Secretary deems necessary in order to assure accurate eligibility and benefit determinations. The reporting requirement prescribed by this subsection shall be the sole such requirement for reporting changes in income or in household circumstances for participating households.

"(d)(1) Unless otherwise exempted by the provisions of paragraph (d)(2) of this subsection, no household shall be eligible for assistance under this Act if it includes a physically and mentally fit person between the ages of eighteen and sixty who (i) refuses at the time of application and once every six months thereafter to register for employment in a manner determined by the Secretary; (ii) refuses to fulfill whatever reasonable reporting and inquiry about employment requirements as are prescribed by the Secretary; (iii) is head of the household and voluntarily quits any job without good cause, unless the household was certified for benefits under this Act immediately prior to such unemployment: Provided, That the period of ineligibility shall be sixty days from the time of the voluntary quit; or (iv) refuses without good cause to accept an offer of employment at a wage not less than the higher of either the applicable State or Federal minimum wage, or 80 per centum of the wage that would have governed had the minimum hourly rate under the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 206(a)(1)), been applicable to the offer of employment, and at a site or plant not then subject to a strike or lockout.

"(2) A person who otherwise would be required to comply with the requirements of paragraph (1) of this subsection shall be exempt from such requirements if he or she is (A) currently subject to and complying with a work registration requirement under title IV of the Social Security Act, as amended (42 U.S.C. 602), or the Federal-State unemployment compensation system; (B) a parent or other member of a household with responsibility for the care of a dependent child under age twelve or of an incapacitated person; (C) a parent or other caretaker of a child in a household where there is another able-bodied parent who is subject to the requirements of this subsection; (D) a bona fide student enrolled at least half time in

"(3) To the extent that a State employment service is assigned responsibility for administering the provisions of subsection (d) of this section, it shall comply with regulations issued jointly by the Secretary and the Secretary of Labor, which regulations shall be patterned to the maximum extent practicable on the work incentive program requirements set forth in title IV of the Social Security Act (42 U.S.C. 630 et. seq.) and shall take into account the diversity of the needs of the food stamp work registration population.

"(e) No individual who is a member of a household otherwise eligible to participate in the food stamp program under this section shall be eligible to participate in the food stamp program as a member of that or any other household if he or she (1) has reached his or her eighteenth birthday, (2) is enrolled at least half time in an institution of higher education, and (3) (A) is properly claimed or could properly be claimed as a dependent child for Federal income tax purposes by a taxpayer who is not a member of an eligible household or (B) during the regular school year (i) is not employed a minimum of twenty hours per week or is not participating in a federally financed work study program, (ii) does not have weekly earnings which at least equal the minimum hourly rate under the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 206(a)(1)), multiplied by twenty hours, (iii) is not registered for work amounting to at least twenty hours per week, (iv) is not the head of a household containing one or more other persons who are dependents of that individual because he or she supplies more than half of their support, or (v) is not covered by an exemption from the work registration requirement contained in subsection (d) of this section other than clause (D) of paragraph (2) of that subsection.

"(f) No individual who is a member of a household otherwise eligible to participate in the food stamp program under this section shall be eligible to participate in the food stamp program as a member of that or any other household unless he or she is (1) a resident of the United States and (2) either (A) a citizen or (B) an alien lawfully admitted for permanent residence as an immigrant as defined by sections 101(a)(15) and 101(a)(20) of the Immigration and Nationality Act (8 U.S.C. 1101(a)(15) and 8 U.S.C. 1101(a)(20)), excluding, among others, alien visitors, tourists, diplomats, and students who enter the United States temporarily with no intention of abandoning their residence in a foreign country; or (C) an alien who entered the United States prior to June 30, 1948, or such subsequent date as is enacted by law, has continuously maintained his or her residence in the United States since then, and is not ineligible for citizenship, but who is deemed to be lawfully admitted for permanent residence as a result of an exercise of discretion by the Attorney General pursuant to section 249 of the Immigration and Nationality Act (8 U.S.C.

(b) Coupons issued to eligible households shall be used by them only to purchase food in retail food stores which have been approved for participation in the food stamp program at prices prevailing in such stores: Provided, That nothing in this Act shall be construed as authorizing the Secretary to specify the prices at which food may be sold by wholesale food concerns or retail food stores: Provided further, That eligible households using coupons to purchase food may receive cash in change therefor so long as the cash received does not equal or exceed the value of the lowest coupon denomination issued.

(c) Coupons issued to eligible households shall be simple in design and shall include only such words or illustrations as are required to explain their purpose and define their denomination. The name of any public official shall not appear on such coupons.

(d) The Secretary shall develop an appropriate procedure for determining and monitoring the level of coupon inventories in the hands of coupon issuers for the purpose of providing that such inventories are at proper levels (taking into consideration the historical and projected volume of coupon distribution by such issuers). Such procedures shall provide that coupon inventories in the hands of such issuers
are not in excess of the reasonable needs of such issuers taking into
consideration the ease with which such coupon inventories may be
resupplied. The Secretary shall require each coupon issuer at intervals
prescribed by the Secretary, but not less often than monthly, to send to
the Secretary or the Secretary's designee, which may include the State
delivery, a written report of the issuer's operations during such period.
In addition to other information deemed by the Secretary to be appro-

coupon issuer, certifying that the information contained in the report
is true and correct to the best of such person's knowledge and belief.
"(e) The Secretary shall prescribe appropriate procedures for the

assistance otherwise provided an individual or individuals because

Applications, submission.
7 USC 2018.

"Sec. 9. (a) Regulations issued pursuant to this Act shall provide
for the submission of applications for approval by retail food stores
and wholesale food concerns which desire to be authorized to accept
and redeem coupons under the food stamp program and for the
approval of those applicants whose participation will effectuate the
purposes of the food stamp program. In determining the qualifications
of applicants, there shall be considered among such other factors as
may be appropriate, the following: (1) the nature and extent of the
food business conducted by the applicant; (2) the volume of coupon
business which may reasonably be expected to be conducted by the
applicant food store or wholesale food concern; and (3) the business
integrity and reputation of the applicant. Approval of an applicant
shall be evidenced by the issuance to such applicant of a nontransfer-

“(b) No wholesale food concern may be authorized to accept and redeem coupons unless the Secretary determines that its participation is required for the effective and efficient operation of the food stamp program. In addition, no firm may be authorized to accept and redeem coupons as both a retail food store and as a wholesale food concern at the same time.

“(c) Regulations issued pursuant to this Act shall require an applicant retail food store or wholesale food concern to submit information which will permit a determination to be made as to whether such applicant qualifies, or continues to qualify, for approval under the provisions of this Act or the regulations issued pursuant to this Act. Regulations issued pursuant to this Act shall provide for safeguards which limit the use or disclosure of information obtained under the authority granted by this subsection to purposes directly connected with administration and enforcement of the provisions of this Act or the regulations issued pursuant to this Act.

“(d) Any retail food store or wholesale food concern which has failed upon application to receive approval to participate in the food stamp program may obtain a hearing on such refusal as provided in section 14 of this Act.

“REDEMPTION OF COUPONS

cal subdivision. In the case of all or part of an Indian reservation, the State agency as defined in section 3(n) (1) of this Act shall be responsible for conducting such program on such reservation unless the Secretary determines that the State agency (as defined in section 3(n) (1) of this Act) is failing, subsequent to the enactment of this Act, properly to administer such program on such reservation in accordance with the purposes of this Act and further determines that the State agency as defined in section 3(n) (2) of this Act is capable of effectively and efficiently conducting such program, in light of the distance of the reservation from State agency-operated certification and issuance centers, the previous experience of such tribal organization in the operation of programs authorized under the Indian Self-Determination Act (25 U.S.C. 450) and similar Acts of Congress, the tribal organization's management and fiscal capabilities, and the adequacy of measures taken by the tribal organization to ensure that there shall be no discrimination in the operation of the program on the basis of race, color, sex, or national origin, in which event such State agency shall be responsible for conducting such program and submitting for approval a plan of operation specifying the manner in which such program will be conducted. The Secretary, upon the request of a tribal organization, shall provide the designees of such organization with appropriate training and technical assistance to enable them to qualify as expeditiously as possible as a State agency pursuant to section 3(n) (2) of this Act. A State agency, as defined in section 3(n) (1) of this Act, before it submits its plan of operation to the Secretary for the administration of the food stamp program on all or part of an Indian reservation, shall consult in good faith with the tribal organization about that portion of the State's plan of operation pertaining to the implementation of the program for members of the tribe, and shall implement the program in a manner that is responsive to the needs of the Indians on the reservation as determined by ongoing consultation with the tribal organization.

"(e) The State plan of operation required under subsection (d) of this section shall provide, among such other provisions as may be required by regulation—

"(1) that the State agency shall (A) inform low-income households about the availability, eligibility requirements, and benefits of the food stamp program, including, but not limited to, notification to recipients of aid to families with dependent children, supplemental security income, and unemployment compensation, distribution of application forms, and associated instructions in filling out such forms, and on the documentation required pursuant to paragraph (3) of this subsection; (B) not conduct any other outreach activities of a noninformational nature in those areas in which a federally funded community action program is in operation and conducting food stamp outreach; and (C) use appropriate bilingual personnel and printed material in the administration of the program in those portions of political subdivisions in the State in which a substantial number of members of low-income households speak a language other than English; 

"(2) that each household which contacts a food stamp office in person during office hours to make what may reasonably be interpreted as an oral or written request for food stamp assistance shall receive and shall be permitted to file, on the same day that such contact is first made, a simplified, uniform national application form for participation in the food stamp program designed by the Secretary, unless the Secretary approves a deviation from
that form by a particular State agency because of the use by that agency of a dual public assistance food stamp application form pursuant to subsection (1) of this section, the requirements of an agency's computer system, or other exigencies as determined by the Secretary. Each application form shall contain a description in understandable terms in prominent and boldface lettering of the appropriate civil and criminal provisions dealing with violations of this Act, including the penalties therefor, by members of an eligible household. The State agency shall comply with the standards established by the Secretary for points and hours of certification, and for telephone contact by, mail delivery of forms to and mail return of forms by, and subsequent home or telephone interview with, the elderly, physically or mentally handicapped, and persons otherwise unable, solely because of transportation difficulties and similar hardships, to appear in person at a certification office or through a representative pursuant to paragraph (7) of this subsection, so that such persons may have an adequate opportunity to be certified properly;

"(3) that the State agency shall thereafter promptly determine the eligibility of each applicant household by way of verification only of income other than that determined to be excluded by section 5(d) of this Act and such other eligibility factors as the Secretary determines to be necessary to implement sections 5 and 6 of this Act, so as to complete certification of and provide an allotment retroactive to the period of application to any eligible household not later than thirty days following its filing of an application;

"(4) that the State agency shall insure that each participating household receive a notice of expiration of its certification immediately prior to or at the start of the last month of its certification period advising it that it must submit a new application in order to renew its eligibility for a new certification period and, further, that each such household which seeks to be certified another time or more times thereafter by filing an application for such recertification no later than fifteen days prior to the day upon which its existing certification period expires shall, if found to be still eligible, receive its allotment no later than one month after the receipt of the last allotment issued to it pursuant to its prior certification, but if such household is found to be ineligible or to be eligible for a smaller allotment during the new certification period it shall not continue to participate and receive benefits on the basis authorized for the preceding certification period even if it makes a timely request for a fair hearing pursuant to paragraph (10) of this subsection;

"(5) the specific standards to be used in determining the eligibility of applicant households which shall be in accordance with sections 5 and 6 of this Act and shall include no additional requirements imposed by the State agency;

"(6) that (A) the State agency shall undertake the certification of applicant households in accordance with the general procedures prescribed by the Secretary in the regulations issued pursuant to this Act; (B) the State agency personnel utilized in undertaking such certification shall be employed in accordance with the current standards for a Merit System of Personnel Administration or any standards later prescribed by the United States Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 modifying or superseding such standards relating to the establishment and maintenance of personnel stand-

Personnel shall be selected and employed on a merit basis; and (C) the State agency shall undertake to provide a continuing, comprehensive program of training for all personnel undertaking such certification.

Safeguards.

“(7) that any applicant household may be represented in the certification process and that any eligible household may be represented in coupon issuance or food purchase by a person other than a member of the household so long as that person has been clearly designated as the representative of that household for that purpose by the head of the household or the spouse of the head, and, where the certification process is concerned, the representative is an adult who is sufficiently aware of relevant household circumstances;

“(8) safeguards which limit the use or disclosure of information obtained from applicant households to persons directly connected with the administration or enforcement of the provisions of this Act or the regulations issued pursuant to this Act;

“(9) that households in immediate need because of no income as defined in sections 5 (d) and (e) of this Act receive coupons on an expedited basis;

Hearing.

“(10) for the granting of a fair hearing and a prompt determination thereafter to any household aggrieved by the action of the State agency under any provision of its plan of operation as it affects the participation of such household in the food stamp program or by a claim against the household for an overissuance: Provided, That any household which timely requests such a fair hearing after receiving individual notice of agency action reducing or terminating its benefits within the household’s certification period shall continue to participate and receive benefits on the basis authorized immediately prior to the notice of adverse action until such time as the fair hearing is completed and an adverse decision rendered or until such time as the household’s certification period terminates, whichever occurs earlier;

“(11) for the prompt restoration in the form of coupons to households of any allotment or portion thereof which has been wrongfully denied or terminated;

Reports.

“(12) for the submission of such reports and other information as from time to time may be required by the Secretary;

“(13) for compliance with standards set by the Secretary with respect to points and hours of coupon issuance;

“(14) for indicators of expected performance in the administration of the program;

Poster displays.

“(15) that the State agency shall prominently display in all food stamp and public assistance offices posters prepared or obtained by the Secretary describing the information contained in subparagraphs (A) through (D) of this paragraph and shall make available in such offices for home use pamphlets prepared or obtained by the Secretary listing (A) foods that contain substantial amounts of recommended daily allowances of vitamins, minerals, and protein for children and adults; (B) menus that combine such foods into meals; (C) details on eligibility for other programs administered by the Secretary that provide nutrition benefits; and (D) general information on the relationship between health and diet; and

Disaster victims.

“(16) that the State agency shall specify a plan of operation for providing food stamps for households that are victims of a disaster; that such plan shall include, but not be limited to, procedures for informing the public about the disaster program and how to apply for its benefits, coordination with Federal and private dis-
aster relief agencies and local government officials, application procedures to reduce hardship and inconvenience and deter fraud, and instruction of caseworkers in procedures for implementing and operating the disaster program.

“(f) To encourage the purchase of nutritious foods, the Secretary shall extend the expanded food and nutrition education program to the greatest extent possible to reach food stamp program participants. The program shall be further supplemented by the development of single concept printed materials, specifically designed for persons with low reading and comprehension levels, on how to buy and prepare more nutritious and economical meals and on the relationship between food and good health.

“(g) If the Secretary determines that in the administration of the food stamp program there is a failure by a State agency to comply with any of the provisions of this Act, the regulations issued pursuant to this Act, or the State plan of operation submitted pursuant to subsection (d) of this section, the Secretary shall immediately inform such State agency of such failure and shall allow the State agency a specified period of time for the correction of such failure. If the State agency does not correct such failure within that specified period, the Secretary may refer the matter to the Attorney General with a request that injunctive relief be sought to require compliance forthwith by the State agency and, upon suit by the Attorney General in an appropriate district court of the United States having jurisdiction of the geographic area in which the State agency is located and a showing that noncompliance has occurred, appropriate injunctive relief shall issue.

“(h) If the Secretary determines that there has been negligence or fraud on the part of the State agency in the certification of applicant households, the State shall, upon request of the Secretary, deposit into the Treasury of the United States, a sum equal to the face value of any coupon or coupons issued as a result of such negligence or fraud.

“(i) Notwithstanding any other provision of law, the Secretary and the Secretary of Health, Education, and Welfare shall develop a system by which (1) a single interview shall be conducted to determine eligibility for the food stamp program and the aid to families with dependent children program under part A of title IV of the Social Security Act; (2) households in which all members are recipients of supplemental security income shall be permitted to apply for participation in the food stamp program by executing a simplified affidavit at the social security office and be certified for eligibility utilizing information contained in files of the Social Security Administration; (3) households in which all members are included in a federally aided public assistance or State or local general assistance grant shall have their application for participation in the food stamp program contained in the public assistance or general assistance application form; and (4) new applicants, as well as households which have recently lost or been denied eligibility for public assistance or general assistance, shall be certified for participation in the food stamp program based on information in the public assistance or general assistance case file to the extent that reasonably verified information is available in such case file.

“(j) The Secretary, in conjunction with the Secretary of Health, Education, and Welfare, is authorized to prescribe regulations permitting applicants for and recipients of social security benefits to apply for food stamps at social security offices and be certified for food stamp eligibility in such offices in order that the application and certification for food stamp assistance may be accomplished as efficiently and conveniently as possible.
“(k) Subject to the approval of the President, post offices in all or part of the State may issue, upon request by the State agency, food stamps to eligible households.

“CIVIL MONEY PENALTIES AND DISQUALIFICATION OF RETAIL FOOD STORES AND WHOLESALE FOOD CONCERNS

7 USC 2021.

“SEC. 12. Any approved retail food store or wholesale food concern may be disqualified for a specified period of time from further participation in the food stamp program, or subjected to a civil money penalty of up to $5,000 for each violation if the Secretary determines that its disqualification would cause hardship to food stamp households, on a finding, made as specified in the regulations, that such store or concern has violated any of the provisions of this Act or the regulations issued pursuant to this Act. Such disqualification shall be for such period of time as may be determined in accordance with regulations issued pursuant to this Act. The action of disqualification or the imposition of a civil money penalty shall be subject to review as provided in section 14 of this Act.

“DETERMINATION OF DISPOSITION OF CLAIMS

7 USC 2022.

“SEC. 13. The Secretary shall have the power to determine the amount of and settle and adjust any claim and to compromise or deny all or part of any such claim or claims arising under the provisions of this Act or the regulations issued pursuant to this Act, including, but not limited to, claims arising from fraudulent and nonfraudulent overissuances to recipients. Such powers with respect to claims against recipients may be delegated by the Secretary to State agencies.

“ADMINISTRATIVE AND JUDICIAL REVIEW

7 USC 2023.

“SEC. 14. Whenever an application of a retail food store or wholesale food concern to participate in the food stamp program is denied pursuant to section 9 of this Act, or a retail food store or wholesale food concern is disqualified or subjected to a civil money penalty under the provisions of section 12 of this Act, or all or part of any claim of a retail food store or wholesale food concern is denied under the provisions of section 13 of this Act, or a claim against a State agency is stated pursuant to the provisions of section 13 of this Act, notice of such administrative action shall be issued to the retail food store, wholesale food concern, or State agency involved. Such notice shall be delivered by certified mail or personal service. If such a request is not made or if such store, concern, or State agency fails to submit information in support of its position after filing a request, the administrative determination shall be final. If such request is made by such store, concern, or State agency, such information as may be submitted by the store, concern, or State agency, as well as such other information as may be available, shall be reviewed by the person or persons designated by the Secretary, who shall, subject to the right of judicial review hereinafter provided, make a determination which shall be final and which shall take effect thirty days after the date of the

The copy of the summons and complaint required to be delivered to the official or agency whose order is being attacked shall be sent to the Secretary or such person or persons as the Secretary may designate to receive service of process. The suit in the United States district court or State court shall be a trial de novo by the court in which the court shall determine the validity of the questioned administrative action in issue. If the court determines that such administrative action is invalid, it shall enter such judgment or order as it determines is in accordance with the law and the evidence. During the pendency of such judicial review, or any appeal therefrom, the administrative action under review shall be and remain in full force and effect, unless an application to the court on not less than ten days' notice, and after hearing thereon and a showing of irreparable injury, the court temporarily stays such administrative action pending disposition of such trial or appeal.

7 USC 2025.

“Sec. 16. (a) The Secretary is authorized to pay to each State agency an amount equal to 50 per centum of all administrative costs involved in each State agency’s operation of the food stamp program, which costs shall include, but not be limited to, the cost of (1) outreach, (2) the certification of applicant households, (3) the acceptance, storage, protection, control, and accounting of coupons after their delivery to receiving points within the State, (4) the issuance of coupons to all eligible households, and (5) fair hearings: Provided, That the Secretary is authorized to pay each State agency an amount not less than 75 per centum of the costs of State food stamp program investigations and prosecutions, and is further authorized at the Secretary’s discretion to pay any State agency administering the food stamp program on all or part of an Indian reservation under section 11(d) of this Act such amounts for administrative costs as the Secretary determines to be necessary for effective operation of the food stamp program.

“(b) The Secretary shall (1) establish standards for the efficient and effective administration of the food stamp program by the States, including, but not limited to, staffing standards such as caseload per certification worker limitations, and (2) instruct each State to submit, at regular intervals, reports which shall specify the specific administrative actions proposed to be taken and implemented in order to meet the efficiency and effectiveness standards established pursuant to clause (1) of this subsection. If the Secretary finds that a State has failed without good cause to meet any of the Secretary’s standards, or has failed to carry out the approved State plan of operation under section 11(d) of this Act, the Secretary shall withhold from the State such funds authorized under subsections (a) and (c) of this section as the Secretary determines to be appropriate.

“(c) Effective October 1, 1978, the Secretary is authorized to adjust a State agency’s federally funded share of administrative costs pursuant to subsection (a) of this section, other than the costs already shared in excess of 50 per centum as described in the exception clause of subsection (a) of this section, by increasing such share to 60 per centum of all such administrative costs in the case of a State agency whose cumulative allotment error rates with respect to eligibility, overissuance, and underissuance as calculated in the quality control program undertaken pursuant to subsection (d)(1) of this section is less than five per centum.

“(d) Effective October 1, 1978, and annually thereafter, each State not receiving an increased share of administrative costs pursuant to subsection (c) of this section shall be required to develop and submit to the Secretary for approval, as part of the plan of operation required to be submitted under section 11(d) of this Act, a quality control plan for the State which shall specify the actions such State proposes to take in order to reduce—

“(1) the incidence of error rates in and the value of—

“(A) food stamp allotments for households which fail to meet basic program eligibility requirements;
“(B) food stamp allotments overissued to eligible households; and
“(C) food stamp allotments underissued to eligible households; and
“(2) the incidence of invalid decisions in certifying or denying eligibility.
“(e) As used in this section ‘quality control’ means monitoring and reducing the rate of errors in determining basic eligibility and benefit levels.

RESEARCH, DEMONSTRATION, AND EVALUATIONS

“Sec. 17. (a) The Secretary may, by way of making contracts with or grants to public or private organizations or agencies, undertake research that will help improve the administration and effectiveness of the food stamp program in delivering nutrition-related benefits.
“(b) (1) The Secretary is authorized to conduct on a trial basis, in one or more areas of the United States, pilot or experimental projects designed to test program changes that might increase the efficiency of the food stamp program and improve the delivery of food stamp benefits to eligible households, including projects involving the payment of the value of allotments in the form of cash to eligible households all of whose members are either age sixty-five or over or entitled to supplemental security income benefits under title XVI of the Social Security Act, the use of countersigned food coupons or similar identification mechanisms that do not invade a household’s privacy, and the use of food checks or other voucher-type forms in place of food coupons. The Secretary may waive the requirements of this Act to the degree necessary for such projects to be conducted, except that no project shall be implemented which would lower or further restrict the income or resource standards or benefit levels provided pursuant to sections 5 and 8 of this Act.
“(2) The Secretary shall, jointly with the Secretary of Labor, implement two pilot projects involving the performance of work in return for food stamp benefits in each of the seven administrative regions of the Food and Nutrition Service of the Department of Agriculture, such projects to be (A) appropriately divided in each region between locations that are urban and rural in characteristics and among locations selected to provide a representative cross-section of political subdivisions in the States and (B) submitted for approval prior to project implementation, together with the names of the agencies or organizations that will be engaged in such projects, to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate. Under such pilot projects, any person who is subject to the work registration requirements pursuant to section 6(d) of this Act, and is a member of a household that does not have earned income equal to or exceeding the allotment to which the household is otherwise entitled pursuant to section 8(a) of this Act, shall be ineligible to participate in the food stamp program as a member of any household during any month in which such person refuses, after not being offered employment in the private sector of the economy for more than thirty days after the initial registration for employment referred to in section 6(d) (1) (i) of this Act, to accept an offer of employment from a political subdivision or a prime sponsor pursuant to the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 812), for which employment compensation shall be paid in the form of the allotment to which
the household is otherwise entitled pursuant to section 8(a) of this Act, with each hour of employment entitling the household to a portion of the allotment equal in value to 100 per centum of the Federal minimum hourly rate under the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 206(a)(1)); which employment shall not, together with any other hours worked in any other capacity by such person exceed forty hours a week; and which employment shall not be used by the employer to fill a job opening created by the action of such employer in laying off or terminating the employment of any regular employee not supported under this paragraph in anticipation of filling the vacancy so created by hiring an employee or employees to be supported under this paragraph: Provided, That all of the political subdivision's or prime sponsor's public service jobs supported under the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 812), are filled before such subdivision or sponsor can extend a job offer pursuant to this paragraph: Provided further, That the sponsor of each such project shall provide the assurances required of prime sponsors under section 205(c) (7), (8), (15), (19), and (24) of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 845(c)), and the Secretary shall require such sponsors to comply with the conditions contained in sections 208(a) (1), (4), and (5) and (c) and 703(4) of the Comprehensive Employment and Training Act of 1973, as amended (29 U.S.C. 848(a) and (c) and 983). The Secretary and the Secretary of Labor shall jointly issue reports to the appropriate committees of Congress on the progress of such pilot projects no later than six and twelve months following enactment of this Act, and shall issue a final report describing the results of such pilot projects no later than eighteen months following enactment of this Act.

Evaluation measures.

"(c) The Secretary shall develop and implement measures for evaluating, on an annual or more frequent basis, the effectiveness of the food stamp program in achieving its stated objectives, including, but not limited to, the program's impact upon the nutritional and economic status of participating households, the program's impact upon all sectors of the agricultural economy, including farmers and ranchers, as well as retail food stores, and the program's relative fairness to households of different income levels, different age composition, different size, and different regions of residence.

Study.

"(d) Notwithstanding any other provision of law, the Secretary shall, in consultation with the Secretary of the Treasury, conduct a study, through the use of Federal income tax data, of the feasibility, alternative methods of implementation, and the effects of a program to recover food stamp benefits from members of eligible households in which the adjusted gross income of members of such households for a calendar year (as defined by the Internal Revenue Code of 1954) may exceed twice the income poverty guidelines set forth in section 5(c) of this Act. Such study shall be conducted in rural and urban areas only on a voluntary basis by food stamp recipients. The Secretary shall, no later than twelve months and eighteen months from the date of enactment of this Act, report the results of the study to the Committees on Agriculture and Ways and Means of the House of Representatives and to the Committees on Agriculture, Nutrition, and Forestry and Finance of the Senate, together with such recommendations as the Secretary deems appropriate.
"AUTHORIZATION FOR APPROPRIATIONS

"Sec. 18. (a) To carry out the provisions of this Act, there are hereby authorized to be appropriated not in excess of $5,847,600,000 for the fiscal year ending September 30, 1978; not in excess of $6,158,900,000 for the fiscal year ending September 30, 1979; not in excess of $6,188,600,000 for the fiscal year ending September 30, 1980; and not in excess of $6,235,900,000 for the fiscal year ending September 30, 1981. Not to exceed one-fourth of 1 per centum of the previous year's appropriation is authorized in each such fiscal year to carry out the provisions of section 17 of this Act. Sums appropriated under the provisions of this Act shall, notwithstanding the provisions of any other law, continue to remain available until expended.

"(b) In any fiscal year, the Secretary shall limit the value of those allotments issued to an amount not in excess of the appropriation for such fiscal year. If in any fiscal year the Secretary finds that the requirements of participating States will exceed the limitation set herein, the Secretary shall direct State agencies to reduce the value of such allotments to be issued to households certified as eligible to participate in the food stamp program to the extent necessary to comply with the provisions of this subsection."

TITLE XIV—NATIONAL AGRICULTURAL RESEARCH, EXTENSION, AND TEACHING POLICY ACT OF 1977

SHORT TITLE

Sec. 1401. This title may be cited as the "National Agricultural Research, Extension, and Teaching Policy Act of 1977".

Subtitle A—Findings, Purposes, and Definitions

FINDINGS

Sec. 1402. Congress finds that—

(1) the Federal Government of the United States has provided funding support for agricultural research and extension for many years in order to promote and protect the general health and welfare of the people of the United States, and this support has significantly contributed to the development of the Nation's agricultural system;

(2) the agencies conducting such federally supported research were established at different times in response to different and specific needs and their work is not fully coordinated;

(3) these agencies have only been partially successful in responding to the needs of all persons affected by their research, and useful information produced through such federally supported research is not being efficiently transferred to the people of the United States;

(4) expanded agricultural research and extension are needed to meet the rising demand for food and fiber caused by increases in worldwide population and food shortages due to short-term, localized, and adverse climatic conditions;

(5) increased research is necessary to alleviate inadequacies of the marketing system (including storage, transportation, and distribution of agricultural and forest products) which have impaired United States agricultural production and utilization;
(6) advances in food and agricultural sciences and technology have become increasingly limited by the concentration upon the thorough development and exploitation of currently known scientific principles and technological approaches at the expense of more fundamental research, and a strong research effort in the basic sciences is necessary to achieve breakthroughs in knowledge that can support new and innovative food and agricultural technologies;

(7) Federal funding levels for agricultural research and extension in recent years have not been commensurate with needs stemming from changes in United States agricultural practices and the world food and agricultural situation;

(8) new Federal initiatives are needed in the areas of—

(A) research to find alternatives to technologies based on fossil fuels;

(B) research and extension on human nutrition and food consumption patterns in order to improve the health and vitality of the people of the United States;

(C) research to find solutions to environmental problems caused by technological changes in food and agricultural production;

(D) aquacultural research and extension;

(E) research and extension directed toward improving the management and use of the Nation’s natural and renewable resources, in order to meet the increased demand for forest products, conserve water resources (through irrigation management, tail water reuse, desalination, crop conversion, and other water conservation techniques), conserve soil resources, and properly manage rangelands;

(F) improving and expanding the research and extension programs in home economics;

(G) extension programs in energy conservation;

(H) extension programs in forestry and natural resources, with special emphasis to be given to improving the productivity of small private woodlands, modernizing wood harvesting and utilization, developing and disseminating reliable multiple-use resource management information to all landowners and consumers, and the general public, wildlife, watershed, and recreational management, and cultural practices (including reforestation, protection, and related matters);

(I) research on climate, drought, and weather modification as factors in food and agricultural production;

(J) more intensive agricultural research and extension programs oriented to the needs of small farmers and their families and the family farm system, which is a vital component of the agricultural production capacity of this country;

(K) research to expand export markets for agricultural commodities;

(L) development and implementation, through research, of more efficient, less wasteful, and environmentally sound methods of producing, processing, marketing, and utilizing food, fiber, waste products, other nonfood agricultural products, and forest and rangeland products;

(M) expanded programs of animal disease and health care research and extension;
(N) research to develop new crops, in order to expand our use of varied soils and increase the choice of nutritional and economically viable crops available for cultivation; and

(O) investigation and analysis of the practicability, desirability, and feasibility of using organic waste materials to improve soil tilth and fertility, and extension programs to disseminate practical information resulting from such investigations and analyses; and

(9) the existing agricultural research system consisting of the Federal Government, the land-grant colleges and universities, other colleges and universities engaged in agricultural research, the agricultural experiment stations, and the private sector constitute an essential national resource which must serve as the foundation for any further strengthening of agricultural research in the United States.

PURPOSES

SEC. 1403. The purposes of this title are to—

(1) establish firmly the Department of Agriculture as the lead agency in the Federal Government for the food and agricultural sciences, and to emphasize that agricultural research, extension, and teaching are distinct missions of the Department of Agriculture;

(2) undertake the special measures set forth in this title to improve the coordination and planning of agricultural research, identify needs and establish priorities for such research, assure that high priority research is given adequate funding, assure that national agricultural research, extension, and teaching objectives are fully achieved, and assure that the results of agricultural research are effectively communicated and demonstrated to farmers, processors, handlers, consumers, and all other users who can benefit therefrom;

(3) increase cooperation and coordination in the performance of agricultural research by Federal departments and agencies, the States, State agricultural experiment stations, colleges and universities, and user groups;

(4) enable the Federal Government, the States, colleges and universities, and others to implement needed agricultural research, extension, and teaching programs, including the initiatives specified in section 1402(8) of this title, through the establishment of new programs and the improvement of existing programs, as provided for in this title;

(5) establish a new program of grants for high-priority agricultural research to be awarded on the basis of competition among scientific research workers and all colleges and universities;

(6) establish a new program of grants for facilities and instrumentation used in agricultural research; and

(7) establish a new program of education grants and fellowships to strengthen training and research programs in the food and agricultural sciences, to be awarded on the basis of competition.

"(e) Each recipient of assistance under this section shall keep such records as the Secretary of Agriculture shall, by regulation, prescribe, including records which fully disclose the amount and disposition by such recipient of the proceeds of such grants, the total cost of the project or undertaking in connection with which such funds are given or used, and the amount of that portion of the costs of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit. The Secretary of Agriculture and the Comptroller General of the United States or any of their duly authorized representatives shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipients that are pertinent to the grants received under this section.

"(f) The Secretary of Agriculture shall limit allowable overhead costs, with respect to grants awarded under this section, to those necessary to carry out the purposes of the grants.

(a) The Secretary shall conduct a program of grants to States for the purpose of meeting the costs of construction, employing faculty, acquiring equipment, and taking other action relating to the initial establishment and initial operation of schools of veterinary medicine, or the expansion of existing schools of veterinary medicine, as determined by the Secretary by regulations. This grant program shall be based on a matching formula of 50 per centum Federal and 50 per centum State funding.

(b) Except with respect to the States of Alaska and Hawaii, the Secretary shall give preference in awarding grants to States which file, with their application for funds under this section, assurances satisfactory to the Secretary that—

(1) the State has established, or has made a reasonable effort to establish, a veterinary medical training program with one or more States without colleges of veterinary medicine which consists of appropriate cooperative agreements providing for a sharing of curriculum and costs by the individual States; and

(2) the clinical training of the school to be established or expanded shall emphasize care and preventive medical programs for food-producing animals.

Notwithstanding clause (1) of this subsection, no State which the Secretary determines has made a reasonable effort to establish appropriate cooperative agreements shall be denied a grant or otherwise prejudiced because of its failure to establish such cooperative agreements.

(c) Funds appropriated to carry out this section for any fiscal year shall be apportioned and distributed as follows:

(1) Four per centum shall be retained by the Department of Agriculture for administration, program assistance to eligible States, and program coordination.
(2) The remainder shall be apportioned and distributed by the Secretary to those States which have applied for funds under this section on such basis as the Secretary may deem appropriate: Provided, That not less than 50 per centum of such funds shall be made available to States which have accredited schools of veterinary medicine.

Grants in this category may be used for exploratory research by such scientists, the acquisition of instruments, equipment, and facilities for research and training and other programs and activities aimed at meeting departmental, interdepartmental, or institutionwide training and research needs, or a combination thereof. Grants shall be made on a competitive basis and may cover periods not to exceed four years. Competition for such grants shall be open to all colleges and universities in the United States which have a capacity for teaching, research, and the dissemination of research results in the food and agricultural sciences or which are establishing such programs.

(2) Grants to strengthen undergraduate programs in the food and agricultural sciences at all colleges and universities. (b) The Secretary shall conduct a program of predoctoral and postdoctoral fellowships in the food and agricultural sciences. These fellowships shall be made in the following two categories:

(1) Predoctoral fellowships, each for a period of up to four years. The purpose of these fellowships shall be to provide training and increase research capabilities in areas of need as identified by each State. These fellowships shall be awarded on the basis of merit, as determined by review panels established annually by the Secretary, to graduate students from each of the States, if the following criteria are satisfied:

(A) the student is enrolled in a graduate degree program in a college or university; and

(B) the student intends to pursue or is pursuing a course of study in the food and agricultural sciences which is directly related to an area of need as identified by the Governor or chief executive officer of the State.

At least three such fellowships shall be awarded to students from each State in every year.

(2) Postdoctoral fellowships, each for a period of from one to five years. The purpose of these fellowships shall be to attract highly

(c) Awards under this section shall be made in each fiscal year in two categories as follows:

(1) to a scientist in recognition of outstanding contributions to the advancement of the food and agricultural sciences; and

(2) to a research scientist in early career development or a graduate student, in recognition of demonstrated capability and promise of significant future achievement in the food and agricultural sciences.

(d) The Secretary may establish such nominating and selection committees, to consist of scientists and others, to receive nominations and make recommendations for awards under this section, as the Secretary deems appropriate.

GRANTS FOR RESEARCH ON THE PRODUCTION AND MARKETING OF ALCOHOLS AND INDUSTRIAL HYDROCARBONS FROM AGRICULTURAL COMMODITIES AND FOREST PRODUCTS, AND AGRICULTURAL CHEMICALS AND OTHER PRODUCTS FROM COAL DERIVATIVES

SEC. 1419. The Secretary shall make grants under this section to colleges and universities for the purpose of conducting research related to the production and marketing of (1) coal tar, producer gas, and other coal derivatives for the manufacture of agricultural chemicals, methanol, methyl fuel, and alcohol-blended motor fuel (such agricultural chemicals to include, but not be limited to, fertilizers, herbicides, insecticides, and pesticides), (2) alcohol made from agricultural commodities and forest products as a substitute for alcohol made from petroleum products, and (3) other industrial hydrocarbons made from agricultural commodities and forest products. There are hereby authorized to be appropriated for the purposes of carrying out
PILOT PROJECTS FOR THE PRODUCTION AND MARKETING OF INDUSTRIAL HYDROCARBONS AND ALCOHOLS FROM AGRICULTURAL COMMODITIES AND FOREST PRODUCTS

7 USC 2669.

SEC. 1420. Title V of the Rural Development Act of 1972 (86 Stat. 671–674, as amended: 7 U.S.C. 2661–2668) is amended by adding at the end thereof a new section as follows:

"Sec. 509. (a) The Secretary is authorized and directed to formulate and carry out a pilot program for the production and marketing of industrial hydrocarbons derived from agricultural commodities and forest products for the purpose of stabilizing and expanding the market for such commodities and products and expanding the Nation's supply of industrial hydrocarbons.

(b) The Secretary shall provide for four pilot projects for the production of industrial hydrocarbons and alcohols from agricultural commodities and forest products by guaranteeing loans, not to exceed $15,000,000 per each such project, to public, private, or cooperative organizations organized for profit or nonprofit, or to individuals for a term not to exceed twenty years at a rate of interest agreed upon by the borrower and lender.

(c) No loan may be guaranteed under this section unless (1) research indicates the total energy content of the products and byproducts to be manufactured by the loan applicant will exceed the total energy input from fossil fuels used in the manufacture of such products and byproducts, and (2) such other conditions as the Secretary deems appropriate to achieve the purposes of this section are met.

(d) In order to assure that the recipients of loans made under this section have a dependable supply of agricultural commodities at a stable price for use in the pilot projects provided for in this section, the Secretary is authorized to enter into long-term contracts, not exceeding five years, with the recipients of such loans. Such contracts shall guarantee the recipients of such loans a specified quantity of agricultural commodities annually at mutually agreed upon prices, but the agricultural commodities shall not be sold under any such contracts at less than the price support level prescribed for the commodity concerned unless the commodities are out of condition, unstorable, or sample-grade or lower, as prescribed in Department of Agriculture standards.

(e) The Secretary shall supply from Commodity Credit Corporation stocks or, to such extent or in such amounts as are provided in appropriation Acts, purchase such quantities of agricultural commodities as may be necessary to comply with the terms of agreements entered into under this section.

(f) The provisions of this section shall be carried out through the Commodity Credit Corporation."
Subtitle D—National Food and Human Nutrition Research and Extension Program

FINDINGS AND DECLARATIONS

SEC. 1421. (a) Congress hereby finds that there is increasing evidence of a relationship between diet and many of the leading causes of death in the United States: that improved nutrition is an integral component of preventive health care; that there is a serious need for research on the chronic effects of diet on degenerative diseases and related disorders; that nutrition and health considerations are important to United States agricultural policy; that there is insufficient knowledge concerning precise human nutritional requirements, the interaction of the various nutritional constituents of food, and differences in nutritional requirements among different population groups such as infants, children, adolescents, elderly men and women, and pregnant women; and that there is a critical need for objective data concerning food safety, the potential of food enrichment, and means to encourage better nutritional practices.

(b) It is hereby declared to be the policy of the United States that the Department of Agriculture conduct research in the fields of human nutrition and the nutritive value of foods and conduct human nutrition education activities, as provided in this subtitle.

DUTIES OF THE SECRETARY OF AGRICULTURE

SEC. 1422. In order to carry out the policy of this subtitle, the Secretary shall develop and implement a national food and human nutrition research and extension program that shall include, but not be limited to—

1. research on human nutritional requirements;
2. research on the nutrient composition of foods and the effects of agricultural practices, handling, food processing, and cooking on the nutrients they contain;
3. surveillance of the nutritional benefits provided to participants in the food programs administered by the Department of Agriculture;
4. research on the factors affecting food preference and habits; and
5. the development of techniques and equipment to assist consumers in the home or in institutions in selecting food that supplies a nutritionally adequate diet.

RESEARCH BY THE DEPARTMENT OF AGRICULTURE

SEC. 1423. (a) The Secretary shall establish research into food and human nutrition as a separate and distinct mission of the Department of Agriculture, and the Secretary shall increase support for such research to a level that provides resources adequate to meet the policy of this subtitle.

(b) The Secretary, in administering the food and human nutrition research program, shall periodically consult with the administrators of the other Federal departments and agencies that have responsibility for programs dealing with human food and nutrition, as to the specific research needs of those departments and agencies.
Sec. 1424. The Secretary shall perform a study assessing the potential value and cost of establishing regional food and human nutrition research centers in the United States. This assessment shall examine the feasibility of using existing Federal facilities in establishing such centers. The Secretary shall complete this study and submit a report setting forth the findings of the study and recommendations for the implementation of these findings, as a part of the plan the Secretary is required to submit to Congress pursuant to section 1427 of this title, not later than one year after the effective date of this title.

NUTRITION EDUCATION PROGRAM

Sec. 1425. (a) The Secretary shall establish a national education program which shall include, but not be limited to, the dissemination of the results of food and human nutrition research performed or funded by the Department of Agriculture.

(b) In order to enable low-income individuals and families to engage in nutritionally sound food purchasing and preparation practices, the expanded food and nutrition education program presently conducted under section 3(d) of the Act of May 8, 1914 (38 Stat. 373, as amended; 7 U.S.C. 343(d)), shall be expanded to provide for the employment and training of professional and paraprofessional aides to engage in direct nutrition education of low-income families and in other appropriate nutrition education programs. Funds for carrying out the provisions of this subsection shall be allocated to each State in an amount which bears the same ratio to the total amount to be allocated as the population of the State living at or below 125 per centum of the income poverty guidelines prescribed by the Office of Management and Budget (adjusted pursuant to section 625 of the Economic Opportunity Act of 1964 (86 Stat. 697, as amended; 42 U.S.C. 2971d)), bears to the total population of all the States living at or below 125 per centum of the income poverty guidelines, as determined by the last preceding decennial census at the time each such sum is first appropriated. To the maximum extent practicable, program aides shall be hired from the indigenous target population. The provisions of this subsection shall not preclude the Secretary from developing educational materials and programs for persons in income ranges above the level designated in this subsection.

NUTRITION EDUCATION MATERIALS

Sec. 1426. In order to encourage nutrition education programs in the classrooms and lunchrooms of elementary and secondary schools, the Secretary shall, in consultation with appropriate officers in the Department of Health, Education, and Welfare, develop and distribute to State departments of education a comprehensive set of educational materials on food and nutrition education which shall be appropriate for all levels of the elementary and secondary education system.

REPORT TO CONGRESS

Sec. 1427. The Secretary shall submit a comprehensive plan for implementing the national food and human nutrition research and extension program provided for by this subtitle to Congress within one year after the effective date of this title. The plan shall include, but not be limited to, recommendations relating to research direction,
funding levels, needed facilities grants, and use of Federal facilities in cooperation with States and others, necessary to achieve the policy set forth in section 1421 of this title.

NUTRITIONAL STATUS MONITORING

Sec. 1428. (a) The Secretary and the Secretary of Health, Education, and Welfare shall formulate and submit to Congress, within ninety days after the date of enactment of this title, a proposal for a comprehensive nutritional status monitoring system, to include:

(1) an assessment system consisting of periodic surveys and continuous monitoring to determine: the extent of risk of nutrition-related health problems in the United States; which population groups or areas of the country face greatest risk; and the likely causes of risk and changes in the above risk factors over time;

(2) a surveillance system to identify remediable nutrition-related health risks to individuals or for local areas, in such a manner as to tie detection to direct intervention and treatment. Such system should draw on screening and other information from other health programs, including those funded under titles V, XVIII, and XIX of the Social Security Act and section 330 of the Public Health Service Act; and

(3) program evaluations to determine the adequacy, efficiency, effectiveness, and side effects of nutrition-related programs in reducing health risks to individuals and populations.

(b) The proposal shall provide for coordination of activities under existing authorities and contain recommendations for any additional authorities necessary to achieve a comprehensive monitoring system.

Subtitle E—Animal Health and Disease Research

PURPOSE

Sec. 1429. It is the purpose of this subtitle to promote the general welfare through the improved health and productivity of domestic livestock, poultry, aquatic animals, and other income-producing animals which are essential to the Nation's food supply and the welfare of producers and consumers of animal products; to improve the health of horses; to facilitate the effective treatment of, and, where possible, prevent, animal and poultry diseases in both domesticated and wild animals which, if not controlled, would be disastrous to the United States livestock and poultry industries and endanger the Nation's food supply; to minimize livestock and poultry losses due to transportation and handling; to protect human health through control of animal diseases transmissible to humans; to improve methods of controlling the births of predators and other animals; and otherwise to promote the general welfare through expanded programs of research and extension to improve animal health. It is recognized that the total animal health and disease research and extension efforts of the several State colleges and universities and of the Federal Government would be more effective if there were close coordination between such programs, and it is further recognized that colleges and universities having accredited colleges of veterinary medicine or departments of veterinary sciences or animal pathology, and similar units conducting animal health and disease research in the State agricultural experiment stations, are especially vital in training research workers in animal health.

7 USC 3192. SEC. 1430. When used in this subtitle—

(1) the term "eligible institution" means any college or university having an accredited college of veterinary medicine or a department of veterinary science or animal pathology, or a similar unit conducting animal health and disease research in a State agricultural experiment station;

(2) the term "dean" means the dean of a college or university which qualifies as an eligible institution;

(3) the term "director" means the director of a State agricultural experiment station which qualifies as an eligible institution;

(d) When the amount available under this section for allotment to any State on the basis of domestic livestock and poultry values and income exceeds the amount for which the eligible institution or institutions in the State are eligible on the basis of animal health research capacity, the excess may be used, at the discretion of the Secretary, for remodeling of facilities, construction of new facilities, or increase in staffing, proportionate to the need for added research capacity.

(e) Whenever a new college of veterinary medicine is established in a State and is accredited, the Secretary, after consultation with the
Regional colleges of veterinary medicine.

Appropriation authorization.
7 USC 3196.

(f) Whenever two or more States jointly establish an accredited regional college of veterinary medicine or jointly support an accredited college of veterinary medicine serving the States involved, the Secretary is authorized to make funds which are available to such States pursuant to subsection (b) (2) of this section available for such college in such amount that reflects the combined relative value of and income from domestic livestock and poultry in the cooperating States, such amount to be adjusted, as necessary, pursuant to the provisions of subsections (c) and (e) of this section.

APPROPRIATIONS FOR RESEARCH ON NATIONAL OR REGIONAL PROBLEMS

Sec. 1434. (a) There are hereby authorized to be appropriated such funds, not to exceed $15,000,000 annually, as Congress may determine necessary to support research on specific national or regional animal health or disease problems.

Funds available for allocation under the terms of this subtitle shall be paid to each State or eligible institution at such times and in such amounts as shall be determined by the Secretary. Funds shall remain available for payment of unliquidated obligations for one additional fiscal year following the year of appropriation.

WITHHOLDING OF APPROPRIATED FUNDS

Sec. 1436. If the Secretary determines that a State is not entitled to receive its allocation of the annual appropriation under section 1433 of this title because of its failure to satisfy requirements of this subtitle or regulations issued under it, the Secretary shall withhold such amount. The facts and reasons concerning the determination and withholding shall be reported to the President; and the amount involved shall be kept separate in the Treasury until the close of the next Congress. If the next Congress does not direct such sum to be paid, it shall be carried to surplus.

REQUIREMENTS FOR USE OF FUNDS

No portion of such moneys shall be applied, directly or indirectly, to the purchase, erection, preservation, or repair of any building or buildings, or the purchase or rental of land, or in college course teaching, lectures in college, or any other purpose not specified in this section. It shall be the duty of such institution, annually, on or about the first day of January, to make to the Governor of the State in which it is located a full and detailed report of its operations in extension work, including a detailed statement of receipts and expenditures from all sources for this purpose, a copy of which report shall be sent to the Secretary.

(f) If the Secretary finds that an eligible institution is not entitled to receive its share of the annual appropriation, the facts and reasons therefor shall be reported to the President, and the amount involved shall be kept separate in the Treasury until the expiration of the next Congress in order that the institution may, if it should so desire, appeal to Congress from the determination of the Secretary. Plains area as described in section 16(b) of the Soil Conservation and Domestic Allotment Act (49 Stat. 1151, as amended; 16 U.S.C. 590p(b)) to reduce runoff, soil and water erosion, and otherwise to promote the conservation of soil and water resources in such area through the conversion of cropland from soil depleting uses to conserving uses including the production of soil conserving cover crops.

(b) To effectuate the purposes of the program, the Secretary may enter into an agreement for a two-year period with an owner or operator as described in subsection (a) whereby the owner or operator shall agree to devote to a soil conserving cover crop a specifically designated acreage of cropland on the farm up to 50 per centum of the acreage which had been planted to any soil depleting crop or crops in any of the two years preceding the date of the agreement. The agreement shall be renewable for annual periods thereafter subject to the mutual agreement of the owner or operator and the Secretary. In such agreement, the owner or operator shall agree (1) to plant a legume, or if not adapted to such area, an annual, biennial, or a perennial cover crop, as specified in the agreement; (2) to divert from production such portion of one or more crops designated by the Secretary as the Secretary determines necessary to effectuate the purpose of the program; (3) not to harvest any crop from or graze the designated acreage during the agreement period, unless the Secretary determines that it is necessary to permit grazing or harvesting in order to alleviate damage, hardship, or suffering caused by severe drought, flood, or other natural disaster, and consents to such grazing or harvesting subject to an appropriate reduction in the rate of payment; (4) to give adequate assurance, as specified by the Secretary, that the land was not acquired for the purpose of placing it in the program: Provided, That the foregoing provision shall not prohibit the continuation of an agreement by a new owner if an agreement has once been entered into under this section nor prevent an owner or operator from placing a farm in the program if the farm was acquired by the owner to replace an eligible farm from which he was displaced because of its acquisition by any Federal, State, or other agency having the right of eminent domain; (5) to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder upon his violation of the agreement at any stage during the time he has control of the land if the Secretary determines that such violation is of such a nature as to warrant termination of the agreement, or to make refunds or accept such payment adjustments as the Secretary may deem appropriate if the Secretary determines that the violation by the owner or operator does not warrant termination of the agreement; (6) upon transfer of his right and interest in the farm, during the agreement period, to forfeit all rights to further payments under the agreement and refund to the United States all payments received thereunder unless the transferee of any such land agrees with the Secretary to assume all obligations of the agreement; (7) not to adopt any practice specified by the Secretary in the agreement as a practice which would tend to defeat the purposes of the agreement; and (8) to such additional provisions as the Secretary determines are desirable to effectuate the purposes of the program or to facilitate the practical administration of the program, including such measures as the Secretary may deem appropriate to keep the designated acreage from eroding and free from weeds and rodents in accordance with good conservation systems.

(e) The Secretary may, to the extent the Secretary deems it desirable, provide by appropriate regulations for preservation of cropland, crop acreage, and allotment history applicable to acreage diverted from the production of crops to establish vegetative cover for the purpose of any Federal program under which such history is used as a basis for an allotment or other limitation or for participation in such program.

(f) In carrying out the program, the Secretary shall utilize the services of local, county, and State committees established under section 8 of the Soil Conservation and Domestic Allotment Act (49 Stat. 1149, as amended; 16 U.S.C. 590h) and the technical services of the Soil Conservation Service and soil and water conservation districts.

TITLE XVII—WHEAT AND WHEAT FOODS RESEARCH AND NUTRITION EDUCATION ACT

SHORT TITLE

SEC. 1701. This title may be cited as the "Wheat and Wheat Foods Research and Nutrition Education Act".

FINDINGS AND DECLARATION OF POLICY

SEC. 1702. (a) Wheat is basic to the American diet and the American economy. It is grown by thousands of farmers and consumed, in various forms, by millions of people in the United States.

(b) The size of the American wheat crop and how it is marketed and ultimately consumed determines whether many Americans receive adequate nourishment. Wheat has a strong impact on the Nation's well-being. Additional research on the optimal use of wheat products can improve the American diet. Consumer education about the nutritional value and economic use of wheat products can enhance the national welfare.

(c) It has long been recognized that it is in the national interest to have a regular, adequate, and high quality wheat supply. It would be extremely difficult, without an effective coordinated research and nutrition education effort, to accomplish this objective. A programed effort of research and nutrition education is of great importance to wheat producers, processors, end product manufacturers, and consumers.

(d) It is the purpose of this title and in the public interest to authorize and enable the creation of an orderly procedure, adequately financed through an assessment, for the development and initiation of an effective and continuous coordinated program of research and nutrition education, designed to improve and enhance the quality, and make the most efficient use, of American wheat, processed wheat, and wheat end products to ensure an adequate diet for the people of the
United States. The maximum rate of assessment authorized hereunder represents an infinitesimal proportion of the overall cost of manufacturing wheat end products. Therefore, such assessment will not significantly affect the retail prices of those products. Furthermore, any price effect will be more than offset by the increased efficiency in end product manufacture and increased consumer acceptance, due to nutritional improvements in wheat products, which may be expected to follow from adoption of a plan under this title. Nothing in this title shall be construed to provide for control of production or otherwise limit the right of individual wheat producers to produce wheat.

Sec. 1706. Any order issued pursuant to this title shall contain such terms and conditions as to provide—

(a) for the establishment and appointment by the Secretary of a Wheat Industry Council which shall consist of not more than twenty members and alternates therefor, and for the definition of its powers and duties which shall include only the powers enumerated in this section, and shall specifically include the powers to (1) administer such order in accordance with its terms and provisions, (2) make rules and regulations to effectuate the terms and provisions of such order, (3) receive, investigate, and report to the Secretary complaints of violations of such order, and (4) recommend to the Secretary amendments to such order. Such assessment shall be calculated and set aside on the books and records of the end product manufacturer at the time of each purchase or intra-company transfer of processed wheat, and shall be remitted to the Council in the manner prescribed by the order. In order to enable end product manufacturers to calculate the amount of processed wheat they have purchased, persons selling or transferring processed wheat in combination with other ingredients to such end product manufacturers for use in the manufacture of end products, shall disclose to such end product manufacturers, as prescribed by the Secretary in the order, the amount or proportion of processed wheat contained in such products. The rate of assessment shall not exceed five cents per hundredweight of processed wheat purchased or transferred. The Secretary may maintain a suit against any person subject to such assessment for the collection of such assessment, and the several district courts of the United States are hereby vested with jurisdiction to entertain such suits regardless of the amount in controversy;

(f) that the Council shall maintain such books and records, which shall be available to the Secretary for inspection and audit, and prepare and submit such reports from time to time, to the Secretary as the Secretary may prescribe, and for appropriate accounting by the Council, with respect to the receipt and disbursement of all funds entrusted to it;

(g) that the Council, with the approval of the Secretary, may enter into contracts or agreements for the development and con-

(h) that the Council, with the approval of the Secretary, may invest, pending disbursement pursuant to a plan or project, funds collected through assessments authorized under this title in, and only in, obligations of the United States or any agency thereof, in general obligations of any State or any political subdivision thereof, in any interest-bearing account or certificate of deposit of a bank which is a member of the Federal Reserve System, or in obligations fully guaranteed as to principal and interest by the United States;

(i) that no funds collected by the Council under the order shall in any manner be used for the purpose of influencing governmental policy or action, except as provided by clause (a) (4) of this section;

Qualified end product manufacturers may register with the Secretary by mail to vote in such referendum during a period ending not less than thirty days prior to the date of the referendum. Within ten days thereafter, the Secretary shall determine which end product manufacturers are eligible to vote in such referendum and cause to be published the list of such eligible voters. The Secretary shall issue ballots to all such persons who have so registered and been declared eligible to vote.
order issued pursuant to this title shall be effective unless the Secretary determines (1) that votes were cast by at least 50 per centum of such registered end product manufacturers, and (2) that the issuance of such order is approved or favored by not less than two-thirds of the end product manufacturers voting in such referendum or by a majority of the end product manufacturers voting in such referendum if such majority manufactured end products containing not less than two-thirds of the total processed wheat contained in all end products manufactured by those voting in the referendum, during the representative period defined by the Secretary: Provided, That at the time of the registration provided under this section each end product manufacturer so registering shall certify to the Secretary the amount of processed wheat contained in the end products manufactured by such end product manufacturer during such representative period. The Secretary shall be reimbursed from assessments collected by the Council for any expenses incurred for the conduct of the referendum. Sec. 1709. (a) Subsequent to the approval by the Secretary of the annual budget of the Council or amendments thereto, a summary of such budget or amendments thereto, including a brief general description of the proposed research and nutrition education programs contemplated therein, shall be published in the Federal Register. All end product manufacturers not exempt hereunder shall have sixty days from the date of such publication within which to elect, under such conditions as the Secretary may prescribe, by so indicating to the Council in writing, by registered or certified mail, to reserve the right to seek refunds under subsection (b) of this section. Only those end product manufacturers who make such an election, under the described procedure, shall be eligible for refunds of assessments paid during the one-year period immediately following the expiration of such sixty-day period.

(b) Notwithstanding any other provision of this title, any end product manufacturer who has been subject to and has paid an assessment, but who has reserved the right, under subsection (a) of this section, to seek a refund, and who is not in favor of supporting the programs as provided for herein, shall have the right to demand and receive from the Council a refund of such assessment: Provided, That such demand shall be made by such end product manufacturer in accordance with regulations, and on a form and within a time period, prescribed by the Council and approved by the Secretary and upon submission of proof satisfactory to the Council that the end product manufacturer paid the assessment for which refund is sought, and any such refund shall be made within sixty days after demand is received therefor.

The petitioner shall thereupon be
given an opportunity for a hearing upon such petition, in accordance with regulations issued by the Secretary. After such hearing, the Secretary shall make a ruling upon the prayer of such petition which shall be final, if in accordance with law.

(b) The district courts of the United States in any district in which such person is an inhabitant, or has his principal place of business, are hereby vested with jurisdiction to review such ruling, provided a complaint for that purpose is filed within twenty days from the date of the entry of such ruling. Service of process in such proceedings may be had upon the Secretary by delivering a copy of the complaint to the Secretary. If the court determines that such ruling is not in accordance with law, it shall remand such proceedings to the Secretary with directions either (1) to make such ruling as the court shall determine to be in accordance with law, or (2) to take such further proceedings as, in its opinion, the law requires.

ENFORCEMENT

Jurisdiction.

Any civil action authorized to be brought under this title shall be referred to the Attorney General for appropriate action: Provided, That nothing in this title shall be construed as requiring the Secretary to refer to the Attorney General minor violations of this title whenever the Secretary believes that the administration and enforcement of the program would be adequately served by suitable written notice or warning to any person committing such violation.

(b) Any end product manufacturer or other person who willfully violates any provision of any order issued by the Secretary under this title, or who willfully fails or refuses to remit any assessment or fee duly required thereunder, shall be liable to a penalty of not more than $1,000 for each such offense which shall accrue to the United States and may be recovered in a civil suit brought by the United States.

(b) The Secretary may conduct a referendum at any time, and shall hold a referendum on request of 10 per centum or more of the number of end product manufacturers subject to the order, to determine whether such manufacturers favor the termination or suspension of the order, and the Secretary shall suspend or terminate such order within six months after the Secretary determines that suspension or termination of the order is approved or favored by a majority of the end product manufacturers voting in such referendum who, during a representative period determined by the Secretary, have been engaged in the manufacture of end products or by end product manufacturers who produced end products con-
taining more than 50 per centum of the total processed wheat contained in all end products manufactured during such period by the end product manufacturers voting in the referendum.

(c) The termination or suspension of any order, or any provision thereof, shall not be considered an order within the meaning of this title.

INVESTIGATIONS: POWER TO SUBPENA AND TAKE OATHS AND AFFIRMATIONS: AID OF COURTS

SEC. 1713. The Secretary may make such investigations as the Secretary deems necessary for the effective administration of this title or to determine whether any person subject to the provisions of this title has engaged or is about to engage in any acts or practices which constitute or will constitute a violation of any provisions of this title, or of any order, or rule or regulation issued under this title. For the purpose of such investigation, the Secretary is empowered to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence and require the production of any books, papers, and documents which are relevant to the inquiry. Such attendance of witnesses and the production of any such records may be required from any place in the United States. In case of contumacy by, or refusal to obey a subpena to, any person, the Secretary may invoke the aid of any court of the United States within the jurisdiction of which such investigation or proceeding is carried on, or where such person resides or carries on business, in requiring the attendance and testimony of witnesses and the production of books, papers, and documents; and such court may issue an order requiring such person to appear before the Secretary, there to produce records, if so ordered, or to give testimony touching the matter under investigation. Any failure to obey such order of the court may be punished by such court as a contempt thereof. All process in any such case may be served in the judicial district whereof such person is an inhabitant or wherever such person may be found.

The Secretary shall certify any organization which the Secretary finds to be eligible under this section and the Secretary's determination as to eligibility shall be final. TITLE I—PURPOSE AND POLICY; DECLARATION OF CONGRESSIONAL INTENT IN RESPECT TO CONTINUED PARTICIPATION OF THE UNITED STATES GOVERNMENT IN INTERNATIONAL FINANCIAL INSTITUTIONS FOSTERING ECONOMIC DEVELOPMENT IN LESS DEVELOPED COUNTRIES

Sec. 101. (a) It is the sense of the Congress that—

(1) for humanitarian, economic, and political reasons, it is in the national interest of the United States to assist in fostering economic development in the less developed countries of this world;

(2) the development-oriented international financial institutions have proved themselves capable of playing a significant role in assisting economic development by providing to less developed countries access to capital and technical assistance and soliciting from them maximum self-help and mutual cooperation;

(3) this has been achieved with minimal risk of financial loss to contributing countries;

(4) such institutions have proved to be an effective mechanism for sharing the burden among developed countries of stimulating economic development in the less developed world; and

(5) although continued United States participation in the international financial institutions is an important part of efforts by the United States to assist less developed countries, more of this burden should be shared by other developed countries. As a step in that direction, in future negotiations, the United States should work toward aggregate contributions to future replenishments to international financial institutions covered by this Act not to exceed 25 per centum.

Public Law 95-124
95th Congress

An Act

To reduce the hazards of earthquakes, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.
That this Act may be cited as the "Earthquake Hazards Reduction Act of 1977".

SEC. 2. FINDINGS.
The Congress finds and declares the following:

(1) All 50 States are vulnerable to the hazards of earthquakes, and at least 39 of them are subject to major or moderate seismic risk, including Alaska, California, Hawaii, Illinois, Massachusetts, Missouri, Montana, Nevada, New Jersey, New York, South Carolina, Utah, and Washington. A large portion of the population of the United States lives in areas vulnerable to earthquake hazards.

(2) Earthquakes have caused, and can cause in the future, enormous loss of life, injury, destruction of property, and economic and social disruption. With respect to future earthquakes, such loss, destruction, and disruption can be substantially reduced through the development and implementation of earthquake hazards reduction measures, including (A) improved design and construction methods and practices, (B) land-use controls and redevelopment, (C) prediction techniques and early-warning systems, (D) coordinated emergency preparedness plans, and (E) public education and involvement programs.

(3) An expertly staffed and adequately financed earthquake hazards reduction program, based on Federal, State, local, and private research, planning, decisionmaking, and contributions would reduce the risk of such loss, destruction, and disruption in seismic areas by an amount far greater than the cost of such program.

(4) A well-funded seismological research program in earthquake prediction could provide data adequate for the design of an operational system that could predict accurately the time, place, magnitude, and physical effects of earthquakes in selected areas of the United States.

(5) An operational earthquake prediction system can produce significant social, economic, legal, and political consequences.

(6) There is a scientific basis for hypothesizing that major earthquakes may be moderated, in at least some seismic areas, by application of the findings of earthquake control and seismological research.

(7) The implementation of earthquake hazards reduction measures would, as an added benefit, also reduce the risk of loss, destruction, and disruption from other natural hazards and man-made hazards, including hurricanes, tornadoes, accidents, explosions, landslides, building and structural cave-ins, and fires.

(8) Reduction of loss, destruction, and disruption from earthquakes will depend on the actions of individuals, and organiza-
tions in the private sector and governmental units at Federal, State, and local levels. The current capability to transfer knowledge and information to these sectors is insufficient. Improved mechanisms are needed to translate existing information and research findings into reasonable and usable specifications, criteria, and practices so that individuals, organizations, and governmental units may make informed decisions and take appropriate actions.

(9) Severe earthquakes are a worldwide problem. Since damaging earthquakes occur infrequently in any one nation, international cooperation is desirable for mutual learning from limited experiences.

(10) An effective Federal program in earthquake hazards reduction will require input from and review by persons outside the Federal Government expert in the sciences of earthquake hazards reduction and in the practical application of earthquake hazards reduction measures.

SEC. 3. PURPOSE.

It is the purpose of the Congress in this Act to reduce the risks of life and property from future earthquakes in the United States through the establishment and maintenance of an effective earthquake hazards reduction program.

SEC. 4. DEFINITIONS.

As used in this Act, unless the context otherwise requires:

(1) The term "includes" and variants thereof should be read as if the phrase "but is not limited to" were also set forth.

(2) The term "program" means the earthquake hazards reduction program established under section 5.

(3) The term "seismic" and variants thereof mean having to do with, or caused by earthquakes.

(4) The term "State" means each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Mariana Islands, and any other territory or possession of the United States.

(5) The term "United States" means, when used in a geographical sense, all of the States as defined in section 4(4).

- **Model codes.**
  
  (3) the development, publication, and promotion, in conjunction with State and local officials and professional organizations, of model codes and other means to coordinate information about seismic risk with land-use policy decisions and building activity;

- **Earthquake-related issues, understanding.**
  
  (4) the development, in areas of seismic risk, of improved understanding of, and capability with respect to, earthquake-related issues, including methods of controlling the risks from earthquakes, planning to prevent such risks, disseminating warnings of earthquakes, organizing emergency services, and planning for reconstruction and redevelopment after an earthquake;

- **Research.**
  
  (5) the education of the public, including State and local officials, as to earthquake phenomena, the identification of locations and structures which are especially susceptible to earthquake damage, ways to reduce the adverse consequences of an earthquake, and related matters;

  (6) the development of research on—

   (A) ways to increase the use of existing scientific and engineering knowledge to mitigate earthquake hazards;

   (B) the social, economic, legal, and political consequences of earthquake prediction; and

  (7) the development of basic and applied research leading to a better understanding of the control or alteration of seismic phenomena.
(d) PARTICIPATION.—In assigning the role and responsibility of Federal departments, agencies, and entities under subsection (b)(8)(B), the President shall, where appropriate, include the United States Geological Survey, the National Science Foundation, the Department of Defense, the Department of Housing and Urban Development, the National Aeronautics and Space Administration, the National Oceanic and Atmospheric Administration, the National Bureau of Standards, the Energy Research and Development Administration, the Nuclear Regulatory Commission, and the National Fire Prevention and Control Administration.

(e) RESEARCH ELEMENTS.—The research elements of the program shall include—

(1) research into the basic causes and mechanisms of earthquakes;
(2) development of methods to predict the time, place, and magnitude of future earthquakes;
(3) development of an understanding of the circumstances in which earthquakes might be artificially induced by the injection of fluids in deep wells, by the impoundment of reservoirs, or by other means;
(4) evaluation of methods that may lead to the development of a capability to modify or control earthquakes in certain regions;
(5) development of information and guidelines for zoning land in light of seismic risk in all parts of the United States and preparation of seismic risk analyses useful for emergency planning and community preparedness;
(6) development of techniques for the delineation and evaluation of the political effects of earthquakes, and their application on a regional basis;
(7) development of methods for planning, design, construction, rehabilitation, and utilization of manmade works so as to effectively resist the hazards imposed by earthquakes;

(9) studies of foreign experience with all aspects of earthquakes.

(f) IMPLEMENTATION PLAN.—The President shall develop, through the Federal agency, department, or entity designated under subsection (b)(1), an implementation plan which shall set year-by-year targets through at least 1980, and shall specify the roles for Federal agencies, and recommended appropriate roles for State and local units of government, individuals, and private organizations, in carrying out the implementation plan. The plan shall provide for—

(1) the development of measures to be taken with respect to preparing for earthquakes, evaluation of prediction techniques and actual predictions of earthquakes, warning the residents of an area that an earthquake may occur, and ensuring that a comprehensive response is made to the occurrence of an earthquake;

When the implementation plan developed by the President under this section contemplates or proposes specific action to be taken by any Federal agency, department, or entity, and, at the end of the 30-day period beginning on the date the President submits such plan to the appropriate authorizing committees of the Congress any such action has not been initiated, the President shall file with such committees a report explaining, in detail, the reasons why such action has not been initiated.

(g) STATE ASSISTANCE.—In making assistance available to the States under the Disaster Relief Act of 1974 (42 U.S.C. 5121 et seq.), the President may make such assistance available to further the purposes of this Act, including making available to the States the results of research and other activities conducted under this Act.

(2) by inserting “only for such funds approved for distribution in fiscal years 1975, 1976, and 1977” after “adjusted” in the first sentence.

(e) Section 106(d) of such Act is amended to read as follows:
“(d) (1) Any portion of the amount allocated to metropolitan areas under the first sentence of subsection (a) which remains after the allocation of grants to metropolitan cities and urban counties in accordance with subsection (b) and any amounts added in accordance with the provisions of section 103(a) (2) shall be allocated by the Secretary, first, for grants to metropolitan cities, urban counties, and other units of general local government within metropolitan areas to meet their hold-harmless needs as determined under subsections (g) and (h), and, second, in accordance with the provisions of paragraph (2).
“(2) Any portion of such amounts which remains after applying the provisions of paragraph (1) shall be utilized by the Secretary for grants to units of general local government within metropolitan areas (other than metropolitan cities and urban counties), and States for use within metropolitan areas, allocating for the metropolitan areas of each State the greater of an amount that bears the same ratio to the allocation for such areas of all States available under this paragraph as either—

“(A) the average of the ratios between—

“(i) the population of the metropolitan areas in that State and the population of the metropolitan areas of all States;
“(ii) the extent of poverty in the metropolitan areas in that State and the extent of poverty in the metropolitan areas of all States; and
“(iii) the extent of housing overcrowding in the metropolitan areas in that State and the extent of housing overcrowding in the metropolitan areas of all States; or

“(B) the average of the ratios between—

“(i) the age of housing in the metropolitan areas in that State and the age of housing in the metropolitan areas of all States;
“(ii) the extent of poverty in the metropolitan areas in that State and the extent of poverty in the metropolitan areas of all States; and
“(iii) the population of the metropolitan areas in that State and the population of the metropolitan areas of all States.

In determining the average of the ratios under subparagraph (A), the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under this paragraph and the total of the amounts available under such paragraph, make a pro rata reduction of each amount allocated to the metropolitan areas in each State under such paragraph so that the metropolitan areas in each State will receive an amount which represents the same percentage of the total amount available under such paragraph as the percentage which the metropolitan areas of the same State would have received under such paragraph if the total amount available under that paragraph had equaled the total amount which was allocated under that paragraph.

“(3) If the Secretary approves a grant under paragraph (2) to a unit of general local government which has a comprehensive community development program with provision for lower-income housing, the Secretary may make a multiyear commitment, up to three years, to any such unit of general local government for specified grant amounts, subject to the availability of appropriations. In determining whether to make such a commitment to a unit of general local government, the Secretary shall give special consideration to those communities presently carrying out comprehensive community development programs, which are subject to the provisions of subsection (h)(2), before making new commitments. In making grants under paragraph (2), the Secretary shall establish for each participating unit of general local government an annual grant at an amount meaningful to the size of
the unit and the program identified, and shall consider such factors as
the unit’s engaging in economic redevelopment activities, past per-
formance of the unit in community development activities, prior and
present funding levels under this title, the function of the unit as a
regional center of economic development and activity, impact on the
unit’s growth of national policy or direct Federal program decisions,
the potential for having increased employment within such unit as a
result of community development activity, the physical and economic
deterioration within the unit, the age of housing stock and the extent
of poverty within the unit, the extent to which the unit’s activity or
program of activities is necessary to alleviate a serious threat to health
or safety, the capacity of the unit to carry out such programs, and any
other factors deemed, by the Secretary, to be relevant to carrying out
the purposes of this title. The Secretary shall make grants under para-
graph (2) in such a manner as to insure that a reasonable proportion
of grants is available to applicants which are not seeking funding for
comprehensive community development programs. The Secretary may
accept and approve commitments for annual grants based on compre-
sensive community development programs commencing in future fiscal
years subject only to the availability of appropriations. In computing
amounts under paragraph (2), there shall be excluded metropolitan
cities, urban counties, Indian tribes, and units of general local govern-
ment which are entitled to hold-harmless grants pursuant to
subsection (h).”.

42 USC 5306. (f) Section 106(e) of such Act is amended—

(1) by striking out “during such program period” in the first
sentence and inserting in lieu thereof “within a reasonable time”; and

“(f) (1) Of the amount approved in an appropriation Act under
section 103(a) for grants in any year (excluding the amount provided
for use in accordance with sections 103(a)(2) and 107), 20 per centum
shall be allocated by the Secretary—

“A(1) first, for grants to units of general local government out-
side of metropolitan areas to meet their hold-harmless needs as
determined under subsection (h); and

“B(2) second, any portion of such amount which remains after
applying the provisions of subparagraph (A) shall be utilized by
the Secretary for grants to units of general local government out-
side of metropolitan areas and States for use outside the metro-
politan areas, allocating for the nonmetropolitan areas of each
State the greater of an amount that bears the same ratio to the
allocation for such areas of all States available under this sub-
paragraph as either—

(i) the average of the ratios between—

“I(1) the population of the nonmetropolitan areas in
that State and the population of the nonmetropolitan
areas of all States;

“II(2) the extent of poverty in the nonmetropolitan
areas in that State and the extent of poverty in the non-
metropolitan areas of all States; and

“III(3) the extent of housing overcrowding in the
nonmetropolitan areas in that State and the extent of
housing overcrowding in the nonmetropolitan areas of all States; or

“(ii) the average of the ratios between—

“(I) the age of housing in the nonmetropolitan areas in that State and the age of housing in the nonmetropolitan areas of all States;

“(II) the extent of poverty in the nonmetropolitan areas in that State and the extent of poverty in the nonmetropolitan areas of all States; and

“(III) the population of the nonmetropolitan areas in that State and the population of the nonmetropolitan areas of all States.

In determining the average of the ratios under clause (i) of subparagraph (B) the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under clause (ii) of subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under subparagraph (B) and the total of the amounts available under such subparagraph, make a pro rata reduction of each amount allocated to the nonmetropolitan areas in each State under such subparagraph so that the nonmetropolitan areas in each State will receive an amount which represents the same percentage of the total amount available under such subparagraph as the percentage which the nonmetropolitan areas of the same State would have received under such subparagraph if the total amount available under such subparagraph had equaled the total amount which was allocated under such subparagraph.

“(2) If the Secretary approves a grant under paragraph (1)(B) to a unit of general local government which has a comprehensive community development program with provision for lower-income housing, the Secretary may make a multiyear commitment, up to three years, to any such unit of general local government for specified grant amounts, subject to the availability of appropriations. In determining whether to make such a commitment to a unit of general local government, the Secretary shall give special consideration to those communities presently carrying out comprehensive community development programs, which are subject to the provisions of subsection (h)(2), before making new commitments. In making grants under paragraph (1)(B), the Secretary shall establish for each participating unit of general local government an annual grant at an amount meaningful to the size of the unit and the program identified, and shall consider such factors as the unit’s engaging in economic redevelopment activities, past performance of the unit in community development activities, prior and present funding levels under this title, the function of the unit as a regional center of economic development and activity, impact on the unit’s growth of national policy or direct Federal program decisions, the potential for having increased employment within such unit as a result of community development activity, the physical and economic deterioration within the unit, the age of housing stock and the extent of poverty within the unit, the extent to which the unit’s activity or program activities is necessary to alleviate a serious threat to health or safety, the capacity of the unit to carry out such programs, and any other factors deemed, by the Secretary,
to be relevant to carrying out the purposes of this title. The Secretary shall make grants under paragraph (1) (B) in such a manner as to ensure that a reasonable proportion of grants is available to applicants which are not seeking funding for comprehensive community development programs. The Secretary may accept and approve commitments for annual grants based on comprehensive community development programs commencing in future fiscal years subject only to the availability of appropriations. In computing amounts under paragraph (1) (B), three shall be excluded units of general local government which are entitled to hold-harmless grants pursuant to subsection (h) and Indian tribes;  

(2) by redesignating paragraph (2) as paragraph (3);  

(3) by striking out “during such period” in paragraph (3), as redesignated, and inserting in lieu thereof “within a reasonable time”; and  

(4) by striking “during the same period” in such paragraph.

As used in this subsection, the term ‘impaction’ means the intensity, measured in terms of absolute numbers and proportions of each needs factor.”.

(l) Section 106 of such Act is amended by adding the following new subsection at the end thereof:  

“(m) In the event that the total amount available for distribution under this section in fiscal year 1978 or fiscal year 1979 is insufficient to meet all basic grant and hold-harmless entitlement needs as provided pursuant to this section, and funds are not otherwise appropriated to meet such deficiency, the Secretary shall meet the deficiency through a pro rata reduction of (1) all basic grant and hold-harmless entitlement amounts, and (2) funds available under section 106(d) (2)

(b) Title I of such Act is amended by adding the following new section at the end thereof:

“URBAN DEVELOPMENT ACTION GRANTS

SEC. 119. (a) In order to promote the primary objective of this title of the development of viable urban communities, of the total amount of authority approved in appropriation Acts under section 103(c), the Secretary is authorized to make urban development action grants to severely distressed cities and urban counties to help alleviate physical and economic deterioration through reclamation of neighborhoods having excessive housing abandonment or deterioration, and through community revitalization in areas with population outmigration or a stagnating or declining tax base. Grants made under this section shall be for the support of severely distressed cities and urban counties that require increased public and private assistance in addition to the assistance otherwise made available under this title and other forms of Federal assistance.

(b) Urban development action grants shall be made only to cities and urban counties that have, in the determination of the Secretary, demonstrated results in providing housing for persons of low- and moderate-income and in providing equal opportunity in housing and employment for low- and moderate-income persons and members of minority groups. The Secretary shall issue regulations establishing criteria in accordance with the preceding sentence and setting forth minimum standards for determining the level of physical and economic distress of cities and urban counties for eligibility for such grants, which standards shall take into account factors such as the age and condition of housing stock, including residential abandonment; average income; population outmigration; and stagnating or declining tax base.

(c) Applications for assistance under this section shall—

“(1) include documentation of eligibility for grants in accordance with the standards described in subsection (b);

“(2) describe a concentrated urban development action program setting forth a comprehensive action plan and strategy to alleviate physical and economic distress through systematic change, which program shall be consistent with the community development program described in section 104(a)(2) and the housing assistance plan described in section 104(a)(4), and, where it exists and is in effect, the overall economic development plan as provided for in section 202(b)(10) of the Public Works and Economic Development Act of 1965, but only in the event and after such time as such plans are required by law or administrative action to be consistent with community development programs. Such program shall be developed as to take advantage of
unique opportunities to attract private investment, stimulate investment in restoration of deteriorated or abandoned housing stock, or solve critical problems resulting from population out-migration or a stagnating or declining tax base;

"(3) include the activities to be undertaken in the urban development action program, together with the estimated costs and general locations of such activities;

"(4) indicate public and private resources which are expected to be made available toward achieving the action plan and strategy described in paragraph (2); and

"(5) provide satisfactory assurances that, prior to submission of its application, it has (A) prepared and followed a written citizen participation plan, which plan provides the opportunity for citizens to participate in the development of the application, with special attention to measures to encourage the statement of views and the submission of proposals by low- and moderate-income people and residents of blighted neighborhoods, and to scheduling hearings at times and locations which are convenient to all citizens, (B) provided citizens with adequate information concerning the amount of funds available for proposed activities under this section, the range of activities that may be undertaken, and other important program requirements, and (C) held public hearings to obtain the views of citizens on needs which may be dealt with under this section.

"(d) To the extent that the application requirements of section 104(a)(4) have been satisfied in connection with a grant made pursuant to section 106, such requirements shall be determined to have been met for purposes of this section.

"(e) In establishing criteria for the purpose of making grants under this section the Secretary shall establish selection criteria which must include (1) as the primary criterion, the comparative degree of physical and economic distress among applicants, as measured (in the case of a metropolitan city or urban county) by the differences in the extent of growth lag, the extent of poverty, and the adjusted age of housing in the metropolitan city or urban county; (2) other factors determined to be relevant by the Secretary in assessing the comparative degree of physical and economic deterioration in cities and urban counties; and (3) at least the following other criteria: demonstrated performance of the city or urban county in housing and community development programs; impact of the proposed urban development action program on the special problems of low- and moderate-income persons and minorities; extent of financial participation by other public or by private entities; extent of assistance to be made available by the State; impact on the physical, fiscal, or economic deterioration of the city or urban county; extent to which the program describes activities representing a special or unique opportunity to meet local priority needs or the objectives of this title; and feasibility of accomplishing the program in a timely fashion within the grant amount available.

"(f) In addition to activities authorized under section 105(a), an urban development action program may also include such additional community development and neighborhood development and conservation activities as the Secretary may determine to be consistent with the purposes of this section.

"(g) No assistance shall be provided for business loans or industrial development under this section unless the Secretary shall first consult...
with and coordinate such assistance with other Federal agencies which make available funds for similar activities.

"(h) The Secretary shall, at least on an annual basis, make reviews and audits of recipients of grants pursuant to this section as necessary to determine the progress made in carrying out activities substantially in accordance with approved plans and timetables. The Secretary may adjust, reduce, or withdraw grant funds, or take other action as appropriate in accordance with the findings of such review and audits, except that funds already expended on eligible activities under this title shall not be recaptured or deducted from future grants made to the recipient.

"(i) No assistance may be provided under this section for projects intended to facilitate the relocation of industrial or commercial plants or facilities from one area to another, unless the Secretary finds that such relocation does not significantly and adversely affect the unemployment or economic base of the area from which such industrial or commercial plant or facility is to be relocated.

"(j) The Secretary shall allocate the amounts available for grants under this section in a manner which achieves a reasonable balance among programs that are designed primarily (1) to restore seriously deteriorated neighborhoods, (2) to reclaim for industrial purposes underutilized real property, and (3) to renew commercial employment centers.

"(k) Not less than 25 per centum of the funds made available for grants under this section shall be used for cities under fifty thousand population which are not central cities of a standard metropolitan statistical area.”.

(b) Section 2 of the Act of June 30, 1954 (68 Stat. 330), as amended, is further amended by (1) deleting “but not to exceed $10,000,000,” and (2) deleting all of the language beginning with the words “which amounts for each fiscal year” up to and including the words “calendar year 1974,”.

SEC. 102. Until the provisions of the covenant to establish a Commonwealth for the Northern Mariana Islands (90 Stat. 263) have been met and approved as required in section 1003(b) thereof, there is hereby authorized to be appropriated $13,515,000 for the government of the Northern Mariana Islands. When such conditions are met, the appropriations authorized in article VII, section 704, of said covenant shall become effective.

SEC. 103. For the rehabilitation and resettlement of Enewetak Atoll in the Trust Territory of the Pacific Islands there is hereby authorized to be appropriated $12,400,000 (July 1976 prices) plus or minus such amounts, if any, as may be justified by reason of ordinary fluctuations in construction costs as indicated by engineering cost indexes applicable to the types of construction involved.

SEC. 104. (a) In addition to appropriations authorized to compensate inhabitants of Rongelap Atoll and Utirik Atoll in the Trust Territory of the Pacific Islands for radiation exposure sustained by them as a result of a thermonuclear detonation at Bikini Atoll in the Marshall Islands on March 1, 1954, pursuant to the Act of August 22, 1964 (78 Stat. 598), effective October 1, 1977, there are authorized to be appropriated such amounts as may be necessary to carry out the provisions of this section and the Secretary of the Interior (hereafter in this section referred to as the “Secretary”) is authorized and directed to make the payments as hereafter provided in this paragraph to individuals, or to their heirs or legatees, as the case may be, who were on March 1, 1954, residents on Rongelap Atoll or Utirik Atoll in the Marshall Islands:

(1) The Secretary shall pay $25,000 to each such individual from whom the thyroid gland or a neurofibroma in the neck was surgically removed, or who has developed hypothyroidism, or who develops a radiation-related malignancy, such as leukemia.

(2) The Secretary shall pay $1,000 to each individual who, on such date, was a resident on Utirik Atoll.
(3) Where circumstances warrant, as he shall determine, the Secretary shall pay an amount not in excess of $25,000 as he determines to be an appropriate compassionate compensation to each such individual who has suffered any physical injury or harm from a radiation-related cause but who is not an individual described in paragraph (1).

(4) In addition to the payments provided in paragraphs (1), (2), and (3) of this subsection, the Secretary shall provide by appropriate means adequate medical care and treatment for any person who has a continuing need for the care and treatment of any radiation injury or illness directly related to the thermonuclear detonation referred to in paragraph (a) of this section. The costs of such medical care and treatment shall be assumed by the Administrator of the Energy Research and Development Administration.

(5) Not later than December 31, 1980, the Secretary shall report to the appropriate committees of the United States Congress for their consideration what, if any, additional compassionate compensation may be justified for those individuals continuing to suffer from injuries or illnesses directly related to radiation resulting from the thermonuclear detonation referred to in paragraph (a) of this section.

In the case of the demise of any individual entitled to receive payment under this section who expires before receiving such payment, the Secretary shall pay the amount which that individual would have been entitled to receive under this section to the heirs or legatees of such individual, in accordance with an appropriate method of distribution per stirpes, and not per capita. Where the demise of any individual eligible for payment under paragraph (1) or (3) supra is directly related to the thermonuclear detonation referred to in paragraph (a) of this section, the Secretary may make an additional compassionate payment not to exceed $100,000 to the heirs or legatees of such individual. In determining the amount of such payment the Secretary shall consider, but is not limited to, the following: any payments which the deceased has received or would have been eligible to receive under this section, and loss of support, services, or contributions to the heirs or legates.

(b) For the use of each of the island communities of Rongelap, Utirik, and Bikini Atolls there is authorized to be appropriated $100,000. Such funds are to be paid by the Secretary, in conjunction with guidelines to be established by the High Commissioner of the Trust Territory of the Pacific Islands, for such community purposes as the municipal councils of such island communities may direct.

(c) A payment made under the provisions of this section shall be in full settlement and discharge of all claims against the United States arising out of the thermonuclear detonation on March 1, 1954.

(d) The decisions of the Secretary in allowing or denying any claim for payment under this section shall be final and conclusive on all questions of law and fact and not subject to review by any other official of the United States, or by any court by mandamus or otherwise.

(e) The Secretary is authorized to make such rules and regulations as he determines necessary to carry out the provisions of this section.

SEC. 105. In addition to amounts heretofore authorized pursuant to the Micronesian Claims Act of 1971 (85 Stat. 96), there are hereby authorized to be appropriated to the Secretary of the Interior such sums as may be necessary to satisfy all adjudicated claims and final awards made by the Micronesian Claims Commission to date under
title I and title II of said 1971 Act, for full payment of such awards: Provided, That no sums appropriated pursuant to this section may be paid on awards pursuant to title I of said 1971 Act until, subsequent to the date of enactment of this section, the Government of Japan has provided to the Government of the Trust Territory of the Pacific Islands a contribution, which contribution may be in goods and services, which has a value as determined by the Secretary of the Interior equivalent to not less than 50 per centum of the total awards made pursuant to title I of said 1971 Act less $10,000,000 from such total: Provided further, That prior to making any payment on an award pursuant to either title I or title II of said 1971 Act, the Secretary shall review such award and determine whether any portion of such award constitutes interest not authorized to be awarded under the said 1971 Act and shall exclude from his payment such amounts as he determines constitute such interest. The Secretary's determination of the proportion of any award which constitutes such interest and the proportion which constitutes value shall be final and shall not be subject to judicial review.

TITLE II

Sec. 201. (a) There is hereby authorized to be appropriated to the Secretary of the Interior (hereinafter referred to as the Secretary), not to exceed $15,000,000 for a grant to the Government of Guam to assist in typhoon rehabilitation, upgrading and construction of public facilities, and maintenance of essential services.

(b) Funds provided under this Act may be used by Guam as its matching share for Federal programs and services.

(c) The Government of Guam in carrying out the purpose of this Act may utilize, to the extent practicable, the available services and facilities of agencies and instrumentalities of the United States Government on a reimbursable basis. Reimbursements may be credited to the appropriation or fund which provided the services and facilities. (d) The Secretary may place such stipulations as he deems appropriate on the use of funds appropriated pursuant to section 301(a).

Sec. 202. Section 2 of the Guam Development Fund Act of 1968 (82 Stat. 1172; 48 U.S.C. 1428) is amended by changing “Sec. 2." to “Sec. 2. (a)” and adding at the end thereof the following new subsection (b):

standing any other provision of law, the Legislature of Guam
may levy a separate tax on all taxpayers in an amount not to
exceed 10 per centum of their annual income tax obligation to the
Government of Guam.”

Sec. 294. (a) Notwithstanding any law or court decision to the con-

jurisdiction to review claims of persons, their heirs or legatees, from
whom interests in land on Guam were acquired other than through

TITLE IV

Sec. 401. The Secretary of the Interior is directed to submit to the Congress not later than January 1, 1978, a report on Federal programs available to the territories of the United States indicating in such report what programs are available to each territory, what additional programs would be of benefit to such territory if made available, what changes or modifications to each program should be made to improve the operation and effectiveness of each program and the estimated costs of such program. There is hereby authorized to be appropriated for fiscal year 1978 $50,000 to assist the Secretary in the preparation of this report.

(a) Notwithstanding any provision of law to the contrary, any department or agency of the Government of the United States which administers any Act of Congress which specifically provides for making grants to any Insular Area under which payments received may be used by such Insular Area only for certain specified purposes (other than direct payments to classes of individuals) may, acting through appropriate administrative authorities of such department or agency, consolidate any or all grants made to such area for any fiscal year or years.

(b) Any consolidated grant for any insular area shall not be less than the sum of all grants which such area would otherwise be entitled to receive for such year.

(c) The funds received under a consolidated grant shall be expended in furtherance of the programs and purposes authorized for any of the grants which are being consolidated, which are authorized under any of the Acts administered by the department or agency making the grant, and which would be applicable to grants for such programs and purposes in the absence of the consolidation, but the Insular Areas shall determine the proportion of the funds granted which shall be allocated to such programs and purposes.

(d) Each department or agency making grants-in-aid shall, by regulations published in the Federal Register, provide the method by which any Insular Area may submit (i) a single application for a consolidated grant for any fiscal year period, but not more than one such application for a consolidated grant shall be required by any department or agency unless notice of such requirement is transmitted to the appropriate committees of the United States Congress together with a complete explanation of the necessity for requiring such additional applications and (ii) a single report to such department or agency with respect to each such consolidated grant: Provided, That nothing in this paragraph shall preclude such department or agency from providing adequate procedures for accounting, auditing, evaluating, and reviewing any programs or activities receiving benefits from any consolidated grant. The administering authority of any department or agency, in its discretion, may (i) waive any requirement for matching funds otherwise required by law to be provided by the
Insular Area involved and (ii) waive the requirement that any Insular Area submit an application or report in writing with respect to any consolidated grant.

Part B of title XI of such Act is amended by adding after section 1170 the following new section:

“MEMORANDUMS OF UNDERSTANDING; FEDERAL-STATE RELATIONS
GENERAL

“SEC. 1171. (a) (1) Except as provided in paragraph (2), no determination made by a Professional Standards Review Organization pursuant to paragraphs (1) and (2) of section 1155(a) in connection with reviews shall constitute conclusive determinations under section 1158(c) for purposes of payment under title XIX, unless such organization has entered into a memorandum of understanding, approved by the Secretary, with the single State agency responsible for administering or supervising the administration of the State plan approved under title XIX for the State in which the organization is located (hereinafter in this section referred to as the 'State agency') for the purpose of delineating the relationship between the organization and the State agency and of providing for the exchange of data or information, and for administrative procedures, coordination mechanisms, and modification of the memorandum at any time that additional responsibility for review by the organization is authorized by the Secretary.

“(2) The requirement of paragraph (1) may be waived by the Secretary if (A) the State agency indicates to the Secretary that it does not wish to enter into a memorandum of understanding with the organization involved, or (B) the Secretary finds that the State agency has refused to negotiate in good faith or in a timely manner with the organization involved.
“(b) (1) The State agency may request a Professional Standards Review Organization which is entering into such a memorandum of understanding with the agency to include in the memorandum a specification of review goals or methods (additional to any such goals or methods contained in the organization’s formal plan) for the performance of the organization’s duties and functions under this part.

“(2) If the agency and the organization cannot reach agreement regarding the inclusion of any such requested specification, the Secretary shall review such specification and shall require that the specification be included in the memorandum to the extent that the Secretary determines that such specification of goals or methods (A) is consistent with the functions of the organization under this part and with the provisions of title XIX and the State’s plan approved under such title, and (B) does not seriously impact on the effectiveness and uniformity of the organization’s review of health care services paid for under title XVIII and title XIX of this Act.

“(c) Notwithstanding any other provision of this Act, the State agency may contract with any Professional Standards Review Organization located in the State for the performance of review responsibilities in addition to those performed pursuant to this part (and the cost of performance of such additional responsibilities is reimbursable as an expense of the State agency under section 1903(a)) if—

“(1) the State agency formally requests the performance of such additional responsibilities, and

“(2) the performance of such additional responsibilities is not inconsistent with this part and is provided for in an amendment to the State’s plan which is approved by the Secretary under title XIX.

“(d) (1) Each State agency may monitor the performance of review responsibilities by Professional Standards Review Organizations located within the State, in accordance with a State monitoring plan which is developed after review and comment by such organizations and is approved by the Secretary. The costs of activities of the State agency under and in accordance with such plan are reimbursable as an expense of the State agency under section 1903(a).

“(2) A monitoring plan developed and approved under paragraph (1) may include a specification of performance criteria for judging the effectiveness of the review performance of the Professional Standards Review Organizations. If the State agency and the Professional Standards Review Organizations cannot reach agreement regarding such criteria, the Secretary shall assist the agency and organizations in resolving the matters in dispute.

“(3) (A) Whenever a State agency monitoring the performance of review responsibilities by a Professional Standards Review Organization under a plan developed and approved under paragraph (1) submits to the Secretary reasonable documentation that the review determinations of such organization have caused an unreasonable and detrimental impact on total State expenditures under title XIX and on the appropriateness of care received by individuals under the State’s plan approved under such title, and requests the Secretary to act, the Secretary shall, within thirty days from the date of receipt of the documentation, make a determination as to the reasonableness of the allegation by the State agency. If the Secretary determines that the review determinations of such organization have caused an unreasonable and detrimental impact on total State expenditures under title XIX and on the appropriateness of care received by individuals under the State’s plan approved under such title, unless the Secretary determines that
the organization has taken appropriate corrective action, he shall immediately suspend such organization's authority in whole or in part under section 1158(e) to make conclusive determinations for purposes of payment under title XIX (and he may suspend such authority for purposes of payment under title XVIII) until he (i) reevaluates such organization's performance of the responsibilities involved and determines that such performance does not have such unreasonable and detrimental impact, or (ii) determines that the organization has taken appropriate corrective action. Any determination made by the Secretary under this subparagraph shall be final and shall not be subject to judicial review.

"(B) The Secretary shall notify the State agency submitting such documentation, and the organization involved, in writing, of his determination, any subsequent actions taken, and the basis thereof, and shall notify the appropriate committees of the United States House of Representatives and the Senate of any such documentation submitted and the actions taken.

"(e)(1) The Secretary shall in a timely manner establish procedures and mechanisms to govern his relationships with State agencies under this part (specifically including his relationships with such agencies in connection with their respective functions under the preceding provisions of this section). Such mechanisms shall include periodic consultation by the Secretary with State agency representatives and representatives of Professional Standards Review Organizations regarding relationships between such agencies and such organizations (including the appropriate exchange of data and information between such agencies and such organizations) and other problems of mutual concern, and such procedures shall permit the State agency to be represented on any project assessments conducted by the Secretary with respect to a Professional Standards Review Organization located within its State.

"(2) Each Professional Standards Review Organization shall provide to the State agency for the State in which it is located, upon request, data or information which the Secretary requires such organizations to report to him routinely on a periodic basis, and such other data or information as the Secretary authorizes to be disclosed.

"(3) (A) Section 1155(e)(1) of such Act is amended by striking out "of a hospital or other operating health care facility or organization" and inserting in lieu thereof "of a hospital (including any skilled nursing facility, as defined in section 1861(j), or intermediate care facility, as defined in section 1905(c), which is also a part of such hospital) or other operating health care facility or organization (other than such a skilled nursing facility or intermediate care facility which is not a part of a hospital)".

(B) Section 1155(a) of such Act is amended—

(i) by inserting "(except as provided in paragraph (7))" in paragraph (1) after "institutional and noninstitutional providers of health care services"; and

(ii) by inserting after paragraph (6) the following new paragraph:

"(7) (A) Except as provided in subparagraph (B), a Professional Standards Review Organization located in a State has the function and duty to assume responsibility for the review under paragraph (1) of professional activities in intermediate care facilities (as defined in section 1905(c)) and in public institutions for the mentally retarded (described in section 1905(d)(1)) only if (i) the Secretary finds, on the basis of such documentation as he may require from the State, that
the single State agency which administers or supervises the administration of the State plan approved under title XIX for that State is not performing effective review of the quality and necessity of health care services provided in such facilities and institutions, or (ii) the State requests such organization to assume such responsibility.

"(B) A Professional Standards Review Organization located in a State has the function and duty to assume responsibility for the review under paragraph (1) of professional activities in intermediate care facilities in the State that are also skilled nursing facilities (as defined in section 1861(j)), to the extent that the Secretary finds that the performance of such function by the single State agency (described in subparagraph (A)) for that State is inefficient."

"(e) Section 1160(b)(1) of such Act is amended by striking out "practitioner or provider" and inserting in lieu thereof "health care practitioner or hospital, or other health care facility, agency, or organization" each time it appears therein.

(f) Section 1163(a)(2) of such Act is amended to read as follows:

"(2) Members of the Council shall be appointed for a term of three years, except that the Secretary may provide, in the case of any terms scheduled to expire after January 1, 1978, for such shorter terms as will ensure that (on a continuing basis) the terms of no more than four members expire in any year. Members of the Council shall be eligible for reappointment."

(g) Section 1163 of such Act is amended by striking out subsection (f).

(h) Section 1166 of such Act is amended—

(1) by striking out "or (2)" in subsection (a) and inserting in lieu thereof "; (2)";

(2) by inserting the following immediately before the period at the end of subsection (a): "; or (3) in accordance with subsection (b)";

(3) by redesignating subsection (b) as subsection (c);

(4) by inserting the following new subsection immediately after subsection (a):

"(b) A Professional Standards Review Organization shall provide, in accordance with procedures established by the Secretary, data and information—

"(1) to assist Federal and State agencies recognized by the Secretary as having responsibility for identifying and investigating cases or patterns of fraud or abuse, which data and information shall be provided by such organization to such agencies at the request of such agencies at the discretion of such Organization on the basis of its findings with respect to evidence of fraud or abuse; and

"(2) to assist the Secretary, and such Federal and State agencies recognized by the Secretary as having health planning or related responsibilities under Federal or State law (including health systems agencies and State health planning and development agencies), in carrying out appropriate health care planning and related activities, which data and information shall be provided in such format and manner as may be prescribed by the Secretary or agreed upon by the responsible Federal and State agencies and such Organization, and shall be in the form of aggregate statistical data (without identifying any individual) on a geographic, institutional, or other basis reflecting the volume and frequency of services furnished, as well as the demographic characteristics of the population subject to review by such Organization."
The penalty provided in subsection (c) shall not apply to the disclosure of any data and information received under this subsection, except that such penalty shall apply to the disclosure (by the agency receiving such data and information) of any such data and information described in paragraph (1) unless such disclosure is made in a judicial, administrative, or other formal legal proceeding resulting from an investigation conducted by the agency receiving the data and information; and

(5) by inserting after subsection (c) (as so redesignated) the following new subsection:

(j) Section 1168 of such Act is amended by adding at the end thereof the following new sentence: "The Secretary shall make payments to Professional Standards Review Organizations (whether designated on a conditional basis or otherwise) from funds described in the first sentence of this section (without any requirement for the contribution of funds by any State or political subdivision thereof) for expenses incurred in the performance of duties by such Organizations."

“(i) if such reduction is due to the State's unsatisfactory or invalid showing made with respect to a calendar quarter beginning before January 1, 1977;

“(ii) before January 1, 1978;

“(iii) unless a notice of such reduction has been provided to the State at least 30 days before the date such reduction takes effect; or

“(iv) due to the State's unsatisfactory or invalid showing made with respect to a calendar quarter beginning after September 30, 1977, unless notice of such reduction has been provided to the State no later than the first day of the fourth calendar quarter following the calendar quarter with respect to which such showing was made.

Waiver.

“(B) The Secretary shall waive application of any reduction in the Federal medical assistance percentage of a State otherwise required to be imposed under paragraph (1) because a showing by the State, made under such paragraph with respect to a calendar quarter ending after January 1, 1977, and before October 1, 1977, is determined to be either unsatisfactory under such paragraph or invalid under paragraph (2), if the Secretary determines that the State's showing made under paragraph (1) with respect to the calendar quarter ending on December 31, 1977, is satisfactory under such paragraph and is valid under paragraph (2).

“(5) In the case of a State's unsatisfactory or invalid showing made with respect to a type of facility or institutional services in a calendar quarter, the per centum amount of the reduction of the State's Federal medical assistance percentage for that type of services under paragraph (1) is equal to 33⅓ per centum multiplied by a fraction, the denominator of which is equal to the total number of patients receiving that type of services in that quarter under the State plan in facilities or institutions for which a showing was required to be made under this subsection, and the numerator of which is equal to the number of
such patients receiving such type of services in that quarter in those facilities or institutions for which a satisfactory and valid showing was not made for that calendar quarter.

“(6) The Secretary shall submit to Congress, not later than sixty days after the end of such calendar quarter, a report on—

“(A) his determination as to whether or not each showing, made under paragraph (1) by a State with respect to the calendar quarter, has been found to be satisfactory under such paragraph;

“(B) his review (through onsite surveys and otherwise) under paragraph (2) of the validity of showings previously submitted by a State; and

Subparagraph (B) of paragraph (4) of section 1905 (g) of such Act, as added by this section, shall apply to any showing made by a State under such section with respect to a calendar quarter beginning on or after January 1, 1977.

(2) report to the Congress on June 1 of each calendar year with respect to such disclosures and the actions taken in regard thereto during the preceding calendar year.

(c) In the rules prescribed under subsection (b) of this section, the Administrator may identify specific positions of a nonpolicymaking nature within the Administration and provide that officers or employees occupying such positions shall be exempt from the requirements of this section.

An Act

To create the District Court for the Northern Mariana Islands, implementing article IV of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America.

Whereas section 401 of the Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America, approved by section 1 of the joint resolution of March 24, 1976 (Public Law 94–241; 90 Stat. 263), provides that the United States will establish a District Court for the Northern Mariana Islands: Now, therefore,

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) there is hereby established for and within the Northern Mariana Islands a court of record to be known as the District Court for the Northern Mariana Islands. The Northern Mariana Islands shall constitute a part of the same judicial circuit of the United States as Guam. Terms of court shall be held on Saipan and at such other places and at such times as the court may designate by rule or order.

(b) (1) The President shall, by and with the advice and consent of the Senate, appoint a judge for the District Court for the Northern Mariana Islands who shall hold office for the term of eight years and until his successor is chosen and qualified, unless sooner removed by the President for cause. The judge shall receive a salary payable by the United States which shall be at the rate prescribed for judges of the United States district courts.

(2) The Chief Judge of the Ninth Judicial Circuit of the United States may assign justices of the High Court of the Trust Territory of the Pacific Islands or judges of courts of record of the Northern Mariana Islands who are licensed attorneys in good standing or a circuit or district judge of the ninth circuit, including a judge of the District Court of Guam who is appointed by the President, or the Chief Justice of the United States may assign any other United States circuit or district judge with the consent of the judge so assigned and of the chief judge of his circuit to serve temporarily as a judge in the District Court for the Northern Mariana Islands whenever such an assignment is necessary for the proper dispatch of the business of the court. Such judges shall have all the powers of a judge of the District Court for the Northern Mariana Islands, including the power to appoint any person to a statutory position, or to designate a depository of funds or a newspaper for publication of legal notices.

(3) The President shall appoint, by and with the advice and consent of the Senate, a United States attorney and United States marshal for the Northern Mariana Islands to whose offices the provisions of chapters 35 and 37 of title 28, respectively, United States Code, shall apply.

(4) If the President appoints a judge for the District Court for the Northern Mariana Islands or a United States attorney or a United States marshal for the Northern Mariana Islands who at that time is serving in the same capacity in another district, the appointment shall, without prejudice to a subsequent appointment, be for the unexpired term of such judge or officer.
(c) The provisions of chapters 43 and 49 of title 28, United States Code, and the rules heretofore or hereafter promulgated and made effective by the Congress or the Supreme Court of the United States pursuant to titles 11, 18, 28, United States Code, shall apply to the District Court for the Northern Mariana Islands and appeals therefrom where appropriate, except as otherwise provided in articles IV and V of the covenant provided by the Act of March 24, 1976 (90 Stat. 263). The terms "attorney for the government" and "United States attorney" as used in the Federal Rules of Criminal Procedure (rule 54(e)) shall, when applicable to cases arising under the laws of the Northern Mariana Islands, include the attorney general of the Northern Mariana Islands or any other person or persons as may be authorized by the laws of the Northern Marianas to act therein.

Sec. 2. (a) The District Court for the Northern Mariana Islands shall have the jurisdiction of a district court of the United States, except that in all causes arising under the Constitution, treaties, or laws of the United States, it shall have jurisdiction regardless of the sum or value of the matter in controversy.

(b) The district court shall have original jurisdiction in all causes in the Northern Mariana Islands not described in subsection (a) jurisdiction over which is not vested by the Constitution or laws of the Northern Mariana Islands in a court or courts of the Northern Marian Islands. In causes brought in the district court solely on the basis of this subsection, the district court shall be considered a court of the Northern Mariana Islands for the purposes of determining the requirements of indictment by grand jury or trial by jury.

Sec. 3. The district court shall have such appellate jurisdiction as the Constitution and laws of the Northern Mariana Islands provide. Appeals to the district court shall be heard and determined by an appellate division of the court consisting of three judges, of whom two shall constitute a quorum. The judge appointed for the court by the President shall be the presiding judge of the appellate division and shall preside therein unless disqualified or otherwise unable to act. The other judges who are to sit in the appellate division at any session shall be designated by the presiding judge from among the judges assigned to the court from time to time pursuant to subsection 1(b) (2): Provided, however, That only one of them shall be a judge of a court of record of the Northern Mariana Islands. The concurrence of two judges shall be necessary to any decision by the district court on the merits of an appeal but the presiding judge alone may make any appropriate orders with respect to an appeal prior to the hearing and determination thereof on the merits and may dismiss an appeal for want of jurisdiction or failure to take or prosecute it in accordance with the applicable law or rules of procedure.

Sec. 4. (a) The relations between the courts established by the Constitution or laws of the United States and the courts of the Northern Mariana Islands with respect to appeals, certiorari, removal of causes, the issuance of writs of habeas corpus, and other matters or proceedings shall be governed by the laws of the United States pertaining to the relations between the courts of the United States and the courts of the several States in such matters and proceedings, except as otherwise provided in article IV of the covenant: Provided, That for the first fifteen years following the establishment of an appellate court of the Northern Mariana Islands the United States court of appeals for the judicial circuit which includes the Northern Mariana Islands shall have jurisdiction of appeals from all final decisions of the highest court of the Northern Mariana Islands from which a deci-
ion could be had in all cases involving the Constitution, treaties, or laws of the United States, or any authority exercised thereunder, unless those cases are reviewable in the District Court for the Northern Mariana Islands pursuant to section 3 of this Act.

(b) Those portions of title 28 of the United States Code which apply to Guam or the District Court of Guam shall be applicable to the Northern Mariana Islands or the District Court for the Northern Mariana Islands, respectively, except as otherwise provided in article IV of the covenant. The district court established by this Act shall be a district court as that term is used in section 3006A of title 18, United States Code.

Sec. 5. This Act shall come into force upon its approval or at the time proclaimed by the President for the Constitution of the Northern Mariana Islands to become effective, whichever is the later date.

Sec. 6. There is authorized to be appropriated such sums as may be necessary to carry out the purposes of this Act.

TITLE II—MINE SAFETY AND HEALTH STANDARDS

AMENDMENTS

Amendment To Title I

Sec. 201. Title I of the Federal Coal Mine Health and Safety Act of 1969 is amended to read as follows:

“TITLE I—GENERAL

MANDATORY SAFETY AND HEALTH STANDARDS

“Sec. 101. (a) The Secretary shall by rule in accordance with procedures set forth in this section and in accordance with section 553 of title 5, United States Code (without regard to any reference in such section to sections 556 and 557 of such title), develop, promulgate, and revise as may be appropriate, improved mandatory health or safety standards for the protection of life and prevention of injuries in coal or other mines.

“(1) Whenever the Secretary, upon the basis of information submitted to him in writing by an interested person, a representative of any organization of employers or employees, a nationally recognized standards-producing organization, the Secretary of Health, Education, and Welfare, the National Institute for Occupational Safety and Health, or a State or political subdivision, or on the basis of information developed by the Secretary or otherwise available to him, determines that a rule should be promulgated in order to serve the objectives of this Act, the Secretary may request the recommendation of an advisory committee appointed under section 102(c). The Secretary shall provide such an advisory committee with any proposals of his own or of the Secretary of Health, Education, and Welfare, together with all pertinent factual information developed by the Secretary or the Secretary of Health, Education, and Welfare, or otherwise available, including the results of research, demonstrations, and experiments. An advisory committee shall submit to the Secretary its
recommendations regarding the rule to be promulgated within 60 days from the date of its appointment or within such longer or shorter period as may be prescribed by the Secretary, but in no event for a period which is longer than 180 days. When the Secretary receives a recommendation, accompanied by appropriate criteria, from the National Institute for Occupational Safety and Health that a rule be promulgated, modified, or revoked, the Secretary must, within 60 days after receipt thereof, refer such recommendation to an advisory committee pursuant to this paragraph, or publish such as a proposed rule pursuant to paragraph (2), or publish in the Federal Register his determination not to do so, and his reasons therefor. The Secretary shall be required to request the recommendations of an advisory committee appointed under section 102(c) if the rule to be promulgated is, in the discretion of the Secretary which shall be final, new in effect or application and has significant economic impact.

“(2) The Secretary shall publish a proposed rule promulgating, modifying, or revoking a mandatory health or safety standard in the Federal Register. If the Secretary determines that a rule should be proposed and in connection therewith has appointed an advisory committee as provided by paragraph (1), the Secretary shall publish a proposed rule, or the reasons for his determination not to publish such rule, within 60 days following the submission of the advisory committee’s recommendation or the expiration of the period of time prescribed by the Secretary in such submission. In either event, the Secretary shall afford interested persons a period of 90 days after any such publication to submit written data or comments on the proposed rule. Such comment period may be extended by the Secretary upon a finding of good cause, which the Secretary shall publish in the Federal Register. Publication shall include the text of such rules proposed in their entirety, a comparative text of the proposed changes in existing rules, and shall include a comprehensive index to the rules, cross-referenced by subject matter.

“(3) On or before the last day of the period provided for the submission of written data or comments under paragraph (2), any interested person may file with the Secretary written objections to the proposed mandatory health or safety standard, stating the grounds therefor and requesting a public hearing on such objections. Within 60 days after the last day for filing such objections, the Secretary shall publish in the Federal Register a notice specifying the mandatory health or safety standard to which objections have been filed and a hearing requested, and specifying a time and place for such hearing. Any hearing under this subsection for the purpose of hearing relevant information shall commence within 60 days after the date of publication of the notice of hearing. Hearings required by this subsection shall be conducted by the Secretary, who may prescribe rules and make rulings concerning procedures in such hearings to avoid unnecessary cost or delay. Subject to the need to avoid undue delay, the Secretary shall provide for procedures that will afford interested parties the right to participate in the hearing, including the right to present oral evidence, and to offer written comments and data. The Secretary may require by subpoena the attendance of witnesses and the production of evidence in connection with any proceeding initiated under this section. If a person refuses to obey a subpoena under this subsection, a United States district court within the jurisdiction of which a proceeding under this subsection is conducted may, upon petition by the Secretary, issue an order requiring compliance with such subpoena. A transcript shall be taken of any such hearing and shall be available to the public.
“(4)(A) Within 90 days after certification of the record of the hearing held pursuant to paragraph (3), the Secretary shall by rule promulgate, modify, or revoke such mandatory health or safety standards, and publish his reasons therefor.

“(B) In the case of a proposed mandatory health or safety standard to which objections requesting a public hearing have not been filed, the Secretary, within 90 days after the period for filing such objections has expired, shall by rule promulgate, modify, or revoke such mandatory standards, and publish his reasons therefor.

“(C) In the event the Secretary determines that a proposed mandatory health or safety standard should not be promulgated he shall, within the times specified in subparagraphs (A) and (B) publish his reasons for his determination.

“(5) Any mandatory health or safety standard promulgated as a final rule under this section shall be effective upon publication in the Federal Register unless the Secretary specifies a later date.

“(6)(A) The Secretary, in promulgating mandatory standards dealing with toxic materials or harmful physical agents under this subsection, shall set standards which most adequately assure on the basis of the best available evidence that no miner will suffer material impairment of health or functional capacity even if such miner has regular exposure to the hazards dealt with by such standard for the period of his working life. Development of mandatory standards under this subsection shall be based upon research, demonstrations, experiments, and such other information as may be appropriate. In addition to the attainment of the highest degree of health and safety protection for the miner, other considerations shall be the latest available scientific data in the field, the feasibility of the standards, and experience gained under this and other health and safety laws. Whenever practicable, the mandatory health or safety standard promulgated shall be expressed in terms of objective criteria and of the performance desired.

“(B) The Secretary of Health, Education, and Welfare, as soon as possible after the date of enactment of the Federal Mine Safety and Health Amendments Act of 1977 but in no event later than 18 months after such date and on a continuing basis thereafter, shall, for each toxic material or harmful physical agent which is used or found in a mine, determine whether such material or agent is potentially toxic at the concentrations in which it is used or found in a mine. The Secretary of Health, Education, and Welfare shall submit such determinations with respect to such toxic substances or harmful physical agents to the Secretary. Thereafter, the Secretary of Health, Education, and Welfare shall submit to the Secretary all pertinent criteria regarding any such substances determined to be toxic or any such harmful agents as such criteria are developed. Within 60 days after receiving any criteria in accordance with the preceding sentence relating to a toxic material or harmful physical agent which is not adequately covered by a mandatory health or safety standard promulgated under this section, the Secretary shall either appoint an advisory committee to make recommendations with respect to a mandatory health or safety standard covering such material or agent in accordance with paragraph (1), or publish a proposed rule promulgating such a mandatory health or safety standard in accordance with paragraph (2), or shall publish his determination not to do so.

“(7) Any mandatory health or safety standard promulgated under this subsection shall prescribe the use of labels or other appropriate forms of warning as are necessary to insure that miners are apprised of all hazards to which they are exposed, relevant symptoms and appro-
appropriate emergency treatment, and proper conditions and precautions of
safe use or exposure. Where appropriate, such mandatory standard
shall also prescribe suitable protective equipment and control or tech-
nological procedures to be used in connection with such hazards and
shall provide for monitoring or measuring miner exposure at such loca-
tions and intervals, and in such manner so as to assure the maximum
protection of miners. In addition, where appropriate, any such manda-
tory standard shall prescribe the type and frequency of medical exam-
inations or other tests which shall be made available, by the operator at
his cost, to miners exposed to such hazards in order to most effectively
determine whether the health of such miners is adversely affected
by such exposure. Where appropriate, the mandatory standard shall
provide that where a determination is made that a miner may suffer
material impairment of health or functional capacity by reason of
exposure to the hazard covered by such mandatory standard, that miner
shall be removed from such exposure and reassigned. Any miner
transferred as a result of such exposure shall continue to receive compen-
sation for such work at no less than the regular rate of pay for
miners in the classification such miner held immediately prior to his
transfer. In the event of the transfer of a miner pursuant to the preceding
sentence, increases in wages of the transferred miner shall be based
upon the new work classification. In the event such medical examina-
tions are in the nature of research, as determined by the Secretary of
Health, Education, and Welfare, such examinations may be furnished
at the expense of the Secretary of Health, Education, and Welfare.
The results of examinations or tests made pursuant to the preceding
sentence shall be furnished only to the Secretary or the Secretary of
Health, Education, and Welfare, and, at the request of the miner, to
his designated physician.

"(8) The Secretary shall, to the extent practicable, promulgate sep-
parate mandatory health or safety standards applicable to mine con-
struction activity on the surface.

"(9) No mandatory health or safety standard promulgated under
this title shall reduce the protection afforded miners by an existing
mandatory health or safety standard.

"(b) (1) The Secretary shall provide, without regard to the require-
ments of chapter 5, title 5, United States Code, for an emergency tem-
porary mandatory health or safety standard to take immediate effect
upon publication in the Federal Register if he determines (A) that
miners are exposed to grave danger from exposure to substances or
agents determined to be toxic or physically harmful, or to other haz-
ards, and (B) that such emergency standard is necessary to protect
miners from such danger.

"(2) A temporary mandatory health or safety standard shall be
effective until superseded by a mandatory standard promulgated in
accordance with the procedures prescribed in paragraph (3) of this
subsection.

"(3) Upon publication of such standard in the Federal Register,
the Secretary shall commence a proceeding in accordance with section
101(a), and the standards as published shall also serve as a proposed
rule for the proceeding. The Secretary shall promulgate a mandatory
health or safety standard under this paragraph no later than nine
months after publication of the emergency temporary standard as
provided in paragraph (2).

"(c) Upon petition by the operator or the representative of miners,
the Secretary may modify the application of any mandatory
safety standard to a coal or other mine if the Secretary determines
that an alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard, or that the application of such standard to such mine will result in a diminution of safety to the miners in such mine. Upon receipt of such petition the Secretary shall publish notice thereof and give notice to the operator or the representative of miners in the affected mine, as appropriate, and shall cause such investigation to be made as he deems appropriate. Such investigation shall provide an opportunity for a public hearing at the request of such operator or representative or other interested party, to enable the operator or the representative of miners in such mine or other interested party to present information relating to the modification of such standard. Before granting any exception to a mandatory safety standard, the findings of the Secretary or his authorized representative shall be made public and shall be available to the representative of the miners at the affected mine. The Secretary shall issue a decision incorporating his findings of fact therein, and send a copy thereof to the operator or the representative of the miners, as appropriate. Any such hearing shall be of record and shall be subject to section 554 of title 5 of the United States Code.

"(d) Any person who may be adversely affected by a mandatory health or safety standard promulgated under this section may, at any time prior to the sixtieth day after such standard is promulgated, file a petition challenging the validity of such mandatory standard with the United States Court of Appeals for the District of Columbia Circuit or the circuit wherein such person resides or has his principal place of business, for a judicial review of such standard. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Secretary. The filing of such petition shall not, unless otherwise ordered by the court, operate as a stay of the standard. No objection that has not been urged before the Secretary shall be considered by the court, unless the failure or neglect to urge such objection shall be excused for good cause shown. The validity of any mandatory health or safety standard shall not be subject to challenge on the grounds that any of the time limitations in this section have been exceeded. The procedures of this subsection shall be the exclusive means of challenging the validity of a mandatory health or safety standard.

"(e) The Secretary shall send a copy of every proposed mandatory health or safety standard or regulation at the time of publication in the Federal Register to the operator of each coal or other mine and the representative of the miners at such mine and such copy shall be immediately posted on the bulletin board of the mine by the operator or his agent, but failure to receive such notice shall not relieve anyone of the obligation to comply with such standard or regulation.

"INSPECTIONS, INVESTIGATIONS, AND RECORDKEEPING

"Sec. 103. (a) Authorized representatives of the Secretary or the Secretary of Health, Education, and Welfare shall make frequent inspections and investigations in coal or other mines each year for the purpose of (1) obtaining, utilizing, and disseminating information relating to health and safety conditions, the causes of accidents, and the causes of diseases and physical impairments originating in such mines, (2) gathering information with respect to mandatory health or safety standards, (3) determining whether an imminent danger exists, and (4) determining whether there is compliance with the mandatory health or safety standards or with any citation, order, or decision issued under this title or other requirements of this Act. In carrying out the requirements of this subsection, no advance notice of an inspection shall be provided to any person, except that in carrying out the requirements of clauses (1) and (2) of this subsection, the Secretary of Health, Education, and Welfare may give advance notice of inspections. In carrying out the requirements of clauses (3) and (4) of this subsection, the Secretary shall make inspections of each underground coal or other mine in its entirety at least four times a year, and of each surface coal or other mine in its entirety at least two times a year. The Secretary shall develop guidelines for additional inspections of mines based on criteria including, but not limited to, the hazards found in mines subject to this Act, and his experience under this Act and other health and safety laws. For the purpose of making any inspection or investigation under this Act, the Secretary, or the Secretary of Health, Education, and Welfare, with respect to fulfilling his responsibilities under this Act, or any authorized representative of the Secretary or the Secretary of Health, Education, and Welfare, shall have a right of entry to, upon, or through any coal or other mine.

"(b) For the purpose of making any investigation of any accident or other occurrence relating to health or safety in a coal or other mine, the Secretary may, after notice, hold public hearings, and may sign and issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, and documents, and administer oaths. Witnesses summoned shall be paid the same fees and mileage that are paid witnesses in the courts of the United States. In case of contumacy or refusal to obey a subpoena served upon any person under this section, the district court of the United States for any district in which such person is found or resides or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the Secretary or to appear and produce documents before the Secretary, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.
Employee exposures, recordkeeping regulations.

Records, access.

Undue exposure, notification.

30 USC 841. Accident investigations.

Records, availability.

Report to Secretary.

Inspections.

Immediate inspections. Violation or danger, notice to Secretary.

"(c) The Secretary, in cooperation with the Secretary of Health, Education, and Welfare, shall issue regulations requiring operators to maintain accurate records of employee exposures to potentially toxic materials or harmful physical agents which are required to be monitored or measured under any applicable mandatory health or safety standard promulgated under this Act. Such regulations shall provide miners or their representatives with an opportunity to observe such monitoring or measuring, and to have access to the records thereof. Such regulations shall also make appropriate provisions for each miner or former miner to have access to such records as will indicate his own exposure to toxic materials or harmful physical agents. Each operator shall promptly notify any miner who has been or is being exposed to toxic materials or harmful physical agents in concentrations or at levels which exceed those prescribed by an applicable mandatory health or safety standard promulgated under section 101, or mandated under title II, and shall inform any miner who is being thus exposed of the corrective action being taken.

"(d) All accidents, including unintentional roof falls (except in any abandoned panels or in areas which are inaccessible or unsafe for inspections), shall be investigated by the operator or his agent to determine the cause and the means of preventing a recurrence. Records of such accidents and investigations shall be kept and the information shall be made available to the Secretary or his authorized representative and the appropriate State agency. Such records shall be open for inspection by interested persons. Such records shall include man-hours worked and shall be reported at a frequency determined by the Secretary, but at least annually.

"(e) Any information obtained by the Secretary or by the Secretary of Health, Education, and Welfare under this Act shall be obtained in such a manner as not to impose an unreasonable burden upon operators, especially those operating small businesses, consistent with the underlying purposes of this Act. Unnecessary duplication of effort in obtaining information shall be reduced to the maximum extent feasible.

"(f) Subject to regulations issued by the Secretary, a representative of the operator and a representative authorized by his miners shall be given an opportunity to accompany the Secretary or his authorized representative during the physical inspection of any coal or other mine made pursuant to the provisions of subsection (a), for the purpose of aiding such inspection and to participate in pre- or post-inspection conferences held at the mine. Where there is no authorized miner representative, the Secretary or his authorized representative shall consult with a reasonable number of miners concerning matters of health and safety in such mine. Such representative of miners who is also an employee of the operator shall suffer no loss of pay during the period of his participation in the inspection made under this subsection. To the extent that the Secretary or authorized representative of the Secretary determines that more than one representative from each party would further aid the inspection, he can permit each party to have an equal number of such additional representatives. However, only one such representative of miners who is an employee of the operator shall be entitled to suffer no loss of pay during the period of such participation under the provisions of this subsection. Compliance with this subsection shall not be a jurisdictional prerequisite to the enforcement of any provision of this Act.

"(g) (1) Whenever a representative of the miners or a miner in the case of a coal or other mine where there is no such representa-
tive has reasonable grounds to believe that a violation of this Act or a mandatory health or safety standard exists, or an imminent danger exists, such miner or representative shall have a right to obtain an immediate inspection by giving notice to the Secretary or his authorized representative of such violation or danger. Any such notice shall be reduced to writing, signed by the representative of the miners or by the miner, and a copy shall be provided the operator or his agent no later than at the time of inspection, except that the operator or his agent shall be notified forthwith if the complaint indicates that an imminent danger exists. The name of the person giving such notice and the names of individual miners referred to therein shall not appear in such copy or notification. Upon receipt of such notification, a special inspection shall be made as soon as possible to determine if such violation or danger exists in accordance with the provisions of this title. If the Secretary determines that a violation or danger does not exist, he shall notify the miner or representative of the miners in writing of such determination.

“(2) Prior to or during any inspection of a coal or other mine, any representative of miners or a miner in the case of a coal or other mine where there is no such representative, may notify the Secretary or any representative of the Secretary responsible for conducting the inspection, in writing, of any violation of this Act or of any imminent danger which he has reason to believe exists in such mine. The Secretary shall, by regulation, establish procedures for informal review of any refusal by a representative of the Secretary to issue a citation with respect to any such alleged violation or order with respect to such danger and shall furnish the representative of miners or miner requesting such review a written statement of the reasons for the Secretary's final disposition of the case.

“(h) In addition to such records as are specifically required by this Act, every operator of a coal or other mine shall establish and maintain such records, make such reports, and provide such information, as the Secretary or the Secretary of Health, Education, and Welfare may reasonably require from time to time to enable him to perform his functions under this Act. The Secretary or the Secretary of Health, Education, and Welfare is authorized to compile, analyze, and publish, either in summary or detailed form, such reports or information so obtained. Except to the extent otherwise specifically provided by this Act, all records, information, reports, findings, citations, notices, orders, or decisions required or issued pursuant to or under this Act may be published from time to time, may be released to any interested person, and shall be made available for public inspection.

“(i) Whenever the Secretary finds that a coal or other mine liberates excessive quantities of methane or other explosive gases during its operations, or that a methane or other gas ignition or explosion has occurred in such mine which resulted in death or serious injury at any time during the previous five years, or that there exists in such mine some other especially hazardous condition, he shall provide a minimum of one spot inspection by his authorized representative of all or part of such mine during every five working days at irregular intervals. For purposes of this subsection, 'liberation of excessive quantities of methane or other explosive gases' shall mean liberation of more than one million cubic feet of methane or other explosive gases during a 24-hour period. When the Secretary finds that a coal or other mine liberates more than five hundred thousand cubic feet of methane or...
other explosive gases during a 24-hour period, he shall provide a minimum of one spot inspection by his authorized representative of all or part of such mine every 10 working days at irregular intervals. When the Secretary finds that a coal or other mine liberates more than two hundred thousand cubic feet of methane or other explosive gases during a 24-hour period, he shall provide a minimum of one spot inspection by his authorized representative of all or part of such mine every 15 working days at irregular intervals.

"(j) In the event of any accident occurring in any coal or other mine, the operator shall notify the Secretary thereof and shall take appropriate measures to prevent the destruction of any evidence which would assist in investigating the cause or causes thereof. In the event of any accident occurring in a coal or other mine, where rescue and recovery work is necessary, the Secretary or an authorized representative of the Secretary shall take whatever action he deems appropriate to protect the life of any person, and he may, if he deems it appropriate, supervise and direct the rescue and recovery activities in such mine.

"(k) In the event of any accident occurring in a coal or other mine, an authorized representative of the Secretary, when present, may issue such orders as he deems appropriate to insure the safety of any person in the coal or other mine, and the operator of such mine shall obtain the approval of such representative, in consultation with appropriate State representatives, when feasible, of any plan to recover any person in such mine or to recover the coal or other mine or return affected areas of such mine to normal.

"CITATIONS AND ORDERS

30 USC 814.

"Sec. 104. (a) If, upon inspection or investigation, the Secretary or his authorized representative believes that an operator of a coal or other mine subject to this Act has violated this Act, or any mandatory health or safety standard, rule, order, or regulation promulgated pursuant to this Act, he shall, with reasonable promptness, issue a citation to the operator. Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the provision of the Act, standard, rule, regulation, or order alleged to have been violated. In addition, the citation shall fix a reasonable time for the abatement of the violation. The requirement for the issuance of a citation with reasonable promptness shall not be a jurisdictional prerequisite to the enforcement of any provision of this Act.

"(b) If, upon any follow-up inspection of a coal or other mine, an authorized representative of the Secretary finds (1) that a violation described in a citation issued pursuant to subsection (a) has not been totally abated within the period of time as originally fixed therein or as subsequently extended, and (2) that the period of time for the abatement should not be further extended, he shall determine the extent of the area affected by the violation and shall promptly issue an order requiring the operator of such mine or his agent to immediately cause all persons, except those persons referred to in subsection (c), to be withdrawn from, and to be prohibited from entering, such area until an authorized representative of the Secretary determines that such violation has been abated.
“(c) The following persons shall not be required to be withdrawn from, or prohibited from entering, any area of the coal or other mine subject to an order issued under this section:

“(1) any person whose presence in such area is necessary, in the judgment of the operator or an authorized representative of the Secretary, to eliminate the condition described in the order;

“(2) any public official whose official duties require him to enter such area;

“(3) any representative of the miners in such mine who is, in the judgment of the operator or an authorized representative of the Secretary, qualified to make such mine examinations or who is accompanied by such a person and whose presence in such area is necessary for the investigation of the conditions described in the order; and

“(4) any consultant to any of the foregoing.

“(d)(1) If, upon any inspection of a coal or other mine, an authorized representative of the Secretary finds that there has been a violation of any mandatory health or safety standard, and if he also finds that, while the conditions created by such violation do not cause immediate danger, such violation is of such nature as could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard, and if he finds such violation to be caused by an unwarrantable failure of such operator to comply with such mandatory health or safety standards, he shall include such finding in any citation given to the operator under this Act. If, during the same inspection or any subsequent inspection of such mine within 90 days after the issuance of such citation, an authorized representative of the Secretary finds another violation of any mandatory health or safety standard and finds such violation to be also caused by an unwarrantable failure of such operator to so comply, he shall forthwith issue an order requiring the operator to cause all persons in the area affected by such violation, except those persons referred to in subsection (c), to be withdrawn from, and to be prohibited from entering, such area until an authorized representative of the Secretary determines that such violation has been abated.

“(2) If a withdrawal order with respect to any area in a coal or other mine has been issued pursuant to paragraph (1), a withdrawal order shall promptly be issued by an authorized representative of the Secretary who finds upon any subsequent inspection the existence in such mine of violations similar to those that resulted in the issuance of the withdrawal order under paragraph (1) until such time as an inspection of such mine discloses no similar violations. Following an inspection of such mine which discloses no similar violations, the provisions of paragraph (1) shall again be applicable to that mine.

“(e)(1) If an operator has a pattern of violations of mandatory health or safety standards in the coal or other mine which are of such nature as could have significantly and substantially contributed to the cause and effect of coal or other mine health or safety hazards, he shall be given written notice that such pattern exists. If, upon any inspection within 90 days after the issuance of such notice, an authorized representative of the Secretary finds any violation of a mandatory health or safety standard which could significantly and substantially contribute to the cause and effect of a coal or other mine safety or health hazard, the authorized representative shall issue an order requiring the operator to cause all persons in the area affected by such violation, except those persons referred to in subsection (c), to be withdrawn from, and to be prohibited from entering, such area until
an authorized representative of the Secretary determines that such violation has been abated.

"(2) If a withdrawal order with respect to any area in a coal or other mine has been issued pursuant to paragraph (1), a withdrawal order shall be issued by an authorized representative of the Secretary who finds upon any subsequent inspection the existence in such mine of any violation of a mandatory health or safety standard which could significantly and substantially contribute to the cause and effect of a coal or other mine health or safety hazard. The withdrawal order shall remain in effect until an authorized representative of the Secretary determines that such violation has been abated.

"(3) If, upon an inspection of the entire coal or other mine, an authorized representative of the Secretary finds no violations of mandatory health or safety standards that could significantly and substantially contribute to the cause and effect of a coal or other mine health and safety hazard, the pattern of violations that resulted in the issuance of a notice under paragraph (1) shall be deemed to be terminated and the provisions of paragraphs (1) and (2) shall no longer apply. However, if as a result of subsequent violations, the operator reestablishes a pattern of violations, paragraphs (1) and (2) shall again be applicable to such operator.

"(4) The Secretary shall make such rules as he deems necessary to establish criteria for determining when a pattern of violations of mandatory health or safety standards exists.

"(f) If, based upon samples taken, analyzed, and recorded pursuant to section 202(a), or samples taken during an inspection by an authorized representative of the Secretary, the applicable limit on the concentration of respirable dust required to be maintained under this Act is exceeded and thereby violated, the Secretary or his authorized representative shall issue a citation fixing a reasonable time for the abatement of the violation. During such time, the operator of the mine shall cause samples described in section 202(a) to be taken of the affected area during each production shift. If, upon the expiration of the period of time as originally fixed or subsequently extended, the Secretary or his authorized representative finds that the period of time should not be further extended, he shall determine the extent of the area affected by the violation and shall promptly issue an order requiring the operator of such mine or his agent to cause immediately all persons, except those referred to in subsection (c), to be withdrawn from and to be prohibited from entering, such area until the Secretary or his authorized representative has reason to believe, based on actions taken by the operator, that such limit will be complied with upon the resumption of production in such mine. As soon as possible after an order is issued, the Secretary, upon request of the operator, shall dispatch to the mine involved a person, or team of persons, to the extent such persons are available, who are knowledgeable in the methods and means of controlling and reducing respirable dust. Such person or team of persons shall remain at the mine involved for such time as they shall deem appropriate to assist the operator in reducing respirable dust concentrations. While at the mine, such persons may require the operator to take such actions as they deem appropriate to insure the health of any person in the coal or other mine.

"(g) (1) If, upon any inspection or investigation pursuant to section 103 of this Act, the Secretary or an authorized representative shall find employed at a coal or other mine a miner who has not received the requisite safety training as determined under section 115 of this Act,
the Secretary or an authorized representative shall issue an order under this section which declares such miner to be a hazard to himself and to others, and requiring that such miner be immediately withdrawn from the coal or other mine, and be prohibited from entering such mine until an authorized representative of the Secretary determines that such miner has received the training required by section 115 of this Act.

"(2) No miner who is ordered withdrawn from a coal or other mine under paragraph (1) shall be discharged or otherwise discriminated against because of such order; and no miner who is ordered withdrawn from a coal or other mine under paragraph (1) shall suffer a loss of compensation during the period necessary for such miner to receive such training and for an authorized representative of the Secretary to determine that such miner has received the requisite training.

"(h) Any citation or order issued under this section shall remain in effect until modified, terminated or vacated by the Secretary or his authorized representative, or modified, terminated or vacated by the Commission or the courts pursuant to section 105 or 106.

"PROCEDURE FOR ENFORCEMENT"

"SEC. 105. (a) If, after an inspection or investigation, the Secretary issues a citation or order under section 104, he shall, within a reasonable time after the termination of such inspection or investigation, notify the operator by certified mail of the civil penalty proposed to be assessed under section 110(a) for the violation cited and that the operator has 30 days within which to notify the Secretary that he wishes to contest the citation or proposed assessment of penalty. A copy of such notification shall be sent by mail to the representative of miners in such mine. If, within 30 days from the receipt of the notification issued by the Secretary, the operator fails to notify the Secretary that he intends to contest the citation or the proposed assessment of penalty, and no notice is filed by any miner or representative of miners under subsection (d) of this section within such time, the citation and the proposed assessment of penalty shall be deemed a final order of the Commission and not subject to review by any court or agency. Refusal by the operator or his agent to accept certified mail containing a citation and proposed assessment of penalty under this subsection shall constitute receipt thereof within the meaning of this subsection.

"(b)(1)(A) If the Secretary has reason to believe that an operator has failed to correct a violation for which a citation has been issued within the period permitted for its correction, the Secretary shall notify the operator by certified mail of such failure and of the penalty proposed to be assessed under section 110(b) by reason of such failure and that the operator has 30 days within which to notify the Secretary that he wishes to contest the Secretary's notification of the proposed assessment of penalty. A copy of such notification of the proposed assessment of penalty shall at the same time be sent by mail to the representative of the mine employees. If, within 30 days from the receipt of notification of proposed assessment of penalty issued by the Secretary, the operator fails to notify the Secretary that he intends to contest the notification of proposed assessment of penalty, such notification shall be deemed a final order of the Commission and not subject to review by any court or agency. Refusal by the operator or his agent to accept certified mail containing a notification of proposed assessment
of penalty issued under this subsection shall constitute receipt thereof within the meaning of this subsection.

"(B) In determining whether to propose a penalty to be assessed under section 110(b), the Secretary shall consider the operator's history of previous violations, the appropriateness of such penalty to the size of the business of the operator charged, whether the operator was negligent, the effect on the operator's ability to continue in business, the gravity of the violation, and the demonstrated good faith of the operator charged in attempting to achieve rapid compliance after notification of a violation.

Temporary relief request, filing.

"(2) An applicant may file with the Commission a written request that the Commission grant temporary relief from any modification or termination of any order or from any order issued under section 104 together with a detailed statement giving the reasons for granting such relief. The Commission may grant such relief under such conditions as it may prescribe, if—

Hearing.

"(A) a hearing has been held in which all parties were given an opportunity to be heard;

"(B) the applicant shows that there is substantial likelihood that the findings of the Commission will be favorable to the applicant; and

"(C) such relief will not adversely affect the health and safety of miners.

No temporary relief shall be granted in the case of a citation issued under subsection (a) or (f) of section 104. The Commission shall provide a procedure for expedited consideration of applications for temporary relief under this paragraph.

Discrimination or interference, prohibition.

"(c) (1) No person shall discharge or in any manner discriminate against or cause to be discharged or cause discrimination against or otherwise interfere with the exercise of the statutory rights of any miner, representative of miners or applicant for employment in any coal or other mine subject to this Act because such miner, representative of miners or applicant for employment has filed or made a complaint under or related to this Act, including a complaint notifying the operator or the operator's agent, or the representative of the miners at the coal or other mine of an alleged danger or safety or health violation in a coal or other mine, or because such miner, representative of miners or applicant for employment is the subject of medical evaluations and potential transfer under a standard published pursuant to section 101 or because such miner, representative of miners or applicant for employment has instituted or caused to be instituted any proceeding under or related to this Act or has testified or is about to testify in any such proceeding, or because of the exercise by such miner, representative of miners or applicant for employment on behalf of himself or others of any statutory right afforded by this Act.

"(2) Any miner or applicant for employment or representative of miners who believes that he has been discharged, interfered with, or otherwise discriminated against by any person in violation of this subsection may, within 60 days after such violation occurs, file a complaint with the Secretary alleging such discrimination. Upon receipt of such complaint, the Secretary shall forward a copy of the complaint to the respondent and shall cause such investigation to be made as he deems appropriate. Such investigation shall commence within 15 days of the Secretary's receipt of the complaint, and if the Secretary finds that such complaint was not frivolously brought, the Commission, on an expedited basis upon application of the Secretary, shall order the immediate reinstatement of the miner pending final order on the com-
plaint. If upon such investigation, the Secretary determines that the provisions of this subsection have been violated, he shall immediately file a complaint with the Commission, with service upon the alleged violator and the miner, applicant for employment, or representative of miners alleging such discrimination or interference and propose an order granting appropriate relief. The Commission shall afford an opportunity for a hearing (in accordance with section 554 of title 5, United States Code, but without regard to subsection (a) (3) of such section) and thereafter shall issue an order, based upon findings of fact, affirming, modifying, or vacating the Secretary's proposed order, or directing other appropriate relief. Such order shall become final 30 days after its issuance. The Commission shall have authority in such proceedings to require a person committing a violation of this subsection to take such affirmative action to abate the violation as the Commission deems appropriate, including, but not limited to, the rehiring or reinstatement of the miner to his former position with back pay and interest. The complaining miner, applicant, or representative of miners may present additional evidence on his own behalf during any hearing held pursuant to his paragraph.

"(3) Within 90 days of the receipt of a complaint filed under paragraph (2), the Secretary shall notify, in writing, the miner, applicant for employment, or representative of miners of his determination whether a violation has occurred. If the Secretary, upon investigation, determines that the provisions of this subsection have not been violated, the complainant shall have the right, within 30 days of notice of the Secretary's determination, to file an action in his own behalf before the Commission, charging discrimination or interference in violation of paragraph (1). The Commission shall afford an opportunity for a hearing (in accordance with section 554 of title 5, United States Code, but without regard to subsection (a) (3) of such section), and thereafter shall issue an order, based upon findings of fact, dismissing or sustaining the complainant's charges and, if the charges are sustained, granting such relief as it deems appropriate, including, but not limited to, an order requiring the rehiring or reinstatement of the miner to his former position with back pay and interest or such remedy as may be appropriate. Such order shall become final 30 days after its issuance. Whenever an order is issued sustaining the complainant's charges under this subsection, a sum equal to the aggregate amount of all costs and expenses (including attorney's fees) as determined by the Commission to have been reasonably incurred by the miner, applicant for employment or representative of miners for, or in connection with, the institution and prosecution of such proceedings shall be assessed against the person committing such violation. Proceedings under this section shall be expedited by the Secretary and the Commission. Any order issued by the Commission under this paragraph shall be subject to judicial review in accordance with section 106. Violations by any person of paragraph (1) shall be subject to the provisions of sections 108 and 110(a).

"(d) If, within 30 days of receipt thereof, an operator of a coal or other mine notifies the Secretary that he intends to contest the issuance or modification of an order issued under section 104, or citation or a notification of proposed assessment of a penalty issued under subsection (a) or (b) of this section, or the reasonableness of the length of abatement time fixed in a citation or modification thereof issued under section 104, or any miner or representative of miners notifies the Secretary of an intention to contest the issuance, modification, or termination of any order issued under section 104, or the reasonable-
ness of the length of time set for abatement by a citation or modification thereof issued under section 104, the Secretary shall immediately advise the Commission of such notification, and the Commission shall afford an opportunity for a hearing (in accordance with section 554 of title 5, United States Code, but without regard to subsection (a)(3) of such section), and thereafter shall issue an order, based on findings of fact, affirming, modifying, or vacating the Secretary's citation, order, or proposed penalty, or directing other appropriate relief. Such order shall become final 30 days after its issuance. The rules of procedure prescribed by the Commission shall provide affected miners or representatives of affected miners an opportunity to participate as parties to hearings under this section. The Commission shall take whatever action is necessary to expedite proceedings for hearing appeals of orders issued under section 104.

"JUDICIAL REVIEW"

"SEC. 106. (a) (1) Any person adversely affected or aggrieved by an order of the Commission issued under this Act may obtain a review of such order in any United States court of appeals for the circuit in which the violation is alleged to have occurred or in the United States Court of Appeals for the District of Columbia Circuit, by filing in such court within 30 days following the issuance of such order a written petition praying that the order be modified or set aside. A copy of such petition shall be forthwith transmitted by the clerk of the court to the Commission and to the other parties, and thereupon the Commission shall file in the court the record in the proceeding as provided in section 2112 of title 28, United States Code. Upon such filing, the court shall have exclusive jurisdiction of the proceeding and of the questions determined therein, and shall have the power to make and enter upon the pleadings, testimony, and proceedings set forth in such record a decree affirming, modifying, or setting aside, in whole or in part, the order of the Commission and enforcing the same to the extent that such order is affirmed or modified. No objection that has not been urged before the Commission shall be considered by the court, unless the failure or neglect to urge such objection shall be excused because of extraordinary circumstances. The findings of the Commission with respect to questions of fact, if supported by substantial evidence on the record considered as a whole, shall be conclusive. If any party shall apply to the court for leave to adduce additional evidence and shall show to the satisfaction of the court that such additional evidence is material and that there were reasonable grounds for the failure to adduce such evidence in the hearing before the Commission, the court may order such additional evidence to be taken before the Commission and to be made a part of the record. The Commission may modify its findings as to the facts, or make new findings, by reason of additional evidence so taken and filed, and it shall file such modified or new findings, which findings with respect to questions of fact, if supported by substantial evidence on the record considered as a whole, shall be conclusive. The Commission may modify or set aside its original order by reason of such modified or new findings of fact. Upon the filing of the record after such remand proceedings, the jurisdiction of the court shall be exclusive and its judgment and degree shall be final, except that the same shall be subject to review by the Supreme Court of the United States, as provided in section 1254 of title 28, United States Code. Petitions filed under this subsection shall be heard expeditiously."
“(2) In the case of a proceeding to review any order or decision issued by the Commission under this Act, except an order or decision pertaining to an order issued under section 107(a) or an order or decision pertaining to a citation issued under section 104 (a) or (f), the court may, under such conditions as it may prescribe, grant such temporary relief as it deems appropriate pending final determination of the proceeding, if—

"(A) all parties to the proceeding have been notified and given an opportunity to be heard on a request for temporary relief;
"(B) the person requesting such relief shows that there is a substantial likelihood that he will prevail on the merits of the final determination of the proceeding; and
"(C) such relief will not adversely affect the health and safety of miners in the coal or other mine.

“(3) In the case of a proceeding to review any order or decision issued by the Panel under this Act, the court may, under such conditions as it may prescribe, grant such temporary relief as it deems appropriate pending final determination of the proceeding, if—

"(A) all parties to the proceeding have been notified and given an opportunity to be heard on a request for temporary relief; and
"(B) the person requesting such relief shows that there is a substantial likelihood that he will prevail on the merits of the final determination of the proceeding.

“(b) The Secretary may also obtain review or enforcement of any final order of the Commission by filing a petition for such relief in the United States court of appeals for the circuit in which the alleged violation occurred or in the Court of Appeals for the District of Columbia Circuit, and the provisions of subsection (a) shall govern such proceedings to the extent applicable. If no petition for review, as provided in subsection (a), is filed within 30 days after issuance of the Commission’s order, the Commission’s findings of fact and order shall be conclusive in connection with any petition for enforcement which is filed by the Secretary after the expiration of such 30-day period. In any such case, as well as in the case of a noncontested citation or notification by the Secretary which has become a final order of the Commission under subsection (a) or (b) of section 105, the clerk of the court, unless otherwise ordered by the court, shall forthwith enter a decree enforcing the order and shall transmit a copy of such decree to the Secretary and the operator named in the petition. In any contempt proceeding brought to enforce a decree of a court of appeals entered pursuant to this subsection or subsection (a), the court of appeals may assess the penalties provided in section 110, in addition to invoking any other available remedies.

“(c) The commencement of a proceeding under this section shall not, unless specifically ordered by the court, operate as a stay of the order or decision of the Commission or the Panel.

(a) If, upon any inspection or investigation of a coal or other mine which is subject to this Act, an authorized representative of the Secretary finds that an imminent danger exists, such representative shall determine the extent of the area of such mine throughout which the danger exists, and issue an order requiring the operator of such mine to cause all persons, except those referred to in section 104 order.
(c), to be withdrawn from, and to be prohibited from entering, such area until an authorized representative of the Secretary determines that such imminent danger and the conditions or practices which caused such imminent danger no longer exist. Any hearing under this paragraph shall be of record and shall be subject to section 554 of title 5 of the United States Code.

Orders, contents.

"(c) Orders issued pursuant to subsection (a) shall contain a detailed description of the conditions or practices which cause and constitute an imminent danger and a description of the area of the coal or other mine from which persons must be withdrawn and prohibited from entering.

"(d) Each finding made and order issued under this section shall be given promptly to the operator of the coal or other mine to which it pertains by the person making such finding or order, and all of such findings and orders shall be in writing, and shall be signed by the person making them. Any order issued pursuant to subsection (a) may be modified or terminated by an authorized representative of the Secretary. The Commission shall forthwith afford an opportunity for a hearing (in accordance with section 554 of title 5, United States Code, but without regard to subsection (a)(3) of such section) and

"(2) The Secretary may institute a civil action for relief, including permanent or temporary injunction, restraining order, or any other appropriate order in the district court of the United States for the district in which the coal or other mine is located or in which the operator of such mine has his principal office whenever the Secretary believes that the operator of a coal or other mine is engaged in a pattern of violation of the mandatory health or safety standards of this Act, which in the judgment of the Secretary constitutes a continuing hazard to the health or safety of miners.

"(b) In any action brought under subsection (a), the court shall have jurisdiction to provide such relief as may be appropriate. In the case of an action under subsection (a) (2), the court shall in its order require such assurance or affirmative steps as it deems necessary to assure itself that the protection afforded to miners under this Act shall be provided by the operator. Temporary restraining orders shall be issued in accordance with rule 65 of the Federal Rules of Civil Procedure, as amended, except that the time limit in such orders, when issued without notice, shall be seven days from the date of entry. Except as otherwise provided herein, any relief granted by the court to enforce any order under paragraph (1) of subsection (a) shall continue in effect until the completion or final termination of all proceedings for review of such order under this title, unless prior thereto, the district court granting such relief sets it aside or modifies it. In any

The mere designation of a health and safety official under this subsection shall not be construed as making such official subject to any penalty under this Act.

If such order is not terminated prior to the next working shift, all miners on that shift who are idled by such order shall be entitled to full compensation by the operator at their regular rates of pay for the period they are idled, but for not more than four hours of such shift. If a coal or other mine or area of such mine is closed by an order issued under section 104 or section 107 of this title for a failure of the operator to comply with any mandatory health or safety standards, all miners who are idled due to such order shall be fully compensated after all interested parties are given an opportunity for a public hearing, which shall be expedited in such cases, and after such order is final, by the operator at their regular rates of pay for such time as the miners are idled by such closing, or for one week, whichever is the lesser. "(2) The Chairman shall be responsible on behalf of the Commission for the administrative operations of the Commission. The Commission shall appoint such employees as it deems necessary to assist in the performance of the Commission's functions and to fix their compensation in accordance with the provisions of chapter 51 and subchapter III of chapter 53 of title 5, United States Code, relating to classification and general pay rates. "(IV) A substantial question of law, policy or discretion is involved.

"(V) A prejudicial error of procedure was committed.

(iii) Each issue shall be separately numbered and plainly and concisely stated, and shall be supported by detailed citations to the record when assignments of error are based on the record, and by statutes, regulations, or principal authorities relied upon. Except for good cause shown, no assignment of error by any party shall rely on any question of fact or law upon which the administrative law judge had not been afforded an opportunity to pass. Review by the Commission shall be granted only by affirmative vote of two of the Commissioners present and voting. If granted, review shall be limited to the questions raised by the petition.

"(B) At any time within 30 days after the issuance of a decision of an administrative law judge, the Commission may in its discretion (by affirmative vote of two of the Commissioners present and voting) order the case before it for review but only upon the ground that the decision may be contrary to law or Commission policy, or that a novel question of policy has been presented. If the Commission determines that further evidence is necessary on an issue of fact it shall remand the case for further proceedings before the administrative law judge.

(The provisions of section 557(b) of title 5, United States Code, with regard to the review authority of the Commission are hereby expressly superseded to the extent that they are inconsistent with the provisions of subparagraphs (A), (B), and (C) of this paragraph.)

Any person may be compelled to appear and depose and produce similar documentary or physical evidence, in the same manner as witnesses may be compelled to appear and produce evidence before the Commission and its administrative law judges. Witnesses shall be paid the same fees and mileage that are paid witnesses in the courts of the United States and at depositions ordered by such courts. In case of contumacy, failure, or refusal of any person to obey a subpoena or order of the Commission or an administrative law judge, respectively, to appear, to testify, or to produce documentary or physical evidence, any district court of the United States or the United States courts of any territory or possession, within the jurisdiction of which such person is found, or resides, or transacts business, shall, upon the application of the Commission, or the administrative law judge, respectively, have jurisdiction to issue to such person an order requiring such person to appear, to testify, or to produce evidence as ordered by the Commission or the administrative law judge, respectively, and any failure to obey such order of the court may be punished by the court as a contempt thereof.

Sec. 203. (a) Title III of the Federal Coal Mine Health and Safety Act of 1969 is amended by inserting “of the Interior in coordination with the Secretary” after “Secretary” in section 301(b).

(b) Subsections (c) and (d) of section 301 of such Act are repealed.

TITLE III—MISCELLANEOUS PROVISIONS

TRANSFER MATTERS

Sec. 301. (a) Except with respect to the functions assigned to the Secretary of the Interior pursuant to section 501 of the Federal Coal Mine Health and Safety Act of 1969, the functions of the Secretary of the Interior under the Federal Coal Mine Health and Safety Act of 1969, as amended, and the Federal Metal and Nonmetallic Mine Safety Act are transferred to the Secretary of Labor, except those which are expressly transferred to the Commission by this Act.

(b) (1) The mandatory standards relating to mines, issued by the Secretary of the Interior under the Federal Metal and Nonmetallic Mine Safety Act and standards and regulations under the Federal Coal Mine Health and Safety Act of 1969 which are in effect on the date of enactment of this Act shall remain in effect as mandatory health or safety standards applicable to metal and nonmetallic mines and to coal mines respectively under the Federal Mine Safety and Health Act of 1977 until such time as the Secretary of Labor shall issue new or revised mandatory health or safety standards applicable to metal and nonmetallic mines and new or revised mandatory health or safety standards applicable to coal mines.

(2) Within 60 days after the date of enactment of this Act, the Secretary of Labor in consultation with the Secretary of the Interior shall establish an advisory committee under section 102 of the Federal Mine Safety and Health Act of 1977 which shall, within 180 days after the date of the establishment of such advisory committee, review the advisory health and safety standards issued by the Secretary of
the Interior under the Federal Metal and Nonmetallic Mine Safety Act and recommend to the Secretary of Labor which of those standards (or any modifications of such standards which do not substantially diminish the health and safety of miners) should be promulgated as mandatory health or safety standards. The Secretary of Labor shall publish, within 60 days after any recommendations of the advisory committee under this paragraph, each of the standards so recommended for adoption with or without modifications as a proposed mandatory health or safety standard under this section by publication of such standard in the Federal Register, and afford interested persons a period of 25 days after publication to submit written data or comment. Within 30 days after the close of the comment period specified in the preceding sentence, the Secretary of Labor shall promulgate by publication in the Federal Register mandatory health or safety standards based upon the advisory committee recommendation with or without modification, and the data and comments received thereon, unless the Secretary of Labor determines that such standards will not promote the health and safety of miners and publishes an explanation of that determination in the Federal Register.

(c) (1) All unexpended balances of appropriations, personnel, property, records, obligations, and commitments which are used primarily with respect to any functions transferred under the provisions of subsection (a) to the Secretary of Labor shall be transferred to the Department of Labor or the Commission, as appropriate. The transfer of personnel pursuant to this paragraph shall be without reduction in classification or compensation for one year after such transfer, except that the Secretary of Labor shall have full authority to assign personnel during such one-year period in order to efficiently carry out functions transferred to him under this Act.

(2) All orders, decisions, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges (A) which have been issued, made, granted, or allowed to become effective in the exercise of functions which are transferred under this section by any department or agency, any functions of which are transferred by this section, and (B) which are in effect at the time this section takes effect, shall continue in effect according to their terms until modified, terminated, superseded, set aside, revoked, or repealed by the Secretary of Labor, the Federal Mine Safety and Health Review Commission or other authorized officials, by any court of competent jurisdiction, or by operation of law.

(3) The provisions of this section shall not affect any proceedings pending at the time this section takes effect before any department, agency, or component thereof, functions of which are transferred by this section, except that such proceedings, to the extent that they relate to functions so transferred, shall be continued before the Secretary of Labor or the Federal Mine Safety and Health Review Commission. Orders shall be issued in such proceedings, appeals shall be taken therefrom, and payments shall be made pursuant to such orders, as if this section had not been enacted; and orders issued in any such proceedings shall continue in effect until modified, terminated, superseded, revoked, or repealed by the Secretary of Labor, the Federal Mine Safety and Health Review Commission, by a court of competent jurisdiction, or by operation of law. Nothing in this subsection shall be deemed to prohibit the discontinuance or modification of any proceeding under the same terms and conditions and to the same extent
that such proceeding could have been discontinued if this section had not been enacted.

(4) The provisions of this section shall not affect suits commenced prior to the date this section takes effect and in all such suits proceedings shall be had, appeals taken, and judgments rendered, in the same manner and effect as if this section had not been enacted; except that if before the date on which this section takes effect, any department or agency (or officer thereof in his official capacity) is a party to a suit involving functions transferred to the Secretary, then such suit shall be continued by the Secretary of Labor. No cause of action, and no suit, action, or other proceeding, by or against any department or agency (or officer thereof in his official capacity) functions of which are transferred by this section, shall abate by reason of the enactment of this section. Causes of actions, suits, actions, or other proceedings may be asserted by or against the United States or the Secretary as may be appropriate and, in any litigation pending when this section takes effect, the court may at any time, on its own motion or that of any party, enter an order which will give effect to the provisions of this paragraph.

(d) For purposes of this section, (1) the term "function" includes power and duty, and (2) the transfer of a function, under any provision of law, of an agency or the head of a department shall also be a transfer of all functions under such law which are exercised by any officer or officer of such agency or department.

(e) The Director of the Office of Management and Budget in consultation with the Secretary of Labor and the Secretary of the Interior is authorized and directed to make such determinations as may be necessary with regard to the dispositions of personnel, personnel positions, property, records, assets, liabilities, contracts, obligations, commitments, unexpended balances of appropriations, authorizations, allocations, and other funds employed, held, used, arising from, available or to be made available, in connection with the functions transferred by this Act as he may deem necessary to accomplish the purposes of this Act.

An Act

To amend the National School Lunch Act and the Child Nutrition Act of 1966 in order to revise and extend the summer food program, to revise the special milk program, to revise the school breakfast program, to authorize the Secretary of Agriculture to carry out a program of nutrition information and education as part of food service programs for children conducted under such Acts, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled. That this Act may be cited as the “National School Lunch Act and Child Nutrition Amendments of 1977”.

SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

Sec. 2. Section 13 of the National School Lunch Act is amended to read as follows:

“SUMMER FOOD SERVICE PROGRAM FOR CHILDREN

“Sec. 13. (a) (1) The Secretary is authorized to carry out a program to assist States, through grants-in-aid and other means, to initiate, maintain, and expand nonprofit food service programs for children in service institutions. For purposes of this section, (A) ‘program’ means the summer food service program for children authorized by this section; (B) ‘service institutions’ means nonresidential public or private nonprofit institutions, and residential public or private nonprofit summer camps, that develop special summer or school vacation programs providing food service similar to that made available to children during the school year under the school lunch program under this Act or the school breakfast program under the Child Nutrition Act of 1966; (C) ‘areas in which poor economic conditions exist’ means areas in which at least 33½ percent of the children are eligible for free or reduced price school meals under this Act and the Child Nutrition Act of 1966, as determined by information provided from departments of welfare, zoning commissions, census tracts, by the number of free and reduced price lunches or breakfasts served to children attending public and nonprofit private schools located in the area of program food service sites, or from other appropriate sources, including statements of eligibility based upon income for children enrolled in the program; (D) ‘children’ means individuals who are eighteen years of age and under, and individuals who are older than eighteen who are (i) determined by a State educational agency or a local public educational agency of a State, in accordance with regulations prescribed by the Secretary, to be mentally or physically handicapped, and (ii) participating in a public school program established for the mentally or physically handicapped; and (E) ‘State’ means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

“(2) To the maximum extent feasible, consistent with the purposes of this section, any food service under the program shall use meals prepared at the facilities of the service institution or at the food service
facilities of public and nonprofit private schools. The Secretary shall assist States in the development of information and technical assistance to encourage increased service of meals prepared at the facilities of service institutions and at public and nonprofit private schools.

"(3) Eligible service institutions entitled to participate in the program shall be limited to those that—

"(A) demonstrate adequate administrative and financial responsibility to manage an effective food service;

"(B) have not been seriously deficient in operating under the program;

"(C) either conduct a regularly scheduled food service for children from areas in which poor economic conditions exist or qualify as camps; and

"(D) provide an ongoing year-round service to the community to be served under the program (except that an otherwise eligible service institution shall not be disqualified for failure to meet this requirement for ongoing year-round service if the State determines that its disqualification would result in an area in which poor economic conditions exist not being served or in a significant number of needy children not having reasonable access to a summer food service program).

"(4) The following order of priority shall be used by the State in determining participation where more than one eligible service institution proposes to serve the same area:

"(A) local schools or service institutions that have demonstrated successful program performance in a prior year;

"(B) service institutions that prepare meals at their own facilities or operate only one site;

"(C) service institutions that use local school food facilities for the preparation of meals;

"(D) other service institutions that have demonstrated ability for successful program operation; and

"(E) service institutions that plan to integrate the program with Federal, State, or local employment programs.

The Secretary and the States, in carrying out their respective functions under this section, shall actively seek eligible service institutions located in rural areas, for the purpose of assisting such service institutions in applying to participate in the program.

"(5) Camps that satisfy all other eligibility requirements of this section shall receive reimbursement only for meals served to children who meet the eligibility requirements for free or reduced price meals, as determined under this Act and the Child Nutrition Act of 1966.

"(b)(1) Payments to service institutions shall equal the full cost of food service operations (which cost shall include the cost of obtaining, preparing, and serving food, but shall not include administrative costs), except that such payments to any institution shall not exceed (1) 85.75 cents for each lunch and supper served; (2) 47.75 cents for each breakfast served; or (3) 22.50 cents for each meal supplement served: Provided. That such amounts shall be adjusted each January 1 to the nearest one-fourth cent in accordance with the changes for the twelve-month period ending the preceding November 30 in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor: Provided further. That the Secretary may make such adjustments in the maximum reimbursement levels as the Secretary determines appropriate after making the study prescribed in paragraph (4) of this subsection.

"(2) Any service institution shall be permitted to serve up to three
meals per day of operation if at least one of the three meals is a meal supplement, and any service institution that is a camp shall be permitted to serve up to four meals per day of operation, if the service institution has the administrative capability, and the food preparation and food holding capabilities (where applicable), to manage more than one meal service per day, and if the service period of different meals does not coincide or overlap. Such meals may include a breakfast, a lunch, a supper, and meal supplements.

“(B) Every service institution, when applying for participation in the program, shall submit a complete budget for administrative costs related to the program, which shall be subject to approval by the State. Payment to service institutions for administrative costs shall equal the full amount of State approved administrative costs incurred, except that such payment to service institutions may not exceed the maximum allowable levels determined by the Secretary pursuant to the study prescribed in paragraph (4) of this subsection.

“(A) The Secretary shall conduct a study of the food service operations carried out under the program. Such study shall include, but shall not be limited to—

“(i) an evaluation of meal quality as related to costs; and

“(ii) a determination whether adjustments in the maximum reimbursement levels for food service operation costs prescribed in paragraph (1) of this subsection should be made, including whether different reimbursement levels should be established for self-prepared meals and vendored meals and which site-related costs, if any, should be considered as part of administrative costs.

“(B) The Secretary shall also study the administrative costs of service institutions participating in the program and shall thereafter prescribe maximum allowable levels for administrative payments that reflect the costs of such service institutions, taking into account the number of sites and children served, and such other factors as the Secretary determines appropriate to further the goals of efficient and effective administration of the program.

“(C) The Secretary shall report the results of such studies to Congress not later than December 1, 1977.

“(c) Payments shall be made to service institutions only for meals served during the months of May through September, except in the case of service institutions that operate food service programs for children on school vacation at any time under a continuous school calendar.

“(d) Not later than April 15, May 15, and July 1, of each year, the Secretary shall forward to each State a letter of credit (advance program payment) that shall be available to each State for the payment of meals to be served in the month for which the letter of credit is issued. The amount of the advance program payment shall be an amount which the State demonstrates, to the satisfaction of the Secretary, to be necessary for advance program payments to service institutions in accordance with subsection (e) of this section. The Secretary shall also forward such advance program payments, by the first day of the month prior to the month in which the program will be conducted, to States that operate the program in months other than May through September. The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

“(e) (1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a
continuous school calendar, the first day of each month of operation, the State shall forward advance program payments to each service institution: Provided, That (A) the State shall not release the second month's advance program payment to any service institution that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities, and (B) no advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: Provided, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or $40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment shall be withheld until such time as the State has received a valid claim. Program payments advanced to service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f) Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research. Such meals shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to children other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a) (5) of this section. To assure meal quality, States shall, with the assistance of the Secretary, prescribed model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State. Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) that bacteria levels conform to the standards which are...
applied by the local health authority for that locality with respect to the levels of bacteria that may be present in meals served by other establishments in that locality. Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

“(g) The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications, and handbooks by February 1 of each fiscal year: Provided, That for fiscal year 1978, those portions of the regulations relating to payment rates for both food service operations and administrative costs need not be published until December 1 and February 1, respectively. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

“(h) Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431), or purchased under section 32 of the Act of August 24, 1935 (7 U.S.C. 612c) or section 709 of the Food and Agriculture Act of 1965 (7 U.S.C. 1446a–1). Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

“(i) If any State (1) is unable for any reason to disburse the funds otherwise payable to it under this section, or (2) does not operate the program in accordance with the requirements of this section, the Secretary shall assume authority for administration of the program in such State, and shall disburse the funds directly to service institutions in the State for the same purposes and subject to the same conditions as are required of a State disbursing funds made available under this section. In cases described in clause (1) of the preceding sentence, the State shall notify the Secretary, not later than January 1 of each fiscal year in which the program is operated, of its intention not to administer the program.

“(j) Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

“(k)(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first $50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next $50,000 in funds distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next $100,000 in funds distributed to that State for the program in the preceding fiscal year; and (D) 2 percent of any remaining funds distributed to that State for the program in the preceding fiscal year: Provided, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State’s program since the preceding fiscal year.

Administrative costs, payment.

Adjustment.

Standards and effective dates, establishment.
Funds, withholding. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this section as the Secretary determines to be appropriate.

Inspection funds. To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.

Food service management companies, subcontracts. Service institutions may contract on a competitive basis only with food service management companies registered with the State in which they operate for the furnishing of meals or management of the entire food service under the program, except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity. The State shall, upon award of any bid, review the company's registration to calculate how many remaining meals the food service management company is equipped to prepare.

Additional conditions. Each State shall provide for the registration of food service management companies. For the purposes of this section, registration shall include, at a minimum—

1. Certification that the company meets applicable State and local health, safety, and sanitation standards;
2. Disclosure of past and present company owners, officers, and directors, and their relationship, if any, to any service institution or food service management company that received program funds in any prior fiscal year;
3. Records of contract terminations or disallowances, and health, safety, and sanitary code violations, in regard to program operations in prior fiscal years; and
4. The addresses of the company's food preparation and distribution sites.

No food service management company may be registered if the State determines that such company (i) lacks the administrative and financial capability to perform under the program, or (ii) has been seriously deficient in its participation in the program in prior fiscal years.

Record, availability to States. In order to ensure that only qualified food service management companies contract for services in all States, the Secretary shall maintain a record of all registered food service management companies and their program record for the purpose of making such information available to the States.

Small and minority-owned businesses. In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

Contract, standard form. Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe require-
ments governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of $100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

"(m) States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

"(n) Each State desiring to participate in the program shall notify the Secretary by January 1 of each year of its intent to administer the program and shall submit for approval by February 15 a management and administration plan for the program for the fiscal year, which shall include, but not be limited to, (1) the State’s administrative budget for the fiscal year, and the State’s plans to comply with any standards prescribed by the Secretary under subsection (k) of this section; (2) the State’s plans for use of program funds and funds from within the State to the maximum extent practicable to reach needy children, including the State’s methods for assessing need, and its plans and schedule for informing service institutions of the availability of the program; (3) the State’s best estimate of the number and character of service institutions and sites to be approved, and of meals to be served and children to participate for the fiscal year, and a description of the estimating methods used; (4) the State’s plans and schedule for providing technical assistance and training eligible service institutions; (5) the State’s schedule for application by service institutions; (6) the actions to be taken to maximize the use of meals prepared by service institutions and the use of school food service facilities; (7) the State’s plans for monitoring and inspecting service institutions, feeding sites, and food service management companies and for ensuring that such companies do not enter into contracts for more meals than they can provide effectively and efficiently; (8) the State’s plan and schedule for registering food service management companies; (9) the State’s plan for timely and effective action against program violators; (10) the State’s plan for determining the amounts of program payments to service institutions and for disbursing such payments; (11) the State’s plan for ensuring fiscal integrity by auditing service institutions not subject to auditing requirements prescribed by the Secretary; and (12) the State’s procedure for granting a hearing and prompt determination to any service institution wishing to appeal a State ruling denying the service institution’s application for program participation or for program reimbursement.

"(o)(1) Whoever, in connection with any application, procurement, recordkeeping entry, claim for reimbursement, or other document or statement made in connection with the program, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statement or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, or whoever, in connection with the program, knowingly makes an opportunity for any person to defraud the United States, or does or omits to do any act with intent to enable any person
to defraud the United States, shall be fined not more than $10,000 or imprisoned not more than five years, or both.

(2) Whoever being a partner, officer, director, or managing agent connected in any capacity with any partnership, association, corporation, business, or organization, either public or private, that receives benefits under the program, knowingly or willfully embezzles, misapplies, steals, or obtains by fraud, false statement, or forgery, any benefits provided by this section or any money, funds, assets, or property derived from benefits provided by this section, shall be fined not more than $10,000 or imprisoned for not more than five years, or both (but, if the benefits, money, funds, assets, or property involved is not over $200, then the penalty shall be a fine of not more than $1,000 or imprisonment for not more than one year, or both).

(3) If two or more persons conspire or collude to accomplish any act made unlawful under this subsection, and one or more of such persons do any act to effect the object of the conspiracy or collusion, each shall be fined not more than $10,000 or imprisoned for not more than five years, or both.

(p) For the fiscal years beginning October 1, 1977, and ending September 30, 1980, there are hereby authorized to be appropriated such sums as are necessary to carry out the purposes of this section.

CONFORMING AMENDMENT

The National School Lunch Act and the Child Nutrition Act of 1966 are each amended by striking out "nonfood assistance" each time such phrase appears in such Acts and by inserting in lieu thereof "food service equipment assistance". The heading of section 5 of the National School Lunch Act is amended to read "FOOD SERVICE EQUIPMENT ASSISTANCE", and the heading of section 5 of the Child Nutrition Act of 1966 is amended to read "FOOD SERVICE EQUIPMENT ASSISTANCE".

FOOD SERVICE EQUIPMENT ASSISTANCE

Sec. 4. Section 5 of the Child Nutrition Act of 1966 is amended by—

(1) striking out the last sentence of subsection (b) and inserting in lieu thereof the following: “Payments to any State of funds apportioned under the provisions of this subsection for any fiscal year shall be made upon condition that at least one-fourth of the cost of equipment financed under this subsection shall be borne by funds from sources within the State, except that such condition shall not apply with respect to funds used under this section to assist schools that are especially needy, as determined by criteria to be established by each State and approved by the Secretary. States shall apportion their share of funds under this subsection by giving priority to schools without a food service program and schools without the facilities to prepare and cook hot meals at the schools (including schools having equipment that is so antiquated or impaired as to endanger the continuation of an adequate food service program or the ability to prepare and cook hot meals) or at a kitchen that serves the schools and that is operated by the local school district or by a nonprofit private school or the authority that is responsible for the administration of one or more nonprofit private schools. After making funds available to such schools, the State shall make the remaining funds available to schools with a food service program and with the facilities to prepare and cook hot meals at the schools or at a kitchen that serves the schools and that is operated by the local school district or by a nonprofit private school or the authority..."
that is responsible for the administration of one or more nonprofit private schools, for the purpose of purchasing needed replacement equipment.

(2) amending subsection (e) to read as follows:

"(e) For the fiscal years ending September 30, 1978, September 30, 1979, and September 30, 1980, 33 1/3 percent of the funds appropriated for the purposes of this section shall be reserved to the Secretary to assist schools without a food service program and schools without the facilities to prepare and cook hot meals or receive hot meals. The Secretary shall apportion the funds so reserved among the States on the basis of the ratio of the number of children in each State enrolled in schools without a food service program and in schools without the facilities to prepare and cook hot meals or receive hot meals to the number of children in all States enrolled in schools without a food service program and in schools without the facilities to prepare and cook hot meals or receive hot meals. In those States in which the Secretary administers the food service equipment assistance program in nonprofit private schools, the Secretary shall withhold from the funds apportioned to any such State under this subsection an amount which bears the same ratio to such funds as the number of children enrolled in nonprofit private schools without a food service program or without the facilities to prepare and cook hot meals or receive hot meals in such State bears to the total number of children enrolled in all schools without a food service program or without the facilities to prepare and cook hot meals or receive hot meals in such State. The funds so reserved, apportioned, and withheld shall be used by the State, or the Secretary in the case of nonprofit private schools, only to assist schools without a food service program and schools without the facilities to prepare and cook hot meals or receive hot meals. If any State cannot use all the funds apportioned to it under the provisions of this subsection, the Secretary shall make further apportionment to the remaining States for use only in assisting schools without a food service program and schools without the facilities to prepare and cook hot meals or receive hot meals. If after such further apportionment, any funds received under this subsection remain unused, the Secretary shall immediately apportion such funds among the States in accordance with the provisions of subsection (b) of this section. Payment to any State of funds under the provisions of this subsection shall be made upon the condition that at least one-fourth of the cost of the equipment financed shall be borne by funds from sources within the State, except that such condition shall not apply with respect to funds used under this subsection to assist schools that are especially needy, as determined by criteria established by each State and approved by the Secretary.

(3) adding at the end thereof a new subsection (f) to read as follows:

"(f) (1) Funds authorized for the purposes of this section shall be used only for facilities that enable schools, or local public or private nonprofit institutions under the conditions prescribed in paragraph (2) of this subsection, to prepare and cook hot meals or receive hot meals at the school or institution unless the school can demonstrate to the satisfaction of the State (or, in the case of nonprofit private schools in States where the Secretary administers the food service equipment program in such schools, to the satisfaction of the Secretary) that an alternative method of meal preparation is necessary for the introduction or continued existence of the school lunch or breakfast program in such school or to improve the consumption of food or the participation of eligible children in the program.

(2) If a school authorized to receive funds under this section...
cannot establish a food service program of hot meals prepared and cooked by the school, or received by the school, and the school enters into an agreement with a public or private nonprofit institution to provide the school lunch or breakfast program for children attending the school, the funds provided under this section may be used for food service facilities to be located at such institution, if (A) the school retains legal title to such facilities and, (B) in the case of funds made available under subsection (e) of this section, the institution would otherwise be without such facilities; "; and

(4) striking out the comma after "as amended" in subsection (a), inserting a period in lieu thereof, and striking out the remainder of the sentence.

COMMODITY DISTRIBUTION PROGRAM

Sec. 5. Section 6(b) of the National School Lunch Act is amended to read as follows:

"(b) Not later than May 15 of each school year, the Secretary shall make an estimate of the value of agricultural commodities and other foods that will be delivered during that school year to States for the school lunch program. If such estimated value is less than the total level of assistance authorized under subsection (e) of this section, the Secretary shall pay to each State educational agency, not later than June 15 of that school year, an amount of funds that is equal to the difference between the value of such deliveries as then programmed for such State and the total level of assistance authorized under subsection (e) of this section. In any State in which the Secretary directly administers the school lunch program in any of the schools of the State, the Secretary shall withhold from the funds to be paid to such State under the provisions of this subsection an amount that bears the same ratio to the total of such payment as the number of lunches served in schools in which the school lunch program is directly administered by the Secretary during that school year bears to the total of such lunches served under the school lunch program in all the schools in such State in such school year. Each State educational agency, and the Secretary in the case of private schools in which the Secretary directly administers the school lunch program, shall promptly and equitably disburse such funds to schools participating in the school lunch program, and such disbursements shall be used by such schools to purchase United States agricultural commodities and other foods for their food service program. Such foods shall be limited to the requirements for lunches and breakfasts for children as provided for in regulations issued by the Secretary."

PURCHASE OF FOODS FOR THE COMMODITY DISTRIBUTION PROGRAM

Sec. 6. Section 14 of the National School Lunch Act is amended by—

(1) striking out "September 30, 1977" in subsection (a) and inserting in lieu thereof "September 30, 1982"; and

(2) adding at the end thereof new subsections (c), (d), and (e) as follows:

"(c) The Secretary may use funds appropriated from the general fund of the Treasury to purchase agricultural commodities and their products of the types customarily purchased for donation under section 707(a)(4) of the Older Americans Act of 1965 (42 U.S.C. 3045f(a)(4)) or for cash payments in lieu of such donations under section 707(d)(1) of such Act (42 U.S.C. 3045f(d)(1)). There are hereby authorized to be appropriated such sums as are necessary to carry out the purposes of this subsection."

Sec. 5. Section 6(b) of the National School Lunch Act is amended to read as follows:

"(b) Not later than May 15 of each school year, the Secretary shall make an estimate of the value of agricultural commodities and other foods that will be delivered during that school year to States for the school lunch program. If such estimated value is less than the total level of assistance authorized under subsection (e) of this section, the Secretary shall pay to each State educational agency, not later than June 15 of that school year, an amount of funds that is equal to the difference between the value of such deliveries as then programmed for such State and the total level of assistance authorized under subsection (e) of this section. In any State in which the Secretary directly administers the school lunch program in any of the schools of the State, the Secretary shall withhold from the funds to be paid to such State under the provisions of this subsection an amount that bears the same ratio to the total of such payment as the number of lunches served in schools in which the school lunch program is directly administered by the Secretary during that school year bears to the total of such lunches served under the school lunch program in all the schools in such State in such school year. Each State educational agency, and the Secretary in the case of private schools in which the Secretary directly administers the school lunch program, shall promptly and equitably disburse such funds to schools participating in the school lunch program, and such disbursements shall be used by such schools to purchase United States agricultural commodities and other foods for their food service program. Such foods shall be limited to the requirements for lunches and breakfasts for children as provided for in regulations issued by the Secretary."

PURCHASE OF FOODS FOR THE COMMODITY DISTRIBUTION PROGRAM

Sec. 6. Section 14 of the National School Lunch Act is amended by—

(1) striking out "September 30, 1977" in subsection (a) and inserting in lieu thereof "September 30, 1982"; and

(2) adding at the end thereof new subsections (c), (d), and (e) as follows:

"(c) The Secretary may use funds appropriated from the general fund of the Treasury to purchase agricultural commodities and their products of the types customarily purchased for donation under section 707(a)(4) of the Older Americans Act of 1965 (42 U.S.C. 3045f(a)(4)) or for cash payments in lieu of such donations under section 707(d)(1) of such Act (42 U.S.C. 3045f(d)(1)). There are hereby authorized to be appropriated such sums as are necessary to carry out the purposes of this subsection."
“(d) In providing assistance under this Act and the Child Nutrition Act of 1966 for school lunch and breakfast programs, the Secretary shall establish procedures which will—

“(1) ensure that the views of local school districts and private nonprofit schools with respect to the type of commodity assistance needed in schools are fully and accurately reflected in reports to the Secretary by the State with respect to State commodity preferences and that such views are considered by the Secretary in the purchase and distribution of commodities and by the States in the allocation of such commodities among schools within the States;

“(2) solicit the views of States with respect to the acceptability of commodities;

“(3) ensure that the timing of commodity deliveries to States is consistent with State school year calendars and that such deliveries occur with sufficient advance notice;

“(4) provide for systematic review of the costs and benefits of providing commodities of the kind and quantity that are suitable to the needs of local school districts and private nonprofit schools; and

“(5) make available technical assistance on the use of commodities available under this Act and the Child Nutrition Act of 1966. Within eighteen months after the date of the enactment of this subsection, the Secretary shall report to Congress on the impact of procedures established under this subsection, including the nutritional, economic, and administrative benefits of such procedures. In purchasing commodities for programs carried out under this Act and the Child Nutrition Act of 1966, the Secretary shall establish procedures to ensure that contracts for the purchase of such commodities shall not be entered into unless the previous history and current patterns of the contracting party with respect to compliance with applicable meat inspection laws and with other appropriate standards relating to the wholesomeness of food for human consumption are taken into account.

“(e) Each State educational agency that receives food assistance payments under this section for any school year shall establish for such year an advisory council, which shall be composed of representatives of schools in the State that participate in the school lunch program. The council shall advise such State agency with respect to the needs of such schools relating to the manner of selection and distribution of commodity assistance for such program.”.

REFUSAL OF COMMODITIES

Sec. 7. Section 6(a) of the National School Lunch Act is amended by inserting immediately after the first sentence the following: “Any school participating in food service programs under this Act may refuse to accept delivery of not more than 20 percent of the total value of agricultural commodities and other foods tendered to it in any school year; and if a school so refuses, that school may receive, in lieu of the refused commodities, other commodities to the extent that other commodities are available to the State during that year.”.

ACCEPTANCE OF OFFERED FOODS

Sec. 8. The third sentence of section 9(a) of the National School Lunch Act is amended to read as follows: “Students in senior high schools that participate in the school lunch program under this Act..."
Appropriation authorization. 42 USC 1759a.

Sec. 9. Section 11(a) of the National School Lunch Act is amended by inserting immediately after the first sentence the following new sentences: "In the case of any school which determines that at least 80 percent of the children in attendance during a school year (hereinafter in this sentence referred to as the 'first school year') are eligible for free lunches or reduced-price lunches, special-assistance payments shall be paid to the State educational agency with respect to that school, if that school so requests for the school year following the first school year, on the basis of the number of free lunches or reduced-price lunches, as the case may be, that are served by that school during the school year for which the request is made, to those children who were determined to be so eligible in the first school year and the number of free lunches and reduced-price lunches served during that year to other children determined for that year to be eligible for such lunches. In the case of any school that (1) elects to serve all children in that school free lunches under the school lunch program during any period of three successive school years and (2) pays, from sources other than Federal funds, for the costs of serving such lunches which are in excess of the value of assistance received under this Act with respect to the number of lunches served during that period, special-assistance payments shall be paid to the State educational agency with respect to that school during that period on the basis of the number of lunches determined under the succeeding sentence. For purposes of making special-assistance payments in accordance with the preceding sentence, the number of lunches served by a school to children eligible for free lunches and reduced-price lunches during each school year of the three-school-year period shall be deemed to be the number of lunches served by that school to children eligible for free lunches and reduced-price lunches during the first school year of such period, unless that school elects, for purposes of computing the amount of such payments, to determine on a more frequent basis the number of children eligible for free and reduced-price lunches who are served lunches during such period."

PILOT PROJECTS

Sec. 10. The National School Lunch Act is amended by—

(1) inserting in section 6(a)(3) immediately after "participants in these programs" the following: "for pilot projects and the cash-in-lieu of commodities study required to be carried out under section 20 of this Act,"; and

(2) adding at the end thereof a new section 20 as follows:

"PILOT PROJECTS

Sec. 20. (a) The Secretary shall conduct pilot projects with respect to local school districts or other appropriate units, or groups of program participants, for the purpose of determining whether there may be more efficient, healthful, economical, and reliable methods of operating school lunch, school breakfast, and summer feeding pro-
grams under this Act and the Child Nutrition Act of 1966, and methods for operating such programs that will result in improved delivery of benefits thereunder in accordance with the purposes of such Acts. Such projects shall, notwithstanding any other provision of law, include (1) not more than ten projects providing participating schools or other institutions the option of receiving all or part cash assistance in lieu of commodities under such Acts for such nutrition programs operated in such schools or institutions, (2) projects designed to streamline or reduce reporting requirements by local school districts, and (3) projects using the United States Department of Agriculture Extension Service to aid in nutrition training and education in schools and other institutions.

"(b) The Secretary shall conduct a study to analyze the impact and effect of cash payments in lieu of commodities. The study shall be limited to a comparison between a State that phased out its commodity distribution facilities prior to June 30, 1974, and elected to receive cash payments in lieu of donated foods, and a State not eligible for cash payments in lieu of donated foods. Such study shall include an assessment of the administrative feasibility and nutritional impact of cash payments in lieu of donated foods, the cost savings, if any, that may be effected thereby at the Federal, State, and local levels, any additional costs that may be placed on programs and participating students, the impact on Federal programs designed to provide adequate income to farmers, the impact on the quality of food served, and the impact on plate waste in school lunch and breakfast programs.

"(c) The Secretary shall report to Congress, not later than eighteen months after the date of the enactment of this section, on the results of the pilot projects and study conducted under this section. In connection with such pilot projects, such report shall include an assessment of the methods employed in such projects for operating school lunch, school breakfast, and summer feeding programs, in terms of the following factors—

"(1) the administrative feasibility and nutritional impact;
(2) the cost savings that may be effected at Federal, State, and local levels;
(3) the impact on Federal programs designed to provide adequate income to farmers;
(4) the impact on the quality of food served; and
(5) the impact on plate waste."

SPECIAL MILK PROGRAM

Sect. 11. The fifth sentence of section 3 of the Child Nutrition Act of 1966 is amended to read as follows: "Children who qualify for free lunches under guidelines set forth by the Secretary shall also be eligible for free milk, when milk is made available at times other than the periods of meal service in outlets that operate a food service program under sections 4 and 17 of the National School Lunch Act and section 4 of this Act."

SCHOOL BREAKFAST PROGRAM

Sect. 12. Section 4 of the Child Nutrition Act of 1966 is amended by—

(1) inserting "(1)" after the subsection designation for subsection (b);
(2) striking out the last sentence in subsection (b); and
(3) adding at the end of subsection (b) a new paragraph (2) as follows:
“(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced-price meal at schools that are in severe need.

“(B) The maximum payment for each such free breakfast shall be the higher of—

“(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

“(ii) 45 cents, which shall be adjusted on a semiannual basis each July 1 and January 1 to the nearest one-fourth cent in accordance with changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor for the most recent six-month period for which such data are available, except that the initial such adjustment shall be made on January 1, 1978, and shall reflect the change in the series of food away from home during the period November 1, 1976, to October 31, 1977.

“(C) The maximum payment for each such reduced-price breakfast shall be five cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.”; and

(4) amending subsection (d) to read as follows:

“(d) Each State educational agency shall establish eligibility standards for providing additional assistance to schools in severe need where the rate per meal established by the Secretary is insufficient to carry out an effective breakfast program in such a school. Such eligibility standards shall be submitted to the Secretary for approval and included in the State plan of child nutrition operations required by section 11(e)(1) of the National School Lunch Act. Pursuant to these State eligibility standards, a school, upon the submission of appropriate documentation about the need circumstances in that school and the school’s eligibility for additional assistance, shall be entitled to receive 100 percent of the operating costs of the breakfast program, including the costs of obtaining, preparing, and serving food, or the meal reimbursement rate specified in paragraph (2) of section 4(b) of this Act, whichever is less.”.

REDUCTION OF PAPERWORK

Sec. 13. The National School Lunch Act is amended by adding at the end thereof a new section 21 as follows:

“REDUCTION OF PAPERWORK

Sec. 21. In carrying out functions under this Act and the Child Nutrition Act of 1966, the Secretary shall reduce, to the maximum extent possible, the paperwork required of State and local educational agencies, schools, and other agencies participating in child nutrition programs under such Acts. The Secretary shall report to Congress not later than one year after the date of enactment of this section on the extent to which a reduction in such paperwork has occurred.”.

STATE ADMINISTRATIVE EXPENSES

Sec. 14. Section 7 of the Child Nutrition Act of 1966 is amended to read as follows:

“Sec. 7. (a)(1) The Secretary shall pay to each State for its administrative costs incurred pursuant to the administration of this Act and the National School Lunch Act for the fiscal year ending
September 30, 1978, an amount equal to 1 percent, and for each of the fiscal years ending September 30, 1979, and September 30, 1980, an amount not less than 1 percent and not greater than 1 1/2 percent of the funds used by each State under sections 4, 11, and 17 of the National School Lunch Act and under sections 3, 4, and 5 of this Act during the second fiscal year preceding the fiscal year for which the amounts are to be paid: Provided, That in no case shall the payment to any State under this section be less than $75,000 per year nor shall any State receive less than the amount allocated to it for fiscal year 1977. The percentages specified in the foregoing sentence shall apply only to the first $100,000,000 in funds used under the prescribed sections of law. For those funds used that exceed $100,000,000, the Secretary shall pay an amount equal to 1 percent of such funds.

(2) The Secretary shall make available to States administering the child care food program, for the purpose of conducting audits of participating child care institutions, an amount up to 2 percent of the funds used by each State under section 17 of the National School Lunch Act during the second fiscal year preceding the fiscal year for which the amount is to be paid.

(b) The Secretary, in cooperation with the several States, shall develop State staffing standards for the administration by each State of sections 4, 11, and 17 of the National School Lunch Act, and sections 3, 4, and 5 of this Act, that will ensure sufficient staff for the planning and administration of programs covered by State administrative expenses.

(c) Funds paid to a State under subsection (a) of this section may be used to pay salaries, including employee benefits and travel expenses, for administrative and supervisory personnel; for support services; for office equipment; and for staff development.

(d) If any State agency agrees to assume responsibility for the administration of food service programs in nonprofit private schools or child care institutions that were previously administered by the Secretary, an appropriate adjustment shall be made in the administrative funds paid to the State under this section to the State not later than the succeeding fiscal year.

(e) Notwithstanding any other provision of law, funds available to each State under this section for fiscal year 1978 that are not obligated or expended in that fiscal year shall remain available for obligation and expenditure by that State in fiscal year 1979. For fiscal year 1979, and the succeeding fiscal year, the Secretary shall establish a date by which each State shall submit to the Secretary a plan for the disbursement of funds provided under this section for each such year, and the Secretary shall reallocate any unused funds, as evidenced by such plans, to other States as the Secretary deems appropriate.

(f) The State may use a portion of the funds available under this section to assist in the administration of the commodity distribution program.

(g) Each State shall submit to the Secretary for approval by October 1 of each year an annual plan for the use of State administrative expense funds, including a staff formula for State personnel, system level supervisory and operating personnel, and school level personnel.

(h) Payments of funds under this section shall be made only to States that agree to maintain a level of funding out of State revenues, for administrative costs in connection with programs under this Act (except section 17 of this Act) and the National School Lunch Act.
NUTRITION EDUCATION AND TRAINING

SEC. 15. The Child Nutrition Act of 1966 is amended by adding at the end thereof a new section 19 as follows:

"NUTRITION EDUCATION AND TRAINING

SEC. 19. (a) Congress finds that—

"(1) the proper nutrition of the Nation's children is a matter of highest priority;

"(2) the lack of understanding of the principles of good nutrition and their relationship to health can contribute to a child's rejection of highly nutritious foods and consequent plate waste in school food service operations;

"(3) many school food service personnel have not had adequate training in food service management skills and principles, and many teachers and school food service operators have not had adequate training in the fundamentals of nutrition or how to convey this information so as to motivate children to practice sound eating habits;

"(4) parents exert a significant influence on children in the development of nutritional habits and lack of nutritional knowledge on the part of parents can have detrimental effects on children's nutritional development; and

"(5) there is a need to create opportunities for children to learn about the importance of the principles of good nutrition in their daily lives and how these principles are applied in the school cafeteria.

"PURPOSE

"(b) It is the purpose of this section to encourage effective dissemination of scientifically valid information to children participating or eligible to participate in the school lunch and related child nutrition programs by establishing a system of grants to State educational agencies for the development of comprehensive nutrition information and education programs. Such nutrition education programs shall fully use as a learning laboratory the school lunch and child nutrition programs.

"DEFINITIONS

"(c) For purposes of this section, the term 'nutrition information and education program' means a multidisciplinary program by which scientifically valid information about foods and nutrients is imparted in a manner that individuals receiving such information will understand the principles of nutrition and seek to maximize their well-being through food consumption practices. Nutrition education programs shall include, but not be limited to, (A) instructing students with regard to the nutritional value of foods and the relationship between food and human health; (B) training school food service personnel in the principles and practices of food service management; (C) instructing teachers in sound principles of nutrition education; and (D) developing and using classroom materials and curricula.
“NUTRITION INFORMATION AND TRAINING

“(d) (1) The Secretary is authorized to formulate and carry out a nutrition information and education program, through a system of grants to State educational agencies, to provide for (A) the nutritional training of educational and food service personnel, (B) the food service management training of school food service personnel, and (C) the conduct of nutrition education activities in schools and child care institutions.

“(2) The program is to be coordinated at the State level with other nutrition activities conducted by education, health, and State Cooperative Extension Service agencies. In formulating the program, the Secretary and the State may solicit the advice and recommendations of the National Advisory Council on Child Nutrition; State educational agencies; the Department of Health, Education, and Welfare; and other interested groups and individuals concerned with improvement of child nutrition.

“(3) If a State educational agency is conducting or applying to conduct a health education program which includes a school-related nutrition education component as defined by the Secretary, and that health education program is eligible for funds under programs administered by the Department of Health, Education, and Welfare, the Secretary may make funds authorized in this section available to the Department of Health, Education, and Welfare to fund the nutrition education component of the State program without requiring an additional grant application.

“(4) The Secretary, in carrying out the provisions of this subsection, shall make grants to State educational agencies who, in turn, may contract with land-grant colleges eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503, as amended; 7 U.S.C. 301–305, 307, and 308), or the Act of August 30, 1890 (26 Stat. 417, as amended; 7 U.S.C. 321–326 and 328), including the Tuskegee Institute, other institutions of higher education, and nonprofit organizations and agencies, for the training of educational and school food service personnel with respect to providing nutrition education programs in schools and the training of school food service personnel in school food service management. Such grants may be used to develop and conduct training programs for early childhood, elementary, and secondary educational personnel and food service personnel with respect to the relationship between food, nutrition, and health; educational methods and techniques, and issues relating to nutrition education; and principles and skills of food service management for cafeteria personnel.

“(5) The State, in carrying out the provisions of this subsection, may contract with State and local educational agencies, land-grant colleges eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503, as amended; 7 U.S.C. 301–305, 307, and 308), or the act of August 30, 1890 (26 Stat. 417, as amended; 7 U.S.C. 321–326 and 328), including the Tuskegee Institute, other institutions of higher education, and other public or private nonprofit educational or research agencies, institutions, or organizations to pay the cost of pilot demonstration projects in elementary and secondary schools with respect to nutrition education. Such projects may include, but are not limited to, projects for the development, demonstration, testing, and evaluation of curricula for use in early childhood, elementary, and secondary education programs.

“(i) The Secretary of Commerce is authorized to acquire mariner class vessels constructed under title VII of this Act and Public Law 911, Eighty-first Congress, and other suitable vessels, constructed in the United States, which have never been under foreign documentation, in exchange for obsolete vessels in the National Defense Reserve Fleet. For purposes of this subsection, the trade-in and trade-out vessels shall be valued at the higher of their scrap value in domestic or foreign markets as of the date of the exchange: Provided, That in any exchange transactions, the value assigned to the traded-in and traded-out vessels will be determined on the same basis. The value of the traded-out vessels shall be as nearly as possible equal to the value of the traded-in vessel plus the fair value of the cost of towing the traded-out vessel to the place of scrapping. To the extent the value of the traded-out vessel exceeds the value of the traded-in vessel plus the fair value of the cost of towing, the owner of the traded-in vessel shall pay the excess to the Secretary of Commerce in cash at the time of exchange. This excess shall be deposited into the Vessel Operations Revolving Fund and all costs incident to the lay-up of the vessels acquired under this Act may be paid from balances in the Fund. No payments shall be made by the Secretary of Commerce to the owner of any traded-in vessel in connection with any exchange under this subsection. Notwithstanding the provisions of sections 9 and 37 of the Shipping Act, 1916, vessels traded out under this subsection may be scrapped in approved foreign markets. SEC. 2. Section 14(h)(8) of the Act of December 18, 1971 (85 Stat. 688, 705), is amended by designating the existing paragraph as paragraph "(A)" and adding the following new paragraph (B):

"(B) Such allocation as the Regional Corporation for southeastern Alaska shall receive under this paragraph shall be selected and conveyed from lands that were withdrawn by subsections 16(a) and 16(d) and not selected by the Village Corporations in southeastern Alaska; except lands on Admiralty Island in the Angoon withdrawal area and, without the consent of the Governor of the State of Alaska or his delegate, lands in the Saxman and Yakutat withdrawal areas are not available for selection or conveyance under this paragraph."

SEC. 3. (a) Subsection (b) of section 12 of the Act of January 2, 1976 (Public Law 94-204), as amended by the Act of October 4, 1976 (Public Law 95-156), is hereby amended to add at the end thereof the following new paragraphs:

Any provision of law to the contrary notwithstanding, if the Region, the Secretary, and/or the Administrator of General Services do not complete the nomination of lands referred to in subparagraphs (5) and (6) of this subsection by the dates set in subparagraphs I(C)(1)(b) and I(C)(2)(a) of the document referred to in this subsection, then, and in that event, these dates shall hereby automatically be extended by operation of this subsection for eighteen months. If these dates are hereby extended, the Secretary shall report to Congress at least thirty days prior to the occurrence of each such date as extended concerning the need for further remedial legislation.

Any provision of law to the contrary notwithstanding, the United States shall accept upon tender the State Deed of Title, including the State's legal descriptions, for lands to be reconveyed to the Cook Inlet Region, Incorporated, pursuant to subsection (a)(1) of this section without requiring further survey prior to acceptance. Unless the boundaries of such lands have been specifically identified in a survey approved by the State or Federal Government, such lands shall be described by a metes and bounds description, or by aliquot parts of the Federal rectangular survey system, based wherever possible upon the Federal surveys initially performed to effect transfer and patent of said lands to the State of Alaska. Upon acceptance of a State Deed of Title said lands are hereby withdrawn from entry under the public land laws. Within sixty days the Secretary shall, without adjudication, issue conveyance to said lands of the interests conveyed by the State subject to any lawful reservations of rights or conditions contained in such State conveyance, as provided in the Terms and Conditions document, to Cook Inlet Region, Incorporated, with patent to issue thereafter immediately following approval of survey. The Secre-
The Secretary is authorized hereby to identify and reserve within two years after initial conveyance any easement he could have lawfully reserved prior to conveyance, and to issue immediately thereafter a revised conveyance reflecting such reservation, subject to the agreement of January 18, 1977, between the Secretary of the Interior, Cook Inlet Region, Incorporated, and certain of the villages contained therein. The Secretary may initiate such easement identification and reservation procedure before the tender of the State Deed of Title, but initiation of such procedure shall not affect the timely issuance of conveyance by the Secretary as provided hereby.

(b) If any provision of this Act or the applicability thereof is held invalid, the validity of the remainder of this Act, of section 12 of the Act of January 2, 1976 (Public Law 94–204), as amended, of the document referred to in section 12(b) thereof, and the duties and obligations of the Secretary of the Interior, the State of Alaska, and Cook Inlet Region, Incorporated, with respect thereto, shall not be affected thereby.

Such assignments shall only be recognized to the extent that the Regional Corporation involved is not required to distribute funds pursuant to subsection (j) or (m) of section 7 of this Act.

“(b) The Secretary shall not recognize any assignment under this section which does not provide that the United States reserves the right to assert against the assignee and successors of the assignee, any setoff or counterclaim which the United States has against the assignor Corporation.

“(c) No stockholder of any Regional or Village Corporation shall have any claim against the Secretary or the United States as the result of any assignment duly recognized by the Secretary pursuant to this section.”.

commenced therein, the transaction may not thereafter be attacked in any judicial proceeding on the ground that it alone and of itself constituted a violation of any antitrust laws other than section 2 of the Act of July 2, 1890 (section 2 of the Sherman Antitrust Act, 15 U.S.C. 2), but nothing in this Act shall exempt any bank holding company involved in such a transaction from complying with the antitrust laws after the consummation of such transaction."

Public Law 95-192
95th Congress

An Act

To provide for furthering the conservation, protection, and enhancement of the Nation's soil, water, and related resources for sustained use, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Soil and Water Resources Conservation Act of 1977".

FINDINGS

Sec. 2. The Congress finds that:
(1) There is a growing demand on the soil, water, and related resources of the Nation to meet present and future needs.
(2) The Congress, in its concern for sustained use of the resource base, created the Soil Conservation Service of the United States Department of Agriculture which possesses information, technical expertise, and a delivery system for providing assistance to land users with respect to conservation and use of soils; plants; woodlands; watershed protection and flood prevention; the conservation, development, utilization, and disposal of water; animal husbandry; fish and wildlife management; recreation; community development; and related resource uses.
(3) Resource appraisal is basic to effective soil and water conservation. Since individual and governmental decisions concerning soil and water resources often transcend administrative boundaries and affect other programs and decisions, a coordinated appraisal and program framework are essential.

DEFINITIONS

Sec. 3. As used in this Act:
(1) The term "Secretary" means the Secretary of Agriculture.
(2) The term "soil, water, and related resources" means those resources which come within the scope of the programs administered and participated in by the Secretary of Agriculture through the Soil Conservation Service.
(3) The term "soil and water conservation program" means a set of guidelines for attaining the purposes of this Act.

DECLARATIONS OF POLICY AND PURPOSE: PROMOTION THEREOF

Sec. 4. (a) In order to further the conservation of soil, water, and related resources, it is declared to be the policy of the United States and purpose of this Act that the conduct of programs administered by the Secretary of Agriculture for the conservation of such resources shall be responsive to the long-term needs of the Nation, as determined under the provisions of this Act.
(b) Recognizing that the arrangements under which the Federal Government cooperates with State soil and water conservation agencies and other appropriate State natural resource agencies such as those concerned with forestry and fish and wildlife and, through conservation districts, with other local units of government and land users,
have effectively aided in the protection and improvement of the Nation's basic resources, including the restoration and maintenance of resources damaged by improper use, it is declared to be the policy of the United States that these arrangements and similar cooperative arrangements should be utilized to the fullest extent practicable to achieve the purpose of this Act consistent with the roles and responsibilities of the non-Federal agencies, landowners and land users.

(c) The Secretary shall promote the attainment of the policies and purposes expressed in this Act by—

(1) appraising on a continuing basis the soil, water, and related resources of the Nation;

(2) developing and updating periodically a program for furthering the conservation, protection, and enhancement of the soil, water, and related resources of the Nation consistent with the roles and program responsibilities of other Federal agencies and State and local governments; and

(3) providing to Congress and the public, through reports, the information developed pursuant to paragraphs (1) and (2) of this subsection, and by providing Congress with an annual evaluation report as provided in section 7.

APPRAISAL

Sec. 5. (a) In recognition of the importance of and need for obtaining and maintaining information on the current status of soil, water, and related resources, the Secretary is authorized and directed to carry out a continuing appraisal of the soil, water, and related resources of the Nation. The appraisal shall include, but not be limited to—

(1) data on the quality and quantity of soil, water, and related resources, including fish and wildlife habitats;

(2) data on the capability and limitations of those resources for meeting current and projected demands on the resource base;

(3) data on the changes that have occurred in the status and condition of those resources resulting from various past uses, including the impact of farming technologies, techniques, and practices;

Public Law 95–200
95th Congress

An Act

To provide improved authority for the administration of certain National Forest System lands in Oregon.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

PREAMBLE

The Congress finds that an area of land in the State of Oregon known variously as the Bull Run National Forest and the Bull Run Forest Reserve is presently the source of the sole domestic water supply for the city of Portland, Oregon (hereinafter called the "city") and other local governmental units and persons in the Portland metropolitan area, reserved for the city by a Presidential proclamation issued in 1892 and furnishing an extremely valuable resource of pure clear raw potable water, the continued production of which should be the principal management objective in the area hereinafter referred to as "the unit"; that the said area is now managed under terms of a Federal court decree issued pursuant to turn of the century law which does not appropriately address present and future needs and opportunities for the protection, management, and utilization of the resources contained therein.

DESIGNATION OF UNIT

SEC. 1. There is hereby established, subject to valid existing rights, a special resources management unit within the Mount Hood National Forest, State of Oregon, comprising approximately 95,382 acres as depicted on a map dated April 1977, and entitled "Bull Run Watershed Management Unit, Mount Hood National Forest", which is on file and available for public inspection in the offices of the Chief, and the Regional Forester—Pacific Northwest Region, Forest Service, Department of Agriculture, minor adjustments in the boundaries of which may be made from time to time by the Secretary of Agriculture (hereinafter the "Secretary") after consultation with the city and appropriate public notice and hearings.

MANAGEMENT

SEC. 2. (a) The unit and the renewable resources therein, shall be administered as a watershed by the Secretary of Agriculture in accordance with the laws, rules, and regulations applicable to National Forest System lands except to the extent that any management plan or practice is found by the Secretary to have a significant adverse effect on compliance with the water quality standards referred to in section 2(b) hereof or on the quantity of the water produced thereon for the use of the city, and other local government units and persons using such water under agreements with the city (and the Secretary shall take into consideration the cumulative effect of individually insignificant degradations), in which case, and notwithstanding any other provision of law, the management plan and all relevant leases,
permits, contracts, rights-of-way, or other rights or authorizations issued pursuant thereto shall forthwith be altered by the Secretary to eliminate such adverse effect by application of different techniques or prohibitions of one or more such practices or uses: Provided, however, That use of such water for the production of energy and the transmission of such energy through and over the unit are deemed consistent with the purposes of this Act and the rights-of-way herefore granted to Bonneville Power Administration by the Forest Service through and over the unit are validated and confirmed and deemed consistent with the purposes of this Act.

(b) The policy set forth in subsection (a) shall be attained through the development, maintenance, and periodic revision of land management plans in accordance with procedures set forth in section 5 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (88 Stat. 477, as amended; 16 U.S.C. 1604), through the maintenance of systems for monitoring and evaluating water quality, and through supporting scientific research as the Secretary may deem necessary after consultation and in coordination with the city. In the development and revision of land management plans for the unit, the Secretary, except as otherwise provided in section 2(a) hereof, shall provide for public participation and shall consult and coordinate with appropriate officials and advisors of the city, and shall consider such data and research as the city may collect through its own monitoring systems and scientific efforts, if any. Such plans shall be prepared by an interdisciplinary team, be embodied in appropriate written material, including maps and other descriptive documents; shall contain water quality standards developed by the Secretary after consultation and in cooperation with the city, which standards shall be substantially based on and shall reflect a quality of water not significantly less than the quality reflected by percentile curves developed from data collected from 1967 through 1975 and, if none, from data collected in the first three years of record thereafter; and be available to the public at convenient locations. The initial plan or plans shall be completed as soon as practicable after the enactment of this Act, but not later than September 30, 1979. Current data shall be compared to historical data at least annually for the purpose of determining compliance with the standards and the significance of any deviation therefrom. Deviations occurring from operation, maintenance, alteration, or construction of water storage, or electrical generation and transmission facilities, seasonal fluctuations, variations in climate, and other natural phenomena, fire, or acts of God, shall not be considered in determining the historical or current percentile curves.

(c) The Secretary or his representative shall, upon request, and at least annually, meet with appropriate officials of the city for the purpose of reviewing planned management programs and the impact thereof on the quality and quantity of the water produced on the unit and assuring that their respective management and operational activities within the unit are appropriately coordinated. The Secretary shall negotiate in good faith cooperative agreements with appropriate officials of the city to effectuate activity coordination.

(d) In the event there is disagreement between the city and the Secretary with respect to the development or revision of the water quality standards provided for herein, or with respect to the effect or the significance of such effect of one or more proposed or existing programs, practices, uses, regulations, or boundary adjustments (except as otherwise specifically provided for herein), on the quantity of the water produced on said unit, or on compliance with the water...
quality standards referred to in section 2 (a) and (b) hereof and, therefore, with respect to the necessity for an alteration or prohibition of any such program, practice, use, regulation, or boundary adjustment as required in section 2 (a) hereof, an arbitration board for resolving such disagreements shall be established. The Secretary and the city shall, each, forthwith appoint one member to such board and those two members shall select a third. In the event agreement cannot be reached on the third member within seven days after the appointment of the first two, the third member shall be appointed by the presiding judge of the United States District Court for the District of Oregon within seven days after being notified of such disagreement by either of the first two members. All of said members shall be qualified to make a scientific determination of the facts. The contentions of the city and the Secretary shall be submitted to the board in the form of written contentions of fact together with the evidence and analysis that tends to support the position being presented. The board shall forthwith consider and decide, on a scientific basis, the issues in disagreement by majority vote, taking into consideration the evidence and data presented by the parties and such other tests and data which the board by majority vote may require. The decision of such board shall be in the form of written findings of fact and conclusions based thereon and shall be final and binding on the parties. The Secretary and the city shall compensate their designees and share equally the compensation of the third member, and shall provide such technical and administrative support as required.

(e) The Secretary is authorized, after consultation with the city, to promulgate regulations for controlling entry into the unit by all persons including but not limited to—

(1) employees or contractors of the city engaged in the inspection, maintenance, construction, or improvement of the city’s facilities;

(2) (i) Federal, State, and local government officers and (ii) employees thereof acting in an official capacity;

(3) Federal, State, and local government permittees and contractors conducting authorized activities;

(4) members of advisory groups formed pursuant to this Act or ordinances of the city in the performance of their official duties: Provided, That no regulation promulgated pursuant to this subsection shall prohibit ingress or egress to non-Federal lands or to authorized occupancies on, or uses of, Federal lands: Provided further, That the Secretary may independently and directly prohibit or restrict all entry into the unit during fire or other emergencies as he may determine.

EFFECT ON OTHER LAWS

SEC. 3. (a) Nothing in this Act shall terminate or affect any lease, permit, contract, patent, right-of-way, or other land use right or authorization existing on the date of approval of this Act and otherwise valid except for the provisions of section 1862 of title 18 of the United States Code.

(b) Nothing in this Act shall in any way affect any law governing appropriation or use of, or Federal right to, water on National Forest System lands; or as expanding or diminishing Federal, State, or local jurisdiction, responsibility, interests, or rights in water resources development or control.

16 USC 482b note.
(c) Section 1862 of title 18 of the United States Code is hereby repealed.

(d) Except as otherwise provided for herein, this Act shall take precedence over and supersede all State and local laws dealing with or affecting the subject matter of this Act.

(e) Challenge to actions taken by any governmental unit or official under the provisions of this Act shall not be sustained by any court except upon a showing of arbitrary, unreasonable, capricious, or illegal action or an absence of substantial good faith compliance with the procedural provisions hereof substantially prejudicing the rights of an interested party.

(a) Beginning on the date the instrument of ratification is deposited by the United States in accordance with the provisions of article VII of the Convention, for new containers, and beginning on September 6, 1982, for existing containers, the owner of each such container—

(1) who is domiciled and has his principal office in the United States, shall have each such container initially approved in accordance with the procedure established by the Secretary or by the administration of another contracting party to the Convention; and shall, thereafter, have each such container periodically examined, as provided in the Convention, in accordance with the procedure established by the Secretary; and

(a) On and after the date the instrument of ratification is deposited by the United States in accordance with the provisions of article VII of the Convention, the Secretary shall enforce and carry out the provisions of the Convention, and, unless an earlier date is specifically provided, the provisions of this Act, in the United States.

(b) The Secretary shall, as soon as practicable after the date of enactment of this Act, promulgate, and from time to time, amend, those regulations he deems necessary for such enforcement. Such regulations, among other things, shall—

(1) establish procedures for the testing, inspection, and initial approval of existing and new containers and of designs for new containers, including procedures relating to the affixing, invalidating, and removal of safety approval plates for containers;

(2) establish procedures to be followed by owners of containers relating to the periodic examination of containers, as provided in the Convention; and

(3) provide a method for developing, collecting, and disseminating data concerning container safety and the international transport of containers.
(c) At any time after the date of enactment of this Act, the Secretary may—

The Secretary may permit the movement to another location of a container which he finds to be unsafe or which does not have a valid safety approval plate affixed to it, under whatever restriction he considers necessary and consistent with the intent of the Convention, for repair or other appropriate disposition.

Each day the container remains in service while the order is in effect shall be treated as a separate violation.

(b) The Secretary shall assess and collect any penalty incurred under this section, and, in his discretion may remit, mitigate, or compromise any such penalty. No penalty shall be assessed until after the person charged has been given notice and an opportunity for a hearing. In assessing, remitting, mitigating, or compromising a penalty the Secretary shall consider the gravity of the violation, the hazards involved, and the record of the person charged with respect to violations of this Act or of the Convention. Upon failure of any person to pay any penalty assessed against him by the Secretary, the Secretary shall request the Attorney General to begin an action in any district court of the United States to recover the amount of the penalty unpaid.

(b) An employee who believes that he has been discharged or discriminated against in violation of this section may, within 60 days after the violation occurs, file a complaint alleging discrimination with the Secretary of Labor.

(c) The Secretary of Labor may investigate the complaint and, if he determines that this section has been violated, bring an action in an appropriate United States district court. The district court shall have jurisdiction to restrain violations of subsection (a) of this section and to order appropriate relief, including rehiring and reinstatement of the employee to his former position with back pay.

(d) Within 30 days after the receipt of a complaint filed under this section the Secretary of Labor shall notify the complainant of his intended action regarding the complaint.

(c) The Secretary of Health, Education, and Welfare (hereinafter in this Act referred to as the “Secretary”) shall conduct a study of the feasibility and desirability of imposing a copayment for each visit to a rural health clinic for rural health clinic services under part B of title XVIII of the Social Security Act, instead of the deductible and coinsurance amounts otherwise required under section 1833 of such Act with respect to the provision of such services. The Secretary shall report to the appropriate committees of Congress, not later than one year after the date of enactment of this Act, on such study and on any recommendations he may have for changes in the provisions of part B of title XVIII of the Social Security Act to reflect the findings of such study.

(d) Section 1861 of such Act is amended by adding at the end thereof the following new subsection:

“(aa) (1) The term ‘rural health clinic services’ means—

“(A) physicians’ services and such services and supplies as are covered under section 1861 (s) (2)(A) if furnished as an incident to a physician’s professional service,
“(B) such services furnished by a physician assistant or by a
nurse practitioner and such services and supplies furnished as an
incident to his service as would otherwise be covered if furnished
by a physician or as an incident to a physician’s service, and
“(C) in the case of a rural health clinic located in an area in
which there exists a shortage of home health agencies, part-time
or intermittent nursing care and related medical supplies (other
than drugs and biologicals) furnished by a registered professional
nurse or licensed practical nurse to a homebound individual under
a written plan of treatment (i) established and periodically
reviewed by a physician described in paragraph (2)(B), or (ii)
established by a nurse practitioner or physician assistant and
periodically reviewed and approved by a physician described in
paragraph (2)(B),
when furnished to an individual as an outpatient of a rural health
clinic.
“(2) The term ‘rural health clinic’ means a facility which—
“(A) is primarily engaged in furnishing to outpatients services
described in subparagraphs (A) and (B) of paragraph (1);

clinic, has an arrangement (consistent with the provisions of State
and local law relative to the practice, performance, and delivery of
health services) with one or more physicians (as defined in sub-
section (r)(1)) under which provision is made for the periodic
review by such physicians of covered services furnished by phy-
sician assistants and nurse practitioners, the supervision and
guidance by such physicians of physician assistants and nurse
practitioners, the preparation by such physicians of such medical
orders for care and treatment of clinic patients as may be neces-
sary, and the availability of such physicians for such referral of
and consultation for patients as is necessary and for advice and
assistance in the management of medical emergencies; and, in the
case of a physician-directed clinic, has one or more of its staff
physicians perform the activities accomplished through such an
arrangement;
“(C) maintains clinical records on all patients;

agreements in effect under section 1886, for the referral and admis-
sion of patients requiring inpatient services or such diagnostic or
other specialized services as are not available at the clinic;

of (and with provision for review of such policies from time to
time by) a group of professional personnel, including one or more
physicians and one or more physician assistants or nurse practi-
tioners, to govern those services described in paragraph (1) which

Secretary, and has prompt access to additional diagnostic services
from facilities meeting requirements under this title;
“(H) in compliance with State and Federal law, has available

“(I) has appropriate procedures for review of utilization of clinic services to the extent that the Secretary determines to be necessary and feasible; and

A facility that is in operation and qualifies as a rural health clinic under this title or title XIX and that subsequently fails to satisfy the requirement of clause (i) shall be considered, for purposes of this title and title XIX, as still satisfying the requirement of such clause.

“(3) The term ‘physician assistant’ and the term ‘nurse practitioner’ mean, for the purposes of paragraphs (1) and (2), a physician assistant or nurse practitioner who performs such services as such individual is legally authorized to perform (in the State in which the individual performs such services) in accordance with State law (or the State regulatory mechanism provided by State law), and who meets such training, education, and experience requirements (or any combination thereof) as the Secretary may prescribe in regulations.”.

(e) Any private, nonprofit health care clinic that—

(1) on July 1, 1977, was operating and located in an area which on that date (A) was not an urbanized area (as defined by the Bureau of the Census) and (B) had a supply of physicians insufficient to meet the needs of the area (as determined by the Secretary), and

(2) meets the definition of a rural health clinic under section 1861(aa)(2) or section 1905(1) of the Social Security Act, except for clause (i) of section 1861(aa)(2),

shall be considered, for the purposes of title XVIII or XIX, respectively, of the Social Security Act, as satisfying the definition of a rural health clinic under such section.

Public Law 95–215
95th Congress

An Act

To amend the conditions for schools receiving capitation grants under section 770 of such Act, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 771(b)(3) of the Public Health Service Act is amended to read as follows:

"(3) (A) Except as provided under subparagraph (D), a school of medicine may not receive a grant under section 770 to be made in the fiscal year ending September 30, 1978, unless its application for such grant contains or is supported by assurances satisfactory to the Secretary that such school will increase its enrollment of full-time, third-year students as prescribed by subparagraph (B).

"(B) The enrollment increase referred to in subparagraph (A) is an enrollment increase in a school of medicine—

"(i) which is to occur in school year 1978-1979,

"(ii) in the number of full-time, third-year students over the number of full-time, second-year students who successfully completed the second-year program of such school in the preceding school year and enrolled in the third-year class of such school, and

"(iii) which is not less than 5 per centum of the number of—

"(I) full-time, first-year students enrolled in such school in school year 1977-1978, or

"(II) full-time, third-year students enrolled in such school in school year 1977-1978,

whichever is less.

"(C) In determining the number of full-time, third-year students enrolled in a school in a school year in which an increase is required by subparagraph (B) (i)—

"(i) full-time, third-year students of such school who were not second-year students in such school and—

"(I) who are not citizens of the United States,

"(II) who were previously enrolled in a school of medicine to which the requirement of subparagraph (A) applies,

"(III) who were previously enrolled in a school of medicine to which the requirement of subparagraph (A) does not apply because of subparagraph (D) and for whom a position in the third-year class of such school was available in such school year,

"(IV) who first enrolled after October 12, 1976, in a school of medicine not in a State,

"(V) who were previously enrolled in a school of dentistry or a school of osteopathy, or

"(VI) who were previously enrolled in a school of medicine which is in a State and which is not accredited by the body or bodies approved for such purpose by the Commissioner of Education, shall not be counted; and

[42 USC 295f-1, enrollment criteria, public health service act, amendment]
“(ii) full-time, second-year students enrolled in such year who are citizens of the United States and who were first enrolled before October 12, 1976, in a school of medicine not in a State shall be counted as third-year students.

Waiver.

“(D) The Secretary may waive (in whole or in part) the requirement of subparagraph (A) for a school of medicine—

“(i) if the Secretary determines, after receiving the written recommendation of the appropriate accreditation body or bodies (approved for such purpose by the Commissioner of Education) that compliance by such school with such requirement will prevent it from maintaining its accreditation;

“(ii) upon a finding that, because of the inadequate size of the population served by the hospital or clinical facility in which such school conducts its clinical training, an increase in its enrollment of third-year students to meet such requirement will prevent it from providing high quality clinical training for each of its third-year students; or

“(iii) if the Secretary determines that such school has made a good faith effort to meet the requirement of subparagraph (A) but has been unable to meet such requirement solely because there is an insufficient number of students who, under this paragraph, are eligible to be counted in determining if the school has met such requirement.

The requirement of subparagraph (A) does not apply to the application of a school of medicine for a grant under section 770 if in school year 1977-1978 such school had an enrollment of full-time, first-year students which exceeded its enrollment in such school year of full-time, third-year students by at least 25 per centum.

“(E) A school of medicine which did not receive a grant under section 770 because it did not comply with the applicable requirements of this paragraph shall not be eligible to receive a grant under such section to be made in the fiscal year ending September 30, 1979, or in the next fiscal year.”.

“(i) under section 215(a) as in effect in December 1978, for purposes of old-age insurance benefits in the case of an individual who becomes eligible for such benefits prior to 1984, or
“(ii) as provided by section 215(d), in the case of an individual to whom such section applies.

In determining whether an individual's primary insurance amount would be greater if computed or recomputed as provided in subparagraph (B), (I) the table of benefits in effect in December 1978 shall be applied without regard to any increases in that table which may become effective (in accordance with subsection (i) (4)) for years after 1978 (subject to clause (iii) of subsection (i) (2) (A) but without regard to clauses (iv) and (v) thereof) and (II) such individual's average monthly wage shall be computed as provided by subsection (b) (4).

“(II) the average of the total wages (as so defined and computed) reported to the Secretary of the Treasury or his
delegate for the computation base year for which the determination is made.

“(B) Wages paid in or self-employment income credited to an individual's computation base year which—

“(i) occurs after the second calendar year specified in subparagraph (A) (ii) (I), or

“(A) The individual's average monthly wage shall be determined as provided in subsection (b), as in effect in December 1977 (but without regard to paragraph (4) thereof), except that for purposes of paragraphs (2) (C) and (3) of that subsection (as so in effect) 1936 shall be used instead of 1950.

“(B) For purposes of subparagraphs (B) and (C) of subsection (b) (2) (as so in effect)—

“(i) the total wages prior to 1951 (as defined in subparagraph (C) of this paragraph) of an individual who attained age 21 after 1936 and prior to 1950 shall be divided by the number of years (hereinafter in this subparagraph referred to as the 'divisor') elapsing after the year in which the individual attained age 20 and prior to 1951; and

“(ii) the total wages prior to 1951 (as defined in subparagraph (C) of this paragraph) of an individual who attained age 21 after 1949 shall be divided by the number of years (hereinafter in this subparagraph referred to as the 'divisor') elapsing after 1949 and prior to 1951.
The quotient so obtained shall be deemed to be the individual’s wages credited to each of the years which were used in computing the amount of the divisor, except that—

“(iii) if the quotient exceeds $3,000, only $3,000 shall be deemed to be the individual’s wages for each of the years which were used in computing the amount of the divisor, and the remainder of the individual’s total wages prior to 1951 (I) if less than $3,000, shall be deemed credited to the year immediately preceding the earliest year used in computing the amount of the divisor, or (II) if $3,000 or more, shall be deemed credited, in $3,000 increments, to the year immediately preceding the earliest year used in computing the amount of the divisor and to each year consecutively preceding that year, with any remainder less than $3,000 being credited to the year immediately preceding the earliest year to which a full $3,000 increment was credited; and

“(iv) no more than $42,000 may be taken into account, for purposes of this subparagraph, as total wages after 1936 and prior to 1951.”.

42 USC 415.

(2) Section 215(d)(1)(D) of such Act is amended to read as follows:

“(D) The individual’s primary insurance benefit shall be 40 percent of the first $50 of his average monthly wage as computed under this subsection, plus 10 percent of the next $200 of his average monthly wage, increased by 1 percent for each increment year. The number of increment years is the number, not more than 14 nor less than 4, that is equal to the individual’s total wages prior to 1951 divided by $1,650 (disregarding any fraction).”.

(3) Section 215(d)(3) of such Act is amended (A) by striking out “in the case of an individual” and all that follows and inserting in lieu thereof the following “in the case of an individual who had a period of disability which began prior to 1951, but only if the primary insurance amount resulting therefrom is higher than the primary insurance amount resulting from the application of this section (as amended by the Social Security Amendments of 1967) and section 42 USC 420.”.

(4) Section 215(d) of such Act is further amended by adding at the end thereof the following new paragraph:

“(4) The provisions of this subsection as in effect in December 1977 shall be applicable to individuals who become eligible for old-age or disability insurance benefits or die prior to 1978.”.

(e) Section 215(e) of such Act is amended—

(1) by striking out “average monthly wage” each place it appears and inserting in lieu thereof “average indexed monthly earnings or, in the case of an individual whose primary insurance amount is computed under section 215(a) as in effect prior to January 1979, average monthly wage,” and

(2) by inserting immediately before “of (A)” in paragraph (1) the following: “(before the application, in the case of average indexed monthly earnings, of subsection (b) (3) (A))”.

Recomputation.

(f) (1) Section 215(f)(2) of this Act is amended to read as follows:

“(2) (A) If an individual has wages or self-employment income for a year after 1978 for any part of which he is entitled to old-age or disability insurance benefits, the Secretary shall, at such time or times and within such period as he may by regulation prescribe, recomputate the individual’s primary insurance account for that year.
(B) For the purpose of applying subparagraph (A) of subsection (a)(1) to the average indexed monthly earnings of an individual to whom that subsection applies and who receives a recomputation under this paragraph, there shall be used, in lieu of the amounts established by subsection (a)(1)(B) for purposes of clauses (i) and (ii) of subsection (a)(1)(A), the amounts so established that were (or, in the case of an individual described in subsection (a)(4)(B), would have been) used in the computation of such individual’s primary insurance amount prior to the application of this subsection.

“(C) A recomputation of any individual’s primary insurance amount under this paragraph shall be made as provided in subsection (a)(1) as though the year with respect to which it is made is the last year of the period specified in subsection (b)(2)(B)(ii); and subsection (b)(3)(A) shall apply with respect to any such recomputation as it applied in the computation of such individual’s primary insurance amount prior to the application of this subsection.

“(D) A recomputation under this paragraph with respect to any year shall be effective—

“(i) in the case of an individual who did not die in that year, for monthly benefits beginning with benefits for January of the following year; or

“(ii) in the case of an individual who died in that year, for monthly benefits beginning with benefits for the month in which he died.”

(2) Section 215(f)(3) of such Act is repealed.

(3) Section 215(f)(4) of such Act is amended to read as follows:

“(4) A recomputation shall be effective under this subsection only if it increases the primary insurance amount by at least $1.”

(4) Section 215(f) of such Act is further amended by adding at the end thereof the following new paragraphs:

“(7) This subsection as in effect in December 1978 shall continue to apply to the recomputation of a primary insurance amount computed under subsection (a) or (d) as in effect (without regard to the table in subsection (a)) in that month, and, where appropriate, under subsection (d) as in effect in December 1977. For purposes of recomputing a primary insurance amount determined under subsection (a) or (d) (as so in effect) in the case of an individual to whom those subsections apply by reason of subsection (a)(4)(B) as in effect after December 1978, no remuneration shall be taken into account for the year in which the individual initially became eligible for an old-age or disability insurance benefit or died, or for any year thereafter.

“(8) The Secretary shall recompute the primary insurance amounts applicable to beneficiaries whose benefits are based on a primary insurance amount which was computed under subsection (a) or (d) as in effect prior to January 1979, or would have been so computed if the dollar amount specified therein were $11.50. Such recomputation shall be effective January 1979, and shall include the effect of the increase in the dollar amount provided by subsection (a)(1)(C)(i)(II). Such primary insurance amount shall be deemed to be provided under such section for purposes of subsection (i).”.

(9) (1) Section 215(i)(2)(A)(ii) of such Act is amended to read as follows:

“(ii) If the Secretary determines that the base quarter in any year is a cost-of-living computation quarter, he shall, effective with the month of June of that year as provided in subparagraph (B), increase—

Repeal. 42 USC 415.

Cost-of-living computation quarter.
“(I) the benefit amount to which individuals are entitled for that month under section 227 or 228,
“(II) the primary insurance amount of each other individual on which benefit entitlement is based under this title (including a primary insurance amount determined under subsection (a) (1) (C) (i) (I), but subject to the provisions of such subsection (a) (1) (C) (i) and clauses (iv) and (v) of this subparagraph), and
“(III) the amount of total monthly benefits based on any primary insurance amount which is permitted under section 203 (and such total shall be increased, unless otherwise so increased under another provision of this title, at the same time as such primary insurance amount) or, in the case of a primary insurance amount computed under subsection (a) as in effect (without regard to the table contained therein) prior to January 1979, the amount to which the beneficiaries may be entitled under section 203 as in effect in December 1978, except as provided by section 203 (a) (6) and (7) as in effect after December 1978.

The increase shall be derived by multiplying each of the amounts described in subdivisions (I), (II), and (III) (including each of those amounts as previously increased under this subparagraph) by the same percentage (rounded to the nearest one-tenth of 1 percent) as the percentage by which the Consumer Price Index for that cost-of-living computation quarter exceeds such index for the most recent prior calendar quarter which was a base quarter under paragraph (1) (A) (ii) or, if later, the most recent cost-of-living computation quarter under paragraph (1) (B); and any amount so increased that is not a multiple of $0.10 shall be increased to the next higher multiple of $0.10. Any increase under this subsection in a primary insurance amount determined under subparagraph (C) (i) (II) of subsection (a) (1) shall be applied after the initial determination of such primary insurance amount under that subparagraph (with the amount of such increase, in the case of an individual who becomes eligible for old-age or disability insurance benefits or dies in a calendar year after 1979, being determined from the range of possible primary insurance amounts published by the Secretary under the last sentence of subparagraph (D)).

(2) Section 215 (i) (2) (A) of such Act is amended by adding at the end thereof the following new clauses:
“(iii) In the case of an individual who becomes eligible for an old-age or disability insurance benefit, or who dies prior to becoming so eligible, in a year in which there occurs an increase provided under clause (ii), the individual’s primary insurance amount (without regard to the time of entitlement to that benefit) shall be increased (unless otherwise so increased under another provision of this title and, with respect to a primary insurance amount determined under subsection (a) (1) (C) (i) (I), subject to the provisions of subsection (a) (1) (C) (i) and clauses (iv) and (v) of this subparagraph) by the amount of that increase and subsequent applicable increases, but only with respect to benefits payable for months after May of that year.
“(iv) (I) In the case of an individual who is entitled to an old-age insurance benefit that is based on a primary insurance amount determined under subsection (a) (1) (C) (i) (I), such primary insurance amount shall not be increased under this subsection for any year before the year in which occurs the first month with respect to which there is payable to such individual all or some part of such benefit after application of the provisions of section 203 relating to deductions on account of work, or, if earlier, the year in which he attains age 65.
“(II) In the case of an individual who is entitled to an insurance benefit under subsection (e) or (f) of section 202 that is based on a primary insurance amount determined under subsection (a)(1)(C)(i)(I), such primary insurance amount shall not be increased under this subsection for any year (except as provided in subdivision (III)) before the year in which occurs the first month with respect to which there is payable to such individual all or some part of such benefit after application of the provisions of section 203 relating to deductions on account of work, or, if earlier, the year in which he attains age 65.

“(III) Any increase under this subsection which would otherwise be applied to a primary insurance amount except for the provisions of subdivision (II) of this clause, shall apply to such primary insurance amount if, during any month of the year in which the increase occurs, any individual is entitled to a benefit under subsection (d), (g), or (h) of section 202 based on such primary insurance amount, and such primary insurance amount is based upon the wages and self-employment income of a deceased individual.

“(IV) No primary insurance amount determined under subsection (a)(1)(C)(i)(I) shall be increased under this subsection for any year during which no individual was entitled to any benefit based thereon under section 202 or 223 for any month of such year.

“(V) In any case in which an increase under this subsection which occurs during any year applies to a primary insurance amount determined under subsection (a)(1)(C)(i)(I), and such an increase occurring in a later year does not apply to such primary insurance amount on account of the provisions of this clause, any such increase which occurs in a later year which is applicable to such primary insurance amount shall be based upon such primary insurance amount as previously increased under this subsection.

“(V) Notwithstanding clause (iv), no primary insurance amount shall be less than that provided under section 215(a)(1) without regard to subparagraph (C)(i)(I) thereof, as subsequently increased by applicable increases under this section.”.

(3) Section 215(i)(2)(D) of such Act (as amended by section 103(d) of this Act) is further amended by striking out all that follows the first sentence and inserting in lieu thereof the following: “He shall also publish in the Federal Register at that time (i) a revision of the range of the primary insurance amounts which are possible after the application of this subsection based on the dollar amount specified in subparagraph (C)(i)(II) of subsection (a)(1) (with such revised primary insurance amounts constituting the increased amounts determined for purposes of such subparagraph (C)(i)(II) under this subsection), or specified in subsection (a)(1) as in effect prior to 1979, and (ii) a revision of the range of maximum family benefits which correspond to such primary insurance amounts (with such maximum benefits being effective notwithstanding section 203(a) except for paragraph (3)(B) thereof (or paragraph (2) thereof as in effect prior to 1979)).”.

(4) Section 215(i) of such Act is further amended by adding at the end thereof the following new paragraph:

“(4) This subsection as in effect in December 1978 shall continue to apply to subsections (a) and (d), as then in effect, for purposes of computing the primary insurance amount of an individual to whom subsection (a), as in effect after December 1978, does not apply (including an individual to whom subsection (a) does not apply in any year by reason of paragraph (4)(B) of that subsection (but the...
application of this subsection in such cases shall be modified by the application of subdivision (I) in the last sentence of paragraph (4) of that subsection). For purposes of computing primary insurance amounts and maximum family benefits (other than primary insurance amounts and maximum family benefits for individuals to whom such paragraph (4) (B) applies), the Secretary shall publish in the Federal Register revisions of the table of benefits contained in subsection (a), as in effect in December 1978, as required by paragraph (2) (D) of this subsection as then in effect.”

MAXIMUM BENEFITS

Sec. 202. The text of section 203(a) of the Social Security Act is amended to read as follows:

“(a)(1) In the case of an individual whose primary insurance amount has been computed or recomputed under section 215(a)(1) or (4), or section 215(d), as in effect after December 1978, the total monthly benefits to which beneficiaries may be entitled under section 202 or 223 for a month on the basis of the wages and self-employment income of such individual shall, except as provided by paragraph (3) (but prior to any increases resulting from the application of paragraph (2) (A) (ii) (III) of section 215(i)), be reduced as necessary so as not to exceed—

(A) 150 percent of such individual’s primary insurance amount to the extent that it does not exceed the amount established with respect to this subparagraph by paragraph (2),

(B) 272 percent of such individual’s primary insurance amount to the extent that it exceeds the amount established with respect to subparagraph (A) but does not exceed the amount established with respect to this subparagraph by paragraph (2),

(C) 134 percent of such individual’s primary insurance amount to the extent that it exceeds the amount established with respect to subparagraph (B) but does not exceed the amount established with respect to this subparagraph by paragraph (2), and

(D) 175 percent of such individual’s primary insurance amount to the extent that it exceeds the amount established with respect to subparagraph (C).

Any such amount that is not a multiple of $0.10 shall be increased to the next higher multiple of $0.10.

“(2) (A) For individuals who initially become eligible for old-age or disability insurance benefits, or who die (before becoming so eligible for such benefits), in the calendar year 1979, the amounts established with respect to subparagraphs (A), (B), and (C) of paragraph (1) shall be $230, $332, and $433, respectively.

“(B) For individuals who initially become eligible for old-age or disability insurance benefits, or who die (before becoming so eligible for such benefits), in any calendar year after 1979, each of the amounts so established shall equal the product of the corresponding amount established for the calendar year 1979 by subparagraph (A) of this paragraph and the quotient obtained under subparagraph (B) (ii) of section 215(a) (1), with such product being rounded in the manner prescribed by section 215(a) (1) (B) (iii).

“(C) In each calendar year after 1978 the Secretary shall publish in the Federal Register, on or before November 1, the formula which (except as provided in section 215(i) (2) (D)) is to be applicable under this paragraph to individuals who become eligible for old-age or dis-
ability insurance benefits, or who die (before becoming eligible for such benefits), in the following calendar year.

"(D) A year shall not be counted as the year of an individual’s death or eligibility for purposes of this paragraph or paragraph (7) in any case where such individual was entitled to a disability insurance benefit for any of the 12 months immediately preceding the month of such death or eligibility (but there shall be counted instead the year of the individual’s eligibility for the disability insurance benefits to which he was entitled during such 12 months).

"(3) (A) When an individual who is entitled to benefits on the basis of the wages and self-employment income of any insured individual and to whom this subsection applies would (but for the provisions of section 202(k)(2)(A)) be entitled to child’s insurance benefits for a month on the basis of the wages and self-employment income of one or more other insured individuals, the total monthly benefits to which all beneficiaries are entitled on the bases of such wages and self-employment income shall not be reduced under this subsection to less than the smaller of—

"(i) the sum of the maximum amounts of benefits payable on the basis of the wages and self-employment income of all such insured individuals, or

"(ii) an amount equal to the product of 1.75 and the primary insurance amount that would be computed under section 215(a)(1) for that month with respect to average indexed monthly earnings equal to one-twelfth of the contribution and benefit base determined for that year under section 230.

"(B) When two or more persons were entitled (without the application of section 202(j)(1) and section 223(b)) to monthly benefits under section 202 or 223 for January 1971 or any prior month on the basis of the wages and self-employment income of such insured individual and the provisions of this subsection as in effect for any such month were applicable in determining the benefit amount of any persons on the basis of such wages and self-employment income, the total of benefits for any month after January 1971 shall not be reduced to less than the largest of—

"(i) the amount determined under this subsection without regard to this subparagraph,

"(ii) the largest amount which has been determined for any month under this subsection for persons entitled to monthly benefits on the basis of such insured individual’s wages and self-employment income, or

"(iii) if any persons are entitled to benefits on the basis of such wages and self-employment income for the month before the effective month (after September 1972) of a general benefit increase under this title (as defined in section 215(i)(3)) or a benefit increase under the provisions of section 215(i), an amount equal to the sum of amounts derived by multiplying the benefit amount determined under this title (excluding any part thereof determined under section 202(w)) for the month before such effective month (including this subsection, but without the application of section 222(b), section 202(q), and subsections (b), (c), and (d) of this section), for each such person for such month, by a percentage equal to the percentage of the increase provided under such benefit increase (with any such increased amount which is not a multiple of $0.10 being rounded to the next higher multiple of $0.10);
but in any such case (I) subparagraph (A) of this paragraph shall not be applied to such total of benefits after the application of clause (ii) or (iii), and (II) if section 202(k)(2)(A) was applicable in the case of any such benefits for a month, and ceases to apply for a month after such month, the provisions of clause (ii) or (iii) shall be applied, for and after the month in which section 202(k)(2)(A) ceases to apply, as though subparagraph (A) of this paragraph had not been applicable to such total of benefits for the last month for which clause (ii) or (iii) was applicable.

"(C) When any of such individuals is entitled to monthly benefits as a divorced spouse under section 202 (b) or (c) or as a surviving divorced spouse under section 202 (e) or (f) for any month, the benefit to which he or she is entitled on the basis of the wages and self-employment income of such insured individual for such month shall be determined without regard to this subsection, and the benefits of all other individuals who are entitled for such month to monthly benefits under section 202 on the wages and self-employment income of such insured individual shall be determined as if no such divorced spouse or surviving divorced spouse were entitled to benefits for such month.

"(4) In any case in which benefits are reduced pursuant to the preceding provisions of this subsection, the reduction shall be made after any deductions under this section, and after any deductions under section 222(b). Whenever a reduction is made under this subsection in the total of monthly benefits to which individuals are entitled for any month on the basis of the wages and self-employment income of an insured individual, each such benefit other than the old-age or disability insurance benefit shall be proportionately decreased.

"(5) Notwithstanding any other provision of law, when—

(A) two or more persons are entitled to monthly benefits for a particular month on the basis of the wages and self-employment income of an insured individual and (for such particular month) the provisions of this subsection are applicable to such monthly benefits, and

(B) such individual's primary insurance amount is increased for the following month under any provision of this title, then the total of monthly benefits for all persons on the basis of such wages and self-employment income for such particular month, as determined under the provisions of this subsection, shall for purposes of determining the total monthly benefits for all persons on the basis of such wages and self-employment income for months subsequent to such particular month be considered to have been increased by the smallest amount that would have been required in order to assure that the total of monthly benefits payable on the basis of such wages and self-employment income for any such subsequent month will not be less (after the application of the other provisions of this subsection and section 202(q)) than the total of monthly benefits (after the application of the other provisions of this subsection and section 202(q)) payable on the basis of such wages and self-employment income for such particular month.

"(6) In the case of any individual who is entitled for any month to benefits based upon the primary insurance amounts of two or more insured individuals, one or more of which primary insurance amounts were determined under section 215(a) or 215(d) as in effect (without regard to the table contained therein) prior to January 1979 and one or more of which primary insurance amounts were determined under
section 215(a) (1) or (4), or section 215(d), as in effect after December 1978, the total benefits payable to that individual and all other individuals entitled to benefits for that month based upon those primary insurance amounts shall be reduced to an amount equal to the product of 1.75 and the primary insurance amount that would be computed under section 215(a) (1) for that month with respect to average indexed monthly earnings equal to one-twelfth of the contribution and benefits base determined under section 230 for the year in which that month occurs.

"(7) Subject to paragraph (6), this subsection as in effect in December 1978 shall remain in effect with respect to a primary insurance amount computed under section 215(a) or (d), as in effect (without regard to the table contained therein) in December 1978, except that a primary insurance amount so computed with respect to an individual who first becomes eligible for an old-age or disability insurance benefit, or dies (before becoming eligible for such a benefit), after December 1978, shall instead be governed by this section as in effect after December 1978.".

“(10) For purposes of applying paragraph (4), with respect to monthly benefits payable for any month after December 1977 to an individual who was entitled to a monthly benefit as reduced under paragraph (1) or (3) prior to January 1978, the amount of reduction in such benefit for the first month for which such benefit is increased by reason of an increase in the primary insurance amount of the individual on whose wages and self-employment income such benefit is based and for all subsequent months (and similarly for all subsequent increases) shall be increased by a percentage equal to the percentage increase in such primary insurance amount (such increase being made in accordance with the provisions of paragraph (8)). In the case of an individual whose reduced benefit under this section is increased as a result of the use of an adjusted reduction period or an additional

"(C) in the case of widow's and widower's insurance benefits for the month in which such individual attains age 65, by multiplying such amount by the ratio of (i) the number of months in the adjusted reduction period multiplied by 19/40 of 1 percent, plus the number of months in the adjusted additional reduction period multiplied by 43/240 of 1 percent to (ii) the number of months in the reduction period beginning with age 62 multiplied by 19/40 of 1 percent, plus the number of months in the adjusted reduction period prior to age 62 multiplied by 19/40 of 1 percent, plus the number of months in the adjusted additional reduction period multiplied by 43/240 of 1 percent.

"(B) (i) If the individual applying for retroactive benefits is applying for such benefits under subsection (a), and there are one or more other persons who would (except for subparagraph (A)) be entitled for any month, on the basis of the wages and self-employment income of such individual and because of such individual's entitlement to such retroactive benefits, to retroactive benefits under subsection (b), (c), or (d) not subject to reduction under subsection (q), then subparagraph (A) shall not apply with respect to such month or any subsequent month.

"(ii) If the individual applying for retroactive benefits is a widow, surviving divorced wife, or widower and is under a disability (as defined in section 223(d)), and such individual would, except for subparagraph (A), be entitled to retroactive benefits as a disabled widow or widower or disabled surviving divorced wife for any month before attaining the age of 60, then subparagraph (A) shall not apply with respect to such month or any subsequent month.

"(iii) If the individual applying for retroactive benefits has excess earnings (as defined in section 203(f)) in the year in which he or she files an application for such benefits which could, except for subparagraph (A), be charged to months in such year prior to the month of application, then subparagraph (A) shall not apply to so many of such months immediately preceding the month of application as are required to charge such excess earnings to the maximum extent possible.

"(4) For purposes of determining entitlement to hospital insurance benefits under subsection (b) in the case of an individual described in clause (iii) of subsection (b) (2)(A), the entitlement of such individual to widow's or widower's insurance benefits under section 202(e) or (f) by reason of a disability shall be deemed to be the entitlement to such benefits that would result if such entitlement were determined without regard to the provisions of section 202(j)(4)."

(b) The amendments made by subsection (a) shall be effective with respect to monthly insurance benefits under title II of the Social Security Act to which an individual becomes entitled on the basis of an application filed on or after January 1, 1978.

“(iii) if an individual has self-employment income for a taxable year, and if the sum of such income and the wages paid to him during such year equals $3,600 in the case of a taxable year beginning after 1965 and ending before 1965, or $4,200 in the case of a taxable year ending after 1954 and before 1959, or $4,800 in the case of a taxable year ending after 1958 and before 1966, or $6,600 in the case of a taxable year ending after 1965 and before 1968, or $7,800 in the case of a taxable year ending after 1967 and before 1972, or $9,000 in the case of a taxable year beginning after 1971
and before 1973, or $10,800 in the case of a taxable year beginning after 1972 and before 1974, or $13,200 in the case of a taxable year beginning after 1973 and before 1975, or an amount equal to the contribution and benefit base (as determined under section 230) which is effective for the calendar year in the case of any taxable year beginning in any calendar year after 1974 and before 1978, each quarter any part of which falls in such year shall (subject to clauses (i) and (v)) be a quarter of coverage;

"(iv) if an individual is paid wages for agricultural labor in a calendar year after 1954 and before 1978, then, subject to clauses (i) and (v), (I) the last quarter of such year which can be but is not otherwise a quarter of coverage shall be a quarter of coverage if such wages equal or exceed $100 but are less than $200; (II) the last two quarters of such year which can be but are not otherwise quarters of coverage shall be quarters of coverage if such wages equal or exceed $200 but are less than $300; (III) the last three quarters of such year which can be but are not otherwise quarters of coverage shall be quarters of coverage if such wages equal or exceed $300 but are less than $400; and (IV) each quarter of such year which is not otherwise a quarter of coverage shall be a quarter of coverage if such wages are $400 or more;

"(v) no quarter shall be counted as a quarter of coverage prior to the beginning of such quarter;

"(vi) not more than one quarter of coverage may be credited to a calendar quarter; and

If in the case of an individual who has attained age 62 or died or is under a disability and who has been paid wages for agricultural labor in a calendar year after 1954 and before 1978, the requirements for insured status in subsection (a) or (b) of section 214, the requirements for entitlement to a computation or recomputation of his primary insurance amount, or the requirements of paragraph (3) of section 216(i) are not met after assignment of quarters of coverage to quarters in such year as provided in clause (iv) of the preceding sentence, but would be met if such quarters of coverage were assigned to different quarters in such year, then such quarters of coverage shall instead be assigned, for purposes only of determining compliance with such requirements, to such different quarters. If, in the case of an individual who did not die prior to January 1, 1955, and who attained age 62 (if a woman) or age 65 (if a man) or died before July 1, 1957, the requirements for insured status in section 214(a)(3) are not met because of his having too few quarters of coverage but would be met if his quarters of coverage in the first calendar year in which he had any covered employment had been determined on the basis of the period during which wages were earned rather than on the basis of the period during which wages were paid (any such wages paid that are reallocated on an earned basis shall not be used in determining quarters of coverage for subsequent calendar years), then upon application filed by the individual or his survivors and satisfactory proof of his record of wages earned being furnished by such individual or his survivors, the quarters of coverage in such calendar year may be determined on the basis of the periods during which wages were earned."

(d) The amendments made by subsection (a) shall apply with respect to remuneration paid and services rendered after December 31,

maintenance costs for treatment works within the applicant's jurisdiction, to each user class, in proportion to the contribution to the total cost of operation and maintenance of such works by each user class (taking into account total waste water loading of such works, the constituent elements of the wastes, and other appropriate factors), and such applicant is otherwise in compliance with clause (A) of this paragraph with respect to each industrial user, then such dedicated ad valorem tax system shall be deemed to be the user charge system meeting the requirements of clause (A) of this paragraph for the residential user class and such small non-residential user classes as defined by the Administrator. In defining small non-residential users, the Administrator shall consider the volume of wastes discharged into the treatment works by such users and the constituent elements of such wastes as well as such other factors as he deems appropriate.

(b) Subsection (b) of section 204 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new paragraph:

"(5) A system of charges which meets the requirement of clause (A) of paragraph (1) of this subsection may be based on something other than metering the sewage or water supply flow of residential recipients of waste treatment services, including ad valorem taxes. If the system of charges is based on something other than metering the Administrator shall require (A) the applicant to establish a system by which the necessary funds will be available for the proper operation and maintenance of the treatment works; and (B) the applicant to establish a procedure under which the residential user will be notified as to that portion of his total payment which will be allocated to the cost of the waste treatment services."

interferes or is incompatible with, or contaminates or reduces the utility of the sludge of such works."

(c) Section 204(b)(1)(B) of the Federal Water Pollution Control Act is amended by inserting before the semicolon the following: "(which such portion, in the discretion of the applicant, may be recovered from industrial users of the total waste treatment system as distinguished from the treatment works for which the grant is made)".

Agricultural Cost Sharing

Sec. 35. Section 208 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new subsection:

“(j)(1) The Secretary of Agriculture, with the concurrence of the Administrator, and acting through the Soil Conservation Service and such other agencies of the Department of Agriculture as the Secretary may designate, is authorized and directed to establish and administer a program to enter into contracts, subject to such amounts as are provided in advance by appropriation acts, of not less than five years nor more than ten years with owners and operators having control of rural land for the purpose of installing and maintaining measures incorporating best management practices to control nonpoint source pollution for improved water quality in those States or areas for which the Administrator has approved a plan under subsection (b) of this section where the practices to which the contracts apply are certified by the management agency designated under subsection (c)(1) of this section to be consistent with such plans and will result in improved water quality. Such contracts may be entered into during the period ending not later than September 31, 1988. Under such contracts the land owner or operator shall agree—

“(i) to effectuate a plan approved by a soil conservation district, where one exists, under this section for his farm, ranch, or other land substantially in accordance with the schedule outlined therein unless any requirement thereof is waived or modified by the Secretary;

“(ii) to forfeit all rights to further payments or grants under the contract and refund to the United States all payments and grants received thereunder, with interest, upon his violation of the contract at any stage during the time he has control of the land if the Secretary, after considering the recommendations of the soil conservation district, where one exists, and the Administrator, determines that such violation is of such a nature as to warrant termination of the contract, or to make refunds or accept such payment adjustments as the Secretary may deem appropriate if he determines that the violation by the owner or operator does not warrant termination of the contract;

“(iii) upon transfer of his right and interest in the farm, ranch, or other land during the contract period to forfeit all rights to further payments or grants under the contract and refund to the United States all payments or grants received thereunder, with interest, unless the transferee of any such land agrees with the Secretary to assume all obligations of the contract;

“(iv) not to adopt any practice specified by the Secretary on the advice of the Administrator in the contract as a practice which would tend to defeat the purposes of the contract;

“(v) to such additional provisions as the Secretary determines are desirable and includes in the contract to effectuate the purposes of the program or to facilitate the practical administration of the program.

“(2) In return for such agreement by the landowner or operator the Secretary shall agree to provide technical assistance and share the cost of carrying out those conservation practices and measures set forth in the contract for which he determines that cost sharing is appropriate and in the public interest and which are approved for cost shar-
ing by the agency designated to implement the plan developed under subsection (b) of this section. The portion of such cost (including labor) to be shared shall be that part which the Secretary determines is necessary and appropriate to effectuate the installation of the water quality management practices and measures under the contract, but not to exceed 50 per centum of the total cost of the measures set forth in the contract; except the Secretary may increase the matching cost share where he determines that (1) the main benefits to be derived from the measures are related to improving offsite water quality, and (2) the matching share requirement would place a burden on the landowner which would probably prevent him from participating in the program.

“(3) The Secretary may terminate any contract with a landowner or operator by mutual agreement with the owner or operator if the Secretary determines that such termination would be in the public interest, and may agree to such modification of contracts previously entered into as he may determine to be desirable to carry out the purposes of the program or facilitate the practical administration thereof or to accomplish equitable treatment with respect to other conservation, land use, or water quality programs.

“(4) In providing assistance under this subsection the Secretary will give priority to those areas and sources that have the most significant effect upon water quality. Additional investigations or plans may be made, where necessary, to supplement approved water quality management plans, in order to determine priorities.

“(5) The Secretary shall, where practicable, enter into agreements with soil conservation districts, State soil and water conservation agencies, or State water quality agencies to administer all or part of the program established in this subsection under regulations developed by the Secretary. Such agreements shall provide for the submission of such reports as the Secretary deems necessary, and for payment by the United States of such portion of the costs incurred in the administration of the program as the Secretary may deem appropriate.

“(6) The contracts under this subsection shall be entered into only in areas where the management agency designated under subsection (c)(1) of this section assures an adequate level of participation by owners and operators having control of rural land in such areas. Within such areas the local soil conservation district, where one exists, together with the Secretary of Agriculture, will determine the priority of assistance among individual land owners and operators to assure that the most critical water quality problems are addressed.

“(7) The Secretary, in consultation with the Administrator and subject to section 304(k) of this Act, shall, not later than September 30, 1978, promulgate regulations for carrying out this subsection and for support and cooperation with other Federal and non-Federal agencies for implementation of this subsection.

“(8) This program shall not be used to authorize or finance projects that would otherwise be eligible for assistance under the terms of Public Law 83-566.

“(9) There are hereby authorized to be appropriated to the Secretary of Agriculture $200,000,000 for fiscal year 1979 and $400,000,000 for fiscal year 1980, to carry out this subsection. The program authorized under this subsection shall be in addition to, and not in substitution of, other programs in such area authorized by this or any other public law.\'\'

These categories shall include, but not be limited to (A) secondary treatment, (B) more stringent treatment, (C) infiltration-in-flow correction, (D) major sewer system rehabilitation, (E) new collector sewers and appurtenances, (F) new interceptors and appurtenances, and (G) correction of combined sewer overflows. "(8) any funds available to the owner of such treatment works under title II of this Act will be used to achieve the degree of effluent reduction required by section 201(b) and (g)(2)(A) or to carry out the requirements of this subsection.

"The discharge of any pollutant into marine waters' refers to a discharge into deep waters of the territorial sea or the waters of the contiguous zone, or into saline estuarine waters where there is strong tidal movement and other hydrological and geological characteristics which the Administrator determines necessary to allow compliance with paragraph (2) of this subsection, and section 101(a)(2) of this Act.".

33 USC 1281. MUNICIPAL TIME EXTENSIONS

SEC. 45. Section 301 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new subsection:

"(i) (1) Where construction is required in order for a planned or existing publicly owned treatment works to achieve limitations under subsection (b) (1) (B) or (b) (1) (C) of this section, but (A) construction cannot be completed within the time required in such subsection, or (B) the United States has failed to make financial assistance under this Act available in time to achieve such limitations by the time specified in such subsection, the owner or operator of such treatment works may request the Administrator (or if appropriate the State) to issue a permit pursuant to section 402 of this Act or to modify a permit issued pursuant to that section to extend such time for compliance. Any such
request shall be filed with the Administrator (or if appropriate the State) within 180 days after the date of enactment of this subsection. The Administrator (or if appropriate the State) may grant such request and issue or modify such a permit, which shall contain a schedule of compliance for the publicly owned treatment works based on the earliest date by which such financial assistance will be available from the United States and construction can be completed, but in no event later than July 1, 1983, and shall contain such other terms and conditions, including those necessary to carry out subsections (b) through (g) of section 201 of this Act, section 307 of this Act, and such interim effluent limitations applicable to that treatment works as the Administrator determines are necessary to carry out the provisions of this Act.

"(2) (A) Where a point source (other than a publicly owned treatment works) will not achieve the requirements of subsections (b)(1)(A) and (b)(1)(C) of this section and—

"(i) if a permit issued prior to July 1, 1977, to such point source is based upon a discharge into a publicly owned treatment works; or

"(ii) if such point source (other than a publicly owned treatment works) had before July 1, 1977, a contract (enforceable against such point source) to discharge into a publicly owned treatment works; or

"(iii) if either an application made before July 1, 1977, for a construction grant under this Act for a publicly owned treatment works, or engineering or architectural plans or working drawings made before July 1, 1977, for a publicly owned treatment works, show that such point source was to discharge into such publicly owned treatment works, and such publicly owned treatment works is presently unable to accept such discharge without construction, and in the case of a discharge to an existing publicly owned treatment works, such treatment works has an extension pursuant to paragraph (1) of this subsection, the owner or operator of such point source may request the Administrator (or if appropriate the State) to issue or modify such a permit pursuant to such section 402 to extend such time for compliance. Any such request shall be filed with the Administrator (or if appropriate the State) within 180 days after the date of enactment of this subsection or the filing of a request by the appropriate publicly owned treatment works under paragraph (1) of this subsection, whichever is later. If the Administrator (or if appropriate the State) finds that the owner or operator of such point source has acted in good faith, he may grant such request and issue or modify such a permit, which shall contain a schedule of compliance for the point source to achieve the requirements of subsections (b)(1)(A) and (C) of this section and shall contain such other terms and conditions, including pretreatment and interim effluent limitations and water conservation requirements applicable to that point source, as the Administrator determines are necessary to carry out the provisions of this Act.

"(B) No time modification granted by the Administrator (or if appropriate the State) pursuant to paragraph (2)(A) of this subsection shall extend beyond the earliest date practicable for compliance or beyond the date of any extension granted to the appropriate publicly owned treatment works pursuant to paragraph (1) of this subsection, but in no event shall it extend beyond July 1, 1983; and no such time modification shall be granted unless (i) the publicly owned treatment works will be in operation and available to the point source before
July 1, 1983, and will meet the requirements of subsections (b)(1)(B) and (C) of this section after receiving the discharge from that point source; and (ii) the point source and the publicly owned treatment works have entered into an enforceable contract requiring the point source to discharge into the publicly owned treatment works, the owner or operator of such point source to pay the costs required under section 204 of this Act, and the publicly owned treatment works to accept the discharge from the point source; and (iii) the permit for such point source requires that point source to meet all requirements under section 307 (a) and (b) during the period of such time modification.”.

PROCEDURE FOR MODIFICATIONS

Applications conditions. Ante, p. 1584.

SEC. 46. Section 301 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new subsection:

“(j)(1) Any application filed under this section for a modification of the provisions of—

“(A) subsection (b)(1)(B) under subsection (h) of this section shall be filed not later than 270 days after the date of enactment of the Clean Water Act of 1977;

“(B) subsection (b)(2)(A) as it applies to pollutants identified in subsection (b)(2)(F) shall be filed not later than 270 days after the date of promulgation of an applicable effluent guideline under section 304 or not later than 270 days after the date of enactment of the Clean Water Act of 1977, whichever is later.

“(2) Any application for a modification filed under subsection (g) of this section shall not operate to stay any requirement under this Act, unless in the judgment of the Administrator such a stay or the modification sought will not result in the discharge of pollutants in quantities which may reasonably be anticipated to pose an unacceptable risk to human health or the environment because of bioaccumulation, persistency in the environment, acute toxicity, chronic toxicity (including carcinogenicity, mutagenicity, or teratogenicity), or synergistic propensities, and that there is a substantial likelihood that the applicant will succeed on the merits of such application. In the case of an application filed under subsection (g) of this section, the Administrator may condition any stay granted under this paragraph on requiring the filing of a bond or other appropriate security to assure timely compliance with the requirements from which a modification is sought.”

INNOVATIVE TECHNOLOGY

SEC. 47. Section 301 of the Federal Water Pollution Control Act is amended by adding at the end thereof a new subsection as follows:

“(k) In the case of any facility subject to a permit under section 402 which proposes to comply with the requirements of subsection (b)(2)(A) of this section by replacing existing production capacity with an innovative production process which will result in an effluent reduction significantly greater than that required by the limitation otherwise applicable to such facility and moves toward the national goal of eliminating the discharge of all pollutants, or with the installation of an innovative control technique that has a substantial likelihood for enabling the facility to comply with the applicable effluent limitation by achieving a significantly greater effluent reduction than that required by the applicable effluent limitation and moves toward the national goal of eliminating the discharge of all pollutants, or by achieving the required reduction with an innovative system that has
the potential for significantly lower costs than the systems which have been determined by the Administrator to be economically achievable, the Administrator (or the State with an approved program under section 402, in consultation with the Administrator) may establish a date for compliance under subsection (b) (2) (A) of this section no later than July 1, 1987, if it is also determined that such innovative system has the potential for industrywide application.”

Sec. 48. (a) Section 304(a) of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new paragraphs:

“(4) The Administrator shall, within 90 days after the date of enactment of the Clean Water Act of 1977 and from time to time thereafter, publish and revise as appropriate information identifying conventional pollutants, including but not limited to, pollutants classified as biological oxygen demanding, suspended solids, fecal coliform, and pH. The thermal component of any discharge shall not be identified as a conventional pollutant under this paragraph.

“(5) (A) The Administrator, to the extent practicable before consideration of any request under section 301(g) of this Act and within six months after the date of enactment of the Clean Water Act of 1977, shall develop and publish information on the factors necessary for the protection of public water supplies, and the protection and propagation of a balanced population of shellfish, fish and wildlife, and to allow recreational activities, in and on the water.

“(B) The Administrator, to the extent practicable before consideration of any application under section 301(h) of this Act and within six months after the date of enactment of the Clean Water Act of 1977, shall develop and publish information on the factors necessary for the protection of public water supplies, and the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife, and to allow recreational activities, in and on the water.

“(6) The Administrator shall, within three months after enactment of the Clean Water Act of 1977 and annually thereafter, for purposes of section 301(h) of this Act publish and revise as appropriate information identifying each water quality standard in effect under this Act or State law, the specific pollutants associated with such water quality standard, and the particular waters to which such water quality standard applies.”.

(b) Section 304(b) of the Federal Water Pollution Control Act is amended—

(1) in paragraph (2) (B), by striking out “; and” and inserting in lieu thereof a semicolon;

(2) in paragraph (3), by striking out the period at the end thereof and inserting in lieu thereof “; and”; and

(3) by adding at the end thereof the following new paragraph:

“(4) (A) identify, in terms of amounts of constituents and chemical, physical, and biological characteristics of pollutants, the degree of effluent reduction attainable through the application of the best conventional pollutant control technology (including measures and practices) for classes and categories of point sources (other than publicly owned treatment works); and

“(B) specify factors to be taken into account in determining the best conventional pollutant control technology measures and practices to comply with section 301(b) (3) (E) of this Act to be

applicable to any point source (other than publicly owned treatment works) within such categories or classes. Factors relating to the assessment of best conventional pollutant control technology (including measures and practices) shall include consideration of the reasonableness of the relationship between the costs of attaining a reduction in effluents and the effluent reduction benefits derived, and the comparison of the cost and level of reduction of such pollutants from the discharge from publicly owned treatment works to the cost and level of reduction of such pollutants from a class or category of industrial sources, and shall take into account the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, non-water quality environmental impact (including energy requirements), and such other factors as the Administrator deems appropriate.

IDENTIFICATION AND EVALUATION GUIDELINES

Consultation.

SEC. 49. Subsection (d) of section 304 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new paragraph:

“(3) The Administrator, after consultation with appropriate Federal and State agencies and other interested persons, shall promulgate within one hundred and eighty days after the date of enactment of this subsection guidelines for identifying and evaluating innovative and alternative wastewater treatment processes and techniques referred to in section 201(g)(5) of this Act.”.

BEST MANAGEMENT PRACTICES FOR INDUSTRY

Regulations.

SEC. 50. Section 304 of the Federal Water Pollution Control Act is amended by inserting immediately after subsection (d) the following new subsection and by redesignating succeeding subsections, including references thereto, accordingly:

“(e) The Administrator, after consultation with appropriate Federal and State agencies and other interested persons, may publish regulations, supplemental to any effluent limitations specified under subsections (b) and (c) of this section for a class or category of point sources, for any specific pollutant which the Administrator is charged with a duty to regulate as a toxic or hazardous pollutant under section 307(a)(1) or 311 of this Act, to control plant site runoff, spillage or leaks, sludge or waste disposal, and drainage from raw material storage which the Administrator determines are associated with or ancillary to the industrial manufacturing or treatment process within such class or category of point sources and may contribute significant amounts of such pollutants to navigable waters. Any applicable controls established under this subsection shall be included as a requirement for the purposes of section 301, 302, 306, 307, or 403, as the case may be, in any permit issued to a point source pursuant to section 402 of this Act.”.

INTERAGENCY AGREEMENTS

SEC. 51. Section 304(k) of the Federal Water Pollution Control Act as redesignated by this Act is amended to read as follows:

“(k)(1) The Administrator shall enter into agreements with the Secretary of Agriculture, the Secretary of the Army, and the Secretary of the Interior, and the heads of such other departments, agencies, and instrumentalities of the United States as the Administrator deter-
mines, to provide for the maximum utilization of other Federal laws and programs for the purpose of achieving and maintaining water quality through appropriate implementation of plans approved under section 308 of this Act.

“(2) The Administrator is authorized to transfer to the Secretary of Agriculture, the Secretary of the Army, and the Secretary of the Interior and the heads of such other departments, agencies, and instrumentalities of the United States as the Administrator determines, any funds appropriated under paragraph (3) of this subsection to supplement funds otherwise appropriated to programs authorized pursuant to any agreement under paragraph (1).

“(3) There is authorized to be appropriated to carry out the provisions of this subsection, $100,000,000 per fiscal year for the fiscal years 1979 through 1983.”.

TOXIC POLLUTANTS

Sec. 53. (a) Paragraphs (1), (2), and (3) of section 307(a) of the Federal Water Pollution Control Act are amended to read as follows:

“(a) (1) On and after the date of enactment of the Clean Water Act of 1977, the list of toxic pollutants or combination of pollutants subject to this Act shall consist of those toxic pollutants listed in table 1 of Committee Print Numbered 95–30 of the Committee on Public Works and Transportation of the House of Representatives, and the Administrator shall publish, not later than the thirtieth day after the date of enactment of the Clean Water Act of 1977, that list. From time to time thereafter, the Administrator may revise such list and the Administrator is authorized to add to or remove from such list any pollutant. The Administrator in publishing any revised list, including the addition or removal of any pollutant from such list, shall take into account toxicity of the pollutant, its persistence, degradability, the usual or potential presence of the affected organisms in any waters, the importance of the affected organisms, and the nature and extent of the effect of the toxic pollutant on such organisms. A determination of the Administrator under this paragraph shall be final except that if, on judicial review, such determination was based on arbitrary and capricious action of the Administrator, the Administrator shall make a redetermination.

“(2) Each toxic pollutant listed in accordance with paragraph (1) of this subsection shall be subject to effluent limitations resulting from the application of the best available technology economically achievable for the applicable category or class of point sources established in accordance with sections 301(b) (2) (A) and 304(b) (2) of this Act. The Administrator, in his discretion, may publish in the Federal Register a proposed effluent standard (which may include a prohibition) establishing requirements for a toxic pollutant which, if an effluent limitation is applicable to a class or category of point sources,

shall be applicable to such category or class only if such standard imposes more stringent requirements. Such published effluent standard (or prohibition) shall take into account the toxicity of the pollutant, its persistence, degradability, the usual or potential presence of the affected organisms in any waters, the importance of the affected organisms and the nature and extent of the effect of the toxic pollutant on such organisms, and the extent to which effective control is being or may be achieved under other regulatory authority. The Administrator shall allow a period of not less than sixty days following publication of any such proposed effluent standard (or prohibition) for written comment by interested persons on such proposed standard. In addition, if within thirty days of publication of any such proposed effluent standard (or prohibition) any interested person so requests, the Administrator shall hold a public hearing in connection therewith. Such a public hearing shall provide an opportunity for oral and written presentations, such cross-examination as the Administrator determines is appropriate on disputed issues of material fact, and the transcription of a verbatim record which shall be available to the public. After consideration of such comments and any information and material presented at any public hearing held on such proposed standard or prohibition, the Administrator shall promulgate such standard (or prohibition) with such modification as the Administrator finds are justified. Such promulgation by the Administrator shall be made within two hundred and seventy days after publication of proposed standard (or prohibition). Such standard (or prohibition) shall be final except that if, on judicial review, such standard was not based on substantial evidence, the Administrator shall promulgate a revised standard. Effluent limitations shall be established in accordance with sections 301(b)(2)(A) and 304(b)(2) for every toxic pollutant referred to in table 1 of Committee Print Numbered 95-30 of the Committee on Public Works and Transportation of the House of Representatives as soon as practicable after the date of enactment of the Clean Water Act of 1977, but no later than July 1, 1980. Such effluent limitations or effluent standards (or prohibitions) shall be established for every other toxic pollutant listed under paragraph (1) of this subsection as soon as practicable after it is so listed.

"(3) Each such effluent standard (or prohibition) shall be reviewed and, if appropriate, revised at least every three years.".

(b) Paragraph (6) of section 307(a) of the Federal Water Pollution Control Act is amended to read as follows:

"(6) Any effluent standard (or prohibition) established pursuant to this section shall take effect on such date or dates as specified in the order promulgating such standard, but in no case, more than one year from the date of such promulgation. If the Administrator determines that compliance within one year from the date of promulgation is technologically infeasible for a category of sources, the Administrator may establish the effective date of the effluent standard (or prohibition) for such category at the earliest date upon which compliance can be feasibly attained by sources within such category, but in no event more than three years after the date of such promulgation.".

(c) Section 301 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new subsection:

"(l) The Administrator may not modify any requirement of this section as it applies to any specific pollutant which is on the toxic pollutant list under section 307(a)(1) of this Act.".
pretreatment

Sec. 54. (a) Section 307(b)(1) of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new sentence: "If, in the case of any toxic pollutant under subsection (a) of this section introduced by a source into a publicly owned treatment works, the treatment by such works removes all or any part of such toxic pollutant and the discharge from such works does not violate that effluent limitation or standard which would be applicable to such toxic pollutant if it were discharged by such source other than through a publicly owned treatment works, and does not prevent sludge use or disposal by such works in accordance with section 405 of this Act, then the pretreatment requirements for the sources actually discharging such toxic pollutant into such publicly owned treatment works may be revised by the owner or operator of such works to reflect the removal of such toxic pollutant by such works.”

(b) Section 309 of the Federal Water Pollution Control Act is amended by adding at the end thereof the following new subsection:

"(f) Whenever, on the basis of any information available to him, the Administrator finds that an owner or operator of any source is introducing a pollutant into a treatment works in violation of subsection (d) of section 307, the Administrator may notify the owner or operator of such treatment works and the State of such violation. If the owner or operator of the treatment works does not commence appropriate enforcement action within 30 days of the date of such notification, the Administrator may commence a civil action for appropriate relief, including but not limited to, a permanent or temporary injunction, against the owner or operator of such treatment works. In any such civil action the Administrator shall join the owner or operator of such source as a party to the action. Such action shall be brought in the district court of the United States in the district in which the treatment works is located. Such court shall have jurisdiction to restrain such violation and to require the owner or operator of the treatment works and the owner or operator of the source to take such action as may be necessary to come into compliance with this Act. Notice of commencement of any such action shall be given to the State. Nothing in this subsection shall be construed to limit or prohibit any other authority the Administrator may have under this Act.”

(c) (1) Section 402(b)(8) of the Federal Water Pollution Control Act is amended by inserting after “includes conditions to require” the following: “the identification in terms of character and volume of pollutants of any significant source introducing pollutants subject to pretreatment standards under section 307(b) of this Act into such works and a program to assure compliance with such pretreatment standards by each such source, in addition to”

(2) Any State permit program approved under section 402 of the Federal Water Pollution Control Act before the date of enactment of the Clean Water Act of 1977, which requires modification to conform to the amendment made by paragraph (1) of this subsection, shall not be required to be modified before the end of the one year period which begins on the date of enactment of the Clean Water Act of 1977 unless in order to make the required modification a State must amend or enact a law in which case such modification shall not be required for such State before the end of the two year period which begins on such date of enactment.

(d) Section 405 of the Federal Water Pollution Control Act is amended (1) by striking out in subsection (b) thereof “subject to

Such regulations shall—

(1) identify uses for sludge, including disposal;
(2) specify factors to be taken into account in determining the measures and practices applicable to each such use or disposal (including publication of information on costs);
(3) identify concentrations of pollutants which interfere with each such use or disposal.

The Administrator is authorized to revise any regulation issued under this subsection.

"(e) The determination of the manner of disposal or use of sludge is a local determination except that it shall be unlawful for the owner or operator of any publicly owned treatment works to dispose of sludge from such works for any use for which guidelines have been established pursuant to subsection (d) of this section, except in accordance with such guidelines.

**TITLE II—INTERNATIONAL EMERGENCY ECONOMIC POWERS**

**SHORT TITLE**

**SEC. 201.** This title may be cited as the "International Emergency Economic Powers Act".

**SITUATIONS IN WHICH AUTHORITIES MAY BE EXERCISED**

**SEC. 202.** (a) Any authority granted to the President by section 203 may be exercised to deal with any unusual and extraordinary threat, which has its source in whole or substantial part outside the United States, to the national security, foreign policy, or economy of the United States, if the President declares a national emergency with respect to such threat.

(b) The authorities granted to the President by section 203 may only be exercised to deal with an unusual and extraordinary threat with respect to which a national emergency has been declared for purposes of this title and may not be exercised for any other purpose. Any exercise of such authorities to deal with any new threat shall be based on a new declaration of national emergency which must be with respect to such threat.

**GRANT OF AUTHORITIES**

**SEC. 203.** (a) (1) At the times and to the extent specified in section 202, the President may, under such regulations as he may prescribe, by means of instructions, licenses, or otherwise—

(A) investigate, regulate, or prohibit—

(i) any transactions in foreign exchange,

(ii) transfers of credit or payments between, by, through, or to any banking institution, to the extent that such transfers or payments involve any interest of any foreign country or a national thereof,

(iii) the importing or exporting of currency or securities; and

(B) investigate, regulate, direct and compel, nullify, void, prevent or prohibit, any acquisition, holding, withholding, use, transfer, withdrawal, transportation, importation or exportation of, or dealing in, or exercising any right, power, or privilege with respect to, or transactions involving, any property in which any foreign country or a national thereof has any interest; by any person, or with respect to any property, subject to the jurisdiction of the United States.

(2) In exercising the authorities granted by paragraph (1), the President may require any person to keep a full record of, and to furnish under oath, in the form of reports or otherwise, complete information relative to any act or transaction referred to in paragraph (1) either before, during, or after the completion thereof, or relative
to any interest in foreign property, or relative to any property in
which any foreign country or any national thereof has or has had any
interest, or as may be otherwise necessary to enforce the provisions of
such paragraph. In any case in which a report by a person could be
required under this paragraph, the President may require the pro-
duction of any books of account, records, contracts, letters, memo-
randa, or other papers, in the custody or control of such person.

(3) Compliance with any regulation, instruction, or direction issued
under this title shall to the extent thereof be a full acquittance and
discharge for all purposes of the obligation of the person making the
same. No person shall be held liable in any court for or with respect
to anything done or omitted in good faith in connection with the
administration of, or pursuant to and in reliance on, this title, or any
regulation, instruction, or direction issued under this title.

(b) The authority granted to the President by this section does not
include the authority to regulate or prohibit, directly or indirectly—

(1) any postal, telegraphic, telephonic, or other personal com-
munication, which does not involve a transfer of anything of
value; or

(2) donations, by persons subject to the jurisdiction of the
United States, of articles, such as food, clothing, and medicine,
intended to be used to relieve human suffering, except to the extent
that the President determines that such donations (A) would
seriously impair his ability to deal with any national emergency
declared under section 202 of this title, (B) are in response to
corruption against the proposed recipient or donor, or (C) would
endanger Armed Forces of the United States which are engaged
in hostilities or are in a situation where imminent involvement in
hostilities is clearly indicated by the circumstances.

CONSULTATION AND REPORTS

Sec. 204. (a) The President, in every possible instance, shall consult
with the Congress before exercising any of the authorities granted by
this title and shall consult regularly with the Congress so long as such
authorities are exercised.

(b) Whenever the President exercises any of the authorities granted
by this title, he shall immediately transmit to the Congress a report
specifying—

(1) the circumstances which necessitate such exercise of author-
ity;

(2) why the President believes those circumstances constitute
an unusual and extraordinary threat, which has its source in
whole or substantial part outside the United States, to the
national security, foreign policy, or economy of the United
States;

(3) the authorities to be exercised and the actions to be taken
in the exercise of those authorities to deal with those circum-
stances;

(4) why the President believes such actions are necessary to deal
with those circumstances; and

(5) any foreign countries with respect to which such actions are
to be taken and why such actions are to be taken with respect to
those countries.

(c) At least once during each succeeding six-month period after
transmitting a report pursuant to subsection (b) with respect to an
exercise of authorities under this title, the President shall report to the
Congress with respect to the actions taken, since the last such report, 
in the exercise of such authorities, and with respect to any changes 
which have occurred concerning any information previously furnished 
pursuant to paragraphs (1) through (5) of subsection (b).

(d) The requirements of this section are supplemental to those con-
tained in title IV of the National Emergencies Act.

AUTHORITY TO ISSUE REGULATIONS

50 USC 1704.  Sec. 205. The President may issue such regulations, including regu-
lations prescribing definitions, as may be necessary for the exercise of 
the authorities granted by this title.

PENALTIES

50 USC 1705.  Sec. 206. (a) A civil penalty of not to exceed $10,000 may be 
imposed on any person who violates any license, order, or regulation 
issued under this title.

(b) Whoever willfully violates any license, order, or regulation 
issued under this title shall, upon conviction, be fined not more than 
$50,000, or, if a natural person, may be imprisoned for not more than 
ten years, or both; and any officer, director, or agent of any corporation 
who knowingly participates in such violation may be punished by a 
like fine, imprisonment, or both.

SAVINGS PROVISION

50 USC 1706.  Sec. 207. (a) (1) Except as provided in subsection (b), notwith-
standing the termination pursuant to the National Emergencies Act 
of a national emergency declared for purposes of this title, any 
authorities granted by this title, which are exercised on the date of 
such termination on the basis of such national emergency to prohibit 
transactions involving property in which a foreign country or national 
thereof has any interest, may continue to be so exercised to prohibit 
transactions involving that property if the President determines that 
the continuation of such prohibition with respect to that property is 
necessary on account of claims involving such country or its nationals.

(2) Notwithstanding the termination of the authorities described 
in section 101(b) of this Act, any such authorities, which are exercised 
with respect to a country on the date of such termination to prohibit 
transactions involving any property in which such country or any 
national thereof has any interest, may continue to be exercised to pro-
hibit transactions involving that property if the President determines 
that the continuation of such prohibition with respect to that property 
continues to be exercised under this section.

(b) The authorities described in subsection (a) (1) may not con-
tinue to be exercised under this section if the national emergency is 
terminated by the Congress by concurrent resolution pursuant to sec-
tion 202 of the National Emergencies Act and if the Congress specifies 
in such concurrent resolution that such authorities may not continue 
to be exercised under this section.

(c) (1) The provisions of this section are supplemental to the savings 
provisions of paragraphs (1), (2), and (3) of section 101(a) and of 
paragraphs (A), (B), and (C) of section 202(a) of the National 
Emergencies Act.
(2) The provisions of this section supersede the termination provisions of section 101(a) and of title II of the National Emergencies Act to the extent that the provisions of this section are inconsistent with these provisions.

(d) If the President uses the authority of this section to continue prohibitions on transactions involving foreign property interests, he shall report to the Congress every six months on the use of such authority.

Sec. 208. If any provision of this Act is held invalid, the remainder of the Act shall not be affected thereby.
