SEC. 934. CONVENTION ON SUPPLEMENTARY COMPENSATION FOR NUCLEAR DAMAGE CONTINGENT COST ALLOCATION.

(a) FINDINGS AND PURPOSE.—
(1) FINDINGS.—Congress finds that—
(A) section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) (commonly known as the “Price-Anderson Act”)—
(i) provides a predictable legal framework necessary for nuclear projects; and
(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;
(B) the Price-Anderson Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident;
(C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—
(i) to provide a predictable legal framework necessary for nuclear energy projects; and
(ii) to ensure prompt and equitable compensation in the event of a nuclear incident;
(D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for nuclear incidents that are not covered by the Price-Anderson Act by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident;
(E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident;
(F) the combined operation of the Convention, the Price-Anderson Act, and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators;
(G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention;

(H) any such contribution should be funded in a manner that does not—

(i) upset settled expectations based on the liability regime established under the Price-Anderson Act; or

(ii) shift to Federal taxpayers liability risks for nuclear incidents at foreign installations;

(I) with respect to a Price-Anderson incident, funds already available under the Price-Anderson Act should be used; and

(J) with respect to a nuclear incident outside the United States not covered by the Price-Anderson Act, a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) PURPOSE.—The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997—

(A) with respect to a Price-Anderson incident, by using funds made available under section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 170 of that Act; and

(B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

(b) DEFINITIONS.—In this section:

(1) COMMISSION.—The term “Commission” means the Nuclear Regulatory Commission.

(8) Price-Anderson Incident.—The term “Price-Anderson incident” means a covered incident for which section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) would make funds available to compensate for public liability (as defined in section 11 of that Act (42 U.S.C. 2014)).

(9) Secretary.—The term “Secretary” means the Secretary of Energy.

(B) AMOUNT OF DEFERRED PAYMENT.—The amount of a deferred payment of a nuclear supplier under subparagraph (A) shall be based on the risk-informed assessment formula determined under subparagraph (C).

(C) RISK-INFORMED ASSESSMENT FORMULA.—

(i) IN GENERAL.—Not later than 3 years after the date of the enactment of this Act, and every 5 years thereafter, the Secretary shall, by regulation, determine the risk-informed assessment formula for the allocation among nuclear suppliers of the contingent cost resulting from a covered incident that is not a Price-Anderson incident, taking into account risk factors such as—

(I) the nature and intended purpose of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(II) the quantity of the goods and services supplied by each nuclear supplier to each covered installation outside the United States;

(III) the hazards associated with the supplied goods and services if the goods and services fail to achieve the intended purposes;

An Act

To provide for a research program for remediation of closed methamphetamine production laboratories, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Methamphetamine Remediation Research Act of 2007”.

SEC. 2. FINDINGS.

The Congress finds the following:

(1) Methamphetamine use and production is growing rapidly throughout the United States.

(2) Materials and residues remaining from the production of methamphetamine pose novel environmental problems in locations where methamphetamine laboratories have been closed.

(3) There has been little standardization of measures for determining when the site of a closed methamphetamine laboratory has been successfully remediated.

(4) Initial cleanup actions are generally limited to removal of hazardous substances and contaminated materials that pose an immediate threat to public health or the environment. It is not uncommon for significant levels of contamination to be found throughout residential structures after a methamphetamine laboratory has closed, partially because of a lack of knowledge of how to achieve an effective cleanup.

(5) Data on methamphetamine laboratory-related contaminants of concern are very limited, and cleanup standards do not currently exist. In addition, procedures for sampling and analysis of contaminants need to be researched and developed.

(6) Many States are struggling with establishing remediation guidelines and programs to address the rapidly expanding number of methamphetamine laboratories being closed each year.

SEC. 3. VOLUNTARY GUIDELINES.

(a) Establishment of Voluntary Guidelines.—Not later than one year after the date of enactment of this Act, the Administrator of the Environmental Protection Agency (in this Act referred to as the “Administrator”), in consultation with the National Institute of Standards and Technology, shall establish voluntary guidelines, based on the best currently available scientific knowledge, for the remediation of former methamphetamine laboratories,
including guidelines regarding preliminary site assessment and the remediation of residual contaminants.

(b) CONSIDERATIONS.—In developing the voluntary guidelines under subsection (a), the Administrator shall consider, at a minimum—

(1) relevant standards, guidelines, and requirements found in Federal, State, and local laws and regulations;
(2) the varying types and locations of former methamphetamine laboratories; and
(3) the expected cost of carrying out any proposed guidelines.

(c) STATES.—The voluntary guidelines should be designed to assist State and local governments in the development and the implementation of legislation and other policies to apply state-of-the-art knowledge and research results to the remediation of former methamphetamine laboratories. The Administrator shall work with State and local governments and other relevant non-Federal agencies and organizations, including through the conference described in section 5, to promote and encourage the appropriate adoption of the voluntary guidelines.

(d) UPDATING THE GUIDELINES.—The Administrator shall periodically update the voluntary guidelines as the Administrator, in consultation with States and other interested parties, determines to be necessary and appropriate to incorporate research findings and other new knowledge.

SEC. 4. RESEARCH PROGRAM.

The Administrator shall establish a program of research to support the development and revision of the voluntary guidelines described in section 3. Such research shall—

(1) identify methamphetamine laboratory-related chemicals of concern;
(2) assess the types and levels of exposure to chemicals of concern identified under paragraph (1), including routine and accidental exposures, that may present a significant risk of adverse biological effects, and the research necessary to better address biological effects and to minimize adverse human exposures;
(3) evaluate the performance of various methamphetamine laboratory cleanup and remediation techniques; and
(4) support other research priorities identified by the Administrator in consultation with States and other interested parties.

SEC. 5. TECHNOLOGY TRANSFER CONFERENCE.

(a) CONFERENCE.—Not later than 90 days after the date of enactment of this Act, and at least every third year thereafter, the Administrator shall convene a conference of appropriate State agencies, as well as individuals or organizations involved in research and other activities directly related to the environmental, or biological impacts of former methamphetamine laboratories. The conference should be a forum for the Administrator to provide information on the guidelines developed under section 3 and on the latest findings from the research program described in section 4, and for the non-Federal participants to provide information on the problems and needs of States and localities and their experience with guidelines developed under section 3.
(b) Report.—Not later than 3 months after each conference, the Administrator shall submit a report to the Congress that summarizes the proceedings of the conference, including a summary of any recommendations or concerns raised by the non-Federal participants and how the Administrator intends to respond to them. The report shall also be made widely available to the general public.

SEC. 6. RESIDUAL EFFECTS STUDY.

(a) Study.—Not later than 6 months after the date of enactment of this Act, the Administrator shall enter into an arrangement with the National Academy of Sciences for a study of the status and quality of research on the residual effects of methamphetamine laboratories. The study shall identify research gaps and recommend an agenda for the research program described in section 4. The study shall pay particular attention to the need for research on the impacts of methamphetamine laboratories on—

1. the residents of buildings where such laboratories are, or were, located, with particular emphasis given to biological impacts on children; and
2. first responders.

(b) Report.—Not later than 3 months after the completion of the study, the Administrator shall transmit to Congress a report on how the Administrator will use the results of the study to carry out the activities described in sections 3 and 4.

SEC. 7. METHAMPHETAMINE DETECTION RESEARCH AND DEVELOPMENT PROGRAM.

The Director of National Institute of Standards and Technology, in consultation with the Administrator, shall support a research program to develop—

1. new methamphetamine detection technologies, with emphasis on field test kits and site detection; and
2. appropriate standard reference materials and validation procedures for methamphetamine detection testing.

SEC. 8. SAVINGS CLAUSE.

Nothing in this Act shall be construed to affect or limit the application of, or any obligation to comply with, any State or Federal environmental law or regulation, including the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.) and the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.).

SEC. 9. AUTHORIZATION OF APPROPRIATIONS.

(a) Environmental Protection Agency.—There are authorized to be appropriated to the Environmental Protection Agency to carry out this Act $1,750,000 for each of the fiscal years 2007 and 2008.

(b) National Institute of Standards and Technology.—There are authorized to be appropriated to the National Institute
of Standards and Technology to carry out this Act $750,000 for each of the fiscal years 2007 and 2008.

Law enforcement agencies may request firearms traces for any reason, and those reasons are not necessarily reported to the Federal Government. Not all firearms used in crime are traced and not all firearms traced are used in crime.

(2) Firearms selected for tracing are not chosen for purposes of determining which types, makes, or models of firearms are used for illicit purposes. The firearms selected do not constitute a random sample and should not be considered representative of the larger universe of all firearms used by criminals, or any subset of that universe. (b) The foregoing exemption from obtaining an export license—

(1) does not exempt an exporter from filing any Shipper’s Export Declaration or notification letter required by law, or from being otherwise eligible under the laws of the United States to possess, ship, transport, or export the articles enumerated in subsection (a); and

(2) does not permit the export without a license of—

SEC. 411. No timber sale in Region 10 shall be advertised if the indicated rate is deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar. Program accomplishments shall be based on volume sold. Should Region 10 sell, in the current fiscal year, the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, all of the western redcedar timber from those sales which is surplus to the needs of domestic processors in Alaska, shall be made available to domestic processors in the contiguous 48 United States at prevailing domestic prices. Should Region 10 sell, in the current fiscal year, less than the annual average portion of the decadal allowable sale quantity called for in the Tongass Land Management Plan in sales which are not deficit when appraised using a residual value approach that assigns domestic Alaska values for western redcedar, the volume of western redcedar timber available to domestic processors at prevailing domestic prices in the contiguous 48 United States shall be that volume: (1) which is surplus to the needs of domestic processors in Alaska; and (2) is that percent of the surplus western redcedar volume determined by calculating the ratio of the total timber volume which has been sold on the Tongass to the annual average portion of the decadal allowable sale quantity called for in the current Tongass Land Management Plan. The percentage shall be calculated by Region 10 on a rolling basis as each sale is sold (for purposes of this amendment, a “rolling basis” shall mean that the determination of how much western redcedar is eligible for sale to various markets shall be made at the time each sale is awarded). Western redcedar shall be deemed “surplus to the needs of domestic processors in Alaska” when the timber sale holder has presented to the Forest Service documentation of the inability to sell western redcedar logs from a given sale to domestic Alaska processors at a price equal to or greater than the log selling value stated in the contract. All additional western redcedar volume not sold to Alaska or contiguous 48 United States domestic processors may be exported to foreign markets at the election of the timber sale holder. All Alaska yellow cedar may be sold at prevailing export prices at the election of the timber sale holder.

SEC. 414. In awarding a Federal contract with funds made available by this Act, notwithstanding Federal Government procurement and contracting laws, the Secretary of Agriculture and the Secretary of the Interior (the "Secretaries") may, in evaluating bids and proposals, give consideration to local contractors who are from, and who provide employment and training for, dislocated and displaced workers in an economically disadvantaged rural community, including those historically timber-dependent areas that have been affected by reduced timber harvesting on Federal lands and other forest-dependent rural communities isolated from significant alternative employment opportunities: Provided, That notwithstanding Federal Government procurement and contracting laws the Secretaries may award contracts, grants or cooperative agreements to local non-profit entities, Youth Conservation Corps or related partnerships with State, local or non-profit youth groups, or small or micro-business or disadvantaged business: Provided further, That the contract, grant, or cooperative agreement is for forest hazardous fuels reduction, watershed or water quality monitoring or restoration, wildlife or fish population monitoring, or habitat restoration or management: Provided further, That the terms "rural community" and "economically disadvantaged" shall have the same meanings as in section 2374 of Public Law 101–624: Provided further, That the Secretaries shall develop guidance to implement this section: Provided further, That nothing in this section shall be construed as relieving the Secretaries of any duty.

   (2) None of the funds made available by this or any other
   Act may be used in fiscal year 2008 for competitive sourcing
   studies and any related activities involving Forest Service
   personnel.

(b) COMPETITIVE SOURCING STUDY DEFINED.—In this section,
   the term “competitive sourcing study” means a study on subjecting

   Government employees or the work performed by such employees

   and Budget Circular A–76 or any other administrative regulation,
   directive, or policy.

(c) COMPETITIVE SOURCING EXEMPTION FOR FOREST SERVICE
   STUDIES CONDUCTED PRIOR TO FISCAL YEAR 2006.—The Forest
   Service is hereby exempted from implementing the Letter of Obliga-
   tion and post-competition accountability guidelines where a competi-
   tive sourcing study involved 65 or fewer full-time equivalents, the
   performance decision was made in favor of the agency provider,
   no net savings was achieved by conducting the study, and the
   study was completed prior to the date of this Act.

(d) In preparing any reports to the Committees on Appropria-
   tions on competitive sourcing activities, agencies funded in this
   Act shall include all costs attributable to conducting the competitive
   sourcing competitions and staff work to prepare for competitions
   or to determine the feasibility of starting competitions, including
   costs attributable to paying outside consultants and contractors
   and, in accordance with full cost accounting principles, all costs
   attributable to developing, implementing, supporting, managing,
   monitoring, and reporting on competitive sourcing, including per-
   sonnel, consultant, travel, and training costs associated with pro-
   gram management.

(e) In carrying out any competitive sourcing study involving
   Department of the Interior employees, the Secretary of the Interior
   shall—
   (1) determine whether any of the employees concerned
       are also qualified to participate in wildland fire management
       activities; and
   (2) take into consideration the effect that contracting with
       a private sector source would have on the ability of the Depart-
       ment of the Interior to effectively and efficiently fight and
       manage wildfires.

SEC. 416. Section 331 of the Department of the Interior and

For payment to the Neighborhood Reinvestment Corporation for use in neighborhood reinvestment activities, as authorized by the Neighborhood Reinvestment Corporation Act (42 U.S.C. 8101–8107), $119,800,000, of which $5,000,000 shall be for a multi-family rental housing program.

For an additional amount, $180,000,000 shall be made available until expended to the Neighborhood Reinvestment Corporation for mortgage foreclosure mitigation activities, under the following terms and conditions:

(1) The Neighborhood Reinvestment Corporation (“NRC”), shall make grants to counseling intermediaries approved by the Department of Housing and Urban Development (HUD) or the NRC (with match to be determined by the NRC based on affordability and the economic conditions of an area; a match also may be waived by the NRC based on the aforementioned conditions) to provide mortgage foreclosure mitigation assistance primarily to States and areas with high rates of defaults and foreclosures primarily in the sub prime housing market to help eliminate the default and foreclosure of mortgages of owner-occupied single-family homes that are at risk of such foreclosure. Other than areas with high rates of defaults and foreclosures, grants may also be provided to approved counseling intermediaries based on a geographic analysis of the Nation by the NRC which determines where there is a prevalence of sub prime mortgages that are risky and likely to fail, including any trends for mortgages that are likely to default and face foreclosure. A State Housing Finance Agency may also be eligible where the State Housing Finance Agency meets all the requirements under this paragraph. A HUD- or NRC-approved counseling intermediary shall meet certain mortgage foreclosure mitigation assistance counseling requirements, as determined by the NRC, and shall be approved by HUD or the NRC as meeting these requirements.

(3) The use of Mortgage Foreclosure Mitigation Assistance by approved counseling intermediaries and State Housing Finance Agencies shall involve a reasonable analysis of the borrower’s financial situation, an evaluation of the current value of the property that is subject to the mortgage, counseling regarding the assumption of the mortgage by another non-Federal party, counseling regarding the possible purchase of the mortgage by a non-Federal third party, counseling and advice of all likely restructuring and refinancing strategies or the approval of a work-out strategy by all interested parties.

(4) NRC shall award $50,000,000 in mortgage foreclosure mitigation grants for States and areas with the greatest needs within 60 days of enactment. Additional funds may be awarded once the NRC certifies that HUD- or NRC-approved counseling intermediaries and State Housing Finance Agencies have the need for additional funds in States and areas with high rates of mortgage foreclosures, defaults, or related activities and the expertise to use these funds effectively. The NRC may provide up to 15 percent of the total funds under this paragraph to its own charter members with expertise in foreclosure prevention counseling, subject to a certification by the NRC that the procedures for selection do not consist of any procedures or activities that could be construed as an unacceptable conflict of interest or have the appearance of impropriety.

(5) NRC- or HUD-approved counseling entities and State Housing Finance Agencies receiving funds under this paragraph shall have demonstrated experience in successfully working with financial institutions as well as borrowers facing default, delinquency and foreclosure as well as documented counseling capacity, outreach capacity, past successful performance and positive outcomes with documented counseling plans (including post mortgage foreclosure mitigation counseling), loan workout agreements and loan modification agreements.

(6) Of the total amount made available under this paragraph, up to $5,000,000 may be made available to build the mortgage foreclosure and default mitigation counseling capacity of counseling intermediaries through NRC training courses with HUD- or NRC-approved counseling intermediaries and their partners, except that private financial institutions that participate in NRC training shall pay market rates for such training.

The report shall include an analysis of the details and use of any post mitigation counseling of assisted borrowers designed to ensure the continued long-term affordability of the mortgages which were the subject of the mortgage foreclosure mitigation assistance.

Joint Resolution

Granting the consent of Congress to the International Emergency Management Assistance Memorandum of Understanding.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CONGRESSIONAL CONSENT.

Congress consents to the International Emergency Management Assistance Memorandum of Understanding entered into between the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut and the Provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland. The compact is substantially as follows:

“Article I—International Emergency Management Assistance Memorandum of Understanding Purpose and Authorities

“The International Emergency Management Assistance Memorandum of Understanding, hereinafter referred to as the ‘compact,’ is made and entered into by and among such of the jurisdictions as shall enact or adopt this compact, hereinafter referred to as ‘party jurisdictions.’ For the purposes of this agreement, the term ‘jurisdictions’ may include any or all of the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut and the Provinces of Quebec, New Brunswick, Prince Edward Island, Nova Scotia and Newfoundland, and such other states and provinces as may hereafter become a party to this compact.

“The purpose of this compact is to provide for the possibility of mutual assistance among the jurisdictions entering into this compact in managing any emergency or disaster when the affected jurisdiction or jurisdictions ask for assistance, whether arising from natural disaster, technological hazard, manmade disaster or civil emergency aspects of resources shortages.

“This compact also provides for the process of planning mechanisms among the agencies responsible and for mutual cooperation, including, if need be, emergency-related exercises, testing, or other training activities using equipment and personnel simulating performance of any aspect of the giving and receiving of aid by party jurisdictions or subdivisions of party jurisdictions during emergencies, with such actions occurring outside actual declared emergency periods. Mutual assistance in this compact may include the use of emergency forces by mutual agreement among party jurisdictions.
“Article II—General Implementation

“Each party jurisdiction entering into this compact recognizes that many emergencies may exceed the capabilities of a party jurisdiction and that intergovernmental cooperation is essential in such circumstances. Each jurisdiction further recognizes that there will be emergencies that may require immediate access and present procedures to apply outside resources to make a prompt and effective response to such an emergency because few, if any, individual jurisdictions have all the resources they need in all types of emergencies or the capability of delivering resources to areas where emergencies exist.

“The prompt, full, and effective utilization of resources of the participating jurisdictions, including any resources on hand or available from any other source that are essential to the safety, care, and welfare of the people in the event of any emergency or disaster, shall be the underlying principle on which all articles of this compact are understood.

“On behalf of the party jurisdictions participating in the compact, the legally designated official who is assigned responsibility for emergency management is responsible for formulation of the appropriate inter-jurisdictional mutual aid plans and procedures necessary to implement this compact, and for recommendations to the jurisdiction concerned with respect to the amendment of any statutes, regulations, or ordinances required for that purpose.

“Article III—Party Jurisdiction Responsibilities

“(a) Formulate Plans and Programs.—It is the responsibility of each party jurisdiction to formulate procedural plans and programs for inter-jurisdictional cooperation in the performance of the responsibilities listed in this section. In formulating and implementing such plans and programs the party jurisdictions, to the extent practical, shall—

“(1) review individual jurisdiction hazards analyses that are available and, to the extent reasonably possible, determine all those potential emergencies the party jurisdictions might jointly suffer, whether due to natural disaster, technological hazard, man-made disaster or emergency aspects of resource shortages;

“(2) initiate a process to review party jurisdictions’ individual emergency plans and develop a plan that will determine the mechanism for the inter-jurisdictional cooperation;

“(3) develop inter-jurisdictional procedures to fill any identified gaps and to resolve any identified inconsistencies or overlaps in existing or developed plans;

“(4) assist in warning communities adjacent to or crossing jurisdictional boundaries;

“(5) protect and ensure delivery of services, medicines, water, food, energy and fuel, search and rescue, and critical lifeline equipment, services and resources, both human and material to the extent authorized by law;

“(6) inventory and agree upon procedures for the inter-jurisdictional loan and delivery of human and material resources, together with procedures for reimbursement or forgiveness; and
“(7) provide, to the extent authorized by law, for temporary suspension of any statutes or ordinances, over which the province or state has jurisdiction, that impede the implementation of the responsibilities described in this subsection.

“(b) REQUEST ASSISTANCE.—The authorized representative of a party jurisdiction may request assistance of another party jurisdiction by contacting the authorized representative of that jurisdiction. These provisions only apply to requests for assistance made by and to authorized representatives. Requests may be verbal or in writing. If verbal, the request must be confirmed in writing within 15 days of the verbal request. Requests must provide the following information:

“(1) A description of the emergency service function for which assistance is needed and of the mission or missions, including but not limited to fire services, emergency medical, transportation, communications, public works and engineering, building inspection, planning and information assistance, mass care, resource support, health and medical services, and search and rescue.

“(2) The amount and type of personnel, equipment, materials, and supplies needed and a reasonable estimate of the length of time they will be needed.

“(3) The specific place and time for staging of the assisting party’s response and a point of contact at the location.

“(c) CONSULTATION AMONG PARTY JURISDICTION OFFICIALS.—There shall be frequent consultation among the party jurisdiction officials who have assigned emergency management responsibilities, such officials collectively known hereinafter as the International Emergency Management Group, and other appropriate representatives of the party jurisdictions with free exchange of information, plans, and resource records relating to emergency capabilities to the extent authorized by law.

“Article IV—Limitation

“Any party jurisdiction requested to render mutual aid or conduct exercises and training for mutual aid shall undertake to respond as soon as possible, except that it is understood that the jurisdiction rendering aid may withhold or recall resources to the extent necessary to provide reasonable protection for that jurisdiction. Each party jurisdiction shall afford to the personnel of the emergency forces of any party jurisdiction, while operating within its jurisdictional limits under the terms and conditions of this compact and under the operational control of an officer of the requesting party, the same powers, duties, rights, privileges, and immunities as are afforded similar or like forces of the jurisdiction in which they are performing emergency services. Emergency forces continue under the command and control of their regular leaders, but the organizational units come under the operational control of the emergency services authorities of the jurisdiction receiving assistance. These conditions may be activated, as needed, by the jurisdiction that is to receive assistance or upon commencement of exercises or training for mutual aid and continue as long as the exercises or training for mutual aid are in progress, the emergency or disaster remains in effect or loaned resources remain in the receiving jurisdiction or jurisdictions, whichever is longer. The receiving jurisdiction is responsible for informing the assisting
jurisdictions of the specific moment when services will no longer be required.

“Article V—Licenses and Permits

“Whenever a person holds a license, certificate, or other permit issued by any jurisdiction party to the compact evidencing the meeting of qualifications for professional, mechanical, or other skills, and when such assistance is requested by the receiving party jurisdiction, such person is deemed to be licensed, certified, or permitted by the jurisdiction requesting assistance to render aid involving such skill to meet an emergency or disaster, subject to such limitations and conditions as the requesting jurisdiction prescribes by Executive order or otherwise.

“Article VI—Liability

“Any person or entity of a party jurisdiction rendering aid in another jurisdiction pursuant to this compact are considered agents of the requesting jurisdiction for tort liability and immunity purposes. Any person or entity rendering aid in another jurisdiction pursuant to this compact are not liable on account of any act or omission in good faith on the part of such forces while so engaged or on account of the maintenance or use of any equipment or supplies in connection therewith. Good faith in this article does not include willful misconduct, gross negligence, or recklessness.

“Article VII—Supplementary Agreements

“Because it is probable that the pattern and detail of the machinery for mutual aid among 2 or more jurisdictions may differ from that among the jurisdictions that are party to this compact, this compact contains elements of a broad base common to all jurisdictions, and nothing in this compact precludes any jurisdiction from entering into supplementary agreements with another jurisdiction or affects any other agreements already in force among jurisdictions. Supplementary agreements may include, but are not limited to, provisions for evacuation and reception of injured and other persons and the exchange of medical, fire, public utility, reconnaissance, welfare, transportation and communications personnel, equipment, and supplies.

“Article VIII—Workers’ Compensation and Death Benefits

“Each party jurisdiction shall provide, in accordance with its own laws, for the payment of workers’ compensation and death benefits to injured members of the emergency forces of that jurisdiction and to representatives of deceased members of those forces if the members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within their own jurisdiction.

“Article IX—Reimbursement

“Any party jurisdiction rendering aid in another jurisdiction pursuant to this compact shall, if requested, be reimbursed by the party jurisdiction receiving such aid for any loss or damage to, or expense incurred in, the operation of any equipment and the provision of any service in answering a request for aid and for the costs incurred in connection with those requests. An aiding party jurisdiction may assume in whole or in part any such loss,
damage, expense, or other cost or may loan such equipment or donate such services to the receiving party jurisdiction without charge or cost. Any 2 or more party jurisdictions may enter into supplementary agreements establishing a different allocation of costs among those jurisdictions. Expenses under article VIII are not reimbursable under this section.

“Article X—Evacuation

“Each party jurisdiction shall initiate a process to prepare and maintain plans to facilitate the movement of and reception of evacuees into its territory or across its territory, according to its capabilities and powers. The party jurisdiction from which the evacuees came shall assume the ultimate responsibility for the support of the evacuees, and after the termination of the emergency or disaster, for the repatriation of such evacuees.

“Article XI—Implementation

“(a) This compact is effective upon its execution or adoption by any 2 jurisdictions, and is effective as to any other jurisdiction upon its execution or adoption thereby: subject to approval or authorization by the United States Congress, if required, and subject to enactment of provincial or State legislation that may be required for the effectiveness of the Memorandum of Understanding.

“(b) Any party jurisdiction may withdraw from this compact, but the withdrawal does not take effect until 30 days after the governor or premier of the withdrawing jurisdiction has given notice in writing of such withdrawal to the governors or premiers of all other party jurisdictions. The action does not relieve the withdrawing jurisdiction from obligations assumed under this compact prior to the effective date of withdrawal.

“(c) Duly authenticated copies of this compact in the French and English languages and of such supplementary agreements as may be entered into shall, at the time of their approval, be deposited with each of the party jurisdictions.

“Article XII—Severability

“This compact is construed to effectuate the purposes stated in Article I. If any provision of this compact is declared unconstitutional or the applicability of the compact to any person or circumstances is held invalid, the validity of the remainder of this compact and the applicability of the compact to other persons and circumstances are not affected.

“Article XIII—Consistency of Language

“The validity of the arrangements and agreements consented to in this compact shall not be affected by any insubstantial difference in form or language as may be adopted by the various states and provinces.

“Article XIV—Amendment

“This compact may be amended by agreement of the party jurisdictions.”.

SEC. 2. INCONSISTENCY OF LANGUAGE.

The validity of the arrangements consented to by this Act shall not be affected by any insubstantial difference in their form or language as adopted by the States and provinces.
SEC. 3. RIGHT TO ALTER, AMEND, OR REPEAL.

The right to alter, amend, or repeal this Act is hereby expressly reserved.

"(3) ALLOTMENTS.—In addition to the allotments provided under subsections (b) and (c), subject to paragraph (4), of the amount available for the additional allotments under paragraph (1) for the first 2 quarters of fiscal year 2009, the Secretary shall allot—

"(A) to each shortfall State described in paragraph (2) not described in subparagraph (B) such amount as the Secretary determines will eliminate the estimated shortfall described in such paragraph for the State; and

"(B) to each commonwealth or territory described in subsection (c)(3), an amount equal to the percentage specified in subsection (c)(2) for the commonwealth or territory multiplied by 1.05 percent of the sum of the amounts determined for each shortfall State under subparagraph (A).

110th Congress

An Act

To promote accessibility, accountability, and openness in Government by strengthening section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act), and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Openness Promotes Effectiveness in our National Government Act of 2007” or the “OPEN Government Act of 2007”.

SEC. 2. FINDINGS.

Congress finds that—
(1) the Freedom of Information Act was signed into law on July 4, 1966, because the American people believe that—
   (A) our constitutional democracy, our system of self-government, and our commitment to popular sovereignty depends upon the consent of the governed;
   (B) such consent is not meaningful unless it is informed consent; and
   (C) as Justice Black noted in his concurring opinion in Barr v. Matteo (360 U.S. 564 (1959)), “The effective functioning of a free government like ours depends largely on the force of an informed public opinion. This calls for the widest possible understanding of the quality of government service rendered by all elective or appointed public officials or employees.”;
(2) the American people firmly believe that our system of government must itself be governed by a presumption of openness;
(3) the Freedom of Information Act establishes a “strong presumption in favor of disclosure” as noted by the United States Supreme Court in United States Department of State v. Ray (502 U.S. 164 (1991)), a presumption that applies to all agencies governed by that Act;
(4) “disclosure, not secrecy, is the dominant objective of the Act,” as noted by the United States Supreme Court in Department of Air Force v. Rose (425 U.S. 352 (1976));
(5) in practice, the Freedom of Information Act has not always lived up to the ideals of that Act; and
(6) Congress should regularly review section 552 of title 5, United States Code (commonly referred to as the Freedom of Information Act), in order to determine whether further changes and improvements are necessary to ensure that the
Government remains open and accessible to the American people and is always based not upon the “need to know” but upon the fundamental “right to know”.

SEC. 3. PROTECTION OF FEE STATUS FOR NEWS MEDIA.

Section 552(a)(4)(A)(ii) of title 5, United States Code, is amended by adding at the end the following:

“In this clause, the term ‘a representative of the news media’ means any person or entity that gathers information of potential interest to a segment of the public, uses its editorial skills to turn the raw materials into a distinct work, and distributes that work to an audience. In this clause, the term ‘news’ means information that is about current events or that would be of current interest to the public. Examples of news-media entities are television or radio stations broadcasting to the public at large and publishers of periodicals (but only if such entities qualify as disseminators of ‘news’) who make their products available for purchase by or subscription by or free distribution to the general public. These examples are not all-inclusive. Moreover, as methods of news delivery evolve (for example, the adoption of the electronic dissemination of newspapers through telecommunications services), such alternative media shall be considered to be news-media entities. A freelance journalist shall be regarded as working for a news-media entity if the journalist can demonstrate a solid basis for expecting publication through that entity, whether or not the journalist is actually employed by the entity. A publication contract would present a solid basis for such an expectation; the Government may also consider the past publication record of the requester in making such a determination.”.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the “NICS Improvement Amendments Act of 2007”.

Sec. 1. Short title and table of contents.
Sec. 2. Findings.

TITLE I—TRANSMITTAL OF RECORDS

Sec. 101. Enhancement of requirement that Federal departments and agencies provide relevant information to the National Instant Criminal Background Check System.

Sec. 301. Disposition records automation and transmittal improvement grants.

TITLE IV—GAO AUDIT

Sec. 401. GAO audit.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Approximately 916,000 individuals were prohibited from purchasing a firearm for failing a background check between November 30, 1998, (the date the National Instant Criminal Background Check System (NICS) began operating) and December 31, 2004.
(2) From November 30, 1998, through December 31, 2004, nearly 49,000,000 Brady background checks were processed through NICS.
(3) Although most Brady background checks are processed through NICS in seconds, many background checks are delayed
if the Federal Bureau of Investigation (FBI) does not have automated access to complete information from the States concerning persons prohibited from possessing or receiving a firearm under Federal or State law.

(4) Nearly 21,000,000 criminal records are not accessible by NICS and millions of criminal records are missing critical data, such as arrest dispositions, due to data backlogs.

(5) The primary cause of delay in NICS background checks is the lack of—

(A) updates and available State criminal disposition records; and

(B) automated access to information concerning persons prohibited from possessing or receiving a firearm because of mental illness, restraining orders, or misdemeanor convictions for domestic violence.

(6) Automated access to this information can be improved by—

(A) computerizing information relating to criminal history, criminal dispositions, mental illness, restraining orders, and misdemeanor convictions for domestic violence; or

(B) making such information available to NICS in a usable format.

(7) Helping States to automate these records will reduce delays for law-abiding gun purchasers.

(8) On March 12, 2002, the senseless shooting, which took the lives of a priest and a parishioner at the Our Lady of Peace Church in Lynbrook, New York, brought attention to the need to improve information-sharing that would enable Federal and State law enforcement agencies to conduct a complete background check on a potential firearm purchaser. The man who committed this double murder had a prior disqualifying mental health commitment and a restraining order against him, but passed a Brady background check because NICS did not have the necessary information to determine that he was ineligible to purchase a firearm under Federal or State law.

(9) On April 16, 2007, a student with a history of mental illness at the Virginia Polytechnic Institute and State University shot to death 32 students and faculty members, wounded 17 more, and then took his own life. The shooting, the deadliest campus shooting in United States history, renewed the need to improve information-sharing that would enable Federal and State law enforcement agencies to conduct complete background checks on potential firearms purchasers. In spite of a proven history of mental illness, the shooter was able to purchase the two firearms used in the shooting. Improved coordination between State and Federal authorities could have ensured that the shooter’s disqualifying mental health information was available to NICS.

SEC. 3. DEFINITIONS.

As used in this Act, the following definitions shall apply:

(1) COURT ORDER.—The term “court order” includes a court order (as described in section 922(g)(8) of title 18, United States Code).
(2) MENTAL HEALTH TERMS.—The terms “adjudicated as a mental defective” and “committed to a mental institution” have the same meanings as in section 922(g)(4) of title 18, United States Code.

(3) MISDEMEANOR CRIME OF DOMESTIC VIOLENCE.—The term “misdemeanor crime of domestic violence” has the meaning given the term in section 921(a)(33) of title 18, United States Code.

(1) by striking “Notwithstanding” and inserting the following: “(A) IN GENERAL.—Notwithstanding”;

(2) by striking “On request” and inserting the following: “(B) REQUEST OF ATTORNEY GENERAL.—On request”;

(3) by striking “furnish such information” and inserting “furnish electronic versions of the information described under subparagraph (A)”;

(4) by adding at the end the following: “(C) QUARTERLY SUBMISSION TO ATTORNEY GENERAL.—If a Federal department or agency under subparagraph (A) has any record of any person demonstrating that the person falls within one of the categories described in subsection (g) or (n) of section 922 of title 18, United States Code, the head of such department or agency shall, not less frequently than quarterly, provide the pertinent information contained in such record to the Attorney General.

“(D) INFORMATION UPDATES.—The Federal department or agency, on being made aware that the basis under which a record was made available under subparagraph (A) does not apply, or no longer applies, shall—

“(i) update, correct, modify, or remove the record from any database that the agency maintains and makes available to the Attorney General, in accordance with the rules pertaining to that database; and

“(ii) notify the Attorney General that such basis no longer applies so that the National Instant Criminal Background Check System is kept up to date.

The Attorney General upon receiving notice pursuant to clause (ii) shall ensure that the record in the National Instant Criminal Background Check System is updated, corrected, modified, or removed within 30 days of receipt.

“(E) ANNUAL REPORT.—The Attorney General shall submit an annual report to Congress that describes the compliance of each department or agency with the provisions of this paragraph.”.

(b) PROVISION AND MAINTENANCE OF NICS RECORDS.—
(1) DEPARTMENT OF HOMELAND SECURITY.—The Secretary of Homeland Security shall make available to the Attorney General—

(A) records, updated not less than quarterly, which are relevant to a determination of whether a person is disqualified from possessing or receiving a firearm under subsection (g) or (n) of section 922 of title 18, United States Code, for use in background checks performed by the National Instant Criminal Background Check System; and

(B) information regarding all the persons described in subparagraph (A) of this paragraph who have changed their status to a category not identified under section 922(g)(5) of title 18, United States Code, for removal, when applicable, from the National Instant Criminal Background Check System.

(2) DEPARTMENT OF JUSTICE.—The Attorney General shall—

(A) ensure that any information submitted to, or maintained by, the Attorney General under this section is kept accurate and confidential, as required by the laws, regulations, policies, or procedures governing the applicable record system;

(B) provide for the timely removal and destruction of obsolete and erroneous names and information from the National Instant Criminal Background Check System; and

(C) work with States to encourage the development of computer systems, which would permit electronic notification to the Attorney General when—

(i) a court order has been issued, lifted, or otherwise removed by order of the court; or

(ii) a person has been adjudicated as a mental defective or committed to a mental institution.

(c) STANDARD FOR ADJUDICATIONS AND COMMITMENTS RELATED TO MENTAL HEALTH.—

(1) IN GENERAL.—No department or agency of the Federal Government may provide to the Attorney General any record of an adjudication related to the mental health of a person or any commitment of a person to a mental institution if—

(A) the adjudication or commitment, respectively, has been set aside or expunged, or the person has otherwise been fully released or discharged from all mandatory treatment, supervision, or monitoring;

(B) the person has been found by a court, board, commission, or other lawful authority to no longer suffer from the mental health condition that was the basis of the adjudication or commitment, respectively, or has otherwise been found to be rehabilitated through any procedure available under law; or

(C) the adjudication or commitment, respectively, is based solely on a medical finding of disability, without an opportunity for a hearing by a court, board, commission, or other lawful authority, and the person has not been adjudicated as a mental defective consistent with section 922(g)(4) of title 18, United States Code, except that nothing in this section or any other provision of law shall
prevent a Federal department or agency from providing to the Attorney General any record demonstrating that a person was adjudicated to be not guilty by reason of insanity, or based on lack of mental responsibility, or found incompetent to stand trial, in any criminal case or under the Uniform Code of Military Justice.

(2) TREATMENT OF CERTAIN ADJUDICATIONS AND COMMITMENTS.—

(A) PROGRAM FOR RELIEF FROM DISABILITIES.—

(i) IN GENERAL.—Each department or agency of the United States that makes any adjudication related to the mental health of a person or imposes any commitment to a mental institution, as described in subsection (d)(4) and (g)(4) of section 922 of title 18, United States Code, shall establish, not later than 120 days after the date of enactment of this Act, a program that permits such a person to apply for relief from the disabilities imposed by such subsections.

(ii) PROCESS.—Each application for relief submitted under the program required by this subparagraph shall be processed not later than 365 days after the receipt of the application. If a Federal department or agency fails to resolve an application for relief within 365 days for any reason, including a lack of appropriated funds, the department or agency shall be deemed for all purposes to have denied such request for relief without cause. Judicial review of any petitions brought under this clause shall be de novo.

(iii) JUDICIAL REVIEW.—Relief and judicial review with respect to the program required by this subparagraph shall be available according to the standards prescribed in section 925(c) of title 18, United States Code. If the denial of a petition for relief has been reversed after such judicial review, the court shall award the prevailing party, other than the United States, a reasonable attorney’s fee for any and all proceedings in relation to attaining such relief, and the United States shall be liable for such fee. Such fee shall be based upon the prevailing rates awarded to public interest legal aid organizations in the relevant community.

(B) RELIEF FROM DISABILITIES.—In the case of an adjudication related to the mental health of a person or a commitment of a person to a mental institution, a record of which may not be provided to the Attorney General under paragraph (1), including because of the absence of a finding described in subparagraph (C) of such paragraph, or from which a person has been granted relief under a program established under subparagraph (A) or (B), or because of a removal of a record under section 103(e)(1)(D) of the Brady Handgun Violence Prevention Act, the adjudication or commitment, respectively, shall be deemed not to have occurred for purposes of subsections (d)(4) and (g)(4) of section 922 of title 18, United States Code. Any Federal agency that grants a person relief from disabilities under this subparagraph shall notify such person that the person is no longer prohibited under 922(d)(4) or 922(g)(4)
of title 18, United States Code, on account of the relieved disability for which relief was granted pursuant to a proceeding conducted under this subparagraph, with respect to the acquisition, receipt, transfer, shipment, transportation, or possession of firearms.

(3) NOTICE REQUIREMENT.—Effective 30 days after the date of enactment of this Act, any Federal department or agency that conducts proceedings to adjudicate a person as a mental defective under 922(d)(4) or 922(g)(4) of title 18, United States Code, shall provide both oral and written notice to the individual at the commencement of the adjudication process including—

(A) notice that should the agency adjudicate the person as a mental defective, or should the person be committed to a mental institution, such adjudication, when final, or such commitment, will prohibit the individual from purchasing, possessing, receiving, shipping or transporting a firearm or ammunition under section 922(d)(4) or section 922(g)(4) of title 18, United States Code;

(B) information about the penalties imposed for unlawful possession, receipt, shipment or transportation of a firearm under section 924(a)(2) of title 18, United States Code; and

(C) information about the availability of relief from the disabilities imposed by Federal laws with respect to the acquisition, receipt, transfer, shipment, transportation, or possession of firearms.

(4) EFFECTIVE DATE.—Except for paragraph (3), this subsection shall apply to names and other information provided before, on, or after the date of enactment of this Act. Any name or information provided in violation of this subsection (other than in violation of paragraph (3)) before, on, or after such date shall be removed from the National Instant Criminal Background Check System.

SEC. 102. REQUIREMENTS TO OBTAIN WAIVER.

(a) IN GENERAL.—Beginning 3 years after the date of the enactment of this Act, a State shall be eligible to receive a waiver of the 10 percent matching requirement for National Criminal History Improvement Grants under the Crime Identification Technology Act of 1988 (42 U.S.C. 14601) if the State provides at least 90 percent of the information described in subsection (c). The length of such a waiver shall not exceed 2 years.

(b) STATE ESTIMATES.—

(1) INITIAL STATE ESTIMATE.—

(A) IN GENERAL.—To assist the Attorney General in making a determination under subsection (a) of this section, and under section 104, concerning the compliance of the States in providing information to the Attorney General for the purpose of receiving a waiver under subsection (a) of this section, or facing a loss of funds under section 104, by a date not later than 180 days after the date of the enactment of this Act, each State shall provide the Attorney General with a reasonable estimate, as calculated by a method determined by the Attorney General and in accordance with section 104(d), of the number of the records described in subparagraph (C) applicable to
such State that concern persons who are prohibited from possessing or receiving a firearm under subsection (g) or (n) of section 922 of title 18, United States Code.

(B) Failure to provide initial estimate.—A State that fails to provide an estimate described in subparagraph (A) by the date required under such subparagraph shall be ineligible to receive any funds under section 103, until such date as it provides such estimate to the Attorney General.

(C) Record defined.—For purposes of subparagraph (A), a record is the following:

(i) A record that identifies a person who has been convicted in any court of a crime punishable by imprisonment for a term exceeding 1 year.

(ii) A record that identifies a person for whom an indictment has been returned for a crime punishable by imprisonment for a term exceeding 1 year that is valid under the laws of the State involved or who is a fugitive from justice, as of the date of the estimate, and for which a record of final disposition is not available.

(iii) A record that identifies a person who is an unlawful user of, or addicted to a controlled substance (as such terms "unlawful user" and "addicted" are respectively defined in regulations implementing section 922(g)(3) of title 18, United States Code, as in effect on the date of the enactment of this Act) as demonstrated by arrests, convictions, and adjudications, and whose record is not protected from disclosure to the Attorney General under any provision of State or Federal law.

(iv) A record that identifies a person who has been adjudicated as a mental defective or committed to a mental institution, consistent with section 922(g)(4) of title 18, United States Code, and whose record is not protected from disclosure to the Attorney General under any provision of State or Federal law.

(v) A record that is electronically available and that identifies a person who, as of the date of such estimate, is subject to a court order described in section 922(g)(8) of title 18, United States Code.

(vi) A record that is electronically available and that identifies a person convicted in any court of a misdemeanor crime of domestic violence, as defined in section 921(a)(33) of title 18, United States Code.

(2) Scope.—The Attorney General, in determining the compliance of a State under this section or section 104 for the purpose of granting a waiver or imposing a loss of Federal funds, shall assess the total percentage of records provided by the State concerning any event occurring within the prior 20 years, which would disqualify a person from possessing a firearm under subsection (g) or (n) of section 922 of title 18, United States Code.

(3) Clarification.—Notwithstanding paragraph (2), States shall endeavor to provide the National Instant Criminal Background Check System with all records concerning persons who are prohibited from possessing or receiving a firearm under
subsection (g) or (n) of section 922 of title 18, United States Code, regardless of the elapsed time since the disqualifying event.

(c) ELIGIBILITY OF STATE RECORDS FOR SUBMISSION TO THE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM.—

(1) REQUIREMENTS FOR ELIGIBILITY.—

(A) IN GENERAL.—From the information collected by a State, the State shall make electronically available to the Attorney General records relevant to a determination of whether a person is disqualified from possessing or receiving a firearm under subsection (g) or (n) of section 922 of title 18, United States Code, or applicable State law.

(B) NICS UPDATES.—The State, on being made aware that the basis under which a record was made available under subparagraph (A) does not apply, or no longer applies, shall, as soon as practicable—

(i) update, correct, modify, or remove the record from any database that the Federal or State government maintains and makes available to the National Instant Criminal Background Check System, consistent with the rules pertaining to that database; and

(ii) notify the Attorney General that such basis no longer applies so that the record system in which the record is maintained is kept up to date.

The Attorney General upon receiving notice pursuant to clause (ii) shall ensure that the record in the National Instant Criminal Background Check System is updated, corrected, modified, or removed within 30 days of receipt.

(C) CERTIFICATION.—To remain eligible for a waiver under subsection (a), a State shall certify to the Attorney General, not less than once during each 2-year period, that at least 90 percent of all records described in subparagraph (A) has been made electronically available to the Attorney General in accordance with subparagraph (A).

(D) INCLUSION OF ALL RECORDS.—For purposes of this paragraph, a State shall identify and include all of the records described under subparagraph (A) without regard to the age of the record.

(2) APPLICATION TO PERSONS CONVICTED OF MISDEMEANOR CRIMES OF DOMESTIC VIOLENCE.—The State shall make available to the Attorney General, for use by the National Instant Criminal Background Check System, records relevant to a determination of whether a person has been convicted in any court of a misdemeanor crime of domestic violence. With respect to records relating to such crimes, the State shall provide information specifically describing the offense and the specific section or subsection of the offense for which the defendant has been convicted and the relationship of the defendant to the victim in each case.

(3) APPLICATION TO PERSONS WHO HAVE BEEN ADJUDICATED AS A MENTAL DEFECTIVE OR COMMITTED TO A MENTAL INSTITUTION.—The State shall make available to the Attorney General, for use by the National Instant Criminal Background Check System, the name and other relevant identifying information of persons adjudicated as a mental defective or those committed
to mental institutions to assist the Attorney General in enforcing section 922(g)(4) of title 18, United States Code.

(d) PRIVACY PROTECTIONS.—For any information provided to the Attorney General for use by the National Instant Criminal Background Check System, relating to persons prohibited from possessing or receiving a firearm under section 922(g)(4) of title 18, United States Code, the Attorney General shall work with States and local law enforcement and the mental health community to establish regulations and protocols for protecting the privacy of information provided to the system. The Attorney General shall make every effort to meet with any mental health group seeking to express its views concerning these regulations and protocols and shall seek to develop regulations as expeditiously as practicable.

(e) ATTORNEY GENERAL REPORT.—Not later than January 31 of each year, the Attorney General shall submit to the Committee on the Judiciary of the Senate and the Committee on the Judiciary of the House of Representatives a report on the progress of States in automating the databases containing the information described in subsection (b) and in making that information electronically available to the Attorney General pursuant to the requirements of subsection (c).
