(iii) meets the workforce development and employment needs of local employers and participants.

(3) LOCAL CRITERIA.—Consistent with the criteria developed under paragraph (1) by the State, a local board in the State may develop additional criteria (or higher levels of service coordination than required for the State-developed criteria) relating to service coordination achieved by the one-stop
delivery system, for purposes of assessments described in para-
graph (1), in order to respond to labor market, economic, and
demographic, conditions and trends in the local area.

(4) **Effect of Certification.**—One-stop centers certified
under this subsection shall be eligible to receive the infrastruc-
ture funding described in subsection (h).

(5) **Review and Update.**—The criteria and procedures
established under this subsection shall be reviewed and updated
by the State board or the local board, as the case may be,
as part of the biennial process for review and modification
of State and local plans described in sections 102(c)(2) and
108(a).

(h) **Funding of One-stop Infrastructure.**—

(1) **In General.**—

(A) **Options for Infrastructure Funding.**—

(i) **Local Options.**—The local board, chief elected
officials, and one-stop partners described in subsection
(b)(1) in a local area may fund the costs of infrastruc-
ture of one-stop centers in the local area through—

(I) methods agreed on by the local board, chief
elected officials, and one-stop partners (and
described in the memorandum of understanding
described in subsection (c)); or

(II) if no consensus agreement on methods
is reached under subclause (I), the State infra-
structure funding mechanism described in para-
graph (2).

(ii) **Failure to Reach Consensus Agreement on
Funding Methods.**—Beginning July 1, 2016, if the
local board, chief elected officials, and one-stop part-
ners described in subsection (b)(1) in a local area fail
to reach consensus agreement on methods of suffi-
ciently funding the costs of infrastructure of one-stop
centers for a program year, the State infrastructure
funding mechanism described in paragraph (2) shall
be applicable to such local area for that program year
and for each subsequent program year for which those
entities and individuals fail to reach such agreement.

(B) **Guidance for Infrastructure Funding.**—In
addition to carrying out the requirements relating to the
State infrastructure funding mechanism described in para-
graph (2), the Governor, after consultation with chief
elected officials, local boards, and the State board, and
consistent with the guidance and policies provided by the
State board under subparagraphs (B) and (C)(i) of section
101(d)(7), shall provide, for the use of local areas under
subparagraph (A)(i)(I)—

(i) guidelines for State-administered one-stop
partner programs, for determining such programs’ con-
tributions to a one-stop delivery system, based on such
programs’ proportionate use of such system consistent
with chapter II of title 2, Code of Federal Regulations
(or any corresponding similar regulation or ruling),
including determining funding for the costs of infra-
structure, which contributions shall be negotiated
pursuant to the memorandum of understanding under
subsection (c); and
(ii) guidance to assist local boards, chief elected officials, and one-stop partners in local areas in determining equitable and stable methods of funding the costs of infrastructure of one-stop centers in such areas.

(2) STATE ONE-STOP INFRASTRUCTURE FUNDING.—

(A) DEFINITION.—In this paragraph, the term “covered portion”, used with respect to funding for a fiscal year for a program described in subsection (b)(1), means a portion determined under subparagraph (C) of the Federal funds provided to a State (including local areas within the State) under the Federal law authorizing that program described in subsection (b)(1) for the fiscal year (taking into account the availability of funding for purposes related to infrastructure from philanthropic organizations, private entities, or other alternative financing options).

(B) PARTNER CONTRIBUTIONS.—Subject to subparagraph (D), for local areas in a State that are not covered by paragraph (1)(A)(i)(I), the covered portions of funding for a fiscal year shall be provided to the Governor from the programs described in subsection (b)(1), to assist in paying the costs of infrastructure of one-stop centers in those local areas of the State not adequately funded under the option described in paragraph (1)(A)(i)(I).

(C) DETERMINATION OF GOVERNOR.—

(i) IN GENERAL.—Subject to clause (ii) and subparagraph (D), the Governor, after consultation with chief elected officials, local boards, and the State board, shall determine the portion of funds to be provided under subparagraph (B) by each one-stop partner from each program described in subparagraph (B). In making such determination for the purpose of determining funding contributions, for funding pursuant to clause (i)(II) or (ii) of paragraph (1)(A) by each partner, the Governor shall calculate amounts for the proportionate use of the one-stop centers in the State, consistent with chapter II of title 2, Code of Federal Regulations (or any corresponding similar regulation or ruling), taking into account the costs of administration of the one-stop delivery system for purposes not related to one-stop centers, for each partner. The Governor shall exclude from such determination of funds the amounts for proportionate use of one-stop centers attributable to the programs of one-stop partners for those local areas of the State where the costs of infrastructure of one-stop centers are funded under the option described in paragraph (1)(A)(i)(I). The Governor shall also take into account the statutory requirements for each partner program and the partner program’s ability to fulfill such requirements.

(ii) SPECIAL RULE.—In a State in which the State constitution or a State statute places policymaking authority that is independent of the authority of the Governor in an entity or official with respect to the funds provided for adult education and literacy activities authorized under title II, postsecondary career and technical education activities authorized under the Carl D. Perkins Career and Technical Education Act
of 2006 (20 U.S.C. 2301 et seq.), or vocational rehabilitation services offered under a provision covered by section 3(13)(D), the determination described in clause (i) with respect to the programs authorized under that title, Act, or provision shall be made by the chief officer of the entity, or the official, with such authority in consultation with the Governor.

(D) LIMITATIONS.—

(i) provision from administrative funds.—

(I) in general.—Subject to subclause (II), the funds provided under this paragraph by each one-stop partner shall be provided only from funds available for the costs of administration under the program administered by such partner, and shall be subject to the program’s limitations with respect to the portion of funds under such program that may be used for administration.

(II) exceptions.—Nothing in this clause shall be construed to apply to the programs carried out under this title, or under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.).

(ii) cap on required contributions.—For local areas in a State that are not covered by paragraph (1)(A)(i)(I), the following rules shall apply:

(I) WIA formula programs and employment service.—The portion of funds required to be contributed under this paragraph from a program authorized under chapter 2 or 3, or the Wagner-Peyser Act (29 U.S.C. 49 et seq.) shall not exceed 3 percent of the amount of Federal funds provided to carry out that program in the State for a fiscal year.

(II) other one-stop partners.—The portion of funds required to be contributed under this paragraph from a program described in subsection (b)(1) other than the programs described in subclause (I) shall not exceed 1.5 percent of the amount of Federal funds provided to carry out that program in the State for a fiscal year.

(III) vocational rehabilitation.—Notwithstanding subclauses (I) and (II), an entity administering a program described in subsection (b)(1)(B)(iv) shall not be required to provide from that program, under this paragraph, a portion that exceeds—

(aa) 0.75 percent of the amount of Federal funds provided to carry out such program in the State for the second full program year that begins after the date of enactment of this Act;

(bb) 1.0 percent of the amount provided to carry out such program in the State for the third full program year that begins after such date;

(cc) 1.25 percent of the amount provided to carry out such program in the State for
the fourth full program year that begins after such date; and

(dd) 1.5 percent of the amount provided to carry out such program in the State for the fifth and each succeeding full program year that begins after such date.

(iii) Federal Direct Spending Programs.—For local areas in a State that are not covered by paragraph (1)(A)(i)(I), an entity administering a program funded with direct spending as defined in section 250(c)(8) of the Balanced Budget and Emergency Deficit Control Act of 1985, as in effect on February 15, 2014 (2 U.S.C. 900(c)(8)) shall not be required to provide, for purposes of this paragraph, an amount in excess of the amount determined under subparagraph (C)(i) to be equivalent to the cost of the proportionate use of the one-stop centers for the one-stop partner for such program in the State.

(iv) Native American Programs.—One-stop partners for Native American programs established under section 166 shall not be subject to the provisions of this subsection (other than this clause) or subsection (i). For purposes of subsection (c)(2)(A)(i)(II), the method for determining the appropriate portion of funds to be provided by such partners to pay for the costs of infrastructure of a one-stop center shall be determined as part of the development of the memorandum of understanding under subsection (c) for the one-stop center and shall be stated in the memorandum.

(E) Appeal by One-Stop Partners.—The Governor shall establish a process, described under section 102(b)(2)(D)(i)(IV), for a one-stop partner administering a program described in subsection (b)(1) to appeal a determination regarding the portion of funds to be provided under this paragraph. Such a determination may be appealed under the process on the basis that such determination is inconsistent with the requirements of this paragraph. Such process shall ensure prompt resolution of the appeal in order to ensure the funds are distributed in a timely manner, consistent with the requirements of section 182(e).

(3) Allocation by Governor.—

(A) In General.—From the funds provided under paragraph (1), the Governor shall allocate the funds to local areas described in subparagraph (B) in accordance with the formula established under subparagraph (B) for the purposes of assisting in paying the costs of infrastructure of one-stop centers.

(B) Allocation Formula.—The State board shall develop a formula to be used by the Governor to allocate the funds provided under paragraph (1) to local areas not funding costs of infrastructure under the option described in paragraph (1)(A)(i)(I). The formula shall be based on factors including the number of one-stop centers in a local area, the population served by such centers, the services provided by such centers, and other factors relating to
the performance of such centers that the State board determines are appropriate.

(4) COSTS OF INFRASTRUCTURE.—In this subsection, the term "costs of infrastructure", used with respect to a one-stop center, means the nonpersonnel costs that are necessary for the general operation of the one-stop center, including the rental costs of the facilities, the costs of utilities and maintenance, equipment (including assessment-related products and assistive technology for individuals with disabilities), and technology to facilitate access to the one-stop center, including the center’s planning and outreach activities.

(i) OTHER FUNDS.—

(1) IN GENERAL.—Subject to the memorandum of understanding described in subsection (c) for the one-stop delivery system involved, in addition to the funds provided to carry out subsection (h), a portion of funds made available under Federal law authorizing the programs described in subsection (b) and administered by one-stop partners, or the noncash resources available under such programs, shall be used to pay the additional costs relating to the operation of the one-stop delivery system that are not paid from the funds provided under subsection (h), as determined in accordance with paragraph (3), to the extent not inconsistent with the Federal law involved. Such costs shall include the costs of the provision of career services described in section 134(c)(2) applicable to each program and may include common costs that are not paid from the funds provided under subsection (h).

(2) SHARED SERVICES.—The costs described under paragraph (1) may include costs of services that are authorized for and may be commonly provided through the one-stop partner programs to any individual, such as initial intake, assessment of needs, appraisal of basic skills, identification of appropriate services to meet such needs, referrals to other one-stop partners, and other similar services.

(3) DETERMINATION AND GUIDANCE.—The method for determining the appropriate portion of funds and noncash resources to be provided by the one-stop partner for each program under paragraph (1) for a one-stop center shall be determined as part of the development of the memorandum of understanding under subsection (c) for the one-stop center and shall be stated in the memorandum. The State board shall provide guidance to facilitate the determination, for purposes of the memorandum of understanding, of an appropriate allocation of the funds and noncash resources in local areas, consistent with the requirements of section 101(d)(6)(C).

The term, used with respect to fiscal year
2014, means the percentage of the amount allotted to States
under section 127(b)(1)(C) of the Workforce Investment Act
of 1998 (as in effect on the day before the date of enactment
of this Act) that is received under such section by the
State involved for fiscal year 2014.

(C) DISADVANTAGED YOUTH.—Subject to paragraph (3),
the term “disadvantaged youth” means an individual who

rounded to the nearest $1,000.

(3) SPECIAL RULE.—For the purpose of the formula specified
in paragraph (1)(C), the Secretary shall, as appropriate and
to the extent practicable, exclude college students and members
of the Armed Forces from the determination of the number of

and statewide workforce investment activities (referred to
individually in this subsection as a “State allotment”) and
that are available for reallocation.

(2) AMOUNT.—The amount available for reallocation for
a program year is equal to the amount by which the unobligated
balance of the State allotment, at the end of the program
year prior to the program year for which the determination
under this paragraph is made, exceeds 20 percent of such allotment for the prior program year.

(3) **REALLOTMENT.**—In making reallocations to eligible States of amounts available pursuant to paragraph (2) for a program year, the Secretary shall allot to each eligible State an amount based on the relative amount of the State allotment for the program year for which the determination is made, as compared to the total amount of the State allotments for all eligible States for such program year.

(ii) **MINIMUM PERCENTAGE.**—The local area shall not receive an allocation percentage for a fiscal year that is less than 90 percent of the average allocation
percentage of the local area for the 2 preceding fiscal years. Amounts necessary for increasing such allocations to local areas to comply with the preceding sentence shall be obtained by ratably reducing the allocations to be made to other local areas under this subparagraph.

(3) REALLOCATION.—In making reallocations to eligible local areas of amounts available pursuant to paragraph (2) for a program year, the Governor shall allocate to each eligible local area within the State an amount based on the relative amount of the local allocation for the program year for which the determination is made, as compared to the total amount of the local allocations for all eligible local areas in the State for such program year.

(4) ELIGIBILITY.—For purposes of this subsection, an eligible local area means a local area that does not have an amount available for reallocation under paragraph (2) for the program year for which the determination under paragraph (2) is made.

SEC. 2. DESIGNATION OF DISTINGUISHED FLYING CROSS NATIONAL MEMORIAL IN RIVERSIDE, CALIFORNIA.

(a) FINDINGS.—Congress finds the following:

(1) The most reliable statistics regarding the number of members of the Armed Forces who have been awarded the Distinguished Flying Cross indicate that 126,318 members of the Armed Forces received the medal during World War II, approximately 21,000 members received the medal during the Korean conflict, and 21,647 members received the medal during the Vietnam War. Since the end of the Vietnam War, more than 203 Armed Forces members have received the medal in times of conflict.

(2) The National Personnel Records Center in St. Louis, Missouri, burned down in 1973, and thus many more recipients of the Distinguished Flying Cross may be undocumented. Currently, the Department of Defense continues to locate and identify members of the Armed Forces who have received the medal and are undocumented.

(3) The United States currently lacks a national memorial dedicated to the bravery and sacrifice of those members of the Armed Forces who have distinguished themselves by heroic deeds performed in aerial flight.

(4) An appropriate memorial to current and former members of the Armed Forces is under construction at March Field Air Museum in Riverside, California.

(5) This memorial will honor all those members of the Armed Forces who have distinguished themselves in aerial flight, whether documentation of such members who earned the Distinguished Flying Cross exists or not.

(b) DESIGNATION.—The memorial to members of the Armed Forces who have been awarded the Distinguished Flying Cross, located at March Field Air Museum in Riverside, California, is hereby designated as the Distinguished Flying Cross National Memorial.
(c) Effect of Designation.—The national memorial designated by this section is not a unit of the National Park System, and the designation of the national memorial shall not be construed to require or permit Federal funds to be expended for any purpose related to the national memorial.

SEC. 2. FINDINGS; SENSE OF CONGRESS; PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) Sean Goldman, a United States citizen and resident of New Jersey, was abducted from the United States in 2004 and separated from his father, David Goldman, who spent nearly 6 years battling for the return of his son from Brazil before Sean was finally returned to Mr. Goldman’s custody on December 24, 2009.

(2) The Department of State’s Office of Children’s Issues, which serves as the Central Authority of the United States for the purposes of the 1980 Hague Convention on the Civil
Aspects of International Child Abduction (referred to in this Act as the “Hague Abduction Convention”), has received thousands of requests since 2007 for assistance in the return to the United States of children who have been wrongfully abducted by a parent or other legal guardian to another country.

(3) For a variety of reasons reflecting the significant obstacles to the recovery of abducted children, as well as the legal and factual complexity involving such cases, not all cases are reported to the Central Authority of the United States.

(4) More than 1,000 outgoing international child abductions are reported every year to the Central Authority of the United States, which depends solely on proactive reporting of abduction cases.

(5) Only about one-half of the children abducted from the United States to countries with which the United States enjoys reciprocal obligations under the Hague Abduction Convention are returned to the United States.

(6) The United States and other Convention countries have expressed their desire, through the Hague Abduction Convention, “to protect children internationally from the harmful effects of their wrongful removal or retention and to establish procedures to ensure their prompt return to the State of their habitual residence, as well as to secure protection for rights of access.”

(7) Compliance by the United States and other Convention countries depends on the actions of their designated central authorities, the performance of their judicial systems as reflected in the legal process and decisions rendered to enforce or effectuate the Hague Abduction Convention, and the ability and willingness of their law enforcement authorities to ensure the swift enforcement of orders rendered pursuant to the Hague Abduction Convention.

(8) According to data from the Department of State, approximately 40 percent of abduction cases involve children taken from the United States to countries with which the United States does not have reciprocal obligations under the Hague Abduction Convention or other arrangements relating to the resolution of abduction cases.

(9) According to the Department of State’s April 2010 Report on Compliance with the Hague Convention on the Civil Aspects of International Child Abduction, “parental child abduction jeopardizes the child and has substantial long-term consequences for both the child and the left-behind parent.”

(10) Few left-behind parents have the extraordinary financial resources necessary—

   (A) to pursue individual civil or criminal remedies in both the United States and a foreign country, even if such remedies are available; or

   (B) to engage in repeated foreign travel to attempt to obtain the return of their children through diplomatic or other channels.

(11) Military parents often face additional complications in resolving abduction cases because of the challenges presented by their military obligations.

(12) In addition to using the Hague Abduction Convention to achieve the return of abducted children, the United States has an array of Federal, State, and local law enforcement,
criminal justice, and judicial tools at its disposal to prevent international abductions.

(13) Federal agencies tasked with preventing international abductions have indicated that the most effective way to stop international child abductions is while they are in progress, rather than after the child has been removed to a foreign destination.

(14) Parental awareness of abductions in progress, rapid response by relevant law enforcement, and effective coordination among Federal, State, local, and international stakeholders are critical in preventing such abductions.

(15) A more robust application of domestic tools, in cooperation with international law enforcement entities and appropriate application of the Hague Abduction Convention could—
(A) discourage some parents from attempting abductions;
(B) block attempted abductions at ports of exit; and
(C) help achieve the return of more abducted children.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should set a strong example for other Convention countries in the timely location and prompt resolution of cases involving children abducted abroad and brought to the United States.

(c) PURPOSES.—The purposes of this Act are—
(1) to protect children whose habitual residence is the United States from wrongful abduction;
(2) to assist left-behind parents in quickly resolving cases and maintaining safe and predictable contact with their child while an abduction case is pending;
(3) to protect the custodial rights of parents, including military parents, by providing the parents, the judicial system, and law enforcement authorities with the information they need to prevent unlawful abduction before it occurs;
(4) to enhance the prompt resolution of abduction and access cases;
(5) to detail an appropriate set of actions to be undertaken by the Secretary of State to address persistent problems in the resolution of abduction cases;
(6) to establish a program to prevent wrongful abductions; and
(7) to increase interagency coordination in preventing international child abduction by convening a working group composed of presidentially appointed and Senate confirmed officials from the Department of State, the Department of Homeland Security, and the Department of Justice.

(2) MAP–21 included important reforms that must be built upon in the next reauthorization bill to increase the efficient and effective utilization of Federal funding;

(3) these reforms should include the elimination of duplicative Federal regulations and increase the authority and responsibility of the States to safely and efficiently build, operate, and fund transportation systems that best serve the needs of their citizens, including the ability of each State to implement innovative solutions, while also maintaining the appropriate Federal role in transportation; and

(4) Congress should enact and the President should sign a surface transportation reauthorization and reform bill prior to the expiration of this Act.

Public Law 113–162
113th Congress

An Act

To measure the progress of recovery and development efforts in Haiti following the earthquake of January 12, 2010, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Assessing Progress in Haiti Act of 2014”.

SEC. 2. FINDINGS.

Congress makes the following findings:

(1) On January 12, 2010, a massive earthquake struck near the Haitian capital city of Port-au-Prince, leaving an estimated 220,000 people dead, including 103 United States citizens, 101 United Nations personnel, and nearly 18 percent of the nation’s civil service, as well as 300,000 injured, 115,000 homes destroyed, and 1,500,000 people displaced.

(2) According to the Post Disaster Needs Assessment conducted by the Government of Haiti, with technical assistance from the United Nations, the World Bank, the Inter-American Development Bank, the Economic Commission for Latin America and the Caribbean, and the European Commission, an estimated 15 percent of the population was directly affected by the disaster and related damages and economic losses totaled $7,804,000,000.

(3) Even before the earthquake, Haiti had some of the lowest socioeconomic indicators and the second highest rate of income disparity in the world, conditions that have further complicated post-earthquake recovery efforts and, according to the World Bank, have significantly reduced the prospects of addressing poverty reduction through economic growth.

(4) According to the World Food Programme, more than 6,700,000 people in Haiti (out of a population of about 10,000,000) are considered food insecure.

(5) In October 2010, an unprecedented outbreak of cholera in Haiti resulted in over 500,000 reported cases and over 8,000 deaths to date, further straining the capacity of Haiti’s public health sector and increasing the urgency of resettlement and water, sanitation, and hygiene (WASH) efforts.

(6) The international community, led by the United States and the United Nations, mounted an unprecedented humanitarian response in Haiti, with donors pledging approximately $10,400,000,000 for humanitarian relief and recovery efforts, including debt relief, supplemented by $3,100,000,000 in private
charitable contributions, of which approximately $6,400,000,000 has been disbursed and an additional $3,800,000,000 has been committed as of September 30, 2013.

(7) The emergency response of the men and women of the United States Government, led by the United States Agency for International Development (USAID) and the United States Southern Command, as well as of cities, towns, individuals, businesses, and philanthropic organizations across the United States, was particularly swift and resolute.

(8) Since 2010, a total of $1,300,000,000 in United States assistance has been allocated for humanitarian relief and $2,300,000,000 has been allocated for recovery, reconstruction, and development assistance in Haiti, including $1,140,000,000 in emergency appropriations and $95,000,000 that has been obligated specifically to respond to the cholera epidemic.

(9) Of the $3,600,000,000 in United States assistance allocated for Haiti, $651,000,000 was apportioned to USAID to support an ambitious recovery plan, including the construction of a power plant to provide electricity for the new Caracol Industrial Park (CIP) in northern Haiti, a new port near the CIP, and permanent housing in new settlements in the Port-au-Prince, St-Marc, and Cap-Haïtien areas.

(10) According to a recent report of the Government Accountability Office, as of June 30, 2013, USAID had disbursed 31 percent of its reconstruction funds in Haiti, the port project was 2 years behind schedule and USAID funding will be insufficient to cover a majority of the projected costs, the housing project has been reduced by 80 percent, and the sustainability of the power plant, the port, and the housing projects were all at risk.

(11) GAO further found that Congress has not been provided with sufficient information to ensure that it is able to conduct effective oversight at a time when most funding remains to be disbursed, and specifically recommends that a periodic reporting mechanism be instituted to fill this information gap.

(12) Donors have encountered significant challenges in implementing recovery programs, and nearly 4 years after the earthquake, an estimated 171,974 people remain displaced in camps, unemployment remains high, corruption is rampant, land rights remain elusive, allegations of wage violations are widespread, the business climate is unfavorable, and government capacity remains weak.

(13) For Haiti to achieve stability and long term economic growth, donor assistance will have to be carefully coordinated with a commitment by the Government of Haiti to transparency, a market economy, rule of law, and democracy.

(14) The legal environment in Haiti remains a challenge to achieving the goals supported by the international community.

SEC. 3. STATEMENT OF POLICY.

It is the policy of the United States to support the sustainable rebuilding and development of Haiti in a manner that—

(1) promotes efforts that are led by and support the people and Government of Haiti at all levels so that Haitians lead the course of reconstruction and development of Haiti;
(2) builds the long term capacity of the Government of Haiti and civil society in Haiti;

(3) reflects the priorities and particular needs of both women and men so they may participate equally and to their maximum capacity;

(4) respects and helps restore Haiti’s natural resources, as well as builds community-level resilience to environmental and weather-related impacts;

(5) provides timely and comprehensive reporting on goals and progress, as well as transparent post program evaluations and contracting data;

(6) prioritizes the local procurement of goods and services in Haiti where appropriate; and

(7) promotes the holding of free, fair, and timely elections in accordance with democratic principles and the Haitian Constitution.

SEC. 4. SENSE OF CONGRESS.

It is the sense of Congress that transparency, accountability, democracy, and good governance are integral factors in any congressional decision regarding United States assistance, including assistance to Haiti.

SEC. 5. REPORT.

(1) establishing parenting time arrangements when obtaining child support orders is an important goal which should be accompanied by strong family violence safeguards; and

(2) States should use existing funding sources to support the establishment of parenting time arrangements, including child support incentives, Access and Visitation Grants, and Healthy Marriage Promotion and Responsible Fatherhood Grants.

An Act

To promote the non-exclusive use of electronic labeling for devices licensed by the Federal Communications Commission.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Enhance Labeling, Accessing, and Branding of Electronic Licenses Act of 2014” or the “E–LABEL Act”.

SEC. 2. FINDINGS.

Congress finds the following:

1. The Federal Communications Commission (referred to in this section as the “Commission”) first standardized physical labels for licensed products such as computers, phones, and other electronic devices in 1973, and the Commission has continually refined physical label requirements over time.

2. As devices become smaller, compliance with physical label requirements can become more difficult and costly.

3. Many manufacturers and consumers of licensed devices in the United States would prefer to have the option to provide or receive important Commission labeling information digitally on the screen of the device, at the discretion of the user.

4. An electronic labeling option would give flexibility to manufacturers in meeting labeling requirements.

SEC. 3. AUTHORIZATION FOR FEDERAL COMMUNICATIONS COMMISSION TO ALLOW ELECTRONIC LABELING.

Title VII of the Communications Act of 1934 (47 U.S.C. 601 et seq.) is amended by adding at the end the following:

“SEC. 720. OPTIONAL ELECTRONIC LABELING OF COMMUNICATIONS EQUIPMENT.

“(a) DEFINITIONS.—In this section—

“(1) the term ‘electronic labeling’ means displaying required labeling and regulatory information electronically; and

“(2) the term ‘radiofrequency device with display’ means any equipment or device that—

“(A) is required under regulations of the Commission to be authorized by the Commission before the equipment or device may be marketed or sold within the United States; and

“(B) has the capability to digitally display required labeling and regulatory information.”
“(b) REQUIREMENT TO PROMULGATE REGULATIONS FOR ELECTRONIC LABELING.—Not later than 9 months after the date of enactment of the Enhance Labeling, Accessing, and Branding of Electronic Licenses Act of 2014, the Commission shall promulgate regulations or take other appropriate action, as necessary, to allow manufacturers of radiofrequency devices with display the option to use electronic labeling for the equipment in place of affixing physical labels to the equipment.”

SEC. 4. SAVINGS CLAUSE.

The amendment made by section 3 shall not be construed to affect the authority of the Federal Communications Commission under section 302 of the Communications Act of 1934 (47 U.S.C. 302a) to provide for electronic labeling of devices.
