SECTION 1. MAINTENANCE OF WILD HORSES IN CAPE LOOKOUT NATIONAL SEASHORE.

Section 5 of the Act entitled “An Act to provide for the establishment of the Cape Lookout National Seashore in the State of North Carolina, and for other purposes”, approved March 10, 1966 (Public Law 89–366; 16 U.S.C. 459g–4), is amended by inserting “(a)” after “Sec. 5.”, and by adding at the end the following new subsection:

“(b)(1) The Secretary, in accordance with this subsection, shall allow a herd of 100 free roaming horses in Cape Lookout National Seashore (hereinafter referred to as the ‘Seashore’): Provided, That nothing in this section shall be construed to preclude the Secretary from implementing or enforcing the provisions of paragraph (3).

“(2) Within 180 days after enactment of this subsection, the Secretary shall enter into an agreement with the Foundation for Shackleford Horses (a nonprofit corporation established under the laws of the State of North Carolina), or another qualified nonprofit entity, to provide for management of free roaming horses in the seashore. “(A) provide for cost-effective management of the horses while ensuring that natural resources within the seashore are not adversely impacted; and

“(B) allow the authorized entity to adopt any of those horses that the Secretary removes from the seashore.

“(3) The Secretary shall not remove, assist in, or permit the removal of any free roaming horses from Federal lands within the boundaries of the seashore—

“(A) unless the entity with whom the Secretary has entered into the agreement under paragraph (2), following notice and a 90-day response period, fails to meet the terms and conditions of the agreement; or

but not limited to, disease or natural disasters.

“(6) Nothing in this subsection shall be construed as creating
liability for the United States for any damages caused by the
free roaming horses to property located inside or outside the bound-
aries of the seashore.”.

An Act

To establish rules governing product liability actions against raw materials and bulk component suppliers to medical device manufacturers, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Biomaterials Access Assurance Act of 1998”.

SEC. 2. FINDINGS.

The Congress finds that—

(1) each year millions of citizens of the United States depend on the availability of lifesaving or life-enhancing medical devices, many of which are permanently implantable within the human body;

(2) a continued supply of raw materials and component parts is necessary for the invention, development, improvement, and maintenance of the supply of the devices;

(3) most of the medical devices are made with raw materials and component parts that—

(A) move in interstate commerce;

(B) are not designed or manufactured specifically for use in medical devices; and

(C) come in contact with internal human tissue;

(4) the raw materials and component parts also are used in a variety of nonmedical products;

(5) because small quantities of the raw materials and component parts are used for medical devices, sales of raw materials and component parts for medical devices constitute an extremely small portion of the overall market for the raw materials and component parts;

(6) under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.) manufacturers of medical devices are required to demonstrate that the medical devices are safe and effective, including demonstrating that the products are properly designed and have adequate warnings or instructions;

(7) notwithstanding the fact that raw materials and component parts suppliers do not design, produce, or test a final medical device, the suppliers have been the subject of actions alleging inadequate—

(A) design and testing of medical devices manufactured with materials or parts supplied by the suppliers; or

(B) warnings related to the use of such medical devices;
(8) even though suppliers of raw materials and component parts have very rarely been held liable in such actions, such suppliers have ceased supplying certain raw materials and component parts for use in medical devices for a number of reasons, including concerns about the costs of such litigation;

(9) unless alternate sources of supply can be found, the unavailability of raw materials and component parts for medical devices will lead to unavailability of lifesaving and life-enhancing medical devices;

(10) because other suppliers of the raw materials and component parts in foreign nations are refusing to sell raw materials or component parts for use in manufacturing certain medical devices in the United States, the prospects for development of new sources of supply for the full range of threatened raw materials and component parts for medical devices are remote;

(11) it is unlikely that the small market for such raw materials and component parts in the United States could support the large investment needed to develop new suppliers of such raw materials and component parts;

(12) attempts to develop such new suppliers would raise the cost of medical devices;

(13) courts that have considered the duties of the suppliers of the raw materials and component parts have generally found that the suppliers do not have a duty—

(A) to evaluate the safety and efficacy of the use of a raw material or component part in a medical device; or

(B) to warn consumers concerning the safety and effectiveness of a medical device;

(14) because medical devices and the raw materials and component parts used in their manufacture move in interstate commerce, a shortage of such raw materials and component parts affects interstate commerce;

(15) in order to safeguard the availability of a wide variety of lifesaving and life-enhancing medical devices, immediate action is needed—

(A) to clarify the permissible bases of liability for suppliers of raw materials and component parts for medical devices; and

(B) to provide expeditious procedures to dispose of unwarranted suits against the suppliers in such manner as to minimize litigation costs;

(16) the several States and their courts are the primary architects and regulators of our tort system; Congress, however, must, in certain circumstances involving the national interest, address tort issues, and a threatened shortage of raw materials and component parts for lifesaving medical devices is one such circumstance; and

(17) the protections set forth in this Act are needed to assure the continued supply of materials for lifesaving medical devices, although such protections do not protect negligent suppliers.

(iii) any person who acts in only a financial capacity with respect to the sale of an implant.

SEC. 4. GENERAL REQUIREMENTS; APPLICABILITY; PREEMPTION.  21 USC 1603.

(a) General Requirements.—

(A) raise any exclusion from liability set forth in section 5; and

(B) make a motion for dismissal or for summary judgment as set forth in section 6.

(2) APPLICABILITY OF OTHER LAWS.—Any issue that arises under this Act and that is not governed by a rule of law applicable to the recovery of damages described in paragraph (1) shall be governed by applicable Federal or State law.

(d) STATUTORY CONSTRUCTION.—Nothing in this Act may be construed—

(1) to affect any defense available to a defendant under any other provisions of Federal or State law in an action alleging harm caused by an implant; or

(2) to create a cause of action or Federal court jurisdiction pursuant to section 1331 or 1337 of title 28, United States
SEC. 5. LIABILITY OF BIOMATERIALS SUPPLIERS.

(a) IN GENERAL.—Except as provided in section 7, a biomaterials supplier shall not be liable for harm to a claimant caused by an implant unless such supplier is liable—

(1) as a manufacturer of the implant, as provided in subsection (b);

(1) IN GENERAL.—A biomaterials supplier may, to the extent required and permitted by any other applicable law, be liable for harm to a claimant caused by an implant if the biomaterials supplier is the manufacturer of the implant.

(2) GROUNDS FOR LIABILITY.—The biomaterials supplier may be considered the manufacturer of the implant that allegedly caused harm to a claimant only if the biomaterials supplier—

(A)(i) registered or was required to register with the Secretary pursuant to section 510 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360) and the regulations issued under such section; and

(ii) included or was required to include the implant on a list of devices filed with the Secretary pursuant to section 510(j) of such Act (21 U.S.C. 360(j)) and the regulations issued under such section;

1. the biomaterials supplier—
   (A) held title to the implant and then acted as a seller of the implant after its initial sale by the manufacturer; or
   (B) acted under contract as a seller to arrange for the transfer of the implant directly to the claimant after the initial sale by the manufacturer of the implant; or
2. the biomaterials supplier is related by common ownership or control to a person meeting all the requirements described in paragraph (1), if a court deciding a motion to dismiss in accordance with section 6(c)(3)(B)(ii) finds, on the basis of affidavits submitted in accordance with section 6, that it is necessary to impose liability on the biomaterials supplier as a seller because the related seller meeting the requirements of paragraph (1) lacks sufficient financial resources to satisfy any judgment that the court feels it is likely to enter should the claimant prevail.

(d) LIABILITY FOR FAILURE TO MEET APPLICABLE CONTRACTUAL REQUIREMENTS OR SPECIFICATIONS.—A biomaterials supplier may, to the extent required and permitted by any other applicable law, be liable for harm to a claimant caused by an implant if the claimant in an action shows, by a preponderance of the evidence, that—

1. the biomaterials supplier supplied raw materials or component parts for use in the implant that either—
   (A) did not constitute the product described in the contract between the biomaterials supplier and the person who contracted for the supplying of the product; or
   (B) failed to meet any specifications that were—
      (i) accepted, pursuant to applicable law, by the biomaterials supplier;
      (ii) published by the biomaterials supplier;
      (iii) provided by the biomaterials supplier to the person who contracted for such product;

Deadline.
(iv) contained in a master file that was submitted by the biomaterials supplier to the Secretary and that is currently maintained by the biomaterials supplier for purposes of premarket approval of medical devices; or

(v) included in the submissions for purposes of premarket approval or review by the Secretary under section 510, 513, 515, or 520 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360, 360c, 360e, or 360j), and received clearance from the Secretary if such specifications were accepted, pursuant to applicable law, by the biomaterials supplier; and

(2) such failure to meet applicable contractual requirements or specifications was an actual and proximate cause of the harm to the claimant.

SEC. 6. PROCEDURES FOR DISMISSAL OF CIVIL ACTIONS AGAINST BIOMATERIALS SUPPLIERS.

(a) MOTION TO DISMISS.—A defendant may, at any time during which a motion to dismiss may be filed under applicable law, move to dismiss an action against it on the grounds that the defendant is a biomaterials supplier and one or more of the following:

(1) The defendant is not liable as a manufacturer, as provided in section 5(b).

(2) The defendant is not liable as a seller, as provided in section 5(c).

(3) The defendant is not liable for furnishing raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, as provided in section 5(d).

(4) The claimant did not name the manufacturer as a party to the action, as provided in subsection (b).

(b) MANUFACTURER OF IMPLANT SHALL BE NAMED A PARTY.—In any civil action covered by this Act, the claimant shall be required to name the manufacturer of the implant as a party to the action, unless—

(1) the manufacturer is subject to service of process solely in a jurisdiction in which the biomaterials supplier is not domiciled or subject to a service of process; or

(2) a claim against the manufacturer is barred by applicable law or rule of practice.

(c) PROCEEDING ON MOTION TO DISMISS.—The following rules shall apply to any proceeding on a motion to dismiss filed by a defendant under this section:

(1) EFFECT OF MOTION TO DISMISS ON DISCOVERY.—

(A) IN GENERAL.—Except as provided in subparagraph (B), if a defendant files a motion to dismiss under subsection (a), no discovery shall be permitted in connection with the action that is the subject of the motion, other than discovery necessary to determine a motion to dismiss for lack of jurisdiction, until such time as the court rules on the motion to dismiss.

(B) DISCOVERY.—If a defendant files a motion to dismiss under subsection (a)(3) on the grounds that it did not furnish raw materials or component parts for the implant that failed to meet applicable contractual require-
ments or specifications, the court may permit discovery limited to issues that are directly relevant to—

(i) the pending motion to dismiss; or
(ii) the jurisdiction of the court.

(2) AFFIDAVITS.—

(A) DEFENDANT.—A defendant may submit affidavits supporting the grounds for dismissal contained in its motion to dismiss under subsection (a). If the motion is made under subsection (a)(1), the defendant may submit an affidavit demonstrating that the defendant has not included the implant on a list, if any, filed with the Secretary pursuant to section 510(j) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360(j)).

(B) CLAIMANT.—In response to a motion to dismiss, the claimant may submit affidavits demonstrating that—

(i) the Secretary has, with respect to the defendant and the implant that allegedly caused harm to the claimant, issued a declaration pursuant to section 5(b)(2)(B); or
(ii) the defendant is a seller of the implant who is liable under section 5(c).

(3) BASIS OF RULING ON MOTION TO DISMISS.—The court shall rule on a motion to dismiss filed under subsection (a) solely on the basis of the pleadings and affidavits of the parties made pursuant to this subsection. The court shall grant a motion to dismiss filed under subsection (a)—

(A) unless the claimant submits a valid affidavit that demonstrates that the defendant is not a biomaterials supplier;

(B) unless the court determines, to the extent raised in the pleadings and affidavits, that one or more of the following apply:

(i) the defendant may be liable as a manufacturer, as provided in section 5(b);
(ii) the defendant may be liable as a seller, as provided in section 5(c); or
(iii) the defendant may be liable for furnishing raw materials or component parts for the implant that failed to meet applicable contractual requirements or specifications, as provided in section 5(d); or
(C) if the claimant did not name the manufacturer as a party to the action, as provided in subsection (b).

(4) TREATMENT OF MOTION AS MOTION FOR SUMMARY JUDGMENT.—The court may treat a motion to dismiss as a motion for summary judgment subject to subsection (d) in order to determine whether the pleadings and affidavits, in connection with such action, raise genuine issues of material fact concerning whether the defendant furnished raw materials or component parts of the implant that failed to meet applicable contractual requirements or specifications as provided in section 5(d).

(d) SUMMARY JUDGMENT.—

(1) IN GENERAL.—

(A) BASIS FOR ENTRY OF JUDGMENT.—If a motion to dismiss of a biomaterials supplier is to be treated as a motion for summary judgment under subsection (c)(4) or if a biomaterials supplier moves for summary judgment,
the biomaterials supplier shall be entitled to entry of judgment without trial if the court finds there is no genuine issue of material fact for each applicable element set forth in paragraphs (1) and (2) of section 5(d).

(B) ISSUES OF MATERIAL FACT.—With respect to a finding made under subparagraph (A), the court shall consider a genuine issue of material fact to exist only if the evidence submitted by the claimant would be sufficient to allow a reasonable jury to reach a verdict for the claimant if the jury found the evidence to be credible.

(2) DISCOVERY MADE PRIOR TO A RULING ON A MOTION FOR SUMMARY JUDGMENT.—If, under applicable rules, the court permits discovery prior to a ruling on a motion for summary judgment governed by section 5(d), such discovery shall be limited solely to establishing whether a genuine issue of material fact exists as to the applicable elements set forth in paragraphs (1) and (2) of section 5(d).

(3) DISCOVERY WITH RESPECT TO A BIOMATERIALS SUPPLIER.—A biomaterials supplier shall be subject to discovery in connection with a motion seeking dismissal or summary judgment on the basis of the inapplicability of section 5(d) or the failure to establish the applicable elements of section 5(d) solely to the extent permitted by the applicable Federal or State rules for discovery against nonparties.

(e) DISMISSAL WITH PREJUDICE.—An order granting a motion to dismiss or for summary judgment pursuant to this section shall be entered with prejudice, except insofar as the moving defendant may be rejoined to the action as provided in section 7.

(f) MANUFACTURER CONDUCT OF LITIGATION.—The manufacturer of an implant that is the subject of an action covered under this Act shall be permitted to conduct litigation on any motion for summary judgment or dismissal filed by a biomaterials supplier who is a defendant under this section on behalf of such supplier if the manufacturer and any other defendant in such action enter into a valid and applicable contractual agreement under which the manufacturer agrees to bear the cost of such litigation or to conduct such litigation.

SEC. 7. SUBSEQUENT IPLEADER OF DISMISSED BIOMATERIALS SUPPLIER.

(a) IPLEADING OF DISMISSED DEFENDANT.—A court, upon motion by a manufacturer or a claimant within 90 days after entry of a final judgment in an action by the claimant against a manufacturer, and notwithstanding any otherwise applicable statute of limitations, may implead a biomaterials supplier who has been dismissed from the action pursuant to this Act if—

(1) the manufacturer has made an assertion, either in a motion or other pleading filed with the court or in an opening or closing statement at trial, or as part of a claim for contribution or indemnification, and the court finds based on the court’s independent review of the evidence contained in the record of the action, that under applicable law—

(A) the negligence or intentionally tortious conduct of the dismissed supplier was an actual and proximate cause of the harm to the claimant; and
(B) the manufacturer’s liability for damages should be reduced in whole or in part because of such negligence or intentionally tortious conduct; or
(2) the claimant has moved to implead the supplier and the court finds, based on the court’s independent review of the evidence contained in the record of the action, that under applicable law—
   (A) the negligence or intentionally tortious conduct of the dismissed supplier was an actual and proximate cause of the harm to the claimant; and
   (B) the claimant is unlikely to be able to recover the full amount of its damages from the remaining defendants.
(b) STANDARD OF LIABILITY.—Notwithstanding any preliminary finding under subsection (a), a biomaterials supplier who has been impleaded into an action covered by this Act, as provided for in this section—
   (1) may, prior to entry of judgment on the claim against it, supplement the record of the proceeding that was developed prior to the grant of the motion for impleader under subsection (a); and
   (2) may be found liable to a manufacturer or a claimant only to the extent required and permitted by any applicable State or Federal law other than this Act.
(c) DISCOVERY.—Nothing in this section shall give a claimant or any other party the right to obtain discovery from a biomaterials supplier at any time prior to grant of a motion for impleader beyond that allowed under section 6.

SEC. 8. EFFECTIVE DATE.

This Act shall apply to all civil actions covered under this Act that are commenced on or after the date of enactment of this Act, including any such action with respect to which the harm asserted in the action or the conduct that caused the harm occurred before the date of enactment of this Act.

Joint Resolution

Whereas hostilities in Operation Desert Storm ended on February 28, 1991, and the conditions governing the cease-fire were specified in United Nations Security Council Resolutions 686 (March 2, 1991) and 687 (April 3, 1991);

Whereas United Nations Security Council Resolution 687 requires that international economic sanctions remain in place until Iraq discloses and destroys its weapons of mass destruction programs and capabilities and undertakes unconditionally never to resume such activities;

Whereas Resolution 687 established the United Nations Special Commission on Iraq (UNSCOM) to uncover all aspects of Iraq’s weapons of mass destruction programs and tasked the Director-General of the International Atomic Energy Agency to locate and remove or destroy all nuclear weapons systems, subsystems or material from Iraq;

Whereas United Nations Security Council Resolution 715, adopted on October 11, 1991, empowered UNSCOM to maintain a long-term monitoring program to ensure Iraq’s weapons of mass destruction programs are dismantled and not restarted;

Whereas Iraq has consistently fought to hide the full extent of its weapons programs, and has systematically made false declarations to the Security Council and to UNSCOM regarding those programs, and has systematically obstructed weapons inspections for seven years;

Whereas in June 1991, Iraqi forces fired on International Atomic Energy Agency inspectors and otherwise obstructed and misled UNSCOM inspectors, resulting in United Nations Security Council Resolution 707 which found Iraq to be in “material breach” of its obligations under United Nations Security Council Resolution 687 for failing to allow UNSCOM inspectors access to a site storing nuclear equipment;

Whereas in January and February of 1992, Iraq rejected plans to install long-term monitoring equipment and cameras called for in United Nations resolutions, resulting in a Security Council Presidential Statement of February 19, 1992 which declared that Iraq was in “continuing material breach” of its obligations;

Whereas in February of 1992, Iraq continued to obstruct the installation of monitoring equipment, and failed to comply with UNSCOM orders to allow destruction of missiles and other proscribed weapons, resulting in the Security Council Presidential Statement of February 28, 1992, which reiterated that Iraq was in “continuing material breach” and noted a “further material
breathe” on account of Iraq’s failure to allow destruction of ballistic missile equipment;

Whereas on July 5, 1992, Iraq denied UNSCOM inspectors access to the Iraqi Ministry of Agriculture, resulting in a Security Council Presidential Statement of July 6, 1992, which declared that Iraq was in “material and unacceptable breach” of its obligations under United Nations resolutions;

Whereas in December of 1992 and January of 1993, Iraq violated the southern no-fly zone, moved surface-to-air missiles into the no-fly zone, raided a weapons depot in internationally recognized Kuwaiti territory and denied landing rights to a plane carrying United Nations weapons inspectors, resulting in a Security Council Presidential Statement of January 8, 1993, which declared that Iraq was in an “unacceptable and material breach” of its obligations under United Nations resolutions;

Whereas in response to continued Iraqi defiance, a Security Council Presidential Statement of January 11, 1993, reaffirmed the previous finding of material breach, followed on January 13 and 18 by allied air raids, and on January 17 with an allied missile attack on Iraqi targets;

Whereas on June 10, 1993, Iraq prevented UNSCOM’s installation of cameras and monitoring equipment, resulting in a Security Council Presidential Statement of June 18, 1993, declaring Iraq’s refusal to comply to be a “material and unacceptable breach”;

Whereas on October 6, 1994, Iraq threatened to end cooperation with weapons inspectors if sanctions were not ended, and one day later, massed 10,000 troops within 30 miles of the Kuwaiti border, resulting in United Nations Security Council Resolution 949 demanding Iraq’s withdrawal from the Kuwaiti border area and renewal of compliance with UNSCOM;

Whereas on April 10, 1995, UNSCOM reported to the Security Council that Iraq had concealed its biological weapons program, and had failed to account for 17 tons of biological weapons material resulting in the Security Council’s renewal of sanctions against Iraq;

Whereas on July 1, 1995, Iraq admitted to a full scale biological weapons program, but denied weaponization of biological agents, and subsequently threatened to end cooperation with UNSCOM resulting in the Security Council’s renewal of sanctions against Iraq;

Whereas on March 8, 11, 14, and 15, 1996, Iraq again barred UNSCOM inspectors from sites containing documents and weapons, in response to which the Security Council issued a Presidential Statement condemning “clear violations by Iraq of previous Resolutions 687, 707, and 715”;

Whereas in December 1996, Iraq prevented UNSCOM from removing 130 Scud missile engines from Iraq for analysis, resulting in a Security Council Presidential Statement which “deplore[d]” Iraq’s refusal to cooperate with UNSCOM;

Whereas on April 9, 1997, Iraq violated the no-fly zone in southern Iraq and United Nations Security Council Resolution 670, banning international flights, resulting in a Security Council statement regretting Iraq’s lack of “specific consultation” with the Council;

Whereas on June 4 and 5, 1997 Iraqi officials on board UNSCOM aircraft interfered with the controls and inspections, endangering inspectors and obstructing the UNSCOM mission, resulting in a United Nations Security Council Presidential Statement demanding Iraq end its interference and on June 21, 1997, United Nations Security Council Resolution 1115 threatened sanctions on Iraqi officials responsible for these interferences;

Whereas on September 13, 1997, during an inspection mission, an Iraqi official attacked UNSCOM officials engaged in photographing illegal Iraqi activities, resulting in the October 23, 1997, adoption of United Nations Security Council Resolution 1134 which threatened a travel ban on Iraqi officials responsible for noncompliance with United Nations resolutions;

Whereas on October 29, 1997, Iraq announced that it would no longer allow American inspectors working with UNSCOM to conduct inspections in Iraq, blocking UNSCOM teams containing Americans to conduct inspections and threatening to shoot down United States U-2 surveillance flights in support of UNSCOM, resulting in a United Nations Security Council Resolution 1137 on November 12, 1997, which imposed the travel ban on Iraqi officials and threatened unspecified “further measures”; 

Whereas on November 13, 1997, Iraq expelled United States inspectors from Iraq, leading to UNSCOM’s decision to pull out its remaining inspectors and resulting in a United Nations Security Council Presidential Statement demanding Iraq revoke the expulsion;

Whereas on January 16, 1998, an UNSCOM team led by American Scott Ritter was withdrawn from Iraq after being barred for three days by Iraq from conducting inspections, resulting in the adoption of a United Nations Security Council Presidential Statement deploring Iraq’s decision to bar the team as a clear violation of all applicable resolutions;

Whereas despite clear agreement on the part of Iraqi President Saddam Hussein with United Nations General Kofi Annan to grant access to all sites, and fully cooperate with UNSCOM, and the adoption on March 2, 1998, of United Nations Security Council Resolution 1154, warning that any violation of the agreement with Annan would have the “severest consequences” for Iraq, Iraq has continued to actively conceal weapons and weapons programs, provide misinformation and otherwise deny UNSCOM inspectors access;

Whereas on June 24, 1998, UNSCOM Director Richard Butler presented information to the United Nations Security Council indicating clearly that Iraq, in direct contradiction to information provided to UNSCOM, weaponized the nerve agent VX; and

Whereas Iraq’s continuing weapons of mass destruction programs threaten vital United States interests and international peace and security: Now, therefore, be it
Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Government of Iraq is in material and unacceptable breach of its international obligations, and therefore the President is urged to take appropriate action, in accordance with the Constitution and relevant laws of the United States, to bring Iraq into compliance with its international obligations.

Approved August 14, 1998.

“ARTICLE III. THE COMMISSION

Establishment.

“Sec. 3.01. There is hereby established the Texas Low-Level Radioactive Waste Disposal Compact Commission. The commission shall consist of one voting member from each party state except that the host state shall be entitled to six voting members. Commission members shall be appointed by the party state governors, as provided by the laws of each party state. Each party state may provide alternates for each appointed member.

“Sec. 3.02. A quorum of the commission consists of a majority of the members. Except as otherwise provided in this compact, an official act of the commission must receive the affirmative vote of a majority of its members.

“Sec. 3.03. The commission is a legal entity separate and distinct from the party states and has governmental immunity to the same extent as an entity created under the authority of Article XVI, Section 59, of the Texas Constitution. Members of the commission shall not be personally liable for actions taken in their official capacity. The liabilities of the commission shall not be deemed liabilities of the party states.

“Sec. 3.04. The commission shall:

“(1) Compensate its members according to the host state’s law.

“(2) Conduct its business, hold meetings, and maintain public records pursuant to laws of the host state, except that notice of public meetings shall be given in the non-host party states in accordance with their respective statutes.

“(3) Be located in the capital city of the host state.

“(4) Meet at least once a year and upon the call of the chair, or any member. The governor of the host state shall appoint a chair and vice-chair.

“(6) Approve a budget each year and establish a fiscal year that conforms to the fiscal year of the host state.
(7) Prepare, adopt, and implement contingency plans for the disposal and management of low-level radioactive waste in the event that the compact facility should be closed. Any plan which requires the host state to store or otherwise manage the low-level radioactive waste from all the party states must be approved by at least four host state members of the commission. The commission, in a contingency plan or otherwise, may not require a non-host party state to store low-level radioactive waste generated outside of the state.

(8) Submit communications to the governors and to the presiding officers of the legislatures of the party states regarding the activities of the commission, including an annual report to be submitted on or before January 31 of each year.

(9) Assemble and make available to the party states, and to the public, information concerning low-level radioactive waste management needs, technologies, and problems.

(10) Keep a current inventory of all generators within the party states, based upon information provided by the party states.

(11) By no later than 180 days after all members of the commission are appointed under Section 3.01 of this article, establish by rule the total volume of low-level radioactive waste that the host state will dispose of in the compact facility in the years 1995–2045, including decommissioning waste. The shipments of low-level radioactive waste from all non-host party states shall not exceed 20 percent of the volume estimated to be disposed of by the host state during the 50-year period. When averaged over such 50-year period, the total of all shipments from non-host party states shall not exceed 20,000 cubic feet a year. The commission shall coordinate the volumes, timing, and frequency of shipments from generators in the non-host party states in order to assure that over the life of this agreement shipments from the non-host party states do not exceed 20 percent of the volume projected by the commission under this paragraph.

SEC. 3.05. The commission may:

(1) Employ staff necessary to carry out its duties and functions. The commission is authorized to use to the extent practicable the services of existing employees of the party states. Compensation shall be as determined by the commission.

(2) Accept any grants, equipment, supplies, materials, or services, conditional or otherwise, from the federal or state government. The nature, amount and condition, if any, of any donation, grant or other resources accepted pursuant to this paragraph and the identity of the donor or grantor shall be detailed in the annual report of the commission.

(3) Enter into contracts to carry out its duties and authority, subject to projected resources. No contract made by the commission shall bind a party state.

(4) Adopt, by a majority vote, bylaws and rules necessary to carry out the terms of this compact. Any rules promulgated by the commission shall be adopted in accordance with the Administrative Procedure and Texas Register Act (Article 6252–13a, Vernon’s Texas Civil Statutes).

“(6) Enter into an agreement with any person, state, regional body, or group of states for the importation of low-level radioactive waste into the compact for management or disposal, provided that the agreement receives a majority vote of the commission. The commission may adopt such conditions and restrictions in the agreement as it deems advisable.

“(7) Upon petition, allow an individual generator, a group of generators, or the host state of the compact, to export low-level waste to a low-level radioactive waste disposal facility located outside the party states. The commission may approve the petition only by a majority vote of its members. The permission to export low-level radioactive waste shall be effective for that period of time and for the specified amount of low-level radioactive waste, and subject to any other term or condition, as is determined by the commission.

“(8) Monitor the exportation outside of the party states of material, which otherwise meets the criteria of low-level radioactive waste, where the sole purpose of the exportation is to manage or process the material for recycling or waste reduction and return it to the party states for disposal in the compact facility.

“Sec. 3.06. Jurisdiction and venue of any action contesting any action of the commission shall be in the United States District Court in the district where the commission maintains its office.

“Article IV. Rights, Responsibilities, and Obligations of Party States

“Sec. 4.01. The host state shall develop and have full administrative control over the development, management and operation of a facility for the disposal of low-level radioactive waste generated within the party states. The host state shall be entitled to unlimited use of the facility over its operating life. Use of the facility by the non-host party states for disposal of low-level radioactive waste, including such waste resulting from decommissioning of any nuclear electric generation facilities located in the party states, is limited to the volume requirements of Section 3.04(11) of Article III.

“Sec. 4.02. Low-level radioactive waste generated within the party states shall be disposed of only at the compact facility, except as provided in Section 3.05(7) of Article III.

“Sec. 4.03. The initial states of this compact cannot be members of another low-level radioactive waste compact entered into pursuant to the Act.

“Sec. 4.04. The host state shall do the following:

“(1) Cause a facility to be developed in a timely manner and operated and maintained through the institutional control period.

“(2) Ensure, consistent with any applicable federal and host state laws, the protection and preservation of the environment and the public health and safety in the siting, design, development, licensing, regulation, operation, closure, decommissioning, and long-term care of the disposal facilities within the host state.

“(3) Close the facility when reasonably necessary to protect the public health and safety of its citizens or to protect its natural resources from harm. However, the host state shall notify the commission of the closure within three days of its action and shall, within 30 working days of its action, provide Notification.
a written explanation to the commission of the closure, and implement any adopted contingency plan.

“(4) Establish reasonable fees for disposal at the facility of low-level radioactive waste generated in the party states based on disposal fee criteria set out in Sections 402.272 and 402.273, Texas Health and Safety Code. The same fees shall be charged for the disposal of low-level radioactive waste that was generated in the host state and in the non-host party states. Fees shall also be sufficient to reasonably support the activities of the Commission.

“(5) Submit an annual report to the commission on the status of the facility, including projections of the facility’s anticipated future capacity, and on the related funds.

“(6) Notify the Commission immediately upon the occurrence of any event which could cause a possible temporary or permanent closure of the facility and identify all reasonable options for the disposal of low-level radioactive waste at alternate compact facilities or, by arrangement and Commission vote, at noncompact facilities.

“(7) Promptly notify the other party states of any legal action involving the facility.

“(8) Identify and regulate, in accordance with federal and host state law, the means and routes of transportation of low-level radioactive waste in the host state.

“Sec. 4.05. Each party state shall do the following:

“(1) Develop and enforce procedures requiring low-level radioactive waste shipments originating within its borders and destined for the facility to conform to packaging, processing, and waste form specifications of the host state.

“(2) Maintain a registry of all generators within the state that may have low-level radioactive waste to be disposed of at a facility, including, but not limited to, the amount of low-level radioactive waste and the class of low-level radioactive waste generated by each generator.

“(3) Develop and enforce procedures requiring generators within its borders to minimize the volume of low-level radioactive waste requiring disposal. Nothing in this compact shall prohibit the storage, treatment, or management of waste by a generator.

“(4) Provide the commission with any data and information necessary for the implementation of the commission’s responsibilities, including taking those actions necessary to obtain this data or information.

“(5) Pay for community assistance projects designated by the host county in an amount for each non-host party state equal to 10 percent of the payment provided for in Article V for each such state. One-half of the payment shall be due and payable to the host county on the first day of the month following ratification of this compact agreement by Congress and one-half of the payment shall be due and payable on the first day of the month following the approval of a facility operating license by the host state’s regulatory body.

“(6) Provide financial support for the commission’s activities prior to the date of facility operation and subsequent to the date of congressional ratification of this compact under Section 7.07 of Article VII. Each party state will be responsible for
annual payments equalling its pro-rata share of the commission’s expenses, incurred for administrative, legal, and other purposes of the commission.

"(7) If agreed by all parties to a dispute, submit the dispute to arbitration or other alternate dispute resolution process. If arbitration is agreed upon, the governor of each party state shall appoint an arbitrator. If the number of party states is an even number, the arbitrators so chosen shall appoint an additional arbitrator. The determination of a majority of the arbitrators shall be binding on the party states. Arbitration proceedings shall be conducted in accordance with the provisions of 9 U.S.C. Sections 1 to 16. If all parties to a dispute do not agree to arbitration or alternate dispute resolution process, the United States District Court in the district where the commission maintains its office shall have original jurisdiction over any action between or among parties to this compact.

"(8) Provide on a regular basis to the commission and host state—

"(A) an accounting of waste shipped and proposed to be shipped to the compact facility, by volume and curies;

"(B) proposed transportation methods and routes; and

"(C) proposed shipment schedules.

"(9) Seek to join in any legal action by or against the host state to prevent nonparty states or generators from disposing of low-level radioactive waste at the facility.

"Sec. 4.06. Each party state shall act in good faith and may rely on the good faith performance of the other party states regarding requirements of this compact.

"ARTICLE V. PARTY STATE CONTRIBUTIONS

"Sec. 5.01. Each party state, except the host state, shall contribute a total of $25 million to the host state. Payments shall be deposited in the host state treasury to the credit of the low-level waste fund in the following manner except as otherwise provided. Not later than the 60th day after the date of congressional ratification of this compact, each non-host party state shall pay to the host state $12.5 million. Not later than the 60th day after the date of the opening of the compact facility, each non-host party state shall pay to the host state an additional $12.5 million.

"Sec. 5.02. As an alternative, the host state and the non-host states may provide for payments in the same total amount as stated above to be made to meet the principal and interest expense associated with the bond indebtedness or other form of indebtedness issued by the appropriate agency of the host state for purposes associated with the development, operation, and post-closure monitoring of the compact facility. In the event the member states proceed in this manner, the payment schedule shall be determined in accordance with the schedule of debt repayment. This schedule shall replace the payment schedule described in Section 5.01 of this article.

"ARTICLE VI. PROHIBITED ACTS AND PENALTIES

"Sec. 6.01. No person shall dispose of low-level radioactive waste generated within the party states unless the disposal is at the compact facility, except as otherwise provided in Section 3.05(7) of Article III.
SEC. 6.02. No person shall manage or dispose of any low-level radioactive waste within the party states unless the low-level radioactive waste was generated within the party states, except as provided in Section 3.05(6) of Article III. Nothing herein shall be construed to prohibit the storage or management of low-level radioactive waste by a generator, nor its disposal pursuant to 10 C.F.R. Part 20.302.

SEC. 6.03. Violations of this article may result in prohibiting the violator from disposing of low-level radioactive waste in the compact facility, or in the imposition of penalty surcharges on shipments to the facility, as determined by the commission.

ARTICLE VII. ELIGIBILITY, ENTRY INTO EFFECT; CONGRESSIONAL CONSENT; WITHDRAWAL; EXCLUSION

SEC. 7.01. The states of Texas, Maine, and Vermont are party states to this compact. Any other state may be made eligible for party status by a majority vote of the commission and ratification by the legislature of the host state, subject to fulfillment of the rights of the initial non-host party states under Section 3.04(11) of Article III and Section 4.01 of Article IV, and upon compliance with those terms and conditions for eligibility that the host state may establish. The host state may establish all terms and conditions for the entry of any state, other than the states named in this section, as a member of this compact; provided, however, the specific provisions of this compact, except for those pertaining to the composition of the commission and those pertaining to Section 7.09 of this article, may not be changed except upon ratification by the legislatures of the party states.

SEC. 7.02. Upon compliance with the other provisions of this compact, a state made eligible under Section 7.01 of this article may become a party state by legislative enactment of this compact or by executive order of the governor of the state adopting this compact. A state becoming a party state by executive order shall cease to be a party state upon adjournment of the first general session of its legislature convened after the executive order is issued, unless before the adjournment, the legislature enacts this compact.

SEC. 7.03. Any party state may withdraw from this compact by repealing enactment of this compact subject to the provisions herein. In the event the host state allows an additional state or additional states to join the compact, the host state's legislature, without the consent of the non-host party states, shall have the right to modify the composition of the commission so that the host state shall have a voting majority on the commission, provided, however, that any modification maintains the right of each initial party state to retain one voting member on the commission.

SEC. 7.04. If the host state withdraws from the compact, the withdrawal shall not become effective until five years after enactment of the repealing legislation and the non-host party states may continue to use the facility during that time. The financial obligation of the non-host party states under Article V shall cease immediately upon enactment of the repealing legislation. If the host state withdraws from the compact or abandons plans to operate a facility prior to the date of any non-host party state payment under Sections 4.05(5) and (6) of Article IV or Article V, the non-host party states are relieved of any obligations to make the contributions. This section sets out the exclusive remedies for the Effective date.
non-host party states if the host state withdraws from the compact or is unable to develop and operate a compact facility.

"Sec. 7.05. A party state, other than the host state, may withdraw from the compact by repealing the enactment of this compact, but this withdrawal shall not become effective until two years after the effective date of the repealing legislation. During this two-year period the party state will continue to have access to the facility. The withdrawing party shall remain liable for any payments under Sections 4.05(5) and (6) of Article IV that were due during the two-year period, and shall not be entitled to any refund of payments previously made.

"Sec. 7.06. Any party state that substantially fails to comply with the terms of the compact or to fulfill its obligations hereunder may have its membership in the compact revoked by a seven-eighths vote of the commission following notice that a hearing will be scheduled not less than six months from the date of the notice. In all other respects, revocation proceedings undertaken by the commission will be subject to the Administrative Procedure and Texas Register Act (Article 6252-13a, Vernon’s Texas Civil Statutes), except that a party state may appeal the commission’s revocation decision to the United States District Court in accordance with Section 3.06 of Article III. Revocation shall take effect one year from the date such party state receives written notice from the commission of a final action. Written notice of revocation shall be transmitted immediately following the vote of the commission, by the chair, to the governor of the affected party state, all other governors of party states, and to the United States Congress.

"Sec. 7.07. This compact shall take effect following its enactment under the laws of the host state and any other party state and thereafter upon the consent of the United States Congress and shall remain in effect until otherwise provided by federal law. If Texas and either Maine or Vermont ratify this compact, the compact shall be in full force and effect as to Texas and the other ratifying state, and this compact shall be interpreted as follows:

"(1) Texas and the other ratifying state are the initial party states.
"(2) The commission shall consist of two voting members from the other ratifying state and six from Texas.
"(3) Each party state is responsible for its pro-rata share of the commission’s expenses.

"Sec. 7.08. This compact is subject to review by the United States Congress and the withdrawal of the consent of Congress every five years after its effective date, pursuant to federal law.

"Sec. 7.09. The host state legislature, with the approval of the governor, shall have the right and authority, without the consent of the non-host party states, to modify the provisions contained in Section 3.04(11) of Article III to comply with Section 402.219(c)(1), Texas Health & Safety Code, as long as the modification does not impair the rights of the initial non-host party states.

"ARTICLE VIII. CONSTRUCTION AND SEVERABILITY

"Sec. 8.01. The provisions of this compact shall be broadly construed to carry out the purposes of the compact, but the sovereign powers of a party shall not be infringed upon unnecessarily.

"Sec. 8.02. This compact does not affect any judicial proceeding pending on the effective date of this compact.
"Sec. 8.03. No party state acquires any liability, by joining this compact, resulting from the siting, operation, maintenance, long-term care or any other activity relating to the compact facility. No non-host party state shall be liable for any harm or damage from the siting, operation, maintenance, or long-term care relating to the compact facility. Except as otherwise expressly provided in this compact, nothing in this compact shall be construed to alter the incidence of liability of any kind for any act or failure to act. Generators, transporters, owners and operators of the facility shall be liable for their acts, omissions, conduct or relationships in accordance with applicable law. By entering into this compact and securing the ratification by Congress of its terms, no party state acquires a potential liability under section 5(d)(2)(C) of the Act (42 U.S.C. Sec. 2021e(d)(2)(C)) that did not exist prior to entering into this compact.

"Sec. 8.04. If a party state withdraws from the compact pursuant to Section 7.03 of Article VII or has its membership in this compact revoked pursuant to section 7.06 of Article VII, the withdrawal or revocation shall not affect any liability already incurred by or chargeable to the affected state under Section 8.03 of this article.

"Sec. 8.05. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared by a court of competent jurisdiction to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstances is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby to the extent the remainder can in all fairness be given effect. If any provision of this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

"Sec. 8.06. Nothing in this compact diminishes or otherwise impairs the jurisdiction, authority, or discretion of either of the following:

"(1) The United States Nuclear Regulatory Commission pursuant to the Atomic Energy Act of 1954, as amended (42 U.S.C. Sec. 2011 et seq.).

"Sec. 8.07. Nothing in this compact confers any new authority on the states or commission to do any of the following:

"(1) Regulate the packaging or transportation of low-level radioactive waste in a manner inconsistent with the regulations of the United States Nuclear Regulatory Commission or the United States Department of Transportation.
“(2) Regulate health, safety, or environmental hazards from source, by-product, or special nuclear material.

105th Congress

An Act

To amend the Fish and Wildlife Act of 1956 to promote volunteer programs and community partnerships for the benefit of national wildlife refuges, and for other purposes.

BE IT ENACTED BY THE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED,

SECTION 1. SHORT TITLE.

This Act may be cited as the “National Wildlife Refuge System Volunteer and Community Partnership Enhancement Act of 1998”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the National Wildlife Refuge System (referred to in this Act as the “System”), consisting of more than 500 refuges and 93,000,000 acres, plays an integral role in the protection of the natural resources of the United States;

(2) the National Wildlife Refuge System Improvement Act of 1997 (Public Law 105–57; 111 Stat. 1252) significantly improved the law governing the System, although the financial resources for implementing this law and managing the System remain limited;

(3) by encouraging volunteer programs and donations, and facilitating non-Federal partnerships with refuges, Federal funding for the refuges can be supplemented and the System can fully benefit from the amendments made by the National Wildlife Refuge System Improvement Act of 1997; and

(4) by encouraging refuge educational programs, public awareness of the resources of the System and public participation in the conservation of those resources can be promoted.

(b) PURPOSES.—The purposes of this Act are—

(1) to encourage the use of volunteers to assist the United States Fish and Wildlife Service in the management of refuges within the System;

(2) to facilitate partnerships between the System and non-Federal entities to promote public awareness of the resources of the System and public participation in the conservation of those resources; and

(3) to encourage donations and other contributions by persons and organizations to the System.

SEC. 3. GIFTS TO PARTICULAR NATIONAL WILDLIFE REFUGES.

Section 7(b)(2) of the Fish and Wildlife Act of 1956 (16 U.S.C. 742f(b)(2)) is amended—

"(b) ADDITIONAL INSTITUTIONS INCLUDED.—For purposes of this Act, other than title IV, the term 'institution of higher education' also includes—

"(1) any school that provides not less than a 1-year program of training to prepare students for gainful employment in a recognized occupation and that meets the provision of paragraphs (1), (2), (4), and (5) of subsection (a); and

SEC. 102. DEFINITION OF INSTITUTION OF HIGHER EDUCATION FOR
PURPOSES OF TITLE IV PROGRAMS.

(a) Definition of Institution of Higher Education for
Purposes of Title IV Programs.—

(1) Inclusion of additional institutions.—Subject to
paragraphs (2) through (4) of this subsection, the term 'institu-
tion of higher education' for purposes of title IV includes, in
addition to the institutions covered by the definition in section
101—

(A) a proprietary institution of higher education (as
defined in subsection (b) of this section);

(B) a postsecondary vocational institution (as defined
in subsection (c) of this section); and

(C) only for the purposes of part B of title IV, an
institution outside the United States that is comparable
to an institution of higher education as defined in section
101 and that has been approved by the Secretary for the
purpose of part B of title IV.

(2) Institutions outside the United States.—

(A) In general.—For the purpose of qualifying as
an institution under paragraph (1)(C), the Secretary shall
establish criteria by regulation for the approval of institu-
tions outside the United States and for the determination
that such institutions are comparable to an institution
of higher education as defined in section 101. In the case
of a graduate medical or veterinary school outside the
United States, such criteria shall include a requirement
that a student attending such school outside the United
States is ineligible for loans made, insured, or guaranteed
under part B unless—

(i)(I) at least 60 percent of those enrolled in, and
at least 60 percent of the graduates of, the graduate
medical school outside the United States were not per-
sons described in section 484(a)(5) in the year preced-
ing the year for which a student is seeking a loan
under part B of title IV; and

training at an approved veterinary school located in
the United States.

(B) Advisory panel.—
“(i) IN GENERAL.—For the purpose of qualifying as an institution under paragraph (1)(C) of this subsection, the Secretary shall establish an advisory panel of medical experts that shall—

“(I) evaluate the standards of accreditation applied to applicant foreign medical schools; and

“(II) determine the comparability of those standards to standards for accreditation applied to United States medical schools.

“(ii) SPECIAL RULE.—If the accreditation standards described in clause (i) are determined not to be comparable, the foreign medical school shall be required to meet the requirements of section 101.

“(C) FAILURE TO RELEASE INFORMATION.—The failure of an institution outside the United States to provide, release, or authorize release to the Secretary of such information as may be required by subparagraph (A) shall render such institution ineligible for the purpose of part B of title IV.

“(D) SPECIAL RULE.—If, pursuant to this paragraph, an institution loses eligibility to participate in the programs under title IV, then a student enrolled at such institution may, notwithstanding such loss of eligibility, continue to be eligible to receive a loan under part B while attending such institution for the academic year succeeding the academic year in which such loss of eligibility occurred.

“(3) LIMITATIONS BASED ON COURSE OF STUDY OR ENROLLMENT.—An institution shall not be considered to meet the definition of an institution of higher education in paragraph (1) if such institution—

“(A) offers more than 50 percent of such institution’s courses by correspondence, unless the institution is an institution that meets the definition in section 521(4)(C) of the Carl D. Perkins Vocational and Applied Technology Education Act;

“(B) enrolls 50 percent or more of the institution’s students in correspondence courses, unless the institution is an institution that meets the definition in such section, except that the Secretary, at the request of such institution, may waive the applicability of this subparagraph to such institution for good cause, as determined by the Secretary in the case of an institution of higher education that provides a 2- or 4-year program of instruction (or both) for which the institution awards an associate or baccalaureate degree, respectively;

the United States shall be entitled to recover from such applicant
(or successor) an amount which bears to the value of the facility
at that time (or so much thereof as constituted an approved project
or projects) the same ratio as the amount of Federal grant bore
to the cost of the facility financed with the aid of such grant.
The value shall be determined by agreement of the parties or
by action brought in the United States district court for the district
in which such facility is situated.

“(c) PROHIBITION ON USE FOR RELIGION.—Notwithstanding the

“SEC. 350. FINDINGS.

“Congress makes the following findings:

“(1) It is incumbent on the Federal Government to support the technological and economic competitiveness of the United States by improving and expanding the scientific and technological capacity of the United States. More and better prepared scientists, engineers, and technical experts are needed to improve and expand such capacity.

“(2) As the Nation’s population becomes more diverse, it is important that the educational and training needs of all Americans are met. Underrepresentation of minorities in science and technological fields diminishes our Nation’s competitiveness by impairing the quantity of well prepared scientists, engineers, and technical experts in these fields.

“(3) Despite significant limitations in resources, minority institutions provide an important educational opportunity for minority students, particularly in science and engineering fields. Aid to minority institutions is a good way to address the underrepresentation of minorities in science and technological fields.

“(4) There is a strong Federal interest in improving science and engineering programs at minority institutions as such programs lag behind in program offerings and in student enrollment compared to such programs at other institutions of higher education.”.

“(e) OWNERSHIP OF FEDERAL FUND.—The Federal Fund, and any nonliquid asset (such as a building or equipment) developed or purchased by the guaranty agency in whole or in part with Federal reserve funds, regardless of who holds or controls the Federal reserve funds or such asset, shall be considered to be the property of the United States, prorated based on the percentage of such asset developed or purchased with Federal reserve funds, which property shall be used in the operation of the program authorized by this part, as provided in subsection (d). The Secretary may restrict or regulate the use of such asset only to the extent necessary to reasonably protect the Secretary’s prorated share of the value of such asset. The Secretary may direct a guaranty agency, or such agency’s officers or directors, to cease any activity involving expenditures, use, or transfer of the Federal Fund administered by the guaranty agency that the Secretary determines is a misapplication, misuse, or improper expenditure of the Federal Fund or the Secretary’s share of such asset.

Such transfers may occur during the first 3 years following the establishment of the Operating Fund. However, no agency may transfer in excess of 45 percent of the balance, as of September 30, 1998, of the agency's Federal Fund to the agency's Operating Fund during such 3-year period. (B) the transfer of such interest will substantially improve the financial circumstances of the guaranty agency.

"(3) REPAYMENT PROVISIONS.—Each guaranty agency shall begin repayment of sums transferred pursuant to this subsection not later than the start of the fourth year after the establishment of the Operating Fund, and shall repay all amounts transferred not later than 5 years from the date of the establishment of the Operating Fund. "(4) PROHIBITION.—If a guaranty agency transfers funds from the Federal Fund in accordance with this section, and fails to make scheduled repayments to the Federal Fund, the agency may not receive any other funds under this part until the Secretary determines that the agency has made such repayments. The Secretary shall pay to the guaranty agency any funds withheld in accordance with this paragraph immediately upon making the determination that the guaranty agency has made all such repayments.

"(5) WAIVER.—The Secretary may—

"(6) EXTENSION OF REPAYMENT PERIOD FOR INTEREST.—
“(A) Extension permitted.—The Secretary shall extend the period for repayment of interest that was transferred in accordance with paragraph (2) from 2 years to 5 years if the Secretary determines that—

“(i) the cash flow of the Operating Fund will be negative as a result of repayment as required by paragraph (3);

“(iii) the guaranty agency has demonstrated—

“(I) that the agency is able to repay all transferred funds by the end of the 8th year following the date of establishment of the Operating Fund; and

“(II) that the agency will be financially sound on the completion of repayment.

“(B) Repayment of income on transferred funds.—All repayments made to the Federal Fund during the 6th, 7th, and 8th years following the establishment of the Operating Fund of interest that was transferred shall include the sums transferred plus any income earned from the investment of the sums transferred after the 5th year.

“(7) Investment of Federal funds.—Funds transferred from the Federal Fund to the Operating Fund for operating expenses shall be invested in obligations issued or guaranteed by the United States or a State, or in other similarly low-risk securities selected by the guaranty agency, with the approval of the Secretary.

(3) by adding at the end the following new paragraphs:

“(4) DEFINITION OF MITIGATING CIRCUMSTANCES.—(A) For purposes of paragraph (2)(A)(ii), an institution of higher education shall be treated as having exceptional mitigating circumstances that make application of that paragraph inequitable if such institution, in the opinion of an independent auditor, meets the following criteria:

“(i) For a 12-month period that ended during the 6 months immediately preceding the fiscal year for which the cohort of borrowers used to calculate the institution's cohort default rate is determined, at least two-thirds of the students enrolled on at least a half-time basis at the institution—

“(I) are eligible to receive a Federal Pell Grant award that is at least equal to one-half the maximum Federal Pell Grant award for which a student would be eligible based on the student's enrollment status; or

“(II) have an adjusted gross income that when added with the adjusted gross income of the student's parents (unless the student is an independent student), of less than the poverty level, as determined by the Department of Health and Human Services.

“(ii) In the case of an institution of higher education that offers an associate, baccalaureate, graduate or professional degree, 70 percent or more of the institution's regular students who were initially enrolled on a full-time basis and were scheduled to complete their programs during the same 12-month period described in clause (i)—

“(III) at the end of the 12-month period, remained enrolled and making satisfactory progress toward completion of the student’s educational programs; or
“(IV) entered active duty in the Armed Forces of the United States.
“(iii)(I) In the case of an institution of higher education that does not award a degree described in clause (ii), had a placement rate of 44 percent or more with respect to the institution’s former regular students who—
“(aa) remained in the program beyond the point the students would have received a 100 percent tuition refund from the institution;
“(bb) were initially enrolled on at least a half-time basis; and
“(cc) were originally scheduled, at the time of enrollment, to complete their educational programs during the same 12-month period described in clause (i).
“(II) The placement rate shall not include students who are still enrolled and making satisfactory progress in the educational programs in which the students were originally enrolled on the date following 12 months after the date of the student’s last date of attendance at the institution.
“(III) The placement rate is calculated by determining the percentage of all those former regular students who—
“(aa) are employed, in an occupation for which the institution provided training, on the date following 12 months after the date of their last day of attendance at the institution;
“(bb) were employed, in an occupation for which the institution provided training, for at least 13 weeks before the date following 12 months after the date of their last day of attendance at the institution; or
“(cc) entered active duty in the Armed Forces of the United States.
“(IV) The placement rate shall not include as placements a student or former student for whom the institution is the employer.
“(B) For purposes of determining a rate of completion and a placement rate under this paragraph, a student is originally scheduled, at the time of enrollment, to complete the educational program on the date when the student will have been enrolled in the program for the amount of time normally required to complete the program. The amount of time normally required to complete the program for a student who is initially enrolled full-time is the period of time specified in the institution’s enrollment contract, catalog, or other materials, for completion of the program by a full-time student. For a student who is initially enrolled less than full-time, the period is the amount of time it would take the student to complete the program if the student remained enrolled at that level of enrollment throughout the program.

“(A) BENEFICIARIES OF EXCEPTION REQUIRED TO ESTABLISH MANAGEMENT PLAN.—After July 1, 1999, any institution that has a cohort default rate that equals or exceeds 25 percent for each of the three most recent fiscal years for which data are available and that relies on the exception in subparagraph (B) to continue to be an eligible institution shall—

“(i) submit to the Secretary a default management plan which the Secretary, in the Secretary's discretion, after consideration of the institution's history, resources, dollars in default, and targets for default reduction, determines is acceptable and provides reasonable assurance that the institution will, by July 1, 2002, have a cohort default rate that is less than 25 percent;

“(ii) engage an independent third party (which may be paid with funds received under section 317 or part B of title III) to provide technical assistance in implementing such default management plan; and

“(iii) provide to the Secretary, on an annual basis or at such other intervals as the Secretary may require, evidence of cohort default rate improvement and successful implementation of such default management plan.

“PART A—HISPANIC-SERVING INSTITUTIONS

“SEC. 501. FINDINGS; PURPOSE; AND PROGRAM AUTHORITY.

“(a) FINDINGS.—Congress makes the following findings:

“(1) Hispanic Americans are at high risk of not enrolling or graduating from institutions of higher education.

“(2) Disparities between the enrollment of non-Hispanic white students and Hispanic students in postsecondary education are increasing. Between 1973 and 1994, enrollment of white secondary school graduates in 4-year institutions of higher education increased at a rate two times higher than that of Hispanic secondary school graduates.
“(3) Despite significant limitations in resources, Hispanic-serving institutions provide a significant proportion of post-secondary opportunities for Hispanic students.

“(4) Relative to other institutions of higher education, Hispanic-serving institutions are underfunded. Such institutions receive significantly less in State and local funding, per full-time equivalent student, than other institutions of higher education.

“(5) Hispanic-serving institutions are succeeding in educating Hispanic students despite significant resource problems that—

“(A) limit the ability of such institutions to expand and improve the academic programs of such institutions; and

“(B) could imperil the financial and administrative stability of such institutions.

“(6) There is a national interest in remedying the disparities described in paragraphs (2) and (4) and ensuring that Hispanic students have an equal opportunity to pursue post-secondary opportunities.

“(b) PURPOSE.—The purpose of this title is to—

“(1) expand educational opportunities for, and improve the academic attainment of, Hispanic students; and

In making such designations, the Secretary shall take into account the extent to which the interest in the area is compelling, the extent to which other Federal programs support postbaccalaureate study in the area concerned, and an assessment of how the program could achieve the most significant impact with available resources.

“SEC. 713. CRITERIA FOR APPLICATIONS.

“(a) SELECTION OF APPLICATIONS.—The Secretary shall make grants to academic departments, programs and units of institutions of higher education on the basis of applications submitted in accordance with subsection (b). Applications shall be ranked on program quality by review panels of nationally recognized scholars and evaluated on the quality and effectiveness of the academic program and the achievement and promise of the students to be served. To the extent possible (consistent with other provisions of this

“(7) provide assurances that, in the event that funds made available to the academic department, program or unit under this subpart are insufficient to provide the assistance due a student under the commitment entered into between the academic department, program or unit and the student, the academic department, program or unit will, from any funds available to the department, program or unit, fulfill the commitment to the student;

SEC. 821. GRANTS TO STATES FOR WORKPLACE AND COMMUNITY TRANSITION TRAINING FOR INCARCERATED YOUTH OFFENDERS.

(a) FINDINGS.—Congress makes the following findings:

(1) Over 150,000 youth offenders age 21 and younger are incarcerated in the Nation’s jails, juvenile facilities, and prisons.

(2) Most youth offenders who are incarcerated have been sentenced as first-time adult felons.

(3) Approximately 75 percent of youth offenders are high school dropouts who lack basic literacy and life skills, have little or no job experience, and lack marketable skills.

(4) The average incarcerated youth has attended school only through grade 10.

(5) Most of these youths can be diverted from a life of crime into productive citizenship with available educational, vocational, work skills, and related service programs.

(6) If not involved with educational programs while incarcerated, almost all of these youths will return to a life of crime upon release.

(7) The average length of sentence for a youth offender is about 3 years. Time spent in prison provides a unique opportunity for education and training.

(8) Even with quality education and training provided during incarceration, a period of intense supervision, support, and counseling is needed upon release to ensure effective reintegration of youth offenders into society.

(9) Research consistently shows that the vast majority of incarcerated youths will not return to the public schools to complete their education.

(10) There is a need for alternative educational opportunities during incarceration and after release.

(b) DEFINITION.—For purposes of this part, the term “youth offender” means a male or female offender under the age of 25, who is incarcerated in a State prison, including a prerelease facility.

(c) GRANT PROGRAM.—The Secretary of Education (in this section referred to as the “Secretary”) shall establish a program in accordance with this section to provide grants to the State correctional education agencies in the States, from allocations for the
States under subsection (i), to assist and encourage incarcerated youths to acquire functional literacy, life, and job skills, through the pursuit of a postsecondary education certificate, or an associate of arts or bachelor's degree while in prison, and employment counseling and other related services which start during incarceration and continue through prerelease and while on parole.

(d) APPLICATION.—To be eligible for a grant under this section, a State correctional education agency shall submit to the Secretary a proposal for a youth offender program that—

(1) identifies the scope of the problem, including the number of incarcerated youths in need of postsecondary education and vocational training;

(2) lists the accredited public or private educational institution or institutions that will provide postsecondary educational services;

(3) lists the cooperating agencies, public and private, or businesses that will provide related services, such as counseling in the areas of career development, substance abuse, health, and parenting skills;

(4) describes the evaluation methods and performance measures that the State correctional education agency will employ, which methods and measures—

(A) shall be appropriate to meet the goals and objectives of the proposal; and

(B) shall include measures of—

(i) program completion;

(ii) student academic and vocational skill attainment;

(iii) success in job placement and retention; and

(iv) recidivism;

(5) describes how the proposed programs are to be integrated with existing State correctional education programs (such as adult education, graduate education degree programs, and vocational training) and State industry programs;

(6) addresses the educational needs of youth offenders who are in alternative programs (such as boot camps); and

(7) describes how students will be selected so that only youth offenders eligible under subsection (f) will be enrolled in postsecondary programs.

(e) PROGRAM REQUIREMENTS.—Each State correctional education agency receiving a grant under this section shall—

(1) integrate activities carried out under the grant with the objectives and activities of the school-to-work programs of such State, including—

(A) work experience or apprenticeship programs;

(B) transitional worksite job training for vocational education students that is related to the occupational goals of such students and closely linked to classroom and laboratory instruction;

(C) placement services in occupations that the students are preparing to enter;

(D) employment-based learning programs; and

(E) programs that address State and local labor shortages;

(2) annually report to the Secretary and the Attorney General on the results of the evaluations conducted using the Reports.
methods and performance measures contained in the proposal; and

(f) STUDENT ELIGIBILITY.—A youth offender shall be eligible for participation in a program receiving a grant under this section if the youth offender—

(1) is eligible to be released within 5 years (including a youth offender who is eligible for parole within such time); and

(2) is 25 years of age or younger.

(g) LENGTH OF PARTICIPATION.—A State correctional education agency receiving a grant under this section shall provide educational and related services to each participating youth offender for a period not to exceed 5 years, 1 year of which may be devoted to study in a graduate education degree program or to remedial education services for students who have obtained a secondary school diploma or its recognized equivalent. Educational and related services shall start during the period of incarceration in prison or prerelease and may continue during the period of parole.

(h) EDUCATION DELIVERY SYSTEMS.—State correctional education agencies and cooperating institutions shall, to the extent practicable, use high-tech applications in developing programs to meet the requirements and goals of this section.

(i) ALLOCATION OF FUNDS.—From the funds appropriated pursuant to subsection (j) for each fiscal year, the Secretary shall allot to each State an amount that bears the same relationship to such funds as the total number of students eligible under subsection (f) in such State bears to the total number of such students in all States.

ARTICLE IV—AUTHORIZED RECORD DISCLOSURES

(a) STATE CRIMINAL HISTORY RECORD REPOSITORIES.—To the extent authorized by section 552a of title 5, United States Code (commonly known as the “Privacy Act of 1974”), the FBI shall provide on request criminal history records (excluding sealed records) to State criminal history record repositories for noncriminal justice purposes allowed by Federal statute, Federal Executive order, or a State statute that has been approved by the Attorney General and that authorizes national indices checks.
(b) CRIMINAL JUSTICE AGENCIES AND OTHER GOVERNMENTAL OR NONGOVERNMENTAL AGENCIES.—The FBI, to the extent authorized by section 552a of title 5, United States Code (commonly known as the “Privacy Act of 1974”), and State criminal history record repositories shall provide criminal history records (excluding sealed records) to criminal justice agencies and other governmental or nongovernmental agencies for noncriminal justice purposes allowed by Federal statute, Federal Executive order, or a State statute that has been approved by the Attorney General, that authorizes national indices checks.
(c) PROCEDURES.—Any record obtained under this Compact may be used only for the official purposes for which the record was requested. Each Compact officer shall establish procedures, consistent with this Compact, and with rules, procedures, and standards established by the Council under Article VI, which procedures shall protect the accuracy and privacy of the records, and shall—
(1) ensure that records obtained under this Compact are used only by authorized officials for authorized purposes;
(2) require that subsequent record checks are requested to obtain current information whenever a new need arises; and
(3) ensure that record entries that may not legally be used for a particular noncriminal justice purpose are deleted
from the response and, if no information authorized for release remains, an appropriate “no record” response is communicated to the requesting official.

ARTICLE V—RECORD REQUEST PROCEDURES

(a) Positive Identification.—Subject fingerprints or other approved forms of positive identification shall be submitted with all requests for criminal history record checks for noncriminal justice purposes.

(b) Submission of State Requests.—Each request for a criminal history record check utilizing the national indices made under any approved State statute shall be submitted through that State’s criminal history record repository. (c) Submission of Federal Requests.—Each request for criminal history record checks utilizing the national indices made under Federal authority shall be submitted through the FBI or, if the State criminal history record repository consents to process fingerprint submissions, through the criminal history record repository in the State in which such request originated. Direct access to the National Identification Index by entities other than the FBI and State criminal history records repositories shall not be permitted for noncriminal justice purposes.

(d) Fees.—A State criminal history record repository or the FBI—

(1) may charge a fee, in accordance with applicable law, for handling a request involving fingerprint processing for noncriminal justice purposes; and

(2) may not charge a fee for providing criminal history records in response to an electronic request for a record that does not involve a request to process fingerprints.

(e) Additional Search.—

(1) If a State criminal history record repository cannot positively identify the subject of a record request made for noncriminal justice purposes, the request, together with fingerprints or other approved identifying information, shall be forwarded to the FBI for a search of the national indices.

(2) If, with respect to a request forwarded by a State criminal history record repository under paragraph (1), the FBI positively identifies the subject as having a III System-indexed record or records—

(A) the FBI shall so advise the State criminal history record repository; and

(B) the State criminal history record repository shall be entitled to obtain the additional criminal history record information from the FBI or other State criminal history record repositories.

An Act

To establish the Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development Act”.

SEC. 2. FINDINGS.

The Congress finds the following:

1. According to the National Science Foundation’s 1996 report, Women, Minorities, and Persons with Disabilities in Science and Engineering—

   A. women have historically been underrepresented in scientific and engineering occupations, and although progress has been made over the last several decades, there is still room for improvement;

   B. female and minority students take fewer high-level mathematics and science courses in high school;

   C. female students earn fewer bachelors, masters, and doctoral degrees in science and engineering;

   D. among recent bachelors of science and bachelors of engineering graduates, women are less likely to be in the labor force, to be employed full-time, and to be employed in their field than are men;

   E. among doctoral scientists and engineers, women are far more likely to be employed at 2-year institutions, are far less likely to be employed in research universities, and are much more likely to teach part-time;

   F. among university full-time faculty, women are less likely to chair departments or hold high-ranked positions;

   G. a substantial salary gap exists between men and women with doctorates in science and engineering;

   H. Blacks, Hispanics, and Native Americans continue to be seriously underrepresented in graduate science and engineering programs; and

   I. Blacks, Hispanics, and Native Americans as a group are 23 percent of the population of the United States, but only 6 percent are scientists or engineers.

2. According to the National Research Council’s 1995 report, Women Scientists and Engineers Employed in Industry: Why So Few?—
(A) limited access is the first hurdle faced by women seeking industrial jobs in science and engineering, and while progress has been made in recent years, common recruitment and hiring practices that make extensive use of traditional networks often overlook the available pool of women; 
(B) once on the job, many women find paternalism, sexual harassment, allegations of reverse discrimination, different standards for judging the work of men and women, lower salary relative to their male peers, inequitable job assignments, and other aspects of a male-oriented culture that are hostile to women; and 
(C) women to a greater extent than men find limited opportunities for advancement, particularly for moving into management positions, and the number of women who have achieved the top levels in corporations is much lower than would be expected, based on the pipeline model.

(3) The establishment of a commission to examine issues raised by the findings of these two reports would help—
(A) to focus attention on the importance of eliminating artificial barriers to the recruitment, retention, and advancement of women and minorities in the fields of science, engineering, and technology, and in all employment sectors of the United States; 
(B) to promote work force diversity; 
(C) to sensitize employers to the need to recruit and retain women and minority scientists, engineers, and computer specialists; and 
(D) to encourage the replication of successful recruitment and retention programs by universities, corporations, and Federal agencies having difficulties in employing women or minorities in the fields of science, engineering, and technology.

SEC. 3. ESTABLISHMENT.
There is established a commission to be known as the “Commission on the Advancement of Women and Minorities in Science, Engineering, and Technology Development” (in this Act referred to as the “Commission”).

SEC. 4. DUTY OF THE COMMISSION.
The Commission shall review available research, and, if determined necessary by the Commission, conduct additional research to—

(1) identify the number of women, minorities, and individuals with disabilities in the United States in specific types of occupations in science, engineering, and technology development; 
(2) examine the preparedness of women, minorities, and individuals with disabilities to—
(A) pursue careers in science, engineering, and technology development; and 
(B) advance to positions of greater responsibility within academia, industry, and government; 
(3) describe the practices and policies of employers and labor unions relating to the recruitment, retention, and advancement of women, minorities, and individuals with
disabilities in the fields of science, engineering, and technology development;

(4) identify the opportunities for, and artificial barriers to, the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development in academia, industry, and government;

(5) compile a synthesis of available research on lawful practices, policies, and programs that have successfully led to the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

(6) issue recommendations with respect to lawful policies that government (including Congress and appropriate Federal agencies), academia, and private industry can follow regarding the recruitment, retention, and advancement of women, minorities, and individuals with disabilities in science, engineering, and technology development;

(7) identify the disincentives for women, minorities, and individuals with disabilities to continue graduate education in the fields of engineering, physics, and computer science;

(8) identify university undergraduate programs that are successful in retaining women, minorities, and individuals with disabilities in the fields of science, engineering, and technology development;

(9) identify the disincentives that lead to a disproportionate number of women, minorities, and individuals with disabilities leaving the fields of science, engineering, and technology development before completing their undergraduate education;

(10) assess the extent to which the recommendations of the Task Force on Women, Minorities, and the Handicapped in Science and Technology established under section 8 of the National Science Foundation Authorization Act for Fiscal Year 1987 (Public Law 99–383; 42 U.S.C. 1885a note) have been implemented;

(11) compile a list of all federally funded reports on the subjects of encouraging women, minorities, and individuals with disabilities to enter the fields of science and engineering and retaining women, minorities, and individuals with disabilities in the science and engineering workforce that have been issued since the date that the Task Force described in paragraph (10) submitted its report to Congress;

(12) assess the extent to which the recommendations contained in the reports described in paragraph (11) have been implemented; and

(13) evaluate the benefits of family-friendly policies in order to assist recruiting, retaining, and advancing women in the fields of science, engineering, and technology such as the benefits or disadvantages of the Family and Medical Leave Act of 1993 (29 U.S.C. 2001 et seq.).

An Act

To authorize appropriations for fiscal year 1999 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; FINDINGS.

(a) SHORT TITLE.—This Act may be cited as the “Strom Thurmond National Defense Authorization Act for Fiscal Year 1999”.

(b) FINDINGS.—Congress makes the following findings:

(1) Senator Strom Thurmond of South Carolina first became a member of the Committee on Armed Services of the United States Senate on January 19, 1959. Senator Thurmond's continuous service on that committee covers more than 75 percent of the period of the existence of the committee, which was established immediately after World War II, and more than 20 percent of the period of the existence of military and naval affairs committees of Congress, the original bodies of which were formed in 1816.

(2) Senator Thurmond came to Congress and the committee as a distinguished veteran of service, including combat service, in the Armed Forces of the United States.

(3) Senator Thurmond was commissioned as a reserve second lieutenant of infantry in 1924. He served with great distinction with the First Army in the European Theater of Operations during World War II, landing in Normandy in a glider with the 82nd Airborne Division on D-Day. He was transferred to the Pacific Theater of Operations at the end of the war in Europe and was serving in the Philippines when Japan surrendered.

(4) Having reverted to Reserve status at the end of World War II, Senator Thurmond was promoted to brigadier general in the United States Army Reserve in 1954. He served as President of the Reserve Officers Association beginning that same year and ending in 1955. Senator Thurmond was promoted to major general in the United States Army Reserve in 1959. He transferred to the Retired Reserve on January 1, 1965, after 36 years of commissioned service.

(5) The distinguished character of Senator Thurmond's military service has been recognized by awards of numerous decorations that include the Legion of Merit, the Bronze Star medal with “V” device, the Army Commendation Medal, the Belgian

(6) Senator Thurmond has served as chairman of the Committee on Armed Services of the United States Senate since 1995 and served as the ranking minority member of the committee from 1993 to 1995. Senator Thurmond concludes his service as chairman at the end of the One Hundred Fifth Congress, but is to continue to serve the committee as a member in successive Congresses.

(7) This Act is the fortieth annual authorization bill for the Department of Defense for which Senator Thurmond has taken a major responsibility as a member of the Committee on Armed Services of the Senate.

(8) Senator Thurmond, as an Army officer and a legislator, has made matchless contributions to the national security of the United States that, in duration and in quality, are unique.

(9) It is altogether fitting and proper that this Act, the last annual authorization Act for the national defense that Senator Thurmond manages in and for the United States Senate as chairman of the Committee on Armed Services, be named in his honor, as provided in subsection (a).

106; 110 Stat. 214; 50 U.S.C. 1521(f)), the Secretary shall prepare
a plan for the pilot program and shall submit to Congress a report
on such plan (including information on the cost of, and schedule
for, implementing the pilot program).

(f) FUNDING.—(1) Of the amount authorized to be appropriated
under section 107, funds shall be available for the program manager
for the Assembled Chemical Weapons Assessment for the following:

(A) Demonstrations of alternative technologies under the
Assembled Chemical Weapons Assessment.

(B) Planning and preparation to proceed from demonstra-

with subsection (d) and for taking any other action authorized
in this section.

(f) ASSEMBLED CHEMICAL WEAPONS ASSESSMENT DEFINED.—
In this section, the term “Assembled Chemical Weapons Assessment”
means the pilot program carried out under section 8065
of the Department of Defense Appropriations Act, 1997 (section

   (A) management and funding for the Defense Science and Technology Program for each military department should receive a level of priority and leadership attention equal to the level received by program acquisition, and the Secretary of each military department should ensure that a senior official in the department holds the appropriate title and responsibility to ensure effective oversight and emphasis on science and technology;
   (B) to ensure an appropriate long-term focus for investments, a sufficient percentage of science and technology funds should be directed toward new technology areas, and annual reviews should be conducted for ongoing research areas to ensure that those funded initiatives are either integrated into acquisition programs or discontinued when appropriate;
   (C) the Secretary of each military department should take appropriate steps to ensure that sufficient numbers of officers and civilian employees in the department hold advanced degrees in technical fields; and
   (D) of particular concern, the Secretary of the Air Force should take appropriate measures to ensure that sufficient numbers of scientists and engineers are maintained to address the technological challenges faced in the areas of air, space, and information technology.

      (A) result in recommendations on the minimum requirements for maintaining a technology base that is sufficient, based on both historical developments and future projections, to project superiority in air and space weapons systems and in information technology;
      (B) address the effects on national defense and civilian aerospace industries and information technology of reducing funding below the goal described in subsection (a); and
      (C) result in recommendations on the appropriate levels of staff with baccalaureate, masters, and doctorate degrees, and the optimal ratio of civilian and military staff holding such degrees, to ensure that science and technology functions of the Department of Defense remain vital.
   (3) REPORT.—Not later than 120 days after the date on which the study required under paragraph (1) is completed, the Secretary shall submit to Congress a report on the results of the study.
(d) DEFINITIONS.—In this section:

(1) The term “Defense Science and Technology Program” means basic and applied research and advanced development.

(2) The term “basic and applied research” means work funded in program elements for defense research and development under Department of Defense category 6.1 or 6.2.

(c) Condition on Authority for Subsequent Fiscal Years.—A payment may be made under subsection (b) for a fiscal year after fiscal year 1999 only if the Secretary of Defense submits to Congress with the budget for such fiscal year under section 1105 of title 31, United States Code, evidence that the cumulative amount expended by the Government of Canada for environmental cleanup activities in Canada during any fiscal years before such fiscal year in which a payment under that subsection was authorized was an amount equal to or greater than the aggregate amount of the payments under that subsection during such fiscal years.

(d) Source of Funds.—(1) The payment under subsection (b) for fiscal year 1998 shall be made from amounts appropriated pursuant to section 301(5) of the National Defense Authorization Act for Fiscal Year 1998 (Public Law 105–85; 111 Stat. 1669).

SEC. 328. SENSE OF CONGRESS REGARDING OIL SPILL PREVENTION TRAINING FOR PERSONNEL ON BOARD NAVY VESSELS.

(a) FINDINGS.—Congress makes the following findings:

(1) There have been six significant oil spills in Puget Sound, Washington, in 1998, five at Puget Sound Naval Shipyard (including three from the U.S.S. Kitty Hawk, one from the U.S.S. Carl Vinson, and one from the U.S.S. Sacramento) and one at Naval Station Everett from the U.S.S. Paul F. Foster.
(2) Navy personnel on board vessels, and not shipyard employees, were primarily responsible for a majority of these oil spills at Puget Sound Naval Shipyard.
(3) Oil spills have the potential to damage the local environment, killing microscopic organisms, contributing to air pollution, harming plants and marine animals, and increasing overall pollution levels in Puget Sound.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the Secretary of the Navy should take immediate action to significantly reduce the risk of vessel oil spills, including the minimization of fuel oil transfers, the assurance of proper training and qualifications of all Naval personnel in occupations that may contribute to or minimize the risk of shipboard oil spills, and the improvement of liaison with local authorities concerning oil spill prevention and response activities.

(a) Definitions.—In this section:

(1) The term “contractor-operated civil engineering supply store” means a Government-owned facility that, as of the date of the enactment of this Act, is operated by a contractor under the contractor-operated civil engineering supply store program of the Department of the Air Force (known as the “COCESS program”) for the purpose of—

(B) furnishing such supplies to the department as needed.

(2) The term “civil engineering supplies” means parts and supplies needed for the repair and maintenance of military installations.

(b) Findings.—Congress finds the following:

(1) In 1970, the Strategic Air Command of the Air Force began to use contractor-operated civil engineering supply stores to improve the efficiency and effectiveness of materials management and relieve the Air Force from having to maintain large inventories of civil engineering supplies.

(2) Contractor-operated civil engineering supply stores are designed to support the civil engineering and public works efforts of the Armed Forces through the provision of quality civil engineering supplies at competitive prices and within a reasonable period of time.

(3) Through the use of a contractor-operated civil engineering supply store, a guaranteed inventory level of civil engineering supplies is maintained at a military installation, which ensures that urgently needed civil engineering supplies are available on site.
(4) The contractor operating the contractor-operated civil engineering supply store is an independent business organization whose customer is a military department and the Armed Forces and who is subject to all the rules of private business and the regulations of the Government.

(5) The use of contractor-operated civil engineering supply stores ensures the best price and best buy for the Government.

(6) Ninety-five percent of the cost savings realized through the use of contractor-operated civil engineering supply stores is due to savings in the cost of actually procuring supplies.

(7) In the past 30 years, private contractors have never lost a cost comparison conducted pursuant to the criteria set forth in Office of Management and Budget Circular A–76 for the provision of civil engineering supplies to the Government.

(c) CONDITIONS ON MULTI-FUNCTION CONTRACTS.—A civil engineering supplies function that is performed, as of the date of the enactment of this Act, by a contractor-operated civil engineering supply store may not be combined with another supply function or any service function, including any base operating support function, for purposes of competition or contracting, until 60 days after the date on which the Secretary of Defense submits to Congress a report—

2. The sailors and Marines of the Asiatic Fleet ensured the safety of United States and foreign nationals and provided humanitarian assistance in that region during the Chinese civil war, the Yangtze Flood of 1931, and the outbreak of Sino-Japanese hostilities.

3. In 1940, due to deteriorating political relations and increasing tensions between the United States and Japan, a reinforced Asiatic Fleet began concentrating on the defense of the Philippines and engaged in extensive training to ensure maximum operational readiness for any eventuality.

4. Following the declaration of war against Japan in December 1941, the warships, submarines, and aircraft of the Asiatic Fleet courageously fought many battles against superior Japanese forces.

5. The Asiatic Fleet directly suffered the loss of 22 vessels, 1,826 men killed or missing in action, and 518 men captured
and imprisoned under the worst of conditions, with many of them dying while held as prisoners of war.

(a) FINDINGS.—Congress makes the following findings:

(1) Organ and tissue transplantation is one of the most remarkable medical success stories in the history of medicine.
(2) Each year, the number of people waiting for organ or tissue transplantation increases. It is estimated that there are approximately 39,000 patients, ranging in age from babies to those in retirement, awaiting transplants of kidneys, hearts, livers, and other solid organs.
(3) The Department of Defense has made significant progress in increasing the awareness of the importance of organ and tissue donations among members of the Armed Forces.
(4) The inclusion of organ and tissue donor elections in the Defense Enrollment Eligibility Reporting System (DEERS) central database represents a major step in ensuring that organ and tissue donor elections are a matter of record and are accessible in a timely manner.

(b) RESPONSIBILITIES REGARDING ORGAN AND TISSUE DONATION.—(1) Chapter 55 of title 10, United States Code, is amended by adding after section 1108, as added by section 721(a)(1), the following new section:

“§ 1109. Organ and tissue donor program

“(b) Responsibilities of the Secretaries of the Military Departments.—(1) The Secretaries of the military departments shall ensure that—

“(1) appropriate information about organ and tissue donation is provided—

“(A) to each officer candidate during initial training; and

“(B) to each recruit—

“(i) after completion by the recruit of basic training; and

“(ii) before arrival of the recruit at the first duty assignment of the recruit;

“(2) members of the armed forces are given recurring, specific opportunities to elect to be organ or tissue donors during service in the armed forces and upon retirement; and

“(c) Responsibilities of the Surgeons General of the Military Departments.—The Surgeons General of the military departments shall ensure that—

“(1) appropriate training is provided to enlisted and officer medical personnel to facilitate the effective operation of organ and tissue donation activities under garrison conditions and, to the extent possible, under operational conditions; and

“(2) medical logistical activities can, to the extent possible without jeopardizing operational requirements, support an effective organ and tissue donation program.”.

(2) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 1108, as added by section 721(a)(2), the following new item:

“1109. Organ and tissue donor program.”.

(c) Report.—Not later than September 1, 1999, the Secretary of Defense shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives a report on the implementation of section 1109 of title 10, United States Code (as added by subsection (b)).

(2) The justifications for implementing an enrollment-based capitation methodology without first conducting a demonstration project for implementation of such methodology.

(3) The impact that implementation of an enrollment-based capitation methodology would have on the provision of space-available care at military medical treatment facilities, particularly in the case of care for—

(A) military retirees who are entitled to hospital insurance benefits under part A of title XVIII of the Social Security Act (42 U.S.C. 1395c et seq.); and

(B) covered beneficiaries under chapter 55 of title 10, United States Code, who reside outside the catchment area of a military medical treatment facility.

(4) The impact that implementation of an enrollment-based capitation methodology would have with respect to the pharmacy benefits provided at military medical treatment facilities, given that the enrollment-based capitation methodology would fund military medical treatment facilities based on the number of members at such facilities enrolled in TRICARE Prime, but all covered beneficiaries may fill prescriptions at military medical treatment facility pharmacies.

(5) An explanation of how additional funding will be provided for a military medical treatment facility if an enrollment-based capitation methodology is implemented to ensure that space-available care and pharmacy coverage can be provided to covered beneficiaries who are not enrolled at the military medical treatment facility, and the amount of funding that will be available.

(6) An explanation of how implementation of an enrollment-based capitation methodology would impact the provision of uniform benefits under TRICARE Prime, and how the Secretary would ensure, if such methodology were implemented, that the provision of health care under TRICARE Prime would not be bifurcated between the provision of such care at military medical treatment facilities and the provision of such care from civilian providers.

(b) Deadline for Submission.—The Secretary shall submit the report required by subsection (a) not later than March 1, 1999.

SEC. 745. JOINT DEPARTMENT OF DEFENSE AND DEPARTMENT OF VETERANS AFFAIRS REPORTS RELATING TO INTER-DEPARTMENTAL COOPERATION IN THE DELIVERY OF MEDICAL CARE.

(a) Findings.—Congress makes the following findings:

(1) The military health care system of the Department of Defense and the Veterans Health Administration of the
Department of Veterans Affairs are national institutions that collectively manage more than 1,500 hospitals, clinics, and health care facilities worldwide to provide services to more than 11,000,000 beneficiaries.

(2) In the post-Cold War era, these institutions are in a profound transition that involves challenging opportunities.

(3) During the period from 1988 to 1998, the number of military medical personnel has declined by 15 percent and the number of military hospitals has been reduced by one-third.

(4) During the 2 years since 1996, the Department of Veterans Affairs has revitalized its structure by decentralizing authority into 22 Veterans Integrated Service Networks.

(5) In the face of increasing costs of medical care, increased demands for health care services, and increasing budgetary constraints, the Department of Defense and the Department of Veterans Affairs have embarked on a variety of dynamic and innovative cooperative programs ranging from shared services to joint venture operations of medical facilities.

(6) In 1984, there was a combined total of 102 Department of Veterans Affairs and Department of Defense facilities with sharing agreements. By 1997, that number had grown to 420. During the six years from fiscal year 1992 through fiscal year 1997, shared services increased from slightly over 3,000 services to more than 6,000 services, ranging from major medical and surgical services, laundry, blood, and laboratory services to unusual specialty care services.

(7) The Department of Defense and the Department of Veterans Affairs are conducting four health care joint ventures in New Mexico, Nevada, Texas, and Oklahoma, and are planning to conduct four more such ventures in Alaska, Florida, Hawaii, and California.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Department of Defense and the Department of Veterans Affairs should be commended for the cooperation between the two departments in the delivery of medical care, of which the cooperation involved in the establishment and operation of the Department of Defense and the Department of Veterans Affairs Executive Council is a praiseworthy example;

(2) the Department of Defense and the Department of Veterans Affairs are encouraged to continue to explore new opportunities to enhance the availability and delivery of medical care to beneficiaries by further enhancing the cooperative efforts of the departments; and

(3) enhanced cooperation between the Department of Defense and the Department of Veterans Affairs is encouraged regarding—

(A) the general areas of access to quality medical care, identification and elimination of impediments to enhanced cooperation, and joint research and program development; and

(B) the specific areas in which there is significant potential to achieve progress in cooperation in a short term, including computerization of patient records systems, participation of the Department of Veterans Affairs in the
TRICARE program, pharmaceutical programs, and joint physical examinations.

(c) JOINT SURVEY OF POPULATIONS SERVED.—(1) The Secretary of Defense and the Secretary of Veterans Affairs shall jointly conduct a survey of their respective medical care beneficiary populations to identify, by category of beneficiary (defined as the Secretaries consider appropriate), the expectations of, requirements for, and behavior patterns of the beneficiaries with respect to medical care. The two Secretaries shall develop the protocol for the survey jointly, but shall obtain the services of an entity independent of the Department of Defense and the Department of Veterans Affairs to carry out the survey.

(2) The survey shall include the following:
   (A) Demographic characteristics, economic characteristics, and geographic location of beneficiary populations with regard to catchment or service areas.
   (B) The types and frequency of care required by veterans, retirees, and dependents within catchment or service areas of Department of Defense and Department of Veterans Affairs medical facilities and outside those areas.
   (C) The numbers of, characteristics of, and types of medical care needed by the veterans, retirees, and dependents who, though eligible for medical care in Department of Defense or Department of Veterans Affairs treatment facilities or through other federally funded medical programs, choose not to seek medical care from those facilities or under those programs, and the reasons for that choice.
   (D) The obstacles or disincentives for seeking medical care from such facilities or under such programs that are perceived by veterans, retirees, and dependents.
   (E) Any other matters that the Secretary of Defense and the Secretary of Veterans Affairs consider appropriate for the survey.

(3) The Secretary of Defense or the Secretary of Veterans Affairs may waive the survey requirements under this subsection with respect to information that can be better obtained from a source other than the survey.

(4) The Secretary of Defense and the Secretary of Veterans Affairs shall submit a report on the results of the survey to the appropriate committees of Congress. The report shall contain the matters described in paragraph (2) and any proposals for legislation that the Secretaries recommend for enhancing Department of Defense and Department of Veterans Affairs cooperative efforts with respect to the delivery of medical care.

(d) REVIEW OF LAW AND POLICIES.—(1) The Secretary of Defense and the Secretary of Veterans Affairs shall jointly conduct a review to identify impediments to cooperation between the Department of Defense and the Department of Veterans Affairs regarding the delivery of medical care. The matters reviewed shall include the following:

   (B) The requirements and practices involved in the credentialling and licensure of health care providers.
(C) The perceptions of beneficiaries in a variety of categories (defined as the Secretaries consider appropriate) regarding the various Federal health care systems available for their use.

(D) The types and frequency of medical services furnished by the Department of Defense and the Department of Veterans Affairs through cooperative arrangements to each category of beneficiary (including active-duty members, retirees, dependents, veterans in the health-care eligibility categories referred to as Category A and Category C, and persons authorized to receive medical care under section 1713 of title 38, United States Code) of the other department.

(E) The extent to which health care facilities of the Department of Defense and Department of Veterans Affairs have sufficient capacity, or could jointly or individually create sufficient capacity, to provide services to beneficiaries of the other department without diminution of access or services to their primary beneficiaries.

(F) The extent to which the recruitment of scarce medical specialists and allied health personnel by the Department of Defense and the Department of Veterans Affairs could be enhanced through cooperative arrangements for providing health care services.

(G) The obstacles and disincentives to providing health care services through cooperative arrangements between the Department of Defense and the Department of Veterans Affairs.

(2) The Secretaries shall jointly submit a report on the results of the review to the appropriate committees of Congress. The report shall include any proposals for legislation that the Secretaries recommend for eliminating or reducing impediments to interdepartmental cooperation that are identified during the review.

(e) PARTICIPATION IN TRICARE.—(1) The Secretary of Defense shall review the TRICARE program to identify opportunities for increased participation by the Department of Veterans Affairs in that program. The ongoing collaboration between Department of Defense officials and Department of Veterans Affairs officials regarding increased participation shall be included among the matters reviewed.

(2) The Secretary of Defense and the Secretary of Veterans Affairs shall jointly submit to the appropriate committees of Congress a semiannual report on the status of the review under this subsection and on efforts to increase the participation of the Department of Veterans Affairs in the TRICARE program. No report is required under this paragraph after the submission of a semiannual report in which the Secretaries declare that the Department of Veterans Affairs is participating in the TRICARE program to the extent that can reasonably be expected to be attained.

(f) PHARMACEUTICAL BENEFITS AND PROGRAMS.—(1) The Department of Defense-Department of Veterans Affairs Federal Pharmacy Executive Steering Committee shall—

(A) undertake a comprehensive examination of existing pharmaceutical benefits and programs for beneficiaries of Department of Defense medical care programs, including matters relating to the purchasing, distribution, and dispensing of pharmaceuticals and the management of mail order pharmaceuticals programs; and

(2) The joint requirements process and the requirements processes for each of the Armed Forces, including the establishment of measures of effectiveness and methods for resource allocation.

(3) The process and organizations responsible for doctrinal development, including the appropriate relationship between joint force and service doctrine and doctrinal development organizations.

In conducting such research, the Secretary shall consider not only the current state of the domestic market for finance and accounting services, but also the potential effects that the entry of the Department of Defense as a large, long-term consumer of such services might have on that market.

Subtitle C—Joint Warfighting Experimentation

SEC. 921. FINDINGS CONCERNING JOINT WARFIGHTING EXPERIMENTATION.

Congress makes the following findings:

(1) The assessments of the Quadrennial Defense Review and the National Defense Panel provide a compelling argument—

(A) that the security environment in the early 21st century will include fundamentally different military challenges than the security environment in the late 20th century; and

(B) reinforce the premise of the Goldwater-Nichols Department of Defense Reorganization Act of 1986 that future warfare will require more effective joint operational concepts.

(2) Joint experimentation is necessary for—

(A) integrating advances in technology with changes in organizational structure and joint operational concepts; and

(B) determining the interdependent aspects of joint warfare that are key for transforming the conduct of military operations to meet future challenges successfully.

(3) It is essential that an energetic and innovative organization be established in the Department of Defense with the authority (subject to the authority and guidance of the Secretary of Defense and Chairman of the Joint Chiefs of Staff) to design and implement a process of joint experimentation to investigate and test technologies and alternative forces and concepts in field environments under realistic conditions.
against the full range of future challenges to assist in developing and validating new joint warfighting concepts and transforming the Armed Forces to meet the threats to national security anticipated for the early 21st century.

SEC. 922. SENSE OF CONGRESS CONCERNING JOINT WARFIGHTING EXPERIMENTATION.

(a) Designation of Commander to Have Joint Warfighting Experimentation Mission.—It is the sense of Congress that the initiative of the Secretary of Defense to designate the commander of a combatant command to have the mission of joint warfighting experimentation is a key step in exploiting the potential of advanced technologies, new organizational structures, and new joint operational concepts to transform the conduct of military operations by the Armed Forces.

(b) Resources and Authority of Commander.—It is, further, the sense of Congress that the commander of the combatant command referred to in subsection (a) should be provided with appropriate and sufficient resources for joint warfighting experimentation and with the appropriate authority to execute the commander’s assigned responsibilities and that such authority should include the following:

1. Planning, preparing, and conducting the program of joint warfighting experimentation, which program should include analyses, simulations, wargames, experiments, advanced concept technology demonstrations, joint exercises conducted in virtual and field environments, and, as a particularly critical aspect, assessments of “red team” vulnerability.

2. Developing scenarios and measures of effectiveness to meet the operational challenges expected to be encountered in the early 21st century and assessing the effectiveness of current and new organizational structures, operational concepts, and technologies in addressing those challenges.

3. Integrating and testing in joint experimentation the systems and concepts that result from warfighting experimentation conducted by the Armed Forces and the Defense Agencies.

4. Coordinating with each of the Armed Forces and Defense Agencies regarding the development and acquisition of equipment (including surrogate or real technologies, platforms, and systems), supplies, and services necessary for joint experimentation.

5. Providing the Secretary of Defense and the Chairman of the Joint Chiefs of Staff with recommendations, based on the conduct of joint warfighting experimentation, for—
   (A) improving interoperability;
   (B) reducing unnecessary redundancy;
   (C) synchronizing technology fielding;
   (D) developing joint operational concepts;
   (E) prioritizing the most promising joint capabilities for future experimentation; and
   (F) prioritizing joint requirements and acquisition programs.

6. Making recommendations to the Chairman of the Joint Chiefs of Staff on mission needs statements and operational requirements documents.
(c) CONGRESSIONAL REVIEW.—It is, further, the sense of Congress that Congress—

(1) should review the adequacy of the process of transformation to meet future challenges to the national security; and

(2) if progress is determined inadequate, should consider legislation to—

(A) establish an appropriate organization to conduct the mission described in subsection (a); and

(B) provide to the commander given the responsibility for that mission appropriate and sufficient resources for joint warfighting experimentation and the appropriate authority to execute that commander's assigned responsibilities for that mission, including the authorities specified in subsection (b).

SEC. 923. REPORTS ON JOINT WARFIGHTING EXPERIMENTATION.

(a) INITIAL REPORT.—(1) The commander of the combatant command assigned by the Secretary of Defense to have the mission for joint warfighting experimentation shall submit to the Secretary an initial report on the implementation of joint experimentation. Not later than April 1, 1999, the Secretary shall submit that report, together with any comments that the Secretary considers appropriate and any comments that the Chairman of the Joint Chiefs of Staff considers appropriate, to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives.

(2) The report of the commander under paragraph (1) shall include the commander's assessment of the following:

(A) The authority and responsibilities of the commander as described in section 922(b).

(B) The organization of the commander's combatant command, and of its staff, for carrying out the joint warfighting experimentation mission.

(C) The process established for tasking forces to participate in experimentation and the commander's specific authority over those forces, including forces designated as joint experimentation forces.

(D) The resources provided for initial implementation of joint warfighting experimentation, the process for providing those resources to the commander, the categories of the funding, and the authority of the commander for budget execution.

(E) The process established for the development and acquisition of the materiel, supplies, services, and equipment necessary for the conduct of joint warfighting experimentation.

(F) The process established for designing, preparing, and conducting joint experiments.

(G) The role assigned the commander for—

(i) integrating and testing in joint warfighting experimentation the systems that emerge from warfighting experimentation by the Armed Forces or the Defense Agencies;

(ii) assessing the effectiveness of organizational structures, operational concepts, and technologies; and

(iii) assisting the Secretary of Defense and Chairman of the Joint Chiefs of Staff to prioritize requirements or acquisition programs.

(b) REQUIRED REDUCTION.—(1) The applicable number for purposes of subsection (a) is 25,000. However, the Secretary of Defense may specify a lower number, which may not be less than 12,500, as the applicable number for purposes of subsection (a) if the Secretary determines, and certifies to Congress not later than May 1, 1999, that an applicable number greater than the number specified by the Secretary would be inconsistent with the cost-effective management of the defense acquisition system to obtain best value equipment and with ensuring military readiness.

(2) The Secretary shall include with such a certification a report setting forth a detailed explanation of each of the matters certified. The report shall include—

(A) a detailed explanation of all matters incorporated in the Secretary’s determination;

Subtitle A—United States Armed Forces in Bosnia and Herzegovina

SEC. 1201. FINDINGS.

Congress makes the following findings:

(1) The contributions of the people of the United States and other nations have, in large measure, resulted in the suspension of fighting and alleviated the suffering of the people of Bosnia and Herzegovina since December 1995.

(2) The United States has expended approximately $9,500,000,000 between 1992 and mid-1998 just in support
of the United States military operations in Bosnia to achieve those results.

(3) Efforts to restore the economy and political structure in Bosnia and Herzegovina have achieved some success in accordance with the Dayton Accords.

(4) On March 3, 1998, the President certified to Congress (A) that the continued presence of United States forces in Bosnia and Herzegovina after June 30, 1998, was required in order to meet the national security interests of the United States, and (B) that United States Armed Forces will not serve as, or be used as, civil police in Bosnia and Herzegovina.

(5) With that certification, the President submitted to Congress a report stating that the goal of the military presence in Bosnia and Herzegovina is to establish the conditions under which implementation of the Dayton Accords can continue without the support of a major NATO-led military force and setting forth the criteria for determining when that goal has been accomplished.

(6) Since the administration has not specified how long achievement of that goal is expected to take, the mission of United States ground combat forces in Bosnia and Herzegovina is essentially of indefinite duration.

(7) The NATO operations plan for the Stabilization Force (Operations Plan 10407, which went into effect on June 20, 1998, after approval by allied foreign ministers) incorporates all of the benchmarks set forth in the report referred to in paragraph (5) and states that the Stabilization Force will develop detailed criteria for assessing progress in achieving those benchmarks in close coordination with key international organizations participating in civilian implementation of the Dayton Accords.

(8) The military representatives of NATO member nations have been tasked by the North Atlantic Council to provide estimates of the time likely to be required for implementation of the Dayton Accords.

(9) NATO has decided to conduct formal reviews when appropriate (but at intervals of not more than 6 months) to assess the security situation and the progress being made in the implementation of the civil aspects of the Dayton Accords. Those reviews will enable the Alliance to make decisions as to reductions in the size or the Stabilization Force, leading to its eventual full withdrawal.

(10) NATO has approved the creation of a multinational specialized unit of gendarmes or paramilitary police composed of European security forces to help promote public security in Bosnia and Herzegovina as a part of the post-June 1998 mission for the Stabilization Force.

(11) The limit established for spending by the United States for the defense discretionary budget category for fiscal year 1998 in the Balanced Budget and Emergency Deficit Control Act of 1985 does not take into account the continued deployment of United States forces in Bosnia and Herzegovina after June 30, 1998, leading to the request by the President for emergency supplemental appropriations for the Bosnia and Herzegovina mission through September 30, 1998.

(12) Amounts for Department of Defense operations in Bosnia and Herzegovina during fiscal year 1999 were not
112 STAT. 2147
PUBLIC LAW 105–261—OCT. 17, 1998

included in the budget of the President for fiscal year 1999, as submitted to Congress on February 2, 1998.

(13) The President requested $1,858,600,000 in emergency appropriations in his March 4, 1998, amendment to the fiscal year 1999 budget to cover the shortfall in funding in fiscal year 1999 for the costs of extending the mission in Bosnia.

SEC. 1202. SENSE OF CONGRESS.

(a) SENSE OF CONGRESS CONCERNING UNITED STATES FORCES AND ACCOMPLISHMENT OF TASKS IN BOSNIA AND HERZEGOVINA.—
It is the sense of Congress that—

(1) United States ground combat forces should not remain in Bosnia and Herzegovina indefinitely in view of the worldwide commitments of the Armed Forces of the United States;
(2) the President should work with NATO allies and the other nations whose military forces are participating in the NATO-led Stabilization Force to withdraw United States ground combat forces from Bosnia and Herzegovina within a reasonable period of time, consistent with the safety of those forces and the accomplishment of the Stabilization Force’s military tasks;
(3) a NATO-led force without the participation of United States ground combat forces in Bosnia and Herzegovina might be suitable for a follow-on force for Bosnia and Herzegovina if the European Security and Defense Identity is not sufficiently developed or is otherwise considered inappropriate for such a mission; and
(4) the United States may decide to provide appropriate support to a Western European Union-led or NATO-led follow-on force for Bosnia and Herzegovina, including command and control, intelligence, logistics, and, if necessary, a ready reserve force in the region.

(b) SENSE OF CONGRESS CONCERNING PRESIDENTIAL ACTIONS.—
It is the sense of Congress that the President—

(1) should inform the European NATO allies of the expression of the sense of Congress in subsection (a) and should strongly urge them to undertake preparations for establishing a Western European Union-led or a NATO-led follow-on force for Bosnia and Herzegovina, including command and control, intelligence, logistics, and, if necessary, a ready reserve force in the region; and
(2) should consult closely with the congressional leadership and the congressional defense committees with respect to the progress being made toward achieving a sustainable peace in Bosnia and Herzegovina and the progress being made toward a reduction and ultimate withdrawal of United States ground combat forces from Bosnia and Herzegovina.

(c) SENSE OF CONGRESS CONCERNING DEFENSE BUDGET.—It is the sense of Congress that—

(1) the President should include in the budget for the Department of Defense that the President submits to Congress under section 1105(a) of title 31, United States Code, for each fiscal year sufficient amounts to pay for any proposed continuation of the participation of United States forces in NATO operations in Bosnia and Herzegovina during that fiscal year; and
(2) amounts included in the budget for the purpose stated in paragraph (1) should be over and above the defense discretionary estimates as identified in the Bipartisan Budget Agreement of May 16, 1997 and the fiscal year 1998 concurrent budget resolution and not be transferred from amounts in the budget of any other agency of the executive branch, but instead should be an overall increase in the budget for the Department of Defense and the discretionary spending limits in the Balanced Budget Act of 1997.

(A) the mission of those forces, if any, in connection with the pursuit and apprehension of war criminals;

(B) the mission of those forces, if any, in connection with civilian police functions;

(C) the mission of those forces, if any, in connection with the resettlement of refugees; and

(D) the missions undertaken by those forces, if any, in support of international and local civilian authorities.

(5) An assessment of the risk for the United States forces in Bosnia and Herzegovina, including, for each mission identified pursuant to paragraph (4), the assessment of the Chairman of the Joint Chiefs of Staff regarding the nature and level of risk of the mission for the safety and well-being of United States military personnel.

(B) the establishment and support of a forward-based United States rapid response force outside of Bosnia and Herzegovina that would be capable of deploying rapidly to defeat military threats to a European follow-on force inside Bosnia and Herzegovina and of providing whatever logistical, intelligence, and air support is needed to ensure that a European follow-on force is fully capable of accomplishing its missions under the Dayton Accords.

(3) The accounts from which funds have been drawn to pay for those operations and the specific programs for which those funds were available until diverted to pay for those operations.

(4) For each such operation—
   (A) a statement of the vital interests of the United States that are involved in the operation or, if none, the interests of the United States that are involved in the operation and a characterization of those interests;
   (B) a statement of what clear and distinct objectives guide the activities of United States forces in the operation; and
   (C) a statement of what the President has identified on the basis of those objectives as the date, or the set of conditions, that defines the end of the operation.

SEC. 1212. SUBMISSION OF REPORT ON OBJECTIVES OF A CONTINGENCY OPERATION WITH REQUESTS FOR FUNDING FOR THE OPERATION.

(a) FINDINGS.—Congress makes the following findings:

(1) On May 3, 1994, the President issued Presidential Decision Directive 25 declaring that American participation in United Nations and other peace operations would depend in part on whether the role of United States forces is tied to clear objectives and an endpoint for United States participation can be identified.

(2) Between that date and mid-1998, the President and other executive branch officials have obligated or requested appropriations of approximately $9,400,000,000 for military-related operations throughout Bosnia and Herzegovina without providing to Congress, in conjunction with the budget submission for any fiscal year, a strategic plan for such operations under the criteria set forth in that Presidential Decision Directive.

(3) Between November 27, 1995, and mid-1998 the President has established three deadlines, since elapsed, for the termination of United States military-related operations throughout Bosnia and Herzegovina.

(4) On December 17, 1997, the President announced that United States ground combat forces would remain in Bosnia and Herzegovina for an unknown period of time.

(5) Approximately 47,880 United States military personnel (excluding personnel serving in units assigned to the Republic
of Korea) have participated in 14 international contingency operations between fiscal years 1991 and 1998.

(6) The 1998 posture statements of the Navy and Air Force included declarations that the pace of military operations over fiscal year 1997 adversely affected the readiness of non-deployed forces, personnel retention rates, and spare parts inventories of the Navy and Air Force.

(b) INFORMATION TO BE REPORTED WITH FUNDING REQUESTS.—Section 113 of title 10, United States Code, is amended by adding after subsection (l), as added by section 915, the following new subsection:

“(m) INFORMATION TO ACCOMPANY FUNDING REQUEST FOR CONTINGENCY OPERATION.—Whenever the President submits to Congress a request for appropriations for costs associated with a contingency operation that involves, or likely will involve, the deployment of more than 500 members of the armed forces, the Secretary of Defense shall submit to Congress a report on the objectives of the operation. The report shall include a discussion of the following:

“(1) What clear and distinct objectives guide the activities of United States forces in the operation.

“(2) What the President has identified on the basis of those objectives as the date, or the set of conditions, that defines the endpoint of the operation.”.

(a) FINDINGS.—The Congress makes the following findings:

(1) The 7,000 to 12,000 or more nonstrategic (or “tactical”) nuclear weapons estimated by the United States Strategic Command to be in the Russian arsenal may present the greatest threat of sale or theft of a nuclear warhead in the world today.

(2) As the number of deployed strategic warheads in the Russian and United States arsenals declines to just a few thousand under the START accords, Russia’s vast superiority in tactical nuclear warheads—many of which have yields equivalent to strategic nuclear weapons—could become strategically destabilizing.

(3) While the United States has unilaterally reduced its inventory of tactical nuclear weapons by nearly 90 percent since the end of the Cold War, Russia is behind schedule in implementing the steep tactical nuclear arms reductions pledged by former Soviet President Gorbachev in 1991 and Russian President Yeltsin in 1992, perpetuating the dangers from Russia’s tactical nuclear stockpile.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the President should call on Russia to expedite reduction of its tactical nuclear arsenal in accordance with the promises made in 1991 and 1992.

(c) REPORT.—Not later than March 15, 1999, the Secretary of Defense shall submit to Congress a report on the nonstrategic nuclear weapons of Russia. The report shall include—

(1) estimates regarding the current numbers, types, yields, viability, and locations of those weapons;

(2) an assessment of the strategic implications of Russia’s nonstrategic arsenal, including the potential use of those weapons in a strategic role or the use of their components in strategic
nuclear systems and the potential of Russian superiority in tactical nuclear weapons to destabilize the overall nuclear balance as strategic nuclear weapons are sharply reduced under the START accords;

(3) an assessment of the extent of the current threat of theft, sale, or unauthorized use of the warheads of those weapons, including an analysis of Russian command and control as it concerns the use of tactical nuclear weapons;

(4) a summary of past, current, and planned efforts to work cooperatively with Russia to account for, secure, and reduce Russia's stockpile of tactical nuclear weapons and associated fissile material;

(5) a summary of how the United States would prevent, or plans to cope militarily with, scenarios in which a deterioration in relations with Moscow causes Russia to redeploy tactical nuclear weapons or in which Russia threatens to employ, or actually employs, tactical nuclear weapons in a local or regional conflict involving the United States or allies of the United States; and

(6) an assessment of the steps that could be taken by the United States to enhance military preparedness in order (A) to deter any potential attempt by Russia to possibly exploit its advantage in tactical nuclear weapons through coercive "nuclear diplomacy" or on the battlefield, or (B) to counter Russia if Russia should make such an attempt to exploit its advantage in tactical nuclear weapons.

(d) VIEWS.—The Secretary of Defense shall include in the report under subsection (c) the views of the Director of Central Intelligence and of the commander of the United States Strategic Command.

Subtitle B—Satellite Export Controls

SEC. 1511. SENSE OF CONGRESS.

It is the sense of Congress that—

(2) United States foreign policy and the policies of the United States regarding commercial relations with other countries should affirm the importance of observing and adhering to the Missile Technology Control Regime (MTCR);

(3) the United States should encourage universal observance of the Guidelines to the Missile Technology Control Regime;

(4) the exportation or transfer of advanced communication satellites and related technologies from United States sources to foreign recipients should not increase the risks to the national security of the United States;

(5) due to the military sensitivity of the technologies involved, it is in the national security interests of the United States that United States satellites and related items be subject to the same export controls that apply under United States law and practices to munitions;

(6) the United States should not issue any blanket waiver of the suspensions contained in section 902 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (Public Law 101–246), regarding the export of satellites of United

States origin intended for launch from a launch vehicle owned by the People's Republic of China;
(7) the United States should pursue policies that protect and enhance the United States space launch industry; and
(8) the United States should not export to the People's Republic of China missile equipment or technology that would improve the missile or space launch capabilities of the People's Republic of China.

SEC. 1512. CERTIFICATION OF EXPORTS OF MISSILE EQUIPMENT OR TECHNOLOGY TO CHINA.

The President shall certify to the Congress at least 15 days in advance of any export to the People's Republic of China of missile equipment or technology (as defined in section 74 of the Arms Export Control Act (22 U.S.C. 2797c)) that—
(1) such export is not detrimental to the United States space launch industry; and
(2) the missile equipment or technology, including any indirect technical benefit that could be derived from such export, will not measurably improve the missile or space launch capabilities of the People's Republic of China.

SEC. 1513. SATELLITE CONTROLS UNDER THE UNITED STATES MUNITIONS LIST.

(a) CONTROL OF SATELLITES ON THE UNITED STATES MUNITIONS LIST.—Notwithstanding any other provision of law, all satellites and related items that are on the Commerce Control List of dual-use items in the Export Administration Regulations (15 CFR part 730 et seq.) on the date of the enactment of this Act shall be transferred to the United States Munitions List and controlled under section 38 of the Arms Export Control Act (22 U.S.C. 2778).

(b) DEFENSE TRADE CONTROLS REGISTRATION FEES.—Section 45 of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2717) is amended—

(B) by striking out “(a) DEFENSE TRADE CONTROLS REGISTRATION FEES.”; and
(2) by striking out subsection (b).

(c) EFFECTIVE DATE.—(1) Subsection (a) shall take effect on March 15, 1999, and shall not apply to any export license issued before such effective date or to any export license application made under the Export Administration Regulations before such effective date.

(2) The amendments made by subsection (b) shall be effective as of October 1, 1998.

(d) REPORT.—Not later than January 1, 1999, the Secretary of State, in consultation with the Secretary of Defense and the Secretary of Commerce, shall submit to Congress a report containing—
(1) a detailed description of the plans of the Department of State to implement the requirements of this section, including any organizational changes that are required and any Executive orders or regulations that may be required;
(2) an identification and explanation of any steps that should be taken to improve the license review process for
exports of the satellites and related items described in subsection (a), including measures to shorten the timelines for license application reviews, and any measures relating to the transparency of the license review process and dispute resolution procedures;

(3) an evaluation of the adequacy of resources available to the Department of State, including fiscal and personnel resources, to carry out the additional activities required by this section; and

(2) MANDATORY MONITORS AND REIMBURSEMENT.—

(A) MONITORING OF PROPOSED FOREIGN LAUNCH OF SATELLITES.—In any case in which a license is approved for the export of a satellite or related items for launch in a foreign country, the Secretary of Defense shall monitor all aspects of the launch in order to ensure that no unauthorized transfer of technology occurs, including technical assistance and technical data. The costs of such monitoring services shall be fully reimbursed to the Department of Defense by the person or entity receiving such services. (ii) satellite processing and launch activities, including launch preparation, satellite transportation, integration of the satellite with the launch vehicle, testing and checkout prior to launch, satellite launch, and return of equipment to the United States;

(iii) activities relating to launch failure, delay, or cancellation, including post-launch failure investigations; and

(iv) all other aspects of the launch.
(3) MANDATORY LICENSES FOR CRASH-INVESTIGATIONS.—In the event of the failure of a launch from a foreign country of a satellite of United States origin—

(A) the activities of United States persons or entities in connection with any subsequent investigation of the failure are subject to the controls established under section 38 of the Arms Export Control Act, including requirements for licenses issued by the Secretary of State for participation in that investigation;

(B) officials of the Department of Defense shall monitor all activities associated with the investigation to insure against unauthorized transfer of technical data or services; and
